The University of Alberta

81-82 calendar

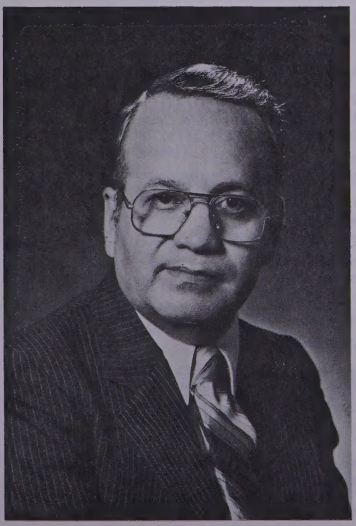
Past Presidents of The University of Alberta

Back Cover

Robert Newton *1941-1950*	Andrew Stewart *1950-1959*
Robert Charles Wallace *1928-1936*	Max Wyman *1969-1974*

Front Cover

Walter Hugh Johns *1959-1969*	William Alexander Robb Kerr *1936-1941*
Harry Emmet Gunning *1974-1979*	Henry Marshall Tory *1908-1928*



Myer Horowitz, President

Please Note

(1) Each student is responsible for the completeness and accuracy of his or her registration. Please read the calendar carefully and, if you are in doubt about the regulations pertaining to your program, consult the appropriate University official. (See item 7 below.)

(2) Please use this calendar when you register. The University cannot supply more than one copy to each student.

(3) The calendar sets forth the intention of the University at the time of its publication, with respect to all matters contained therein. The University reserves the right at any time to deviate from what appears in the calendar, either in order to serve the best interests of the University, or because of circumstances or occurrences beyond the University's reasonable control. The University expressly denies responsibility or liability to any person or persons who may suffer loss or who may be otherwise adversely affected by such change.

(4) The office hours of the University are from 8:30 a.m. to 12 noon and from 1:00 p.m. to 4:30 p.m. Monday to Friday (except holidays); in May, June, July, and August the office hours are basically from 8:00 a.m. to 4:00 p.m. with lunch from either 11:30 a.m. to 12:30 p.m. or 12:00 p.m. to 1:00 p.m. Telephone number: 432-3111 (area code 403).

(5) Professional Requirements: Any student or prospective student intending to enter a profession following graduation should get in touch with the appropriate faculty office in order to ascertain what requirements there are for professional registration above and beyond possession of the prescribed university degree or diploma. In some cases this information is provided in the faculty calendar.

(6) The following deadlines should be noted:

Applications— D.D.S. Program, February 2, 1981
LL.B. Program, February 27, 1981
B.F.A. Program (Drama), April 1, 1981
B.F.A. Program (Art & Design), May 1, 1981
Rehabilitation Medicine, May 1, 1981
Nursing, May 15, 1981
B.Ed. and B.Ed. / A.D. Programs, June 1, 1981
Dental Hygiene, Feb. 2, 1981
Other undergraduate programs, July 2, 1981
M.D. Program, November 2, 1981 (for admission to 1982-83 Session)
M.D. Program, November 1, 1982 (for admission to 1983-84 Session)

Other deadlines are set out in the Academic Schedule (see § 11).

(7) Inquiries should be directed as follows:
(All addresses should contain the suffix: University of Alberta, Edmonton, Alberta, T6G 2E2.)

On academic matters: The Dean of the appropriate faculty.

On admission of Canadian students, registration, records, transcripts, Convocation:
Office of the Registrar, 2nd Floor, Administration Building (432-3113).

On examinations and foreign admissions: Office of the Registrar,
1st Floor, Administration Building (432-5221 or 432-4981 respectively).

On change of faculty, interest and aptitude tests, personal problems, unsatisfactory standing, vocation planning, withdrawal from the University:
Student Counselling Services, 102 Athabasca Hall (432-5205).

On financial assistance, scholarships and awards:
Administrator of Student Awards, 252 Athabasca Hall (432-3495).

On University residence and other housing:
Director, Housing and Food Services, 44 Lister Hall (432-4281).

On student affairs: Dean of Students, Office of Student Services,
234 Athabasca Hall (432-2969).

On native affairs: Office of the Adviser on Native Affairs, 124 Athabasca Hall (432-5677).

On fee payments: Office of the Comptroller, 3rd Floor, Administration Building (432-3204).

Edited by the Examinations and Timetabling Division, Office of the Registrar.
Cover and title pages designed by the Office of Community Relations.
Printed by the Printing Department in co-operation with the Department of Computing Services.
The University of Alberta, Edmonton, Alberta, Canada, T6G 2E2.

University Regulations and Information for Students

11 ACADEMIC SCHEDULE 1981-82

A DETAILED ACADEMIC SCHEDULE FOR THE SPRING SESSION (MAY-JUNE) AND SUMMER SESSION (JULY-AUGUST) APPEARS IN THE SPECIAL SESSIONS CALENDAR. ALL DEADLINES IN THE ACADEMIC SCHEDULE ARE MARKED BY THE ■ SYMBOL.

11.1 July, 1981

Wednesday, 1

Seventy-fifth University year begins.

Statutory holiday; University buildings closed.

Thursday, 2

■ Last day for receiving applications for admission in the 1981-82 Session to all undergraduate programs except the following programs which have earlier deadlines: M.D. (November 3, 1980); D.D.S. and Dental Hygiene (February 2, 1981); LL.B. (February 27, 1981); B.F.A. Drama (April 1, 1981); B.F.A. Art and Design and Rehabilitation Medicine (May 1, 1981); B.Sc. in Nursing Basic and Post-basic programs (May 15, 1981): B.Ed. and B.Ed. A.D. (June 1, 1981); B.Sc. in Engineering applicants who have previously attended post-secondary institutions (June 15, 1981).

■ Last day for submission of all forms and supporting documents for transfer or admission to the Faculty of Business Administration and Commerce by University of Alberta students and by students who have attended other post-secondary institutions.

Friday, 3

■ Last day for receiving applications for regular supplemental and deferred final examinations granted by faculties.

Monday, 6

Six week Summer Session begins.

Wednesday, 15

■ Last day for students who have been required to withdraw to notify the Student Counselling Services that they are seeking re-admission.

■ Last day for applications for degrees in Business Administration and Commerce, Education, Home Economics, Pharmacy and Pharmaceutical Sciences, Physical Education and Recreation, Rehabilitation Medicine, and Science to be conferred at Fall Convocation.

11.2 August, 1981

Monday, 3

Heritage Day; University buildings closed.

Tuesday, 4

■ Last day for students who plan to register in September 1981 in an applied music course in voice or instrument to apply to the Department of Music for an audition.

Tuesday, 4 to Saturday, 8

Regular supplemental examinations, except for students in the LL.B. program (June 15 to 19, 1981).

Wednesday, 12

■ Last day for advance registration in on-campus late afternoon and evening credit courses, except in B.Ed. program (See June 1, 1981). New students must have applied for admission by July 2, 1981.

Friday, 14

■ Last day for submitting re-enrolment forms to the Faculty of Arts by students previously registered in another faculty and wishing to transfer in September.

Monday, 24

Orientation day for mature students.

Monday, 24 to Friday, 28

■ Last week for securing departmental approval of Graduate Program forms.

Tuesday, 25 to Friday, 28

Orientation week for foreign students.

Orientation exercises for students in first year of LL.B. program.

Monday, 31

Orientation day for Mature Students.

11.3 September, 1981

Tuesday, 1

Orientation begins for students in Dentistry.

Classes begin in first, second and third years of the LL.B. program, and in first and second years of the M.D. program.

Advance registrants pick-up class timetables and I.D. cards.

Wednesday, 2

9 A.M. Registration and beginning of orientation exercises for students in Dental Hygiene.

Wednesday, 2 to Friday, 4

In-person registration (in accordance with the published schedule) of all new students except in Dentistry, Dental Hygiene, Law, and Medicine, and of former and continuing students who have not advance registered.

Saturday, 5

Special supplemental examinations.

Monday, 7

Labor Day; University buildings closed.

Tuesday, 8

Classes begin for remaining students.

■ Last day for registration or for course or course section changes in First Term and full session courses by students in Law.

Thursday, 17

■ Last day for registration or for course or course section changes, or for changing from "audit" to "credit" in first term and full session courses by undergraduate students, except in Law (see Sept. 8).

Friday, 18

■ Last day for adding First Term and full session courses to registrations in the Faculty of Graduate Studies and Research.

Friday, 25

■ Last day for withdrawal from courses in Dentistry and Dental Hygiene.

Wednesday, 30

■ Last day for payment of undergraduate fees without penalty. (See Regulations § 15.2.)

■ Last day to apply for degrees in Arts to be conferred at Fall Convocation.

11.4 October, 1981

Thursday, 1

■ Last day for non-matriculated adults to apply for admission in the Second Term to the Faculty of Arts.

Monday, 12

Thanksgiving Day; University buildings closed.

Thursday, 15

Registrations of undergraduate students who have not paid at least the first installment of their fees by this date will be subject to cancellation. (See Regulations § 15.2.)

Friday, 16

■ Last day for submission of unbound theses and Notices of Completion of Non-Thesis Programs to the Faculty of Graduate Studies and Research to ensure graduation at Fall Convocation.

Monday, 19

■ Last day for dropping First Term courses or changing from "credit" to "audit" or "audit" to "credit" in First Term courses in the Faculty of Graduate Studies and Research.

Monday, 19 to Friday, 23

Mid-term Test Week. Off-campus University organized extra-curricular activities will not normally be allowed during this week.

Wednesday, 28

■ Last day for withdrawing from First-Term courses or for changing from "credit" to "audit" in First Term courses by students in the Faculty of Law.

11.5 November, 1981

Monday, 2

■ Last day for receiving applications for admission to the M.D. program in the 1982-83 Session.

■ Last day for submitting applications for admission or re-enrolment to the Second Term, complete with all supporting documents, to the Faculty of Education.

Friday, 6

■ Notice of intention regarding attendance at Fall Convocation must be given by 4:30 p.m.

Wednesday, 11

Remembrance Day; University buildings closed.

Thursday, 12

■ Last day for withdrawing from First Term courses, or changing from "credit" to "audit" in First Term courses by students in the Faculties of Agriculture and Forestry, Arts, Business Administration and Commerce, Education, Engineering, Home Economics, Medicine, Nursing, Pharmacy and Pharmaceutical Sciences, Physical Education and Recreation, Rehabilitation Medicine, Faculté Saint-Jean and Science.

Saturday, 21

Fall Convocation.

11.6 December, 1981

Tuesday, 1

■ Last day for receiving applications for admission to programs commencing in the Second Term except in the Faculty of Education (See Nov. 2).

■ Last day for students in good standing in another faculty to re-enrol in the Second Term in the Faculty of Arts.

■ Last day for submission of applications for admission to Post-graduate Diploma in Dentistry program in the 1982-83 Session.

Friday, 4

■ Last day for First Term classes in Law.

Monday, 7

■ Last day of classes in First Term, except students in Dentistry and Medicine (see December 18).

Wednesday, 9 to Saturday, 19

Mid-session examinations for students in the Faculty of Law will be held within this period.

**Monday, 14 to Friday, 18*

Mid-session Examinations. Off-campus University organized extra-curricular activities will not normally be allowed during this period.

**Mid-session or Final Examinations (IF ANY) for all on-campus courses offered at 1700 hours or later, are to be held during the last regular class period.*

Tuesday, 15

■ Last day to apply for degrees in Arts to be conferred at Spring Convocation.

Friday, 18

■ Last day of First Term classes and examinations in Dentistry and Medicine.

Saturday, 19

Christmas vacation begins.

11.7 January, 1982

Monday, 4

8 a.m. Second Term classes begin.

Four week clinical session begins for students in Advanced Practical Obstetrics (Nursing).

Monday, 11

■ Last day for registration, or for course or course section changes in Second Term courses, or for changing from "audit" to "credit" by undergraduate students.

Tuesday, 12

■ Last day for withdrawing from full-session courses or for changing from "credit" to "audit" in full-session courses by students in the Faculty of Law.

Friday, 15

■ Last day for payment without penalty of second installment of fees, or of fees assessed for students attending only in Second Term. (See Regulations § 15.2).

Thursday, 28

■ Last day for adding Second Term courses to registration in the Faculty of Graduate Studies and Research.

11.8 February, 1982

Monday, 1

■ Last day for application for degrees in Business Administration and Commerce, Education, Home Economics, Pharmacy and Pharmaceutical Sciences, Physical Education and Recreation, Rehabilitation

Medicine, and Science to be conferred at Spring Convocation.

Registrations of students who have not paid second installment of fees or Second Term fees by this date are subject to cancellation (See Regulations § 15.2).

Tuesday, 2

■ Last day for applications for admission to the undergraduate Dentistry and Dental Hygiene programs.

Wednesday, 3

12 noon to 1 p.m. Students' Union Election Rally. Classes withdrawn for this hour.

Friday, 12

■ Last day for withdrawing from full-session courses or for changing from "credit" to "audit" in full-session courses by students in the following faculties: Agriculture and Forestry, Arts, Business Administration and Commerce, Education, Engineering, Home Economics, Library Science, Medicine, Nursing, Pharmacy and Pharmaceutical Sciences, Physical Education and Recreation, Rehabilitation Medicine, Faculté Saint-Jean, and Science.

Monday, 15

■ Last day for dropping Second Term courses or full-session courses, or changing from "credit" to "audit" or "audit" to "credit" in Second Term or full-session courses in the Faculty of Graduate Studies and Research.

Monday, 15 to Friday, 19

Mid-term Test Week. Off-campus University organized extra-curricular activities will not normally be allowed during this week.

Monday, 22 to Sunday, 28

Second Term Reading Week; classes withdrawn for full week.

Friday, 26

■ Last day for receiving applications for admission to the LL.B. program.

■ Last day for withdrawing from Second Term courses or for changing from "credit" to "audit" in Second Term courses by students in the Faculty of Law.

Friday, 26 and Saturday, 27

University orientation.

11.9 March, 1982

Monday, 1

■ Last day for withdrawing from Second Term courses, or for changing from "credit" to "audit", in Second Term courses, by students in the following faculties: Agriculture and Forestry, Arts, Business Administration and Commerce, Education, Engineering, Home Economics, Medicine, Nursing, Pharmacy and Pharmaceutical Sciences, Physical Education and Recreation, Rehabilitation Medicine, Faculté Saint-Jean, and Science.

■ Last day for receiving applications for admission for Spring Session 1982.

Monday, 15

Advance registration in the 1982-83 Winter Session begins for continuing students in undergraduate programs.

Wednesday, 17

■ Last day for applications for supplemental examinations to be written in April.

11.10 April, 1982

Thursday, 1

■ Last day for receiving applications for admission to the B.F.A. (Drama) program.

■ Last day for receiving registrations for Spring Session 1982.

■ Last day for receiving applications for Admission for Summer Session 1982.

Wednesday, 7

■ Last day of classes except for students in Dentistry, and Medicine.

■ Last day for payment of Survey School fees for second-year Civil, Mining, and Agricultural Engineering students.

Friday, 9

Good Friday; University buildings closed.

Monday, 12

■ Last day for payment of Spring Camp fees for students registered in FOR 301.

**Tuesday, 13*

Final examinations begin except for students in Dentistry and Medicine.

**Final Examinations (IF ANY) for all on-campus courses offered at 1700 hours or later, are to be held during the last regular class period.*

Tuesday, 13 to Wednesday, 28

Final examinations in Law.

Friday, 23

Last day of classes for students in Dentistry.

Monday, 26

Four week Clinical Session for students in the third year of the B.Sc. in Nursing Basic degree program and one week of field experience in Community Health Nursing in the B.Sc. in Nursing Post-basic program begin.

■ Last day for submission of unbound theses and Notices of Completion of Non-thesis Programs to the Faculty of Graduate Studies and Research to ensure graduation at Spring Convocation.

Monday, 26 to Saturday, May 8

Survey School for second-year Civil, Mining, and Agricultural Engineering Students.

Wednesday, 28

■ Last day of classes in first and second years of the M.D. program.

Thursday, 29

Final examinations begin in Dentistry.

Friday, 30

■ Last day for continuing students in B.A., B.F.A. or B Mus. programs to advance register.

Last day for receiving registrations for Summer Session 1982.

11.11 May, 1982

Monday, 3

■ Last day for receiving applications for admission to B.F.A. (Art and Design) and Rehabilitation Medicine programs.

Third year B.Sc. (M.L.S.) students begin year of practical training.

Hospital practice begins for students in Faculty of Rehabilitation Medicine.

Spring Session First Term and full courses begin. (Classes will be held on Saturday, May 28, in lieu of the May 24, Victoria Day holiday).

Comprehensive examinations begin in first, second and fourth years of M.D. program.

Friday, 7

■ Last day of program in fourth year Medicine.

Sunday, 9

Charter Day.

Tuesday, 11 and Wednesday, 12

Medical Council of Canada examinations.

Wednesday, 12

■ Notice of intention regarding attendance at Spring Convocation must be given by 12 noon.

Monday, 17

■ Last day for applications to B.Sc. in Nursing Basic and Post-Basic degree programs.

Monday, 24

Victoria Day; University buildings closed.

Tuesday, 25

Second Term courses begin for Spring Session 1982.

Monday, 31 to Thursday, June, 3

Convocation (Parts I to IV).

11.12 June, 1982

Tuesday, 1

■ Last day for non-matriculated adults to apply for admission to the First Term in the Faculty of Arts.

■ Last day for receiving applications for admission and applications for re-enrolment for persons wishing to enter the B.Ed. and B.Ed./A.D. programs in the First Term of the 1982-83 Winter Session. Applications received after this date will be considered only if resources permit.

■ Last day for students in the Faculty of Education to advance register for on-campus evening courses. Education students not registered by this date must register at the in-person registration (in accordance with the published schedule).

Friday, 4

■ Last day for advance registration of students in the Faculty of Arts who have transferred to Honors, B.F.A., or B.Mus. programs.

Monday, 14 to Friday, 18

Regular Supplemental examinations for students in the LL.B. program.

Tuesday, 15

■ Last day for students who have been required to withdraw to notify their Dean that they wish to seek re-admission.

■ Last day for submission of all forms and supporting documents for re-admission after an absence, or for transfer, or for admission to the B.Sc. in Engineering program by University of Alberta students and by students who have attended other post-secondary institutions.

Wednesday, 30

■ Last day of classes in third year of M.D. program.

Seventy-fifth University year ends.

12 CLASSIFICATION OF PROGRAMS AND STUDENTS

12.1 Programs of Study

The faculties of the University offer programs leading to a degree, a diploma, or entrance to a further program, as shown below. Years of study are counted from university matriculation unless otherwise noted.

	Years of Study
Faculty of Agriculture and Forestry	
B.Sc. (Agricultural Engineering)	4
B.Sc. (Agriculture)	4
B.Sc. (Food Science) (inter-disciplinary program)	4
B.Sc. (Forestry)	4
Pre-Veterinary Medicine program (leading to entrance to Veterinary Medicine program at The University of Saskatchewan)	2
Faculty of Arts	
B.A. (Honors)	4
B.A. (General)	3
B.A. (Special)	4
B.A. (Special) in East Asian Studies	4
B.F.A.	4
B.Mus.	4
B.A. (Canadian Studies)	4
Faculty of Business Administration and Commerce	
B.Com.	4
Faculty of Dentistry	
D.D.S. (after two pre-professional years)	4
Postgraduate Diploma — See Faculty of Dentistry Calendar	
Dental Hygiene Diploma	2
Faculty of Education	
B.Ed. (Elementary, Industrial Arts, Secondary, Special, or Vocational route)	4
Graduate diploma in Education, or B.Ed. after previous degree — see Faculty of Education Calendar.	
Faculty of Engineering	
B.Sc. (Chemical, Civil, Electrical, Mechanical, Metallurgical, Mineral, Mining, Petroleum	4
Faculty of Home Economics	
B.Sc. (H.Ec.) (Clothing and Textiles, Foods and Nutrition, or Family Studies program)	4
Faculty of Law	
LL.B. (after a University degree or two years of study acceptable to a University in Alberta towards a B.A. degree)	3
LL.B./M.B.A. (combined program)	4
Faculty of Library Science	
M.L.S. (Two post-graduate years. See Faculty of Library Science calendar.)	
Faculty of Medicine	
M.D. (after two pre-professional years)	4
B.Sc. (Medical Laboratory Science)	4
Faculty of Nursing	
B.Sc.N.	4
B.Sc.N. (post-basic program, after hospital graduation and at least one year of experience.)	2
Faculty of Pharmacy and Pharmaceutical Sciences	
B.Sc.	4
Faculty of Physical Education and Recreation	
B.P.E.	4
B.A. (Recreation Administration)	4
Faculty of Rehabilitation Medicine	
B.Sc. (Physical Therapy)	4
B.Sc. (Occupational Therapy) (pre-professional year required)	3
B.Sc. (Speech Pathology and Audiology) (pre-professional year required)	3
Teaching Diploma in Occupational Therapy (after graduation in Occupational Therapy and at least two years of clinical experience)	2
Faculté Saint-Jean	
Faculté Saint-Jean offers B.A. (General), B.A. (Special), B.Sc. (General), and B.Sc. (Specialization) programs, a four year B.Ed. program, and a two year B.Ed. after previous degree program for students wishing to study in a bilingual and bicultural environment.	
Faculty of Science	
B.Sc. (Honors)	4
B.Sc. (Specialized)	4
B.Sc. (General)	3
Faculty of Graduate Studies and Research	
M.A., M.B.A., LL.B./M.B.A. (combined program), M.Ed., M.Eng., M.F.A., M.Pharm., M.H.S.A., M.L.S., M.Mus., M.Nurs., LL.M., M.Sc., M.V.A., Ph.D., Ed.D., D.Mus., M.Ag.— See Graduate Studies and Research Calendar, §§ 201 to 204.	

12.2 Classification of Students

12.2.1 UNDERGRADUATE AND GRADUATE STUDENTS

(1) *Undergraduate students* are those who are registered in a faculty other than the Faculty of Graduate Studies and Research. These students fall into two categories:

(i) Full-time students — those who are enrolled in the equivalent of three or more half courses in a term.

(ii) Part-time students — those who are enrolled in the equivalent of fewer than three half courses in a term.

(2) *Graduate students* are those who have been admitted to the Faculty of Graduate Studies and Research. These students are designated as "Full-time" or "Part-time" by the Faculty of Graduate Studies and Research according to their workload of courses and/or research. A more detailed classification of graduate students will be found in § 202.1 of the Graduate Studies and Research Calendar.

12.2.2 INTRAMURAL AND EXTRAMURAL STUDENTS

(1) *Intramural Students* are those who are attending The University of Alberta at Edmonton or any of its off-campus centres.

(2) *Extramural Students* are those who, although not attending The University of Alberta at Edmonton or any of its off-campus centres, are permitted to take one or more courses by correspondence or directed study. This privilege may be granted by a faculty in special circumstances.

12.2.3 CLASSIFICATION OF UNDERGRADUATE STUDENTS

(1) *Degree, Diploma, or Certificate Program Students* are those who are registered in a program leading to a degree, diploma, or certificate normally granted by The University of Alberta.

(2) *Special Students* are those who have been permitted to register in one or more courses, but not officially for credit towards a degree or diploma at this or any other institution.

(3) *Visiting Students* are bona fide students of other universities or colleges, who have been permitted to take one or more courses for transfer of credit to their own institutions which have agreed in advance to such an arrangement.

(4) *Probationary Students* are students who have been admitted (or permitted to continue) on a probationary basis, because their previous academic record is either deficient in some respect, below the standard ordinarily required, or difficult to assess. Normally, if such students fail to meet the conditions stipulated within the time limit imposed, they will not be allowed to proceed further in their program.

12.2.4 AUDITORS

Auditors are not necessarily admitted students and are not registered for credit, but are attending one or more courses under the following conditions:

*(i) The individual must receive permission from the course instructor, the chairman of the department, and the dean of the faculty in which the course is offered, and the dean of the Faculty in which the auditor is registered.

*(ii) Such permission shall not in itself be a guarantee of admission to the class. The final decision shall weigh class size, impact on credit students, and other factors that the instructor, department or faculty establishes.

*(iii) Courses audited in this manner will not be considered as meeting prerequisite, admission, or course requirements for any University degree program.

(iv) Individuals auditing courses shall limit their participation in the class to that deemed appropriate by the instructor.

*Since final permission to audit a course cannot be given until the number of students registered in the course for credit is known, students and others should not seek authority to register as auditors until the in-person period of registration is completed. The conditions under which a student in one of the other categories listed above may audit courses are given in § 15.1.7.

12.3 Evening Credit Program (Off-Campus), Spring Session and Summer Session

For students living outside the Edmonton area, there are courses offered in the Evening Credit Program on weekday evenings and Saturdays. In 1980-81, centres which provided courses included: Bonnyville; Calgary; Camrose; Drayton Valley; Fort McMurray; Fort Saskatchewan; Grande Centre; Grande Prairie; Lac La Biche; Lloydminster; Red Deer; Regina; Saddle Lake; Slave Lake; Smoky Lake; Spruce Grove; St. Paul; Vegreville; and Viking. A Special Sessions calendar, obtainable from the Office of the Registrar, lists such courses.

In its Spring and Summer Sessions at Edmonton, The University of Alberta offers a considerable selection of courses for the convenience of students who are unable to attend the regular session. Special attention is given to meeting the needs of teachers desirous of improving their professional qualifications. A Special Sessions calendar may be obtained from the Office of the Registrar.

13 ADMISSION

13.1 Matriculation from Alberta: University Requirements

13.1.1 MATRICULATION FROM ALBERTA HIGH SCHOOLS

Every applicant for admission from the high schools of Alberta must normally possess a High School Diploma and an average of at least 60.0% on five appropriate Grade XII subjects and a mark of at least 50% in each. Faculties may require a higher average or exclude specified subjects from the computation of the matriculation average; when either is done, it is indicated in the detailed requirements of the faculty. (See § § 13.3 to 13.19).

Possession of the minimum requirements does not guarantee admission to the university. The University of Alberta may at its discretion refuse admission to any applicant. Admission will normally be refused to an applicant who has had to write what the University considers an inordinate number of examinations in order to attain the nominal entrance requirements of the University.

NOTE A: Biology 32 will be accepted as a matriculation subject if taken before September 1965, and if Biology 30 is not presented in addition.

NOTE B: Language Credits. Applicants wishing to present a language other than one of those presented at the Grade XII level in Alberta should contact the dean of the faculty to which they seek admission.

NOTE C: In some faculties Mathematics 33 may be accepted as a matriculation subject; when it is acceptable this will be indicated in the detailed requirements. In such cases it cannot be presented in addition to Mathematics 30, nor with a subject from Group B (Fine Arts) or with any other subject not listed under Groups A (Humanities) or C (Sciences). Mathematics 33 is not an acceptable prerequisite for university level courses in Mathematics.

13.1.2 LIMITATION ON ENROLMENT IN QUOTA FACULTIES

Enrolment in any faculty will necessarily be limited to the number of students who can be accommodated. When the number of applicants exceeds the number of places available, students are normally accepted in the order of their academic standing from among the whole list of applicants.

Up to 85 per cent of the places in quota faculties are

normally reserved for Alberta residents (as defined below*). For the remaining places, the residence constraints do not apply: our goal is to make at least 5 per cent of the places in quota programs available to foreign students, and at least 10 per cent to non-Alberta Canadians, providing that no non-resident of Alberta is admitted who is less qualified than any Alberta resident who is denied admission.

Prospective students should enquire of the Registrar's Office or individual faculties as to grade point average and other requirements necessary for admission in the previous year, and also as to the number of places available in the desired program.

Limited enrolment is now in force in the following Faculties or Departments: Agriculture and Forestry (B.Sc. in Agricultural Engineering program only), Arts (B.F.A. Drama program only), Business Administration and Commerce, Dental Hygiene, Dentistry, Engineering, Law, Medical Laboratory Science, Medicine, Nursing, Pharmacy and Pharmaceutical Sciences, Physical Education and Recreation, and Rehabilitation Medicine.

Upon notification of acceptance, successful applicants will be required to confirm their intention to register by submitting a non-refundable $50.00 deposit within a specified time. The deposit will be credited toward payment of tuition upon completion of registration.

*A resident of Alberta is defined as a Canadian citizen or Permanent Resident (Landed Immigrant) who has been domiciled in the Province of Alberta or Yukon or Northwest Territories for at least one continuous year immeditately prior to the date of intended registration at the University.

13.2 Admission Requirements

13.2.1 GENERAL INFORMATION

Matriculation requirements at The University of Alberta vary somewhat from one faculty to another. Prospective students should be aware that their choice of matriculation subjects can affect the number of faculties that they will be qualified to enter. If they wish to obtain the maximum freedom of choice among the various faculties, they should take the following six matriculation subjects:

(i) English 30
(ii) Mathematics 30
(iii) Chemistry 30
(iv) a language other than English
(v) an additional subject in Humanities or Fine Arts (as listed in Groups A and B, § 13.2.3 below)
(vi) an additional subject in the Sciences (as listed in Group C, § 13.2.3 below)

13.2.2 PATTERNS OF MATRICULATION REQUIREMENTS

There are four basic patterns of matriculation requirements for admission to The University of Alberta, in each of which some subjects are required while other subjects are optional. Each faculty defines its matriculation requirements in terms of one of these four patterns, usually making some suggestions as to the optional subjects it regards as most appropriate for a prospective student.

The patterns are as follows:

Pattern I
(1) English 30
(2) Mathematics 30
(3) One subject from Group C (Science)
(4) One subject from Group C (Science)
(5) One subject from Groups A, B, or C.

Pattern II
(1) English 30
(2) Chemistry 30
(3) One subject from Group C (Science)
(4) One subject from Group C (Science)
(5) One other subject from Groups A, B, or C

Pattern III
(1) English 30
(2) Language other than English
(3) One subject from Group A or B (Humanities or Fine Arts)
(4) One subject from Group C (Science)
(5) One other subject from Groups A or C

Pattern IV
(1) English 30
(2) One subject from Groups A or C (Humanities or Science)
(3) One subject from Groups A or C (Humanities or Science)
(4) One subject from Groups A or C (Humanities or Science)
(5) Another grade XII subject carrying weight of five credits

13.2.3 CLASSIFICATION OF MATRICULATION SUBJECTS

For the purpose of describing the matriculation pattern above, acceptable Grade XII subjects have been placed in three groups, as follows:

Group A (Humanities)
(1) Social Studies 30
(2) Language (other than English)
(3) Second Language (other than English)
(4) Subject to the conditions noted under the detailed Faculty requirements, *two* of:
Experimental Psychology 30
World Religions 30
Applied Sociology 30
World Geography 30
Philosophies of Man 30
Cultural and Physical Anthropology 30
World History 30
International Politics 30
Microeconomics 30
Macroeconomics 30

Group B (Fine Arts)
(1) Art 30
(2) Art 31
(3) Commercial Art 32
(4) Drama 30
(5) Music 30
(6) Music 31
(7) Performing Arts 32

Group C (Sciences)
(1) Biology 30
(2) Chemistry 30 or 30X
(3) Mathematics 30
(4) Mathematics 31
(5) Physics 30 or 30X

The required subjects for each of the faculties, together with suggested options, are listed below.

13.3 *Faculty of Agriculture and Forestry*

13.3.1 B.SC. PROGRAMS IN AGRICULTURE AND FORESTRY

Matriculation subjects on Pattern I
(1) English 30
(2) Mathematics 30
(3) Subject from Group C (Biology 30 suggested)
(4) Subject from Group C (Chemistry 30 suggested)
(5) Subject from Group A or B or C

Matriculation Subjects from Alberta Agricultural and Vocational Colleges

Alberta Agricultural and Vocational College students applying for admission must present their College Diploma together with three subjects from Group C (Sciences). "C" or higher standing is required in the Group C (Science) subjects. For those subjects taken in 1969 or earlier a "B" or higher standing is required.

13.3.2 INTERDISCIPLINARY B.SC. PROGRAM IN FOOD SCIENCE

A four-year interdisciplinary program in Food Science is offered jointly by the Faculty of Agriculture and Forestry, the Faculty of Home Economics, and the Faculty of Science.

Matriculation Subjects on Pattern II
(1) English 30
(2) Chemistry 30
(3) Subject from Group C (Biology 30 suggested)
(4) Subject from Group C (Mathematics 30 suggested)
(5) Subject from Group A or B or C

Inquiries should be directed to the Dean, Faculty of Agriculture and Forestry.

13.3.3 PRE-VETERINARY MEDICINE PROGRAM

A two-year pre-Veterinary Medicine program at The University of Alberta is designed to qualify students to apply for admission to the Veterinary Medicine program at The University of Saskatchewan.

Matriculation Subjects on Pattern I
(1) English 30
(2) Mathematics 30
(3) Subject from Group C (Biology 30 recommended)
(4) Subject from Group C (Chemistry 30 recommended)
(5) Subject from Group A or B or C

13.3.4 B.SC. IN AGRICULTURAL ENGINEERING

See § 13.8 (B.Sc. in Engineering) for admission requirements.

13.4 *Faculty of Arts*

13.4.1 B.A. PROGRAM

Matriculation Subjects on Pattern III
(1) English 30
(2) Language (other than English)
(3) Subject from Group A or B (Social Studies 30 recommended)
(4) Subject from Group C
(5) Subject from Group A or C (or B, if a Group B subject is not used for (3) above).

NOTE A: *Mathematics 30.* Students proposing to specialize in Economics, Mathematics, Political Science, or Psychology are advised to offer Mathematics 30 as one of their options. At considerably less convenience to themselves, students who lack credit in Mathematics 30 may enrol for Mathematics 100 during their first year at the University, in order to prepare for such specialization.

NOTE B: *Mathematics 31* is required for the B.A. with Honors in Mathematics.

NOTE C: *Equivalents of Music 30 or 31.* In terms of the Western Board of Music, the qualifications equivalent to Music 30 or 31 would be Grade VIII Practical and Grade IV Theory. In terms of the Royal Conservatory of Music of Toronto, the equivalent would be Grade VIII Practical and Grade II Theory and Grade III Harmony. Documents from the Western Board of Music or the Royal Conservatory must be presented to the Alberta Department of Education for evaluation.

NOTE D: Additional subjects listed in Group A (4) will not be accepted in lieu of any of the five subjects required for admission to the Faculty of Arts.

NOTE E: *Matriculation Deficiencies.* Courses (usually numbered 100) at the Grade XII level are offered at the University for students who are beginning their study of a particular subject. A matriculant admissible to any other faculty in the University, but deficient one of the subjects required by the Faculty of Arts may be admitted to make up that deficiency for degree credit. A matriculant with more than one such deficiency is not eligible for admission to the Faculty of Arts.

13.4.2 B.F.A. (ART AND DESIGN) PROGRAM

(1) English 30
(2) to (5) Any four of: Social Studies 30, a language other than English, Biology 30, Chemistry 30, Physics 30, Mathematics 30 or 31, one approved Fine Arts subject.

NOTE A: Because enrolment is necessarily limited and because the studies in this interpretive-creative field involve highly specialized training, candidates will be required to satisfy a selection committee that they have the necessary ability and degree of commitment to undertake the program. The selection committee will base its decision upon the evidence derived from an assessment of any course that may have been taken and work done by the candidate, and the testimony of his or her teachers. Assessment may include a special examination and an interview.

NOTE B: As the submission of a portfolio is necessary, candidates are encouraged to apply as early as January 1. Since the assessment of portfolios takes place in the period May 1 to June 30, portfolios and applications must be received not later than May 1.

NOTE C: Enquiries regarding the professional requirements for admission to this program should be directed in the first instance to: the Department of Art and Design, University of Alberta, Edmonton, Alberta, T6G 2E1; or phone 432-3261.

13.4.3 B.F.A. (DRAMA) PROGRAM

(1) English 30
(2) to (5) Any four of: Social Studies 30, a language other than English, Biology 30, Chemistry 30, Physics 30, Mathematics 30 or 31, one approved Fine Arts subject.

NOTE A: Because enrolment is necessarily limited and because the studies in this interpretive-creative field involve highly specialized training, candidates will be required to satisfy a selection committee that they

have the necessary ability and degree of commitment to undertake the program. The selection committee will base its decision upon the evidence derived from an assessment of any courses in drama that may have been taken by the candidate, the testimony of his or her teachers, experience in dramatic work, and an interview or audition at a centre to be arranged.

NOTE B: As auditions are necessary, candidates are encouraged to apply as early as January 1. Since auditions conducted outside Alberta normally take place in early May, applications should be received not later than April 1.

NOTE C: A non-refundable deposit towards tuition fees, will be required of successful applicants, on official notification of acceptance. (See § 13.1.3)

NOTE D: Enquiries regarding the professional requirements for admission to this program should be directed in the first instance to: the Department of Drama, University of Alberta, Edmonton, Alberta, T6G 2E1; or phone 432-2274.

13.4.4 B.MUS. PROGRAM

(1) English 30
(2) A language other than English
(3) to (5) Any three of: Social Studies 30, a second language other than English, Biology 30, Chemistry 30, Physics 30, Mathematics 30 or 31, one approved Fine Arts subject.

NOTE A: Because enrolment is necessarily limited and because the studies in this interpretive-creative field involve highly specialized training, candidates will be required to satisfy a selection committee that they have the necessary ability and degree of commitment to undertake the program. The selection committee will base its decision upon evidence derived from an assessment of music examinations that may have been taken by the candidate, an interview, and an audition.

NOTE B: Candidates are encouraged to apply as early as January 1, even though applications will be received until July 2. Auditions will be arranged during the period April 1 to August 15.

NOTE C: Enquiries regarding the professional requirements for admission to this program should be directed in the first instance to: the Department of Music, University of Alberta, Edmonton, Alberta, T6G 2E1; or phone 432-3263.

13.5 Faculty of Business Administration and Commerce

13.5.1 B.COM. PROGRAM

(1) English 30
(2) Mathematics 30
(3) Subject from Group A or C (Social Studies 30 suggested)
(4) Subject from Group A or C
(5) Subject from Group A or B or C

NOTE A: The requirements of this Faculty differ from Pattern I in that it will accept three subjects from Group A.

NOTE B: Not more than one combination of two of the subjects listed in Group A (4) will be accepted as a matriculation subject, provided Social Studies 30 is not also accepted.

NOTE C: Prior years' experience under the quota indicates that the Faculty is unlikely to be able to admit applicants having averages of 70% or below.

13.6 Faculty of Dentistry

13.6.1 D.D.S. PROGRAM

Satisfactory completion of at least two full years (i.e. 10 full courses) of university work after senior matriculation, including full courses in inorganic chemistry, organic chemistry, physics, and biology. In general, consideration for admission to the limit of available accommodation will be given to those students who meet the minimum criteria established by the admissions committee at the time of selection. Matriculants are advised to enter the Faculty of Science, the Faculty of Arts or Faculté Saint-Jean to fulfill the requirements. All applicants will be required to take the Canadian Dental Association Aptitude Test. A personal interview is a requirement for admission. For further details see § 67.1 of the Faculty of Dentistry Calendar.

13.6.2 DENTAL HYGIENE DIPLOMA

Matriculation Subjects on Pattern II
(1) English 30
(2) Chemistry 30
(3) Biology 30
(4) Subject from Group A or C
(5) Subject from Group A or C

NOTE A: The requirements of this Program differ from Pattern II in that it will accept two subjects from Group A provided that they are not both languages (other than English). Moreover, the Program will not accept a subject from the Approved Fine Arts group. Mathematics 33 will be accepted as one of the optionl subjects if not presented with Mathematics 30.

NOTE B: *Interview.* A personal interview is a requirement for applicants resident in the Province of Alberta. The interview schedule differes from year to year, therefore, applicants will be advised of the arranged interview date by mail. Out-of-Province applicants are required to write a Statement of Self-Assessment, in lieu of the interview. The Statement of Self-Assessment form will be mailed to the applicant, upon receipt of her/his application to the Dental Hygiene Division at the University of Alberta.

NOTE C: *Aptitude test.* All applicants are now required to write the Dental Hygiene Aptitude Test. Since the test dates are January, February and March, 1981, application by December 1, 1980 is encouraged. Test application forms may be obtained from the Division of Dental Hygiene Room 2032, Dentistry-Pharmacy Center, University of Alberta, Edmonton, Alberta, Telephone 432-4150 or 432-4479.

NOTE D: *Academic Standing.* Enrolment in the Dental Hygiene Diploma Program is limited. Applicants profiles are made up of: Academic Standing, DHAT Score, Interview Score OR Statement of Self Assessment Score. Minimum criteria are established for each of the above factors. An applicant who falls below the minimum in any one of the above factors will not be considered for admission.

NOTE E: *Dental Examination.* All accepted candidates are required to have a dental examination form (available from the Dental Hygiene Division Office) completed by a dentist and returned to the Chairman, Division of Dental Hygiene the week after registration.

NOTE F: Further information is given in § 67.1.3 of the Faculty of Dentistry Calendar.

13.7 Faculty of Education

13.7.1 B.ED. PROGRAM

Matriculation Subjects on Pattern IV
(1) English 30
(2) Subject from Group A or C
(3) Subject from Group A or C
(4) Subject from Group A or C
(5) Another Grade XII subject carrying a minimum weight of five credits

NOTE A: *Choice of Matriculation Subjects.* Matriculants are advised to present those Grade XII subjects basic to the subject area in which they plan to specialize.

NOTE B: *Choice of the Second, Third and Fourth Subjects.* A combination of two of the subjects listed in Group A (4) will be accepted as the second, third or fourth matriculation subject provided Social Studies 30 is not also one of those subjects.

NOTE C: *Choice of the Fifth Subject.* A student may not present for admission as the fifth subject a subject in the same field as one of the other four subjects except where the subject used as one of the first four subjects is a prerequisite or a corequisite for the fifth subject.

NOTE D: *Equivalents of Music 30 and 31.* In terms of the Western Board of Music, the qualifications equivalent to Music 30 or 31 would be Grade VIII practical and Grade IV theory. In terms of the Royal Conservatory of Music of Toronto, the equivalent would be Grade VIII Practical and Grade II Theory and Grade III Harmony. Documents from the Western Board of Music or the Royal Conservatory must be presented to the Alberta Department of Education for evaluation.

NOTE E: *Vocational Education Route.* To gain admission to a B.Ed. program, Vocational Education route, a student must meet special admission requirements. These requirements are outlined in detail in § 73.5.1 of the Faculty of Education Calendar. A student might present the following modified matriculation pattern:
(1) English 30
(2) Subject from Group A or C
(3) Subject from Group A or C
(4) Vocational Education 32 subject
(5) Vocational Education 32 subject
The average on (1), (2), and (3) must be at least 60% with no grade below 50%. The average on (4) and (5) must be at least 65% with no grade below 50%.

NOTE F: *Interview.* Applicants may meet the requirement of the faculty interview by attending a program counselling session set up by the Faculty Admissions Committee. Applicants will be contacted to arrange a suitable time.

NOTE G: *Speech Test.* Since competence in spoken English is a requirement of admission to the Faculty of Education, a speech test is required of all applicants for first admission. This test is over and above the English language proficiency requirement outlined in § 14.3 of the University Regulations and Information for Students Calendar. Students must sign up for the speech test during the first in-Person Registration period. Registration in Education Practicum courses will not be permitted unless speech clearance has been obtained.

NOTE H: *Non-Matriculated Adult Applicants.* Residents of Alberta, who are Canadian citizens or Permanent Residents (Landed Immigrants) and who do not meet the regular matriculation requirements may qualify for admission to the Faculty of Education by meeting the requirements outlined below.

(a) Applicants must be twenty-one years of age by December 31st in the calendar year in which admission is sought.
(b) Applicants must present to the Office of the Registrar a high school transcript indicating credit in English 30 and one of: Biology 30, Chemistry 30, French 30, German 30 Latin 30, Mathematics 30, Mathematics 31, Physics 30, Social Studies 30, or Ukrainian 30. A minimum mark of 50% in any one course and an average of 60% in the two courses presented for admission is required.
(c) Applicants should communicate with Student Counselling Services (telephone 432-5205) for testing and an interview. A positive recommendation is required from Student Counselling Services.

NOTE I: *Further Information.* Information about admission with advanced standing, etc., is given in § 72.1 of the Faculty of Education Calendar.

13.8 Faculty of Engineering

13.8.1 B.SC. PROGRAM IN ENGINEERING

Matriculation Subjects on Pattern I
(1) English 30
(2) Mathematics 30
(3) Chemistry 30 (See NOTE)
(4) Physics 30 (See NOTE)
(5) Subject from Group A or B or C

NOTE: Students lacking either Physics 30 or Chemistry 30 may be considered for admission at the discretion of the Dean. In such cases program adjustments may be necessary.

13.9 Faculty of Home Economics

13.9.1 B.SC. PROGRAM IN HOME ECONOMICS

Matriculation Subjects on Pattern II
(1) English 30
(2) Chemistry 30
(3) Subject from Group C
(4) Subject from Group A or C
(5) Subject from Group A or B or C

NOTE A: The requirements of this Faculty differ from Pattern II in that it will accept two subjects from Group A.

NOTE B: Either Food Science 30 or Clothing and Textiles 30 may be presented in place of one subject from Group B.

NOTE C: A combination of two of the subjects listed in Group A (4) will be accepted as the fourth or fifth matriculation subject, provided Social Studies 30 is not also one of those subjects.

NOTE D: Students wishing to enter the Foods and Nutrition program are strongly recommended to complete Biology 30 and Mathematics 30.

NOTE E: Students wishing to enter the Family Studies program are advised to select Biology 30.

NOTE F: Students wishing to enrol in the Clothing and Textiles program are advised to complete Social Studies 30.

NOTE G: Mathematics 33 may be presented in place of a subject from Group B if Mathematics 30 is not also presented. Students presenting this subject and who wish to enrol in the Foods and Nutrition program would be required to take Mathematics 100 at the university.

13.9.2 INTERDISCIPLINARY B.SC. PROGRAM IN FOOD SCIENCE

See under Faculty of Agriculture and Forestry, § 13.3.2, above.

13.10 Faculty of Law

13.10.1 LL.B. PROGRAM

To be considered for admission to the LL.B. program, a candidate must normally have completed a degree recognized by The University of Alberta. For this purpose, successful completion of three years of a four-year Bachelor of Arts program at a recognized Alberta university is acceptable.

In special circumstances, the Committee will consider applications from Alberta residents, "Mature" applicants, and "Native" applicants without a degree who have completed not less than two years of post-secondary studies that would be accepted for credit towards a Bachelor of Arts degree at a university in Alberta.

All applicants are required to complete the Law School Admissions Test (LSAT) and also submit a resume. Details are included on the Law application form.

For further information regarding admission, consult the Faculty of Law calendar.

For information regarding the combined LL.B./M.B.A. program see the Faculty of Law calendar, § 101.3.4 and the Faculty of Graduate Studies and Research calendar, § 203.1.2.

13.11 Faculty of Library Science

13.11.1 M.L.S. PROGRAM

A Bachelor's degree from a recognized institution of higher learning, with academic standing acceptable to the Faculty of Graduate Studies and Research and the Faculty of Library Science.

A reading knowledge of a modern language other than English is advisable.

Preference is given to applicants who have had library experience under professional supervision before registration.

Applicants are judged not only upon their academic record but also by their professional promise as indicated in three letters of reference. A personal interview, arranged at a time and place convenient to the applicant, may also be required.

For further information consult the calendar of the Faculty of Library Science.

13.12 Faculty of Medicine

13.12.1 M.D. PROGRAM

Satisfactory completion of at least two years of university work approved by the Faculty of Medicine including at least 8½ required courses of a ten-course program of study. The required courses will form the basis upon which the scholastic level for admission to the M.D. program will be assessed. Students intending to fulfill these requirements at The University of Alberta must complete:

Year 1.

Chemistry 200 or 202 or 250
English 210 (or other English course(s) totalling 6 credits)
Physics 212, Physics 205/207 or Physics 205/209 if applicant possesses Physics 30; or Physics 203/207 or Physics 203/209 if applicant does not possess Physics 30
Biology 296
One of Biology 297, 298, or 299
Psychology 260
Mathematics 202 or 203 or equivalent.

Year 2.

Chemistry 302 (if Chemistry 250 was taken in first year) or Chemistry 350 (if Chemistry 200 or 202 was taken in first year),
Genetics 351; or, alternatively, Biology 297 and Genetics 375. (If Biology 297 was included in the first year program, a half-year option in Arts or Science may be taken.)
Zoology 325
Microbiology 315
Psychology 261
Statistics 241
An Arts option which may be a full-year course or two half-year courses.

Matriculants are advised to enter the Faculty of Science or Faculté Saint-Jean to fulfil these requirements. All applicants are required to complete the New Medical College Admissions Test (MCAT) and may be required to present themselves for a personal interview. For further details, see § 122.1 of the Faculty of Medicine Calendar.

13.12.2 B.SC. PROGRAM IN MEDICAL LABORATORY SCIENCE

(1) English 30
(2) Chemistry 30
(3) and (4) Any two of: Biology 30, Physics 30, Mathematics 30
(5) Subject from Group A or C.

Required average

At least 65.0 per cent.

All applicants are required to either have a personal interview or submit acceptable references.

NOTE: Applicants are more likely to be accepted if they possess an average of over 74.0 per cent.

13.13 Faculty of Nursing

13.13.1 B.SC. N. PROGRAM

Matriculation Subjects on Pattern II

(1) English 30
(2) Chemistry 30
(3) Subject from Group C (Biology 30 strongly recommended)
(4) Subject from Group A or C
(5) Subject from Group A or B or C

Required average

At least 65.0 per cent.

NOTE A: The requirements of this Faculty differ from Pattern II in that it will accept two subjects from Group A.

NOTE B: Mathematics 33 may be presented as one of the optional subjects in place of one subject from Group B if Mathematics 30 is not also presented.

NOTE C: A combination of two of the subjects listed in Group A (4) will be accepted as the fourth or fifth matriculation subject, provided Social Studies 30 is not also one of those subjects.

NOTE D: Applications from high school students require the completion of ALL the following items by MAY 15:

(i) The University of Alberta Application for Admission form;
(ii) References (2).

Applications from transfer students from other University of Alberta faculties and other post-secondary institutions require the completion of ALL the following items by May 15:

(i) The Unversity of Alberta Application for Admission or Re-enrolment Form;
(ii) Two references;
(iii) Complete and official transcripts of all secondary and post-secondary education.

Applications from students who have previously been in the program and wish to re-enrol in the faculty require the completion of ALL the following items by MAY 15:

(i) The University of Alberta Application for Re-enrolment Form;
(ii) Personal interview with faculty member in the Faculty of Nursing;
(iii) Two references:
(iv) Satisfactory academic achievement (minimum G.P.A. 5.0).

Applications from non-matriculated adults require completion or proof of the following by May 15:

(i) The University of Alberta application for admission;
(ii) Two references;
(iii) an Alberta High School Diploma (100 credits) or the equivalent;
(iv) English 30 and Chemistry 30 or equivalent with a grade of at least 50% in each course;
(v) the applicant must be 21 years of age by the beginning of the session or term to which application is made;
(vi) satisfactory recommendation from Student Counselling Services;
(vii) residency in Alberta or the Yukon or Northwest Territories as a Canadian citizen or Permanent Resident (formerly Landed Immigrant) for one full year prior to the intended registration.

NOTE E: Please see the Faculty of Nursing calendar for further information.

13.13.2 B.SC.N. PROGRAM FOR REGISTERED NURSES

Matriculation Subjects on Pattern II

(Same as in § 13.13.1 except that the matriculation average required is 60.0%.)

NOTE A: Psychology 260/261 or equivalent is required for admission to the B.Sc.N. Program for Registered Nurses.

NOTE B: Applicants must be Registered Nurses from approved schools of nursing, and must provide evidence of eligibility for registration in the A.A.R.N. and evidence of active registration or licensure in a Canadian nursing association or college.

NOTE C: Since enrolment is limited by quota, preference is given to applicants with at least one year of graduate nursing experience, and who have submitted applications and all required documentation before May 15th.

NOTE D: Please see the Faculty of Nursing calendar for further information.

NOTE E: Please contact the Faculty of Nursing for information regarding admission as a non-matriculated adult.

13.14 Faculty of Pharmacy and Pharmaceutical Sciences

13.14.1 B.SC. PROGRAM IN PHARMACY

Matriculation Subjects on Pattern II

(1) English 30
(2) Chemistry 30
(3) Biology 30
(4) Subject from Group C (Mathematics 30 recommended)
(5) Subject from Group A or B or C (Physics 30 suggested)

NOTE A: If students present another matriculation subject in place of Biology 30 they will be required to obtain credit in Biology 30 or take Biology 130 prior to registration in B.Sc. in Pharmacy program. Students completing this requirement during Summer should contact the Faculty of Pharmacy.

NOTE B: Prospective students must submit Pharmacy College Admission Test scores with their applications for admission or as soon as possible after they apply. PCAT application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Room 123, Administration Building.

NOTE C: Applicants must submit a letter with their application for admission setting forth their reasons for seeking admission to the Faculty of Pharmacy and Pharmaceutical Sciences.

13.15 Faculty of Physical Education and Recreation

13.15.1 B.A. PROGRAM IN RECREATION ADMINISTRATION

Matriculation Subjects on Pattern III (modified)

(1) English 30
(2) Subject from Group A (a language other than English recommended)
(3) Subject from Group A or B
(4) Subject from Group C (Biology 30 recommended)
(5) Subject from Group A or C (Mathematics 30 or 31 recommended).

NOTE A: Only one language other than English from the Group A subjects will be accepted.

NOTE B: Equivalents of Music 30 and 31. In terms of the Western Board of Music, the qualifications equivalent to Music 30 or 31 would be Grade VIII Practical and Grade IV Theory. In terms of the Royal Conservatory of Music of Toronto, the equivalent would be Grade VIII Practical and Grade II Theory and Grade III Harmony. Documents from the Western Board of Music or the Royal Conservatory must be presented to the Alberta Department of Education for evaluation.

NOTE C: All applicants are required to complete a questionnaire and supply two letters of reference.

13.15.2 B.P.E. PROGRAM

Matriculation Subjects on Pattern IV

(1) English 30
(2) Subject from Group A or C
(3) Subject from Group A or C
(4) Subject from Group A or C
(5) Another Grade XII subject carrying a minimum weight of five credits

NOTE A: Only one language other than English from Group A subjects will be accepted. Biology 30, Physics

30, and Chemistry 30 are strongly recommended.

NOTE B: A combination of two of the subjects listed in Group A (4) will be accepted as the second, third, fourth or fifth matriculation subject, provided Social Studies 30 is not also one of those subjects.

NOTE C: All applicants are required to successfully complete the Faculty's Fitness Test, arrange for an interview with a faculty member, complete a questionnaire and present a letter from a medical doctor indicating that they are fit for vigorous physical activity. This requirement does not have to be met before admission; the Faculty of Physical Education and Recreation will advise students of the procedure in completing their test and interview.

13.16 Faculty of Rehabilitation Medicine

13.16.1 B.SC. PROGRAM IN PHYSICAL THERAPY

Matriculation Subjects on Pattern I

(1) English 30
(2) Mathematics 30 or Mathematics 33
(3) Subject from Group C (Biology 30 strongly recommended)
(4) Subject from Group A or C (Chemistry 30 recommended)
(5) Subject from Group A or B or C (Physics 30 recommended)

NOTE A: Physics 30 will be a required subject beginning September 1983.

NOTE B: If Mathematics 33 is presented, the applicant may not present a subject from Group B.

NOTE C: All North American applicants to the Physical Therapy Program will be required to write the "Allied Health Professions Admissions Test". For further information see § 162.1.3 of the Faculty of Rehabilitation Medicine Calendar.

NOTE D: All applicants to the Physical Therapy program will be required to visit a hospital Physical Therapy Department and to fill out a report form provided by the Physical Therapy Department of the University. See § 162.1.3 for further details.

13.16.2 B.SC. PROGRAM IN SPEECH PATHOLOGY AND AUDIOLOGY

All applicants must have satisfactorily completed one year of study (five full courses) at a university or college including the following University of Alberta courses or their equivalents: Speech Pathology and Audiology 280 and 281, and Psychology 260 and 261. At the University of Alberta, this year may normally be taken in the Faculties of Education or Science. Please contact the Department of Speech Pathology and Audiology for further details.

13.16.3 B.SC. PROGRAM IN OCCUPATIONAL THERAPY

All applicants must have satisfactorily completed one year of study (five full courses) at a university or college including the following University of Alberta courses or their equivalents: Occupational Therapy 207 and 208, Psychology 260 and 261, and one full laboratory science course.

An interview is required and the appointment must be made no later than May 1st in order to be considered for the next academic year.

13.16.4 TEACHING DIPLOMA PROGRAM IN OCCUPATIONAL THERAPY

Graduation from a recognized school of Occupational Therapy, followed by a minimum of two years clinical practice, is required for admission.

13.17 Faculté Saint-Jean

Programs offered are:
B.A. (General)
B.A. (Special)
B.Ed. (Elementary and Secondary Routes)
B.Ed. (after previous degree)
B.Sc. (General)
B.Sc. (Specialization)

Matriculation Subjects

B.A. Program
(1) English 30
(2) French 30 or 31, or Langue et Littérature 30
(3) Subject from Group A or B (Social Studies 30 recommended)
(4) Subject from Group C
(5) Subject from Groups A or C

B.Ed. Program
(1) English 30
(2) French 30 or 31, or Langue et Littérature 30
(3) Subject from Groups A or C
(4) Subject from Groups A or C
(5) Another grade XII subject carrying a weight of five credits

B.Sc. Program
(1) English 30
(2) French 30 or 31, or Langue et Littérature 30
(3) Mathematics 30
(4) Subject from Group C
(5) Subject from Group C

NOTE A: An applicant may be admitted with a deficiency in any subject except French 30 or equivalent, but will be required to clear that deficiency during the first year of the program. An applicant with more than one deficiency will not be admissible.

NOTE B: Additional subjects listed in Group A (4) will be accepted for admission if Social Studies 30 is not also presented.

NOTE C: Equivalents of Music 30 or 31: In terms of the Western Board of Music, the qualifications equivalent to Music 30 or 31 would be Grade VIII Practical and Grade IV Theory. In terms of the Royal Conservatory of Music of Toronto, the equivalent would be Grade VIII Practical and Grade II Theory and Grade III Harmony. Documents from the Western Board of Music or the Royal Conservatory must be presented to the Alberta Department of Education for evaluation.

NOTE D: B.Ed. and B.Sc. applicants are advised to present matriculation subjects that are basic to their intended area of specialization.

NOTE E: B.Ed. applicants may not present a fifth subject of matriculation from the same field as any of the first four subjects, except where the subject used as one of the first four subjects is a prerequisite or corequisite for the fifth.

13.18 Faculty of Science

13.18.1 B.SC. PROGRAMS

Matriculation Subjects on Pattern I
(1) English 30

(2) Mathematics 30
(3) Subject from Group C
(4) Subject from Group C
(5) Subject from Group A or B or C

NOTE: Because of the large number of programs offered in the Faculty of Science, recommendations regarding choice of optional subjects will be found in § § 182.1 of Faculty of Science calendar. Students wishing to enter Honors or Specialization programs and those intending to follow one of the pre-professional programs are particularly urged to consult that section.

13.18.2 INTERDISCIPLINARY B.SC. PROGRAM IN FOOD SCIENCE

See under Faculty of Agriculture and Forestry, § 13.3.2, above.

13.18.3 PRE-MEDICAL PROGRAM

See under Faculty of Medicine § 13.12, above.

13.19 Faculty of Graduate Studies and Research

General admission requirements for the Faculty of Graduate Studies and Research will be found in § 202.2 of the Graduate Studies and Research Calendar. Additional requirements, if any, for a particular graduate program will be found in the description of the program in § 204.

13.20 Non-Matriculated Admissions

The University of Alberta is prepared to consider applications for admission to most undergraduate programs that do not require a pre-professional program from adults who do not meet the matriculation requirements of faculties. To receive consideration, an applicant must normally be at least 21 years of age and domiciled in Alberta, or in the Yukon or Northwest Territories. As admission requirements differ for each faculty, the appropriate faculty office or the A.P.E.L. Division, Office of the Registrar, 432-4537 should be contacted.

NOTE: Students are not accepted as non-matriculated adults into Medical Laboratory Science and Rehabilitation Medicine.

13.21 Admission on transfer from Alberta Public Colleges or Provincially Administered Institutions

Subject to the selection requirements established for quota programs and the English language requirement (see § 14.3 below), The University of Alberta will accept as having satisfied the matriculation requirements any applicant for admission who has successfully completed at least the course equivalent of a one-year full-time program at an Alberta Public College or Provincially Administered Institution, and who is recommended in writing by the sending institution as having satisfied the matriculation requirements of the chosen University of Alberta program. Where further selection precedures are involved in the admission to a program each applicant will be considered on the same basis as any other person seeking admission to that program.

13.22 Admission from Other Provinces and Territories of Canada

Students from another province in Canada who have successfully completed work at the standards shown below and would be admissible to a university in their home province will be considered for admission to The University of Alberta subject to the requirements for the first year courses in each program and to the subject requirements of the faculty as given in preceding sections.

British Columbia, Manitoba, New Brunswick, Nova Scotia, Prince Edward Island, Saskatchewan—Grade XII graduation.

Ontario—Grade XIII graduation.

Newfoundland—Successful completion of one year at Memorial University.

Quebec—Successful completion of the first year of the C.E.G.E.P. academic program with satisfactory performance in appropriate subjects.

A student who does not possess these requirements may clear deficiencies by completing Alberta Grade XII subjects.

13.23 Admission from Outside Canada

All international students are invited to contact the International Student Office, 225 Athabasca Hall, for information pertaining to their tenure as a student in Canada.

13.23.1 THE UNITED STATES

Applicants from the United States may be considered for admission if they present a full academic high school program plus scores in College Entrance Examination Board Scholastic Aptitude tests and in Achievement tests specified by the dean of the faculty that they wish to enter. They will be required to present scores that compare favorably with the mean scores achieved by Alberta matriculants.

13.23.2 GREAT BRITAIN, WEST INDIES, EAST AND WEST AFRICA, HONG KONG

General Certificate of Education — Either (i) five passes, of which two should be at the Advanced Level, or (ii) four passes with three at the Advanced Level, are required. The remaining passes must be at the Ordinary Level.

Higher School Certificate — (i) five passes with two at the Principal Standard or (ii) four passes with three at the Principal Standard. The remaining passes must be at the Subsidiary Standard. (Credit Level passes, or higher, in the examination for the School Certificate will be accepted in lieu of Subsidiary Standard passes.)

West African School Certificate — Credit Level passes, or higher in the examinations for the West African School Certificate will be accepted in lieu of Ordinary Level passes. A student must meet the remaining admission requirements as for the General Certificate of Education.

Hong Kong Examinations Authority: Hong Kong Certificate of Education Examinations and Hong Kong Advanced Level Examinations. Either (i) five passes with two at the Advanced level or (ii) four passes with three at the Advanced level are required. Passes at the

Ordinary level standard in the Hong Kong Certificate of Education examinations are required in the remainder of the subjects prescribed for admission.

NOTE A: Chemistry at the Advanced Level or Principal Standard is required for admission to the Faculties of Engineering, Science, Home Economics, Nursing and Pharmacy and Pharmaceutical Sciences; the Diploma program in Dental Hygiene; and the Bachelor of Science degree programs in Food Science and Medical Laboratory Science.

NOTE B: Mathematics at the Advanced Level or Principal Standard is required for admission to the Faculties of Business Administration and Commerce, Engineering, Rehabilitation Medicine, and Science; the Bachelor of Science degree programs in Agriculture and Forestry; and the Pre-Veterinary Medicine program.

NOTE C: Required subjects presented at the Advanced and Ordinary Levels must meet our minimum average of C or the equivalent of 60.0% for most programs. A higher overall academic standard is required for admission to those programs with limited enrollment.

13.23.3 AUSTRALIA AND NEW ZEALAND

Australian and New Zealand Leaving or Matriculation Certificates — In general a student who has matriculated or qualified to matriculate at a university of recognized standing in Australia or New Zealand will be considered for admission to this University on a reciprocal basis, subject to the requirements for the first-year courses in each program.

13.23.4 OTHER COUNTRIES

Applicants educated in other countries will be considered for admission on the merit of their application.

14 APPLICATION PROCEDURE

14.1 Application Deadlines

The following deadlines are effective for submitting applications for admission to the 1981-82 Winter Session, complete with all required supporting documents.

D.D.S. and Dental Hygiene programs—February 2
LL.B. program—February 27
B.F.A. (Drama) program—April 1
B.F.A. (Art & Design) program—May 1
Rehabilitation Medicine—May 1
B.Sc. in Nursing Programs—May 15
B.Ed. and B.Ed./A.D. Programs—June 1
B.Sc. in Engineering applicants who have previously attended post-secondary institutions—June 15
Other Undergraduate Programs—July 2
M.D. program—November 1, 1980 (for admission to the 1981-82 session)

Applications received after these deadlines will not necessarily be accepted; if they are accepted, they will be processed after all applications received prior to the deadline.

14.2 Application Procedure for New Students

Enquiries from prospective undergraduate students should be addressed to the Registrar. An Access Centre has been created in the Office of the Registrar as an advisory office for all categories of new students other than those eligible for direct admission into the Faculty of Graduate Studies and Research. The Access Centre is located on the main floor of the Administration Building (Room 128). Telephone enquiries may be directed to 432-4537. Those who wish to enter the Faculty of Graduate Studies and Research should address enquiries to the Office of the Dean of Graduate Studies and Research. Telephone enquiries may be directed to 432-3499.

A prospective student should obtain an Application for Admission form and, after completing it, should return it to the appropriate office together with the $20.00 application fee.

Applicants should also arrange to have a transcript of their high school and any college or university record sent to the appropriate office: for prospective undergraduate students, the Office of the Registrar; for graduate students, the Faculty of Graduate Studies and Research. Nationals of countries other than Canada and Canadian students who have completed matriculation or some university or college credit courses outside of Canada will have their academic credentials evaluated for admission and placement purposes by the International Student section of the Office of the Registrar, Room 128, Administration Building, telephone no. 432-4537. Applicants currently attending Alberta high schools may obtain transcript request forms from their schools. The completed forms should be mailed to the Alberta Department of Education. Other applicants should order their transcripts from the appropriate Department of Education or other institution maintaining such records.

The $20.00 application fee is required of all students but is to be paid only once. Therefore, a student who applies one year but does not attend and applies in the following year would not be required to pay the fee again.

All applications for admission to the University should be made as soon as possible and in any case by the deadline prescribed in § 14.1.

14.3 English Language Proficiency for Admission to Undergraduate Programs at The University of Alberta

General Requirements

English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status,

applicants will be required to demonstrate proficiency in the English language. This demonstration may take any one of several forms:

1. successful completion of the equivalent of three years of full-time instruction in an English language secondary institution in Canada;

2. presentation of a successfully completed full-year or more of course work, including an introductory course in English, in an accredited post-secondary institution where English is the language of instruction and from which advance credit is normally allowed by The University of Alberta;

3. successful completion of the equivalent of three years of full-time instruction in a school/institution outside Canada where academic subjects are taught by "English Language" instructors, as accredited by the International Institute of Education (I.I.E.), or as recognized by The University of Alberta;

4. successful completion of the equivalent of three years of full-time instruction in a school in Canada in which the major language of instruction is other than English but where the level of English proficiency required for graduation is equivalent to that in English language schools, as recognized by a provincial Department of Education;

or

5. presentation of results of the Test of English as a Foreign Language (TOEFL) or its equivalent in other approved standard tests.

a. Applicants presenting a TOEFL score of 600 (or its equivalent in other approved standard tests) will be considered as having demonstrated English language proficiency.

b. Applicants presenting a TOEFL score of less than 600 but 550 or greater will usually be considered as having a minor deficiency. Subject to the requirements of the particular Faculties, such an applicant may be granted conditional admission into the University but will be required to successfully complete one or more remedial Faculty of Extension non-credit English language courses and may be required to register in less than a normal course load in his or her regular program until the English language deficiency has been corrected. The student will not be permitted to register in a further academic year until satisfactory command of the language of instruction has been demonstrated (as in (a) above).

c. An applicant presenting a TOEFL score of less that 550 will be considered as having a major deficiency in the language of instruction and will not be admitted into the University of Alberta until proficiency can be demonstrated.

Specific Faculty Requirements

Some faculties may require greater strength in English communicative skills than is required in other programs. These additional requirements are detailed in the Faculty regulations section of the Faculty Calendar. In applying to such faculties the applicant must satisfy the additional language requirements as well as meet the general requirements outlined above. Students seeking entry as non-matriculated adults should see the special English proficiency requirements detailed in the Faculty Regulations sections of the Faculty Calendar.

Further information is available from the A.P.E.L. Division, Office of the Registrar, Room 128, Administration Building. TOEFL application forms are available from the Examinations and Timetabling Division, Office of the Registrar, Room 123, Administration Building; or by writing direct to Educational Testing Service, Princeton, New Jersey, U.S.A., 08540.

14.4 Advanced Standing, Advanced Placement and Credit by Special Assessment

14.4.1 ADVANCED STANDING

Advanced standing may be granted to applicants for admission who have completed some university work at another recognized university or college. Advanced standing is used to reduce the length of the program the student will take at The University of Alberta. However, a student proceeding towards a first degree will normally attend at least one academic year and take a full year's program and this may limit the standing that can be granted.

The amount of advanced standing is determined by faculty regulations, and shall be subject to the same regulations as for those transferring from one faculty to another within the university.

Some provincial post-secondary institutions in Alberta and British Columbia have approved university transfer programs that provide for advanced standing. For transfer from these institutions The University of Alberta will accept for credit toward an undergraduate degree the first, or the first and second years of university studies, provided the courses being presented are listed in the appropriate university or Provincial transfer Guide and to the extent that the courses fit the degree program to which the student wishes to transfer.

A copy of the annual Alberta Provincial transfer Guide which explains the nature and (insofar as possible) the detail of credit equivalences between various post-secondary institutions in Alberta is available from:

Alberta Council on Admissions and Transfer
#902, 11920 - 100 Avenue
Edmonton, Alberta
T5K 0K5

or

Admissions Policy, Evaluation and Liaison Division,
Office of Registrar,
Room 128 Administration Building,
The University of Alberta
T6G 2M7
Telephone: 432-4537

14.4.2 ADVANCED PLACEMENT

Advanced placement may be granted to applicants who have taken the equivalent of university courses in some other manner. This excuses them from taking the corresponding university courses, but other courses must be taken in their stead.

If applicants feel they may be eligible for either advanced standing or advanced placement, they should ensure that the application is submitted well in advance of the deadlines given in § 14.1. The University reserves the right to require applicants for advanced standing or advanced placement to write examinations at any level including that of matriculation.

14.4.3 CREDIT BY SPECIAL ASSESSMENT

Some faculties have agreed to allow students to seek credit in certain specified courses without actually registering in and taking courses, if they can demonstrate an acceptable level of mastery of the course content. The procedure whereby a student seeks credit in a course by this non-traditional route is known as *Credit by Special Assessment.*

Faculties, in consultation with departments, will determine which, if any, of their course credits may be

earned by special assessment, and the conditions that a student must satisfy in order to have an application approved. Interested students are advised to contact their faculty.

The privilege of seeking credit in a course by special assessment is limited to students admitted to the University.

Students wishing to complete course credit(s) by this means are advised to report to their Faculty Office in order to be apprised of faculty regulations and deadlines for submission of applications.

14.5 Physical Examination

As a general rule, a physical examination of applicants seeking admission to the University is not required. However, students planning on entering any of the following Faculties or Programs: Dentistry, Medicine, Nursing, Physical Education and Recreation, or Dental Hygiene should consult the appropriate faculty calendar for further details.

14.6 Application Procedures for Continuing and Former Students

Students who have previously registered and are continuing in the same program without interruption are not required to re-apply for admission to subsequent years unless they have been advised that they may not continue in the program.

Students who wish to register either in another program within the same faculty or in a program offered by another faculty must complete an Application for Re-enrolment form which may be obtained from the Registrar's Office. The application must be approved by the Dean who is responsible for the program the student seeks to enter. Students are advised to consult the academic schedule and their faculty calendars to ensure that they meet application deadlines which vary for different faculties.

Students who have interrupted their program must also complete an Application for Re-enrolment form which will be handled in the same manner as that outlined in the paragraph above.

If students have interrupted their studies because they were required to withdraw, they should ensure that their intention to seek re-admission is communicated to the appropriate Dean by June 15. This date is set to ensure that adequate counselling may be given. Full details of the regulations concerning re-admission in this situation are given in § 16.4.5.

15 REGISTRATION AND FEES

15.1 Registration

15.1.1 REGISTRATION PROCEDURE

Students should consult the Academic Schedule, § 11 of this Calendar, to determine the date on which they should register. Other necessary details will be supplied prior to registration.

The program in which a student seeks to register is in every case subject to the approval of the faculty concerned. Students should note that they are required to register in courses in which they are deficient before registering in any other courses. The faculty councils reserve the right to adjust courses to meet the needs of timetables of lectures and examinations. Registration in courses which directly conflict on the timetable will only be allowed when the express permission of the faculty council concerned has been secured.

15.1.2 RESPONSIBILITY FOR REGISTRATION

Students are responsible for the completeness and accuracy of their registration. They are also responsible for adjustments in registration made necessary by supplemental examination results. Particular care should be exercised with regard to prerequisite courses.

15.1.3 LATE REGISTRATION

Students are normally required to complete their registration by the date specified in the academic schedule. After the end of the registration period, registration will be permitted only in exceptional circumstances and students may find that the course offerings are limited.

15.1.4 CHANGES IN REGISTRATION

Students may not abandon a course, change from one course to another or change the term of registration in a course without first obtaining permission from their Dean. This permission, in the form of a "Change of Registration" form signed by the Dean, must be presented to the Registrar before the change becomes official. Changes in registration will not normally be approved after the deadline appearing in the Academic Schedule. In some Faculties students will be assigned a failing grade if they abandon a course after dates specified for withdrawal in the Faculty Regulations section of the appropriate Faculty Calendar.

15.1.5 CANCELLATION OF REGISTRATION

Students who wish to withdraw from the University should report at once to Student Counselling Services in order to complete "Notice of Withdrawal" forms which must then be submitted to their dean for approval. For further information see § 15.2.5.

15.1.6 MAY-AUGUST SUMMER PERIOD

Graduate students who are working full-time on their graduate program during part or all of the period from May to September are encouraged to record their presence on campus at their department office. Those holding University awards during this period *must* so record their presence. Full residence credit is given for this period if the student has signed the record. There is no fee. Registration for the Spring Session or Summer

Session is considered separately for residence purposes from the May-September summer period if the student has signed the record.

15.1.7 REGISTRATION TO AUDIT A COURSE

Students who are classified as degree, diploma, or certificate program students in § 12.2.3, or other individuals, may be granted official permission to audit a course on the understanding that participation in the class will be limited to that deemed appropriate by the instructor. An auditor, or a regular student who wishes to audit a course or courses, must present to the Registrar written permission from the instructor in the course, endorsed by the student's dean, to register in the course as an auditor. Auditors who are not also taking other courses for credit must still register.

15.2 Fees

15.2.1 DEFINITION

There are two major classifications of fees, Instruction and General. Instruction fees are set by the Board of Governors, assessed by the Registrar (Graduate Registrar in the case of graduate students) and collected by the Comptroller. General fees are set by student governing bodies as well as the Board of Governors and follow the same assessment and collection procedures as Instruction fees.

Fees other than Instruction and General will be assessed in particular cases as they apply (see § 15.2.12).

Details of fees for other sessions, i.e., Spring Session, Summer Session, and Evening Credit Program are described in the Special Sessions Calendar.

15.2.2 ASSESSMENT

For the purpose of assessing fees, and fee refunds, the winter session is divided into two equal terms. The First Term runs from September through December and the Second Term runs from January through April.

Students are classified as either graduate (those registered in the Faculty of Graduate Studies and Research) or undergraduate (those registered in other faculties) and sub-classified in each term as either full-time or part-time. Full-time undergraduate students are those who are enrolled in the equivalent of three or more half-courses in a term. Part-time undergraduate students are those who are enrolled in the equivalent of fewer than three half-courses in a term. Graduate students are designated as "Full-time" or "Part-time" by the Faculty of Graduate Studies and Research according to their workload of courses and/or research. A more detailed classification of graduate students will be found in § 202.1 of the Graduate Studies and Research Calendar.

For fee purposes a full course will be treated as two half courses, with one half course applying to each term.

The assessment of Instruction and General fees for both terms will be done at the time of registration. Instruction fees are assesses on a per course basis up to a certain maximum. Schedules of these fees for each program are provided in § 15.2.7 to § 15.2.12.

15.2.3 PAYMENT

Registration is regarded as incomplete until fees have been paid in accordance with the regulations detailed below (see particularly § § 15.2.4 and 15.2.5).

(1) The following regulations regarding payment of fees apply to undergraduate students (refer to § 15.2.4 for details on late payment penalties):

WHERE: In the Ice Arena.

WHEN: Full fees as detailed on your fee assessment form are due and payable by cash or cheque during Registration Week — Tuesday, September 1st to Saturday, September 5th, as scheduled in your Advance or In-Person Registration Procedures Booklet.

Students who have paid a $50.00 quota deposit as a requirement for admission to their faculty should deduct this amount from their tuition fees assessment total when paying their fees.

Students who register for the full session may elect to pay fees in two instalments. The first instalment will be the first term assessment. The second instalment will consist of the second term assessment plus an instalment charge of $5.00.

NOTE: Students who do not make payment in accordance with the foregoing should report with fee assessment form to the Comptroller's Office, third floor of the Administration Building. Payment may then be made to the Cashier between the hours of 9:00 a.m. and 4.00 p.m. Monday through Friday.

Students making payments by cheque may follow the above procedure. However, where practical, students are encouraged to place cheques in a special deposit box provided in the main floor rotunda of the Administration Building up to September 30. Cheques may also be mailed to the Comptroller but note that the University cannot accept responsibility for the actions of the post office in cases of payments received by the University after the deadline date. All cheques should be made payable to *The University of Alberta*. Also, the fee assessment form should be enclosed with the cheque in the special fees remittance envelope which is provided.

The last date for payment of fees without penalty for full session students and First Term only students is September 30.

The last date for payment of fees without penalty for Second Term only students and for the second instalment by full session students is January 15. Payment is to be made as detailed in NOTE above.

Receipts for the payment of fees received by mail will not be issued unless requested later. Your cancelled cheque is your receipt. Students whose fees are paid in full will receive official receipts for income tax purposes before February 28, 1982.

(i) *Students whose fees are to be paid from assistance through The Students Finance Board of The Province of Alberta*

Upon receipt of the Certificate of Eligibility from the Board, each student should submit all copies to the Fees wicket, where the Confirmation of Enrolment section will be completed, including the amount of fees to be remitted by the bank to the University. The Students Finance Board requires that full Instruction and General fees due to an educational institution are the first charge against any financial assistance awarded. Further, the Board makes provision for full allowance for fees in its first disbursement. In cases where the assistance awarded is less than full fees, the balance of fees payable will be subject to normal fee payment regulations.

Students processing certificates after the September 30 deadline for payment of fees will not be assessed a late payment penalty if:

— the student had appropriately completed the "Financial Assistance Expected" section of the registration form or otherwise had informed the

Comptroller's Office not later than mid-September that financial assistance was expected.

— the application for assistance was made to the Board not later than mid-September. Note that it is advantageous to students to submit applications as early as possible, namely from about mid-July onwards.

— the assistance awarded is at least sufficient to pay the first instalment of fees or if not sufficient to pay the first instalment, the deficiency is paid at the date of submission of the Certificate.

(ii) *Students whose fees are to be paid by scholarships, bursaries or other assistance, either directly to or by The University of Alberta.*

If the award is sufficient to pay at least First Term fees, the "Financial Assistance Expected" section of the student's registration form should have been completed, giving the amount of the assistance and the source of the award. If this was not done, the student should submit the information to the Comptroller's Office not later than mid-September.

(iii) *Students who receive assistance directly.*

Students who receive assistance directly, i.e., not through the University, are subject to normal fee payment regulations and they are required to follow the payment procedure detailed in (i) above, even though the University may be required to provide confirmation of registration.

(iv) *Students age 65 and over who are eligible for remission of fees.*

Students eligible for remission of fees shall:

— be age 65 or more at commencement of the Session,

— submit proof of age,

— be a resident of the Province of Alberta.

The remission of fees (including auditing fees) shall apply to undergraduate credit courses only. The Application for Remission form is available at the Fees wicket, third floor of the Administration Building, and should be completed prior to September 30 (January 15 in the case of Second Term only registrants).

(2) Similar regulations to those detailed in (1) above apply to graduate students, with the following changes (refer to § 15.2.4 for details on late payment penalties):

(i) During registration a fee information sheet will be given to each graduate student who will then calculate the amount of his/her fee assessment and pay same in accordance with (1) above. Subsequently, a fee assessment form will be mailed to each student showing the amount of his/her fees. In the event that this amount is greater than that calculated by the student, the difference is due and payable immediately on receipt of the mailed assessment form.

(ii) Graduate students who elect to pay fees in instalments may do so as follows:

First instalment — First Term fees as calculated by student (see (i) above) due not later than September 30.

Second instalment — Second Term fees plus a $5.00 instalment charge, due on or before January 15.

15.2.4 LATE PAYMENT PENALTIES

(1) *Undergraduate students*

(i) The last day for payment of fees is September 30. If the student is paying in two instalments, the last day for payment of the first instalment is September 30; and of the second instalment, January 15. A penalty of $15.00 will be charged when the payment is received by the University after these dates. Students are reminded that the University cannot accept responsibility for the actions of the post office if payments are not received by a deadline date. In addition, if payment has not been made by October 15 for First Term fees and February 1 for Second Term fees, registration will be subject to cancellation and the student to exclusion from classes.

(ii) When registration is cancelled, a reassessment of fees will be made to the date of cancellation and the amount unpaid entered on the student's record. Future registrations will not be accepted and all certification of academic records will be withheld until the account has been settled.

(iii) When a student has been permitted to register late, the last date for payment of fees will be fifteen days after the date of assessment. A penalty of $15.00 will be charged when the payment is received after this date. If payment is in instalments, the last date for payment of the second instalment is January 15 and the above penalty provision applies.

(iv) The last day for payment of fees for those students who are registered in Second Term course(s) only is January 15. A penalty of $15.00 will be charged when the payment is received after this date. In addition, if payment has not been made by February 1, registration will be subject to cancellation and the student to exclusion from classes together with action by the Registrar detailed in (ii) above.

(2) *Graduate students.*

A penalty of $15.00 may be charged when payment of First Term fees is received after September 30, and, when paying by instalments, payment of Second Term fees is received after January 15. In addition, if any fees remain unpaid by February 1, registration will be subject to cancellation and the student to exclusion from classes. Refer to (1)(ii) above for resulting action by the Registrar. The same conditions as stated above for payment of Second Term fees apply to students assessed fees for the Second Term only.

15.2.5 WITHDRAWALS AND REFUNDS

Students who wish to withdraw from the University should report at once to Student Counselling Services in order to complete "Notice of Withdrawal" forms which must then be submitted to the Dean for approval. Students who withdraw without completing such forms will not be eligible for any refund of fees nor for exemption from fees in the event that they have not been paid.

When a student withdraws from one or more courses, his/her fees will be reassessed on a per course basis with the fee for each dropped course prorated in accordance with the table below. If the total reassessment for a term exceeds the maximum listed for the particular program or faculty, it will be reduced to that maximum.

Students who change courses from credit to audit will be assessed the table percentage at credit rate and the balance of 100%, if any, at audit rate.

Assessment per Term
Percentage of

Date of Withdrawal	Per Course and General Fees
First Term	
Prior to Sept. 18*	0%
Sept. 18 to 30	20%
Oct. 1 to 15	40%
Oct. 16 to 31	60%
After Oct. 31	100%
Second Term	
Prior to Jan. 12*	0%
Jan. 12 to 31	20%
Feb. 1 to 15	40%
Feb. 16 to 28	60%
After Feb. 28	100%

**First day after deadline for registration and changes in registration.* Corresponding dates for Graduate students are October 1 and February 1.

Undergraduate students will be assessed a $10.00 administration charge on withdrawal from the University and the $15.00 registration fee assessed all graduate students will be retained in the event that a graduate student withdraws from the University.

Graduate students whose fees are assessed on a program basis rather than on a per course basis will, for the purpose of fee assessment on withdrawal, be assessed a maximum of one-half of full Winter Session fees for each of the two terms.

Refunds will be authorized when the previously paid fee assessment exceeds the assessment to date of withdrawal. The effective date of withdrawal is that on which the Dean signs the required forms. In the event that a revised assessment following withdrawal results in unpaid fees, students will be held responsible for payment in full of the difference.

15.2.6 CHANGES IN FEES AND FEE PAYMENT PROCEDURES

The University reserves the right to change its fees from year to year without notice. Students who have not completed their program when a change is made will pay at the new rate for the balance of their program.

15.2.7 UNDERGRADUATE FEES

(1) *Instruction fees* are charged for each term of the Winter Session as follows:

For fee purposes a full course is treated as two half-courses, with one half-course applying to each term.

All faculties (except as below)	
Per half-course	$ 93.00
More than 3 half-courses, maximum	303.00
Engineering	
Per half-course	115.00
More than 3 half-courses, maximum	380.00
Dentistry and Medicine (M.D. program only)	
Per half-course	138.00
More than 3 half-courses, maximum	454.00
Medical Laboratory Science (third year only)	151.00
Visa students (add differential fee to Instruction fee above)	
Per half-course	55.00
More than 3 half-courses, maximum	182.00

In no case will the differential fees charged a Student Visitor (Visa Student) in the six-month period July 1 to December 31, or January 1 to June 30, exceed the single term maximum differential fee of $182.00. If change of status to Permanent Resident (Landed Immigrant) occurs during a Session, there may be a corresponding change to the differential fee charged.

(2) *General Fees* are charged for each term of the Winter Session as follows:

Students' Union (except as below)	
Taking one or two half-courses	5.00
Taking three or more half-courses	18.50
Students' Union (students in Dentistry, Education (B.Ed. / A.D. and Diploma programs), Law, Medicine first & second years) taking three or more half-courses	14.50
Students' Union (students in Medicine third & fourth years)	3.00
University Athletic Board (Due to high demand, facilities are not always available). Optional at registration if taking one or two half-courses	13.00
University Athletic Board Taking three or more half-courses	13.00
University Health Service (See § 18.2.2) Optional at registration if taking one or two half-courses. Mandatory if taking three of more half-courses	6.00

The fee for a full course is double that of a half-course. This applies as well to the differential fee assessed Student Visitors (Visa Students).

NOTE: Spring and Summer Sessions and Evening Credit Program (Off-Campus) Instruction fees are the same as above; General fees are less. Full details are described in the Special Sessions Calendar.

15.2.8 UNDERGRADUATE PROGRAM FEES

The following fees are charged by program for students registered in the Faculty of Nursing in the Advanced Practical Obstetrics and Nurse Practitioner Certificate courses:

(1) Instruction fee	$224.00
(2) General Fees	
Registration (Advanced Practical Obstetrics only)	12.00
Registration (Nurse Practitioner only)	6.00
Students' Union (Associate Membership)	5.00
University Athletic Board (Optional at registration)	13.00
University Health Service (Optional at registration)	5.50

15.2.9 UNIVERSITY OF ALBERTA HOSPITAL SCHOOL OF NURSING

The following fees are charged for each term for students registered in the diploma course in nursing at the University of Alberta Hospital School of Nursing:

Students' Union privileges	10.25
University Athletic Board (Optional at registration)	13.00

Note: These students are entitled to Unversity of Alberta Library privileges.

15.2.10 FULL-TIME GRADUATE PROGRAM FEES

Students who commenced their program prior to the current Winter Session will be charged at the rates shown below only for that portion of the program fee applicable to their registration in the current Winter Session and subsequent sessions.

(1) *Instruction fees.* Except where otherwise noted, the following fees are the current total amounts for the minimum period within which it is possible for a student to complete the degree program:

Qualifying year for holders of any bachelor's degree from a three-year undergraduate program (The University of Alberta or equivalent)	$759.00
Master's degree, for holders of a bachelor's degree from a four-year program continuing in the same field (equivalent of University of Alberta honors degree)-Category A	759.00
Master's degree, for holders of a bachelor's degree from a four-year program (beyond senior matriculation), changing field or specializing for the first time—Category B	1,139.00

Doctor of Philosophy or Doctor of Education degree for holders of a master's degree continuing in the same field, $759.00 a year for two years 1,518.00

Doctor of Philosophy or Doctor of Education degree for holders of a bachelor's degree with honors, $759.00 a year for three years 2,277.00

To maintain continuous registration when not otherwise registered in course(s), and for all doctoral and master's candidates, and qualifying graduate students per year of registration after total instruction fee has been paid 60.00

Student Visitors (Visa Students) are assessed a differential fee which is to be added to the Instruction fee above in accordance with the following regulations.

(a) For full-time graduate students the differential fee will be $182.00 for each of the first and second terms up to the maxima noted below.

(b) For part-time graduate students the differential fee will be $55 per half-course and $110 per full course subject to the maxima noted below.

(c) In no case will the differential fees charged a Student Visitor (Visa Student) in the six-month period July 1 to December 31, or January 1 to June 30, exceed the single-term full-time differential fee of $182.00.

(d) If differential fees continue at the same rate, the following limits will apply to the total differential fees charged to a graduate student while registered in a particular category or program:

Qualifying year(s)	*no limit*
Master's degree, category A	$364.00
Master's degree, category B	546.00
Ph.D. or Ed.D. for holders of Master's degree continuing in the same field	728.00
Ph.D. or Ed.D. for holders of Bachelor's degree with honors	1,092.00

If change of status to Permanent Resident (Landed Immigrant) occurs during a Session there may be a corresponding change to the differential fee charged.

(2) *General fees* are charged per session as follows:

Registration	$15.00
Graduate Students' Association	34.00
Students' Union privileges (optional at registration)	29.00
University Athletic Board	26.00
University Health Service (See § 18.2.2)	12.00
Re-admission (charged to students permitted to resume an interrupted program)	70.00

In the qualifying year, a normal program is four or five full session courses (or the equivalent).

Programs for candidates for the master's degree classified in Category "A" will normally not exceed five full session courses (or the equivalent). Those classified in Category "B" will normally not exceed seven full session courses (or the equivalent).

Courses shown on the Program Form of the student as "extra" to the degree program, or to clear deficiencies, will be charged for at the rate per course for the faculty offering the course — see § 15.2.7 (1) — in addition to the regular fee for the degree program. This applies to Probationary Graduate Students as well as to candidates for degrees.

Special Graduate Students and Exchange Graduate Students will be charged $230.00 per full session course and $115.00 per half course to a maximum of the fee for a full year's program.

Students who attend Summer Session and/or Spring Session will be assessed fees for these sessions in addition to any assessment for Winter Session since they are separate from the Winter Session. However, all tuition fees paid for courses on programs in Spring and/or Summer Session will be credited toward the total program fee for the student. Any outstanding balance will be assessed in the student's final session.

15.2.11 PART-TIME GRADUATE PROGRAM FEES

Students who commenced their program prior to the current Winter Session will be charged at the rates shown below only for that portion of the program fee applicable to their registration in the current Winter Session and subsequent sessions.

(1) *Instruction fees.* Part-time graduate students will be charged $230.00 for each full course and $115.00 for each half course they take, up to the amount of the total Instruction fee for the full program. Any outstanding balance will be assessed in the students' final session. Student Visitors (Visa Students) are referred to § 15.2.10 (1) for regulations governing assessment of the Instruction differential fee pertaining to part-time graduate students.

(2) *General fees* are charged per session as follows:

Registration	$15.00
Graduate Students' Association Intra-mural students only)	23.00
University Athletic Board (Due to high demand, facilities are not always available) (optional at registration)	26.00
University Health Service (See § 18.2.2). (Optional at time of registration)	12.00
Re-admission (charged to students permitted to resume an interrupted program)	70.00

(3) *May-August Period (Intersession).* University Health Service for students registered in courses in the May-August period.

Spring Session	3.00
Summer Session	3.00

University Health Service for students not registered in courses in the May-August period.

(Optional at time of registration)	6.00

15.2.12 OTHER FEES

(1) *Auditing fees.* The fees for the privilege of auditing a course are:

Full course	$72.00
Half course	36.00

The differential fee for Student Visitors (Visa Students) does not apply to courses taken for audit.

(2) *Examination fees.* No fee is levied for *final examinations* written during regular examination periods.

A fee of $15.00 is charged for each *supplemental examination* written during a regular supplemental examination period.

For a *special supplemental examination* a fee of $60.00 is charged for each paper. Where the student has been prevented by illness or other extreme circumstance from writing at the regular supplemental examination time, a portion of the fee may be waived.

A fee of $6.00 is charged for each *deferred final examination* written during a regular supplemental examination period. The fee for a special deferred final examination is $60.00 per paper. Where the student has been prevented by illness or other extreme circumstance from writing at the regular deferred examination time, however, a portion of the fee may be waived.

An additional fee of $20.00 per paper is charged for conducting a supplemental or deferred final examination at an established centre other than Edmonton.

(3) *Special fees.* The following special fees will be assessed in particular cases as they apply:

Transcript fee: the first 10 copies are supplied free of charge; thereafter, the fee is $5.00 for the first copy plus 50c for each additional copy ordered at the same time.

Application for Admission fee	$20.00
Vise fee for the evaluation of documents of persons not seeking admission to the university	25.00
For indexing and microfilming of doctoral thesis by the National Library of Canada	15.00
Course credit by special assessment	75.00
Final examination re-appraisal	20.00

16 ACADEMIC REGULATIONS

16.1 Residence Requirements

Regulations governing residence requirements vary considerably, and the calendars of individual Faculties should be consulted for details. A student proceeding towards a first (bachelor's) degree will normally complete a minimum of one full year's program of studies at The University of Alberta. Normally these studies will constitute the final year of the program.

16.2 Evaluation Procedures and Grading System

At the beginning of the Session each instructor will announce the distribution of weight between term work and final examinations in each course, and the policy with respect to supplemental examinations. In addition he or she will outline the evaluation procedures to be used and explain the grading system.

In each course in which a final examination is held, a weight of not less than 30% and not more than 70% will be assigned to the final examination, except where a departure from this arrangement has been authorized by the faculty council governing the department offering the course. The remaining weight for the course will be assigned to term work. In sections of a multi-sectioned course the distribution of weight will be such that there will be a uniform policy determined by the department with regard to the granting of supplemental examinations. (See § 16.3.4 (1)).

Details regarding the grading system are provided in every student's Course Registration Procedures booklet.

The grading system at The University of Alberta uses the following nine grades:

9	
8	Excellent
7	
6	Good
5	
4	Pass
3	(see Note)
2	Fail
1	

NOTE: A grade of 3 in an individual course will be accepted by a faculty only if warranted by a student's over-all academic record.

In courses taken towards an undergraduate degree or for those used as a prerequisite to another course, the minimum passing grade is 4 unless otherwise specified; in courses taken towards a graduate degree the minimum passing grade is 6. Under the percentage system previously in use, the minimum passing grade in courses taken towards an undergraduate degree was 50 per cent; in courses taken towards a graduate degree, 65 per cent.

Some courses may be offered on a "Pass"/"Fail" basis. Conditions under which students may take such a course are specified by their faculty council.

16.2.1 AEGROTAT STANDING

Aegrotat standing may be granted, in special circumstances, on the ground of illness to a deserving student who has completed at least one year at The University of Alberta in the faculty in which he or she is currently registered. Any student wishing to take advantage of this privilege should apply without delay to the dean of the faculty concerned. Any other student absent from a final examination because of illness may apply for permission to write the regular deferred examination. (See § 16.3.5.)

16.3 Examinations

16.3.1 TERM EXAMINATIONS

(1) *Term examinations optional.* The holding of term examinations is optional with each department.

(2) *Test Week.* Although instructors may give tests during any regular lecture or laboratory period at their discretion, one week in the middle of each of the First Term and the Second Term has been set aside as test week. During these weeks, off-campus extra-curricular activities will not normally be organized by the University.

(3) *Absence from term examination or test.* If a student has an unexcused absence from a term examination or test, the raw score assigned will be zero. However, in case of illness or other extreme circumstance the student may be excused from writing the examination or test. In applying for exemption, students must present to their instructor an absence slip signed by University Health Service where the cause is illness, or by the Registrar where the cause is other than illness. When exemption is granted the percentage weight allotted to the examination or test missed is added to the percentage weight allotted to the final examination.

16.3.2 FINAL EXAMINATIONS

(1) *Final examinations.* A final examination is held in each course except where departure from this arrangement has been authorized by the faculty council governing the department offering the course. In courses completed in the First Term, final examinations are normally held during test week in December. Final examinations for Second Term and Full Session courses are held at the end of the session.

Examinations for Evening Credit Program and Late Afternoon and Evening Courses are to be held during the last regular class period.

(2) *Absence from final examinations.* Any student who is ill or suffering from severe domestic affliction is advised not to sit for a final examination. Instead, he or she should advise the Registrar, within forty-eight hours following the examination, of the circumstances and should apply for a deferred final examination. (See § 16.3.5). Similar action should be taken by any student, who, because of religious convictions or for other cogent reasons, is unable to write a final examination at the scheduled time. Such application will be referred to the student's Dean for a final decision.

When a student is absent from a final examination without acceptable excuse, a final grade may be computed using a raw score of zero for the final examination. In other cases the final grade will be shown as "Absent." The policy with respect to which method of reporting the final grade is used is determined by the faculty of the department offering the course. For the purpose of evaluating the student's overall performance, the interpretation of the grade assigned is the responsibility of the faculty in which the student is registered and it may determine what action will be taken.

(3) *Cancellation of paper during examination.* If a student becomes ill or receives word of domestic affliction during the course of an examination, he or she should report at once to the Supervisor, hand in his or her unfinished paper, and request that it be cancelled. Thereafter, if illness is the cause, he or she must go directly to University Health Service so that any subsequent application for a deferred examination may be supported by a medical certificate. The Registrar should be notified in writing of the circumstances within forty-eight hours of the examination. In certain cases, the decision may be to grant a deferred final examination, which will carry with it no supplemental privilege in case of failure.

(4) *No subsequent cancellation of papers.* Should a student write an examination, hand in his or her paper for marking, and later report extenuating circumstances to support a request for cancellation of his or her paper and for another examination, such request will not be entertained.

(5) *Debarment from final examination.* A student may be refused permission to write the final examination in a course on the recommendation of the department concerned and with the concurrence of the Dean of his or her faculty, in the following circumstances:

(i) The student has neglected to do a substantial portion of his or her written assignments in a course of which these are an essential feature, or has attended insufficiently in a course in which class participation is a necessity.

(ii) The student has neglected to do a sufficient amount of the practical or laboratory work in a course in which these are considered a basic requirement.

(6) *Failure in First Term Course.* A student who has failed the first single term course in a two single term course sequence may proceed to the second single term course unless his or her faculty has ruled otherwise.

(7) *Release of Final Examination Papers.* Departments subscribing to the belief that there is educational value in permitting students to see their final examination papers after they have been marked, may arrange for this to be done. However, papers should not actually be released to students until the deadline for application for reappraisal has passed, as an appeal cannot be entertained after the custody of the paper has been relinquished to the student.

16.3.3 NOTIFICATION OF RESULTS

(1) *Release of Grades.* Only the Registrar's Office is empowered to issue official statements of results or transcripts of records. However, Department Chairmen, or their delegates, are authorized and instructed to release final grades in First Term courses by January 10, and in Second Term or Full-Session courses by May 15, in any manner that will protect the confidentiality of individual student grades. After the end of each university session, statements of record are mailed to each student at the home address specified on their registration. This should not be expected before June 1 at the earliest for the preceding Winter Session.

(2) *Reappraisals.* Since great care is taken in marking final examination papers, a student should apply for reappraisal of a paper only if he or she has good reason to believe that a mistake has been made. Reappraisals are dealt with by the Chairman of the department in consultation with members of the staff. A request for reappraisal must be made by letter to the Registrar (or by completion of an application form in the Examinations and Timetabling Division, Registrar's Office, Rm. 123, Administration Bldg.) by February 1 in the case of First Term courses, by June 25 for other Winter Session courses, and within thirty days of the publication of results for courses offered in the Spring and Summer Sessions. The request must include a statement of whether the intent of the appeal is to raise or lower the grade. If a student fails to include such a statement it will be assumed that the intent is to have the grade raised. The request must be accompanied by a fee of $20.00 for each paper; the fee will be refunded if the appeal is successful.

The privilege of having papers reappraised applies only to final examinations. A student may apply for reappraisal of no more than two papers in each term of the Winter Session. A student in the Spring or Summer Session will be limited to two reappraisals. Normally there is no such privilege for supplementary examinations. Students who have been granted the supplemental privilege and who are awaiting the outcome of a reappraisal should make application for supplemental examinations by the prescribed deadline.

It should be understood that if the grade is changed, the new grade, whether higher or lower than the original, replaces it as the student's official grade in the course.

16.3.4 SUPPLEMENTAL EXAMINATIONS

NOTE: No Supplemental examinations are granted to students registered in Spring and Summer Sessions.

(1) *Granting of supplementals.* Supplemental examinations may be granted by a faculty council in cases where the weight assigned to the final is 40% or higher. However, in any faculty where a student must complete an entire year's work satisfactorily before proceeding to the next, supplemental examinations may also be granted in a course taken exclusively by students of the faculty in question, even where the weight of the final examination is less than 40%. In this instance the weight assigned to the supplemental should not be less than 60%.

(2) *Number of supplementals.* The number of supplemental examinations permitted a student is determined by his or her faculty council. The privilege of writing supplemental examinations may be withheld by the faculty council if the student's grade in the course is very low, or if his or her grade-point average, including the course or courses failed, is below that required

for promotion. Notification of permission to write one or more supplemental examinations is included in the statement of results sent to each student.

(3) *Weighting of supplementals.* The percentage allotted to the supplemental examination shall not be less than the weight that was allotted to the final examination.

(4) *Application.* A student who has been granted the privilege of a supplemental examination must apply to the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building not later than the deadline shown in the Academic Schedule (see § 11), remitting the prescribed fee (see § 15.2.12). No late applications will be accepted.

(5) *Supplemental examination schedule.* A student must write his or her supplemental examinations at the time of the next regular supplemental examinations unless he or she has been granted an extension by his or her Dean. Extension of a supplemental privilege beyond one year of the time that the final examination was written will not be granted.

Supplemental examinations for students in faculties other than Law will be held in early August. Law students will write supplemental examinations in the period commencing the third week of June. However, a student in his or her graduating year who has an excused absence form, or who fails in a First Term final examination in December may, by permission of his or her Dean, be allowed a supplemental examination during the Second Term Reading Week or at the end of the session. Application for such examination must be made at least three weeks before the commencement of the examinations. (See the Academic Schedule, § 11 above.)

(6) *Failure in supplemental examination.* A student who returns to the University having failed a supplemental examination, or having neglected to write it, will be required to repeat the course. In certain cases an equivalent course may be prescribed instead of the failed course.

(7) *Failure in graduating year.* A member of the graduating class who, having exhausted all the regular supplemental examination privileges, still has a failure in one course only, may, with the permission of the faculty council concerned, register in and repeat that course extramurally, unless, in the opinion of the department concerned, it is necessary for him or her to attend classes in the course a second time.

16.3.5 DEFERRED FINAL EXAMINATIONS

(1) *Deferred final examinations.* A student who has missed a final examination because of illness or domestic affliction or who is obliged to be absent from an examination for some other compelling reason (including religious convictions) may apply for a deferred final examination. Application for such an examination must be made to the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building must be supported by a satisfactory medical certificate in the case of illness or other documentation substantiating an absence, and must be accompanied by the prescribed fee (above, § 15.2.12).

(2) *Deferred First Term final examinations.* The time and place of a First Term deferred final examination may be set by mutual agreement among those students who have missed the final examination for good cause and the instructor. If it is not possible to reach mutual agreement, then the examination, for students in faculties other than Law, should be held by Reading Week; Law students will write the examination in February.

(3) *Deferred Second Term and full session final examinations.* Any student who is granted a deferred final examination in a second term or full session course by his or her dean, may write that examination as soon as possible after the end of the second term at a time and place mutually agreeable to the student and the instructor and any other students in the course who are requesting the same privilege. If agreement is not possible, the examination will be scheduled during the regular supplemental and deferred examination period which is in August for students in faculties other than Law and in the third week of June for Law students. Applications to write in August must be submitted by the date specified in the Academic Schedule (§ 11).

16.3.6 SPECIAL EXAMINATIONS

A special supplemental or a special deferred final examination may be granted to a student who is prevented by illness (supported by a medical certificate), domestic affliction, or other extreme circumstance from writing a supplemental examination or a deferred final examination at the regular time. Application must be made to the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building a full month before the special examination is to be written, and must be accompanied by the prescribed fee (see § 15.2.12). Special examinations are normally written on the Saturday before classes begin in September. In certain approved cases they may be written during the regular examination periods in April, May, August, or September.

16.4 Academic Standing

16.4.1 FIRST-CLASS STANDING

First-class standing in a given year shall be awarded to any student who obtains a grade-point average of not less than 7.5 while enrolled in a full normal academic course load in that year: the definition of a full normal academic course load shall be left to the faculty concerned.

16.4.2 DEGREES WITH HONORS

A student in the Faculty of Arts or Science with approved qualifications may proceed to the degree of Bachelor of Arts or Bachelor of Science with Honors by following a more concentrated course of study in a special field under the supervision of one of the departments. The time required for an honors degree is four years from senior matriculation.

Degrees with Honors are awarded in two classes: First Class Honors, and Honors, in accordance with the requirements of the faculty and department concerned.

16.4.3 DEGREES WITH DISTINCTION

At the discretion of the faculty concerned the notation "With Distinction" is inscribed on the permanent record and graduation parchment of a candidate for any degree, except an honors or graduate degree, if the candidate has obtained a grade-point average of 7.5 or higher over the last two years of the program. In the B.F.A. and B.Mus. programs, the candidate is required to carry a full course load in each of the last two years. Students who have taken part of their work at another university may be granted a degree "With Distinction" at the discretion of the faculty concerned.

16.4.4 PROMOTION

Subject to the control of General Faculties Council, promotion regulations are set by the faculties of the University. Details will be found in the Faculty Regulations section of the appropriate Faculty Calendar.

16.4.5 UNSATISFACTORY STANDING

(1) Students who have been admitted to the University with a weak matriculation record may be warned of the fact at the beginning of their first session.

(2) The records of all students are reviewed at the end of each session. Students whose records are found to be unsatisfactory will be notified by their dean and may be referred to Student Counselling Services for re-counselling. They may be denied the privilege of writing supplemental examinations and required to repeat their year. Students whose records are extremely unsatisfactory may be required to withdraw from the University, and normally at least a year must elapse before re-admission will be granted.

(3) Students who have been required to withdraw will not be permitted to re-enter without applying to the dean of the faculty in which they propose to register. The dean may require a student to undergo counselling as a part of the process for obtaining re-admission. Students seeking re-admission must report their intention by letter to the dean not later than mid-June of the year in which re-admission is sought. The letter should include an explanation of their previous difficulties and indicate why the applicants believe that they may now be successful.

(4) Students with an extremely unsatisfactory record at another university will not be considered for admission to The University of Alberta until at least a year has elapsed from the date of their leaving their former university. Thereafter, the procedure outlined in (3) will apply.

(5) Subject to the control of the General Faculties Council, a faculty council may refuse permission to a student or prospective student to enter any year of a program if, in the opinion of the council, the student shows a lack of general educational attainment. Moreover, a student whose record in the classroom, in tests, or in final examinations is unsatisfactory may be required to withdraw from the faculty at any time.

16.4.6 SCHOLASTIC STANDING AND EXTRACURRICULAR ACTIVITIES

Every student, prior to accepting nomination for any position on the Executive Committee of the Students' Union or as the Board of Governors representative, shall be required to obtain a statement of academic eligibility from the Dean of his/her faculty. This statement shall be filed with his/her nomination papers.

To be eligible (1) to represent the University in any competition with outside organizations, (2) to participate in non-competitive University activities which are open to the general public, or (3) to be eligible to hold office in a recognized student organization, a student must be a registered student taking at least one course for credit during each term and must meet the requirements of satisfactory scholastic standing as defined by the Faculty.

16.5 Attendance

Since presence at lectures, participation in classroom discussions and projects, and the completion of assignments are important components of most courses, students will serve their interests best by regular attendance. Those who choose not to attend must assume whatever risks are involved. In this connection the attention of students is directed to § § 16.3.1(3), and 16.3.2(5) of this Calendar.

NOTE: § 16.6—Reserved.

16.7 Appeals and Grievances

General Faculties Council has instructed each faculty to publish in its Calendar not only its academic regulations, but also the procedures whereby decisions affecting the academic standing of a student may be reviewed or appealed.

In addition, General Faculties Council has established an Academic Appeals Committee and has delegated to it authority to hear appeals from students against faculty decisions which affect their academic standing. An appeal may be made only on the basis that there has been a miscarriage of justice.

Students must exhaust the provisions for appeal within their own faculty before taking an appeal to the G.F.C. Academic Appeals Committee.

The G.F.C. Academic Appeals Committee is not authorized to hear an appeal from a decision respecting a mark in an individual course, from an examination decision made in the Faculty of Graduate Studies and Research, from a decision to refuse admission to a quota faculty, or a decision relating to credit for courses taken outside the University of Alberta.

For further information regarding appeal procedures at the faculty level students should seek the advice of their Dean. Students who have been unsuccessful in appealing at the faculty level and who wish to appeal to the G.F.C. Academic Appeals Committee should consult the Executive Assistant to the President in order to learn the procedures to be followed.

If students are unsure of the validity of their grievance or procedures of appeal they should contact the Student Adviser in the Office of Student Affairs.

16.8 Student Records

16.8.1 CONTENTS OF FILES

(1) Only letters and documents pertinent to a student's admission and academic record may be kept in the official files of the Registrar, the Deans, and the Department Chairmen.

(2) Application for Admission forms of any Faculty requiring letters of reference must contain a statement to the effect that the Faculty reserves the right to solicit information from persons other than those named by the applicant as referees provided the student is advised of the names or the offices consulted as additional referees.

16.8.2 STUDENT RECORDS

(1) Official transcripts are issued only upon the request of the student. They are issued to the student personally or to whomever the student designates. An official transcript bears the original signature of a member of the Registrar's staff who has been given authority to sign transcripts, and the official seal of the University is imprinted over the signature.

(2) Unofficial copies of the student's academic record are issued to the student in the form of a year-end Statement of Results; to the student's Dean, and to the Chairman of the Department or designee, in the case of a student registered in a specialized, honors or graduate program. An unofficial transcript or copy of the student's academic record bears neither an original signature nor the University seal.

(3) Unofficial copies of the student's academic record may be issued to the following at their request: Student Counselling Services, when a student has

been referred for counselling by an authorized officer of the University; and the Student Awards Office, where an award made through a University scholarship committee is involved, on the understanding that information regarding the student's academic record will not be furnished to the scholarship donor without the student's consent.

(4) Unofficial copies may be issued at the student's request to other offices or individuals in the University.

(5) Public information regarding students, such as dates of attendance, place and date of birth, city and home address, verification of degree or degrees may be issued at the discretion of the authorized officer of the University to educational institutions, appropriate government agencies, prospective employers, and scholarship donors.

(6) Academic and disciplinary records are separate. The only disciplinary action that will be documented on a student's academic record is one involving the student's suspension or expulsion from the University. There is to be only one official disciplinary record. Prior to January, 1974 disciplinary records were kept by the Dean's Council. Since that date they have been kept in the custody of the Secretary to the General Faculties Council, the Officer responsible for implementing University disciplinary procedures. The only persons having access to such records will be those directly concerned with the action.

(7) Where access to academic records is sought for the purpose of research, such access may be granted by the Executive Committee of General Faculties Council on such terms as may be necessary to ensure the confidentiality of individual student records. Research on student data will be defined as not being within the normal administrative operation of the University. In case of doubt as to what may fall within "the normal administrative operation of the University", the G.F.C. Executive Committee will decide.

16.8.3 LETTERS OF REFERENCE AND RECORDS

(1) The contents of letters of reference regarding a student will not be revealed to the student without the permission of the referee. Letters of reference will be used only for the express purpose for which they have been supplied unless the permission of the referees and the student concerned has been given for other purposes.

(2) Where students have gone on their own initiative as a patient to University Health Service, or as a client to Student Counselling Services, the contents of their files are private, in accordance with professional ethics or codes of behavior.

(3) Where a student has been referred by an authorized officer of the University to the University Health Service or to the Student Counselling Services, the consultant's opinion will be reported to the authorized officer if the student gives written permission to do so. Such written permission shall be granted when the student signs a release form, the nature of which will be determined by the Service in question. The nature and content of any report provided by the consultant will be determined by the ethics and codes of behavior of the consultant's profession. If the student authorizes the consultant to release a report, the consultant may, at his or her discretion, discuss the contents of the report with the student.

(4) Confidential information regarding a student's record may be divulged by a faculty member to institutions, agencies or prospective employers only with the student's knowledge and consent. A faculty member, when called upon to do so, may use discretion in expressing an opinion to such institutions, agencies or prospective employers concerning a student's academic ability, character and personality. However, a record of the opinion so expressed will not become part of the student's file.

16.8.4 EXCEPTIONS TO STATED POLICY

Students who object to the release of information regarding their academic record, in accordance with the policy stated above, should notify the Registrar in writing, giving their specific objections. Appropriate action will be taken by the Registrar, who will so advise the student.

16.9 Graduation

On the recommendations of the faculty councils, degrees are conferred by the Chancellor of the University at a Convocation of the faculty, alumni, graduands, and their guests. Convocations for the conferring of degrees are normally held in the spring and fall of each year.

17 GENERAL REGULATIONS AND INFORMATION

17.1 Withholding of University Documents

In any case where a student has neglected or refused to pay amounts owed to the University, the Registrar has been empowered and directed by the Board of Governors to withhold all forms of certification of the student's marks or of other indicia of academic attainment, such as graduation diplomas, until the student has settled the account with the University. For example, certification with respect to the student's academic attainment may be withheld if the student owes the University for library penalties or fines; for purchases at the University Bookstore; for parking or traffic violations; for breakage or damage to laboratory facilities or supplies; for student fees and University of Alberta Emergency Student Loans; for room and board fees; for fees for supplemental or deferred final examinations; and, for fines imposed by the Discipline, Interpretation, Enforcement Board of the Students' Union, and University Disciplinary Panels and Boards.

18 STUDENT AFFAIRS AND STUDENT SERVICES

18.1 Office of Student Services

18.1.1 DEAN OF STUDENTS

The Dean of Students, 234 Athabasca Hall, is the Senior Administrator in charge of Native Affairs, Student Counselling, Student Awards and Student Affairs. The Dean chairs the Council on Student Services which is comprised of representatives from all the services on campus concerned with the welfare of the student body.

18.1.2 STUDENT AFFAIRS

The Office of Student Affairs, 225 Athabasca Hall, is concerned with the general welfare of students, both as individuals and organizations. The Offices of the Director of Student Affairs, the International Student Adviser, the Student Adviser, CIDA Co-ordinator, and Study and Travel Abroad Reference Room (S.T.A.R.R.) are located here. The CUSO Co-ordinator is located at 239 Athabasca Hall. The Student Affairs Office deals with the academic grievances of students and advises them on appeal procedures when appropriate. International, mature and physically disabled students are advised to contact the Office for a wide variety of necessary information and services. Mature student and international student orientations are annual programs of Student Affairs. Authorization for Special Liquor Permits for social functions held on or off campus by student groups and departments are obtained here. It is, also, the contact point for Continuing University Education (C.U.E.) and Single Parents on Campus (S.P.O.C.).

18.1.3 STUDENT AWARDS OFFICE

The Awards Office administers University Awards at the matriculation, undergraduate and graduate level. Information and application forms for government loan assistance may also be obtained from this office which is located in Room 252, Athabasca Hall.

18.1.4 STUDENT COUNSELLING SERVICES

Counselling is offered on a confidential basis to students and to prospective students throughout the year, there is no charge for the services of the centre.

Counselling with respect to vocational and program choice is available to *prospective students* during their Grade XII year or afterwards. However, concerns regarding the selection of individual courses or options should be directed to the Dean of the Faculty in which one is intending to register.

Students wishing to see a counsellor are advised to arrange an appointment in advance.

University students may use the services for any of the purposes indicated hereunder. Vocational testing is available and other testing is also available at the discretion of a counsellor.

(1) *Study skills.* Individual or group counselling with respect to study methods is available.

(2) *Vocational planning.* A counsellor may be consulted about future plans, including future professional training.

(3) *Personal problems.* Sometimes a student's performance suffers because of worry, restlessness, inability to concentrate, or preoccupation with personal problems. In such circumstances counselling should be sought.

(4) *Change of faculty.* Students contemplating a change of faculty may consult a counsellor. Preferably, this action should take place as early as possible before the beginning of the next University session.

(5) *Withdrawal from university.* Students making a total withdrawal from the University must submit a "Notice of Withdrawal from the University" form to the Office of the Registrar. This form must first be presented at Student Counselling Services for signature. Individuals having any concerns regarding their decision to withdraw or questions relating to re-enrollment or future vocational plans are invited to see a counsellor when submitting their Withdrawal Form for signature. Withdrawing students can *normally* see a counsellor without an appointment.

(6) *Unsatisfactory standing.* Students whose academic standing is unsatisfactory are advised to seek counselling, and, in cases of extremely unsatisfactory standing, may be required to do so by their faculty.

For further information or to arrange an appointment telephone 432-5205 between 8:30 a.m. and 4:30 p.m. weekdays or write the Director, Student Counselling Services, Athabasca Hall, University of Alberta, Edmonton, Alberta T6G 2E8.

18.1.5 ASSISTANTS TO THE DEAN IN RESIDENCE

The Assistants to the Dean in residence represent the University administration in the conduct of student affairs in the residences.

18.1.6 OFFICE OF THE ADVISER ON NATIVE AFFAIRS

This office has been established to assist in communications between the University and native communities. Assistance and advice is available for students or prospective students from native communities, for individuals or groups in the university who wish to work in or with native communities or organizations, and for native groups or individuals who may wish to gain access to the services and resources of the university. In this regard contact is maintained with the native communities and with Student Counselling, Student Health, Student Awards, organizers of special programs, as well as the student services of individual faculties, and the high school liaison division of the Registrar's Office.

Enquiries may be addressed to: Office of the Advisor on Native Affairs, 124 Athabasca Hall, The University of Alberta, Edmonton, T6G 2G5 (Telephone 432-5677).

18.1.7 PHYSICALLY DISABLED STUDENTS

Physically disabled students attending the U. of A. are invited to contact the Office of Student Affairs, Room 225, Athabasca Hall (432-4145), which provides a point of coordination for both students on campus and prospective students. This office provides a special Handbook for Physically Disabled Students and is involved in orientation programs designed to meet their special needs. Students are advised to contact the Office of Student Affairs prior to registration where assistance will be available with program planning, campus mobility, and volunter assistants.

There are certain buildings, notably Tory, which may not be accessible during regular building hours to disabled students. Keys for the purpose of entering such buildings during regular hours can be obtained from the Office of Student Affairs. Special arrangements for writing of examinations can be made through this office.

18.2.1 LIBRARY SERVICES

The libraries of The University of Alberta contain over 2,000,000 volumes and the main collection is housed in the Cameron and Rutherford Libraries. Full information about the University libraries is contained in § 243 of this calendar.

If the desired books are unavailable at the University libraries, students are welcome to make use of the Edmonton Public Library. Students whose permanent residence is outside Edmonton must pay a $30 fee, which entitles them to library privileges for one year.

18.2.2 UNIVERSITY HEALTH SERVICE

Comprehensive medical care is provided throughout the year by the University Health Service. A fee is assessed (See § § 15.2.7 to 15.2.11) to cover pharmaceutical and other ancillary services not paid for by the Alberta Health Care Insurance Commission.

Fully qualified medical and nursing personnel staff the Health Service which is located on the corner of 111 St. & 88 Ave., immediately south of the Law Centre.

Details of the range of services provided may be obtained by contacting the Nursing Supervisor at 432-2612.

18.2.3 HOUSING AND FOOD SERVICES

LISTER HALL

The rates quoted are those charged for the 1980-81 Winter Session. The results of the Student Housing Study may result in structural changes in Lister Hall Residences which in turn may have an effect on rates. Residents must be enrolled as full-time students.

Lister Hall contracts for residence are for the eight month, four month and one month periods and the residence fee covers the period as stipulated in the Residence Application and Contract. Occupancy before or after the contract period will be charged on a per diem basis. Meals for those students who check into residence prior to the contract period will be served on a cash a-la-carte basis.

Meals — Personal Meal Program. The resident will be issued Scrip in the amount shown on board fees as stipulated in the contract period selected which may be used to purchase food at any of the Housing and Food Service outlets or Campus (Lister Hall, S.U.B., C.A.B. Cafeterias and 14 Lunchrooms) subject to the hours of operation posted at each facility.

Students wishing to check into residence prior to or check out after the contract period are requested to advise the Housing Office, in writing, well in advance.

If a room is required outside the contract period it may be necessary to accommodate the student in a room or area other than the one permanently assigned during the normal session.

Charges for room and board are made at the following rates:

CONTRACT RATES (1980-81):

	Single	Double
1. Eight Month Contract		
Room	$1,190.00	$790.00
Board	1,100.00	1,100.00
Total Amount Payable (including $50.00 damage deposit and L.H.S.A. fee)	$2,365.00	$1,965.00
2. Four Month Contract		
Room	625.00	420.00
Board	550.00	550.00
Total Amount Payable (including $50.00 damage deposit and L.H.S.A. fee)	$1,238.00	$1,033.00
3. One Month Contract		
Room	170.00	115.00
Board	150.00	150.00
Total Amount Payable (including $50.00 damage deposit and L.H.S.A. fee)	$374.00	$319.00

PAYMENTS AND DEPOSITS:

1. Eight Month Contract	
Double Occupancy:	
Deposit	$325.00
Payment (to be received by Sept. 14/79)	$820.00
Payment (to be received by Jan. 14/80)	$820.00
Single Occupancy:	
Deposit	$325.00
Payment (to be received by Sept. 14/79)	$1,020.00
Payment (to be received by Jan. 14/80)	$1,020.00
2. Four Month Contract	
Double Occupancy:	
Deposit	$313.00
Payment (to be received by Sept. 14/79 or Jan. 14/80)	$720.00
Single Occupancy:	
Deposit	$313.00
Payment (to be received by Sept. 14/79 or Jan. 14/80)	$925.00
3. One Month Contract	
Double Occupancy: total cost/deposit	$319.00
Single Occupancy: total cost/deposit	$374.00

Applications will not be processed unless accompanied by the required deposit and a recent photograph. An administration fee of $5.00 will be levied on arrears of fees three days after the balance due date.

A student who plans to remain on full room and board during the Christmas vacation should notify the Housing and Food Services office of his or her intention.

PEMBINA HALL

Pembina Hall, a centrally located historic residence, is offered to full-time mature students (21 years of age and over). This 136 room co-educational residence offers an eight months contract only, which includes both room and board, using the same Personal Meal Program noted above.

1980-81 Rates:

Standard Room	$1,140.00	Board	$950.00
Large Room	$1,390.00	Board	$950.00

FACULTÉ SAINT.-JEAN

Faculté Saint-Jean is a co-educational residence housing approximately sixty students in single and double rooms. Faculté Saint-Jean retains a totally French environment in both its residences and classrooms. The buildings are located within two miles of the main University of Alberta campus. A shuttle bus operates hourly connecting Faculté Saint-Jean and the main campus. The 1980-81 Winter Session fee of $1,975.00 single and $1,720.00 double included both room and board. For application or further information contact the Dean's office. Faculté Saint-Jean, 8406-91 Street, Edmonton, Alberta, T6C 3M9.

MICHENER PARK FAMILY
STUDENT HOUSING

The 548 unit complex consists of two high-rise apartment buildings, row houses and maisonettes. Located in Michener Park, three miles south of the University, the housing units are for full-time, family students. The rental charge includes all utilities except the telephone. The units are not furnished but are provided with drapes, stoves and refrigerators; washing and drying machines are available for use by residents. Applications should be submitted as soon as possible, as there is a waiting list.

1980-81 Rates:

Maisonette (gr. flr.)	$210.00
Maisonette (2 & 3 flr.)	240.00
Row House (2 Bed Room)	245.00
Row House (3 Bed Room)	260.00
Galbraith House	235.00
Vanier House	245.50

NORTH GARNEAU HOUSING
COMMUNITY

This 106 unit housing facility offers a co-operative lifestyle and is comprised of houses, duplexes and apartments located on the east Campus. Rents are calculated on a square footage basis and range from approximately $195.00/month for a one bedroom suite to $510.00/month for larger houses. All units are rented on a month to month basis and are unfurnished except for a refrigerator and stove. This area is presently under review for new student housing with construction proposed to commence by the Summer of 1981. This is expected to temporarily reduce the number of units available. Please direct all enquiries to our Administration Office at 44 Lister Hall.

H.U.B.

The University of Alberta Housing and Shopping Complex houses approximately 900 students in 426 apartments on campus. The building, conveniently located at 89th Avenue and 112 Street, is physically linked to the Rutherford Library and the Humanities Centre. One person, two person, and four person apartments provide varying degrees of privacy at a cost in accordance with the amenities. Both furnished and unfurnished units are available. The apartments are rented on a month to month tenancy basis. Rents include all utilities except telephone.

PRESENT RENTAL SCHEDULE (September 1, 1980 — subject to change):

	RENT
One person (unfurnished)	$180.00
One person (furnished)	$208.00
Two person (unfurnished)	$260.00
Two person (furnished)	$290.00
Four person (unfurnished)	$400.00
Four person (furnished)	$465.00
Special End Unit (unfurnished only)	$280.00

A shopping mall is located on the main level of the building. Services include laundry, grocery, drug store, and travel facilities, and a variety of shops, restaurants, and recreational areas are available for students' needs.

HUB is usually fully rented with a waiting list. Interested students should apply early to the HUB Office at 8909-112 Street, Edmonton, Alberta, 26G 2C5 for applications and further information.

Further information and application forms for Pembina Hall, Lister Hall, North Garneau and Michener Park should be addressed to the Director of Housing and Food Services, 44 Lister Hall, 116th Street & 87th Avenue, University of Alberta, Edmonton, Alberta, T6G 2H6. For further information on other University Residences mentioned please write to the address given in conjunction with the residence.

THE UNIVERSITY RESERVES THE RIGHT TO CHANGE THE ABOVE REGULATIONS, RATES, AND SCHEDULES OF PAYMENT WITHOUT NOTICE.

The Student Off-Campus Housing Service. The Student Housing Service, operated by the Student's Union prepares lists of rooms available to students prior to both the Winter and Summer Sessions. The office is located on the second floor of the Student Union Building. As the lists change daily, no attempt is made to send them out by mail. If you require further information please telephone (403)432-4212.

18.2.4 STUDENT EMPLOYMENT

The Canada Employment and Immigration Commission in co-operation with the University maintains a full-time employment service on the campus on a year-round basis. Students at all levels of their studies are invited to use the facilities of this office whether seeking part-time, summer or permanent employment.

Local employers as well as employers from across Canada use the services of the Canada Employment Centre on Campus to interview prospective employees from The University of Alberta. Employment interviews usually commence during the last week of October and continue throughout the academic year. Opportunities are available to school boards who wish to interview on campus.

In order to take advantage of services offered, all students seeking any type of employment are urged to contact the office early in the school term. Employers are encouraged to arrange their on-campus interviewing dates before mid-July. Information concerning companies may be obtained and appointments with company representatives arranged. Employment counselling is conducted by Canada Employment Counsellors and students are urged to seek this assistance. Instruction in Campus Job Search Technique is also available to interested groups.

The Canada Employment Centre on Campus is located on the Fourth Floor of the Students' Union Building. Telephone 432-4291.

18.2.5 BOOKSTORE

The University maintains a large and modern Bookstore in the Students' Union Building, where prescribed textbooks and supplies of all kinds may be purchased. The Bookstore also stocks a wide range of books and other items of special interest to students and faculty.

(1) The returns policy for the Bookstore is seven days from the date of purchase and returned items must be accompanied by a sales receipt.

(2) At the beginning of each session the returns policy is extended and books may be returned as late as the week following the closing date for course changes, provided that they are unmarked and are accompanied by the sales receipt.

(3) Following this date, exchanges and refunds must be made within seven days of purchase and must be accompanied by a sales receipt.

(4) Further returns of books resulting from withdrawal or transfer may be made providing that the books are in an unmarked condition and the student requesting the refund has retained the sales slip and in addition has obtained a copy of the Withdrawal or Change of Registration form from the Office of the Registrar. This request for return must be made within seven days of the withdrawal or transfer.

The Bookstore also buys back certain textbooks in the spring for resale in the fall, provided that they are in good condition.

18.2.6 COMPUTING SERVICES

The Department of Computing Services, located in the General Services Building, is maintained by The University of Alberta as a service facility for the faculty, research staff and students at the University. It provides and operates a computing system to meet the needs of education and research groups at the University and in the community. Users of Computing Services are required to adhere to the "Conditions of Use" policy. Administrative data processing for the University is done by the Office of Administrative Systems (OAS).

Computing Services operates an Amdahl 470V/7 computer with 8 million bytes of memory, under the Michigan Terminal System (more commonly known as MTS). Over 600 computer terminals located in departments across campus provide remote access.

At the central location there are also card readers for batch input, printers (including a Braille printing facility), drums, tape drives, disk drives and a comprehensive telecommunications sub-system. Other facilities include a digitizer, an optical mark scorer, an incremental plotter, an interactive graphics display, an electrostatic printer/plotter, a paper tape reader/punch, and numerous keypunches and terminals for the use of staff and students.

The Department also provides services such as keypunching, text and data entry, contract programming, debugging and consulting, remote terminal maintenance and support, systems development and maintenance, an applications program library, and tape storage. Non-credit courses and seminars are offered and user documentation (including the fortnightly, Bulletin) is provided. In 1980 the University acquired a PLATO system for computer-based education.

18.2.7 DAY CARE CENTRES

The Students' Union and Community Day Care Centre is located in HUB (8917 - 112 St.). The Centre operates from 7:30 a.m. to 5:30 p.m. Monday to Friday with mid-day meals provided. The staff are fully qualified to work with young children. Because the centre is government sponsored, fees are based on family income. Interested students should contact the Day Care Centre at 432-2245.

A second Day Care facility, the Unversity and Community Day Care Centre, is located in Windsor Park School, 8720-118 Street. Although priority for admission is to university staff, limited positions may be available for children of students. Further information may be obtained by contacting the Centre at 433-0070.

18.3 Alumni Association

The Alumni Association dates from 1915 and counts among its members hundreds of graduates in all parts of the world and in all walks of life. Every student automatically becomes a member upon graduation, without fee.

The objectives of the Association are:

(1) Encouragement and support of the development of the University by (a) representation on governing bodies, and (b) interpretation of issues to members and the community at large.

(2) Dissemination to alumni of up-to-date knowledge of the University and its future plans as a basis for (a) the taking of positions on aspects of the operation and development of the University, and (b) intelligent and responsive representation on governing bodies.

(3) Involvement of the largest possible number of alumni in order that allegiance to the University ideal may be fostered.

The Alumni are represented on the Board of Governors and the Senate.

The office of the Alumni Association is located on the fourth floor of Athabasca Hall.

18.4 Athletics

18.4.1 INTRAMURAL ACTIVITIES PROGRAM

The Intramural Program is an organized voluntary program of sports and recreational activities within the University, for both men and women.

All full-time students are eligible to participate as well as part-time students who opt to pay the U.A.B service fee and those faculty members who purchase a privilege card in the West Wing of the Physical Education and Recreation Centre.

The main purpose of the program is to give all students the opportunity to take part in a wide variety of organized activities. Intramurals provide a welcome recreational break from the rigors of academic study, and promote physical fitness and a concern for physical fitness among the participants. Close friendships often result from participation in intramural activities. The students taking part may learn new activities or re-acquaint themselves with old favorites — whatever the case, these activities usually continue to be enjoyed well beyond the University years. As with all recreational activities, intramurals promote a spirit of cooperation and fair play among the participants, and in the case of the student managers and directors of the program, provide valuable experience in administration and leadership. Indeed, intramurals are as worthwhile as they are fun.

18.4.2 INTERCOLLEGIATE ATHLETIC PROGRAM

The intercollegiate program at The University of Alberta is designed to provide diversified competitive opportunities, skilled and qualified coaching and outstanding facilities for students with superior athletic talents. It is designed to further develop and utilize these talents fully in high calibre organized competition with students of similar ability across Canada. The University of Alberta is a charter member of the Canada West University Athletic Association. The *Golden Bears* and *Pandas* compete in the C.W.U.A.A. with men's and women's teams from the Universities of British Columbia, Victoria, Calgary, Lethbridge and Saskatchewan. Conference champions advance to compete in national and international competitions organized by the Canadian Interuniversity Athletic Union. In the past year national championships were held in football, volleyball, basketball, hockey, swimming, cross-country running, soccer, wrestling and gymnastics, for the men and volleyball, swimming, gymnastics,

cross-country running, field hockey and basketball for the women. Thus the opportunity to travel and meet athletes from across Canada and around the world is made available to Golden Bear and Panda participants. Last year a much respected Alberta vitality was generated by 450 athletes, coaches, and managers on 19 men's and women's teams. Team members wore the traditional green and gold colors with pride and enthusiasm.

Spectator participation has proven to be a vital part of the Alberta campus scene as 150,000 students, staff and alumni attended Golden Bear and Panda games during the past session. These activities served as a common rallying point and a diversion from day to day academic endeavors. All full-time students, and those part-time students who pay the Athletic Fee are entitled to free admission to all regularly scheduled events.

Student athletes receive individual recognition for their achievements at the yearly athletic awards night. This is the culminating highlight of the athletic year at the U of A and includes awards for the hardworking managers and student trainers of all the teams. The most highly prized trophies awarded are the Bakewell and Wilson trophies, presented to the top female and male athletes at the University. Award recipients are chosen by a committee made up of faculty representatives and members of the University Athletic Board.

18.5 Transportation and Parking

Traffic and Parking Regulations which apply to the use, operation and parking of all motor vehicles within the boundaries of the campus are established by the Board of Governors. It is the responsibility of all students to make themselves aware of the regulations, copies of which are available at the Parking Services located in the Art Workshop I.

Any person may apply to register a motor vehicle for a parking permit. Parking permits will be issued in accordance with the priorities set forth in the Traffic and Parking Regulations.

Visitors, and any persons who do not have a parking permit affixed to their vehicles, are limited to parking in zones designated as visitors parking zones and in metered stalls. Parking in any other zones or stalls is a violation of the regulations. Traffic tickets are issued for violations. An appeal procedure exists through which persons may appeal parking tickets to the Parking Appeals Committee (a committee of General Faculties Council). The Traffic and Parking Regulations should be consulted in such cases.

Public transportation to the campus is operated by the Edmonton Transit System and bus passes may be obtained by students at reduced rates during the University session. These passes are on sale after registration and immediately before and after Christmas vacation.

Parking Services is situated on the second floor south of Art Workshop I. (Telephone 432-2236).

19 STUDENT CONDUCT AND DISCIPLINE

19.1 General Information

When students enter the University, it is expected that they will apply themselves to their studies and conduct themselves with propriety and in conformity with the Code of Student Behavior. Should a student fail to live up to these expectations, the University reserves the right to take such action as, in its opinion, the case warrants.

Any person believing that a student has committed an offense, other than an academic offense, against University rules may, by a statement in writing delivered to the Officer responsible for Disciplinary Procedures (the Executive Assistant to The President), require the Officer to prepare and serve a charge upon such student. University Disciplinary Panels (consisting of three persons of whom two are students) have been established to hear such charges. Appeals from Panel decisions may be made to a University Appeal Board of like composition. The Disciplinary Panels, by delegation of authority from General Faculties Council, are empowered to fine students, to suspend, or to expel. In cases of academic dishonesty, such as plagiarism, the complaint is made in the first instance to the student's instructor. If the offense is serious it will be referred to the dean of the student's faculty who may in turn refer the complaint to the Executive Assistant to The President for consideration by a University Disciplinary Panel. A student may appeal the decision of his or her instructor or dean.

The Students' Union deals with matters of student discipline coming within its purview. For this purpose it has set up a Discipline, Interpretation and Enforcement Board. Appeal from rulings of this Discipline Board or the Lister Disciplinary Committee is to the University Appeal Board.

The assistants to the dean in residence, in conjunction with the elected student committees in the residences, are responsible for the supervision of conduct in the halls of residence.

There is also a Dean of Students who is prepared to assist students in disciplinary matters.

A student who feels he or she has a legitimate grievance that has not been adequately dealt with through other channels, has the right to petition any of the governing bodies of the University through the President of the University.

19.2 Code of Student Behavior

(As approved by G.F.C on September 29, 1980)

PART I *Amendment of the Code*

1. The Code may be amended by General Faculties Council in exercise of the authority vested in it by § 39 of the Universities Act.

2. The Code must be published in each issue of the University Calendar and on at least one occasion annually in the *Gateway*.

3. Amendments to the Code shall come into force only upon being published with the Code in its entirety on at least one occasion during each session prior to the appearance of the University Calendar which contain the amendments. Such publication shall take place in the *Gateway* or in another publication having wide circulation on Campus.

4. The Executive Assistant to the President shall maintain the Official Copy of the Code and all amendments thereto.

PART II *Offences*

Any of the following activities or conduct or attempts thereat or participation therein shall constitute an offence and be punishable:

1. Cheating, plagiarism, fraud, deceit, or other forms of *academic* dishonesty.

2. Subjecting any person to physical or mental indignity, injury, or violence.

3. Disturbing, disrupting, or otherwise interfering with studies, laboratories, lectures, work, or other lawful activities of fellow students or staff.

4. Intentionally damaging, destroying, or moving without authority or permitting to be damaged, destroyed or moved without authority, the property of the University, or of any student or staff member.

5. Unauthorized use of University property or property within the University, or use of or entry on such property in an unauthorized manner.

6. Raiding or unlawful entry of University residences or areas thereof.

7. Smoking during classes, laboratories and examinations.

8. Tampering with or misusing of fire or safety equipment including signs and notices.

9. Participation in unauthorized hazardous activities on Campus.

10. Failure to obey the lawful instructions of any University official or employee acting in the performance of his or her duty and failure to obey all published or posted regulations relating to the use and entry of University buildings and facilities.

11. Failure to provide identity at the request of a University official or employee acting in the course of his or her duty where:

a. the University official or employee finds the student committing an offence

or

b. the University official or employee has reasonable and probable grounds to believe that an offence has been committed or is about to be committed.

12. Initiation ceremonies involving physical violence, hazing or personal indignity.

13. Failure to obtain approval, permission or to otherwise follow procedures where required under *Administrative Requirements,* Part IV of the Code.

PART III *Penalties*

In the case of a breach of Part II of the Code of Student Behaviour the following penalties may be imposed at the discretion of the Disciplinary Panel or Appeal Board (43.3.7):

1. *Breach of section 1*
a. Expulsion
b. Suspension
c. Reprimand
d. Academic probation
2. *Breach of sections 2, 3, 4, 5, 6, 8, 9 and 12*
a. Expulsion
b. Suspension
c. Fine of not more than $200.00
d. Reprimand
e. Exclusion from specified areas of the University
3. *Breach of sections 10 and 11*
a. Fine of not more than $100.00
b. Reprimand
4. *Breach of sections 7 and 13*
a. Fine of not more than $25.00
b. Reprimand

PART IV *Administrative Requirements*

In the following sections applications may be conditionally granted or refused.

All applications for approvals to engage in the following activities must be made in writing and shall be approved or rejected with written reasons attached:

1. The outdoor use of public address systems, loud-speakers, bull horns, or sound trucks on the Campus of the University is not permitted without the prior approval in writing of the Vice-President (Facilities and Services). An appeal shall lie to the President. (City ordinances apply on the peripheral streets).

2. The use of the name of the University or the crest or coat of arms of the University, or of a University club or organization on any publication without the approval of the President is prohibited. An appeal shall lie to the Chairman of the Board of Governors.

(Note: As a matter of policy the President will not grant such approval to anonymous publications).

3. The unauthorized use of, bringing in, or possession of liquor on University premises, is prohibited. Liquor permits are issued by the Office of Student Affairs and each case will be treated individually on its merits. An appeal from such decisions shall lie to the Vice-President (Finance and Administration).

NOTE: For information about liquor permits and liquor regulations in the *Residences,* refer first to the Office of the Director of Housing and Food Services. For information about liquor regulations in *HUB,* apply first to the Office of the HUB Manager. For information about liquor regulations and permits relating to *other areas of the University,* apply directly to the Office of Student Affairs.

University clubs, while legally independent from the University in their financing and other arrangements, are nontheless required to register with the University through the Office of Student Affairs in order to ensure that the club accepts its share of responsibility for protecting the property and good name of the University. In return a University club receives certain privileges, including the right to call itself a University of Alberta club, to ask for a place in the year's schedule of events, to apply for rooms and other facilities on Campus, to request that its notices be published in the *Gateway,* and to be listed in the *Student Handbook.*

5. In order to obtain an excused absence from examinations, tests and other academic requirements. Off-Campus trips by individuals, groups and teams representing student organizations must be approved by the Dean of Physical Education and Recreation or his designee in the case of athletic matters and by the Deans' Council or its designee in all other cases. An appeal shall lie from a decision of the Dean of Physical Education and Recreation to the Vice-President (Academic).

6. Permission for the showing of films on Campus, except for those used as part of the academic or academic related programs, must be obtained from the Vice-President (Facilities and Services) who may make regulations from time to time for the aforementioned purpose in conformity with the Alberta Amusements Act and other applicable provincial legislation. An appeal shall lie to the President.

7. University individuals, groups and organizations may advance a cause and distribute or sell related literature or other similar material:

(a) in designated Activity Zones provided the use of the Zones has been reserved in advance with the Vice-President (Facilities and Services). An appeal shall lie to the President.

(b) in the areas other than Activity Zones with the prior approval of the Dean or other administrative officer or committee in charge of the area. An appeal shall lie to the Vice-President (Academic).

8. Canvassing and soliciting are forbidden on the Campus of the University. Exceptions may be made only by the Vice-President (Facilities and Services). An appeal shall lie to the President.

PART V *Administrative Information*

1. University Clubs, organizations, or individuals sponsoring functions on or off-Campus are responsible for maintaining discipline and enforcing liquor and other regulations on the premises where the functions are being held.

(Note: For duties of the Campus Security Services, see the Office of the Vice-President (Facilities and Services)).

2. University clubs, organizations or individuals wishing to invite the general public to on-Campus events or to sponsor off-Campus speakers are responsible for so informing the President's Office and for making related arrangements including space reservations, protection of persons and property, and payment of any related costs.

(Note: Additional information may be obtained from the Vice-President (Facilities and Services).)

3. All students living in or attending at a University residence are subject to the rules and regulations of that residence. Rules and regulations in force including any amendments are posted at the business office of the residence, or in the areas affected.

4. All persons owning, operating or parking vehicles on University property are subject to the current Traffic and Parking Regulations of The University of Alberta. Information about Traffic and Parking Regulations in force, including any amendments, may be secured from the Parking Supervisor's Office.

5. Persons desiring to carry on commercial activity on property under the government and control of the Students' Union should obtain permission from the Students' Union.

6. The University of Alberta comes under the purview of the Alberta Fire Prevention Act, R.S.A. 1970 c. 115 and the regulations therein. The University of Alberta Board of Governors has approved and adopted a University Fire and Safety Code that is applicable to students, staff and visitors.

7. Members of the University community may put up posters and notices on "open" notice boards as long as the posters and notices do not create a nuisance. Enquiries concerning other displays or signs on University property should be directed to the Dean of Students. Notices may not be affixed to trees or shrubs. The Libraries, food service areas, the Administration Building, and University Hall are to be kept free of any but official notices.

8. By agreement with the Edmonton Musicians Protective Association, orchestras organized and playing on Campus need not consist wholly of Association members, but all orchestras brought in to play for University functions must be made up of Association members. For further information students should contact the Secretary of the Edmonton Musicians Protective Association.

9. The Campus Law Review Committee reviews the rules and regulations of the University relating to student disciplinary matters on a continuing basis. Members of the University community have the right to speak to and make representations concerning the above at any duly constituted C.L.R.C. meeting.

Agriculture and Forestry Centre

Faculty of Agriculture and Forestry

31 INTRODUCTORY

31.1 Members of the Faculty

31.1.1 OFFICERS OF THE FACULTY

Dean
J. P. BOWLAND, Ph.D.

Associate Deans
J. B. McQUITTY, M.Sc. (Planning and Development)
P. J. MURPHY, M.Sc.F. (Forestry)

Administrative Officer
L. N. STRAFFORD, B.Sc.Ag.

31.1.2 DEPARTMENT OF AGRICULTURAL ENGINEERING

Professor and Chairman
B. T. STEPHANSON, M.Sc. (Power, Machinery and Materials Handling, and Processing)

University Professor
F. V. MacHARDY, Ph.D. (Economics of Mechanization and Renewable Resource Energy)

Professors
K. W. DOMIER, Ph.D. (Power and Machinery)
H. P. HARRISON, Ph.D. (Farm Machinery)
J. B. McQUITTY, M.Sc. (Farm Buildings)
T. A. PRESTON, M.A. (Work Study, Production and Industrial Engineering, Operations Research)
E. RAPP, M.Sc. (Soil and Water)

Associate Professors
A. W. ANDERSON, M.Sc. (Operations Research)
E. G. A. GRIMMER, B.Sc.F. (Forest Engineering)

Assistant Professor
M. MICKO, Ph.D. (Wood Science)

31.1.3. DEPARTMENT OF ANIMAL SCIENCE

Professor and Chairman
R. T. BERG, Ph.D. (Animal Genetics)

Professors
F. X. AHERNE, Ph.D. (Swine Production)
J. P. BOWLAND, Ph.D. (Animal Nutrition, Swine)
R. T. HARDIN, Ph.D. (Poultry Genetics)
L. P. MILLIGAN, Ph.D. (Animal Biochemistry)
A. R. ROBBLEE, Ph.D. (Poultry Nutrition)
B. A. YOUNG, Ph.D. (Animal Physiology)

Associate Professors
R. J. CHRISTOPHERSON, Ph.D. (Animal Physiology)
R. J. HUDSON, Ph.D. (Wildlife Management and Productivity)
G. W. MATHISON, Ph.D. (Animal Nutrition, Beef Cattle)
M. A. PRICE, Ph.D. (Livestock Growth and Meat Production)
J. R. THOMPSON, Ph.D. (Meats Biochemistry)

Assistant Professors
J. J. KENNELLY, Ph.D. (Dairy Production)
W. C. SAUER, Ph.D. (Swine Nutrition)
A. SHIRES, Ph.D. (Poultry Nutrition)

Administrative Officers
H. CAMPBELL, B.Sc.Ag.
A. STEPHEN

Faculty Service Officer
B. KERRIGAN

31.1.4 DEPARTMENT OF ENTOMOLOGY

Professor and Chairman
G. E. BALL, Ph.D. (Systematics, Morphology, Evolution, Zoogeography)

Professors
D. A. McB. CRAIG, Ph.D. (Morphology, Histology)
W. G. EVANS, Ph.D. (Ecology, Behavior)
R. H. GOODING, Sc.D. (Insect Biochemistry, Medical Entomology)
B. S. HEMING, Ph.D. (Morphology, Development)

Associate Professor
B. K. MITCHELL, Ph.D. (Physiology, Behavior)

Assistant Professor (NSERC Fellow)
J. R. SPENCE, Ph.D. (Ecology Systematics)

Administrative Officer
E. J. ANDREWS

31.1.5. DEPARTMENT OF FOOD SCIENCE

Professor and Chairman
H. JACKSON, Ph.D. (Food and Industrial Microbiology)

Professors
D. HADZIYEV, Ph.D. (Food Chemistry)
F. H. WOLFE, Ph.D. (Food Chemistry)

Associate Professors
P. JELEN, Ph.D. (Food Processing)
M. LeMAGUER, Ph.D. (Food Engineering)

Assistant Professors
E. D. JACKSON, Ph.D. (Food Microbiology)
B. OORAIKUL, Ph.D. (Food Processing)
P. SPORNS, Ph.D. (Food Chemistry)

Honorary Academic Staff
G. L. GALL, LL.B. (Law)
L. E. McGANN, Ph.D. (Cryobiology)
D. J. SCHRODER, Ph.D. (Food Processing, Food Microbiology)

Administrative Officer
D. C. PARADIS, M.Sc. (Food Science)

31.1.6. DEPARTMENT OF FOREST SCIENCE

Professor and Chairman

P. J. MURPHY, M.Sc.F. (Forest Recreation, Forest Policy and Administration, Forest Fire Control and Use)

Associate Professors

J. A. BECK, Ph.D. (Forest Resources Management and Economics)
B. P. DANCIK, Ph.D. (Dendrology and Forest Tree Improvement)
J. D. HEIDT, Ph.D. (Outdoor Recreation and Resource Economics)
A. K. HELLUM, Ph.D. (Silviculture)
K. O. HIGGINBOTHAM, Ph.D. (Forest Ecology and Tree Physiology)
R. L. ROTHWELL, Ph.D. (Forest Hydrology)

Assistant Professors

J. R. BUTLER, Ph.D. (Wildland Recreation, Management and Planning, Environmental Education)
S. J. TITUS, Ph.D. (Resource Measurements and Mensuration)
P. M. WOODARD, Ph.D. (Forest Fire Management)

Associate Academic Staff

J. D. CAMPBELL, Ph.D. (Paleoclimatology and Dendrochronology)
F. C. YEH, Ph.D. (Forest Genetics)

Administrative Officer

H. D. WALKER, B.Sc.F.

31.1.7. DEPARTMENT OF PLANT SCIENCE

Professor and Chairman

W. P. SKOROPAD, Ph.D. (Plant Diseases)

Professors

W. T. ANDREW, Ph.D. (Vegetable Crops)
A. W. BAILEY, Ph.D. (Range Ecology and Management)
K. G. BRIGGS, Ph.D. (Plant Breeding)
N. COLOTELO, Ph.D. (Host-Parasite Relationships)
C. HIRUKI, Ph.D. (Virology)
R. H. KNOWLES, M.Sc. (Landscape Architecture, Turf, Woody Ornamentals and Fruit Crops)
Z. P. KONDRA, Ph.D. (Plant Breeding)
M. S. SPENCER, Ph.D. (Plant Biochemistry)
W. H. VANDEN BORN, Ph.D. (Herbicides and Weed Physiology)
P. D. WALTON, Ph.D. (Plant Breeding)
S. ZALIK, Ph.D. (Plant Physiology and Biochemistry)

Associate Professor

E. W. TOOP, Ph.D. (Floriculture)

Assistant Professors

E. A. CLARK, Ph.D. (Pasture Management)
A. HORAK, Ph.D. (Plant Physiology)

Administrative Officer

V. L. CLARKE

31.1.8 DEPARTMENT OF RURAL ECONOMY

Professor and Chairman

M. L. LEROHL, Ph.D. (Farm Management, Agricultural Policy)

Professors

L. P. APEDAILE, Ph.D. (Econometrics, Rural Development)
L. BAUER, Ph.D. (Farm Management and Production Economics)
D. S. GILL, Ph.D. (Rural Sociology, Agricultural Extension)
M. H. HAWKINS, Ph.D. (Marketing, Business Management)
T. W. MANNING, Ph.D. (Marketing, Natural Resources Economics)
T. A. PETERSEN, Ph.D. (Farm Management, Extension)
W. E. PHILLIPS, Ph.D. (Econometrics, Natural Resources Economics)
J. J. RICHTER, Dr.Rer.Pol. (Marketing and Trade)
W. M. SCHULTZ, Ph.D. (Finance, Production Economics)
M. M. VEEMAN, Ph.D. (Marketing)
A. A. WARRACK, Ph.D. (Economic Theory, Marketing Policy)

Associate Professors

M. R. CARROLL, Ph.D. (Forestry Economics)
D. G. MURRI, M.S. (Rural Sociology)
T. S. VEEMAN, Ph.D. (International Development, National Resources, Economics)

Administrative Officer

R. R. NORBY, M.Sc.

31.1.9 DEPARTMENT OF SOIL SCIENCE

Associate Professor and Chairman

W. B. McGILL, Ph.D. (Soil Biochemistry)

Professors

F. D. COOK, Ph.D. (Soil Microbiology)
M. P. K. NYBORG, Ph.D. (Soil Fertility)
S. PAWLUK, Ph.D. (Soil Genesis and Classification)
J. A. ROBERTSON, Ph.D. (Soil Chemistry)
G. R. WEBSTER, Ph.D. (Soil Chemistry)

Associate Professors

P. H. CROWN, Ph.D. (Remote Sensing and Land Use)
M. J. DUDAS, Ph.D. (Soil Classification and Mineralogy)
D. J. PLUTH, Ph.D. (Forest Soils and Land Use)

Assistant Professor

D. S. CHANASYK, Ph.D. (Soil Physics)

Associate Academic Staff

G. M. COEN, Ph.D. (Soil Genesis and Chemistry)
W. W. PETTAPIECE, Ph.D. (Soil Genesis and Mineralogy)

Administrative Officer

M. E. YOHEMAS

31.1.10 ADDITIONAL MEMBERS OF FACULTY COUNCIL

President and Vice-Chancellor

M. HOROWITZ, Ed.D.

Professors

M. G. FAULKNER, Ph.D. (Mechanical Engineering)
G. W. LAMBLE, M.Sc. (Extension)
J. A. LEJNIEKS, Ph.D. (Political Science)
M. J. ROBINS, Ph.D. (Chemistry)

Associate Professors

J. L. B. GAMLEN, Ph.D. (Mathematics)
J. HODDINOTT, Ph.D. (Botany)
W. M. SAMUEL, Ph.D. (Zoology)

Representatives

K. C. DAVIES, B.Sc. Ag., Alberta Institute of Agrologists
W. R. DEMPSTER, Ph.D., Canadian Institute of Forestry
B.Sc. Agricultural Engineering — one student representative
B.Sc. Agriculture—five student representatives

B.Sc. Food Science — one student representative
B.Sc. Forestry—three student representatives
Graduate Studies and Research—two student representatives

Registrar of the University
W. A. BLANCHARD, Ph.D.

31.2 General Information

The Faculty of Agriculture was established at the University of Alberta in 1915 and the first students to receive the degree of Bachelor of Science in Agriculture (B.S.A.) graduated in 1918. The present B.Sc. degree was first given in 1924. A Forestry program leading to the B.Sc. degree was authorized in 1970. The first students registered in this program commenced studies in the fall term of the 1970-71 academic year. The first degrees in Forestry were granted in April 1974.

The four-year programs in Agriculture and Forestry are professional ones, providing education in many facets of the science of agriculture and forestry. The Faculty has under its direct administration the Departments of Agricultural Engineering, Animal Science, Entomology, Food Science, Forest Science, Plant Science, Rural Economy and Soil Science. Many of the courses which are fundamental to the science of agriculture and forestry are given in other departments of the University, since the underlying scientific principles are the same as in any other field. It is the function of the departments in this Faculty to apply these principles to the solution of agricultural and forestry problems and to seek, through research, new information.

A modified first year in Agriculture or Forestry may be taken at The University of Calgary, or one of the affiliated Junior Colleges.

The second, third and fourth years in Agriculture or Forestry are offered at The University of Alberta only.

A four-year cooperative program is offered in Agricultural Engineering leading to a B.Sc. (Agr. Eng.) See § 33.2.

A four year interdisciplinary program is offered in Food Science leading to the degree of B.Sc. (Food Science). See § 33.3.

Two years of pre-Veterinary Medicine may be taken at The University of Alberta with a view to application for admission to the four-year program in Veterinary Medicine at the Western College of Veterinary Medicine, University of Saskatchewan, Saskatoon. (See special program, § 33.5 below.)

The departments in the Faculty also offer advanced degrees, and carry on extensive programs of research. The Departments of Agricultural Engineering, Animal Science, Entomology, Forest Science, Plant Science, and Soil Science operate off-campus facilities used in the teaching and research programs of these Departments. All departments have space and facilities for laboratory research.

Agricultural graduates are engaged in teaching, research, extension, and administrative work related to agricultural production, marketing, and processing; in the manufacture and distribution of such essentials as feeds, fertilizers, and machinery; in the handling of agricultural products; and in farming. In recent years an increasing number of agricultural industries have offered attractive opportunities for graduates of this program.

Forestry graduates are employed by the Federal and Provincial Governments and by industries associated with the production and marketing of forest products.

32 FACULTY REGULATIONS

32.1 Admission

Detailed admission requirements of the Faculty of Agriculture and Forestry are set out in § 13.1 and 13.3 of the University Regulations and Information for Students Calendar. However, students should note that commencing September, 1978, the number of applicants admitted to the first year of programs offered by the Faculty was limited by a quota. Consequently, it may not be possible to admit all who meet the minimum requirements. The Faculty will also consider for acceptance non-matriculated students of 21 or over, providing they are interviewed and given a satisfactory recommendation by Student Counselling Services.

English Language Proficiency: English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take any one of several forms: 1. successful completion of the equivalent of three years of full-time instruction in an English language secondary instituition in Canada; 2. presentation of a successfully completed full-year or more of course work, including an introductory course in English, in an accredited post-secondary institution where English is the language of instruction and from which advance credit is normally allowed by The University of Alberta; 3. successful completion of the equivalent of three years of full-time instruction in a school/institution outside Canada where academic subjects are taught by "English Language" instructors, as accredited by the International Institute of Education (I.I.E.), or as recognized by The University of Alberta; 4. successful completion of the equivalent of three years of full-time instruction in a school in Canada in which the major language of instruction is other than English but where the level of English proficiency required for graduation is equivalent to that in English language schools, as recognized by a provincial Department of Education; or 5. presentation of results of the Test of English as a Foreign Language (TOEFL) or its equivalent in other approved standard tests. Applicants presenting a TOEFL score of 600 (or its equivalent in other approved standard tests) will be considered as having demonstrated English language proficiency.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six

Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building, University of Alberta.

32.2 Academic Standing

(1) The Faculty of Agriculture and Forestry makes use of the "Performance Index" (P.I.) system for gauging academic performance. This is obtained by multiplying grade point average by the number of full course equivalents passed. Performance Index is related to academic performance as follows:

Category A—P.I. 20.0 or greater — Satisfactory
Category B—P.I. 10.1 to 19.9 — Unsatisfactory
Category C—P.I. 10.0 or less — Unsatisfactory — required to withdraw

Subject to quota limitations category A and B students may continue in their program. Category B should be interpreted as an indication that improved performance is necessary for graduation.

Category C students will normally be required to remain out of The University of Alberta for one year. Re-admission to the Faculty of Agriculture and Forestry is dependent upon a favorable recommendation from Student Counselling Services.

(2) In order to be eligible for graduation students must obtain a 5.0 grade point average or better in ten full-session course equivalents taken during their third and fourth years.

In cases where more than 10 full-session course equivalents were taken in the last two years, the grades from all courses taken in the last year will be used in the G.P.A. calculation and additional courses will be selected from the previous year to make up the 10 course requirement. The courses selected from the previous year will be those with the highest grades.

In cases where fewer than 10 full-session course equivalents were taken in the last two years, the grades from all courses taken in the last two years will be used in the G.P.A. calculation, and additional courses will be selected from the previous year to make up the 10 course requirement. The courses selected from the previous year will be those with the highest grades.

(3) Students should note that for the purposes of scholarships and awards, the Faculty defines "First Class Standing" as a grade point average of 7.5 or better on not less than 27 units of course weight during the regular academic session, or on not less than 15 units if the student is in attendance for only a single term; and, "With Distinction" as a grade point average of 7.5 or better on the last 60 units of course weight with the G.P.A. being calculated in the same way as determination of the G.P.A. required for graduation (see #2 above).

(4) In any year, a student will not be allowed to write supplemental examinations in more than two full-session courses, or equivalent. During the entire program, students will not be allowed to write supplemental examinations in more than three full-session courses, or the equivalent, whether for the purpose of obtaining passing marks or of raising their average to the required level.

(5) The Faculty of Agriculture and Forestry does not grant conceded credit for grades of three. As with all regulations, the Executive Committee will consider appeals if a student has extenuating circumstances which warrant such consideration. Students would be required to submit their appeals in writing to the Executive Committee during or at the end of the academic year in which the grade of three was obtained.

NOTE: Students are reminded that for admission to a course with a prerequisite requirement, a grade of at least 4 must be obtained in the prerequisite course.

32.3 Curriculum and Graduation

(1) The program for the B.Sc. degrees in Agriculture and Forestry must conform to the descriptions in § § 33.1 and 33.4 respectively. All students must obtain approval for their programs from their program advisor. Students are reminded, however, of the regulation that the student is responsible for the completeness and accuracy of his or her registration.

(2) The Faculty may, for adequate reasons, permit students to register in more or fewer courses in a given academic year than their program normally entails. This may result in decreasing or increasing the length of time for graduation. *Students wishing to take more than six courses per term must obtain the written approval of the Dean.*

(3) Students registered in degree programs in the Faculty must have successfully completed a minimum of 20 full-session course equivalents. Students who register for more than the minimum number of courses for graduation must designate the additional courses as extra. *In order to exclude courses in excess of the minimum requirement from the contract for graduation, the student must designate such courses as "extras" at the time of registration for the final year.*

In addition, (i) students registered in the B.Sc. Agriculture program are required to complete Agriculture and Forestry 404, *Field Trip* (normally between the second and third year) and Agriculture and Forestry 451, *Professional Agriculture;* (ii) students registered in the B.Sc. Forestry program are required to complete Forest Science 301, *Forestry Field Camp.*

32.4 Withdrawal from Courses

Withdrawal from individual courses can be arranged through the Dean's Office in consultation with the program advisor. Applications for withdrawal should be made according to the deadlines listed in the Academic Schedule (§ 11).

32.5 Transfer from Other Programs

Students transferring into any B.Sc. program offered by the Faculty (regardless of whether they are transferring from other programs offered by the Faculty, other faculties of The University of Alberta, or other colleges or universities) must meet all of the requirements of the program in which they are registered in addition to meeting the residence requirements of The University of Alberta. Students in the Faculty of Agriculture and Forestry will not normally be permitted to register in any two degree programs simultaneously.

32.6 Holders of Previous Degrees

Holders of previous degrees registering in a B.Sc. program offered by the Faculty must meet all of the requirements of that program. Holders of four-year de-

grees will be required to complete a minimum of nine full-session course equivalents with a G.P.A. of at least 5.0. Holders of three-year degrees will be required to complete a minimum of fourteen full-session course equivalents, with a G.P.A. of at least 5.0 in ten full-session course equivalents normally taken during the last two years of the program.

32.7 Students from Alberta Agricultural and Vocational Colleges

Students who present the College Diploma from an Alberta Agricultural and Vocational College, and who obtain a grade point of 2.7 or higher on the 4-point system, may receive credit for up to six single-term courses in Agriculture in recognition of collective experience and performance in the Agriculture Colleges. These course credits are to be from among the 200 and 300 level courses of the Faculty and will be determined by the Dean upon recommendation by the student's program advisor.

32.8 Students from Institutes of Technology

Graduates from related programs at Institutes of Technology may be granted some advance placement or transfer credit upon the recommendation of the advisor in the student's program.

32.9 Appeal Procedures

Students who wish to appeal decisions related to academic and program requirements should first discuss the problem with the Dean. Should students not be satisfied they may appeal in writing to the Executive Committee of the Council of the Faculty of Agriculture and Forestry. In the event of an unsatisfactory appeal to the Executive Committee, the student has, in specified situations, the right of appeal to the General Faculties Council Academic Appeals Committee. (See § 16.7 of the University Regulations and Information for Students Calendar.)

33 PROGRAMS OF STUDY

33.1 The Degree of B.Sc. in Agriculture

33.1.1 GENERAL INFORMATION

(1) The Faculty offers courses leading to the degree of Bachelor of Science in Agriculture.

(2) A number of courses are specified as required during the first year. Students may select the remainder of their first year courses in consultation with a student advisor.

(3) Beginning in the second year, students may follow a general program providing a broad training in agriculture or a specialized program in one of several fields of agriculture. Course selection should be arranged in consultation with an advisor in the area of specialization. Students registered in the general program may select their courses in consultation with a member of the General Program Advisory.

(4) Students entering their third year who plan to follow a departmental specialization must consult the department in which they plan to specialize, and it is highly desirable for them to work out a tentative program for both their third and fourth years at this time. Their program must be approved by their program advisor before they can register.

Students whose records to date would qualify them for graduate studies (a grade-point average of 6.0 or better) may register in a more specialized program in the department in which they ultimately plan to undertake graduate study. Such a program must be approved in advance by the department of specialization and by the Dean.

(5) Students in the second, third and fourth years may always obtain guidance and assistance in selecting and registering for their courses from their program advisors. The Dean of the Faculty will be pleased to confer with students at any time.

(6) Students entering the third year will be charged a fee to cover living expenses related to the three-day field trip during registration week. This trip normally involves a bus tour of various agricultural industries located in Alberta and is one of the program requirements.

33.1.2 COURSES REQUIRED IN THE B.SC. AGRICULTURE PROGRAM

(1) First Year Requirements:

AGFOR 201 / 204
One of BIOL 296 / 297 / 298 / 299, INT D 230
CHEM 202 or 250
ECON 201 / 202
ENGL 215
MATH 202 (or 203)
MATH 204 or STAT 241

NOTE: These courses must be taken in first year. Students transferring from other programs or institutions will be required to complete all of the above courses in which they are deficient during their first year in attendance in the B.Sc. Agriculture program at The University of Alberta. Courses not successfully completed must be repeated.

NOTE: Students entering without the appropriate Grade 12 prerequisites for the above courses should consult with the Dean's Office regarding their first year requirements.

(2) In addition to those courses listed above, students must complete two full-session course equivalents from outside the Faculty in the biological, social or physical sciences during the balance of their degree program.

(3) Students specializing in a departmental major are required to take courses in at least three departments of the Faculty other than the department in which they are specializing, and they must take at least six single-term courses or their equivalent in those departments.

(4) Agriculture and Forestry 404, *Field Trip,* — normally taken between second and third years. Requests for deferment to fourth year must be made in writing to

the Dean of Agriculture and Forestry before July 1 of the appropriate year.

(5) Agriculture and Forestry 451, *Professional Agriculture,* — normally taken by students during their fourth year.

NOTE: § 33.1.3 Reserved.

33.1.4 MODIFIED FIRST YEAR AT THE UNIVERSITY OF CALGARY, THE UNIVERSITY OF LETHBRIDGE, AND ELSEWHERE

Students at The University of Calgary, The University of Lethbridge, and at affiliated junior colleges may take a modified first-year Agriculture program. The second, third and fourth years of the Agriculture program are offered only at The University of Alberta.

Details of the modified first year program are available in the Calendars of these institutions.

33.1.5 GENERAL PROGRAM

Students entering their second year who plan to follow the general program should consult the General Program Advisory of the Faculty. To meet the General Program requirements they must take a minimum of two single-term courses in each of the Departments of Animal Science, Plant Science, Rural Economy, and Soil Science, one single-term course in the Department of Agricultural Engineering, and at least three additional single-term courses from within the Faculty.

33.1.6 SPECIALIZATION IN AGRICULTURAL ECONOMICS OR RURAL SOCIOLOGY

The Department of Rural Economy offers specialized programs in Agricultural Economics, Forest Economics, or Rural Sociology. Concentrated programs are available in farm and ranch management, marketing, natural resources, and rural development. Every assistance will be provided to students wishing to pursue commodity-oriented programs, such as in livestock and poultry, as well as to students wishing to pursue service oriented programs such as extension. Information on course electives, curricula, and prerequisites for graduate studies may be obtained from the Department.

Agricultural Economics Specialization. The following courses are required in addition to the Faculty requirements (see § 33.1.2): Agricultural Economics 315 and 316, Rural Sociology 355, and 20 single-term courses of electives (including six in agricultural economics, one in accounting, two in economic theory, and two in any social science). It is recommended that students take four of the following five courses in their second and third years; Agricultural Economics 333, 373, 384, Interdisciplinary Studies 302 and 365.

The following electives are recommended especially for students interested in graduate studies: Agricultural Economics 416, Economics 481 and 482.

Rural Sociology Specialization. The following courses are required in addition to the Faculty requirements (see § 33.1.2): Interdisciplinary Studies 356, Agricultural Economics 315 and 373, Rural Sociology 355, and 19 single-term courses of electives (including four in rural sociology, and two in any social science).

33.1.7 SPECIALIZATION IN AGRONOMY

This specialization deals with the theory of plant-soil relationships and the practice of field-crop production.

The following courses must be taken in the program in addition to required Faculty courses (§ 33.1.2):

(1) Agricultural Economics 333 and one of Agricultural Economics 384 or Interdisciplinary Studies 302 or 303

(2) Agricultural Engineering 305

(3) Animal Science 372

(4) Biology 297

(5) Chemistry 202 and 250 (or 350)

(6) Entomology 207

(7) Microbiology 315 (or 201)

(8) Plant Science 352, 354, 355, 380, 381, 400, 465

(9) Soil Science 310, 360, 420, plus two from among Soil Science 430, 460, 470, 485

(10) Electives should be selected from a list available from the Program Committee, and must be approved by a member of the Committee.

33.1.8 SPECIALIZATION IN ANIMAL OR POULTRY SCIENCE

Organic Chemistry (Chemistry 250 or equivalent) and Biology 297 or equivalent are requirements for those specializing in the Department of Animal Science and will also fulfill the Faculty requirements for chemistry and biology (see § 33.1.2). In addition, an introductory course in Biochemistry (Plant Science 431 or equivalent) is highly desirable. Students are advised to take their Biochemistry and Animal Physiology courses in their second year. Assistance on program choices is provided by the department.

LIVESTOCK MAJORS — A minimum of eight single-term 300-level or higher Animal Science courses is required. Of these, students must take at least one course in each of Animal Physiology, Animal Nutrition and Animal Breeding.

POULTRY MAJORS — A minimum of eight single-term 300-level or higher Poultry Science or Animal Science courses is required, four of which must be Poultry Science 352, 453, 459, and 462.

Electives—Approved electives to a total of at least eighteen single-term courses, or the equivalent, are required. These may include additional courses offered by the Department; normally they should include courses from three of the following areas: Agricultural Economics, Agricultural Engineering, Plant Science, and Soil Science. In addition, consideration may be given to including a course in Computing Science.

33.1.9 SPECIALIZATION IN ENGINEERING AGROLOGY

The Department of Agricultural Engineering offers an Engineering Agrology option in the B.Sc. Agriculture program as well as Forest Operations and Wood Utilization options in the B.Sc. Forestry program.

Engineering Agrology. The Engineering Agrology program is for students who wish to emphasize the biological and functional aspects of Agricultural Engineering. It is intimately associated with production agriculture activities. It involves a firm understanding of production agriculture emphasizing practical application of engineering principles. Economic principles and communication skills are important. The course is designed to give the student a firm foundation of basic science, a broad contact with agricultural disciplines and a core of agricultural engineering training.

First Year

Students are referred to §33.1.2 for first year requirements.

Second Year

Agricultural Engineering 202, 303. Computing Science 351, single-term elective.

Mathematics 204 or Statistics 241, Mathematics

243, or Agricultural Economics 316
Plant Science 215. Physics 212. Soils 310

Third and Fourth Years

Accounting 307
Agricultural Engineering 301, 302, 304, 313, 411, 420, 421, 456 and one other.
(Agricultural Economics 323, 423, Legal Relations 310) or (Agricultural Economics 333, 433 or 434, 435)
Two of Animal Science 300, 372 or 460
Microbiology 201 or 315
Plant Science 341, or 352 or 355
Soils 360, or 440 or 470
Two electives

A suggested timetable for the four years is available from the Department.

33.1.10 SPECIALIZATION IN ENTOMOLOGY

The specialization in entomology provides a comprehensive training in agricultural entomology. In addition to meeting the Faculty requirements listed in § 33.1.2, students are required to complete Entomology 207/302, Forest Science 380 (or Entomology 480), Entomology 392 (or 492), Entomology 407/427 and Entomology 471 (for one or two terms).

33.1.11 SPECIALIZATION IN FOOD SCIENCE

The Department of Food Science offers a program with the following course requirements (in addition to the Faculty requirements listed in § 33.1.2):

Biochemistry 300 or Plant Science 431/432, Chemistry 202/250, Food Science 200/351/383/461/471, Microbiology 315/365, and two single session electives in Food Science.

A double major combining Food Science with any other major program can be taken subject to the approval of the Chairman of the other department concerned.

Students desiring further information are invited to consult the Department.

33.1.12 SPECIALIZATION IN GRAZING MANAGEMENT

The student interested in this program may emphasize either range and pasture management or wildlife and range management. Students entering their second year who plan to follow the Grazing Management specialization must consult with the Grazing Management Program Co-ordinator; it is highly desirable for them to work out a tentative program for their second, third and fourth years at this time. They must take a total of at least twelve single-term course enquivalents from at least four departments of the Faculty. Their programs must be approved by the Program Co-ordinator.

In order to complete the program all students must take the following courses:

(1) Animal Science 460 and 461

(2) Biology 298; Interdisciplinary Studies 230 or Forest Science 315.

(3) Plant Science 356, 406 and 471

(4) Soil Science 310 and one of Soil Science 360, 420, 460 or Forest Science 314.

Students interested in range and pasture management are required to take Plant Science 354 and 472, Animal Science 477 and Agricultural Economics 333. Students interested in wildlife and range management are required to take Animal Science 351, Interdisciplinary Studies 365, an approved animal biology single-term course, and an approved Forest Science single-term course.

Courses and additional electives to complete the requirements of the program must be selected in consultation with the Grazing Management Program Co-ordinator.

Normally students would take at least Biology 298, Soil Science 310, and Interdisciplinary Studies 230 or Forest Science 315 during their first two years.

33.1.13. SPECIALIZATION IN PLANT PROTECTION

This specialization provides an interdisciplinary study of the theory and practice in plant protection. To complete the requirements of the program, students must take the following courses and must include the courses required by the Faculty of Agriculture and Forestry (§ 33.1.2).

— one of Agricultural Economics 333, 384, Forest Economics 345 or Interdisciplinary Studies 365
— Agricultural Economics 435
— Biology 297, 298, 299
— Botany 324
— Chemistry 302 or 350
— Entomology 207, 407, 476
— Interdisciplinary Studies 230
— Microbiology 315
— Philosophy 355 and an additional single term course in the Humanities
— Plant Science 215, 350, 352, 355, 380, 382, 400, 470
— Soil Science 310, 430

Electives should be selected from a list available from the Program Committee and must be approved by a member of the Committee.

33.1.14 SPECIALIZATION IN PLANT SCIENCE

Students may follow a program of general Plant Science or specialize in one of the following fields of study: Crop Ecology and Plant Breeding (including Range and Pasture Management and Weed Science); Horticulture (including Landscape Architecture); Plant Pathology; Plant Physiology and Biochemistry. Information on requirements and recommended course programs for the various specializations may be obtained from the Department.

In general, all Plant Science majors are required to take Interdisciplinary Studies 230, Plant Science 215, Soil Science 310, at least one of Biology 296/298/299/297 (or Genetics 351), and one full course each of inorganic and organic chemistry. Some of these courses will be met by the first year requirements as outlined in § 33.1.2. A minimum of nine additional single-term courses will be required depending upon the area within Plant Science in which the student chooses to specialize. These are set out in the Plant Science Undergraduate Course Guide.

33.1.15 SPECIALIZATION IN SOIL SCIENCE

The Department of Soil Science provides education in Soil Science with programs arranged in the areas of soil productivity and land management, irrigation and drainage, soil reclamation and conservation, soil classification and survey, and general soil science.

In addition to the Faculty requirements listed in § 33.1.2 the following are the minimum courses required for specialization in Soil Science:

Soil Science 310; Microbiology 315; a single-term course in geology; a single-term course in statistics (if

not taken as part of the Faculty requirements in first year); a full-year course in chemistry (in addition to the Faculty requirement) *OR* a full-year course in physics. These would nomrally be taken in second year.

At least one course in *each* of the following four areas is required; Soil Genesis and Classification (Soil Science 420); Soil Physics (Soil Science 440); Soil Biology (Soil Science 330 or 430); Soil Chemistry-Mineralogy (Soil Science 415 or 450). At least three (3) additional courses (excluding project courses) offered by the Department of Soil Science are also required. All of the foregoing would normally be taken during third and fourth years.

Interested students are invited to consult with the Department of Soil Science for a list of approved optional courses and further information before completing their program plans.

33.2 Cooperative B.Sc. Program in Agricultural Engineering

A four-year program in Agricultural Engineering is offered cooperatively by the Faculty of Agriculture and Forestry and the Faculty of Engineering. For details of the program see § 83.8 of the Faculty of Engineering Calendar.

The program is administered by a Joint Agricultural Engineering Curriculum Committee consisting of the Deans of the Faculty of Agriculture and Forestry and the Faculty of Engineering (or their representatives), the Agricultural Engineering Coordinator, the Chairman, Department of Agricutural Engineering or another member of the Department if the Chairman is also Coordinator, and two full time academic members selected by and from the Faculty of Engineering.

For administrative purposes students in the program will be registered in the Faculty of Agricuture and Forestry.

(1) *Admission.* The matriculation requirements are set out in § 13.3.1.

(2) *Promotion.* Promotion from year to year will be decided by the Joint Committee but in general the requirements for promotion will be the same as those of the Faculty of Engineering.

(3) *Graduation.* The Joint Committee will recomend approval of the candidate for the degree by the Council of the Faculty of Agriculture and Forestry .

(4) *Scholarship.* Details of scholarships for which students in the program are eligible are listed under the Faculty of Agriculture and Forestry and the Faculty of Engineering Awards sections of the Calendars.

ALL ENQUIRIES SHOULD BE DIRECTED TO THE DEAN OF THE FACULTY OF AGRICULTURE AND FORESTRY (TELEPHONE 432-4931) OR THE CHAIRMAN OF THE DEPARTMENT OF AGRICULTURAL ENGINEERING (TELEPHONE 432-4251).

33.3 Interdisciplinary B.Sc. Program in Food Science

A four-year interdisciplinary program in Food Science is offered co-operatively by the Faculties of Agriculture and Forestry, Home Economics, and Science. It allows students to specialize in this expanding field more than is possible in the specialized program in Food Science offered by the Faculty of Agriculture and Forestry.

The program is administered by an Interdisciplinary Committee consisting of the Deans of the Faculties of Science and Agriculture and Forestry (or their representatives), the Dean and a faculty member of the Faculty of Home Economics, the Chairman of the Department of Food Science and a Faculty member, and two undergraduate students. The Chairman of the Department of Food Science acts as the Co-ordinator of the program. Students in the program are, for administrative purposes, registered in the Faculty of Agriculture and Forestry.

The outline of the program is as follows:

First Year: Chemistry 202; Chemistry 250; Mathematics 240 (or 242); Food Science 200; English 215 or Agriculture and Forestry 204; one and one-half full-session approved options. NOTE: Students lacking Biology 30 must take Biology 130.

Second Year: Biochemistry 300; Microbiology 315 and 365; Physics 203 (or 205) and 207; Statistics 241; Food Science 351 and 383; one-half full-session approved option.

Third Year: Chemistry 312; Food Science 402, 453 and 454, 461, 471, and one and one-half full-session approved options.

Fourth Year: Foods and Nutrition 464 and 465; and four full-session approved options. NOTE: At least one and one-half of the approved options must be taken in Food Science.

The following points should be noted:

(1) *Admission.* The program is designed so that students may register in it immediately upon entering university or may transfer from the Faculties of Agriculture and Forestry, Home Economics, or Science after their first or possibly after their second year. The matriculation requirements for those entering the program from high school are set out in § 13.3.2 of the University Regulations and Information for Students' Calendar.

(2) *Promotion.* Promotion from year to year will be decided by the Interdisciplinary Committee, but in general the requirements for promotion will be similar to those of the Faculty of Agriculture and Forestry.

(3) *Graduation.* The Interdisciplinary Committee will recommend approval of the candidate for the degree by the Council of the Faculty of Agriculture and Forestry.

(4) *Scholarships.* Details of scholarships for which students in the program are eligible are listed under the Faculty of Agriculture and Forestry in the Awards section of the Calendar.

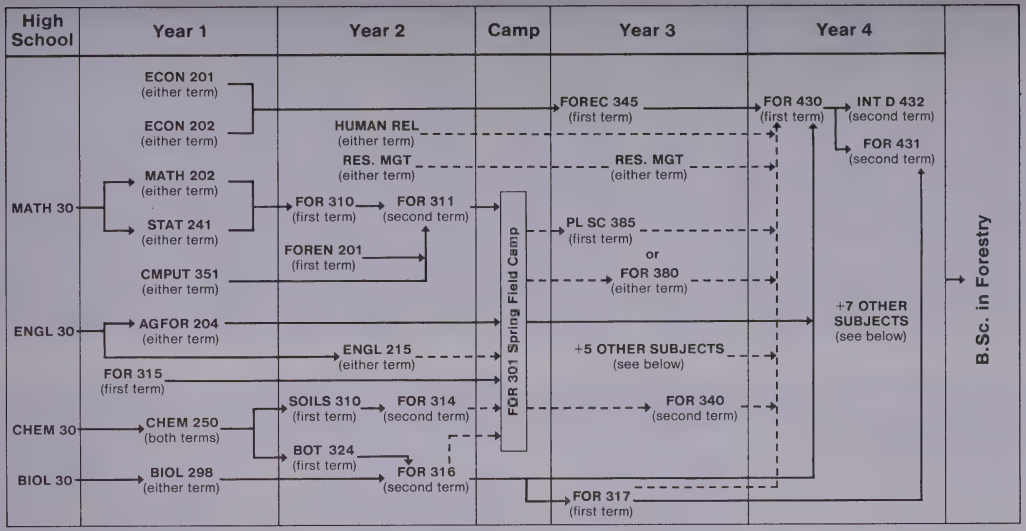
All enquiries should be directed to the Dean of the Faculty of Agriculture and Forestry or the Chairman of the Department of Food Science.

33.4 The Degree of B.Sc. in Forestry

33.4.1 GENERAL INFORMATION

(1) The Faculty offers courses leading to the degree of Bachelor of Science in Forestry. The program consists of four years of university study with a yearly load of ten single-term course equivalents. In addition, a five-week spring field camp is required.

(2) A core program of 28 single-term course equivalents, plus the spring field camp, is required of all students pursuing the B.Sc. in Forestry. Most courses normally taken during the first two years are part of this core program. Considerable program diversity exists in the third and fourth years.



Human Rel. one of R SOC 355, SOC 403, PSYCO 260, PSYCO 420, ORG T 303, IND R 304

rev.10 80

Resource Mgt. one course from each of two categories below:
Wildlife Mgt. - AN SC 351, or equivalent
Range Mgt. - PL SC 356, or equivalent
Forest Hydrology - FOR 450, or equivalent
Forest Engineering - FOREN 310, FOREN 335, FOREN 345, or equivalent
Forest Recreation - FOR 360, or equivalent

Sequence Legend
Required
Preferred or Concurrent

Other subjects consist of courses selected in consultation with an advisor, and free electives.

(3) A spring field camp (FOR 301), lasting five weeks and occurring between the second and third years of the degree program, is required of all students. At this camp, technical training is provided in forest mensuration, protection and ecology; a range of management concepts is introduced; and an integrated forest land-use plan is prepared.

33.4.2 COURSES REQUIRED IN THE FORESTRY CORE PROGRAM

(1) First Year Requirements:
AGFOR 204
BIOL 298
CHEM 250 or 202
CMPUT 351
ECON 201/202
FOR 315
MATH 202 (or 203)
STAT 241

NOTE: These courses must be taken in first year. Students transferring from other programs or institutions will be required to complete all of the above courses in which they are deficient during their first year in attendance in the B.Sc. Forestry program at The University of Alberta. Courses not successfully completed must be repeated.

Students entering without the appropriate Grade 12 prerequisites for the above courses should consult with the Forestry Office regarding their first year requirements.

(2) Second, Third and Fourth Years

The following courses are required to complete the core requirements:

Botany 324 or Plant Science 400; English 215; Forest Economics 345; Forest Engineering 201; Forest Science 301/310/311/314/316/317/340/430/431; Interdisciplinary Studies 432; Industrial Relations 304 or Organizational Theory 303 or Rural Sociology 355 or Sociology 403 or Psychology 260 or 420; Soil Science 310; Forest Science 380 or Plant Science 385; and one course from each of two of the following five groups — Forest Engineering (one of Forest Engineering 310/335/345 or equivalent), Forest Hydrology (Forest Science 450 or equivalent), Grazing Management (Plant Science 356 or equivalent), Wildland Recreation (Forest Science 360 or equivalent), Wildlife Managment (Animal Science 351 or equivalent). For sequencing of these courses please refer to the flow chart.

Transfer students should consult with the Department of Forest Science concerning course selection.

33.4.3 COURSES REQUIRED IN THE OPTIONAL PROGRAMS

Nine options or sub-programs are available to students in the B.Sc. Forestry program. A student may elect one of these options at the beginning of the third year. An option will use from 5 to 7 of the 12 remaining single-term course equivalents required for the degree. The remaining 5 to 7 single-term course equivalents are free electives and may be in any subjects chosen by the student. This allows the students to obtain either a broader or more specialized program according to their desires.

The Forest Economics Option emphasizes the economic aspects of forest resources, production, marketing, finance, and policy. Students who elect the forest economics option are encouraged to take Rural Sociology 355 in the core program. In addition they are required to take Forest Economics 445, two economic theory courses, and two additional economics or economics related courses selected in consultation with the Department of Rural Economy Advisor.

The Forest Hydrology Option provides emphasis on soil and watershed management. Students who elect the forest hydrology option are required to take Forest Science 450 and 452 and three other single-term course equivalents selected in consultation with the Department of Forest Science Advisor.

The Forest Management Option provides greater emphasis on the production aspects of forestry. Students who elect the forest management option are required to take Forest Science 411 and 412 and three other single-term course equivalents selected in consultation with the Department of Forest Science Advisor.

The Forest Operations Option provides emphasis in woods operations. Students who elect the forest operations option are required to take Forest Engineering 202, 203, 430, 440, and 450 and either Forest Engineering 310 and 320 or Forest Engineering 420 and 421. The program should be arranged in consultation with the Department of Agricultural Engineering Advisor.

The Forest Recreation Option places emphasis on the recreational use of wildland. Special attention is directed to the sociological aspects of outdoor recreation and at the impacts which such uses have on the recreational habitat. Those who select the forest recreation option are required to take Forest Science 360 and 462 and three other single-term course equivalents select in consultation with the Department of Forest Science Advisor.

The Forest Soils Option offers a forest land-use orientation, and at the same time forms a sound base for soil management aimed at high fibre production. For this option, students must take Chemistry 350 or 250 and Chemistry 202, Geology 202, Microbiology 315, Soils 420 and two other approved Soils courses selected in consultation with the Department of Soil Science Advisor.

The General Forestry Option allows the student to emphasize a subject or subjects related to any particular facet of forestry; e.g., an emphasis in forest protection could be obtained by taking specific courses in entomology, plant pathology, and other related subjects. Five single-term course equivalents are required for this option. Students who wish to emphasize topic areas related to Forestry not covered by an existing option should consult with the Department of Forest Science Advisor about course selection.

The Grazing Management Option provides an emphasis in wildlife and range management. Students are required to take Plant Science 356, 406, 471 and Animal Science 351, 460 and an approved single-term course in animal biology. This course will be selected in consultation with the Grazing Managment Program Coordinator. In addition, a student desiring specialty in pasture management is required to take Plant Science 354 and 472. Students are encouraged to discuss their program with the Program Coordinator at an early date.

The Wood Utilization Option emphasizes the use and manufacture of forest products including sawmills, plywood plants, and pulp and paper. Aspects of pollution control and abatement are considered. Students who elect the wood utilization option are required to take Forest Engineering 202, 203, 310, 320, 460, 470, and 480. Forest Engineering 420 and 421 are recommended. The program should be arranged in consultation with the Department of Agricultural Engineering Advisor.

33.4.4 MODIFIED FIRST YEAR AT THE UNIVERSITY OF CALGARY, THE UNIVERSITY OF LETHBRIDGE, AND ELSEWHERE

A modified first year may be taken by students at The University of Calgary, the University of Lethbridge, affiliated Alberta junior colleges, and other colleges or universities outside the province of Alberta. The second, third, and fourth years of this program are offered only at The University of Alberta. Details of this modified first year program are available in the calendars of these institutions.

Students who present other first year programs for transfer to The University of Alberta may be admitted into the Forestry program but they should note that they may not receive credit for all their courses. Acceptance of transfer students cannot be guaranteed on the basis of any minimum academic achievement level.

33.5 Pre-Veterinary Medicine Program

33.5.1 GENERAL INFORMATION

The Western College of Veterinary Medicine is located at The University of Saskatchewan, Saskatoon. Its program consists of two years of pre-Veterinary Medicine and four years of Veterinary Medicine. Alberta residents desiring to take Veterinary Medicine at The University of Saskatchewan may take two pre-Veterinary years at The University of Alberta. There is a quota on Alberta students entering Veterinary Medicine at The University of Saskatchewan and students with the highest standing in the work of the two pre-Veterinary years will receive preference.

Facilities at the Ontario Veterinary College are limited, and because of the great interest in veterinary medicine, few students from Alberta are likely to be admitted to that institution, with or without advanced standing. In fact all students considering Veterinary Medicine should know that there is such keen competition for admission to schools of Veterinary Medicine that a superior academic record is likely to be a requirement to win one of the limited number of places available anywhere.

Students planning to enter pre-Veterinary Medicine should note the entrance requirements described in § 13.3.3 of the University Regulations and Information for Students Calendar. Inquiries about the program should be addressed to the Dean, Faculty of Agriculture and Forestry, The University of Alberta.

33.5.2 PROGRAM OF COURSES

Two full years of university training are required for admission to the Western College of Veterinary Medicine, during which credit must be secured for the number of courses customarily considered a standard load in the curriculum in which they are obtained. The program of study must include:

(1) English (one full-session course or equivalent)

(2) Physics (one full-session course or equivalent)

(3) Biology or Zoology (one and one half full-session courses, including Genetics)

(4) Chemistry (two full-session courses, including Organic Chemistry)

(5) Mathematics (one full-session course or equivalent)

(6) Electives (sufficient to complete two full years)

In the Faculty of Agriculture and Forestry this is interpreted as follows:

(1) First Year Requirements:
AGFOR 201 / 204
One of BIOL 296 / 297 / 298 / 299 (BIOL 299 preferred)
CHEM 250 (or 202)
ECON 201 / 202
ENGL 215
MATH 202 (or 203)
MATH 204 or STAT 241

NOTE: These courses must be taken in first year. Students transferring from other programs or institutions will be required to complete all of the above courses in which they are deficient during their first year in attendance in the Pre-Veterinary Medicine program at The University of Alberta. Courses not successfully completed must be repeated.

NOTE: Students entering without the appropriate Grade 12 prerequisites for the above courses should consult with the Dean's Office regarding their first year requirements.

(2) Second Year Requirements:
CHEM 302 (or 350)
GENET 351 (or BIOL 297)
PHYS 203 (or 205) and PHYS 207 (or 209)

Electives to complete ten single-term courses ensuring at least one full session course equivalent in Biology or Zoology.

All courses must be beyond the senior matriculation level, and those in the natural sciences other than mathematics must include a laboratory. The student may select the remaining courses taken to complete the pre-veterinary sequence, but these courses should be consistent with the college program in which he / she is enrolled.

33.5.3 TRANSFER TO PROGRAM IN AGRICULTURE

Students successfully completing the two years of pre-Veterinary Medicine may apply to transfer to the program in Agriculture and may earn the B.Sc. in Agriculture in most specializations by completing two additional years of work with satisfactory standing. They are required to include all of the requirements of the B.Sc. Agriculture program that they may have missed as well as meeting the requirements of third and fourth years.

33.6 Graduate Studies

Programs leading to advanced degrees (M.Ag., M.Sc. and Ph.D.) are offered by most departments of the Faculty. Course programs and thesis projects are arranged in consultation with faculty members.

Thesis projects are normally carried out at The University of Alberta. In certain instances, some graduate students may arrange to undertake a portion of their research at one of the Agriculture Canada Research Stations.

General information on graduate studies at The University of Alberta with respect to admission, fees, and so forth, is given in the Faculty of Graduate Studies and Research Calendar. Specific information on the requirements and opportunities in a particular field of study may be obtained from the appropriate department of the Faculty of Agriculture and Forestry.

34 DETAILS OF COURSES

34.1 General Information

Courses required by the various programs in the Faculty of Agriculture and Forestry are listed here in alphabetical order, whether they are offered by the Faculty or by another faculty. Students are encouraged to examine calendars from other Faculties when selecting optional courses.

Each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their course registration forms.

Courses numbered 100 to 199 are introductory, usually equivalent to high school courses. Those numbered 200 to 299 are junior courses, normally taken by first-year undergraduates. Those numbered 300 to 499 are senior courses, normally taken after the first year. Courses numbered 500 and up are normally restricted to senior and graduate students.

Following the title of the course is the symbol "★" standing for "course weight", and a number indicating the weight of the course as used in computing grade-point averages. An ordinary full-session course is weighted 6. A single-term course is normally weighted 3. Some courses involving research may vary in weight according to the length and difficulty of the research project. Some courses are offered for credit only, and carry no weight.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The expression "3/2" means three hours of instruction every second week. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated. If the course is a single-term course, the term in which it may be offered is mentioned before the hours of instruction. Normally, in the Faculty of Agriculture and Forestry, courses will be credited to the discipline listed in the square brackets.

The department responsible for registration may be found in square brackets at the end of a course description.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

34.2 Accounting

ACCTG 202. *Introductory Accounting.* ★3 (either term, 3-1.5s-0). Postulates, principles, the accounting cycle, capital and income measurement, financial statement preparation and analysis; emphasis on reporting to shareholders, creditors and other external decision-makers. Prerequisites: ECON 201/202.

ACCTG 204. *Managerial Information and Control Systems.* ★3 (either term, 3-0-2). Corporate goals, planning and control concepts, cost accumulation for pricing purposes, and product costing. Prerequisite: ACCTG 202.

ACCTG 307. *Financial Accounting.* ★3 (either term, 3-0-1.5). Accounting and reporting to persons outside of the organization. Note: Not open to students registered in the Faculty of Business Administration and Commerce.

34.3 Agricultural Economics

Department of Rural Economy

AG EC 203. *Introduction to Agricultural Economics.* ★3 (First Term, 3-0-0). Economic and social issues in food production and consumption; prices, costs, and incomes; nature and causes of farm problems; role of agriculture in the overall economy; world food situation; public policies affecting agriculture. Note: Not recommended for students with credit in any other agricultural economics course.

INT D 302. *Economics of Agriculture.* ★3 (either term, 3-0-0). (See § 34.23.)

INT D 303. *Economics of World Agriculture.* ★3 (either term, 3-0-0). (See § 34.23.)

AG EC 315. *Data Analysis.* ★3 (First Term, 3-0-2). Sources and methods of collecting data relating to the rural economy. Appraisal and use of economic indicators important to agriculture. Analysis of time series data and introduction to experimental design and hypothesis testing as applied to agriculture. Preparation and presentation of economic reports. Prerequisite: STAT 241 recommended.

AG EC 316. *Quantitative Methods.* ★3 (Second Term, 3-0-2). Introduction to linear programming analysis, input-output analysis, and related techniques. Emphasis is placed on the use of these techniques for performing economic analysis in agriculture and forestry. Prerequisite: Mathematics 30 or equivalent. Note: Not open to students with credit in MATH 221, 243, or 281.

AG EC 323. *Management for Agricultural and Forest Business.* ★3 (First Term, 3-0-0). Principles of management applied to farm and forest supply, service, and distribution businesses. Prerequisites: AG EC 203 or ECON 201/202 or equivalent.

AG EC 333. *Introduction to Farm and Ranch Management.* ★3 (either term, 3-0-2). Application of economic principles to the organization and operation of a farm business. Introduction to farm records and business analysis; the management process and decision criteria for choice of enterprises, size of business, resource utilization, and timing of production; alternative methods of obtaining farming resources by purchase, leasing and credit. Prerequisite: AG EC 203 or ECON 201 or equivalent.

INT D 365. *Natural Resource Economics.* ★3 (either term, 3-0-0). (See § 34.23.)

INT D 366. *Economics of Outdoor Recreation.* ★3 (either term, 3-0-0). (See § 34.23.)

AG EC 373. *Agricultural Policy.* ★3 (First Term, 3-0-0). Economic policy aspects of the production, marketing, and income problems of farmers. Beliefs, values, institutions and participants in agriculture and their interaction in the development of economic policies for the industry. Prerequisites: AG EC 203 or ECON 201/202 or equivalent.

AG EC 381. *Retail Marketing of Agricultural Products.* ★3 (Second Term, 3-0-0). Wholesale and retail food market structures and conduct, with emphasis on consumer motivation, retail pricing strategies, and operational techniques and problems. Note: Not recommended for those specializing in agricultural economics. Prerequisites: AG EC 203 or ECON 201/202 or equivalent.

INT D 382. *Theory and Practice of Cooperation.* ★3 (First Term, 3-0-0). (See § 34.23.)

AG EC 384. *Marketing of Agricultural and Forest Products.* ★3 (either term, 3-0-0). Principles of marketing. Functions and institutions of markets. Market systems, price behavior, and futures markets for agricultural and forest products. Prerequisites: AG EC 203 or ECON 201/202 or equivalent.

AG EC 400. *Special Topics.* Maximum ★3 (either term, 3-0-0). Study of a selected topic or problem requiring both written and oral reports. Prerequisite: Consent of the Department Chairman.

AG EC 416. *Statistical Analysis.* ★3 (First Term, 3-0-2). Analysis of economic data relating to agricultural production, processing and marketing; collection of data, sampling methods, tests

of hypotheses, analysis of variance, regression, and correlation; time series analysis; presentation of data. Prerequisite: AG EC 315 or equivalent.

AG EC 423. *Management Techniques in Agriculture and Forestry.* ★3 (Second Term, 3-0-0). Application of decision-making techniques to the management of agricultural and forest businesses; computer assisted management game and selected case studies. Prerequisite: AG EC 323.

AG EC 433. *Advanced Farm and Ranch Management.* ★3 (Second Term, 3-0-0). Application of concepts and tools of farm business management in farm planning and farm management extension. Manual and computerized methods of farm accounting, business analysis and planning; interpretation and use of information for decision making in organizing and operating a farm business to achieve goals; planning under risk and uncertainty; farm business arrangements and strategies for growth. Prerequisite: AG EC 333 or equivalent.

AG EC 434. *Farm Finance and Appraisal.* ★3 (First Term, 3-0-0). Principles of financial management. Capital requirements and use of capital in agriculture; credit sources and credit management; appraisal principles and applications to finance, tax management and estate planning in farm business, laws and legislation affecting financial aspects of farm operations. Note: Formerly AG EC 343. Prerequisite: AG EC 333 or equivalent.

AG EC 435. *Agriculture and Forestry Law.* ★3 (either term, 3-0-3). Economic impact of laws and legislation on management of agriculture and forest resources, land tenure and user rights, farm wills and estates, legal implications of agriculture and forest transactions, farm credit legislation and creditor rights, public administrative law affecting farm and forest operations. Prerequisite: AG EC 333 or 384 or FOR EC 345 or INT D 365.

INT D 465. *Natural Resource Utilization.* ★3 (either term, 3-0-0). (See § 34.23.)

AG EC 475. *Agricultural Development.* ★3 (Second Term, 3-0-0). Problems of agricultural development, the role of agriculture in area and national development, including examination of the potentials in resource use on farms and within the overall agricultural system. Note: Formerly AG EC 493. Prerequisite: AG EC 373 or equivalent; INT D 356 recommended.

AG EC 484. *Agricultural Marketing Economics.* ★3 (Second Term, 3-0-0). Structure and performance of agricultural markets. Applied agricultural market and price issues. Note: Formerly AG EC 463. Prerequisite: AG EC 384 or equivalent.

AG EC 485. *Agricultural Prices and Trade.* ★3 (Second Term, 3-0-0). Price determination, futures prices, and price behavior over time; exercises in statistical price analysis; theory of trade; trade and commodity agreements. Note: Formerly AG EC 385. Prerequisites: AG EC 203 or ECON 201/202 or equivalent; AG EC 384 recommended.

INT D 486. *Livestock and Meat Marketing.* ★3 (Second Term, 3-0-2). (See § 34.23.)

AG EC 500. *Research Projects in Agricultural Economics.* ★3 (either term, 3-0-0); or ★6 (3-0-0). Investigations of special problems involving field or library study and preparation of written reports. Credit according to work done. Note: May be repeated for credit one time. Prerequisite: Consent of the Department Chairman.

AG EC 502. *Theoretical Applications to Agricultural Economics.* ★3 (First Term, 3-0-0). Elements of production, marketing, and welfare theories, and cost theory extensions, with applications to agricultural problems. Prerequisite: Consent of the Department Chairman.

AG EC 513. *Agricultural Econometrics.* ★3 (either term, 3-0-3). Introduction to research methodology, linear regression model, econometric theory, sampling theory and experimental design. Prerequisite: AG EC 416 or equivalent.

AG EC 514. *Quantitative Techniques.* ★3 (either term, 3-0-3). Applications of econometric extensions, operations research, mathematical programming and input-output analysis of problems in agricultural economics. Prerequisite: Consent of instructor; AG EC 316 and AG EN 420 recommended.

AG EC 515. *Research Methodology.* ★3 (First Term, 3-0-0). Problem identification and analysis, inductive procedures, formulating and testing hypotheses, causal analysis, rules of inference, role of theory, designing research projects. Note: Formerly AG EC 613. Prerequisite: Consent of instructor; AG EC 416 recommended.

AG EC 533. *Production Economics.* ★3 (Second Term, 3-0-3). Static and dynamic firm theory, production principles applied to resource use, resource and product combination, cost structure, uncertainty and expectations. Prerequisite: Consent of instructor; AG EC 502 and 416 recommended.

AG EC 565. *Natural Resource Economics.* ★3 (either term, 3-0-0). Availability, utilization, and quality of natural resources; criteria for resource development and conservation; public policy problems and analysis. Note: Formerly AG EC 553. Prerequisite: Consent of instructor; AG EC 502 and 416 recommended.

AG EC 573. *Agricultural Economics Policy.* ★3 (First Term, 3-0-0). Goals and instruments of agricultural policy, model constructions with decision and control criteria; national, regional, and provincial agricultural application. Prerequisite: Consent of instructor; AG EC 502 and 416 recommended.

AG EC 575. *Agriculture in Developing Countries.* ★3 (either term, 3-0-0). The role of agriculture in the economic growth of developing countries; influence of international trade and commodity agreements on economic development. Note: Formerly AG EC 593. Prerequisite: Consent of instructor; AG EC 475 and 502 recommended.

AG EC 584. *Marketing Economics.* ★3 (Second Term, 3-0-0). Market competition, price and location theories; market structure analysis; and market performance criteria. Note: Formerly AG EC 563. Prerequisite: Consent of instructor; AG EC 502 and 416 recommended.

AG EC 585. *Agricultural Trade and Price Analysis.* ★3 (either term, 3-0-0). Concepts underlying agricultural specialization and trade; spatial and behavioral price analyses; impact of trade controls and commodity agreements. Prerequisite: Consent of instructor; AG EC 485 recommended. Note: Formerly AG EC 583.

AG EC 601. *Agricultural Economics Seminar.* ★1 (Full Term, 0-1s-0). Reports by students, staff and visitors on studies of the literature, current research, and thesis projects. A field trip of approximately four days to study rural resources within Alberta will be arranged each spring, but it will not necessarily be required for all students. (All graduate students will be required to register for this course on a continuing basis while in residence at the University.)

AG EC 633. *Production Economics Research.* ★3 (Second Term, 3-0-0). Analysis of selected research problems; design of research projects in production economics. Prerequisite: AG EC 533 or equivalent.

AG EC 665. *Natural Resources Economics Research.* ★3 (Second Term, 3-0-0). Analysis of selected research problems and designing of research projects dealing with natural resources of importance to agriculture. Note: Formerly AG EC 653. Prerequisite: AG EC 565 or equivalent.

AG EC 684. *Marketing Economics Research.* ★3 (Second Term, 3-0-0). Analysis of selected research problems; design of research projects in marketing economics. Note: Formerly AG EC 663. Prerequisite: AG EC 584 or equivalent.

AG EC 900. *Non-Thesis Project.* ★variable (variable).

NOTE: For a list of Forest Economics courses offered see § 34.16.

NOTE: For a list of Interdisciplinary courses offered see § 34.23.

NOTE: For a list of Rural Sociology courses offered see § 34.34.

34.4 Agricultural Engineering

AG EN 202. *Engineering Principles Applied to Agriculture.* ★3 (either term, 3-0-3). Basic principles of statics and dynamics. Lab assignments deal with problems of analysis and elementary design of agricultural machines and structures. Not open to students with credit in FOREN 202.

AG EN 300. *Introduction to Farm Mechanization.* ★3 (either term, 3-0-0). Course emphasizes the relationship of all aspects of Agricultural Engineering in an overall systems planning environment. Topics include irrigation, structures, power, harvesting, machines and tillage.

AG EN 301. *Heating, Ventilating and Air Conditioning Agricultural Buildings.* ★3 (First Term, 3-0-3). Environmental requirements as determined by physiological principles. Environmental control.

AG EN 302. *Farm Structures.* ★3 (Second Term, 3-0-3). Structural design of agricultural buildings. Prerequisite: AG EN 202.

AG EN 303. *Agricultural Power Units.* ★3 (First Term, 3-0-3). Diesel, gasoline and L.P.G. engines; fuels and lubricants; power transmission; Nebraska Tests; and balancing the operating unit. Not open to students with credit in AG EN 305.

AG EN 304. *Agricultural Machinery.* ★3 (Second Term, 3-0-3). Characteristics of the functional elements of farm machines. Methods of evaluating machine performance.

AG EN 305. *Farm Power and Machinery.* ★3 (either term, 3-0-0). Introduction to farm power and machinery with emphasis on general characteristics of machines and processes. Note: Designed for students wishing general instruction in this area. Not open to students with credit in AG EN 303.

AG EN 308. *Agricultural Water Management.* ★3 (either term, 3-0-0). Elementary surveying and hydrology, erosion control, water supply development, irrigation and drainage, watershed and land-use planning. NOTE: Not open to students with credit in AG EN 313.

AG EN 313. *Soil and Water Engineering.* ★3 (First Term, 3-0-2). Basic principles of agricultural hydrology, soil-water relations, water resource development, water conservation practices. Prerequisite: SOILS 310 recommended. Note: Not open to students with credit in AG EN 308.

AG EN 402. *Agricultural Buildings.* ★3 (First Term, 1-0-4). Studies on special problems or topics related to buildings. Prerequisite: Consent of instructor.

AG EN 411. *Irrigation Principles and Practices.* ★3 (First Term, 3-0-0). Soil-water-plant relationships; water requirements; efficiency of water use; irrigation scheduling; planning and evaluation of irrigation systems. Prerequisite: SOILS 310 or equivalent. Offered jointly with Department of Soil Science.

AG EN 413. *Irrigation and Drainage Engineering.* ★3 (Second Term, 3-0-3). Irrigation and drainage principles; planning and design of irrigation and drainage systems. Prerequisite: CIV E 430.

AG EN 420. *Analysis of Agricultural Systems.* ★3 (First Term, 3-0-3). The application of mathematical programming methods to problems in agricultural systems. Prerequisite: MATH 243 or 312 or AG EC 316. Not open to students with credit in FOREN 420.

AG EN 421. *Simulation Methods in Agricultural Engineering.* ★3 (Second Term, 3-0-3). Use of analogue and digital computers to simulate agricultural processes (e.g., harvesting, fertilizing, seeding, ventilating, irrigating). Continuous and discrete simulation models are developed in group projects. Prerequisite: Introductory courses in Computing Science and Calculus. Not open to students with credit in FOREN 421.

AG EN 422. *Agricultural Machinery Project.* ★3 (First Term, 1-0-4). A research project in tillage or in grain or forage harvesting or in post-harvest technology, is assigned. The project is the application of mathematical techniques or an experiment. A final report is required. Prerequisite: Consent of instructor.

AG EN 453. *Power Units.* ★3 (First Term, 3-0-3). Energy conversion, power transmission, soil vehicle mechanics, hydraulic systems, tractor performance and evaluation, tractor dynamics. Prerequisites: CH E 324, CIV E 430, MEC E 350.

AG EN 454. *Agricultural Machinery.* ★3 (Second Term, 3-0-3). The course uses the wedge theory and the Mohr-Coulomb failure criteria as a basis for a simple tillage theory. Various tillage tools are examined as well as implement and tractor chassis mechanics. An introduction to harvesting processes is made. Particle dynamics and mechanics of raking and cutting are developed. Harvesting systems are noted. Prerequisite: MEC E 350, CIV E 480.

AG EN 456. *Post-Harvest Technology.* ★3 (First Term, 3-0-3). Forage conditioning, fractionation, wafering, preservation, and silage, grain and forage dehydration, feeding and transport equipment, storage regimes, cleaning, sorting and milling, conveying and metering, process control. Prerequisite: AG EN 301.

AG EN 500. *Agricultural Engineering Field Trip.* ★0. An extended trip to visit agricultural engineering operations is made every second year by third and fourth-year agricultural engineering students.

AG EN 503. *Instrumentation in Agricultural Engineering.* ★3 (First Term, 3-0-3). A study of the primary sensing elements used in agricultural engineering, their principles of operation and application. Prerequisite: CIV E 360, E E 302, MEC E 350.

AG EN 510. *Agricultural Engineering Project.* ★3 (Second Term, 1-0-4). Each final year student in the B.Sc. (Agr. Eng.) program works independently on a project approved by the Co-ordinator. The project must be either a literature review or an engineering design problem or an experimental research project or a combination of any of these. Both a brief outline and a formal report must be submitted by the due dates.

AG EN 552. *Advanced Irrigation and Drainage.* ★3 (Second Term, 3-1s-0). Studies of selected topics or special problems in irrigation and drainage. Prerequisite: SOILS 470 or AG EN 313.

AG EN 555. *Data Analysis and Processing.* ★3 (Second Term, 3-0-3). Application of statistical techniques to experiments in agricultural engineering including dimensional analysis and curve fitting techniques. Data computation with graphical output. Prerequisites: CMPUT 351, STAT 241.

AG EN 600. *Agricultural Engineering Seminar.* ★0 (0-1s-0).

AG EN 602. *Selected Topics in Agricultural Mechanization.* ★3 (either term, 1-2s-0) or ★6 (1-2s-0). Application of statistical and mathematical techniques to selected problems in agricultural engineering.

AG EN 603. *Advanced Agricultural Buildings and Environment.* ★3 (either term, 1-2s-0) or ★6 (1-2s-0).

AG EN 604. *Advanced Farm Power and Machinery.* ★3 (Second Term, 3-0-0). Selected topics in traction, hydraulic systems, driver comfort and safety. New developments in farm machinery.

AG EN 605. *Project in Agricultural Machinery.* ★3 (either term, 1-2s-0) or ★6 (1-2s-0).

AG EN 606. *Advanced Soil and Water Engineering.* ★3 (either term, 1-2s-0) or ★6 (1-2s-0).

AG EN 910. *Non-Thesis Project.* ★3 (variable). Detailed report in the student's area of interest in an M.Ag. or M.Eng. program.

NOTE: For a list of Forest Engineering courses, see § 34.17.

34.5 Agriculture and Forestry

AGFOR 201. *Introduction to Agriculture.* ★3 (First Term, 3-0-0). The historical development of agriculture. Agriculture as a discipline, a vocation and a profession.

AGFOR 204. *Practice in Communication.* ★3 (either term, 3-0-0). Fundamentals of communication. Effectiveness of various methods of communicating. Practice in effective speaking, writing, group discussion and committee work. Application of audio visual techniques to extension material.

AGFOR 320. *Tropical Food Systems.* ★3 (Second Term, 3-0-0). Study of tropical food systems in developing countries—farm practices, storage, processing, transportation, marketing and home utilization. Importance of the effects of physical and social environment on such food systems. First year students not normaliy allowed.

AGFOR 404. *Field Trip.* ★0. Tour of Alberta agricultural enterprises arranged with the assistance of the Alberta Institute of Agrologists. Normally conducted in September prior to start of classes. Required of all agricultural students.

AGFOR 451. *Practical and Professional Agriculture.* ★0 (First Term, 1-0-0).

34.6 Animal Science

34.6.1 ANIMAL SCIENCE

AN SC 210. *Equine Physiology and Nutrition.* ★3 (First Term, 3-0-0). Application of the principles of digestive and metabolic physiology. Nutrient requirements of the horse; sources of energy and nutrients; feed formulation.

AN SC 300. *Principles of Animal Physiology.* ★3 (First Term, 3-0-0). Fundamental principles of initiation and regulation of animal function. Prerequisite: One university course in biology.

AN SC 311. *Applied Physiology of Domestic Animals.* ★3 (Second Term, 3-0-3). Physiological mechanisms of digestion, metabolism, growth, reproduction, and lactation in farm animals. Prerequisite: AN SC 300 recommended.

AN SC 351. *Wildlife Productivity and Management.* ★3 (Second Term, 3-0-3). Introduction to principles of animal functions related to production and management of wildlife. Analyses of relationships between productivity, habitat and land resource management. Field trips. Prerequisite: One university course in biology.

AN SC 372. *Animal Agriculture.* ★3 (First Term, 3-0-3). History and development of the dairy, beef, swine and sheep industries and potential of non-domestic species. Application of management principles to efficient production. Laboratory: Practical assignments in animal production. Note: Formerly AN SC 370.

AN SC 380. *Livestock Growth and Meat Production.* ★3 (First Term, 3-0-0). Concepts of growth and development applied to meat production from domestic livestock. Form and function of carcass tissues in the live animal. Heredity and meat production. Prerequisite: One University course in Biology recommended.

AN SC 460. *Fundamentals of Nutrition.* ★3 (First Term, 3-0-0). The nutrients, their character, sources, digestion and metabolism. Reading assignments in relevant literature.

AN SC 461. *Ruminant Nutrition.* ★3 (Second Term, 3-0-3). Application of energy metabolism, nutrient requirements, feed processing and feeding practices. Laboratory exercises in feed formulation. Prerequisite: AN SC 460.

AN SC 463. *Applied Monogastric Nutrition.* ★3 (Second Term, 3-0-3). Energy and nutrients in the nutrition of poultry, swine and other monogastrics. Nutrient requirements and feeding practices. Laboratory exercises in feed formulation. Prerequisite: AN SC 460.

AN SC 464. *Nutritional Experimentation.* ★3 (First Term, 2-0-3). Animal nutrition — laboratory procedures and metabolism trials.

AN SC 473. *Production and Management of Dairy Cattle, Sheep and Swine.* ★3 (Second Term, 3-0-0). Current practices, changes and progress in production and management methods. Note: Formerly AN SC 471.

AN SC 477. *Beef Cattle Production and Management.* ★3 (Second Term, 3-0-0). Current practices, changes and progress in beef cattle production. Note: Formerly AN SC 475.

AN SC 484. *Animal Population Genetics.* ★3 (First Term, 1-2s-0). Prerequisite: BIOL 297 or equivalent.

AN SC 485. *Animal Improvement.* ★3 (Second Term, 3-0-2). Prerequisite: AN SC 484.

AN SC 491. *Animal Biochemistry.* ★3 (Second Term, 3-0-3). Prerequisite: One single-term course in introductory biochemistry or equivalent.

AN SC 493. *Physiological Chemistry of Muscle and Meat.* ★3 (Second Term, 3-0-0). Structure, composition, development and metabolic role of muscle. Effects of hormones, nutrition, stress, slaughter and post-mortem metabolism. Prerequisite: One single-term course in introductory biochemistry or equivalent.

AN SC 501. *Research Project.* Weight according to work done to a maximum of ★6.

AN SC 510. *Ruminant Physiology.* ★3 (First Term, 3-0-3). Selected topics in metabolic endocrinology and environmental physiology of ruminants.

AN SC 550. *Grazing System Dynamics.* ★3 (First Term, 3-0-3). Application of the techniques of systems analysis and computer simulation in research and management of livestock and wildlife production systems.

AN SC 580. *Biometrical Techniques in Animal Science I.* ★3 (First Term, 3-0-3). Application of biometrical techniques to problems in animal science. Prerequisite: STAT 241 recommended.

AN SC 583. *Biometrical Techniques in Animal Science II.* ★3 (Second Term, 3-0-3). A continuation of AN SC 580 in the application of biometrical techniques to problems in Animal Science. Prerequisite: AN SC 580 recommended.

AN SC 587. *Biometrical Techniques in Quantitative Animal Genetics.* ★3 (Second Term, 3-0-3). Prerequisite: AN SC 580 recommended. Offered in alternate years. Note: Formerly AN SC 581.

AN SC 600. *Seminar.* ★3 (0-3s-0). Required each year of all graduate students.

AN SC 614. *Advanced Animal Nutrition.* ★3 (First Term, 3-0-0). A lecture and reading course in vitamins and minerals. Offered in alternate years.

AN SC 616. *Advanced Protein Nutrition.* ★3 (First Term, 3-0-0). A lecture and reading course in protein nutrition. Offered in alternate years.

AN SC 621. *Instrumentation for Animal Scientists.* ★3 (Second Term, 3-0-2). Operating principles, use, and care of, physiological, radionuclear, and other instruments used in Animal Science research. Emphasis on the suitability of instruments for research needs. Lab automation and data acquisition systems. Prerequisite: Consent of the Department.

AN SC 900. *Non-Thesis Project.* ★variable (variable).

NOTE: For a list of the Interdisciplinary courses offered see § 34.23.

34.6.2 POULTRY SCIENCE

POULT 352. *Principles and Practices of Poultry Production.* ★3 (Second Term, 3-0-3). Breeds and strains of poultry of economic importance; culling and selection; factors affecting percentage hatch; brooding, rearing and feeding of chickens and turkeys; feeding and management of layers and breeders; poultry housing; grading of eggs and poultry.

POULT 453. *Applied Poultry Genetics.* ★3 (Second Term, 3-0-3). Application of principles of genetics to breeding and improvement of poultry. Offered in alternate years.

POULT 459. *Processing Poultry and Poultry Products.* ★3 (First Term, 3-0-0). A study of the structure, chemical composition, nutritive value and preservation of eggs and egg products; factors affecting growth, carcass composition and quality of poultry meat; processing and marketing regulations.

POULT 462. *Poultry Diseases and Hygiene.* ★3 (First Term, 3-0-0). A study of the more important diseases of poultry — causes, symptoms, diagnosis, prevention and control.

34.6.3 VETERINARY SCIENCE

VETSC 300. *Introductory Veterinary Medicine.* ★3 (First Term, 3-0-0).

34.7 Biochemistry

BIOCH 300. *General Biochemistry.* ★6 (3-0-3). Structure and chemistry of the cell; the chemistry and metabolism of carbohydrates, lipids, proteins and nucleic acids; the molecular biology of enzymes and genes as related to the functioning of the living cell. Prerequisites: CHEM 200 or 202; and 250 or 350.

34.8 Biology

BIOL 130. *Introductory Biology.* ★6 (3-0-3). A basic biology course emphasizing the diversity and interrelations of organisms, the relationships between form and function, heredity, cellular structure, and ecological principles. Note: Not open to students with credit in Biology 30.

BIOL 296. *Evolutionary Biology.* ★3 (either term, 3-0-3). The numbers and kinds of organisms, their origins, structures, systematic relationships, and modes and mechanisms of evolution. Prerequisite: Biology 30.

BIOL 297. *Heredity.* ★3 (either term, 3-0-3). The cellular and molecular basis of the transmission of hereditary characteristics. Mendelian inheritance and its cytological basis; microbial genetics; cytoplasmic inheritance, linkage and genetic mapping; DNA as genetic material; gene action; the genetic code. Prerequisite: Biology 30. Note: Students cannot receive credit for both BIOL 297 and GENET 351. Those taking BIOL 297 should take GENET 375 for the equivalent of GENET 351.

BIOL 298. *Environmental Biology.* ★3 (either term, 3-0-3). The basic principles and concepts of ecology. Emphasis on structure and function of populations, communities, and ecosystems. Laboratory to include ecological experiments, demonstrations and discussions. Prerequisite: Biology 30.

BIOL 299. *Biological Function.* ★3 (either term, 3-0-3). Comparative physiology of animals and higher plants from the standpoint of nutrition, energetics, gas exchange, circulation, ionic and osmotic relations and control systems. Prerequisite: Biology 30.

34.9 Botany

BOT 322. *Plant Ecology.* ★3 (First Term, 3-0-3). Ecological principles and relationships in the terrestrial plant world. Major topics include plant community, vegetation, physical environment, autecology, genecology, ecosystem function, plant population, succession, classification and ordination of communities. Field work consists of two one-day trips to study boreal forest and aspen parkland, and three half-day trips for orientation, plant community analysis, and environmental measurement. Prerequisite: BIOL 298 or consent of the Department.

BOT 324. *Plant Physiology I.* ★3 (First Term, 3-0-3). A general course on water and energy relations, evapotranspiration, net assimilation, stresses, ascent of sap, permeability, translocation, mineral nutrition, integration and control of metabolism. Prerequisites: BIOL 299, CHEM 200 or 202, or consent of the Department. CHEM 250 or 350 recommended.

34.10 Chemistry

CHEM 202. *Introductory University Chemistry.* ★6 (3-1s-3). Bonding and structure; chemical and phase equilibria; solution chemistry; thermochemistry; electrochemistry and chemical kinetics with applications to inorganic chemistry. Designed for students who are taking or have taken a university level Mathematics course. Prerequisite: CHEM 100, or Chemistry 30, or equivalent. Corequisite or prerequisite: MATH 202 or 203 or equivalent.

CHEM 250. *Organic Chemistry.* ★6 (3-0-3). The study of functional groups found in the main classes of organic compounds and their molecular conformation and stereochemistry in such a way that the chemistry of some molecules important to biology (e.g., amino acids, proteins, medicinals, pesticides, fats, sugars, carbohydrates, nucleic acids) as well as some molecules found in every day life (soaps, detergents, fibers, perfumes, polymers, etc.) can be discussed. Prerequisite: CHEM 100, or Chemistry 30 or equivalent. Note: Students with credit in CHEM 200 or 202 will proceed to CHEM 350. Exceptions to this may be made only if written consent from the Department is obtained.

CHEM 302. *General Chemistry.* ★6 (3-1s-3). Introductory general chemistry designed for those students with credit in university level introductory organic chemistry. The course covers bonding and structure; chemical and phase equilibria; solution chemistry; thermochemistry; electrochemistry and chemical kinetics with applications of the above theory to selected examples drawn from organic (including some biologically important systems) and inorganic chemistry. Prerequisite: Chemistry 30 or CHEM 100 and CHEM 250. Recommended pre or corequisite: MATH 202 or 203, and 204 (are strongly recommended for those planning to take further courses in chemistry). Note: Students with credit in CHEM 250 will proceed to CHEM 302. Credit in CHEM 302 will not be granted to students with credit in CHEM 200, CHEM 202 or equivalent.

CHEM 312. *Quantitative Analysis.* ★6 (3-0-6). Principles, methods, and experimental applications emphasizing titrimetry, separations, spectrophotometry and evaluation of experimental data. Includes examples of organic analysis, radiochemistry, atomic absorption spectroscopy, gas chromatography, and use of analytical literature. Prerequisite: CHEM 200 or 202 or 302.

CHEM 350. *Organic Chemistry.* ★6 (3-0-3). The study of molecular structure and reactivity of organic compounds of both biological and industrial interest. Special attention is given to the chemistry of polymers, fats, peptides and carbohydrates. Methods of structure determination are discussed. Prerequisite: CHEM 200 or 202 or 302. Note: Students who have otained credit for CHEM 250 cannot take CHEM 350 for credit.

34.11 Computing Science

Note on credit for introductory Computing Science courses: credit will be given for only one of 214, 261, 300, 351, and 357, and for only one of 215 and 352.

CMPUT 351. *Elements of Programming I.* ★3 (either term, 3-0-3). Basic programming techniques using a high level language; representation and manipulation of numeric and non-numeric data; survey of computing systems, history and applications. See above note re introductory Computing Science courses.

34.12 Economics

ECON 201. *Introduction to Micro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems and policies with emphasis on the Canadian economy; the roles of consumers and firms in competitive and monopolistic markets; foreign ownership in the Canadian economy: the distribution of income, inequality and poverty; the use of the environment; government economic policies. Prerequisite: Mathematics 20 or Mathematics 33 or consent of the Department.

ECON 202. *Introduction to Macro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems and policies with emphasis on the Canadian economy; national income and monetary theory; problems of unemployment and inflation; government monetary and fiscal policies; international trade theory, problems and government policies. Prerequisite: Mathematics 20 or Mathematics 33 or consent of the Department.

ECON 381. *Micro-Economic Analysis I.* ★3 (either term, 3-0-0). The theory of consumer behavior; theory of production and cost; price and output determination under competition, monopoly and other market structures. Prerequisite: ECON 201/202 or consent of the Department. Not open to students with credit in MANEC 323.

ECON 382. *Macro-Economic Analysis I.* ★3 (either term, 3-0-0). National income concepts and income determination; theories of aggregate consumption, investment and employment behavior; monetary and fiscal policy. Prerequisite: ECON 201/202 or consent of the Department. Not open to students with credit in MANEC 333.

34.13 English

ENGL 215. *Introduction to the Study of Literature.* ★3 (either term, 3-0-0). A close reading of significant works of prose and poetry in English, to introduce the student to the most effective ways of understanding the various genres of English literature. Three essays will be required. Note: This course is prerequisite to ENGL 270, 275, 284 and 290. Formerly part of ENGL 260 and 265.

34.14 Entomology

ENT 207. *Agricultural Entomology.* ★3 (either term, 3-0-3). Introduction to insects and related anthropods emphasizing those aspects of their structure and life history responsible for some of them becoming pests and indicating those aspects towards which control measures can be directed. Principles of integrated control. Prerequisite: Biology 30 or BIOL 130 or equivalent recommended.

ENT 209. *Entomology for Non-biologists.* ★3 (either term, 3-0-3). Comparisons of the structure, relationships, behavior and place in nature of insects and man. No prerequisite.

ENT 302. *Survey of Entomology.* ★3 (First Term, 3-0-3). An examination of the world of insects from the points of view of major areas of entomological study including life histories, behaviour, taxonomy and phylogeny, physiology, development, morphology and ecology. Emphasis is given to the study of insects as animals not to the study of insects as pests. Prerequisite: Biology 30 or BIOL 130; ZOOL 353 or ENT 207 recommended.

ENT 317. *Comparative Morphology.* ★4 (First Term, 3-0-6). Comparative morphology of the major orders of insects and the evolution of some of their structures. Prerequisites: ZOOL 352 and 353.

ENT 392. *Medical and Veterinary Entomology.* ★3 (either term, 3-0-3). An introduction to the arthropods and an account of their influences on the health of man and other animals. Prerequisite: Biology 30 or BIOL 130 or equivalent. Not open to students with credit in ENT 492.

ENT 401. *Project in Basic Entomology.* Weight according to work done to a maximum of ★6. Individual study. Course object: to provide students with the opportunity to investigate through guided reading and discussion with a faculty member of their choice, the literature on one or more topics in basic entomology. According to circumstances and inclinations, limited experimental work might be undertaken.

ENT 407. *Principles of Insect Pest Management.* ★3 (Second Term, 3-1s-0). The ecological, economic and tactical concepts involved in insect pest management. Prerequisite: any entomology course or ZOOL 353 or FOR 380.

ENT 419. *Insect Development.* ★3 (Second Term, 3-0-3). Reproduction, embryonic and postembryonic development in insects. Prerequisite: Consent of instructor; ENT 317 recommended.

ENT 427. *Insect Taxonomy.* ★4 (First Term, 2-0-6). The higher taxa of insects and their relationships. Practice in identification. Prerequisite: Consent of instructor; ENT 317 and 419 recommended.

ENT 450. *Insect Biochemistry.* ★3 (First Term, 3-0-3). Comparative biochemistry of insects emphasizing processes which are characteristic of insects. Prerequisite: BIOCH 300 or 372, or PL SC 431 and 432; ENT 302 recommended.

ENT 471. *Project in Applied Entomology.* Weight according to work done to a maximum of ★6. A survey of the literature on one or more topics in applied entomology with or without an experimental study of related simple problems.

ENT 476. *Insect Toxicology.* ★3 (Second Term, 3-1s-2). Survey of present and prospective chemical insect control agents. Chemistry, mode of action, metabolism, environmental impact and hazards to man of insecticides, repellants, microbial agents, chemosterilants, insect growth regulators and chemicals which influence insect behaviour. Prerequisites: CHEM 250 and one of ENT 207, 302, 392, 480, 492 or FOR 380.

ENT 480. *Forest Entomology.* ★3 (either term, 3-1s-2). Characteristics of major North American forest insects. Roles of insects in forest ecosystems. Insects destructive to wood and wood products. Principles of control. This course is intended for honors and graduate students in Entomology or any other biological science. A term paper is required. Given concurrently with FOR 380. Prerequisite: Biology 30 or BIOL 130 or equivalent. Not open to students with credit in FOR 380.

ENT 492. *Medical and Veterinary Entomology.* ★3 (either term, 3-1s-3). This course is Entomology 392 plus readings and discussion of topics of current interest. Prerequisite: Consent of instructor. Not open to students with credit in ENT 392.

ENT 527. *Insect Taxonomy.* ★3 (Second Term, 3-0-3). Literature of insect taxonomy. Principles and procedures. Speciation, phylogeny and zoogeography. Preparation of taxonomic papers. Prerequisite: Consent of instructor; ENT 427 recommended.

ENT 556. *Insect Physiology.* ★4 (Second Term, 2-0-5). Life processes illustrated by insects with emphasis on those peculiar to them and their relatives. Prerequisite: Consent of instructor; a senior physiology course recommended.

ENT 560. *Insect Ecology.* ★4 (First Term, 2-0-6). Relationships of insects to their environment. Community interactions. Laboratory will consist of field trips. Prerequisite: ENT 207 or 302 recommended.

ENT 561. *Advanced Insect Ecology.* ★4 (Second Term, 2-0-6). Behavioral aspects of insect ecology. Responses of insects to the biological and physical environment. Circadian activity rhythms. Prerequisite: ENT 560 recommended.

ENT 601. *Seminar.* ★2 (First Term, 0-2s-0). Required of all graduate students in each year.

ENT 602. *Seminar.* ★2 (Second Term, 0-2s-0). Required of all graduate students in each year.

ENT 610. *Project in Insect Morphology and Histology.* Weight according to work done to a maximum of ★6. Prerequisite: Consent of instructor.

ENT 621. *Project in Insect Taxonomy.* Weight according to work done to a maximum of ★6. Prerequisite: Consent of instructor.

ENT 650. *Project in Insect Physiology.* Weight according to work done to a maximum of ★6. Prerequisite: ENT 556 or 450.

ENT 660. *Project in Insect Ecology.* Weight according to work done to a maximum of ★6. Prerequisite: ENT 560 or 561 recommended.

ENT 670. *Project in Insect Toxicology.* Weight according to work done to a maximum of ★6. Prerequisite: ENT 476.

ENT 680. *Project in Forest Entomology.* Weight according to work done to a maximum of ★6. Prerequisite: FOR 380 or ENT 480 recommended.

ENT 692. *Project in Medical Entomology.* Weight according to work done to a maximum of ★6. Prerequisite: Consent of instructor.

34.15 Food Science

34.15.1 FOOD SCIENCE

FD SC 200. *Introduction to Food Science.* ★3 (either term, 3-0-0). Historical and philosophical aspects of food supplies and food processing. World food supply and utilization. Trends in the processing, preservation, handling and utilization of food. Food fads and fallacies. No prerequisite.

FD SC 400. *Undergraduate Research Project.* Weight according to work done to a maximum of ★6. Critical reviews of selected literature, or laboratory project. Note: For third and fourth year students only. Students must obtain approval from Department before registration.

FD SC 402. *Quality Control.* ★3 (Second Term, 3-0-3). Acceptance sampling and testing, objective and subjective measurements, classification of quality attributes in food systems. Prerequisite: STAT 241 or equivalent.

FD SC 500. *Sensory Analysis of Foods.* ★2 (Second Term, 1-0-2). Physiology, psychology and biochemistry of taste and olfaction. Factors influencing sensory measurements. Qualitative and quantitative evaluation.

FD SC 502. *Brewing and Enology.* ★3 (Second Term, 3-0-0). Biological, biochemical, chemical and technical aspects of malting, brewing, winemaking and allied industries. Prerequisites: BIOCH 300 and MICRB 315 or equivalent.

FD SC 503. *Milk and Dairy Products.* ★3 (Second Term, 3-0-3). Biological, biochemical, chemical and technological aspects of fluid milk production and processing, and the manufacture of dairy products. Prerequisites: MICRB 201 or 315 and BIOCH 300 or equivalent.

FD SC 504. *Meat and Meat Products.* ★3 (First Term, 3-0-3). Biological, biochemical, chemical and technological aspects of the processing of meat and meat products. Prerequisites: MICRB 201 or 315 and BIOCH 300 or equivalent.

FD SC 505. *Fruit and Vegetable Products.* ★3 (First Term, 3-0-3). Biological, biochemical, chemical and technological aspects of the processing of fruits and vegetables. Prerequisite: BIOCH 300 or PL SC 431 and 432.

FD SC 506. *Cereal and Oil Seed Products.* ★3 (First Term, 3-0-3). Biological, biochemical, chemical and technological aspects of the processing of cereals and oil seeds. Prerequisite: BIOCH 300 or PL SC 431 and 432.

FD SC 530. *Food Product/Process Development.* ★6 (0-2s-4). An individual study project course normally restricted to fourth year students. Prerequisite: Consent of instructor.

FD SC 600. *Seminar.* ★1 (0-1s-0). Reports and discussion of research problems. Required during each year of all graduate students.

FD SC 601. *Topics in Food Science.* ★3 (either term, 0-3s-0). A lecture and discussion course on topics of current interest in Food Science.

FD SC 900. *Food Engineering Project.* Weight according to work done to a maximum of ★3. Problems in food engineering analysis and/or design. Note: Enrolment restricted to students registered in the M.Eng. (Food Process Engineering) program.

34.15.2 FOOD PROCESSING

FD SC 351. *Industrial Food Processing.* ★3 (First Term, 3-0-3). An introduction to the processing and preservation of foods. Prerequisite: Consent of instructor.

FD SC 453. *Unit Operations in Food Processing I.* ★3 (First Term, 3-0-3). Processes used in food manufacturing. Size reduction, mixing, emulsification, separation, extraction, distillation, sedimentation, centrifugation, crystallization and filtration. Prerequisite: FD SC 383 or equivalent.

FD SC 454. *Unit Operations in Food Processing II.* ★3 (Second Term, 3-0-3). Processes used in food preservation. Pasteurization, sterilization, evaporation, dehydration, refrigeration, chilling, freezing, and irradiation. Prerequisite: FD SC 383 or equivalent.

FD SC 552. *Food Protein Technology.* ★3 (Second Term, 2-0-4). Conventional and unconventional protein production. Protein sources, isolation and texturization processes. Functional properties of proteins in food systems. Prerequisite: Consent of instructor.

FD SC 554. *Food Processing Project.* ★3 (either term, 1-0-5). Laboratory and pilot plant studies of selected food preservation techniques. Evaluation of effects of processing on food characteristics. Prerequisite: Consent of instructor.

34.15.3 FOOD AND INDUSTRIAL MICROBIOLOGY

FD SC 461. *Food Microbiology I.* ★3 (First Term, 3-0-3). The principles of food microbiology and food poisoning. Prerequisite: MICRB 315 or equivalent.

FD SC 462. *Food Microbiology II.* ★3 (Second Term, 3-0-3). The microbiology of the food, dairy and allied industries. A continuation of FD SC 461. Prerequisite: FD SC 461 or equivalent.

FD SC 566. *Advanced Food Microbiology.* ★3 (Second Term, 1-0-4). Advanced techniques and recent developments in food microbiology. Prerequisite: FD SC 461.

FD SC 660. *Advanced Applied Microbiology.* ★3 (either term, 3-0-0). A lecture and discussion course on topics of current interest in applied microbiology with readings of original literature. Prerequisite: Consent of instructor.

34.15.4 FOOD CHEMISTRY

FD SC 471. *Food Chemistry I.* ★3 (First Term, 3-0-3). Chemistry and biochemistry of food constituents. Prerequisites: BIOCH 300 or PL SC 431 and 432.

FD SC 472. *Food Chemistry II.* ★3 (Second Term, 3-0-0). A continuation of FD SC 471. Prerequisite: FD SC 471.

FD SC 573. *Food Analysis.* ★3 (Second Term, 3-0-3). Classical and modern methods for the chemical analysis of foods and food ingredients. Prerequisite: Consent of instructor.

FD SC 671. *Advanced Food Chemistry.* ★3 (either term, 3-0-0). Selected topics in food chemistry. Note: A student may obtain credit in this course more than once. Prerequisite: Consent of instructor.

34.15.5 FOOD ENGINEERING

FD SC 383. *Introduction to Food Engineering.* ★3 (Second Term, 3-0-3). Dimension and units. Basic mathematical concepts and their use in food processes. Thermodynamics in food systems. Prerequisite: MATH 240 (or 242); PHYS 207 recommended.

FD SC 583. *Food Rheology.* ★2 (either term, 1-0-2). Flow and deformation of solid, semi-solid and liquid foods. Subjective and instrumental evaluation of food texture parameters. Prerequisite: Consent of instructor.

FD SC 586. *Food Process Evaluation.* ★3 (First Term, 3-3s-0). In depth study of optimization and cost analysis of selected food processes. Prerequisite: Consent of instructor.

FD SC 587. *Food Engineering Laboratory.* ★3 (either term, 1-0-3). Experiments in Food Engineering. Prerequisite: Consent of instructor.

FD SC 588. *Heat and Mass Transfer in Food Engineering.* ★3 (First Term, 3-0-0). Basic heat and mass transfer theories in solid and liquid foods. Application to selected unit operations. Prerequisite: Consent of instructor.

34.16 Forest Economics

Department of Rural Economy

FOREC 345. *Economics of Forestry.* ★3 (First Term, 3-0-0). Economic aspects of forest production, marketing, finance, and policy. Prerequisite: ECON 201/202 or equivalent. [Rural Economy]

INT D 365. *Natural Resource Economics.* ★3 (either term, 3-0-0). (See § 34.23.)

INT D 366. *Economics of Outdoor Recreation.* ★3 (either term, 3-0-0). (See § 34.23.)

INT D 432. *Forest Administration and Policy.* ★3 (either term, 3-0-0). (See § 34.23.)

FOREC 445. *Forest Production Economics.* ★3 (Second Term, 3-0-0). Production principles applied to the use of resources in forestry. Prerequisite: Consent of instructor; FOREC 345 recommended.

INT D 465. *Natural Resource Utilization.* ★3 (either term, 3-0-0). (See § 34.23.)

FOREC 545. *Economics of Timber Utilization.* ★3 (Second Term, 3-0-0). Concerns introduction of wood processing industries into areas of predominantly old growth stock; optimum depletion rates and sustention of yield, development of infrastructure; siting mills; transportation and the pattern of development of wood processing industries; the role of the forest industries in regional development. Prerequisite: Consent of instructor; FOREC 445 recommended. [Rural Economy]

34.17 Forest Engineering

Department of Agricultural Engineering

FOREN 201. *Engineering Principles Applied to Forestry I.* ★3 (First Term, 2-0-4). Surveying, photogrammetry and photo interpretation for forestry and forest operation applications. (Offered jointly by the Departments of Agricultural Engineering and Forest Science). [Agricultural Engineering]

FOREN 202. *Engineering Principles Applied to Forestry II.* ★3 (First Term, 3-0-3). Basic principles of statics and dynamics. Lab and assignments deal with problems of analysis and elementary design of forest harvesting and transportation equipment and structures. Not open to students with credit in AG EN 202.

FOREN 203. *Engineering Principles Applied to Forestry III.* ★3 (Second Term, 3-0-3). Basic principles of graphics, surveying, soil mechanics and hydraulics as applied in forest harvesting operations. Prerequisite: FOREN 202.

FOREN 310. *Wood Technology I.* ★3 (First Term, 3-0-3). The anatomy and identification of North American woods; biological, chemical and physical properties of wood and its components; growth, natural and processing defects; lumber grading.

FOREN 320. *Wood Technology II.* ★3 (Second Term, 3-0-3). Mechanical properties of wood and its behavior under stress; wood moisture-strength relationships; anisotropic nature of wood; preservative treatments; uses of wood and wood products as engineering structural materials. Prerequisite: FOREN 310.

FOREN 335. *General Forest Harvesting and Transportation.* ★3 (First Term, 3-0-0). Harvesting and transportation methods and techniques as applied to industrial logging operations. This is a general course for forestry students requiring a basic knowledge of methods and equipment used in modern forest harvesting and transportation operations.

FOREN 345. *General Wood Utilization.* ★3 (Second Term, 3-0-0). Wood utilization including sawmills, plywood plants, chip and particle board and pulp and paper. A general survey course for forestry students requiring a basic knowledge of the utilization of forest products. Prerequisite: FOR 301 recommended.

FOREN 420. *Analysis of Forest Systems.* ★3 (First Term, 3-0-3). The application of mathematical programming methods to problems in forest systems. Prerequisite: MATH 243 or MATH 312 or AG EC 316. Not open to students with credit in AG EN 420.

FOREN 421. *Simulation Methods in Forest Engineering.* ★3 (Second Term, 3-0-3). Use of analogue and digital computers to simulate forest processes (e.g., harvesting, fire detection, fire suppression). Continuous and discrete simulation models are developed in group projects. Prerequisite: Introductory courses in Computing Science and Calculus. Not open to students with credit in AG EN 421.

FOREN 430. *Advanced Forest Harvesting Operations.* ★3 (First Term, 3-0-3). Advanced studies in forest harvesting practices and methods, covering processing and primary transport from the felling area to the roadside. Planning and cost analysis of types of logging operations and equipment. Prerequisite: FOREN 203.

FOREN 440. *Advanced Transportation of Forest Products.* ★3 (Second Term, 3-0-3). Advanced studies in the methods and systems of movement of wood and wood products. In depth consideration of specifications, cost components and equipment selection for forest roads, wood handling and hauling, including the economics of system design. Prerequisite: FOREN 203.

FOREN 450. *Logging Plan.* ★3 (Second Term, 3-0-0). The detailed preparation of a logging plan including selection and specification of harvesting method and equipment and all attendant wood handling, road specifications, design and costs. Prerequisite: FOREN 430 and 440.

FOREN 460. *Wood Utilization I.* ★3 (First Term, 3-0-3). The study in-depth of the use of forest products by sawmills, plywood plants, and in furniture manufacture. Production flow sheets, process analyses and cost relationships are examined with a view to improved productivity and utilization. Material utilization. Preservative treatment of wood. Product economics and current trends in the industry. Prerequisite: FOREN 310.

FOREN 470. *Wood Utilization II.* ★3 (Second Term, 3-0-3). The utilization of forest products by the pulp and paper industry. Particle and fibre boards will also be considered. System efficiency, cost relationships and the environmental effects of effluent and control are studied. Preservative treatment of wood. Prerequisite: FOREN 310.

FOREN 480. *Mill/Process Plan.* ★3 (either term, 1-0-4). The preparation of a mill or process layout including raw material appraisal and merchantable volume output. Consideration of equipment costs and operation. Prerequisite: Consent of instructor.

FOREN 550. *Problems in Forest Engineering.* ★3 (either term, 3-0-0). Directed study in forest engineering, including forest harvesting, road location and construction. Prerequisite: Consent of instructor.

FOREN 551. *Trends and Problems in Wood Science.* ★3 (either term, 1-2s-0) or ★6 (1-2s-0). Directed study in wood technology and forest products with emphasis on current trends and new developments in wood science and the forest products industry. Prerequisite: Consent of the instructor.

FOREN 650. *Selected Topics in Forest Engineering.* ★3 (either term, 3-0-0).

34.18 Forest Science

FOR 200. *Introduction to Forestry.* ★3 (First Term, 3-0-0). A review of the field of forestry and integrated-use forest management including historical development of forestry and logging, wood products, silviculture and reforestation, forest enemies — fire, insects and diseases, forest land uses, conservation and management. Not available for credit to B.Sc. Forestry students.

FOR 301. *Forestry Field Camp.* ★6 (Second Term). Five weeks of field exercises in forest mensuration, protection, ecology, and management planning. Conducted immediately following normal second term examinations. Required of all students pursuing the B.Sc. in Forestry. Students enrolled in the B.Sc.F. program will not be allowed to enroll in FOR 430 without having satisfactorily completed FOR 301. A fee to cover room and board and partial camp expenses will be charged. For the 1979-80 camp, this would have been $250.00. Prerequisite: AG FOR 204, FOR 311, and FOR 315 or equivalent.

FOR 310. *Forest Measurements I.* ★3 (First Term, 3-0-3). Principles and practices of measuring and estimating present and future fiber production of forest communities; elementary photogrammetry; application of statistics and computer planning; field trips. Prerequisite: MATH 202 and STAT 241 or equivalent.

FOR 311. *Forest Measurements II.* ★3 (Second Term, 3-0-3). Designed to introduce students to the principles and practices of measuring a variety of wildland resources including land, timber, water, range, wildlife, and recreation. Prerequisite: FOR 310 and CMPUT 351 or equivalent.

FOR 314. *Forest Soils.* ★3 (Second Term, 3-0-3). Chemical, physical, and biological properties of soil in relation to site and the growth of forest vegetation; nutrient cycling; soil properties and management in relation to silvicultural and forest nursery practices. Prerequisite: SOILS 310 or equivalent. [Soil Science].

FOR 315. *Dendrology.* ★3 (First Term, 3-0-4). Identification, classification, distribution, and silvics of the forest trees and important shrubs of Canada; their commercial and ecological values; brief consideration of their management; field trips.

FOR 316. *Silviculture I.* ★3 (Second Term, 3-0-3). Forest succession and systems ecology; environmental factors and their relation to the establishment, growth, composition, and quality of forest trees and stands; **silvicultural systems;** field trips; seminars. Prerequisite: BIOL 298 and BOT 324 or equivalent.

FOR 317. *Silviculture II.* ★3 (First Term, 3-0-3). Harvest methods and silvicultural prescriptions for establishment of forest stands; stand growth manipulation and the development of stand structure to maximize the usefulness of forests; analytical methods of evaluating forest land capability; field trips. Prerequisite: FOR 316 or equivalent.

FOR 340. *Forest Fire Management.* ★3 (Second Term, 3-0-3). Fire behavior and its effects on wildland vegetation and environment; prevention, detection, and control; prescribed use in forest management; policy and objectives in fire management; field trips.

FOR 351. *Intermediate Forest Problems.* Weight according to work done to a maximum of ★3 (either term, variable). Individual problem work in specialized areas of forest science. Prerequisite: Consent of instructor.

FOR 354. *Problems in Integrated Forest Management.* ★3 (either term, variable). Directed study in the multiple aspects of forest management, including wildlife, recreation, watershed, range, and timber. Prerequisite: Consent of instructor.

FOR 360. *Recreational Use of Wildland.* ★3 (Second Term, 3-0-0). Recreational use of wildland resources; study of legislative programs, philosophical concepts, and organizations involved in wildland recreation management; field trips.

INT D 365. *Natural Resource Economics.* ★3 (either term, 3-0-0). (See § 34.23.)

INT D 366. *Economics of Outdoor Recreation.* ★3 (either term, 3-0-0). (See § 34.23.)

FOR 380. *Forest Entomology.* ★3 (either term, 3-0-3). Characteristics of major North American forest insects. Roles of insects in forest ecosystems. Insects destructive to wood and wood products. Principles of control. Prerequisite: Biology 30 or equivalent. Not open to students with credit in ENT 480. [Entomology].

FOR 410. *Remote Sensing for Renewable Resource Inventory and Management.* ★3 (First Term, 3-0-3). Principles of remote sensing; techniques for data acquisition, storage, and interpretation; application to renewable resource inventory and management. Prerequisite: A previous course in at least one of the natural sciences. [Soil Science].

FOR 411. *Forest Management Inventory and Planning.* ★3 (First Term, 3-0-3). Study of advanced planning techniques — computer, photo, statistical, and mathematical — for collection, analysis, and storage of data for use by the forest resource manager in forest management; field trips. Prerequisite: CMPUT 351 and FOR 310 or equivalent.

FOR 412. *Forest Regulation.* ★3 (Second Term, 3-0-3). Study of forests and organizations with fiber production as a primary goal; organization structure; decision-making processes; financial evaluation; forest management; field trips. Prerequisite: FOR 430 or equivalent.

FOR 415. *Advanced Dendrology.* ★3 (Second Term, 3-0-0). Studies of woody plant vegetation of the world, especially temperate and boreal regions; evolution of, and genetic relationships among, tree and shrub genera and species; historical development of woody plant vegetation: optional field trip. Prerequisite: Consent of instructor. Offered alternate years.

FOR 417. *Tree Seed Handling.* ★3 (Second Term, 1½-0-3). Study of tree seed form cone crop prediction and seed collection through seed extraction, storage and testing to seeding in the field and nursery. Mostly literature review and seminar discussions, class size permitting, supplemented with laboratory studies of specific problem areas. Prerequisite: Consent of instructor. Offered alternate years.

FOR 422. *Forest Tree Improvement.* ★3 (Second Term, 3-0-3). Application of principles of inheritance as related to trees and in the management of forested lands; natural variation and ecological differentiation of woody plant populations; reproductive biology; methods of tree improvement. Prerequisite: Consent of instructor. Offered in alternate years.

FOR 427. *Tree Physiology.* ★3 (First Term, 3-0-3). Study of physiological processes of forest trees; relationship of environment and structure to function; emphasis on growth processes, primary production processes, reproduction, dormancy; influence of silvicultural practices on growth and physiological processes. Prerequisite: Consent of instructor.

FOR 430. *Forest Resources Management I.* ★3 (First Term, 3-0-3). Analytical techniques used by renewable resource

managers for management of wildland areas for single or multiple outputs; problems of defining optimality when confronted with competing uses and multiple outputs. Prerequisite: FOR 301, FOR 316, and FOR EC 345 or equivalent.

FOR 431. *Forest Resources Management II.* ★3 (Second Term, 3-0-3). The use of simulation, mathematical programming, and systems analysis by resource managers as decision-making aids. Application of techniques covered in Forest Resources Management I to case study problems. Prerequisite: FOR 317 and FOR 430 or equivalent.

INT D 432. *Forest Administration and Policy.* ★3 (either term, 2-1s-0). (See § 34.23.)

FOR 450. *Forest and Range Hydrology.* ★3 (Second Term, 3-0-3). The role of forest and range vegetation in determining the hydrologic function of a watershed; natural storage phenomena of the forest land surface and ways it can be modified; field trips. Prerequisite: FOR 314 or equivalent.

FOR 452. *Forest Watershed Management.* ★3 (First Term, 3-0-3). Principles and methods involved in managing forest and range land to obtain optimum production and regulation of water yields while maintaining soil stability; watershed management as a component of integrated forest resources management; field trips. Prerequisite: FOR 450 or equivalent.

FOR 462. *Wildland Recreation Management.* ★3 (First Term, 3-0-3). Principles and methods in managing wildlands for recreational use; relationships of outdoor recreation and other uses of wildlands in integrated forest resources management; field trips. Prerequisite: Consent of instructor.

FOR 463. *Wildland Recreation Planning.* ★3 (Second Term, 3-0-0). Survey of current principles and practices relevant to the planning of parks, wilderness areas and recreational environments in wildland settings. Emphasis on current case studies. Prerequisite: FOR 360 or FOR 462 or equivalent.

INT D 467. *Methods in Heritage Interpretation.* ★3 (Second Term, 3-0-0). (See § 34.23.)

INT D 470. *Heritage Interpretation Field Trip.* ★3. (Spring Session, Second Term, 0-2-6). (See § 34.23).

FOR 500. *Research Methods in Forestry.* ★3 (Second Term, 3-0-0). Use of the scientific method in forestry research, formulation of hypotheses, design of experiments, interpretation of data. Prerequisite: Consent of the instructor.

FOR 502. *Reading Projects in Forestry.* Weight according to work done to a maximum of ★6. Library study of a selected topic, regular meetings for discussion, and a written report. Prerequisite: Consent of the instructor.

FOR 503. *Advanced Problems in Forestry.* Weight according to work done to a maximum of ★6. Directed study in forestry. Prerequisite: Consent of instructor.

FOR 511. *Advanced Forest Measurements.* ★3 (Second Term, 3-0-3). Selected topics in forest and wildland mensuration, sampling methods, modelling of biological systems, and data management. Introduction to basic concepts of scientific research and design of experiments. Prerequisite: Consent of instructor.

FOR 517. *Advanced Silviculture.* ★3 (Second Term, 3-0-3). Various topics including forest tree nursery locations, cycles, stock, types, instrumentation requirements and problems; advanced aspects of silvicultural planning related to integrating silvicultural considerations into woods operations. Prerequisite: Consent of instructor.

FOR 520. *Problems in Silviculture.* ★3 (either term, variable). Directed study in silviculture. Prerequisite: Consent of instructor.

FOR 522. *Seminar in Tree Improvement.* ★3 (Second Term, 0-3s-0). Reports and discussion of current literature and advanced topics in forest genetics and tree improvement. Prerequisites: Graduate standing and consent of instructor; FOR 422 and GENET 351 recommended.

FOR 525. *Problems in Forest Ecology.* ★3 (either term, variable). Directed study in forest ecology. Prerequisite: Consent of instructor.

FOR 526. *Advanced Forest Ecology.* ★3 (Second Term, 3-0-0). Studies of the ecology of the major forested ecosystems of Canada, particularly composition, physical and biological factors of importance, variability within regions, silvicultural techniques, management problems; limiting factors, productivity, special adaptations, role of man; term project required. Optional field trip. Prerequisite: Consent of instructor. Offered alternate years.

FOR 535. *Problems in Forest Resources Management.* ★3 (either term, variable). Directed study in forest resources management. Prerequisite: Consent of instructor.

FOR 545. *Problems in Forest Fire.* ★3 (either term, variable). Directed study in forest fire. Prerequisite: Consent of instructor.

FOR 546. *Advanced Fire Ecology.* ★3 (First Term, 3-0-0). The role of fire as an abiotic input in wildland environments. Its affect on plant succession; primary producers, consumers, decomposers; from an autecological and synecological perspective. Prerequisite: Consent of instructor.

FOR 555. *Problems in Forest Hydrology.* ★3 (either term, variable). Directed study in forest hydrology. Prerequisite: Consent of instructor.

FOR 565. *Problems in Forest Recreation.* ★3 (either term, variable). Directed study in forest recreation. Prerequisite: Consent of instructor.

FOR 600. *Forestry Seminar.* ★3 (0-1.5s-0). Reports by students, staff and visitors on studies of the literature, current research, and thesis projects. Required each year of all graduate students. Attendance and participation at all seminars is expected. Prerequisite: Graduate standing.

FOR 699. *Forestry Problems.* Weight according to work done to a maximum of 6. Prerequisite: Graduate standing and consent of instructor.

NOTE: For a more complete list of Interdisciplinary courses offered, see § 34.23.

34.19 Genetics

GENET 351. *Principles of Genetics.* ★6 (3-0-3). Physical basis of heredity; transmission genetics in eukaryotes (plants and animals) and prokaryotes (bacteria and viruses); gene structure; gene mutations; human genetics; gene action at the molecular, biochemical and development levels; genetic coding, cytoplasmic inheritance; sex determination; polyploidy, aneuploidy and chromosomal aberrations. Prerequisite: Biology 30 or BIOL 130, or consent of the Department. Note: Students cannot receive credit for both BIOL 297 and GENET 351.

GENET 375. *Eukaryote Genetics and Cytogenetics.* ★3 (either term, 3-0-3). A comprehensive discussion of Mendelian and neo-Mendelian inheritance, chromosome behavior and their interrelationships. Prerequisite: BIOL 297.

34.20 Geology

GEOL 202. *Physical Geology.* ★3 (First Term, 3-0-3). Internal structure and composition of the earth; continents and oceans; minerals and rocks; groundwater and water supply; erosion, transportation and deposition of sediments; igneous activity and metamorphism; mountain building; plate tectonics. Not available to students with credit in GEOL 301 or 390.

34.21 Home Economics

FD NU 222. *Current Topics in Human Nutrition and Foods.* ★3 (First Term, 3-0-0). An introductory course. Selected problems in community nutrition in developed and developing countries. Prerequisite: Chemistry 30 or consent of the instructor. Note: Not open to students with credit in FD NU 325, 327, 464 or 465.

FD NU 464. *Nutrition.* ★3 (First Term, 3-0-3). The principles of nutrition applied to feeding of individuals of various ages under normal conditions with emphasis on energy, carbohydrates, fats and proteins. Prerequisite: BIOCH 300.

FD NU 465. *Nutrition.* ★3 (Second Term, 3-0-3). The principles of nutrition applied to feeding of individuals of various ages under normal conditions with emphasis on vitamins and minerals. Prerequisite: BIOCH 300.

34.22 Industrial Relations

IND R 304. *Industrial Relations in Canada.* ★3 (either term, 3-0-0). Union, management and government participation in the Canadian industrial relations system. It examines the nature, causes and possible methods of settling labor disputes and processing grievances. It gives the student a chance to participate in simulated negotiations of collective agreements.

34.23 Interdisciplinary Courses

Courses listed below are the concern of more than one discipline. Students may register in these courses either as options or as courses in subjects of concentration in one of the disciplines listed in the footnote under each course, subject to the usual curriculum requirements, prerequisites, etc. Normally, in the Faculty of Agriculture and Forestry, these courses will be credited to the discipline listed in square brackets. Instruction will be offered by members of one or more of the departments or faculties listed beneath the course description. *For the following Interdisciplinary course descriptions, where the department responsible for registration has been assigned the department so designated will appear in square brackets following the course description.*

INT D 230. *Practical Plant Biology.* ★3 (First Term, 3-0-3). The practical aspects of plant structure and classification. Laboratory exercises will emphasize crop plants. Prerequisite: Biology 30 or BIOL 130 (Offered jointly by the Departments of Botany and Plant Science). [Plant Science]

INT D 302. *Economics of Agriculture.* ★3 (either term, 3-0-0). The nature and scope of agricultural economics; economic aspects of agricultural production, marketing, finance, resource use, prices, and policy; relation of the agricultural sector to the economy as a whole; analysis of structural change, economic growth and adjustment in agriculture. Prerequisite: ECON 201/202 or equivalent. (Offered jointly by the Departments of Rural Economy and Economics.) [Rural Economy]

INT D 303. *Economics of World Agriculture.* ★3 (either term, 3-0-0). A survey of world structure of agricultural production, consumption, and trade; international agricultural policies and agreements; impact of regional economic integration on agriculture; interrelation of economic development and trade in agricultural commodities. Prerequisite: ECON 201/202 or equivalent. (Offered jointly by the Departments of Rural Economy and Economics.) [Rural Economy]

INT D 356. *Sociology of Rural Life.* ★3 (either term, 3-0-0). The rural community and rural social systems, with special reference to changes in the rural way of life. Prerequisite: R SOC 355 or SOC 202 or 403 or equivalent. (Offered jointly by the Departments of Rural Economy and Sociology.) [Rural Economy]

INT D 365. *Natural Resource Economics.* ★3 (either term, 3-0-0). Economics of natural resources related to agriculture and forestry; conservation, population, resource scarcity, property and tenure institutions, economic rent and resource pricing, resource development and evaluation, environmental protection, public resource policy. Prerequisite: ECON 201 or equivalent; ECON 202 recommended. Note: Not open to students with credit in ECON 365. (Offered jointly by the Departments of Rural Economy and Forest Science.) [Rural Economy]

INT D 366. *Economics of Outdoor Recreation.* ★3 (either term, 3-0-0). Economic implications of outdoor recreation development and use with emphasis on location and time factors and consumer activities and expenditures. Benefit-cost evaluation of outdoor recreation resource use in the context of multiple land use, with public policy guidelines for privately and publicly owned recreation resources. Prerequisite: ECON 201 or equivalent; ECON 202 recommended. (Offered jointly by the Departments of Rural Economy, Economics, Forest Science and Recreation Administration.) [Rural Economy]

INT D 369. *Economics of the Environment.* ★3 (either term, 3-0-0). Economic growth and the deterioration of the environment; types and causes of environmental deterioration; theory, policy, and measurement relating to environmental deterioration; recreation economics; and current Canadian environmental topics. Prerequisite: ECON 201 or 304 or 307. (Offered jointly by the Departments of Economics and Rural Economy.) [Economics]

INT D 382. *Theory and Practice of Cooperation.* ★3 (First Term, 3-0-0). Economic and sociological principles of cooperation; the evaluation of cooperative organization; cooperative law and taxation; management and finance of cooperatives. [Rural Economy]

INT D 432. *Forest Administration and Policy.* ★3 (either term, 3-0-0). Analysis of the political, institutional and administrative factors which influence the development and implementation of forest and conservation policies in Canada, the United States, and other countries. Forest administration and organization; policy as a guideline for managerial decision making. Prerequisite: FOR 430 or equivalent. (Offered jointly by the Departments of Forest Science and Rural Economy.) [Forest Science]

INT D 456. *Rural Social Problems and Public Policy.* ★3 (either term, 3-0-0). Social problems in Canadian rural life; analysis of policy making processes related to these problems. Prerequisite: Consent of instructor; INT D 356 recommended. (Offered jointly by the Departments of Rural Economy and Sociology.) [Rural Economy]

INT D 458. *Socio-economic Development of Western Canadian Agriculture.* ★3 (First Term, 3-0-0). The economic and social origins of western Canadian agricultural development. A chronological examination of farm and political organizations and other agrarian social movements influencing the farming sector. The growth of public policy and development of the institutional framework supporting agriculture. Discussion of past and present issues in western Canadian agricultural development, including such factors as land settlement, transportation and farming support services. Prerequisite: R SOC 355 or SOC 202 or 403 or equivalent. (Offered jointly by the Departments of Rural Economy and Sociology.) [Rural Economy]

INT D 465. *Natural Resource Utilization.* ★3 (either term, 3-0-0). Economics of utilizing and conserving land, water and energy resources in Agriculture and Forestry. Prerequisite: Consent of instructor; INT D 365 recommended. [Rural Economy]

INT D 466. *Principles of Heritage Interpretation.* ★3 (First Term, 3-0-0). An examination of heritage interpretation as an expression of cultural/environmental recreational programs. Prerequisite: Consent of instructor. (Offered jointly by the Departments of Forest Science and Recreation Administration.) [Recreation Administration]

INT D 467. *Methods of Heritage Interpretation.* ★3 (Second Term, 3-0-0). Application of principles of interpretation of natural and historic resources. Focus on management techniques and development of interpretative programs. Case studies and field trip. Prerequisite: Consent of instructor; INT D 466 recommended. (Offered jointly by the Departments of Forest Science and Recreation Administration.) [Forest Science]

INT D 470. *Heritage Interpretation Field Trip.* ★3 (Spring Session, Second Term, 0-2-6). Extended field trip to examine comparatively the philosophies, approaches and applied methodologies of a diverse range of institutions and agencies engaged in the practice of heritage interpretation. Prerequisite: Consent of instructor. (Offered jointly by the Department of Forest Science and Recreation Administration). [Forest Science]

INT D 486. *Livestock and Meat Marketing.* ★3 (Second Term, 3-0-2). Marketing problems, potentials and principles studied through in-depth analysis of the red meat industry. Prerequisite: Consent of instructor. Note: Limited enrolment, preference given to fourth year agricultural students. (Offered jointly by the Departments of Rural Economy and Animal Science.) [Rural Economy]

INT D 551. *Advanced Plant Biochemistry.* ★3 (Second Term, 3-0-0). Selected topics in plant metabolism, with particular emphasis on mitochondrial electron transport, phosphorylation, and recent advances in carbon assimilation. Evaluation of current research and methods of investigation in these fields. Offered alternate years. Prerequisite: Consent of instructor; BIOCH 300 and 372 or PL SC 431 and 432 or equivalent recommended. (Offered jointly by the Departments of Botany and Plant Science.) [Plant Science]

INT D 566. *Resource Economics II: Economics of the Environment.* ★3 (either term, 3-0-0). Economic theory and policy relating to resource and environmental quality problems; welfare and public policy issues in resource decision-making; the relationships between economic growth and environmental preservation externalities and public goods; economics of pollution; recreation economics; selected Canadian environmental issues. [Economics]

34.24 Legal Relations

LEG R 310. *Commerical Law.* ★3 (either term, 3-0-0). An introduction to the Canadian legal system with emphasis on legal problems in commerical law.

34.25 Mathematics

MATH 101. *Trigonometry.* ★0 (First Term, 2-0-0). This course consists of the Trigonometry material contained in MATH 100 and is offered in the Winter Session. Prerequisite: Mathematics 20 or equivalent. Note: This course cannot be taken for credit towards a degree.

MATH 202. *Elementary Calculus I.* ★3 (First Term, 3-0-1). Review of analytic geometry, differentiation and integration of simple functions, applications. Prerequisite: Mathematics 30 or equivalent. Note: Those students who have no knowledge of trigonometry are required to take MATH 101 concurrently. This course may not be taken for credit if credit has already been obtained in any of MATH 203, 207, 212, or 245.

MATH 203. *Elementary Calculus I.* ★3 (either term, 3-0-0). This course description is the same as for MATH 202. Prerequisite: Mathematics 30, Mathematics 31 (calculus sequence), or equivalent. Students with low grades in high school calculus should take MATH 202. Note: This course may not be taken for credit if credit has been obtained already in any of MATH 202, 207, 212, or 245.

MATH 204. *Elementary Calculus II.* ★3 (either term, 3-0-0). Differentiation and integration of trigonometric, exponential and logarithmic functions. Indeterminate forms and improper integrals. Techniques of integration. Applications. Prerequisite: MATH 202 or 203, or 245 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in either of MATH 208 or 213.

MATH 240. *Algebra and Elementary Calculus I.* ★3 (either term, 4-0-0). Differential and integral calculus of algebraic, exponential and logarithmic functions with applications to problems in business and economics. Prerequisite: Mathematics 30 or equivalent. Note: This course is intended primarily for students registered in the faculties of Business Administration and Commerce, Agriculture and Forestry, and Pharmacy and Pharmaceutical Sciences. This course may not be taken for credit if credit has already been received in any of MATH 202, 203, 207 or 212. Students who have taken Mathematics 31 should take MATH 242.

MATH 242. *Algebra and Elementary Calculus I.* ★3 (either term, 3-0-0). This course covers the same material as MATH 240. Prerequisites: Mathematics 30 and Mathematics 31 or equivalent.

MATH 243. *Linear Algebra.* ★3 (either term, 3-0-0). Vector and matrix notation, solving linear equations, vector spaces, matrix algebra, determinants, and applications to economics and commerce, including linear programming, marketing problems, and input-output analysis. Prerequisite: Mathematics 30 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in any of the following: MATH 274, 278, 312, 381. This course is required for all students in Business Administration and Commerce.

34.26 Microbiology

MICRB 201. *Elementary Microbiology.* ★3 (Second Term, 3-0-3). An introduction to the microbial world, with emphasis on the general characteristics of microorganisms as affecting their relationship with man and other organisms. Note: Offered to students in Agriculture and Forestry, and as a Natural Science option to students in Arts. Not available to students in Science.

MICRB 315. *General Microbiology I.* ★3 (either term, 3-0-3). The organization, morphology and cell structure of microorganisms with emphasis on bacteria and fungi. Microbial growth and its control, aspects of medical and applied microbiology and microbial ecology will be discussed. Laboratory exercises are designed to demonstrate basic microbiological techniques as well as relevant microbial activities and functions.

MICRB 365. *General Microbiology II.* ★3 (Second Term, 3-0-3). An introduction to the metabolic and physiological activities of microorganisms with emphasis on their interaction with other microorganisms, higher plants, animals and the environment. Discussion of the mode of action of antibiotics and other metabolic inhibitors and the basic properties of viruses, virus infection and replication. Laboratory exercises are designed to introduce students to current techniques and phenomena related to the lecture material. Prerequisites: MICRB 315, BIOL 297 or GENET 351. Corequisite: BIOCH 300 (or equivalent) or consent of the Department.

34.27 Organization Theory

ORG T 303. *Behavior in Organizations.* ★3 (either term, 3-0-0). Examines the sociological and psychological bases of individual behavior in organizations. Topics of individual psychology examined will include cognition, perception, attitude formation and change, personality structure and change, and motivation. The course will also investigate the behavior of individuals in groups and organizations. In this context various aspects of group dynamics such as leadership, communication, interpersonal sensitivity, morale and satisfaction, and the formation and attainment of individual and group goals will be discussed.

34.28 Physical Education

Faculty of Physical Education and Recreation

Where possible, sections will be made available in the following courses for students *not* in the Bachelor of Physical Education degree program; however, limited space is available. All advanced (300 level) courses are available only to those students who present credit in the corresponding introductory level activity courses or, in exceptional cases, with consent of the Department.

DANCE 270 (Introduction the Modern Dance) ★3 (either term, 3-0-0).

DANCE 275 (Dance Forms) ★3 (either term, 3-0-0).

DANCE 370 (Dance Perspectives) ★3 (either term, 3-0-0).

DANCE 371 (Modern Dance Techniques) ★3 (either term, 3-0-0).

DANCE 372 (Modern Dance Composition) ★3 (either term, 3-0-0).

DANCE 376 (International Folk Dance) ★3 (either term, 3-0-0).

DANCE 47D (Dance Practicum) ★3 (Both Terms, 2-0-0).

HE ED 391 (Health Education in Secondary Schools) ★3 (either term, 3-0-0).

P ED 211 (Introduction to Basketball) ★3 (either term, 3-0-0).

P ED 212 (Introduction to Field Hockey) ★3 (either term, 3-0-0).

P ED 213 (Introduction to Football) ★3 (First Term, 3-0-0).

P ED 214 (Introduction to Ice Hockey) ★3 (either term, 3-0-0).

P ED 215 (Introduction to Soccer) ★3 (First Term, 3-0-0).

P ED 216 (Introduction to Volleyball) ★3 (either term, 3-0-0).

P ED 224 (Introduction to Wrestling) ★3 (either term, 3-0-0).

P ED 227 (Introduction to Aquatics) ★3 (either term, 3-0-0).

P ED 231 (Court Sports) ★3 (either term, 3-0-0).

P ED 232 (Curling and Bowling) ★3 (Second Term, 3-0-0).

P ED 235 (Judo and Yoga) ★3 (either term, 3-0-0).

P ED 237 (Ice Skating) ★3 (First Term, 3-0-0).

P ED 305 (Officiating) ★ (First Term, 2-0-1).

P ED 311 (Basketball Coaching) ★3 (either term, 3-0-0).

P ED 313 (Football Coaching) ★3 (First Term, 3-0-0).
P ED 314 (Ice Hockey Coaching) ★3 (either term, 3-0-0).
P ED 315 (Soccer Coaching) ★3 (First Term, 3-0-0).
P ED 316 (Volleyball Coaching) ★3 (either term, 3-0-0).
P ED 324 (Wrestling Coaching) ★3 (Second Term, 3-0-0).
P ED 325 (Intermediate Gymnastics) ★3 (either term, 3-0-0).
P ED 327 (Advanced Aquatics) ★3 (either term, 3-0-0).
P ED 328 (Synchronized Swimming) ★3 (Second Term, 3-0-0).
P ED 329 (Track and Field Coaching) ★3 (either term, 3-0-0).
P ED 401 (Sociology of Sport) ★3 (either term, 3-0-0).
P ED 402 (History of Sport and Physical Education) ★3 (either term, 3-0-0).
P ED 405 (Comparative Physical Education) ★3 (either term, 3-0-0).
P ED 427 (Principles of Aquatic Instruction) ★3 (either term, 3-0-0).
P ED 428 (Competitive Swimming) ★3 (Second Term, 3-0-0).

34.29 Physics

PHYS 203. *Introductory General Physics I. (Mechanics).* ★4 (First Term, 4-1s-3). A non calculus course in physics for students *without* Physics 30. Vectors, forces in equilibrium, linear and rotational motion, dynamics of particles, oscillations. Prerequisite: Mathematics 30. The course is intended to be taken in sequence with PHYS 207 and/or 209. Credit may be obtained for only one of PHYS 203, 205 or 212.

PHYS 205. *Introductory General Physics I (Mechanics).* ★3 (First Term, 3-0-3). Course contents same as PHYS 203 but designed for students who have taken Physics 30. Prerequisite: Physics 30; Mathematics 30. Credit may be obtained for only one of PHYS 203, 205 or 212.

PHYS 207. *Introductory General Physics II (Matter, Sound, Heat and Optics).* ★3 (Second Term, 3-0-3/2). Properties of gases, liquids and solids; wave motion and sound, heat and thermodynamics, geometrical and physical optics. Prerequisite: PHYS 203 or 205. Credit may not be obtained for both PHYS 207 and PHYS 212.

PHYS 209. *Introductory General Physics III (Electricity, Magnetism and Atoms).* ★3 (Second Term, 3-0-3/2). The nature of electricity and magnetism, AC currents, electromagnetic waves, atomic and nuclear structure. Prerequisite: PHYS 203 or 205. Credit may not be obtained for both PHYS 209 and PHYS 212.

PHYS 212. *Basic General Physics.* ★6 (3-0-3). Physics 212 utilizes some calculus. Topics include mechanical, thermal, electromagnetic and optical properties of matter; the forms and transformations of energy; introduction to the atomic theories of modern physics. Prerequisites: Physics 30; Mathematics 30. Corequisites: MATH 202, 204. Credit may be obtained for only one of PHYS 203, 205 or 212.

NOTE: § 34.30 Reserved.

34.31 Plant Science

34.31.1 PLANT SCIENCE

PL SC 215. *Introductory Plant Science.* ★3 (Second Term, 3-0-0). Climatic, soil and biological factors in relation to growth of native and crop plants. Their regional adaptability, distribution and production. Principles of crop protection and management. Formerly PL SC 300.

PL SC 600. *Plant Science Seminar.* ★1 (0-1s-0). Oral reports by individual students covering the literature on selected topics. Required of all graduate students.

34.31.2 BIOMETRICS

PL SC 500. *Statistics for Biological Research.* ★3 (First Term, 3-0-3).

34.31.3 CROP ECOLOGY AND PLANT BREEDING

PL SC 352. *Weeds and Weed Control.* ★3 (Second Term, 3-0-3). Crop-weed relationships, methods of control, herbicide properties and uses, weed identification. Other uses of plant growth regulators. Prerequisite: Biology 30 or BIOL 130.

PL SC 354. *Forage Crops.* ★3 (Second Term, 3-0-3). An introduction to the establishment, management, conservation and utilization of forages for pasture and hay. Morphological structure and varietal forms of the principal forage grasses and legumes.

PL SC 355. *Cereals and Industrial Field Crops.* ★3 (First Term, 3-0-3). A study of factors influencing the production, distribution, development, yield and quality of annual field crops.

PL SC 356. *Range Management.* ★3 (First Term, 3-0-3). Introduction to range management principles and practices: effects of grazing on plants; vegetation types; utilization and range health; range management planning.

PL SC 406. *Range Plants.* ★3 (Second Term, 3-0-3). Identification, ecology and nutritive value of plants grazed by wild and domestic ungulates on western Canadian rangelands. A plant collection is required. Prerequisite: One of PL SC 356, FOR 315, INT D 230, BOT 302 or equivalent.

PL SC 465. *Introduction to Plant Breeding.* ★3 (First Term, 3-0-0). Basic principles of crop improvement by plant breeding. Development of plant breeding methods and their relationship to the major crop species. Prerequisite: BIOL 297 or equivalent.

PL SC 470. *Physiology of Herbicidal Action.* ★3 (First Term, 3-0-0). Absorption, translocation, degradation, mechanism of action. Prerequisites: PL SC 352 and either PL SC 400 or BOT 320.

PL SC 471. *Topics in Range Management.* ★3 (First Term, 3-0-3). Discussion of topics from the literature in range management; weekend field trips. A plant collection is required. Prerequisites: PL SC 356 and PL SC 406, or equivalent.

PL SC 472. *Pasture Management.* ★3 (First Term, 3-0-3). Forage production and management practices as related to the growth and development of the plant. Pasture establishment. Floral induction and seed production. Forage crop quality and utilization. Prerequisite: PL SC 354.

PL SC 501. *Reading Project in Ecology and Crop Production.* Weight according to work done to a maximum of ★6.

PL SC 502. *Research Project in Ecology and Crop Production.* Weight according to work done to a maximum of ★6.

PL SC 503. *Topics in Plant Breeding.* ★3 (Second Term, 3-0-0). Theory and practice for special plant breeding problems. Genetic control of physiological processes and plant morphology and its relationship to yield, effect of breeding systems on plant breeding methodology, control plots, crop quality. Prerequisite: PL SC 465.

PL SC 504. *Reading Projects in Plant Breeding.* Weight according to work done to a maximum of ★6.

PL SC 505. *Research Projects in Plant Breeding.* Weight according to work done to a maximum of ★6.

PL SC 515. *Reading Projects — Forages.* Weight according to work done to a maximum of ★6. Discussion of topics from the literature on native range and cultivated pasture management. Prerequisite: PL SC 471 or PL SC 472 or equivalent.

PL SC 516. *Research Projects — Forages.* Weight according to work done to a maximum of ★6. A range of projects concerned with winter hardiness, forage quality and pasture ecology is available for study in the greenhouse, growth chambers or the forage quality lab. Suitable for graduate and undergraduate study. Prerequisites: PL SC 471 or PL SC 472, or equivalent.

34.31.4 HORTICULTURE

PL SC 341. *General Horticulture.* ★3 (Second Term, 3-0-3). Elementary course designed for those students who do not wish specialized instruction in the various phases of horticulture. A survey of horticulture, with an introduction to the theories of nutrition, modification of environment and utilization of horticultural plants. Laboratory work in propagating, cultural, and marketing procedures and in landscape horticulture.

PL SC 350. *Principles of Horticulture.* ★3 (First Term, 3-0-3). A basic course in horticulture, with special emphasis on the physiology of horticultural crops. Laboratory practice in plant identification, propagation, culture, marketing and storage of crops; their economic importance and value as foods. Also an introduction to landscape horticulture. Prerequisite: BIOL 130 or equivalent; INT D 230 recommended.

PL SC 454. *Fruit Crops.* ★3 (Second Term, 3-0-3). Prerequisite: PL SC 350 or equivalent.

PL SC 455. *Vegetable Crops.* ★3 (Second Term, 3-0-3). Prerequisite: PL SC 350 or equivalent.

PL SC 457. *Greenhouse Crops.* ★3 (Second Term, 3-0-3). Prerequisite: PL SC 350 or equivalent.

PL SC 458. *Herbaceous Ornamentals.* ★3 (First Term, 3-0-3). Classification, propagation, culture and landscape use of herbaceous ornamental plants. Prerequisite: PL SC 350 or equivalent.

PL SC 459. *Woody Ornamentals.* ★3 (First Term, 3-0-3). Identification, culture and landscape uses of trees, shrubs and ground covers. Planting design and use of landscape architectural conventions. Prerequisite: PL SC 350 or equivalent.

PL SC 460. *Landscape Architecture.* ★3 (First Term, 3-0-3). Elements and principles of design; and application to problems in landscape design.

PL SC 461. *Problems in Landscape Architecture.* ★3 (Second Term, 0-6L-0). Design problems chosen from a variety of sources to provide the opportunity to react to a number of quite different parameters. Approximately 1/3 of the problems will also involve the choice and use of plant materials. Prerequisites: PL SC 458 and PL SC 460.

PL SC 507. *Reading Projects in Horticulture.* Weight according to work done to a maximum of ★6. Library study and regular meetings for discussion.

PL SC 508. *Research Projects.* Weight according to work done to a maximum of ★6.

PL SC 509. *Selected Topics in Horticulture.* Weight according to work done to a maximum of ★6. Recent developments of special interest discussed at an advanced level.

34.31.5 PLANT PATHOLOGY

PL SC 380. *Principles of Plant Pathology.* ★3 (First Term, 3-0-3). An introduction to plant diseases; the nature of nonparasitic and parasitic causal agents such as air pollutants, temperature, viruses, bacteria, fungi, higher plants and nematodes; principles involved in disease prevention and control. Prerequisite: INT D 230.

PL SC 381. *Diseases of Field Crops.* ★3 (Second Term, 3-0-3). Diseases of grain, forage, and other field crops. Prerequisite: PL SC 380.

PL SC 382. *Diseases of Horticultural Crops.* ★3 (Second Term, 3-0-3). Diseases of potato, vegetable, fruit, and ornamental plants. Prerequisite: PL SC 380.

PL SC 385. *Forest Pathology.* ★3 (First Term, 3-0-3). An introduction to forest diseases; the nature of non-parasitic and parasitic causal agents such as air pollutants, temperature, fungi, bacteria, nematodes and higher plants; important forest tree and shrub diseases; principles involved in disease prevention and control.

PL SC 510. *Plant Virology.* ★3 (First Term, 3-0-3). Basic principles and methods dealing with morphology, purification, multiplication, mutation, and transmission of plant viruses. Prerequisite: Consent of instructor.

PL SC 511. *Reading Project.* Weight according to work done to a maximum of ★6. A written report on a selected project.

PL SC 512. *Research Projects.* Weight according to work done to a maximum of ★6.

PL SC 635. *Plant Pathogenesis.* ★3 (First Term, 3-0-0). A critical review of literature related to the physiology of diseased plants, e.g., effect on growth, disintegration of tissue, wilting, and changes in respiration. Prerequisite: Consent of instructor.

PL SC 636. *Plant Pathogenesis.* ★3 (Second Term, 3-0-0). A continuation of Plant Science 635; histological, physiological and biochemical defense mechanisms, toxins, fungicidal action. Prerequisite: Consent of instructor.

34.31.6 PLANT PHYSIOLOGY AND BIOCHEMISTRY

PL SC 400. *Physiology and Biochemistry of Crop Plants.* ★3 (Second Term, 3-0-0). Prerequisite: CHEM 250 or 350.

PL SC 431. *Plant Biochemistry.* ★3 (First Term, 3-0-3). An introduction to biochemistry. Basic biochemical similarity of all organisms. Ways of studying biochemical reactions. Natures and kinds of enzymes; qualitative aspects of rates of enzyme catalyzed reactions. Derivation of energy through degradative processes. Chemistry and metabolism of carbohydrates and fats and oils. Prerequisite: CHEM 250 or 350, or equivalent.

PL SC 432. *Plant Biochemistry.* ★3 (Second Term, 3-0-3). A continuation of Plant Science 431. Emphasis is on the utilization of energy for synthetic processes. Chemistry and biochemistry of cellular structures. Isoprenoids and steroids. Photosynthesis. Nitrogen and protein biochemistry. Enzyme kinetics. Regulation and control of chemical reactions in living organisms. Prerequisite: PL SC 431 or equivalent.

PL SC 513. *Reading Projects in Plant Physiology and Biochemistry.* Weight according to work done to a maximum of ★6.

PL SC 514. *Research Projects in Plant Physiology and Biochemistry.* Weight according to work done to a maximum of ★6.

INT D 551. *Advanced Plant Biochemistry.* ★3 (Second Term, 3-0-0). (See § 34.23.)

34.32 Poultry Science

Department of Animal Science

For courses in Poultry Science see § 34.6.2.

34.33 Psychology

NOTE: Students with credit in Psychology 202/212, or Educational Psychology 269/271 may not take Psychology 260 or 261 for degree credit. Psychology 261 replaces Psychology 237, 241 and 283.

PSYCO 260. *Basic Psychological Processes.* ★3 (either term, 3-0-0). Principles and development of perception, motivation, learning, and thinking and their relationship to the psychological functioning of the individual. This course is a prerequisite for most courses in the Department and is normally followed by PSYCO 261.

PSYCO 420. *Principles of Psychology.* ★3 (either term, 3-0-0). Basic concepts and principles of psychology. Prerequisite: Third or fourth year, or graduate standing. Note: Carries no credit for students with credit in any of PSYCO 202, 212, 237, 241, 260, 261, or 283.

34.34 Rural Sociology

Department of Rural Economy

R SOC 355. *Principles of Rural Sociology.* ★3 (either term, 3-0-0). The basic principles and concepts of sociology as they apply to the study of rural life; concepts of culture, social organization, population and ecology and social institutions are taught with rural examples. Formerly R SOC 256. Note: Open to first year students. Not open to students with credit in SOC 202.

INT D 356. *Sociology of Rural Life.* ★3 (either term, 3-0-0). (See § 34.23.)

R SOC 391. *Principles of Rural Extension.* ★3 (First Term, 3-0-0). Introduction to concepts involved in organizing and implementing effective programs for social change in rural communities. The processes by which farm and rural people learn about, try out and adopt or reject new ideas and innovations. Development of an appreciation for the multidisciplinary nature of the rural extension function. Prerequisite: Third year standing or higher.

R SOC 415. *Socio-Economic Research Techniques.* ★3 (either term, 3-0-2). Research design, language of research, sample selection, questionnaire construction, interviewing, machine tabulation, analysis, and report writing. Designed for graduate students.

INT D 456. *Rural Social Problems and Public Policy.* ★3 (either term, 3-0-0). (See § 34.23.)

INT D 458. *Socio-economic Development of Western Canadian Agriculture.* ★3 (First Term, 3-0-0). (See § 34.23.)

R SOC 491. *Planning and Evaluation of Extension Programs.* ★3 (Second Term, 3-0-0). The nature and importance of and principles involved in planning, programming, implementation, and evaluation; knowledge, skills and attitudes required of professional workers engaged in human resources development and extension work. Prerequisite: R SOC 391 or equivalent.

R SOC 556. *Human Resources Development.* ★3 (First Term, 3-0-0). The role of human resources in social and economic development. Strategies for development of knowledge; skills and attitudes desirable in the development process. Training

of change agents and lay leaders for community development and continuing education process. Prerequisite: Consent of instructor.

R SOC 557. *Comparative Rural Societies.* ★3 (Second Term, 3-0-0). The structure and characteristics of rural societies in various countries, with emphasis upon adjustment to change in social and economic institutions. Prerequisite: Consent of instructor; INT D 456 recommended.

NOTE: 34.35 Reserved.

34.36 Sociology

SOC 202. *Introductory Sociology.* ★6 (3-0-0). An analysis of the nature of society, the interrelationships of its component groups, and the processes whereby society persists and changes. Society analysed in terms of its structure, culture, and social ranking schemes. The interrelationships between the various institutions (e.g., family, church, school, government). The processes whereby the individual is socialized into society; the sources of conformist and non-conformist behavior. Note: Third-year or more advanced students are encouraged to take SOC 403 rather than 202.

SOC 403. *Principles of Sociology.* ★3 (either term, 3-0-0). Basic concepts and principles of Sociology for students with advanced standing. Prerequisite: Senior or graduate standing. Note: May not be taken for credit by students with credit in SOC 202.

34.37 Soil Science

SOILS 302. *Principles of Soil Science.* ★3 (First Term, 3-0-0). An introduction to soil components and their properties. Concepts of soil dynamics in different ecological systems. Formation and classification of major soil groups of Canada and the world. A review of world soil resources. Primarily designed for students in faculties other than Agriculture and Forestry.

SOILS 310. *Introduction to Soil Science.* ★3 (First Term, 3-0-3). Soil components; important physical and chemical properties; elementary aspects of soil formation and classification, soil biology, soil moisture and soil air. Prerequisite: A university level course in chemistry.

SOILS 316. *Soils and Man.* ★3 (Second Term, 3-0-0). Interaction of soil and man and optimum food production through suitable conservation practices. Constrictions in land use due to kinds of soils, soil fertility, soil moisture, soil erosion, soil physical factors and climate. Management of soil resources for human and animal food production under varying climatic constrictions with a review of the present and the prospects for the future. Primarily designed for students in faculties other than Agriculture and Forestry. Prerequisite: SOILS 302 or 310.

SOILS 330. *The Soil Ecosystem.* ★3 (Second Term, 3-0-0). Soil as an ecosystem; physical and chemical aspects of the soil environment; ecologically and pedologically significant aspects of soil organisms; functioning of the soil ecosystem; role of soil organisms in soil development. Prerequiste: An introductory course in Biology and SOILS 310 recommended.

SOILS 360. *Soil Management and Conservation.* ★3 (Second Term, 3-3s-0). An applied course which considers the relationship of soil properties to the use and management of soils for agriculture. Topics include soil tilth, soil water, soil temperature, soil pH, soil salinity, soil deterioration and erosion. Soil management practices including amelioration of problem soils, maintenance of organic matter and erosion control are discussed. Prerequisite: An introductory course in Soil Science. Note: Not to be taken for credit by students with credit in SOILS 312.

SOILS 401. *Research Project.* Weight according to work done to a maximum of ★6. Field and/or laboratory study under staff supervision of a specialized topic, requiring the preparation of a comprehensive report; primarily for fourth-year students. Prerequisite: Consent of the Department Chairman.

SOILS 415. *Inorganic Soil Components.* ★3 (Second Term, 3-0-3). Mineral components of soil with emphasis on weathering processes in different soil environments; influence of inorganic components on soil behavior; nature of crystalline and amorphous soil clays; significance of mineral formation in soils. Arrangement of soil components into microfabric types. Prerequsite: SOILS 302 or 310; GEOL 202 recommended.

SOILS 420. *Soil Formation and Classification.* ★3 (First Term, 3-0-3). Soil formation and classification with emphasis on environmental forces, including man's activity, as factors of soil pedogenesis. Soil Cartography purposes and methods. Soils of Canada — kinds, distribution and use. Prerequisite: An introductory course in soil science, ecology or geology.

SOILS 425. *Soil and Land Evaluation.* ★3 (Second Term, 3-0-3). Principles and techniques of soil/land evaluation including land classification based on inherent characteristics, present land use/land cover, and land capabilities for alternate land use; assessment of soil quality from morphological, chemical and physical data; use of soil survey data in agriculture, forestry and engineering. Prerequisite: SOILS 420 or equivalent.

SOILS 430. *Soil Microbiology and Biochemistry.* ★3 (Second Term, 3-0-3). Organic components of soil, and their microbial transformations. Nitrogen, phosphorus and sulphur cycles in the biosphere. Interactions between soil microflora and pesticides and other foreign materials added to soil. The microbiological factor in biogeochemistry. The laboratory is designed to introduce students to modern methods of evaluating the activity of the soil microflora. Prerequisite: MICRB 315 or equivalent.

SOILS 440. *Soil Physics.* ★3 (First Term, 3-0-3). Physical properties of soil affecting its structural, mechanical and thermal behavior and their quantitative measurements; fundamental principles and laws which govern the soil as a physical system with particular emphasis on the character, measurement and movement of soil moisture. Prerequisite: An introductory course in one of the earth sciences.

SOILS 450. *Soil Chemistry.* ★3 (First Term, 3-0-3). Mechanisms, equations and adsorption, adsorption isotherms, cation exchange capacity, variable and permanent charge, cation and anion fixation and rates of reaction, adsorption of polymers, solute transport, oxidation and reduction, flocculation and dispersion, chemistry of sodium, calcareous and acid soils, soil pollution, adsorbed water. Prerequisite: SOILS 310 or equivalent.

SOILS 460. *Soil Fertility.* ★3 (First Term, 3-0-3). Essential plant nutrients; factors influencing nutrient availability; methods of evaluating soil fertility; correction of soil fertility problems; manufacture, composition, and use of fertilizers. Prerequisite: SOILS 310 or equivalent.

SOILS 470. *Land Drainage.* ★3 (Second Term, 3-0-0). Principles of land drainage; drainage design criteria; design of surface and subsurface drainage systems; drainage investigations; current drainage practices. Prerequisite: SOILS 440 or equivalent. (Offered jointly with Department of Agricultural Engineering).

SOILS 485. *Soil Reclamation and Conservation.* ★3 (Second Term, 2-4s-0). A problem and seminar oriented course providing an opportunity for students to integrate past course experiences and to strengthen the concept of the total system approach to analysis of soil problems and management strategies. Includes examination and analysis of soil reclamation and/or management problems, preparation of a report or action plan and defence of it to several staff of the Department of Soil Science. Grade assigned on the basis of written report(s) and its (their) defense. Prerequisite: Four (4) Soil Science areas beyond SOILS 310.

SOILS 501. *Individual Study.* Weight according to work done to a maximum of ★6. Field and/or laboratory study under staff supervision of a specialized topic, requiring the preparation of a comprehensive report; for graduate students only. Prerequisite: Consent of the Department Chairman.

SOILS 502. *Individual Study.* Weight according to work done to a maximum of ★6. Description same as SOILS 501.

SOILS 503. *Individual Study.* Weight according to work done to a maximum of ★6. Description same as SOILS 501.

SOILS 504. *Individual Study.* Weight according to work done to a maximum of ★6. Description same as SOILS 501.

NOTE: Except for SOILS 600 the following courses are offered only when justified by enrolment, normally in alternate years.

SOILS 520. *Advanced Soil Classification.* ★3 (Second Term, 3-0-3). Systematics of soil classification throughout the world with special emphasis on pedogenesis, classification, distri-

bution and use of soils outside of Canada. Prerequisite: SOILS 420.

SOILS 530. *Advanced Soil Microbiology.* ★3 (First Term, 3-0-3). Microbiology of organic matter decomposition and humus formulation; microbiology of nitrogen and mineral transformations, bacteriophages, and predatory micro-organisms. Prerequisite: SOILS 430 or equivalent.

SOILS 535. *Advanced Soil Biochemistry.* ★3 (Second Term, 1.5-1.5s-3). A lecture and seminar course on special topics from the recent literature in soil biochemistry; intensive literature review and laboratory project on some aspect of the topics discussed. Prerequisite: SOILS 430.

SOILS 540. *Advanced Soil Physics.* ★3 (First Term, 3-0-3). Fundamental equations governing the flow of fluids through porous media; examination of solution techniques including physical and analogue models, analytical and numerical techniques with application to such physical processes as infiltration, moisture redistribution, drainage and evaporation. Prerequisites: An introductory course in differential calculus and a course in one of the following: soil physics, soil mechanics, or hydrogeology.

SOILS 550. *Advanced Soil Chemistry.* ★3 (Second Term, 3-0-3). More complex chemical reactions and properties of soil systems. Prerequisite: Consent of instructor.

SOILS 555. *Soil Mineralogy.* ★3 (Second Term, 3-0-3). Primary and secondary soil forming minerals; their identification, occurrence, stability, and weathering with emphasis on clay minerals. Prerequisites: SOILS 415 and 420 or equivalent.

SOILS 600. *Seminar.* ★1 (0-1s-0). Note: Attendance required of all graduate students.

SOILS 620. *Experimental Pedology.* ★3 (Second Term, 3-0-3). A review of the more important classical research contributions in the area of experimental pedology. The *scientific method* as applied to research in experimental pedology. Prerequisites: SOILS 520, 535 and 555 or equivalent.

SOILS 900. *Non-Thesis Project.* ★variable (variable). Required of all M.Ag. candidates majoring in Soil Science in the year in which they expect to obtain their degree and involving the preparation and presentation of a research report.

34.38 Statistics

STAT 241. *Introduction to Statistics.* ★3 (either term, 3-0-2). Random variables and frequency distributions. Averages and variance. The binomial and normal distribution. Sampling distributions and elementary inference. The XA Q2A test for contingency tables. Regression and correlation. Analysis of variance. Prerequisite: Mathematics 30 or consent of the Department. This course may not be taken for credit if credit has already been obtained in any of STAT 255, 335, 336, 337, 365.

STAT 337. *Biostatistics.* ★3 (either term, 3-0-1). Frequency distributions, measures of central tendency and dispersion, methods of sampling biological populations, sampling distributions, elementary inference on means and proportions, analysis of variance, regression and correlation, contingency tables. The concepts will be motivated by problems in the life sciences. Difficulties in actual applications will be stressed. Prerequisite: Mathematics 30 or consent of the department. This course may not be taken for credit if credit has already been obtained in any of STAT 241, 255, 336, 365.

34.39 Veterinary Science

Department of Animal Science

For courses in Veterinary Science see § 34.6.3.

34.40 Zoology

ZOOL 325. *Comparative Anatomy of the Vertebrates.* ★3 (First Term, 3-0-3). Comparative anatomy of the vertebrates with special emphasis on the mammals. Prerequisites: Two of BIOL 296, 297, 298 or 299, or BIOL 130 and one of BIOL 296, 297, 298 or 299 taken as a corequisite, or consent of the Department.

ZOOL 326. *Biology of the Vertebrates.* ★3 (Second Term, 3-0-3). Topics in vertebrate biology, including zoogeography, population ecology, reproduction and structural and behavioral adaptations. Prerequisite: ZOOL 325 strongly recommended, or consent of the Department.

ZOOL 466. *Boreal Ecology II.* ★3 (Second Term, 3-0-0). Terrestrial and aquatic ecosystems of the north, emphasizing special features of the environment and biotic responses. Prerequisite: BIOL 298, or consent of the Department. Note: For Boreal Ecology I see GEOG 465, 466.

ZOOL 467. *Wildlife Conservation.* ★3 (First Term, 3-0-3). Principles and concepts involved in the conservation and management of wild birds and mammals. Prerequisite: ZOOL 406 and 408, or ZOOL 404, or AN SC 351 and consent of the Department.

Faculty of Arts

41 INTRODUCTORY

41.1 Members of the Faculty

41.1.1 OFFICERS OF THE FACULTY

Dean
T. H. WHITE, Ph.D.

Associate Dean, Student Programs and Curriculum
E. REINHOLD, Ph.D.

Associate Dean, Humanities and Fine Arts
R. G. MOYLES, Ph.D.

Associate Dean, Social Sciences
S. M. M. QURESHI, Ph.D.

Assistant Dean
M. JENDYK, L.U.D.

Assistant Director, Student Programs
R. J. MIDDLEDITCH, B.A.

Administrative Officers
P. A. ROBISON, B.A.
(Assistant to the Dean)
V. A. STOBEE, B.Ed.
(Student Programs)
S. McLEAN-BOWERS, B.A. (Faculty Secretary)

41.1.2 DEPARTMENT OF ANTHROPOLOGY

Associate Professor and Chairman
C. G. HICKEY, Ph.D.

Professors
H. B. BARCLAY, Ph.D.
A. L. BRYAN, Ph.D.
R. DARNELL, Ph.D.
A. D. FISHER, Ph.D.
R. GRUHN, Ph.D.
H. T. LEWIS, Ph.D.

Associate Professors
M. I. ASCH, Ph.D.
D. H. BAI, Ph.D.
L. M. FEDIGAN, Ph.D.
D. LUBELL, Ph.D.
C. E. SCHWEGER, Ph.D.
C. R. WILSON, Ph.D.
D. E. YOUNG, Ph.D.

Assistant Professors
O. B. BEATTIE
M. M. YOUNG, Ph.D.

Administrative Officer
S. M. SHAW

41.1.3 DEPARTMENT OF ART AND DESIGN

Professor and Chairman
D. H. HAYNES, Dip. A.C.A.

Professors
R. A. DAVEY, B.A.
J. A. FORBES, M.A.
W. JUNGKIND, Nat.Dip.
R. SILVESTER, A.R.C.A. (Lond), A.T.D.
R. W. SINCLAIR, M.A.
E. N. YATES, A.O.C.A.

Associate Professors
P. F. BARTL, Dip. A.G.S.
B. B. BENTZ, M.F.A.
L. D. CANTINE, M.A.
P. N. DARRAH, Dip. F.A.
G. J. B. EGLER, M.Sc.
N. O. FIERTEL, M.F.A.
J. FRASCARA, Dip. A.T., Post Dip.
J. V. FREEMAN, M.V.A.
M. L. GRAYSON, M.A.
P. HIDE, Dip. A.D., Post Dip.
W. W. JULE, M.F.A.
J. KNOWLTON, M.A.
L. J. OSBORNE, M.F.A.
G. S. PEACOCK, Dip. A.D., Post Dip.
J. A. SYBESMA-IRONSIDE, Ph.D.

Assistant Professors
V. C. CHAN, M.A.
R. J. CHENIER, M.V.A.
M. L. KOSINSKI, M. Phil.

41.1.4 DEPARTMENT OF CLASSICS

Professor and Chairman
R. C. SMITH, Ph.D.

Professors
R. E. BRAUN, Ph.D.
R. J. BUCK, Ph.D.
D. FISHWICK, D.Litt.
R. M. NIELSEN, Ph.D.
A. M. SMALL, D.Phil.
J. R. WILSON, Ph.D.

Associate Professor
K. A. GARBRAH, Dr.Phil.

Assistant Professor
T. N. BALLIN, Ph.D

41.1.5 DEPARTMENT OF COMPARATIVE LITERATURE

Professor and Chairman
E. D. BLODGETT, Ph.D.

University Professor
H. KREISEL, Ph.D.

Professors
M. V. DIMIC, Dip.
J. FERRATE, Lic. en Let.
E. MOZEJKO, Ph.D.

Associate Professors
S. H. ARNOLD, Ph.D.
U. MARGOLIN, Ph.D.
P. A. ROBBERECHT, M.A.

Administrative Officer
I. A. BROWN

41.1.6 DEPARTMENT OF DRAMA

Professor and Chairman

J. H. McTEAGUE, Ph.D.

Professors

F. F. BUECKERT, M.A.
J. V. DeFELICE, M.A.
W. A. MEILEN, L.T.C.L.
J. OGG, M.A.
G. B. PEACOCK, M.F.A.
C. T. PEACOCKE, M.F.A.
J. B. TARVER, B.F.A., M.A.
J. H. TERFLOTH, Ph.D.

Associate Professors

D. BARNET, R.B.T.C.
B. CURRAH
M. JENDYK, L.U.D.
M. J. MURDOCK, Ph.D.
G. PERKS, L.G.S.M.
W. C. SEIBERT

Assistant Professors

J. DIX-HART, M.A.
J. A. HAWKINS, Ph.D.
D. L. LOVETT, N.D.D.

Professional Officer

C. HARPER, A.B.

Administrative Officer

T. DAVISSON, B.A.

41.1.7 DEPARTMENT OF ECONOMICS

Professor and Chairman

B. L. SCARFE, D.Phil.

Professors

A. BUSE, Ph.D.
R. P. CIRILLO, M.Sc.
W. D. GAINER, Ph.D.
K. L. GUPTA, Ph.D.
I. MORAVCIK, Ph.D.
K. H. NORRIE, Ph.D.
T. L. POWRIE, D.Phil.
V. SALYZYN, Ph.D.
B. von HOHENBALKEN, Dr.Pol.
B. W. WILKINSON, Ph.D.

Associate Professors

J. J. DELEHANTY, B.Sc.
S. E. DRUGGE, Ph.D.
D. W. GILLEN, Ph.D.
A. W. JENKINS, Ph.D.
S. D. LEWIS, Ph.D.
M. L. McMILLAN, Ph.D.
M. S. NOORZOY, Ph.D.
R. A. PENDERGAST, Ph.D.
M. B. PERCY, Ph.D.
E. H. SHAFFER, Ph.D.
S. SHARIR, Ph.D.
L. S. WILSON, Ph.D.

Assistant Professors

B. G. DAHLBY, Ph.D.
M. G. J. HELLSTEN, M.A.
C. C. NUNN, M.Sc.
T. TSUSHIMA, Ph.D.

Joint Appointments With Business Administration and Commerce

R. BECK, Ph.D.
R. MIRUS, Ph.D.
G. B. RESCHENTHALER, Ph.D.
R. S. SMITH, Ph.D.

Joint Appointment with Health Services Administration

R. H. M. PLAIN, Ph.D.

Joint Appointments with Rural Economy

M. R. CARROLL, Ph.D.
T. S. VEEMAN, Ph.D.
A. A. WARRACK, Ph.D.

Administrative Officer

J. M. McDONALD

41.1.8 DEPARTMENT OF ENGLISH

Professor and Chairman

R. F. ANDERSON, Ph.D.

Professors

R. F. AYLING, Ph.D.
R. G. BALDWIN, Ph.D. (Vice-President, Academic)
D. E. BESSAI, Ph.D.
J. W. BILSLAND, Ph.D.
L. W. CONOLLY, Ph.D.
B. N. DE LUNA, Ph.D.
C. Q. DRUMMOND, Ph.D.
J. F. FORREST, Ph.D.
R. J. S. GRANT, Ph.D.
H. A. HARGREAVES, Ph.D.
R. T. HARRISON, Ph.D.
J. F. LAUBER, Ph.D.
G. S. McCAUGHEY, M.A.
J. S. McMASTER, Ph.D.
R. D. McMASTER, Ph.D.
R. G. MOYLES, Ph.D.
J. O. ORRELL, Ph.D.
N. A. PAGE, Ph.D.
A. H. QURESHI, Ph.D.
E. J. ROSE, Ph.D.
S. ROSE, Ph.D.
M. L. ROSS, Ph.D.
S. A. C. SCOBIE, Ph.D.
R. G. SIEMENS, Ph.D.
R. H. WIEBE, M.A.
R. R. WILSON, Ph.D.

Associate Professors

B. L. ALMON, Ph.D.
D. F. BARBOUR, Ph.D.
C. J. BULLOCK, Ph.D.
P. CLEMENTS, D.Phil.
J. D. W. CROWTHER, Ph.D.
L. T. FITZ, Ph.D.
C. GORDON-CRAIG, Ph.D.
R. HOFFPAUIR, Ph.D.
D. A. JACKEL, Ph.D.
G. D. KELLY, D.Phil.
M. R. LEGRIS, Ph.D.
J. A. MacINTYRE, Ph.D.
L. N. McKILL, Ph.D.
R. J. MERRETT, Ph.D.
J. M. NELSON, Ph.D.
N. J. PARKER-JERVIS, B.A., Dip.Ed.
F. L. RADFORD, Ph.D.
S. REES, Ph.D.
R. H. SOLOMON, Ph.D.
S. E. STAMBAUGH, Ph.D.
J. C. STOTT, Ph.D.
W. G. WATSON, Ph.D.
M. A. WHITAKER, Ph.D.
M. D. WILKIE, Ph.D.

Assistant Professors

F. D. CLANDFIELD, M.A.
P. A. DEMERS, Ph.D.
G. A. F. HOLLINGSHEAD, Ph.D.
J. G. MARINO, Ph.D.

B. J. MITCHELL, Ph.D.
S. C. NEUMAN, Ph.D.
E. W. PITCHER, Ph.D.
G. SAMUEL, Ph.D.

Administrative Officer
M. A. DAVISON

41.1.9 DEPARTMENT OF GERMANIC LANGUAGES

Professor and Chairman
G. MARAHRENS, Ph.D.

Professors
R. J. E. d'ALQUEN, Ph.D.
E. EGERT, Ph.D.
A. PRELORENTZOS, Ph.D.
E. REINHOLD, Ph.D.

Associate Professors
C. S. HALE, Ph.D.
H. A. PAUSCH, Ph.D
M. PROKOP, Ph.D.
R. G. WHITINGER, Ph.D.

41.1.10 DEPARTMENT OF HISTORY

Associate Professor and Chairman
R. C. MACLEOD, Ph.D.

Professors
F. D. BLACKLEY, Ph.D.
F. A. de LUNA, Ph.D.
B. L. EVANS, Ph.D.
R. R. HETT, Ph.D.
H. J. JONES, Ph.D.
W. J. JONES, Ph.D.
H. P. LIEBEL-WECKOWICZ, Ph.D.
G. A. ROTHROCK, Ph.D.
I. L. RUDNYTSKY, Ph.D.
A. THIMME, D.Phil.
L. H. THOMAS, Ph.D.
U. TRUMPENER, Ph.D.

Associate Professors
O. P. DICKASON, Ph.D.
D. H. DINWOODIE, Ph.D.
J. A. EAGLE, Ph.D.
J. E. FOSTER, Ph.D.
D. J. HALL, Ph.D.
R. HAMOWY, Ph.D.
D. C. JOHNSON, Ph.D.
M. KATZ, Ph.D.
D. J. MOSS, D.Phil.
K. J. MUNRO, Ph.D.
S. R. MUNRO, M.A.
D. R. OWRAM, Ph.D.
P. E. PRESTWICH, Ph.D.
C. M. SMALL, B.Litt.
B. M. SMITH, Ph.D.
K. C. TAYLOR, Ph.D.
J. N. WICKENDEN, Ph.D.

Assistant Professors
D. L. LIGHTNER, Ph.D.
C. S. MACKINNON, Ph.D.
K. OHTA, M.A.
W. R. SAMPSON, M.A.
H. E. WILSON, Ph.D.

Administrative Officer
B. A. FLORCHYK

41.1.11 DEPARTMENT OF MUSIC

Professor and Chairman
R. A. STANGELAND, D.M.A.

Professors
M. BOWIE
H. F. BRAUSS
A. B. CRIGHTON, D.M.A.
L. V. FISHER, M.Mus.
M. D. FORSYTH, D.Mus.
C. E. KENNESON, M.Mus.
G. KRAPF, M.Mus.
E. B. LEJANO, D.M.A.
G. E. LINCOLN, L.R.S.M.
A. M. MUNN, Dip. (Juilliard)
R. N. NELSON, Dip. R.C.M. (Lond.)
M. SASONKIN, Ph.D.

Associate Professors
L. D. COOK, Ph.D.
A. J. FISHER, Ph.D.
B. L. HARRIS, Ph.D.
F. C. PIER, D.M.A.
M. T. ROEDER, Ph.D.
A. STROMBERGS, A.R.C.T.
H. H. WIENS, Dip. (DETMOLD)

Assistant Professors
E. R. DALWOOD, A.Mus.
J. L. MOORE, L.R.S.M.
A. J. ORD, D.M.A.

Lecturer
W. P. BERG, Ph.D.

Joint Appointments
E. H. FILIPKOWSKI, M.A.
A. A. SMITH, D.M.A.

Librarian
J. WHITTLE, B.L.S.

Administrative Officer
J. A. BRAY, M.Mus.

41.1.12 DEPARTMENT OF PHILOSOPHY

Associate Professor and Chairman
J. C. MacKENZIE, M.Litt.

Professors
R. N. BOSLEY, Ph.D.
J. KING-FARLOW, Ph.D.
P. A. SCHOULS, Ph.D.
R. A. SHINER, Ph.D.
H. TENNESSEN, Magister
F. P. van de PITTE, Ph.D.

Associate Professors
A. A. CARLSON, Ph.D.
F. M. CHRISTENSEN, Ph.D.
W. E. COOPER, Ph.D.
W. EASTMAN, Ph.D.
F. J. PELLETIER, Ph.D.
M. M. van de PITTE, Ph.D.

Assistant Professors
B. A. HUNTER, Ph.D.
B. LINSKY, Ph.D.
W. D. SHARP, Ph.D.

41.1.13 DEPARTMENT OF POLITICAL SCIENCE

Professor and Chairman
R. E. McKOWN, Ph.D.

University Professor
L. C. GREEN, LL.D.

Professors
F. C. ENGELMANN, Ph.D.
J. P. MEEKISON, Ph.D.
T. C. POCKLINGTON, Ph.D.
S. M. M. QURESHI, Ph.D.

Associate Professors
R. E. BAIRD, Ph.D.
D. J. C. CARMICHAEL, Ph.D.
L. H. CRAIG, Ph.D.
G. DACKS, Ph.D.
R. R. GILSDORF, Ph.D.
F. G. HULMES, Ph.D.
J. P. JOHNSTON, M.A.
J. A. LEJNIEKS, Ph.D.
J. W. LIGHTBODY, Ph.D.
J. K. MASSON, Ph.D.
M. E. MOTE, Ph.D.
L. R. PRATT, Ph.D.
G. STEVENSON, Ph.D.

Assistant Professors
D. B. DEWITT, Ph.D.
E. P. MURRAY, M.A.
A. TUPPER, Ph.D.

41.1.14 DEPARTMENT OF PSYCHOLOGY

Professor and Chairman
T. M. NELSON, Ph.D.

Professors
C. M. BOURASSA, Ph.D.
D. W. CURTIS, Ph.D.
L. V. DI LOLLO, Ph.D.
E. HOWARTH, Ph.D.
W. W. ROZEBOOM, Ph.D.
B. G. RULE, Ph.D.
S. J. RULE, Ph.D.
W. N. RUNQUIST, Ph.D.
P. SWARTZ, Ph.D.
T. E. WECKOWICZ, Ph.D.

Associate Professors
C. H. BECK, Ph.D.
E. H. CORNELL, Ph.D.
D. W. CURTIS, Ph.D.
A. R. DOBBS, Ph.D.
M. E. ENZLE, Ph.D.
D. L. KUIKEN, Ph.D.
E. C. LECHELT, Ph.D.
D. G. PERRY, Ph.D.
P. A. RUNQUIST, Ph.D.
B. K. SINHA, Ph.D.
D. SPEARMAN, Ph.D.
R. E. WALLEY, Ph.D.
K. V. WILSON, Ph.D.

Assistant Professors
J. H. BISANZ, Ph.D.
W. F. EPLING, Ph.D.
A. R. FRIEDMAN, Ph.D.
D. S. GRANT, Ph.D.
D. C. HETH, Ph.D.
G. L. WELLS, Ph.D.

Administrative Officer
J. A. BROWNE, Ph.D.

Research Associate
T. H. NILSSON, Ph.D.

41.1.15 DEPARTMENT OF RELIGIOUS STUDIES

Associate Professor and Chairman
K. D. PRITHIPAUL, Ph.D.

Professor
P. JOSEPH CAHILL, S.T.D.

Associate Professors
M. WAIDA, Ph.D.
E. H. WAUGH, Ph.D.

Assistant Professor
M. A. MORGAN, M.A.

Joint Appointment with Anthropology
M. M. YOUNG, Ph.D.

41.1.16 DEPARTMENT OF ROMANCE LANGUAGES

Associate Professor and Chairman
J. A. CREORE, M.A.

Professors
A. B. CONNELL, D.U.
C. A. DIMIC, Ph.D.
J. FERRATE, Lic. en Let.
A. M. FORCADAS, Ph.D.
P. A. R. MONOD, Doct. T.C.
C. H. MOORE, D.U.
R. G. MOTUT, Ph.D.
D. MUSACCHIO, Doct. T.C.
B. L. ROCHET, Ph.D.
R. W. F. WILCOCKS, Ph.D.

Associate Professors
J. E. ALGEO, Ph.D.
M. G. BADIR, Ph.D.
A. J. BALLAH, M.A.
M. L. BAREAU, Doct. T.C.
N. E. BONVALET, Doct. T.C.
R. C. BONVALET, Doct. T.C.
C. K. A. COLTER, B.A.
J. M. DUCIAUME, M.A.
D. P. FEARON, M.A.
A. J. HOLDEN, M.A.
D. J. LANGDON, Ph.D.
E. MARXHEIMER, M.A.
E. MUSACCHIO, Dott. Fil.
P. A. ROBBERECHT, M.A.
R. S. THORNBERRY, Ph.D.
R. A. YOUNG, Ph.D.

Assistant Professors
M. KALINOWSKY, M.A.
P. L. KNIGHT, M.A.
L. K. PENROD, Ph.D.
J. VARELA, B.A.
M. VERDICCHIO, M.Phil.

Administrative Officer
J. K. PANTELUK, B.A.

41.1.17 DEPARTMENT OF SLAVIC LANGUAGES

Associate Professor and Chairman
T. M. S. PRIESTLY, Ph.D.

Professors
E. MOZEJKO, Ph.D.
Y. SLAVUTYCH, Ph.D.
O. ZUJEWSKYJ, Ph.D.

Associate Professors
R. L. BUSCH, Ph.D. (Director, Division of East European Studies)
T. R. CARLTON, Ph.D.
K. T. HOLDEN, Ph.D.
B. MEDWIDSKY, Ph.D.

Assistant Professor
P. A. ROLLAND, Ph.D.

Joint Appointment
A. HORNJATKEVYC, Ph.D.

41.1.18 DEPARTMENT OF SOCIOLOGY

Associate Professor and Chairman
R. A. SILVERMAN, Ph.D.

Professor Emeritus
G. NETTLER, Ph.D.

Professors
B. R. ABU-LABAN, Ph.D.
C. CALDAROLA, Ph.D.
A. K. DAVIS, Ph.D.
J. FORSTER, Ph.D. (Dean of Graduate Studies)
J. C. HACKLER, Ph.D.
T. F. HARTNAGEL, Ph.D.
G. K. HIRABAYASHI, Ph.D.
C. W. HOBART, Ph.D.
P. KRISHNAN, Ph.D.
K. J. KROTKI, Ph.D.
L. E. LARSON, Ph.D.
A. J. MATEJKO, Ph.D.
N. STEHR, Ph.D.
T. H. WHITE, Ph.D. (Dean of Arts)

Associate Professors
S. M. ABU-LABAN, Ph.D.
K. R. CUNNINGHAM, B.A.
G. F. N. FEARN, Ph.D.
J. W. GARTRELL, Ph.D.
M. W. GILLESPIE, Ph.D
W. A. HARRELL, Ph.D.
G. K. JARVIS, Ph.D.
R. JUNG, Ph.D.
L. W. KENNEDY, Ph.D.
W. W. McVEY, Jr., Ph.D
W. A. MELOFF, Ph.D.
A. S. A. MOHSEN, Ph.D.
R. S. PANNU, Ph.D.
J. A. SARAM, Ph.D.
E. L. SNIDER, Ph.D.
R. A. SYDIE, Ph.D.
J. R. YOUNG, M.Ed.

Assistant Professors
J. A. GOLEC, Ph.D.
L. A. HAYDUK, Ph.D.
G. S. LOWE, Ph.D.
H. C. NORTHCOTT, Ph.D.
W. D. PIERCE, Ph.D.

Lecturer
J. J. CREECHAN, M.A.

Professional Officer
K. W. SPENCE

41.2 Important Deadlines and General Information

41.2.1 THE FACULTY OF ARTS

The Faculty of Arts is, with the Faculty of Science, the oldest established faculty at The University of Alberta, instruction in Arts and Science having begun in 1908. It offers instruction in the humanities, the social sciences, and the fine arts.

The Faculty offers a variety of programs leading to the degree of B.A. (Honors), B.A. (Special) [including Asian Studies], B.A. (Canadian Studies) and B.A. (General) [a three-year program]. Regulations governing Honors, General, and Special programs will be found in § § 43.1.1 to 43.1.9 followed by descriptions of these programs under subject headings in § § 43.2 to 43.23.

In addition, the Faculty offers specialized degrees in Art and Design, and in Drama (Bachelor of Fine Arts) described in § § 43.1.11 and 43.1.12, and in Music (Bachelor of Music), described in § 43.1.13.

41.2.2 FACULTÉ SAINT-JEAN

A number of Arts courses are also offered in French at Faculté Saint-Jean. Faculté Saint-Jean was founded in 1908 and became an integral part of the University in 1970. Faculté Saint-Jean allows students of French extraction to pursue their university studies in a French environment and gives other students the opportunity to benefit from this environment. The University thus hopes to foster French culture in Alberta and to allow more students to master the two official languages of Canada. For further information, consult the calendar of Faculté Saint-Jean § § 171 to 228.

41.2.3 IMPORTANT DEADLINES

(a) *Admission to the University:*

All programs except BFA: September term: July 2nd; January term: Dec. 1st.

Non-matriculated adults: September term: June 1st; January term: Oct. 1st.

Students are not normally admitted to B.Mus. or B.F.A. programs in January.

B.F.A. (Drama) Acting or Design: April 1st; B.F.A. (Art and Design): May 1st.

Note: Fine Arts or Music program students must also apply to the department concerned. Students seeking admission to music "performance" courses must apply for audition by August 4.

(b) *Transfer to the Faculty of Arts from another faculty in the University:*

For September admission: August 14th; for January admission: December 1st. First year students who registered in September in another faculty may not transfer for January admission, but will be considered for admission to the following session.

(c) *Advance Registration:*

Continuing students in B.A., B.F.A., or B.Mus. programs: April 30th.

Transfer to Honors, B.F.A. or B.Mus. programs within the Faculty: June 4th.

First year students or transfers from other faculties or universities must register in person in September (but note admission deadlines, above).

On campus evening credit or late afternoon classes: Aug. 12th.

(d) *Withdrawal from University:*

Formal notice is required. See § 15.2.5 of the University Regulations and information for Students Calendar for fee assessment.

(e) *Addition of courses to a student's program or changing from 'audit' to 'credit':*

Full session and First Term courses: Sept. 17th; Second Term courses: Jan. 11th.

(f) *Dropping courses from a student's program or changing from 'credit' to 'audit'.*

First Term courses: Nov. 12th; Full session courses: Feb. 12th; Second Term courses: Mar. 1st.

(g) *Application for regular supplemental or deferred final examinations:*

To be written August 4-8th: July 3rd; to be written after First Term: Mar. 17th.

(h) *Application to receive a degree:*
At Spring Convocation: December 15th; at Fall Convocation: September 30th.

(i) *Readmission after a failed year:*
Notification to Faculty and to Student Counselling Services that readmission for fall session is being sought: July 15th.

Note: Normally one year must elapse before readmission will be considered.

42 FACULTY REGULATIONS

42.1 Admission

The normal admission requirements of the Faculty of Arts will be found in § 13.4 of the University Regulations and Information for Students Calendar.

Language Requirement: A student admitted to any program in the Faculty of Arts, other than a B.F.A. program, must either present senior matriculation standing or equivalent in a language other than English or take such a course during the first year as part of the program. The decision as to whether or not the course will be accepted for degree credit rests with the Dean and depends on the nature of the deficiency.

Non-matriculated Applicants: Adult applicants (normally age twenty-one and over) who lack formal matriculation may seek special permission to enroll for a degree in the Faculty of Arts. Each application will be considered on its own merits by the Dean of the Faculty. Applicants must be residents of Alberta, the Yukon or the North West Territories who are citizens of Canada or Permanent Residents (Landed Immigrants). Successful completion of the normal first year of the B.A. program will stand in lieu of matriculation. An adult applicant who fails half, or more than half, of the five first-year courses, will be required to withdraw and must complete matriculation requirements before being considered for readmission. Interested applicants should submit an application form to the Registrar's Office before June 1st for September admission, and will normally be required to take tests administered by Student Counselling Services. All successful candidates for non-matriculated adult admissions will be required to include one course at the '100' level in a language other than English in their degree programs, if they have not already completed such a course at the matriculation level. (Note: The applicant may elect to complete the required language at the matriculation level, but not for degree credit.)

English Language Proficiency: All applicants for admission to the Faculty of Arts will be required to demonstrate proficiency in both written and spoken English, as a prerequisite to admission. This requirement pertains regardless of country of origin or citizenship status. The demonstration of proficiency may take one of several forms as described in § 14.3 of the University Regulations and Information for Students calendar. In the event that the Test of English as a Foreign Language [TOEFL] is the only appropriate means of meeting this requirement, the applicant must obtain a score of at least 600 in order to qualify for admission.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building, University of Alberta.

Transfer from other faculties in the University: Any student in good standing in his or her past year's work in another faculty of The University of Alberta may transfer to the Faculty of Arts for the regular academic session by submitting a re-enrolment form to the Registrar's office (the deadline for re-enrolment may be found in the academic schedule at the front of this calendar). Advanced credit for course work already taken which is applicable to the Arts program will be given. Transferring students will be required to clear any matriculation deficiencies specific to the Faculty of Arts. This may be done by taking a suitable course, or courses, at the junior level. The student must register in these courses in the first year in the Faculty. Credit will be given for any one course taken to clear a specific matriculation deficiency, provided the transferring student already has clear matriculation to another faculty of the University and that the seven junior courses limit is not exceeded. Additional deficiencies must be cleared without credit.

Students with unsatisfactory standing in their past year's work in another faculty may be required to obtain a recommendation from Student Counselling Services before their application for transfer will be considered.

Transfer at mid-year (January) can be accepted only under special circumstances. Students who make a decision to transfer after the deadline for re-enrolment has passed should contact the Faculty of Arts office for advice. Even though formal transfer cannot be approved, changes in program can sometimes be arranged to maximize transferable credits for later use.

42.2 Registration and Changes of Registration

(1) *Registration and Changes of Registration.* The Faculty makes every effort to ensure that program requirements are being met by the courses in which a student is registered. However, the responsibility for completeness and accuracy of registration rests with the student, and students must satisfy themselves that their programs are in accordance with degree specifications (both at the time of registration and when changes of registration are made).

(2) *Changes of registration.* Adding of courses, dropping of courses, and changing from credit to audit and audit to credit, must be done within specified deadlines (§ 41.2.3) and on appropriate forms which can be obtained from the Faculty office.

NOTE: A student planning to drop all his/her courses in a term or session, must use the "Notice of Withdrawal" form (see § § 15.2.5 of the University Regulations and Information for Students calendar).

(3) *Failure to "drop" a course.* Students who do not formally withdraw from a course but who are absent from the final examination without excuse (see § 16.3.2 of the University Regulations and Information for Students Calendar) will be given a mark of zero (0) on

the final examination. The final grade in the course will then be determined by combining the appropriately weighted term grade and the assigned zero in the final examination, the mathematical result rounded to the lowest whole number. If the student is absent without excuse from the final examination and no grade for term work is available, a grade of absent failed (ABF) will be assigned. In establishing a student's grade point average, a grade of ABF is averaged as a grade of 1.

42.3 Classification and Selection of Courses

(1) Students beginning a B.A. (General), B.A. (Special), or B.A. (Canadian Studies) program in September 1979 and thereafter, will be required to include a course from each of the following categories in their program: Laboratory Science, Fine Arts, Humanities, and Social Sciences. For the purpose of this requirement, courses offered by the Faculty of Arts and Faculty of Science are categorized as follows:

(a) *Laboratory Science courses:* All laboratory courses offered by the Faculty of Science, which have the standard complement of lecture and laboratory hours, i.e., (3-0-3), plus Anthropology 390.

(i) *Full-Session courses:* Biology 130; Cartography 341; Chemistry 100, 200, 202, 250; Genetics 351 (a student may not receive degree credit for both Genetics 351 and Biology 297); Physics 240; Statistics 255.

(ii) *Single-Term courses:* Biology 210, 296, 297, 298, 299; Botany 314, 322, 331, 332, 341; Computing Science 214, 215, or 261, 262, or 351, 352; Entomology 207 or 209 (not both); Genetics 375, 380; Geography 230, 231; Geology 202, 203, or 390, 391; Linguistics 304, 307, 308; Microbiology 201, 315; Paleontology 418, 419; Physics 203, 205, 207, 209, 369; Psychology 360, 366, 475, 476. Note: Students with matriculation standing in a subject may not take the '100' level course in that subject for degree credit. Students with Physics 30 standing may not take Physics 203 for degree credit.

(b) *Fine Arts:* Classics 367/368 and all courses offered by the Departments of Art and Design, Drama and Music.

(c) *Humanities:* Courses offered in the following disciplines: Arabic; Chinese; Classics 201, 202, 260, 351, 357, 359, 360, 375, 379, 380, 481, 482, 483, 484, 485, 486, 498, 499; Christian Theology; Comparative Literature; English (the junior courses do not meet the requirement); French and French-Canadian; German; Greek; Hebrew; Hispanic Languages and Literatures; History (also classified under social sciences, but can only be counted in one or other category); Italian; Japanese; Latin; Old and New Testament Literature; Philosophy; Polish; Religious Studies (except courses listed under social sciences); Russian; Scandinavian; Slavics; Ukrainian.

(d) *Social Sciences:* Courses offered in the following disciplines: Anthropology; Classics (except courses listed under fine arts and humanities); Economics; Geography (except courses listed in the Faculty of Science offerings); German 306, 307, 406, 407; History (also listed under humanities, see note above); Linguistics (except courses listed in the Faculty of Science offerings); Political Science; Pyschology (except courses listed in the Faculty of Science offerings); Religious Studies 310, 322, 374, 375, 390, 460, 462; Romance Linguistics; Russian 453, 454, 511, 512; Slavics 301, 302, 403, 405, 407, 420, 421, 518, 522, 541, 542, 561, 562, 650; Sociology; Ukrainian 453, 511, 517.

(2) *Free Options* (courses from outside the Faculties of Arts and Science). Students registered in programs in the Faculty of Arts will normally select their courses from those set out in the combined calendar of Arts and Science. However, after satisfactory completion of his/her first year a student in the B.A. (Honors) program, B.A. (General) program, the B.A. (Special) program, or the B.A. in Canadian Studies may take up to two courses (as options) in faculties other than Arts and Science. In exceptional circumstances a third such course may be taken with approval of the Dean. These courses, when taken for credit toward the B.A. degree, are subject to the following restrictions:

(a) The courses must not duplicate, in central content, courses in the Faculties of Arts and Science.

(b) The courses may not be used to satisfy the requirements of a junior English course or the requirements set forth under 43.2(1) above.

(c) The courses may not be used to meet the requirements of a subject of concentration.

(d) Their inclusion in a program is subject to Faculty limitations on the number of junior courses and Science courses that may be offered for credit and the permissible number of courses in a subject of concentration.

(e) The courses must, in each case, carry a minimum weight of three (★3).

(f) Registration in these courses must be approved by the faculty in which they are offered.

(g) A grade of 4 in a prerequisite course represents the minimum requirement for admission to a course with a prerequisite requirement.

(3) *Single-term courses.* A number of courses are offered in one term only; two such courses are recognized as the equivalent of one full-session course. Where the curriculum requires a full-session course in a particular subject or classification, both single-term courses must be chosen from that subject or classification; where the requirement is for an option, any two single-term courses may be combined to meet the requirement.

(4) *Restricted Enrolment Courses:* The Faculty of Arts strives to accommodate all students wishing to enrol in a given course when it is appropriate to the student's program. However, classes in some courses must, for academic reasons, be restricted in size. Such courses will be labelled 'restricted enrolment' courses in the timetable. If such a course is found to be oversubscribed, students whose programs do not require that course may be required to delete it from their registration.

42.4 Credit by Special Assessment

A student admitted to a degree program in the Faculty of Arts, may receive degree credit in a limited number of courses for knowledge or skill obtained in a non-university context or by private study. "Non-university context" may include work completed at institutions not accredited for degree purposes or may refer to periods of work experience that bear rela-

tionship to university courses. The following conditions apply:

(1) *Non-university context:* a student may apply for credit on this basis, following admission to a degree program.

(2) *Private study:* a student who has been admitted to a degree program and has successfully completed at least one academic year of work (four or five full-course equivalents) may apply for credit on this basis.

(3) *Number of courses allowed:* Normally only two full-course equivalents obtained by special assessment may be applied to a degree program in the Faculty of Arts. In exceptional circumstances on the recommendation of a department chairman, the Dean may permit additional credits by special assessment.

(4) *Limitations:*

(a) A student seeking credit in a prerequisite to a course in which advanced placement has been given, must make application for credit by special assessment no later than the last day for course registration in the term in which the advanced course is being taken and must complete the requirements for assessment within the prescribed three months.

(b) Except under the special circumstances specified in (3) above, a student is restricted in the number of attempts to obtain credit by special assessment to a maximum of two full-course equivalents.

NOTE: This limits the number of courses that may be challenged, regardless of results.

(5) *Timing of assessments (deadlines):* The deadline for completion of the examination or assessment, is three months from the date of application for credit by special assessment. Unless there are extenuating circumstances, a student who fails to complete assessment requirements by the specified deadline, will be considered to have cancelled his/her application and will have to re-apply should he/she wish to complete that assessment. [see (4) above]

(6) *Courses not accepted:* Graduate courses and Honors courses (i.e., those open only to Honors students and specified as such in the calendar) and normally, "100 level" courses and courses previously audited, cannot be attempted by Special Assessment.

(7) *Transfer of "credit by special assessment":* A student who has obtained credits by special assessment (or similar means) while enrolled in another university, college, faculty or school, will be given advance credit in such courses only to the extent that the Faculty of Arts accepts such courses in its degree programs. [see also (3) above]

(8) *Grades assigned to special assessment courses:* The results in a course attempted by special assessment, will be recorded either as a grade point or as a pass/fail at the discretion of the department giving the test. A student may not appeal the results in a course attempted by special assessement.

(9) *Failure:* A course attempted by special assessment and failed, will be recorded on the transcript of the student concerned and will be computed into his or her academic record.

(10) *Expunging a failed grade from the record:* A failed grade in a course attempted by special assessment, may be expunged from a student's record, when this is applicable, if that student subsequently takes and passes that course in the normal manner.

(11) *Fee:* A fee of $75.00 per single-term or full-session course will be assessed and must be paid before the department concerned undertakes the special assessment. The amount of this fee is subject to change.

42.5 *Academic Standings and Graduation*

(1) *Categories of Academic Standing.* There are three categories of academic standing, designated as categories (A), (B), and (C). These categories are determined for each student by the computation of a Quality Index upon the completion of each year of study. The Quality Index (Q.I.) is defined by the following formula:

$$\text{Q.I.} = \frac{\text{Number of Courses Passed}}{\text{Number of Courses Attempted}} \times \text{G.P.A.}$$

In the above formula, G.P.A. (Grade Point Average) is the sum of the products of all grades and their respective course weights divided by the sum of those weights.

The categories of standing are as follows:

Category A: All students with a Q.I. of 4.0 or greater.

Category B: All students with a Q.I. of less than 4.0 but greater than 2.0. Performance in this Q.I. range is considered to be "unsatisfactory."

Category C: All students with a Q.I. of 2.0 or less. Performance at this level is considered to be "extremely unsatisfactory."

(2) *Continuation in Programs and Graduation.* Students who meet graduation requirements in their year's work in a program will normally be permitted to continue in that program. These requirements vary from program to program. The section below that deals with the particular program of concern should be consulted for further details.

(3) *Requirement to Withdraw from the Faculty.* Students in Category "C" at the end of a year's work will be required to withdraw from the Faculty of Arts. Students in Category "B" will be permitted to continue, with a warning that a repetition of the unsatisfactory performance (Category "B") in a subsequent year will normally result in a requirement to withdraw from the Faculty.

When a student has been required to withdraw, normally at least a year must elapse before readmission will be granted. All applications for readmission after a requirement to withdraw must be accompanied by a recommendation from Student Counselling Services. Students who have been required to withdraw more than once from another faculty, will normally not be admitted to the Faculty of Arts until they have successfully completed a full year of academic studies in another faculty, college or university.

(4) *Probation.* Students who are readmitted after being required to withdraw must demonstrate ability to meet graduation standards. They must normally register as full-time students (with a minimum of four full-session courses); achieve a grade point average of 5.0 with a five-course registration, or 5.5 with a four-course registration, before supplementals; and pass all courses with a minimum grade of 4.0 after supplementals. Supplementals for this purpose will be permitted in no more than one full-session course or two single-term courses.

Upon successful completion of these requirements probation will be lifted. Failure to meet these standards will result in a further requirement to withdraw.

Upon readmission the student's record will be

assessed for credits. All courses taken and passed in prior successful years will be credited toward the degree. However, only those courses in which a grade of five (5) or better was achieved will be given credit from the unsatisfactory year that necessitated the student's withdrawal.

The privilege of repeating a year will be granted to a student not more than once during his/her candidacy for a degree in this Faculty, unless by special permission of the Dean.

(5) *Appeals.* A student may appeal against any ruling of the Faculty of Arts.

Students who wish to appeal a ruling affecting their academic standing, other than admission and grades in individual courses, should direct their appeal in the first instance to the Associate Dean for Student Programs and Curriculum. Recourse is then available to the Faculty of Arts Executive Committee and the General Faculties Council Academic Appeals Committee, in that order. Further information on such appeals is available in § 16.7 of the University Regulations and Information for Students Calendar.

Appeals regarding the student's standing in a particular course should first be directed to the instructor concerned. Frequently the issue can be resolved at this level. However, further recourse is available through the Chairman of the Department in which the course is being offered. See § 16.3.3(2) of the University Regulations and Information for Students Calendar for reappraisal deadlines.

Further regulations regarding academic standing, promotion, and graduation vary from program to program within the Faculty of Arts, and are therefore given, together with the details of the program to which they apply, in § 43 below. Regulations for the B.A., the B.F.A. and the B.Mus. degrees will be found in § 43.1

For regulations concerning First-Class Standing and the degree of B.A. with Distinction see § 16.4.1 and 16.4.3 respectively of the University Regulations and Information for students calendar.

43 PROGRAMS OF STUDY

43.1 The Degrees of B.A., B.F.A. and B.Mus.

43.1.1 THE DEGREE OF B.A. WITH HONORS

Programs leading to the degree of Bachelor of Arts with Honors require a minimum of twenty full-session courses or their equivalent. Normally, these programs will be completed in four consecutive years of study during Winter Sessions. They are designed to provide specialization in the chosen subject or subjects, with study in greater depth than is provided by the General program, and demand a higher standard of performance. A Combined Honors program involving two subjects of concentration may also be considered through consultation with the departments concerned.

Admission. Most departments do not provide a special first year for students who wish to read for Honors. Permission to enter first-year Honors is granted to students with high matriculation standing and with the approval of the department concerned. A request for this privilege should be made on the "Application for Admission" form.

Students need not commit themselves to Honors in their first year, and may register in an appropriate selection of courses as required by the regulations of a General program. If they obtain a sufficiently high standard in their first year and are recommended by the department concerned, they may enter Honors in their second year.

Some departments will consider applications for transfer to Honors submitted by students who have completed the second or even third year of another program.

Selection of courses. The following regulations govern Honors programs:

(1) In each year, an Honors student's program must be approved by the chairman of his/her department and by the Dean.

(2) Each student's program must include English 200 or its equivalent and an approved laboratory science course. (See 42.3(1)(a).)

(3) No student may include more than seven full junior courses or their equivalent in the program, except by special permission of the Dean.

(4) Students are not permitted to confine their studies to one discipline; during their first three years they must take at least three courses not closely related to their subject of specialization, i.e., students specializing in a subject administratively classified as a "Humanity" must take at least three courses classified as "Fine Arts," "Social Sciences" or "Natural Sciences"; students specializing in a subject administratively classified as a "Social Science" must take at least three courses classified as "Fine Arts," "Humanities" or "Natural Sciences"; students specializing in a subject administratively classified as "Fine Arts" must take at least three courses classified as "Humanities", "Social Sciences" or "Natural Sciences". Students should consult their Honors advisor.

(5) Over the four years the student will be required to take not fewer than eight courses in the subject of concentration as defined by the department; for Combined Honors programs, the minimum number of courses in each discipline will be decided through consultation with the department concerned but in no case will it consist of less than six courses in each departmental program.

Academic standings and graduation. The following regulations govern Honors programs:

(1) Admission to Honors by re-enrolment, and promotion from one year to another is by recommendation of the department concerned, whose required grade-point average may exceed the Faculty minimum of 6.5. The student's grade point average for admission to an Honors program must be based on a minimum four courses taken during the student's most recent year in full-time attendance.

(2) A student who fails to attain the standard necessary for continuance in Honors at the end of the first or second year must withdraw from Honors. Such students may transfer to another program in the Faculty provided they meet the requirements for that program. After such transfer they must complete all requirements for their new program. The special first-year Honors programs are so designed that a student can normally proceed to a degree in a four-year program or in the General program without penalty.

(3) Students who are not recommended to continue in Honors at the end of their third year, or who fail to complete the requirements for a degree with Honors in their fourth year, may be granted the General degree forthwith, provided that their program includes either (1) one course from each of the Fine Arts, Humanities, and Social Sciences offerings, plus an approved laboratory course in the Natural Sciences (see § 42.3(1)), or (2) a second area of concentration comprised of not less than three courses in a particular discipline, and otherwise meets the requirements of the General program. A student deficient in any respect may be required to take one or more courses in a subsequent session.

(4) A student who, for any reason, is unable to return to university for the fourth year may apply for a General degree under the same conditions as one who has failed to meet the required standards.

(5) Students who are not recommended for graduation with Honors at the end of their fourth year may be granted the B.A. (Special) degree forthwith, provided they have successfully completed twenty courses which include either (1) one approved laboratory science course and a second subject of concentration consisting of four or five courses; or (2) one course from each of the Fine Arts, Humanities, and Social Sciences offerings, plus an approved laboratory course in the Natural Sciences (see § 42.3(1), and a second subject of concentration consisting of three courses (in all cases full-year or their equivalent). In no case will students be permitted more than ten courses in their principal subject of concentration. A student deficient in any respect may be required to take one or more courses in a subsequent session.

(6) A reduced course load (less than five full-session courses) in any year of an Honors program, or interruption of such a program, must be approved by the Honors Committee of the Faculty.

(7) Degrees with Honors are awarded in two classes: First Class Honors and Honors. Required grade-point averages for each class are recommended by the departments on the basis of selected courses and may exceed the Faculty minimum of 8.0 and 6.5.

43.1.2 THE DEGREE OF B.A. (GENERAL)

NOTE: The word 'course' used in the following context refers to a full-session course or equivalent (two single-term courses).

(1) The B.A. (General) program is designed to enable a student to obtain a diversified education in more than one branch of study, within the limits of a three-year program. A student must secure credit in at least eight Arts courses.

(a) *Duration:* A fifteen-course program normally taken in three years. This period may be extended at the student's discretion. Acceleration of the program will only be permitted in exceptional circumstances and with the Dean's approval.

(b) *Language requirement:* Candidates for the B.A. (General) must present credit in a language other than English, either at the senior matriculation level or at university level. In the event of a matriculation deficiency, the language course must be taken in the first year (§ 42.1).

(c) *Residence requirement:* A student proceeding towards the B.A. (General) degree must have credit for at least five full-year (or equivalent) University of Alberta courses. These shall normally be the final five courses in the student's program. A student who has fulfilled the five-course requirement before the beginning of the final year of the program may apply to the Dean for permission to take one or more of the final five courses elsewhere.

(2) *Curriculum:*

(a) *First Year:* Five junior courses are required; no more than one course may be selected from each discipline.

(b) *Compulsory Course Requirements:* One full-course equivalent is required from each of the following four areas: Laboratory Science, Fine Arts, Humanities, and Social Sciences (for classification of courses see § 42.3). Mandatory First-Year requirements include a junior English course, a language other than English (where a language deficiency exists, para. (1) b above) and normally, an approved laboratory science course (§ 42.3 para. (1) a)

NOTE 1. If a junior laboratory science course is not taken, there are a number of senior laboratory science courses available, but most have prerequisites.

NOTE 2. The required junior English course does not satisfy the "Humanities" requirement.

NOTE 3. Students who entered the B.A. program prior to September 1979, may continue under the program requirements then in effect (§ 43.1.2 of the 1978/79 Arts & Science calendar); those who interrupt their program for a period of more than two years, will be required to meet the new requirements.

(c) *Subjects of concentration:* Two are required: a principal subject chosen from the Fine Arts, Humanities, Social Sciences or Mathematics, and a second subject, which may be chosen from the offerings of either the Faculty of Arts or the Faculty of Science. In the principal subject, a minimum of three courses is required, at least two of which must be senior courses; a maximum of five courses is permitted. If a combination of Mathematics/Statistics is chosen, a minimum of four courses is required, two at the senior level. In the second subject, a minimum of three courses is required and a maximum of four courses is permitted. The following science combinations are permissible but require a minimum of four courses, two of which must be at the senior level: Mathematics / Statistics; Biology / Zoology / Microbiology / Entomology / Botany / Genetics; Astronomy / Physics; Chemistry / Biochemistry; Geography / Cartography / Meteorology.

(d) *Course Selection:* Courses offered in the departments and/or subjects listed below will be accepted by the Faculty of Arts as a subject of concentration provided that the requirements stated in the preceding paragraph and the course prerequisite requirements are fulfilled:

Anthropology, Art, Chinese, Classics (Ancient History, Art, Classical Literature in Translation), Greek, Latin, Comparative Literature, Drama, Economics, English, Geography, Germanic Languages (German, Scandinavian), History, Japanese, Linguistics, Mathematics, Music, Philosophy, Political Science, Psychology, Religious Studies, Romance Languages (French and/or French-Canadian, Italian, Spanish, Romance Linguistics), Slavic Languages (Polish, Russian, Slavics, Ukrainian), Sociology. For additional information and advice consult the "Programs of Study" section of the respective departments (§ 43.2-43.23).

(e) *Limitations:* No more than four courses may be

taken for credit in a subject other than the subjects of concentration.

(f) *Junior courses:* Normally, no more than seven courses at the '100' or '200' level may be taken for degree credit. In no case will this limit be extended to permit a student to make up a matriculation deficiency for degree credit, or to include a 'free' option at the junior level.

(g) *Free options:* After completion of all first-year requirements, a student may include two courses chosen from outside the Faculties of Arts and Science in his/her program subject to the conditions stated in § 42.(3)2. In exceptional circumstances a third such course may be taken.

(h) *Academic performance:* To qualify for a B.A. (General) degree a student must present a grade of 4 or better in a minimum of fourteen courses, not less than a grade of 3 in a fifteenth course (provided this is not a course in either subject of concentration), and a grade point average of at least 5.0 in all courses credited to the degree after the completion of first-year requirements.

(i) *Supplemental examinations:* No more than five may be written during the program. No more than two may be written in any academic year, whether for the purpose of obtaining passing marks or of raising the ten courses GPA to the required 5.0. Supplemental examinations will not be granted in any course where the weight of the final examination is less than 40%.

43.1.3 THE DEGREE OF B.A. (SPECIAL)

NOTE: The word 'course' used in the following context refers to a full-session course or equivalent (two single-term courses).

(1) The B.A. (Special) program is designed to enable students, under the guidance of the department of their choice, to obtain a diversified education in more than one branch of study, but with a greater degree of specialization in a particular field than is available in the General program. A student must secure credit in at least eleven Arts courses. Every registration or change of registration must bear the signature of the departmental advisor concerned indicating the approval of the department.

(a) *Duration:* A twenty-course program normally taken in four years (five courses per year).

(b) *Language requirement:* Same as B.A. (General).

(c) *Residence requirement:*

(i) A student proceeding towards the B.A. (Special) degree in the Faculty of Arts must have credit for at least ten full-year (or equivalent) University of Alberta courses.

(ii) When enrolled in the B.A. (Special) program the student shall normally take five full-year courses (or equivalent) during each regular academic year. The student's department may recommend to the Dean exemption from this regulation.

(iii) The final year of the B.A. (Special) program must be taken in one regular academic year in attendance at the University of Alberta campus. The student's department may recommend to the Dean exemption from this regulation. A student who has fulfilled the ten-course requirement prior to the beginning of the final year of the program may apply to the Dean for permission to take one or more of the final five courses elsewhere.

(2) *Curriculum:*

(a) *First Year:* Same as B.A. (General).

(b) *Compulsory course requirements:* Same as B.A. (General) § 43.1.2(2)b above.

(c) *Subjects of concentration:* Two are required; a principal subject chosen from the Fine Arts, Humanities, Social Sciences or Mathematics and a second subject which may be chosen from the offerings of either the Faculty of Arts or Faculty of Science. In the principal subject a minimum of five courses is required, at least four of which must be senior courses; a maximum of eight courses is permitted. In the second subject a minimum of four courses is required and a maximum of five permitted. For acceptable combinations of science courses see B.A. (General), § 43.1.2(2)c.

(d) *Course Selection:* Courses offered by departments will be accepted by the Faculty of Arts as a subject of concentration provided that the requirements stated in the preceding paragraph and the course prerequisite requirements are fulfilled and departmental approval has been secured. For additional information and advice consult the "Programs of Study" section of the respective departments (§ § 43.2-43.23).

(e) *Limitations:* Same as B.A. (General) § 43.1.2(2)e above.

(f) *Junior courses:* Same as B.A. (General) § 43.1.2(2)f above.

(g) *Free options:* (§ 42.3(2)). After completion of first-year requirements, a student, with the recommendation of his or her department and the consent of the Dean, may include two courses chosen from outside the Faculties of Arts or Science in the program, subject to the conditions stated in § 42.3(2). In exceptional circumstances a third such course may be taken. See Faculty of Arts Program office for the list of courses not open to Arts students.

(h) *Academic performance:* To qualify for a B.A. (Special) a student must present a grade of 4 or better in a minimum of nineteen courses, no less than 3 in a twentieth course (provided this is not a course in either subject of concentration), and a grade point average of at least 5.0 in the last ten courses of the program.

(i) *Supplemental examinations:* Same as B.A. (General), § 43.1.2(2)(i) above.

43.1.4 THE DEGREE OF B.A. (SPECIAL) IN EAST ASIAN STUDIES

This is a four-year (twenty full-session courses) program under the B.A. (Special) degree category (see § 43.1.3). It differs in that the student is required to have three subjects of concentration: East Asian Studies (eight full-session courses), a second discipline (five to eight full-session courses), and a third discipline (three to five full-session courses). Overlap is, however, permitted between East Asian Studies and the second or third concentration. In addition, at least two years of an East Asian language is required. Guidance in the selection of courses is provided by the Chairman, East Asian Studies, c/o Department of History.

43.1.5 CERTIFICATE OF EQUIVALENCE

Applicants holding a University of Alberta B.A. (General) degree may qualify for a certificate indicating that they have met the requirements of the B.A. (Special) or B.A. (Canadian Studies) degree by completing five further courses, or more, if required, to meet curriculum requirements. This option is not open to degree holders from other universities.

§ § 43.2 to 43.23 contain advice offered by the various Arts departments for students selecting courses in their subjects of concentration. Further information may be obtained by consulting members of the department concerned.

43.1.6. THE DEGREE OF B.A. (CANADIAN STUDIES)

NOTE: The word "course" referred to in the following context refers to a full-session course or equivalent (two single-term courses).

This is a four-year (twenty course) program, selected under the guidance of the chairman (or designate) of the Committee on Canadian Studies.

Conditions governing graduation, supplemental examinations, course load, final year and residence requirements are as for the B.A. (Special) program. (§ 43.1.3)

(1) *Canadian Studies Course Requirements:* A minimum of at least eight courses with Canadian content is required including at least three CANST courses and five courses from the list of approved Canadian Studies courses, three of which must be Canadian government, Canadian history, and Canadian literature.

(2) *Specialization Requirements:* Specialization may be within an established discipline (e.g., English) or across two disciplines (e.g., Economics and Political Science) or by special arrangement whereby individual students may propose specializations of a multidisciplinary nature, normally drawn from the list of approved Canadian studies courses. In a regular program, at least five courses are required and no more than eight courses are permitted, at least three of these must be approved Canadian studies courses. In the case of a combined specialization, four courses in each discipline are required and at least three of the eight must be approved Canadian studies courses.

A student specializing within the Humanities must complete at least three courses in the Social Sciences, and vice versa.

Students are required to demonstrate a reading knowledge of French by passing a French reading proficiency examination, normally by the end of the second year of studies. Students are also required to take one approved "200 level" English course, one approved laboratory science course, and one Fine Arts course.

(3) *Extra-Faculty Options:* One extra-faculty course selected from the list of approved Canadian studies courses, may count towards the Canadian studies requirement. (§ 43.1.3).

For the certificate of equivalence see § 43.1.5.

43.1.7 THE B.A. (HONORS) AFTER ANOTHER UNDERGRADUATE DEGREE

Requirements of a B.A. (Honors) degree after another undergraduate degree will vary depending on the previous degree held and the Honors degree sought. In all cases, minimum admission and promotion requirements of the Honors degree must be met (see § 43.1.1), and departmental recommendation and Faculty approval for admission must be secured. For detailed information, applicants should contact the Departmental Honors Advisor concerned and the Faculty of Arts Student Program Office.

43.1.8 THE B.A. (GENERAL) AFTER A THREE-YEAR BACHELOR'S DEGREE (OTHER THAN BACHELOR OF ARTS)

Holders of a recognized three-year Bachelor's degree, other than a Bachelor of Arts, whose programs for the first degree included at least six Arts and Science courses, may qualify for the B.A. General degree by completing nine Arts and Science courses as prescribed by the Faculty of Arts. Those with fewer than six Arts and Science courses will be required to take additional courses.

Students in this program must meet, in their six transfer courses and their nine additional courses, the requirements for the B.A. General degree as stated in § 43.1.2 of the Arts and Science Calendar.

43.1.9 THE B.A. (GENERAL) AFTER A FOUR-YEAR BACHELOR'S DEGREE (OTHER THAN BACHELOR OF ARTS)

Holders of a recognized four-year Bachelor's degree, other than a Bachelor of Arts, whose programs for the first degree included at least eight Arts and Science courses, may qualify for the B.A. General degree by completing seven Arts and Science courses as prescribed by the Faculty of Arts. Those with fewer than eight Arts and Science courses will be required to take additional courses.

Students in this program must meet, in their eight transfer courses and their seven additional courses, the requirements for the B.A. General degree as stated in § 43.1.2 of the Arts and Science Calendar.

Requirements applicable to both of the programs listed above:

(1) A principal subject of concentration in an Arts subject. This may be the same subject as the principal subject of concentration in the first degree.

(2) A second subject of concentration. This may be either an Arts or a Science subject.

(3) One full-course equivalent is required from each of the following areas: Laboratory Science, Fine Arts, Humanities, Social Sciences (for classification of courses see § 42.3 para. 1 of the Arts & Science calendar).

NOTE: The required junior English course does not satisfy the "Humanities" requirement. Students who entered the B.A. program prior to September 1979 may continue under the program requirements then in effect. Those who interrupt the program for a period of more than two years will be required to conform to the new requirements.

(4) English 200 or its equivalent.

(5) A maximum of seven junior courses in the total program (including both transfer courses and courses taken in the Faculties of Arts and Science). However, the Dean may approve up to two and, in rare cases, three extra junior courses if, in his/her judgment, these are deemed essential in establishing the new program.

Notes applicable to both programs listed above:

(1) These regulations apply only to the holder of a Bachelor's degree, or its equivalent.

(2) The extra-Faculty free options open to students in the regular B.A. programs are not available in the "B.A. after" programs.

(3) A student taking a B.A. after a B.Sc. degree will not normally be permitted to take further courses in the Faculty of Science.

(4) The B.A. (Special) after another three or four-year baccalaureate degree, requires an additional

year of study (five full-session courses) beyond the requirements for the General degree. These courses will be taken under the direction of the department in which the principal subject of concentration is taken. All requirements for the B.A. (Special) as stated in § 43.1.3 must be met.

NOTE: Students seeking a third Bachelor's degree will be required to complete the full course requirements for that degree.

43.1.10 THE B.F.A. OR B.MUS. AFTER A PREVIOUS BACHELOR'S DEGREE

The requirement for a B.F.A. (Art and Design) or a B.F.A. (Drama) or B.Mus. after a previous Bachelor's degree, will normally be three years, (fifteen full-session courses or equivalent), but in no case will less than twelve full courses or equivalent be required. The program will be established by the Faculty of Arts.

43.1.11 THE DEGREE OF B.F.A. IN ART AND DESIGN

The Department of Art and Design offers a program leading to the degree of Bachelor of Fine Arts in Art and Design. The program is as follows:

First year: Art History 201/202; Art 232, 233, 240; English 200 or equivalent; an approved First Term Arts or Science option.

Second year: One full-course equivalent chosen from Art History courses at the 300 or 400 level. Art 340, plus three studio art courses from the 300 level and one approved Arts or Science option.

Third year: A senior Art History course plus three studio art courses from the 400 or 500 level; and one approved senior Arts or Science option.

Fourth year: One full-course equivalent chosen from Art History courses at the 400 or 500 level, plus three senior studio art courses including a minimum of two at the 500 level and one approved senior Arts or Science option.

The program is subject to the following regulations:

(1) *Admission requirements* are as set out in § § 13.1 and 13.4.2 of the University Regulations and Information for Students Calendar.

(2) *Promotion:*

(a) Promotion in all years is by recommendation of the Department for which a grade point average of at least 5.5 is normally required. One grade of 3 in a full-session course or equivalent may be accepted, provided it is not in the central subject of the program.

(b) A grade of 4 in a central subject may normally be allowed only once in a B.F.A. student's program. Any subsequent course in which a grade of 4 is received must be repeated for B.F.A. credit, or an alternative course, approved by the Department, must be substituted.

(c) To qualify for the Bachelor of Fine Arts in Art and Design a student must have successfully completed twenty and one-half full-course equivalents; of these, twelve must be studio courses, two of which must be at the 500 level.

(d) A student who is not recommended to continue in the program at the end of the first, second or third year of study must withdraw from the program. Such a student may transfer to another program in the Faculty of Arts provided the entrance and promotion requirements for such a program are met. After transfer all requirements for the new program must be completed.

(e) A Bachelor of Fine Arts program may be interrupted only with the consent of the Department.

(3) *B.F.A. Art and Design degree:*

(a) A student proceeding towards the B.F.A. Art and Design degree must have credit in at least ten full-session or equivalent University of Alberta courses.

(b) When enrolled in the B.F.A. Art and Design program, the student shall normally take a full course load as specified by the program during each regular academic year. The Department may recommend to the Dean exemption from this regulation.

(c) The final year of the program must be taken in one regular academic year in attendance at The University of Alberta campus. The Department may recommend to the Dean exemption from this regulation.

For the degree of B.F.A. with Distinction see § 16.4.3 of the University Regulations and Information for Students Calendar.

43.1.12 THE DEGREE OF B.F.A. IN DRAMA

43.1.12.1 GENERAL INFORMATION

The Department of Drama offers a program leading to the degree of Bachelor of Fine Arts. Students are required to specialize in either Acting or Design. Courses in the program are listed below. The program is subject to the following regulations:

(1) Admission requirements are as set out in § § 13.1 and 13.4.3 of the University Regulations and Information for Students Calendar.

(2) A non-refundable deposit towards tuition fees, will be required of successful applicants, on official notification of acceptance. (See § 13.1.2 of University Regulations and Information for Students Calendar.)

(3) To be granted the B.F.A. degree, a student must comply with the following regulations.

(a) To be promoted in each year, a student will normally be required to have a grade point average of 5.5 plus the recommendation of the Department. One grade of 3 in a full session course or equivalent may be accepted in the program provided it is not in the central subject (i.e. Drama).

(b) A student who is not recommended to continue in the program at the end of the first, second or third year of study must withdraw from the program. Such a student may transfer to another program in the Faculty of Arts provided the entrance and promotion requirements for such a program are met. After transfer all requirements for the new program must be completed.

(c) A student who fails to meet the fourth year requirements in the program will be permitted to fulfill those requirements only with the approval of the department and the Dean of Arts.

(d) A Bachelor of Fine Arts program may be interrupted only with the consent of the Department.

(e) A student must complete the first and final years in full attendance at The University of Alberta. The final year must be taken in one regular academic year. The Department may recommend to the Dean exemption from this regulation.

43.1.12.2 SPECIALIZATION IN ACTING

First year: Drama 200, 230, 240, 254, 255, 257, 270, 271; English 200 or equivalent.

Second year: Drama 300, 330, 335, 340, 345, 350, 351, 355; an approved non-Drama Arts or Science Option.

Third year: Drama 383, 401 or 402, 430, 435, 441, 445, 450, 455; English 333 and an approved single-term non-Drama Arts or Science option (or English 332); an approved single-term option.

Fourth year: Drama 530, 535, 541, 545, 551, 592, 595.

43.1.12.3 SPECIALIZATION IN DESIGN

First year: Drama 200, 251, 270, 271, 272, 293; English 200 or equivalent.

Second year: Drama 300, 353, 370, 372, 375 *or* Clothing and Textiles 403 *and* Clothing and Textiles 304, Drama 395; an approved non-Drama Arts or Science option.

Third year: Drama 383, 385, 401 or 402, 470, 472, 493, 351 or 551; an approved Art option.

Fourth year: Drama 509 (or 507), 570, 575, 593, 595; Philosophy 350/351 or Art or Music option.

For the degree of B.F.A. with Distinction see § 16.4.3 of the University Regulations and Information for Students Calendar.

43.1.13 THE DEGREE OF B.MUS.

43.1.13.1 GENERAL INFORMATION

The Department of Music offers a variety of four-year programs leading to the degree of Bachelor of Music. Candidates for the B.Mus. degree may choose one of four areas of study: 1) Applied Music (Keyboard, Orchestral Instrument, or Voice); 2) Composition; 3) Music History and Literature; 4) Music Theory. All Bachelor of Music students are required to participate for at least two years in an approved large ensemble such as a band, choir or orchestra. The course requirements for each of these programs are set out below.

The programs are subject to the following regulations:

(1) Admission requirements are as set out in § § 13.1 and 13.4.4 of the University Regulations and Information for Students Calendar.

(2) To be granted the B.Mus. degree, a student must comply with the following regulations:

(a) To be promoted in each year, a student will normally be required to have a grade point average of 5.5 in the program plus the recommendation of the Department. One grade of 3 in a full-session course or equivalent may be accepted in the program provided it is not in the central subject.

(b) A student who is not recommended to continue in the program at the end of the first, second or third year of study must withdraw from the program. Such a student may transfer to another program in the Faculty of Arts provided the entrance and promotion requirements for such a program are met. After transfer all requirements for the new program must be completed.

(c) A student who fails to meet the fourth-year requirements in the program, will be permitted to fulfill those requirements only with the approval of the Department and the Dean of Arts.

(d) A B.Mus. program may be interrupted only with the consent of the Department.

(e) A student proceeding toward the B.Mus. degree will normally have credit in at least ten full-session or equivalent University of Alberta courses. Note: U. of A. courses include off-campus, Evening Credit Program, Spring Session or Summer Session courses.

(f) When enrolled in the B.Mus. program, the student will normally take five full-session or equivalent courses during each regular academic year. The Department may recommend to the Dean exemption from this regulation.

(g) The final year of the program will normally be taken in one regular academic year in attendance at the University of Alberta campus. The Department may recommend to the Dean exemption from this regulation.

(3) Each candidate, except in Applied Music (Voice), must complete a course in one of Latin, Italian, French, German, or Russian as one of his or her options.

(4) Options must be approved by the Department.

(5) Candidates other than those who elect a keyboard instrument as a first practical subject are required to pass a keyboard proficiency examination prior to completion of the program. Music 222, 322, 422, and 522 (second practical subject) are available as music options and may be used to prepare for keyboard proficiency tests.

(6) A candidate in Applied Music (Orchestral Instruments) may choose to study any one of the following as the First Practical Subject: violin, viola, cello, double bass, flute, oboe, clarinet, saxophone, bassoon, trumpet, French horn, trombone, tuba, harp, percussion.

(7) A candidate in Applied Music (Keyboard) may choose to study harpsichord, organ, or piano as the First Practical Subject.

(8) Candidates in Applied Music will be required to present a junior and a senior recital before graduation.

(9) New first-year students are admitted to a Common First Year as outlined below. Routes of concentration for the remaining three years of the program are designated in consultation with the Department at the end of the first year.

43.1.13.2 COMMON FIRST YEAR

Music 202, 203, 223 or 225, 250, 251; single-term option; a single-term non-music option; English 200, 210 or two junior single-term courses in English.

43.1.13.3 COMPOSITION

Second year: Music 301, 304, 324, 350, 351, 360, 361, language option.

Third year: Music 352, 402, 424, 460, 462, 463, 544, 580.

Fourth year: Music 437, 560, 581; non-music option, single-term non-music option, single-term music history option, senior option.

43.1.13.4 HISTORY AND LITERATURE

Second year: Music 301, 304, 324, 350, 351; non-music option; single-term music option; language option.

Third year: Music 361, 402, single-term music history option; single-term music option; single-term non-music option, Music 352, 424; language option.

Fourth year: Music 437, 438, 501, 502, music history option, music option; senior option.

43.1.13.5 THEORY

Second year: Music 301, 304, 324, 350, 351, 360, single-term music option, non-music option.

Third year: Music 352, 361, 402, 424, 462, 463, 544; language option.

Fourth year: Music 437, 438, 545, 580, senior option, single-term music history option, single-term non-music option, music option.

43.1.13.6 APPLIED MUSIC, KEYBOARD

A specialization in chamber music, pedagogy, solo performance, or vocal accompanying/coaching will be chosen at the end of the second year in consultation with the Department.

Candidates specializing in vocal accompanying/coaching must attend no less than one hour per week of Music 430/530 in the third and fourth years, and are encouraged to take a course in two of the following languages: French, German, Italian.

Candidates specializing in organ are not required to enrol in Music 428, 429, 528, 529, but are required to complete Music 427 and 531.

Second year: Music 301, 304, 325, 350, 351, music option, full-session course or equivalent, language option.

Third year: Music 352, 361, 402, 403 and 404 or 406, 425 or 465, 428 (required in vocal accompanying specialization) or 429 (required in chamber music specialization), single-term non-music option.

Fourth year: Music 503 and 504 or 533 and 534, 525 or 565, one of 528 (required in vocal accompanying specialization), 529 (required in chamber music specialization) or 531, single-term music option, non-music option, senior option.

43.1.13.7 APPLIED MUSIC, ORCHESTRAL INSTRUMENTS

A general woodwind specialization may be arranged in consultation with the Department.

Second year: Music 301, 304, 323, 329, 350, 351; single-term music option; language option.

Third year: Music 352, 361, 402, 423, 429, 457/458 or music option (to be selected from appropriate instrumental techniques courses), single-term non-music option.

Fourth year: Music 523, 529, 557/558 or music option, single-term music option, non-music option, senior option.

43.1.13.8 APPLIED MUSIC, VOICE

Second year: Music 301, 304, 325, 350, 351, 361; single-term music option; Italian*.

Third year: Music 352, 402, 425, 430, 435/436 or 455/456; German*.

Fourth year: Music 525, 530, 535/536 or 555/556, single-term music option, senior option, French*.

*'Reading' courses not acceptable.

43.1.14 TRANSFER WITHIN THE FACULTY OF ARTS

A student may transfer from one program to another within the Faculty of Arts at the beginning of the regular academic session provided the entrance requirements for the proposed program are met. After transfer the student must meet all requirements for graduation in the new program. For further details see the sections dealing with each program.

43.1.15 OPTIONS

The term "option", where it appears in the following programs, means an Arts or Science course freely chosen by the student provided he/she has the necessary prerequisites. An approved option in Honors, B.F.A., B.Mus., and B.A. (Special) programs is an option approved by the department directing the program of the student concerned.

43.2 Anthropology

43.2.1 HONORS IN ANTHROPOLOGY

The B.A. with Honors is designed to provide both broad training in Anthropology and an opportunity to undertake independent work. Interested students may obtain information regarding the program from the departmental office.

43.2.2 CONCENTRATION IN ANTHROPOLOGY

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.
(b) The Department advises the following sequences.

Three-course sequence. Either Anthropology 202 or 306 and 307; 308, 309 or a regional ethnology course; one 400-level course.

Four-course sequence: Either Anthropology 202 or 306 and 307; 308 and 309; a regional ethnology course; one 400 level course.

Five-course sequence: Either Anthropology 202 or 306 and 307; 308 and 309; a regional ethnology course and two senior courses in the subdiscipline or area of specialization.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.3 Art and Design

43.3.1 HONORS IN HISTORY OF ART AND DESIGN

An undergraduate may elect to read for Honors in History of Art and Design either at the beginning of the first year or after satisfactory completion of one or two years of the general B.A. program. In any case, he/she must consult with the Chairman of the Department before being admitted to the Honors program. The degree of B.A. with Honors in History of Art and Design is awarded after satisfactory completion of an Honors essay, proof of the candidate's ability to read a modern language other than English (usually French, German or Italian), and the attainment of a satisfactory standard in all aspects of the program.

First year: English 200 or equivalent; a language other than English (usually French, German or Italian); an approved laboratory science course; ART H 201/202; ART 231 or one approved full course equivalent Arts or Science option.

Second Year: A language other than English (usually French, German, or Italian); ART H 305/355, 306/356, and ART H 304/354 or 307/357; one approved full course equivalent Arts or Science option.

Third year: One full course ART H 459 or an approved equivalent; two approved full course equivalent ART H options from the 400 and 300 levels; two approved full course equivalent senior Arts or Science options.

Fourth year: One full course ART H 559; two approved full course equivalent ART H options chosen from the 500 and 400 levels; two senior full course equivalent Arts or Science options of which one may be a further senior course in the History of Art and Design.

The subject for the Honors essay should be selected in consultation with the Department by the end of the

third year. The essay will be written in the final year under the individual supervision of a member of the department, with whom the candidate will confer regularly. The Department may require any candidate for Honors, in addition to submitting the essay, to pass an oral or written examination on the subject of the essay.

43.3.2 CONCENTRATION IN ART AND DESIGN

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

For the degree of B.F.A. in Art and Design; see § 43.1.11.

43.4 Asian Studies (East Asian)

Department of History

43.4.1 THE DEGREE OF B.A. (SPECIAL) IN EAST ASIAN STUDIES

See § 43.1.4.

43.4.2 CONCENTRATION IN CHINESE

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.4.3 CONCENTRATION IN JAPANESE

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.5 Classics

43.5.1 HONORS PROGRAMS

The Department of Classics offers undergraduate programs leading to a B.A. with Honors in:

(1) Classics: normally 8-10 full-year courses in Greek and Latin and several related Classics courses.

(2) Classics, Ancient History and Classical Archaeology: similar to the above but with greater emphasis on ancient history and archaeology.

(3) Classics and Literature: similar to the second program, but with major emphasis on literature in translation.

(4) Latin or Greek with an approved second subject.

(5) Combined Honors (e.g., Latin and English, Latin and French, Greek and Philosophy).

Interested students are invited to consult the Honors Advisor or the Chairman of the Department for a personal interview.

NOTE: English 200 is recommended by the Department for students entering the first year of these programs.

43.5.2 CONCENTRATION IN CLASSICS

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.
(b) Both Greek and Latin may be started at University (Greek 100, Latin 100). The course for students who enter with high school Latin is Latin 200; the sequent course will be a senior course. Those beginning Latin in University (Latin 100) will in the second year take Latin 200 or 300, dependent on the standing attained in Latin 100. Greek 100 is followed by Greek 300. Three to five course sequences are available in Greek, Latin, or in Classics courses (Ancient History, Art, or Literature in Translation).

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.
(b) Five to eight course sequences in the subjects as listed in (1)b, above. Additional programs may be arranged in Greek Studies and Roman Studies.

43.6 Comparative Literature

43.6.1 HONORS IN COMPARATIVE LITERATURE

The Honors B.A. in Comparative Literature is designed to give the student a basic knowledge of international literary studies (history, theory, and criticism of literature) with a solid knowledge of at least one language and literature other than English (for native English speakers) or French (for native French speakers).

There are now three variations of this program:

(1) Four courses in Comparative Literature, six courses beyond the 100 level in one language and literature, five courses in another language and literature, and five approved options, for a total of twenty courses. Comparative Literature 201/202, English 200 or equivalent, another language, an approved laboratory science course, and an approved option, which may be a second language, must be included in the first year. Comparative Literature 351 and 352 must be included in the second or third year, and a Comparative Literature course on the relationships between the two chosen literatures in the fourth. The sequence of courses in the two languages and literatures should follow closely the usual pattern of Combined Honors programs in the respective departments.

NOTE: English and French may be taken as one or as both of the required languages and literatures.

(2) Six courses in Comparative Literature, six courses beyond the 100 level in one language and literature (other than English for native English speakers, and other than French for native French speakers), three courses in another language and literature, five approved options, for a total of twenty courses. Comparative Literature 201/202, English 200 or equivalent, another language, an approved laboratory science course, and an approved option, which may be a second language, must be included in the first year. Comparative Literature 351 and 352 must be included in the second or third year, and a Comparative Literature course on the relationships between the literatures in the two chosen languages, and Comparative Literature 500 in the fourth.

(3) Six courses in Comparative Literature, six courses beyond the 100 level in one language and literature (other than English for native English speakers, and other than French for native French speakers), three courses in another approved subject (such as Art, Drama, Linguistics, Music, Philosophy, etc.), and five approved options, for a total of twenty courses. The distribution of courses in Comparative Literature and the language and literature is the same as under (2), and for the three courses in another approved subject, the student should follow the advised three courses concentration sequence of the department concerned. Note: The Faculty requirement of a laboratory science course must be met.

NOTE: A student contemplating using his B.A. Honors in Comparative Literature as a basis for graduate studies in a language and literature should take as many approved options as possible in the latter.

Students wishing to read for Honors in Comparative Literature should consult the Department at the beginning of the first year. Students deciding, during or at the end of the first year, to undertake Honors in Comparative Literature, must consult the Department at the earliest possible moment in order to ascertain whether their first year courses and their standing in these course are acceptable as a basis for admission to Honors at the beginning of the second year, and in cases where the first-year courses do not seem to provide an adequate basis, to discuss what extra work should be taken to rectify the situation.

NOTE: Whenever necessary, Comparative Literature 301/302 will be considered as an equivalent of Comparative Literature 201/202 for a B.A. program with Honors in Comparative Literature.

43.6.2 CONCENTRATION IN COMPARATIVE LITERATURE

Language Requirement: It is strongly recommended to students in the B.A. (General) or B.A. (Special) program in Comparative Literature that they include in their overall program a language other than English (for native English speakers), or French (for native French speakers).

(1) The Degree of B.A. (General)

(a) See § 43.1.2(2)d.

(b) The following course sequences are strongly recommended:
Three-course sequence: C LIT 201/202 (or C LIT 301/302); C LIT 351; C LIT 352; C LIT 362.
Four-course sequence: same as above plus C LIT 358/359.
Five-course sequence: same as above plus C LIT 340.

(2) The Degree of B.A. (Special) This program lends itself to students who seek to learn more about the interaction of literatures among themselves or with other fields in the Humanities or Social Sciences.

(a) See § 43.1.3(2)d.

(b) A program of study will be arranged in consultation with the student advisor. The following course sequence is strongly recommended to students who choose the five-course minimum requirement:

1. Students beginning Comparative Literature studies in year one:
First year: C LIT 201/202.
Second year: C LIT 351 and C LIT 352.
Third year: C LIT 362; C LIT 364.
Fourth year: C LIT 455 and one senior-level Comparative Literature option.

2. Students beginning Comparative Literature studies in year two:
Second year: C LIT 301/302; C LIT 351; C LIT 352.
Third year: C LIT 362; C LIT 364.
Fourth year: C LIT 455; one senior-level Comparative Literature option.

43.7 Drama

43.7.1 HONORS IN DRAMA

See § 43.1.1. for Faculty regulations concerning the Honors program.

The Honors program offers the exceptional student an opportunity for intensive study in Drama. The appropriate areas of study are Dramatic Literature, Theatre Aesthetics and Theatre History. Some practical experience of the theatre is also desirable and students are encouraged to enrol in practical courses and to participate in departmental productions.

Students are advised to enter the program in first year, however, later entry is possible. Admission requirement are the same as the Faculty requirements, but for promotion from year to year, in addition to the 6.5 minimum grade-point average required by the Faculty the Drama department requires a grade of 7 or better in the following courses which constitute the core of the program; Drama 300, 400, 405, 500, 505. To ensure their studies are sufficiently broad, students are required to take a minimum of eight courses, but not more than a maximum of eleven courses in the Drama Department. Ability in a language other than English to the 300-level is also required.

The program outlined below is not completely rigid and can be subject to some variation. It is, however, an indication of the courses the applicant will be advised to take.

1st Year
English 200 or equivalent
Laboratory Science
Junior Drama option
Two non-Drama options (200 level language other than English advised for one).

2nd Year
Drama 300
Two Drama options
One non-Drama option
One non-Fine Arts option

3rd Year
Drama 400
Drama 405 (½)
One ½ Drama option
One non-Drama option
One non-Fine Arts option

4th Year
Drama 500
Drama 505
Three options (may be Drama)

NOTE: Drama options may be chosen from all courses not designated as restricted to BFA only. In addition to the requirements set out above, each program must include at least one Drama course from at least three of the following areas: production and design; directing; playwriting; acting and improvisation.

The above program is based on the assumption that the student is not taking a minor. Students wishing to do so, should consult with the Honors advisor.

In the final year an Honors essay will be required. This, however, will arise out of the work done in Drama 505.

Students are advised to take note of 43.1.1, especially the subsection entitled "Academic standings and graduation", for requirements of other degree programs, in case they find it necessary to withdraw from the Honors program.

43.7.2 CONCENTRATION IN DRAMA

(1) The Degree of B.A. (General)

(a) See § 43.1.2(2)d.

(b) The Department recommends five full-course equivalents including Drama 251, Drama 275, two full-year Theatre History courses, and the equivalent of two full-year Drama options.

(2) The Degree of B.A. (Special)

(a) See § 43.1.3(2)d.

(b) Students are advised to include Drama 251, Drama 275, and the equivalent of two full-year Theatre History course in their programs. The Department of Drama requires a minimum of six full-year course equivalents in Drama. For specific recommendations and advice on specialization within Drama consult the Department.

For the degree of B.F.A. in Drama, see § 43.1.12.

43.8 East European and Soviet Studies

43.8.1 HONORS IN EAST EUROPEAN AND SOVIET STUDIES

An Honors degree with an East European and Soviet Studies specialization can be taken through one of the departments of Economics, History, Political Science, or Slavic Languages. These special programs are designed by the department concerned in conjunction with the Dean's Office. Programs may include area-related courses listed in the Calendar under Comparative Literature, Economics, Geography, History, Political Science, the various Slavic Languages, Interdisciplinary Courses and the Faculty of Education. These programs must include an approved language component. Further information may be obtained from the Office of the Dean.

43.9 Economics

43.9.1 HONORS IN ECONOMICS

Entrance to the Honors Economics program will ordinarily take place at the end of the first year of university studies. Entrance may be granted by the Department at an earlier or later stage depending on circumstances. The normal requirements for the full four-year program are set out below. Variations in the program between years may take place provided that the appropriate course prerequisites are satisfied.

Variations with respect to the overall program requirements in Economics or other subjects may be recommended by the Department in cases of an unusually strong background in Mathematics, Statistics or other quantitative subjects, or in other special circumstances.

First year: Economics 201/202, one approved junior course in Mathematics, one course at the 200-level in English, and two options.

Second year: Economics 381/382, Economics 395/396 or an approved course in Statistics, an approved option in Economics, plus two options.

Third year: Three approved options in Economics, plus two options.

Fourth year: Economics 481/482, two approved options in Economics, plus two options.

NOTE A: Economics 407/408 and Economics 486/487 are recommended for students contemplating graduate school and/or professional work in Economics.

NOTE B: Supporting senior courses in Mathematics or Statistics are ordinarily suggested somewhere in the list of general options. Accounting 202 and 204 together are acceptable as an option at any stage in the program as are additional courses in Economics.

NOTE C: Those students who take Statistics 255 will have met the Faculty requirement for an approved junior laboratory science course.

Students wishing to undertake a program of East European and Soviet studies may register for Honors in Economics. By choosing options according to the program requirements set out by the Dean's office, students may qualify to have the notation "East European and Soviet Studies" added to their record upon satisfactory completion of their program.

43.9.2 HONORS IN ECONOMICS AND MATHEMATICS

See § 43.1.1 for Faculty regulations concerning the Honors program.

First and Second Years: ECON 201/202, ECON 381/382, MATH 207/208, MATH 281/282, MATH 307/308, STAT 365/366, one junior English course, three options.

Third and Fourth Years: ECON 481/482, MATH 381/382, at least three additional Economics options, at least one additional MATH/STAT option, four options.

Each program must have the approval of the Departments of Economics and Mathematics. It is recommended that students have at least one course in Computing Science.

43.9.3 CONCENTRATION IN ECONOMICS

(1) The Degree of B.A. (General)

(a) See § 43.1.2(2)d.

(b) General program students who may wish to transfer to the Honors program or to proceed later to graduate study in Economics should consult the Department. Such students are reminded that basic courses in Calculus, Algebra, and Statistics are prerequisite to graduate work in the Department.

(2) The Degree of B.A. (Special)

(a) See § 43.1.3(2)d.

(b) The Department recommends Economics 381/382 to students in this program; students interested in graduate work in the Department are reminded that basic course work in Calculus, Algebra, and Statistics are prerequisites for such study.

(c) If the second subject is Mathematics, MATH 202/204, MATH 221/222, MATH 302/303 and STAT 365/366 are strongly recommended.

43.10 English

43.10.1 HONORS IN ENGLISH

There is no specific first year Honors in English. However, students planning to enter the second year of the program should consult the Chairman of the Department Honors Committee before registering for their first year to plan their program according to the following model:

English 200 or one full-session course, or two single-term courses, in English at the 200-level; French 200 or French 205 and 206 or French 230, or Latin 100 or German 200 or Italian 100 or, with permission, another language; an approved Philosophy or History course; an approved laboratory science course; an approved option, which may be a second language. Students deciding during or at the end of the first year to undertake Honors in English must consult the Honors Advisor at the earliest possible moment in order to as-

certain that their first-year courses provide an adequate basis, or to discuss what extra work should be taken to rectify the situation. The normal requirements for the program are set out below. Variations in the program (including directed reading courses) need the permission of the Honors Advisor.

Second year: Three senior English courses; continuation of the first language; an approved option, provided that language requirements have been met; English 301.

Third year: Three senior English courses; two approved options, provided that language requirements have been met; English 401. English 503 will be commenced in the spring of this year and continued throughout the fourth.

Fourth year: Two senior English courses; two approved options, both of which may be senior English courses if language requirements have been met; English 503 is to be continued and will count as a fifth course; English 501.

Choice of senior courses: A student may take up to eleven full-session senior English courses or the equivalent thereof.

a. *REQUIRED:* a full-year course (or two half-year courses) in each of the following areas:

(1) Old and Middle English

(2) Sixteenth and Early Seventeenth-Century Literature, including Shakespeare

(3) Later Seventeenth-Century Literature, including Milton; Restoration and Eighteenth-Century Literature

(4) Romantic and Nineteenth-Century Literature

b. *STRONGLY RECOMMENDED:*

(1) Twentieth-Century British and/or American Literature

(2) Canadian Literature

(3) A genre course (drama, the novel, poetry)

Students planning to continue into graduate study should be aware of the advisability of being well-grounded in such major figures as Chaucer, Shakespeare, and Milton.

Language requirements: A student who begins his/her first language at University (one chosen to satisfy the language requirement of the first year) must continue it for two more years. If the language of the first year is a language of matriculation, it needs to be continued for one year only. A student who begins at University a second language (one elected as an approved option) must continue it for one more year, unless specially exempted.

43.10.2 CONCENTRATION IN ENGLISH

(1) The Degree of B.A. (General)
- (a) See § 43.1.2(2)d.
- (b) Students who choose English as a subject of concentration are advised to include in their program a language other than English.

(2) The Degree of B.A. (Special)
- (a) See § 43.1.3(2)d.

43.11 Geography

43.11.1 HONORS IN GEOGRAPHY

The Department of Geography offers both the B.A. and the B.Sc. degrees with Honors in Geography. Students wishing to stress the humanities and social sciences should register in the B.A. program; those who wish to stress the physical and biological sciences should register in the B.Sc. program.

The B.A. with Honors is designed to combine a broad training in geography with an opportunity to develop a special interest in some branch of the subject. The required grade-point average to enter and continue in the Honors program is 6.5. In addition, a minimum grade of 6 must be obtained in all geography courses and in any other course which is explicitly required by the Department.

Students intending to proceed to higher degrees and a professional career are advised that an ability to read and speak a second language, particularly French, is an asset; they are therefore encouraged to devote at least one option to a second language.

First year:
English 200 or equivalent
Geography 230/231 or 250/251
Statistics 241 or equivalent
Junior Arts option (Anthropology, Economics, History or Sociology)
One and a half options

Second year:
Geography 250/251 or 230/231
Geography 329/429
Cartography 341
Senior Arts option in Geography
Arts option, not Geography

Third year:
Senior regional option in Geography*
Senior Arts option in Geography
Senior Science option in Geography
Two approved Arts options (at least one in a field other than Geography)

Fourth year:
Geography 498
One senior single-term course in Geography
Senior Arts option in Geography
Two approved Arts options (at least one in a field other than Geography)
Option

*List of approved regional courses is available from the Department.

NOTE: Students intending to write an Honors thesis may present it in place of the senior Arts option in Geography. They should register in Geography 553 (0-6s-0) and contact the Undergraduate Program Committee by February 1st of the third year of the program.

During the fourth year a candidate for Honors will be required to take an oral examination in the field of Geography.

43.11.2 CONCENTRATION IN GEOGRAPHY

(1) The Degree of B.A. (General)
- (a) See § 43.1.2(2)d.
- (b) All students are advised to include Geography 230, 231, 250 and 251 in their programs. Those in a five-course sequence should add either Geography 329, 429, and/or Cartography 341, and one full-course equivalent in regional geography (a list of such courses is available in the Faculty Office and in the Department).

NOTE: Any Geography course, whether listed as an Arts or a Science course, may be counted as part of a concentration in Geography. Descriptions of Geography 230 and 231 and other Science courses will be found in the Faculty of Science section of the Arts and Science calendar.

Students interested in graduate work in Geography should consult the Chairman of the Department.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.
(b) Students are advised to include the following courses in their programs: Geography 230 and 231; Geography 250 and 251; either Geography 329, 429, or Cartography 341; and one full-course equivalent in regional geography (a list of such courses is available in the Faculty Office and in the Department).

Advice on specialization streams within Geography and related minor fields is available from the Department.

43.11.3 CONCENTRATION IN CARTOGRAPHY

Students may take Cartography as the second subject of concentration in either the B.A. (General) or B.A. (Specia) programs.

NOTE: This option is not available to students who are taking Geography as their principal subject of concentration.

The cartography courses are listed in § 184.7 of the Calendar. Students are advised to take CART 341 before proceeding to advanced-level courses.

43.12 Germanic Languages

43.12.1 HONORS IN GERMAN

An undergraduate may elect to read for Honors in German either at the beginning of the first year or after satisfactory completion of one or two years of the general B.A. degree program.

The program will normally require ten courses in German (including German 306/307, 301, 330, 511/512 or 441/442 and, in the fourth year, German 505), six approved options in supporting disciplines selected in consultation with the Department, one junior English course (see below), and three courses in the "Social Sciences" or "Natural Sciences" one of which must be a laboratory science according to Faculty regulations, for a total of twenty courses.

To meet the English requirement, the Department recommends that English 200 be taken in the first year. However, credit will be given for English 210 or any two half-year English courses at the 200-level.

All programs will be arranged in consultation with the Department; departmental approval of the program in any given year is required before registration.

43.12.2 COMBINED HONORS IN GERMAN

A degree with Honors in German and English, German and French, German and Latin, German and Philosophy, German and Russian and other combinations may be awarded to students following a program of studies similar to the one outlined above, except that the number of senior courses in each subject will be as nearly as possible equal and selected in accordance with departmental requirements.

43.12.3 CONCENTRATION IN GERMAN

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.
(b) Students may take any 300 or 400 level course after German 200, 201 or 202, but are advised to discuss their course selections with the Department.

German-speaking students and students beginning their studies with more than matriculation German may be admitted to courses numbering 300 and above in their first year, provided they pass a Departmental placement test and obtain the permission of the Dean of Arts. Such students are required to consult with the Department before registration.

German 330 and 350 may *not* be taken *after* any of the higher-level courses.

Senior, Honors, and Graduate courses in German literature will, in general, be conducted in German.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.
(b) Students who want to develop a strong concentration in German language and literature and other disciplines supporting the study of German culture, such as History, Political Science, Philosophy or Music, should contact the departmental B.A. (Special) Advisor.

43.12.4 CONCENTRATION IN SCANDINAVIAN

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.
(b) The Department of Germanic Languages advises the following sequences:

(1) *For students beginning a Scandinavian language:* Scandinavian 100 in the first year; Scandinavian 300 and 340 or 351/352 in the second year; one or two of Scandinavian 340, 351/352, 375, 380 in the third year.

(2) *For students with matriculation or equivalent:* Scandinavian 300 in the first year; one or two of Scandinavian 340, 351/352, 375, 380 in the second year; one or two of Scandinavian 340, 351/352, 375, 380 in the third year.

(3) Students fluent in one of the Scandinavian languages should consult the Department.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.13 History

43.13.1 HONORS IN HISTORY

An undergraduate may elect to read for Honors in History either at the beginning of the first year or after satisfactory completion of one or two years of the general B.A. degree program. In any case he/she must consult the Department Honors Chairman before being admitted to the program. The degree of B.A. with Honors in History is awarded after satisfactory completion of an Honors essay, proof by the candidate of ability to read a modern language other than English, and the attainment of a satisfactory standard in the examinations taken in the third and fourth years, including a comprehensive examination. If students choose the same field for their Honors essay and comprehensive examination they must include in their program for the second, third and fourth years courses in another field of History to a total equivalent of not less than three full-session courses, including at least the equivalent of one full-session 400-level course.

First year: History 200 or equivalent, English 200 or equivalent, a laboratory science, two approved options (it is strongly advised that one of the options be a language other than English).

Second year: Two senior (300-level) courses in History, two approved options (Classics, Economics, English, Modern Languages, Philosophy, Political Science or Psychology for example), a further option (which may be a third History course).

Third year: Two advanced (400-level) courses in His-

tory, one of which should be in a field related to the topic proposed for the Honors essay of the fourth year; History 498; a senior level half-course in History; two approved options. The language examination must also be taken this year, unless the student elects to take it earlier.

Fourth year: An approved 500-level course in History; History 501 (preparation of the Honors essay); a further course in History (which may be at the 300 level); an approved option from another department.

In certain circumstances courses in Ancient History offered by the Department of Classics are accepted in place of required senior and advanced courses in History.

Not later than the beginning of the third year, students should select, in consultation with the Department, a special subject, on some aspect of which they will write their Honors essay. Instruction in a special subject or subjects is offered by most members of the Department. A few examples of possible special subjects are: Chaucer's England, Elizabethan England, Seventeenth Century France, Revolutionary France, European Imperialism, the Weimar Republic, the Russian Revolution, the Age of Jackson, the Hudson's Bay Company, Franco-Chinese relations.

The Honors essay will be written in the final year under the supervision of a member of the Department, with whom the candidate will confer regularly. The Department may require any candidate for Honors, in addition to submitting his or her essay, to pass an oral or written examination on the subject of the essay.

Every candidate for Honors in History must satisfy the Department of their ability in sight translation from a language other than English, chosen in consultation with the chairman of the Honors program. Language examinations are conducted by the Department at least twice a year: normally they are written in the candidate's second or third year.

In the final year the student is required to write a comprehensive examination in one of the following fields: British Medieval; British Modern; British Empire and Commonwealth; Canadian; American; Medieval European; European, 1500-1789; European 1789 to the present; Russian and East European; East Asian; or Latin American History.

Students should choose their courses with some attention to the comprehensive examination they wish to write. If they wish to write an Honors paper and a comprehensive examination in the same field, they should ensure that they include the required number of courses in another field of History.

Undergraduates wishing to enter a program of East European and Soviet Studies may register for Honors in History. They should then choose their options in accordance with the pattern prescribed by the Dean's office. On the satisfactory completion of the whole program, they qualify to have the notation "East European and Soviet Studies" added to their record.

Programs of combined Honors in History and another subject must be arranged in consultation with the Honors chairmen of both departments. History courses in a combined program will be selected in accordance with the departmental requirements outlined above.

43.13.2 CONCENTRATION IN HISTORY

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.
(b) The Department offers the following advice: Students who select History as a principal subject of concentration are advised to take History 200 or equivalent in their first year. However, students may, except when a prerequisite is specifically required, take any senior History course (those in the 300 range) in their second or third year without a previous course in History. Students in their third year should choose an advanced course (in the 400 range) only if they have taken at least two previous courses in History, though exceptions may be made in the case of students with special interest and an adequate background in other related disciplines. Advanced courses are provided for third-year students who wish some specialization within areas covered generally by senior courses.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.14 Linguistics

43.14.1 HONORS IN LINGUISTICS

The Department of Linguistics offers courses leading to both the B.A. and the B.Sc. degrees with Honors in Linguistics. The B.Sc. Honors program can be found in the Faculty of Science section of the Arts and Science Calendar. The B.A. Honors program in Linguistics should be supported by a minor (4 or 5 full courses) in a field such as Anthropology, Classics, English, Germanic Languages, Psychology, Romance Languages, or Slavic Languages. The B.A. Honors program consists of eight full courses in Linguistics supported by courses in the minor area, plus additional approved options.

Although there are no first-year Honors Linguistics courses, students wishing to begin an Honors program are strongly advised to consult the Department well before the end of the first year. This is especially important for determining the minor area of concentration.

Second year: Linguistics 303/304; two senior half-year courses in Linguistics (such as Linguistics 305, 307, 308, 382, 416) chosen in consultation with the Department; three approved options.

Third year: Linguistics 405, 407, 409/410; two senior half-year courses in Linguistics (such as the above or Linguistics 408, 414, 420, 498) chosen in consultation with the Department; two approved options.

Fourth year: Linguistics 515/516; four senior half-year courses in Linguistics (such as the above or Linguistics 551, 552) chosen in consultation with the Department; two approved options.

43.14.2 CONCENTRATION IN LINGUISTICS

The Department offers courses leading to both the B.A. and B.Sc. degrees. Students are urged to consult the Department regarding these degrees and their program sequences.

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.15 Mathematics

43.15.1 HONORS IN MATHEMATICS

The B.A. Honors in Mathematics is a flexible program. The student can design the degree for a general liberal education or for a specific career.

The Department also offers three different B.Sc. programs with Honors in Mathematics. (See § 183.13.1)

First year: Mathematics 207/208, Mathematics 281/282 or 281/381, English 200 or equivalent; two options.

Second year: Mathematics 307/308; Mathematics 282 or 381, one term Mathematics option, three options.

Third and fourth years: Mathematics 495, Mathematics 442/443, Mathematics 405/406, Mathematics 409/410, Mathematics 425 or 427/428, five options.

Of the ten options, at least seven must be in Arts and at least one must be in a laboratory science. Note that the Faculty allows at most seven junior (200-level) courses. A student should consult the Department of Mathematics as soon as possible for specific suggestions on options in a program.

Each program must be approved by the Honors Committee of the Department. Lists of Mathematics and Statistics courses with their descriptions appear in § 184 of this calendar. For Faculty requirements see § 43.1.1.

43.15.2 CONCENTRATION IN MATHEMATICS

(1) The Degree at B.A. (General)
(a) See § 43.1.2(2)d.

The usual first year calculus course for a general program student in Arts is Mathematics 202/204 or 203/204. However, general program students may take Mathematics 207/208 provided they have the permission of the Department. If students pass Mathematics 207/208, they may apply to the Department for admission to second year Honors. Students with a good record in Mathematics 202/204 or 203/204 may also apply to the Department for admission on the understanding that their record will be considered equivalent to Mathematics 207/208. If such students are granted admission they must satisfy all the requirements of the Honors program they have chosen.

A list of Mathematics courses, together with their descriptions, appears in § 184 of this Calendar.

Students should consult the Department as early as possible regarding the choice of their courses.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.16 Music

43.16.1 HONORS IN MUSIC

The B.A. (Honors) in Music is available to undergraduates with primary interests in music history and/or theory, and with aspirations to proceed into graduate study in those areas. Students are encouraged to seek admission to the program in the first year of university study, but may be admitted later at the discretion of the Department. Prospective honors students in music are advised to register in Music 202, 203, 250, and 251 during their first year. Departmental approval of individual programs is required prior to registration. Students are advised to consult § 43.1.1 of the Arts Calendar when formulating programs, in order to ensure adherence to Faculty regulations and cognizance of requirements for possible transfer to other programs.

(1) *Requirements:*
A. Music:

	Courses	
1. Theory: 250, 251, 350, 351, 352, 361	3.5	
2. History: 202, 203, 301, 304, 402, 505	3.0	
3. Applied Music: 224, 324, 424	1.5	
4. Options (senior theory or history)	3.0	11.0
B. Language:		
1. English: 200, 210 or equivalent	1.0	
2. Other (German, French, Italian, Latin)	2.0	3.0
C. Non-Music Options (Including at least one related history course and an approved laboratory science course) (Arts or Science only)		6.0
Total courses (full session equivalent)		20.0

(2) *Proposed Yearly Format:*

First Year: Music 202, 203, 250, 251; English 200 or equivalent; language; 1 non-music option.

Second Year: Music 224, 301, 304, 350, 351; language; 1 ½ non-music options.

Third Year: Music 324, 352, 361, 402; 2½ non-music options.

Fourth Year: Music 424, 505, 3 music options; 1 non-music option.

43.16.2 CONCENTRATION IN MUSIC

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.

(2) The Degree of B.A. (Special)
(b) See § 43.1.3(2)d.

For the degree of B.Mus., see § 43.1.13.

43.17 Philosophy

43.17.1 HONORS AND COMBINED HONORS IN PHILOSOPHY

Degrees with honors from this Department will fall into two groups.

(1) B.A. with Honors in Philosophy and approved minor subject.

(2) B.A. with Honors in Philosophy combined with another approved subject (e.g., Greek, German, etc.)

Students are advised to consult the Department for information before choosing one of the groups, and in any case, Departmental approval of the final program of studies is required before registration. In the case of students taking combined Honors, the program will be arranged in consultation with the other department concerned.

Honors in Philosophy will require a minimum of nine courses in Philosophy, including the Honors seminar (PHIL 496 and 497) in the third year and the Honors tutorial (PHIL 422, 423, 552 and 553) in the final year. Four courses in a minor subject, or an integrated selection of five or six in a group of subjects will also be required.

Students will arrange their particular program in consultation with an advisor appointed by the Department. In every case the student will be required to obtain a good grounding in the history of philosophy, and provide a demonstration of competence in logic.

43.17.2 CONCENTRATION IN PHILOSOPHY

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.
(b) The Department strongly recommends the following sequences:

Three-course sequence: Philosophy 240 or 250, and two senior options.

Four-course sequence: Philosophy 240 and/or 250, two of Philosophy 341, 343, 345 or 347, and one or two options.

Five-course sequence: Philosophy 240, 250, two of Philosophy 341, 343, 345 or 347, and two options.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d and consult the Department.

43.18 Political Science

43.18.1 HONORS IN POLITICAL SCIENCE

All students are required to demonstrate to the Department, competence in statistical techniques, subject to the right of the Department to waive this requirement in special cases.

First year: Political Science 201/202; an introductory course in English (full-session or equivalent); three options (one to be an approved laboratory science course), chosen in consultation with the Department.

Second year: Two courses in Political Science; three options to be chosen in consultation with the Department.

Third and Fourth years: Before entering the third year, each student will arrange, in consultation with the Department, a program of study and lectures to prepare himself for final comprehensive examinations. Unless it has been taken in earlier years, a course in a language other than English, preferably French or German or Russian, is required.

Students wishing to undertake a program of East European and Soviet studies may register for Honors in Political Science. By choosing their options according to the course requirements set out by the Dean's office, students may qualify to have the notation "East European and Soviet Studies" added to their record upon satisfactory completion of their whole program.

43.18.2 CONCENTRATION IN POLITICAL SCIENCE

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.
(b) The Department advises the following sequences:

For the three, four and five-course sequences: Political Science 201/202 plus the equivalent of two, three or four other full-year senior Political Science courses.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.19 Psychology

43.19.1 HONORS IN PSYCHOLOGY

The Department offers courses leading to the degrees of B.A. and B.Sc. with Honors in Psychology. Students wishing to emphasize the humanities and social sciences in their program should register for the B.A.; those who wish to emphasize the physical and biological sciences should register for the B.Sc. With either degree, the program is especially, but not exclusively, appropriate for students considering postgraduate study, training, or research in pyschology.

The Department requires that students have a 7.0 GPA from the immediately preceding year in order to enter the program, and maintain a 7.0 GPA each year in order to continue in the program. Students are not normally admitted to the first year of Honors in Psychology; they may not enter the program after the beginning of the third year.

Honors in Psychology requires a minimum of eight and a maximum of ten full-session courses (or equivalent) in Psychology including the following: Psychology 309 (prerequisite Mathematics 30 or 100) or, with consent of the Department, Statistics 255 or Computing Science 322; one Science course with laboratory; one Arts course; and the Honors Seminars 306 and 307 and 406 and 407. The Honors Seminars will ordinarily be taken in the second and third years of the student's residence in the Honors program at the University. An important feature of the Honors program is the opportunity for the student to engage in independent study and research. During the third year, students will complete a research apprenticeship and, during the fourth year, the student will write an empirical Honors thesis (Psychology 599), both with the guidance of a faculty member of the Department of Psychology. A minimum of five courses will be taken in related subjects. The courses in related subjects might be all in one field (e.g., Mathematics or Biology) or in several, depending on the student's special interest and relevance of the courses to the subject matter of psychology.

In addition a minimum of five optional courses will be chosen; some of these will be integrated with the program in Psychology while others can be general options.

43.19.2 CONCENTRATION IN PSYCHOLOGY

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.

The Department offers courses leading to both the B.A. and B.Sc. degrees. Students wishing to emphasize the biological sciences in their program should register for the B.Sc.; those wishing to emphasize the humanities and social sciences should register for the B.A. degree.

The Department advises the following sequences:

Three-course sequence: Psychology 260 and 261; Psychology 309; one senior single-term course (with laboratory) listed in the Science section of the Calendar; one senior Psychology course listed in the Arts section of the Calendar.

Four or five-course sequence: As above, plus either one or two senior Psychology courses which may be chosen from the Calendar listings of either Faculty.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.
(b) The Department advises the following sequences:
(i) Psychology 260 and 261.
(ii) Psychology 309 (or, with the consent of the Department, Statistics 255 or Computing Science 322).
(iii) at least one of Psychology 360, 361, 362 or 366.
(iv) at least one of Psychology 341 or 383.

43.20 *Religious Studies*

43.20.1 HONORS IN RELIGIOUS STUDIES

The Department of Religious Studies offers a program leading to the B.A. with Honors. Students must complete a minimum of 10 full courses in Religious Studies with at least 2 drawn from each of the following areas: Thematic and Methodological Studies, Eastern Religions, and Western Religions. Religion 200 or equivalent and one 400-level full-year course are required of all candidates. Under certain conditions, students may substitute up to 2 full-year courses of the required 10 with language courses related to their area of concentration. Every candidate for Honors in Religious Studies must satisfy the Department of his or her ability in sight translation from a language other than English, chosen in consultation with the Department Advisor. It is suggested that students fulfill all requirements for a general B.A. and maintain a strong minor for alternate career choices. All programs must be approved by the Department Advisor before registration. For further information contact the Department of Religious Studies.

43.20.2 CONCENTRATION IN RELIGIOUS STUDIES

(1) The Degree of B.A. (General)
 (a) See § 43.1.2(2)d.

(2) The Degree of B.A. (Special)
 (a) See § 43.1.3(2)d.

43.21 *Romance Languages*

43.21.1 HONORS IN ROMANCE LANGUAGES

The Department of Romance Languages offers various Honors programs requiring study within one or more of the following fields: the French language and its literatures, the Hispanic languages and literatures, Italian language and literature, and Romance Linguistics. Honors programs combining one of these fields with a second subject in another department are also offered. For further information students should apply to the departmental office.

43.21.2 CONCENTRATION IN ROMANCE LANGUAGES

(1) The Degree of B.A. (General)
 (a) See § 43.1.2(2)d.
 (b) Students may concentrate in French and/or French-Canadian, or in Italian, or in Spanish, or in Romance Linguistics. A combination of courses in any one of these areas will be accepted as a subject of concentration.

(2) The Degree of B.A. (Special)
 (a) See § 43.1.3(2)d.
 (b) In the principal subject a minimum of six courses is required by the Department.

NOTE: French-Canadian courses can be taken in meeting requirements for the B.A. degree in Canadian Studies (see § 43.1.6).

43.22 *Slavic Languages*

43.22.1 HONORS IN SLAVIC LANGUAGES

(1) A program of study in either *Russian* or *Ukrainian* with an approved second subject (e.g., French, German, or Comparative Literature, etc.). The program will require eight courses in either Russian or Ukrainian, four courses in the second subject and approved options to a total of twenty courses.

(2) A program of study in *Slavic Languages* with a major in either Russian or Ukrainian, and a minor in Polish, Slavics or Ukrainian (for students majoring in Russian), or in Polish, Russian, or Slavics (for students majoring in Ukrainian). The program will require eight courses in the major, four to six courses in the minor, and six to eight options, for a total of twenty courses. In all programs, the minor must include Slavics 301, 302, and 403, and, in the fourth year, Slavics 515.

(3) A *Combined Honors Program* involving for example, the study of Russian or Ukrainian and an approved second subject such as French, German, or Comparative Literature, etc. Programs in this group will require that the number of senior courses in each subject be as nearly equal as possible.

(4) A special program in *East European and Soviet Studies* with either Russian or Ukrainian serving as the core (a mixture of Russian and Ukrainian courses can be arranged in accordance with departmental requirements). Programs in this group will require six courses in either Russian or Ukrainian, six courses approved by the Dean's office, and approved options to a total of twenty courses.

All programs must include an approved laboratory science course and English 200 or equivalent in the first year and, in subsequent years, such laboratory hours as may be deemed necessary to increase the student's oral proficiency in Russian or Ukrainian.

NOTE: The term "course" in all of the above programs means either one full-session course or two single-term courses.

43.22.2 CONCENTRATION IN POLISH

(1) The Degree of B.A. (General)
 (a) See § 43.1.2(2)d.

43.22.3 CONCENTRATION IN RUSSIAN

(1) The Degree of B.A. (General)
 (a) See § 43.1.2(2)d.
 (b) The Department advises the following course sequences:

Three-course sequence: Russian 100, 303 and 304, and any two senior single-term courses.

Four-course sequence: Russian 100, 303 and 304, 401 and 402, and any two senior single-term courses.

Five-course sequence: Russian 100, 303 and 304, 401 and 402, and any four senior single-term courses.

(2) The Degree of B.A. (Special)
 (a) See § 43.1.3(2)d.

43.22.4 CONCENTRATION IN UKRAINIAN

(1) The Degree of B.A. (General)
 (a) See § 43.1.2(2)d.
 (b) The Department advises the following course sequences:

Three-course sequence: Ukrainian 100, 303 and 304, and any two senior single-term courses, or Ukrain-

ian 200, 361 and 362, and any two single-term courses at the 400 level.

Four-course sequence: Ukrainian 100, 303 and 304, 361 and 362, and any two single-term courses at the 400 level; or Ukrainian 200, 361 and 362, and any four single-term courses at the 400 level.

Five-course sequence: Ukrainian 100, 303 and 304, 401 and 402, and any four single-term courses at the 400 level; or Ukrainian 200, 361 and 362, and any six single-term courses at the 400 level.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.

43.23 Sociology

43.23.1 HONORS IN SOCIOLOGY

Degrees with Honors in Sociology will require eight to ten courses in Sociology. Depending on the special interests of the student, five or six courses in a related minor subject will be taken. The minor may be all in one field or in two fields, the latter option contingent upon Departmental approval. An additional five or six courses outside the field of Sociology and the minor will be required to complete the program. Departmental approval of the final program is required before registration.

Students in the Honors program are encouraged to obtain a working knowledge of a modern language other than English, preferably French.

The usual program in Honors Sociology is shown below. All required courses are listed.

NOTE: Options referred to below are all full-year courses or their half-year equivalents. Required courses marked with an asterisk are half-year courses.

First year: Sociology 202, English 200 or equivalent, a laboratory science, a non-social science option, an option.

Second Year: Sociology 400*, Sociology 311 or equivalent, Sociology 341* (or Psychology 341*), Sociology 351*, Sociology 361*, a minor option, an option.

Third year: Sociology 404* or 405*, Sociology 332*, Sociology 333*, a Sociology option*, two minor options, an option.

Fourth Year: Sociology 409, one Sociology option at the 400 level, a minor option, two options.

Students in the fourth year of study will be required to complete successfully a major paper (the Honors essay) and to pass a comprehensive examination. The comprehensive examination may be written or oral in format and is supervised by at least two faculty members. At least one member of the Comprehensive Examination Committee must be selected from the Sociology Department.

43.23.2 CONCENTRATION IN SOCIOLOGY

(1) The Degree of B.A. (General)
(a) See § 43.1.2(2)d.
(b) The Department advises the following sequences:

Three-course sequence: Sociology 202 and two senior Sociology courses;

Four-course sequence: Sociology 202 and three senior Sociology courses (including one 400 level course);

Five-course sequence: Sociology 202 and four senior Sociology courses (including one 400 level course).

Students interested in proceeding to graduate work in Sociology should take Sociology 311 and 332, and are encouraged to consult with the Department early in their university career.

(2) The Degree of B.A. (Special)
(a) See § 43.1.3(2)d.
(b) Students must take the following Sociology courses as part of their program: Sociology 202, 311, 341*, 361*, 332*, 333*, and a Sociology option* at the 400 level.

NOTE: Those courses marked with an asterisk (*) are half-year courses.

44 DETAILS OF COURSES

44.1 General Information

Courses are listed alphabetically by discipline designation, e.g., Art, English, Interdisciplinary Studies, etc.

Each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their registration forms.

Courses numbered 100 to 199 are introductory, usually equivalent to high school courses. Those numbered 200 to 299 are junior courses, normally taken by first-year undergraduates. Those numbered 300 to 499 are senior courses, normally taken after the first year. Courses numbered 500 and up are normally restricted to Graduate students and fourth year Honors students.

Following the title of the course is the symbol "★", standing for "course weight", and a number indicating the weight of the course as used in computing grade-point averages. Some courses are offered for credit only, and carry no weight.

In parentheses, after the course weight, will be found the term in which the course is offered and the weekly lecture, seminar and laboratory hours. The latter are arranged according to the following three-position format:

First position:
lecture hours

Second position:
s — seminar hours
d — demonstration hours
c — clinic hours
L — lecture-laboratory hours

Third position:
laboratory hours.

Examples: (First Term, 3-0-3) means 3 hours lecture, no seminar, three hours lab per week.

(Second Term, 0-1s-2) means no lectures, 1 seminar hour, and two lab periods per week.

(either term, 3-0-0) means three lecture hours per week, no seminar, and no lab.

NOTE 1. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated.

NOTE 2. "either term" means that the course may be offered either in the first term or in the second term or in both terms, at the discretion of the department concerned.

Some departments offer reading courses designed to fit the interests of advanced students not covered in the departments' other courses. Interested students should seek departmental assistance.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

NOTE: § 44.2 Reserved.

44.3 Anthropology

44.3.1 JUNIOR COURSES

ANTHR 202. *Man and Culture.* ★6 (3-0-0). An introduction to anthropological thought concerning such topics as race, evolution, culture growth, and culture change. Not open to students with credit in ANTHR 306 or 307.

ANTHR 250. *Race and Racism in the Modern World.* ★3 (either term, 3-0-0). The challenge of racism in modern societies and the response of anthropology, including the history of the "race" concept in explaining human variation and the uses of racialist notions in discussions of individual and social differences.

44.3.2 SENIOR COURSES

ANTHR 306. *Introduction to Prehistory.* ★3 (either term, 3-0-0). The nature, purposes, theory, and methods of prehistory and its relation to anthropology as a whole. Note: Not open to students who have taken ANTHR 202.

ANTHR 307. *Introduction to Social and Cultural Anthropology.* ★3 (either term, 3-0-0). The comparative study of human society and culture, particularly non-Western communities, with special attention to the family, social structure, economics and political institutions, and religion; processes of change. Note: Not open to students who have taken ANTHR 202.

ANTHR 308. *Introduction to Linguistic Anthropology.* ★3 (either term, 3-0-0). The anthropological study of language and communication. A brief survey of field and analytical methods and the theory of linguistic anthropology.

ANTHR 309. *Introduction to Physical Anthropology.* ★3 (either term, 3-0-0). Survey of theory and basic data in human evolution and human variation. Topics include primatology, osteology, hominoid paleontology, variation in modern populations.

ANTHR 319. *World Prehistory.* ★3 (either term, 3-0-0). A survey of the archaeological evidence for human cultural evolution.

ANTHR 325. *Anthropology and World Problems.* ★6 (3-0-0). An anthropological approach to the culture of capitalism, the social structure of colonial and neocolonial relations, and the emergence of new societies.

ANTHR 327. *Indigenous and Cultural Minorities in the Modern World.* ★6 (3-0-0). The survival of indigenous and minority cultures in various societies. Anthropological perspectives on the relationships among race, class, culture, and politics, and on genocide, ethnocide, and the future of native peoples in the modern state. Prerequisite: An introductory course in social or cultural anthropology or sociology.

ANTHR 330. *Technology in Culture.* ★3 (either term, 3-0-0). An anthropological introduction to the evolution of tools and techniques; the adaptation of society to environment through technology; the interrelationship of technology, ideology, and social organization.

ANTHR 345. *Prehistory of Western and Central Europe.* ★3 (either term, 3-0-0). A survey of the prehistory of Europe (excluding the areas of classical civilizations) from the Mesolithic through the Iron Age: ca. 10,000 to 400 B.C.

ANTHR 346. *Peoples and Cultures of the Circumpolar Region.* ★3 (either term, 3-0-0). Comparative study of indigenous Arctic and sub-Arctic societies. Archaeological and ethnological considerations of northern societies of the Old and New Worlds.

ANTHR 350. *Indians of North America.* ★6 (3-0-0). A survey of North American Indian cultures and civilizations. Special attention given to social organization, economic systems, prehistoric and historic social change. Some emphasis on Indians of Canada in historic and present-day perspectives.

ANTHR 355. *Contemporary Canadian Native Peoples.* ★3 (either term, 3-0-0). Anthropological perspective on some current situations of native peoples in Canada.

ANTHR 361. *Peoples and Cultures of Middle America.* ★3 (either term, 3-0-0). A review of the cultural history of the native peoples of Mexico and Guatemala. Analysis of contemporary Indian communities. Note: Formerly part of ANTHR 360.

ANTHR 362. *Peoples and Cultures of South America.* ★3 (either term, 3-0-0). A review of the cultural history of the native peoples of South America. Analysis of contemporary Indian communities. Note: Formerly part of ANTHR 360.

ANTHR 370. *Peoples and Cultures of Oceania.* ★3 (either term, 3-0-0). Historical, economic, and environmental factors which have helped shape major cultures and subcultures of the central and southern Pacific region (Polynesia, Micronesia, Melanesia, and Australia).

ANTHR 371. *People and Cultures of Southeast Asia.* ★3 (either term, 3-0-0). Cultures and societies in Southeast Asia: Burma, Thailand, Malaysia, Cambodia, Laos, Vietnam, Indonesia, and the Philippines; origins and developments, modern forms, trends of change.

ANTHR 372. *Culture and Society of India.* ★3 (either term, 3-0-0). The development of Indian culture and society; social structure, religion, technology, economy, and polity in anthropological perspective.

ANTHR 373. *Peoples and Cultures of the Middle East.* ★6 (3-0-0). The major culture groups in the predominantly Islamic region extending from Morocco to Afghanistan; origins and development, modern forms, trends of change.

ANTHR 375. *Peoples and Cultures of Sub-Saharan Africa.* ★6 (3-0-0). The indigenous cultures of the sub-Saharan part of the continent, with emphasis on present-day trends of change.

ANTHR 377. *Afro-American Society and Culture.* ★6 (3-0-0). Anthropological perspectives on the key problems of Afro-American life; slavery, racism, race and class, oppression, and colonialism. Descriptive materials from Canada, the United States, the Caribbean, and Latin America.

ANTHR 378. *Culture and Society of China.* ★3 (either term, 3-0-0). The development of Chinese culture and society; social structure, religion, technology, economy, and polity in anthropological perspective. Note: Formerly part of ANTHR 374.

ANTHR 379. *Culture and Society of Korea.* ★3 (either term, 3-0-0). The development of Korean culture and society; social structure, religion, technology, economy, and polity in anthropological perspective. Note: Formerly part of ANTHR 374 and 376.

ANTHR 380. *Culture and Society of Japan.* ★3 (either term, 3-0-0). Historical background, ethos and personality, social structure, religion, art, and modernization. Note: Formerly part of ANTHR 376.

ANTHR 390. *Human Evolution.* ★6 (3-0-3). Hominoid paleontology and micro-evolutionary change in the primates. Note: This course is accepted to meet the laboratory science requirement in B.A. programs. Prerequisite: ANTHR 309, or a course in biology or zoology, or consent of the Department.

ANTHR 391. *Topics in Human Evolution.* ★6 (3-0-0). Primate paleontology and micro-evolution. Prerequisites: ANTHR 202, or 309, or a course in biology or zoology, or consent of the Department.

ANTHR 392. *Primate Behavior.* ★3 (either term, 3-0-0). Emphasis on field studies of non-human primates. Topics to include: social organization, behavior and ecology, territorial behavior communication, reproductive behavior, and other relevant topics.

ANTHR 396. *Archaeological Field Training.* ★6 (Spring or Summer Session, 3-0-3). Instruction in all practical aspects of archaeological field techniques, including excavation, survey, recording, photography, and conservation. Held at a selected location in Alberta during both Spring and Summer Sessions. Prerequisites: ANTHR 202, or 306, or equivalent, and consent of the Department.

ANTHR 399. *Third-Year Honors Seminar.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

ANTHR 404. *Human Biology.* ★6 (3-0-0). The study of variation in human populations. Topics discussed include serology, ecology, growth, and constitution. Prerequisite: One of ANTHR 309, 390, 391, 392, or consent of the Department.

ANTHR 405. *Old World Prehistory I.* ★3 (either term, 3-0-0). The development of prehistoric culture in Europe, Africa, and Asia during the lower and middle Paleolithic. Prerequisite: ANTHR 202, or 306, or consent of the Department. Note: Formerly part of ANTHR 401.

ANTHR 406. *Old World Prehistory II.* ★3 (either term, 3-0-0). The development of prehistoric culture in Europe, Africa, and Asia during the upper Paleolithic and Neolithic. Prerequisite: ANTHR 202, or 306, or consent of the Department. Note: Formerly part of ANTHR 401.

ANTHR 410. *Sex and Status in Comparative Perspective.* ★3 (either term, 3-0-0). Sexual status as a biological and as a cultural phenomenon. The social position of women in various societies. Prerequisite: A senior-level course in anthropology or sociology.

ANTHR 411. *New World Prehistory.* ★6 (3-0-0). A survey of the prehistoric development of culture in the New World. Prerequisite: ANTHR 202, or 306, or consent of the Department.

ANTHR 412. *Slavery and Slave Societies.* ★3 (either term, 3-0-0). Slavery as an organization of production and its implications for social and economic development. Prerequisite: ANTHR 202, or 307, or introductory course in sociology or history. Note: ANTHR 325, or 327, or 377, and HIST 362 recommended.

ANTHR 413. *Social Structure.* ★6 (3-0-0). Anthropological theory and method concerning the analysis of kinship systems and other concepts of social organization with emphasis on data derived from non-Western societies. Prerequisite: ANTHR 202, or 307, or consent of the Department.

ANTHR 414. *Peasant Society and Culture.* ★3 (either term, 3-0-0). The analysis of modes of production, social organization and other aspects of culture in agrarian societies, including anthropological perspectives on development. Prerequisites: ANTHR 307 and one other 300-level course. Note: Formerly ANTHR 417.

ANTHR 415. *History of Anthropology.* ★3 (either term, 3-0-0). A discussion of major figures and theories of anthropology, intended as a background to current problems. Prerequisite: ANTHR 202 and one other course in anthropology.

ANTHR 418. *Political Anthropology.* ★3 (either term, 3-0-0). An introduction to modern political anthropology with emphasis on the origins of state structures, the relations between non-state and state societies, and the problems of pluralism and stratification. Prerequisites: ANTHR 307 and one other 300-level course.

ANTHR 419. *Pastoral Societies.* ★3 (either term, 3-0-0). A cross-cultural survey of both nomadic and sedentary forms of pastoral adaptions stressing the relationship between herding and patterns of social organization, technology, ideology, and values. Prerequisite: ANTHR 202, or 307, or consent of the Department.

ANTHR 420. *Anthropology of Religion.* ★6 (3-0-0). Supernatural beliefs and practices in primitive and peasant cultures, including magic, shamanism, priesthoods, taboos, and folk-beliefs. Evolutionary, historical, and functional theories of religion. Prerequisite: A course in anthropology or sociology, or consent of the Department.

ANTHR 421. *Revitalization Movements in Anthropological Perspective.* ★3 (either term, 3-0-0). The anthropological study of emerging religions; the relation of revitalization movements to social, political, and economic conditions.

ANTHR 423. *Ecological Anthropology.* ★3 (either term, 3-0-0). A consideration of the relationships between culture and the environment. Problems involving the application of basic ecological concepts and principles to human societies and evaluation of various explanatory frameworks regarding cultural adaptations. Prerequisite: ANTHR 202, or 308, or 307, or consent of the Department. Note: Formerly part of ANTHR 422.

ANTHR 424. *Economic Anthropology.* ★3 (either term, 3-0-0). An introduction to the literature and controversies within the field, with special emphasis on systems of exchange. Prerequisite: ANTHR 202, or 307, or consent of the Department.

ANTHR 425. *Anthropology of Work and Production.* ★3 (either term, 3-0-0). The organization of work and production, with emphasis on the effects of development on subsistence economies. Prerequisite: ANTHR 202, or 307, or consent of the Department.

ANTHR 426. *Anthropological Perspectives in Ethnomusicology.* ★3 (either term, 3-0-0). Theory and method in the anthropological study of non-Western music. Prerequisite: ANTHR 202, or 307, or consent of the Department.

ANTHR 427. *Creative Expression I.* ★3 (either term, 3-0-0). Anthropological theory and method as applied to the study of the visual arts. Topics include the role of art in the evolution of man; general theories of art; and the relation between art, personality, and culture. Prerequisite: ANTHR 202, or 307, or consent of the Department. Note: Formerly part of ANTHR 425.

ANTHR 428. *Creative Expression II.* ★3 (either term, 3-0-0). Anthropological theory and method as applied to the study of primarily verbal arts such as mythology and folklore. Prerequisite: ANTHR 202, or 307, or consent of the Department. Note: Formerly part of ANTHR 425.

ANTHR 431. *Multilingualism.* ★3 (either term, 3-0-0). Emphasis will be on multilingual communities. Prerequisite: ANTHR 202, or 308, or consent of the Department.

ANTHR 433. *Ethnographic Semantics.* ★3 (either term, 3-0-0). To deal with the problem of classificatory categories of non-Indo-European languages. Prerequisite: ANTHR 202, or 308, or consent of the Department.

ANTHR 434. *Language Learning in Cultural Context.* ★3 (either term, 3-0-0). The ethnographic study of language learning and language use. Specific topics will include the study of primate communication, non-verbal communication systems, rule of communicative competence, and cross-cultural variation in teaching and socialization. Prerequisite: ANTHR 308 or consent of the Department.

ANTHR 435. *Language Prehistory.* ★3 (either term, 3-0-0). Language in time perspective and the reconstruction of culture history. Prerequisites: ANTHR 308, LING 201/202, or consent of the Department.

ANTHR 445. *Circumpolar Prehistory.* ★3 (either term, 3-0-0). A critical examination of archaeological method and theory applied to the circumpolar regions. Prerequisites: ANTHR 346, one other course in anthropology, or consent of the Department.

ANTHR 446. *Circumpolar Ethnology.* ★3 (either term, 3-0-0). A critical examination of anthropological models applied to traditional societies in the circumpolar regions. Prerequisites: ANTHR 346, one other course in anthropology, or consent of the Department.

ANTHR 447. *Culture and the Individual I.* ★3 (First Term, 3-0-0). A cross-cultural examination of the individual in society and culture and of the development of personality. Prerequisite: ANTHR 202, or 307, or consent of the Department. Note: Formerly part of ANTHR 442.

ANTHRO 448. *Culture and the Individual II.* ★3 (Second Term, 3-0-0). A continuation of 447. Examines decision making and behavior in interaction with the environment. Prerequisite: ANTHR 447 or consent of the Department. Note: Formerly part of ANTHR 443.

ANTHR 460. *Contemporary Anthropological Theory and Method.* ★3 (either term, 3-0-0). Examination of logical structure of research design, concept formation and explanation patterns in modern anthropology aimed at integrating existing knowledge of the field. Prerequisites: 3 to 4 courses in anthropology, and consent of the Department.

ANTHR 461. *Theory in Social Anthropology.* ★6 (3-0-0). A comparative examination of several contemporary social anthropological theories of the structure of society including functionalism, adaptation-evolutionary theory, structuralism, and Marxism. Prerequisite: ANTHR 202, or 307, or consent of the Department.

ANTHR 462. *Culture Change.* ★6 (3-0-0). Theories of the nature of socio-cultural systems and the process of change, with some emphasis upon their application to contemporary situations. Prerequisite: ANTHR 202, or 307, or consent of the Department.

ANTHR 463. *The Origins of Food Production.* ★3 (either term, 3-0-0). Archaeological evidence for the development of food production in the Old and New Worlds, discussed in the context of the major explanatory theories advanced. Prerequisite: ANTHR 202, or 306, or 319, or consent of the Department.

ANTHR 465. *Enculturation, Cultural Transmission and Cultural Change.* ★3 (either term, 3-0-0). The ethnographic study of education and cultural change. Prerequisite: ANTHR 202, or 307, or 325, or 350, or 355. Note: Formerly part of INT D 416.

ANTHR 470. *American Indian Linguistics.* ★6 (3-0-0). The study of Amerindian languages with special reference to problems of classification, to socio-cultural correlates of structural characteristics, and to the use of non-linguistic evidence for linguistic prehistory. Prerequisites: ANTHR 308, LING 301/302, or consent of the Department. Note: Formerly INT D 470.

ANTHR 471. *Readings in Anthropology I.* ★3 (First Term, 3-0-0). Prerequisite: Consent of the Department.

ANTHR 472. *Readings in Anthropology II.* ★3 (Second Term, 3-0-0). Prerequisite: Consent of the Department.

ANTHR 478. *Advanced Studies in Latin American Indian Communities.* ★3 (either term, 3-0-0). Analysis and comparison of selected Indian communities. Emphasis on cultural ecology, social organization, values and world view, and relations with non-Indian society. Prerequisite: ANTHR 361, or 362, or another course on Latin America, or consent of the Department.

ANTHR 480. *Method and Theory in Prehistoric Archaeology.* ★6 (3-0-0). A comprehensive survey of the methods and techniques used in prehistoric archaeology, including auxiliary sciences; conceptual approaches and models used for interpreting archaeological data and cultural history; the relation of explanatory theory in cultural history to anthropology as a whole. Prerequisite: ANTHR 202, or 306, or consent of the Department.

ANTHR 482. *North American Regional Ethnology.* ★6 (3-0-0). Selected and comparative studies of North American Indian cultures. Special emphasis upon the relevance of North American ethnology to anthropological theory and method. Prerequisite: ANTHR 307 or consent of the Department.

ANTHR 483. *Cree Language and Culture.* ★6 (3-0-0). The Cree language is taught in collaboration with a native speaker in the context of its use in Cree communities. Indian etiquette and world view are salient in the cultural portions of this course. Prerequisite: An introductory course in ANTHR, or LING, or consent of the Department.

ANTHR 484. *Readings in Anthropology.* ★3 (either term, 0-3s-0).

ANTHR 485. *Readings in Social Anthropology.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

ANTHR 486. *Advanced Readings in Anthropology.* ★3 (either term, 0-3s-0).

ANTHR 487. *Readings in Regional Ethnology.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

ANTHR 488. *Field and Laboratory Methods in Paleoenvironmental Studies.* ★3 (First Term, 3-0-3). Prerequisite: Consent of the Department.

ANTHR 489. *Faunal Analysis for Archaeologists.* ★6 (0-3s-3). Seminar and laboratory analysis of faunal remains from archaeological sites. Prerequisite: Consent of Department.

ANTHR 490. *Human Osteology for Archaeologists.* ★3 (either term, 0-3s-3). Seminar and laboratory work on human osteology and prehistoric human skeletons. Prerequisite: Consent of Department. Note: Not open to medical students.

ANTHR 491. *Stone Tools.* ★3 (either term, 3-0-3). A methodological and theoretical introduction to the analysis of stone tools. Prerequisite: ANTHR 202 or 306, or consent of the Department.

ANTHR 492. *Problems in Primate Behavior.* ★3 (either term, 3-0-0). Examines kin selection in primates, sexual differentiation of behavior, evolution of primate behavior patterns, appropriateness of infraprimate analogies to human behavior. Prerequisite: ANTHR 392.

ANTHR 494. *Quarternary Environments II.* ★3 (Second Term, 3-0-0). A comprehensive survey of the Quarternary as a biologic and human environment. Prerequisite: GEOL 484 *(Quarternary Environments I).* Note: Formerly part of ANTHR 498.

ANTHR 495. *Archaeological Methods.* ★6 (3-0-3). The application of archaeological theory and methods to field and laboratory problems. Prerequisite: ANTHR 202, or 306, or 396, or consent of the Department.

ANTHR 496. *Advanced Readings in Anthropology.* ★6 (0-3s-0) Prerequisite: Consent of the Department.

ANTHR 497. *Early Man in the New World.* ★6 (3-0-0). A critica appraisal of data and theory bearing upon the entry, dispersion, and settlement of man in the Americas. Prerequisite Consent of the Department.

ANTHR 498. *Paleo-environmental Studies.* ★3 (either ter 3-0-0). Lectures on the use of ecological, geological, and cu tural data for the reconstruction and analysis of the role o humans in a prehistoric ecosystem. Prerequisites: GEOL 484 and ANTHR 494, or consent of the Department.

ANTHR 499 *Fourth-Year Honors Seminar and Honors Paper.* ★ (0-3s-0). Prerequisite: Consent of the Department.

44.3.3 HONORS AND GRADUATE COURSES

ANTHR 501. *History of Anthropology.* ★3 (either term, 0-3s-0) The development of the anthropological disciplines Prerequisite: Consent of the Department.

ANTHR 502. *General Scope of Anthropology.* ★6 (0-3s-0) Prerequisite: Consent of the Department.

ANTHR 503. *The Anthropology of Conflict.* ★6 (0-3s-0). Semina in cross-cultural research. Note: Restricted to graduate an honors students in Anthropology and Sociology except wit consent of the Department.

ANTHR 504. *Methods in Ethnology and Social Anthropology.* ★ (0-3s-3). Note: Restricted to graduate students an fourth-year honors students in Anthropology except with con sent of the Department.

ANTHR 505. *Field Methods in Ethnology and Social Anthropo ogy.* ★6 (0-3s-0). Note: Restricted to graduate students an fourth-year honors students in Anthropology except with con sent of the Department.

ANTHR 507. *Seminar in Linguistic Anthropology.* ★6 (0-3s-0) Selected topics in the area of the relations between cultur and language. Prerequisite: Graduate or fourth-year honor standing in Anthropology.

ANTHR 508. *Methods in Linguistic Anthropology.* ★3 (eithe term, 0-3s-3). Selected topics in field methods and analyti techniques used by linguistic anthropologists, and their exten sions in socio-cultural anthropology. Prerequisite: Consent o the Department.

ANTHR 510. *Theory of Culture.* ★6 (0-3s-0). Past and curren thought concerning the nature of culture and cultural change and such concepts as cultural evolution, diffusion, invention acculturation, patterns, and themes. Relation of theory t problems of planned culture change in underdeveloped areas Note: Open to fourth-year honors or graduate students in An thropology, or to others with consent of the Department.

ANTHR 515. *Seminar: The Transmission of Culture.* ★6 (0-3s-0) Note: Restricted to graduate students in Anthropology, Soci ology, or Education, except with the consent of the Depart ment.

ANTHR 516. *Selected Problems of Modern East Asia.* ★ (0-3s-0). Prerequisite: Restricted to graduate students an fourth-year honors students in Anthropology, except with con sent of the Department.

ANTHR 525. *Seminar: Problems in the Anthropology of Art.* ★3 (either term, 0-3s-0).

ANTHR 530. *Comparative Agrarian Societies.* ★6 (0-3s-0). Note Restricted to graduate students in Anthropology, Sociology and Political Science, except with consent of the Department.

ANTHR 535. *Anthropology and the Nation-state.* ★6 (0-3s-0) Restricted to graduate students in Anthropology, Sociology Political Science, or Economics. Prerequisite: Consent of the Department.

ANTHR 537. *Seminar in Anthropology of Development.* ★ (0-3s-0). Note: Restricted to graduate or fourth-year honor students in Anthropology.

ANTHR 540. *Conference Course in Regional Ethnology.* ★ (0-3s-0).

ANTHR 541. *Conference Course in Regional Archaeology.* ★ (0-3s-0).

ANTHR 542. *Individual Research.* ★6 (0-3s-0).

ANTHR 544. *Advanced Readings in Social Anthropology.* ★ (0-3s-0).

ANTHR 549. *Advanced Readings in Regional Ethnology.* ★ (0-3s-0).

ANTHR 550. *Topics in Social and Cultural Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 551. *Topics in Social and Cultural Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 552. *Topics in Archaeology and/or Physical Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 553. *Topics in Archaeology and/or Physical Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 554. *Seminar in Social and Cultural Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 555. *Seminar in Social and Cultural Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 556. *Seminar in Archaeology and/or Physical Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 557. *Seminar in Archaeology and/or Physical Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 558. *Contemporary Problems in Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 559. *Contemporary Problems in Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 590. *Advanced Physical Anthropology.* ★6 (0-3s-3). Prerequisite: ANTHR 390 or consent of the Department.

ANTHR 591. *Advanced Readings in Archaeology.* ★6 (0-3s-0).

ANTHR 592. *Current Problems in the Study of Fossil Hominidae.* ★3 (either term, 0-3s-0). Prerequisite: ANTHR 390 or consent of the Department.

ANTHR 595. *Seminar in Archaeology.* ★6 (0-3s-3).

ANTHR 598. *Prehistoric Cultural Ecology.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

ANTHR 599. *Seminar in Paleoenvironmental Studies.* ★3 (Second Term, 0-3s-0). Prerequisites: ANTHR 488, and 498, or consent of the Department.

ANTHR 616. *Topics in Social and Cultural Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 617. *Topics in Social and Cultural Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 618. *Topics in Archaeology and/or Physical Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 619. *Topics in Archaeology and/or Physical Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 620. *Seminar in Social and Cultural Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 621. *Seminar in Social and Cultural Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 622. *Seminar in Archaeology and/or Physical Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 623. *Seminar in Archaeology and/or Physical Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 624. *Contemporary Problems in Anthropology I.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

ANTHR 625. *Contemporary Problems in Anthropology II.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

44.4 Arabic

Department of Classics

44.4.1 JUNIOR COURSE

ARAB 100. *Introductory Literary Arabic.* ★6 (3-0-2). Pronunciation and grammar of Arabic from the Qur'an.

44.4.2 SENIOR COURSES

ARAB 300. *Intermediate Literary Arabic.* ★6 (3-0-0). Reading of classical and modern texts. Prerequisite: ARAB 100 or consent of the Department.

ARAB 400. *Advanced Literary Arabic.* ★6 (3-0-0). Selected readings from classical and contemporary Arabic authors. Prerequisite: ARAB 300 or consent of the Department. Note: This course will not be offered until 1982-83.

44.5 Art and Design

NOTE: The Department of Art and Design normally retains examples of students' work executed for class projects in Studio Courses.

Students enrolled in a B.A. (Special) or B.A. (General) program with their principal subject of concentration in Art may elect to take INT D 300 as either an Arts option or as one of the courses for credit within the requirements of the principal subject.

Students enrolled in the B.F.A. (Art and Design) program may elect to take INT D 300 as an Arts option only.

44.5.1 JUNIOR COURSES IN THE HISTORY OF ART AND DESIGN

ART H 201. *Introduction to the History of Art I.* ★3 (either term, 3-0-0). Introduction to European Art from the Middle Ages to the seventeenth century by analysis of selected works and movements. Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 250.

ART H 202. *Introduction to the History of Art II.* ★3 (either term, 3-0-0). Introduction to the art of the seventeenth, eighteenth, nineteenth and twentieth centuries by analysis of selected works and movements. Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 251.

ART H 250. *Survey of Western Art I.* ★3 (either term, 3-0-0). A survey of Western Art to the end of the Middle Ages. Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 201.

ART H 251. *Survey of Western Art II.* ★3 (either term, 3-0-0). A survey of Western Art from the beginning of the Renaissance to the present day. Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 202.

44.5.2 JUNIOR COURSES IN STUDIO

ART 231. *Visual Fundamentals.* ★6 (2-0-4). A studio based introduction to the exploration and production, in two and three dimensions, of visually expressed information. Note: Not open to students with credit in ART 232. Full course offered in the First Term.

ART 232. *Visual Fundamentals.* ★6 (2-0-4). A studio based course that provides B.F.A. students with an introduction to the exploration and production, in two and three dimensions, of visually-expressed information. Note: Restricted to B.F.A. students.

ART 233. *Visual Fundamentals.* ★6 (2-0-4). A studio based course that provides B.F.A. students with a further concentration in the exploration and production, in two and three dimensions, of visually expressed information. Prerequisite: ART 232 and consent of the department. Note: Full course offered in the First Term.

ART 240. *Drawing.* ★3 (either term, 2-0-4). Study of the principles and techniques of drawing. Note: Restricted to B.F.A. students.

44.5.3 SENIOR COURSES IN THE HISTORY OF ART AND DESIGN

ART H 300. *East Asian Art I.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of China from Shang to Sung. Note: Formerly part of ART 303.

ART H 301. *Medieval Art I.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of the early Middle Ages (fourth to eleventh centuries) in Europe. Note: Formerly part of ART 301.

ART H 302. *Renaissance Art I.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of the fifteenth century in Europe. Note: Formerly part of ART 302.

ART H 303. *Art in the Seventeenth Century.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of the early Baroque in Europe. Note: Formerly part of ART 402.

ART H 304. *Canadian Art I.* ★3 (either term, 3-0-0). The history of painting, sculpture and architecture from the seventeenth century to the end of the nineteenth century in Canada. Note: Formerly part of ART 304.

ART H 305. *Nineteenth Century Art I.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of the first half of the nineteenth century in Europe. Note: Formerly part of ART 400.

ART H 306. *Twentieth Century Art I.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of the first half of the twentieth century. Note: Formerly part of ART 401.

ART H 307. *History of Design I.* ★3 (either term, 3-0-0). The history of the design and ornamentation of useful objects in the Western European tradition up to the industrial revolution. Note: Formerly part of ART 309.

ART H 350. *East Asian Art II.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of Japan from archaic time to Edo. Note: Formerly part of ART 303.

ART H 351. *Medieval Art II.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of the later Middle Ages (eleventh to fifteenth centuries) in Europe. Note: Formerly part of ART 301.

ART H 352. *Renaissance Art II.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of the sixteenth century in Europe. Note: Formerly part of ART 302.

ART H 353. *Art in the Eighteenth Century.* ★3 (either term, 3-0-0). The history of the art, architecture, and applied arts of the later Baroque and Rococo in Europe. Note: Formerly part of ART 402.

ART H 354. *Canadian Art II.* ★3 (either term, 3-0-0). The history of painting, sculpture and architecture of the twentieth century in Canada. Note: Formerly part of ART 304.

ART H 355. *Nineteenth Century Art II.* ★3 (either term, 3-0-0). The history of the art, architecture and applied arts of the second half of the nineteenth Century in Europe. Note: Formerly part of ART 400.

ART H 356. *Twentieth Century Art II.* ★3 (either term, 3-0-0). The history of the art, architecture and applied arts of the second half of the twentieth century. Note: Formerly part of ART 401.

ART H 357. *History of Design II.* ★3 (either term, 3-0-0). The history of the design and ornamentation of useful objects since the industrial revolution. Note: Formerly part of ART 309.

ART H 404. *Aspects of Early Canadian Art.* ★3 (either term, 0-3s-0). Prerequisite: ART H 304 or consent of the Department. Note: Formerly part of ART 404/406.

ART H 405. *Aspects of Art from the First Half of the Nineteenth Century.* ★3 (either term, 0-3s-0). Neo-Classicism, Romanticism, Realism, Pre-Raphaelitism, etc. Prerequisite: ART H 305 or consent of the Department. Note: Formerly part of ART 406.

ART H 406. *Aspects of Art from the Beginning of the Twentieth Century.* ★3 (either term, 0-3s-0). Cubism, Constructivism, Suprematism, Surrealism, Dada, etc. Prerequisite: ART H 306 or consent of the Department. Note: Formerly part of ART 406.

ART H 407. *Aspects of Design in the Nineteenth Century.* ★3 (either term, 0-3s-0). Theories of Design, Functionalism and Ornament, The Arts and Crafts Movement, Design and Mechanization, etc. Prerequisite: ART H 357 or consent of the Department. Note: Formerly part of ART 409.

ART H 408. *Special Topics I.* ★3 (either term, 0-3s-0). Topics other than those listed in 400-level courses. Prerequisite: Consent of the Department. Note: Formerly part of ART 403/404/405.

ART H 409. *Bibliography and Methods.* ★3 (either term, 0-3s-0). Research techniques used in the History of Art and Design. Prerequisite: Consent of the Department. Note: Formerly part of ART 409.

ART H 450. *Aspects of Museology.* ★3 (either term, 0-3s-0). Discussion and practical study of museum operation from the point of view of the art historian and curator, including care, preservation, and display of works of art. Prerequisites: two senior ART H courses and consent of the Department. Note: Formerly part of ART 407.

ART H 454. *Aspects of Twentieth Century Canadian Art.* ★3 (either term, 0-3s-0). Regionalism, Landscape, Abstraction ism. Prerequisite: ART H 354 or consent of the Department Note: Formerly part of ART 406.

ART H 455. *Aspects of Art from the Second Half of the Nineteenth Century.* ★3 (either term, 0-3s-0). Impressionism Neo-Impressionism, Symbolism, Art Nouveau, etc Prerequisite: ART H 355 or consent of the Department. Note Formerly part of ART 406.

ART H 456. *Aspects of Art from the Second Half of the Twentieth Century.* ★3 (either term, 0-3s-0). Abstract Expressionism Pop Art, Kinetic Art, Conceptual Art, Color Field painting, etc Prerequisite: ART H 356 or consent of the Department. Note Formerly part of ART 406.

ART H 457. *Aspects of Design in the Twentieth Century.* ★3 (either term, 0-3s-0). Machine Aesthetics, Art Nouveau, etc Prerequisite: ART H 357 or consent of the Department. Note Formerly part of ART 406.

ART H 459. *Directed Readings in the History of Art and Design.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A directed reading course designed to satisfy special needs of advanced Honors students and others, not otherwise met by annual course offerings. Prerequisite: Consent of the Department.

ART H 503. *Topics in Iconography.* ★3 (either term, 0-3s-0). Iconographical themes used in the art of the fifteenth to the nineteenth centuries. Note: For Art History honors students, and others with consent of the Department.

ART H 505. *Topics in Art from the First Half of the Nineteenth Century.* ★3 (either term, 0-3s-0). Intended for advanced honors students. Prerequisite: Consent of the Department. Note: Formerly part of ART 509.

ART H 506. *Topics in Art from the First Half of the Twentieth Century.* ★3 (either term, 0-3s-0). Intended for advanced honors students. Prerequisite: Consent of the Department. Note: Formerly part of ART 500/502.

ART H 507. *Topics in Nineteenth Century Design.* ★3 (either term, 0-3s-0). Intended for advanced honors students. Prerequisite: Consent of the Department. Note: Formerly part of ART 500/509.

ART H 508. *Special Topics II.* ★3 (either term, 0-3s-0). Topics other than those listed in 500-level courses. Prerequisite: Consent of the Department. Note: Formerly part of ART 309/409/509.

ART H 555. *Topics in Art from the Second Half of the Nineteenth Century.* ★3 (either term, 0-3s-0). Intended for advanced honors students. Prerequisite: Consent of the Department. Note: Formerly part of ART 500.

ART H 556. *Topics in Art from the Second Half of the Twentieth Century.* ★3 (either term, 0-3s-0). Intended for advanced honors students. Prerequisite: Consent of the Department. Note: Formerly part of ART 500/502.

ART H 557. *Topics in Twentieth Century Design.* ★3 (either term, 0-3s-0). Intended for advanced honors students. Prerequisite: Consent of the Department. Note: Formerly part of ART 500/509.

ART H 558. *Studies in the Relationship of the Visual Arts and Literature.* ★3 (either term, 3-0-0). Topics in the history of art studied with particular reference to the interaction of the visual arts (painting, sculpture, architecture) with international literature. Prerequisites: One senior-level Art History course, one senior-level course in literature, and reading knowledge of one relevant language other than English. Corequisite: C LIT 504.

ART H 559. *Directed Readings in the History of Art and Design.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A directed reading course designed to satisfy special needs of advanced honors students and others, not otherwise met by annual course offerings. Prerequisite: Consent of Department.

44.5.4 SENIOR COURSES IN STUDIO

ART 312. *Painting.* ★6 (2-0-4). Introduction to the principles and techniques of painting. Prerequisite: ART 231, or 232, and consent of the Department.

ART 313. *Painting.* ★6 (2-0-4). Individual directed study for students wishing to specialize in painting. Prerequisite or corequisite: ART 312 and consent of the Department.

ART 322. *Printmaking.* ★6 (2-0-4). Introduction to the principles and technical applications of printmaking including a study of Intaglio, Relief, Silkscreens, and Lithography. Prerequisite: ART 231, or 232, and consent of the Department.

ART 323. *Printmaking.* ★6 (2-0-4). Further study of the principles and technical applications of printmaking related to Intaglio, Relief, Silkscreen, and Lithography. Prerequisite or corequisite: ART 322 and consent of the Department.

ART 339. *Special Projects in Studio Disciplines.* ★6 (2-0-4). A course intended to meet the special needs of students not otherwise satisfied under existing regulations in regular course offerings. Prerequisite: Consent of the Department.

ART 340. *Drawing.* ★3 (either term, 2-0-4). Development and application of techniques and concepts of drawing. Note: Restricted to B.F.A. students.

ART 362. *Sculpture.* ★6 (2-0-4). Foundation studies in sculpture. Prerequisite: ART 231, or 232, and consent of the Department.

ART 363. *Sculpture.* ★6 (2-0-4). Further foundation studies in sculpture. Prerequisite or corequisite: ART 362 and consent of the Department.

ART 368. *Introduction to Studio.* ★3 (First Term, 2-0-4). Directed study in one subject embraced by ART 312, 322, 362, 372, 392. Prerequisite: ART 231, or 232, and consent of the Department. Note: Restricted to students in the Faculty of Education only.

ART 372. *Industrial Design.* ★6 (2-0-4). Foundation studies in three-dimensional design. Prerequisite: ART 231 or 232, and consent of the Department.

ART 373. *Industrial Design.* ★6 (2-0-4). Further foundation studies in three-dimensional design. Prerequisite or corequisite: ART 372 and consent of the Department.

ART 382. *Visual Aspects of Film and Video.* ★6 (2-0-4). A theoretical and practical study of the visual, aesthetic, and expressive capabilities of kinetic images and their production within the context of visual fundamentals and visual communication design. Prerequisite: ART 231, or 232, and consent of the Department.

ART 392. *Visual Communication Design.* ★6 (2-0-4). Introduction to the study and practice of design principles and techniques, mainly in two-dimensional media. Prerequisite: Normally, ART 231, or 232, and / or consent of the Department.

ART 393. *Visual Communication Design.* ★6 (2-0-4). Study and practice of design principles and techniques in photography and typography. Prerequisite or corequisite: Normally, ART 392 and / or consent of the Department.

ART 412. *Painting.* ★6 (2-0-4). Further study of the principles and techniques of painting. Prerequisite: Normally, ART 312 and consent of the Department.

ART 413. *Painting.* ★6 (2-0-4). Directed individual study for students wishing to specialize further in painting. Students will be encouraged to explore both contemporary and traditional mediums. Prerequisite or corequisite: Normally, ART 412 and consent of the Department.

ART 414. *Projects in Painting.* ★6 (2-0-4). A specialized course for students concentrating in painting. Prerequisite: Consent of the Department.

ART 422. *Printmaking.* ★6 (2-0-4). Directed individual study of the principles and technical applications of printmaking. Choice of study from three of the following: Intaglio, Relief, Silkscreen, and Lithography. Prerequisite: ART 322 and consent of the Department.

ART 423. *Printmaking.* ★6 (2-0-4). Further directed individual study of principles and technical applications of printmaking in three of the following: Intaglio, Relief, Silkscreen and Lithography. Prerequisite or corequisite: ART 422 and consent of the Department.

ART 424. *Printmaking.* ★6 (2-0-4). Additional directed individual study of the principles, and traditional and contemporary technical applications of printmaking in three of the following: Relief, Silkscreen, Intaglio, and Lithography. Prerequisite or corequisite: ART 423 and consent of the Department.

ART 439. *Special Projects in Studio Disciplines.* ★6 (2-0-4). Special projects in studio disciplines by special arrangement with the Department. Prerequisite: Consent of the Department.

ART 440. *Drawing.* ★6 (2-0-4). Further study and application of the techniques and concepts of drawing. Note: Restricted to B.F.A. students.

ART 462. *Sculpture.* ★6 (2-0-4). Intermediate studies in sculpture. Prerequisite: Normally, ART 362 and consent of the Department.

ART 463. *Sculpture.* ★6 (2-0-4). Further intermediate studies in sculpture. Prerequisite or corequisite: Normally, ART 462 and consent of the Department.

ART 464. *Sculpture.* ★6 (2-0-4). Additional intermediate studies in sculpture. Prerequisite or corequisite: ART 463 and consent of the Department.

ART 472. *Industrial Design.* ★6 (2-0-4). Intermediate study of industrial design principles. Prerequisite: ART 372 and consent of the Department.

ART 473. *Industrial Design.* ★6 (2-0-4). Further intermediate studies of industrial design principles. Prerequisite or corequisite: ART 472 and consent of the Department.

ART 474. *Industrial Design.* ★6 (2-0-4). Additional intermediate studies of industrial design principles. Prerequisite or corequisite: ART 473 and consent of the Department.

ART 492. *Visual Communication Design.* ★6 (2-0-4). Intermediate study and practice of design principles and techniques in graphic design including photography, typography, and illustration. Prerequisite: Normally, ART 392 and / or consent of the Department.

ART 493. *Visual Communication Design.* ★6 (2-0-4). Further intermediate study and practice of design principles and techniques with emphasis on photographic media. Prerequisite or corequisite: Normally, ART 492 and / or consent of the Department.

ART 494. *Visual Communication Design.* ★6 (2-0-4). Additional intermediate study and practice of design principles and techniques with emphasis on typographic media. Prerequisite or corequisite: Normally, ART 492 and / or consent of the Department.

ART 512. *Painting.* ★6 (2-0-4). Advanced study of the principles and techniques of painting. Prerequisite or corequisite: Normally, ART 412 and consent of the Department.

ART 513. *Painting.* ★6 (2-0-4). Individual directed study for students wishing to specialize further in painting at an advanced level. Prerequisite or corequisite: Normally, ART 512 and consent of the Department.

ART 514. *Projects in Painting.* ★6 (2-0-4). A specialized course for advanced students concentrating in painting. Prerequisite: Normally, consent of the Department.

ART 522. *Printmaking.* ★6 (2-0-4). Advanced individual study of the principles and technical applications of printmaking in two of the following: Intaglio, Relief, Silkscreen, and Lithography. Prerequisite: ART 422 and consent of the Department.

ART 523. *Printmaking.* ★6 (2-0-4). Further individual study at an advanced level of the principles and technical applications of printmaking in two of the following: Intaglio, Relief, Silkscreen, and Lithography. Prerequisite or corequisite: ART 522 and consent of the Department.

ART 524. *Printmaking.* ★6 (2-0-4). Additional individual study at an advanced level of the principles and traditional and contemporary technical applications of printmaking in two of the following: Intaglio, Relief, Silkscreen, and Lithography. Prerequisite or corequisite: ART 523 and consent of the Department.

ART 539. *Special Projects in Studio Disciplines.* ★6 (2-0-4). Special projects in studio disciplines, by special arrangement with the Department. Prerequisite: Consent of the Department.

ART 562. *Sculpture.* ★6 (2-0-4). Advanced studies in sculpture. Prerequisite: Normally, ART 462 and consent of the Department.

ART 563. *Sculpture.* ★6 (2-0-4). Further advanced studies in sculpture. Prerequisite or corequisite: Normally, ART 562 and consent of the Department.

ART 564. *Sculpture.* ★6 (2-0-4). Additional advanced studies in sculpture. Prerequisite or corequisite: Normally, ART 563 and consent of the Department.

ART 572. *Industrial Design.* ★6 (2-0-4). Advanced studies in the practice of industrial design. Prerequisite: ART 472 and consent of the Department.

ART 573. *Industrial Design.* ★6 (2-0-4). Further advanced studies of the practice of industrial design. Prerequisite or corequisite: ART 572 and consent of the Department.

ART 574. *Industrial Design.* ★6 (2-0-4). Additional advanced studies in the practice of industrial design. Prerequisite or corequisite: ART 573 and consent of the Department.

ART 592. *Visual Communication Design.* ★6 (2-0-4). Advanced study of design principles and techniques in graphic design including aspects of motion. Projects include application of graphic design to real-life situations. Prerequisites: Normally, ART 492, and 493, or 494, and consent of the Department.

ART 593. *Visual Communication Design.* ★6 (2-0-4). Further advanced study of design principles and techniques in photographic media. Applied and expressive modes are explored. Prerequisites: ART 493, 592, and consent of the Department.

ART 594. *Visual Communication Design.* ★6 (2-0-4). Further advanced study of design principles and techniques in typographic media. Applied and experimental modes are explored. Prerequisites: Normally, ART 494, 592, and consent of the Department.

44.5.5 GRADUATE COURSES IN THE HISTORY OF ART AND DESIGN

ART H 605. *Studies in Nineteenth Century Art I.* ★3 (either term, 0-3s-0). Note: Formerly part of ART 602.

ART H 606. *Studies in Twentieth Century Art I.* ★3 (either term, 0-3s-0). Note: Formerly part of ART 602.

ART H 607. *Studies in Design I.* ★3 (either term, 0-3s-0). Note: Formerly part of ART 602.

ART H 608. *Special Topics III.* ★3 (either term, 0-3s-0). Note: Formerly part of ART 602.

ART H 609. *Topics in Iconography.* ★3 (either term, 0-3s-0).

ART H 655. *Studies in Nineteenth Century Art II.* ★3 (either term, 0-3s-0). Note: Formerly part of ART 602.

ART H 656. *Studies in Twentieth Century Art II.* ★3 (either term, 0-3s-0). Note: Formerly part of ART602.

ART H 657. *Studies in Design II.* ★3 (either term, 0-3s-0). Note: Formerly part of ART 602.

ART H 658. *Special Topics IV.* ★3 (either term, 0-3s-0). Note: Formerly part of ART 602.

ART H 659. *Directed Readings in Art and Design.* ★6 (0-3s-0). Note: Formerly part of ART 602.

44.5.6 GRADUATE COURSES IN STUDIO

ART 612. *Painting: concepts, analysis, and criticism.* ★12 (First Term, 0-3s-18).

ART 613. *Painting: development of concepts, analysis, and criticism.* ★12 (Second Term, 0-3s-18).

ART 622. *Printmaking: concepts, analysis, and criticism.* ★12 (First Term, 0-3s-18).

ART 623. *Printmaking: development of concepts, analysis, and criticism.* ★12 (Second Term, 0-3s-18).

ART 630. *Seminar in Related Disciplines.* ★3 (either term, 0-1s-0).

ART 662. *Sculpture: concepts, analysis, and criticism.* ★12 (First Term, 0-3s-18).

ART 663. *Sculpture: development of concepts, analysis, and criticism.* ★12 (Second Term, 0-3s-18).

ART 672. *Industrial Design.* ★10 (First Term, 0-2s-16).

ART 673. *Industrial Design.* ★10 (Second Term, 0-2s-16).

ART 675. *Industrial Design.* ★3 (either term, 0-3s-0).

ART 692. *Visual Communication Design.* ★10 (First Term, 0-2s-16).

ART 693. *Visual Communication Design.* ★10 (Second Term, 0-2s-16).

ART 695. *Visual Communication Design.* ★3 (either term, 0-3s-0).

44.6 Canadian Studies

44.6.1 SENIOR COURSES

CANST 300. *The Politics of the Arts in Canada.* ★6 (3-0-0). A comparative study of the public and private cultural organization and its effect on the development of the arts in Canada. Prerequisite: Open to students in the Canadian Studies program and to others upon consent of the Canadian Studies Committee.

CANST 301. *Canadian Intellectual Traditions: 1800-1960.* ★6 (1-2s-0). An interdisciplinary comparison of recurring intellectual themes and issues which define the structure of the Canadian nation from regional points of view. Prerequisites: Reading competence in French and one full-course equivalent from two of the following disciplines: 1) ENGL 384, or two of ENGL 364, 367, 369, 370, 371, 2) ECON 316/317, 318/319, 3) FR CA 332/333 (formerly 331), 4) HIST 278/279, 5) POL S 320 or 321, 6) C LIT 371, 372, 471. Note: This course is open to students in the Canadian Studies program and to others upon consent of the Canadian Studies Committee.

CANST 400. *Contemporary Canadian Issues.* ★6 (0-3s-0). Aspects of political, social, economic, and cultural change in Canada. An interdisciplinary examination of selected political, economic, social, and cultural problems facing Canada at the present time. Note: Open to students in the Canadian Studies Program and to others upon consent of the Canadian Studies Committee.

CANST 401. *Seminar in Canadian Studies.* ★3 (First Term, 0-3s-0). Note: Open to students in the Canadian Studies program and to others upon consent of the Canadian Studies Committee.

CANST 402. *Seminar in Canadian Studies.* ★3 (Second Term, 0-3s-0). Note: Open to students in the Canadian Studies program and to others upon consent of the Canadian Studies Committee.

44.7 Chinese

Department of History

44.7.1 JUNIOR COURSE

CHINA 100. *Introductory Modern Standard Chinese.* ★6 (First Term, 0-10L-0). Prerequisite: Consent of Department. Note: Designed for students whose first language is not Chinese.

44.7.2 SENIOR COURSES

CHINA 300. *Basic Integrated Modern Standard Chinese.* ★6 (Second Term, 0-10L-0). Emphasis on reading, writing, and oral/aural skills. Prerequisite: CHINA 100 or consent of Department. Note: Designed for students whose first language is not Chinese.

CHINA 301. *Intermediate Modern Standard Chinese Language I.* ★3 (First Term, 3-0-2). Prerequisite: CHINA 300 or consent of the Department. Note: Designed for students whose first language is not Chinese.

CHINA 302. *Intermediate Modern Standard Chinese Language II.* ★3 (Second Term, 3-0-2). Prerequisite: CHINA 301 or consent of Department. Note: Designed for students whose first language is not Chinese.

CHINA 311. *Modern Standard Chinese for Those Proficient in Other Dialects I.* ★3 (First Term, 3-0-1). This course is designed for speakers proficient in one of the regional dialects of Chinese to gain fluency in the standard language. Prerequisite: Proficiency in any of the regional dialects of China.

CHINA 312. *Modern Standard Chinese for Those Proficient in Other Dialects II.* ★3 (Second Term, 3-0-1). Continuation of CHINA 311. Prerequisite: CHINA 311.

CHINA 321. *Early Chinese Literature in Translation.* ★3 (First Term 3-0-0). Chinese literature to 1920.

CHINA 322. *Modern Chinese Literature in Translation.* ★3 (Second Term, 3-0-0). Chinese literature since 1920.

CHINA 325. *Calligraphy I.* ★3 (either term, 3-0-0). Introduction to the history of the Chinese and Japanese written languages and to basic vocabulary through brush writing and reading. Note: CHINA 325 and JAPAN 325 may not both be taken for credit. This course is designed for students whose first language is not Chinese.

CHINA 326. *Calligraphy II.* ★3 (either term, 3-0-0). Study of historical changes in style and usage of characters through brush writing and reading. Prerequisite: CHINA 325 or JAPAN 325 or consent of Department. Note: CHINA 326 and JAPAN 326 may not both be taken for credit. This course is designed for students whose first language is not Chinese.

CHINA 341. *Literary Chinese I.* ★3 (either term, 3-0-0). An introduction to the syntactic, lexical and stylistic forms used in classical Chinese. Prerequisite: CHINA 302.

CHINA 342. *Literary Chinese II.* ★3 (either term, 3-0-0). A continuation of CHINA 341. Prerequisite: CHINA 341.

CHINA 401. *Advanced Modern Standard Chinese I.* ★3 (either term, 3-0-0). Equal emphasis on oral and written work in the modern colloquial medium. Prerequisites: CHINA 301/302 or equivalent.

CHINA 402. *Advanced Modern Standard Chinese II.* ★3 (either term, 3-0-0). Continuation of CHINA 401. Prerequisite: CHINA 401.

CHINA 403. *Advanced Readings in Modern Chinese I.* ★3 (First Term, 3-0-0). Guided readings from Mao, Lu Xun, Lao She and

other writers since 1919. Prerequisite: Consent of Department.

CHINA 404. *Advanced Readings in Modern Chinese II.* ★3 (Second Term, 3-0-0). Guided reading from Ren Min Ri Bao and other twentieth century periodicals. Prerequisite: Consent of Department.

CHINA 441. *Intermediate Literary Chinese I.* ★3 (First Term, 3-0-0). Advanced syntax of classical Chinese and readings from classical texts. Prerequisite: CHINA 342 or consent of Department.

CHINA 442. *Intermediate Literary Chinese II.* ★3 (Second Term, 3-0-0). A continuation of CHINA 441. Prerequisite: CHINA 441.

CHINA 451. *Topics in Early Fiction.* ★3 (either term, 3-0-0). A critical analysis of form and themes in pre-Republican prose. Prerequisite: Consent of Department.

CHINA 452. *Topics in Modern Literature.* ★3 (either term, 3-0-0). A critical study of topics chosen from contemporary prose, poetry, and drama. Prerequisite: Consent of Department.

CHINA 453. *Topics in Early Drama.* ★3 (either term, 3-0-0). A critical study of some major plays from the Yuan, Ming and Ch'ing periods. Prerequisite: Consent of Department.

CHINA 454. *Topics in Early Poetry.* ★3 (either term, 3-0-0). A critical study of form and meaning in classical Chinese poetry. Prerequisite: Consent of Department.

CHINA 481. *Supervised Reading in Chinese I.* ★3 (either term, 3-0-4). Accelerated reading course primarily for senior or graduate students for special areas of need or interest. Prerequisite: Written consent of Department.

CHINA 482. *Supervised Reading in Chinese II.* ★3 (either term, 3-0-4). Further accelerated reading for senior and graduate students. Prerequisite: Written consent of Department.

CHINA 581. *Supervised Study in the Chinese Language I.* ★3 (either term, 3-0-4). Prerequisite: Written consent of Department.

CHINA 582. *Supervised Study in the Chinese Language II.* ★3 (either term, 3-0-4). Prerequisite: Written consent of Department.

44.8 *Christian Theology*

(from within the Roman Catholic tradition)
St. Joseph's College

The following courses are offered by St. Joseph's College and are accepted for credit in programs offered in the Faculty of Arts.

CHR T 266. *The Beginning of the Church.* ★3 (First Term, 3-0-0). A study of the early Christian Church, with special attention to the *Acts of the Apostles,* the earliest proclamation of the Christian faith, the formation of the Gospels, Paul's teaching on the Christian life.

CHR T 272. *Introduction to Catholic Moral Thought.* ★3 (Second Term, 3-0-0). The role of reason, Sacred Scripture, tradition, the Church, and individual freedom and responsibility in the formation and exercise of conscience.

CHR T 342. *The Early Papacy.* ★3 (either term, 3-0-0). An historical study of the establishment of the Papacy and its development until the formation of the Papal states in the eighth century.

CHR T 343. *The Medieval Papacy.* ★3 (either term, 3-0-0). The Popes and the Papal institution from the time of Charlemagne till the Council of Trent in the sixteenth century.

CHR T 344. *Catholicism: Late Middle Ages to Modern Times.* ★3 (Second Term, 3-0-0). The history of the Church, its beliefs and theology, its struggles with reformers and nation states, from the days of schism to ecumenism.

CHR T 346. *The Churches in Europe in the Nineteenth Century.* ★3 (First Term, 3-0-0). Major Christian denominations in Europe from the French Revolution to 1900. Their struggle with revolution, secularism, liberalism, nationalism, and scientism, the Papal States, problems of biblical authority, the crisis of faith, missionary expansion, and spiritual phenomena. Reference is made to Anglican, Catholic, and Protestant Churches.

CHR T 347. *The Churches in Europe in the Twentieth Century.* ★3 (Second Term, 3-0-0). The Churches, socialism, anti-semitism, the dilemma of war; the rise of totalitarianism: fascism, nazism, and communism; zionism and the holocaust; post-war theologies of politics and pluralism. Emphasis on Catholic, Lutheran and Orthodox churches.

CHR T 349. *Christianity and Social Justice.* ★3 (either term, 3-0-0). Examines particular problems of social justice in the world and in Canada and the alternative solutions offered by contemporary thinkers from a Christian point of view. This course includes Christian social thought, Christian pacifism, theology of politics.

CHR T 351. *The Christian Meaning of Sex and Marriage.* ★3 (either term, 3-0-0). The sexual revolution and its relevance for sexual ethics; premarital sex; marriage breakdown and divorce; sex as a human reality; Christian meaning of marriage.

CHR T 352. *Medical-Moral Problems.* ★3 (either term, 3-0-0). Christian reasons for valuing life; examination from a Christian perspective of euthanasia, abortion, genetic research, sterilization, reproductive technologies, and medical experimentation; rights of patients.

CHR T 362 *Theological Sources.* ★3 (either term, 3-0-0). Theology, as a science, resorts to its basic source, Scripture. An examination of the thought of Christian theologians reflecting on the Old Testament as a source of revelation. Emphasis on the contribution of Christian writers and theologians to the Christian theological heritage.

CHR T 364. *Dimensions of Christian Faith* ★3 (First Term, 3-0-0). A study of Christian faith as a human and religious problem. Biblical views on faith will be examined as well as diverse interpretations of faith within the Christian tradition. Particular problems to be studied: the relationship between faith experiences and human experiences as such; the relationship between authority and freedom; individual faith and the faith of a community; faith and culture; the possibility of Christian faith today.

CHR T 366. *New Testament Themes.* ★3 (Second Term, 3-0-0). A study of the meanings attributed to Jesus Christ in the New Testament. The problem of the formation of the Gospels will be examined and particular attention given to the images of Jesus Christ presented by the principal authors of the New Testament. Efforts to relate the Biblical Christ to contemporary culture will also be studied.

CHR T 370. *Comtemporary Theology of the Catholic Church.* ★3 (Second Term, 3-0-0). What does it mean to be a Catholic Christian in the modern world? What is expected of the Christian? What is the Christian? What is the Christian to become? A study of contemporary ecclesiological themes, in light of the needs of modern man and modern youth.

CHR T 372. *The Eucharist in Christian Worship.* ★3 (First Term, 3-0-0). A theological study of the development of Catholic liturgy from the Jewish foundation to the present day. A study of the Eucharist both as sacrifice and as sacrament. Contemporary theological developments in the liturgy both in theory and practice.

CHR T 374. *Great Minds of Early Christianity.* ★3 (First Term, 3-0-0). Developments in Christian thought during the period of the Apostolic Fathers. Formulation of the creeds. Early encounters of Christianity with the philosophical and religious thought of the ancient world.

CHR T 376. *The Evolution of Christian Thought.* ★3 (Second Term, 3-0-0). An historical survey of the evolution of Catholic thought with emphasis on the readings of some of the great Christian thinkers.

CHR T 379. *Theology and Liturgy of Eastern Christian Churches in Communion with Rome.* ★3 (Second Term, 3-0-0). An introduction to the theology and liturgy of Eastern Christianity in communion with Rome with special attention to the Ukrainian Church.

CHR T 380. *Catechetics I.* ★3 (either term, 3-0-0). Problems which catechetics faces today, with emphasis on the analysis of basic religious experience in the meeting of God and man in Scripture, in Christ, liturgy and doctrine. Note: Formerly part of CHR T 378. Not open for credit to students with credit in CHR T 378.

CHR T 381. *Catechetics II.* ★3 (Second Term, 3-0-0). Brief survey of the history of catechetics and of contemporary schools of catechetics. An analysis of religious experience and contemporary secularization, and of religious experience and the witness of the individual in the moral life. Prerequisite: CHR T 380. Note: Formerly part of CHR T 378. Not open for credit to students with credit in CHR T 378.

CHR T 410. *Modern Catholic Theology.* ★3 (either term, 3-0-0). An exploration of the efforts of one or several recent or con-

temporary Roman Catholic theologians to express Christian doctrine in ways intelligible to the modern world. Prerequisites: Two previous courses in Christian theology or permission of College.

CHR T 411. *Seminar in Ecumenism.* ★3 (Second Term, 3-0-0). An examination of the Protestant-Catholic-Orthodox dialogues in the twentieth century and the efforts to recover the unity-within-diversity of Christianity. Prerequisites: Two previous courses in Christian Theology or permission of the College.

For Philosophy courses offered by St. Joseph's College, see §44.29.4. For other information see § 246.1.2 of the University Regulations and Information for Students Calendar.

44.9 Classics

Note: All 200 and 300-level courses under this heading are survey courses designed primarily for the non-specialist and may be taken by students with no knowledge of Greek or Latin.

For additional related courses see § § 44.18 and 44.25.

44.9.1 JUNIOR COURSES

CLASS 201. *Literature of Greece and Rome.* ★3 (either term, 3-0-0). An introductory survey in English translation of Greek and Latin literature in its social, artistic, and cultural background. A limited number of major works, representing the most important genres, will be studied. May not be taken concurrently with or subsequent to CLASS 359/362.

CLASS 202. *Greek and Roman Mythology.* ★3 (either term, 3-0-0). A survey of classical mythology with readings in translation from various ancient authors as well as from modern scholarly works. Note: Formerly part of CLASS 240.

CLASS 230. *Introduction to the Ancient Near East and Greece.* ★3 (either term, 3-0-0). An introductory course in the history of the Ancient Near East and Greece from the Neolithic Age to the fourth century A.D. Note: May not be taken concurrently with or subsequent to CLASS 363/364.

CLASS 231. *Introduction to Rome and the West.* ★3 (either term, 3-0-0). An introductory course in the history of Rome and the Western Mediterranean to the collapse of the Roman Empire. Note: May not be taken concurrently with or subsequent to CLASS 365/366 and 371/372.

CLASS 241. *Ancient Science and Technology.* ★3 (either term, 3-0-0). A survey of ancient science and technology in the Middle Eastern, Greek, and Roman civilizations.

CLASS 250. *The Greek World.* ★3 (either term, 3-0-0). Greek life and society illustrated by archaeological discoveries; the Bronze Age, the city, temples, Athens, Sparta, Greek art and architecture, trade, and warfare. Slides, films, and other materials.

CLASS 251. *The Roman World.* ★3 (either term, 3-0-0). A study of Roman society illustrated by archaeological discoveries; city life, housing, town planning, games, trade, shipping, and the army. Slides, films, coins, other materials. Note: Formerly a full-session course.

CLASS 260. *Greek and Latin Etymology.* ★3 (either term, 3-0-0). A study of Greek and Latin words commonly used in English: how these words are built, and how they gain and change in meanings.

44.9.2 SENIOR COURSES

CLASS 351. *Latin Literature in Translation.* ★3 (either term, 3-0-0). A survey, in translation, of classical Latin authors, seen in the context of social and cultural history. Note: Formerly part of CLASS 361/362.

CLASS 357. *Classical Myth and Religion.* ★3 (either term, 3-0-0). The background and origin of classical mythology and religion; Mycenean and Near Eastern sources; religious festivals and usages; modern scholarship.

CLASS 359. *Greek Literature in Translation I.* ★3 (First Term, 3-0-0). Greek literature studied within the context of ancient Greek civilizations; will include Homer, Hesiod, lyric poetry, Aeschylus, and Sophocles.

CLASS 360. *Greek Literature in Translation II.* ★3 (Second Term, 3-0-0). A continuation of the study of Greek literature within the context of ancient Greek civilization; will include Sophocles, Euripides, Aristophanes, the historians, and the philosophers.

CLASS 363. *History of Ancient Greece I.* ★3 (First Term, 3-0-0). The Hellenic world from its beginnings in the Bronze Age until the Persian Wars, with special attention to the organization of the city state, Sparta, and the rise of Athenian democracy.

CLASS 364. *History of Ancient Greece II.* ★3 (Second Term, 3-0-0). The Hellenic world from the Persian Wars, through its greatest period and the Peloponnesian War, to the death of Alexander the Great.

CLASS 365. *History of the Roman Republic I.* ★3 (First Term, 3-0-0). The Roman Republic from its beginnings down to 133 B.C., with special attention to social, economic, and constitutional development and the conquest of the Mediterranean.

CLASS 366. *History of the Roman Republic II.* ★3 (Second Term, 3-0-0). The failure of the Roman Republic (133-44 B.C.) considered in the light of imperial expansion in the Mediterranean, with special attention to the careers of Marius, Sulla, Pompey, and Julius Caesar.

CLASS 367. *History of Greek Art I.* ★3 (First Term, 3-0-0). The rise and progress from the Cretan period: architecture and early sculpture.

CLASS 368. *History of Greek Art II.* ★3 (Second Term, 3-0-0). Sculpture from the Classical period to the Graeco-Roman Age; Painting.

CLASS 369. *Early Civilizations I.* ★3 (First Term, 3-0-0). A survey of the beginnings and development of civilization in the Near East, including Sumer, Babylon, Assyria, and the Hebrews.

CLASS 370. *Early Civilizations II.* ★3 (Second Term, 3-0-0). The development of civilization in the western half of the Fertile Crescent, including the rise and decline of the Egyptian, Hittite, and Phoenician cultures.

CLASS 371. *History of the Roman Empire I.* ★3 (First Term, 3-0-0). The Roman Empire from Augustus to the end of the first century A.D.

CLASS 372. *History of the Roman Empire II.* ★3 (Second Term, 3-0-0). The Roman Empire from the beginning of the second century A.D. to the death of Constantine.

CLASS 375. *History of Medicine in the Ancient World.* ★3 (either term, 3-0-0). A survey of medical science from Prehistoric times through Egyptian, Mesopotamian, Greek, and Roman times to the end of the Roman Empire.

CLASS 379. *Greek and Roman Epic.* ★3 (either term, 0-3s-0). A study in English translation of representative works of oral and literary epic from Homer to Lucan.

CLASS 380. *Greek and Roman Tragedy.* ★3 (either term, 0-3s-0). A study of classical tragedy from Aeschylus to Seneca in English translation.

CLASS 459. *Roman Archaeology and Civilization.* ★6 (5-0-15). A study of the old city of Rome, with lecturing trips to Etruria, Ostia, Terracina, Palestrina, Tivoli, Pompeii, Herculaneum, Cumae, and the Greek temples of Paestum. Designed to provide a richer understanding of Latin literature and Roman history and an introduction to advanced studies in Latin literature and Roman history and archaeology. Prerequisite: One university level course in History, Latin or Classics and consent of the Department. Note: This course is given in Rome during the Summer Session only.

44.9.3 ADVANCED COURSES

The following courses are designed for third-year, Honors, and graduate students. The precise topics covered in any given course may vary from year to year. Some account, therefore, may be taken of the particular interests of students within the framework of the course. Normally students who take these courses are expected to have at least one senior course in Ancient History or Literature; if they do not, they must obtain the consent of the Department to their registration, and the Department will consider their special needs.

CLASS 461. *Topics in Roman Imperial History I.* ★3 (First Term, 0-3s-0).

CLASS 462. *Topics in Roman Imperial History II.* ★3 (Second Term, 0-3s-0).

CLASS 463. *Topics in Roman Republican History I.* ★3 (First Term, 0-3s-0).

CLASS 464. *Topics in Roman Republican History II.* ★3 (Second Term, 0-3s-0).

CLASS 465. *Topics in Hellenistic History I.* ★3 (First Term, 0-3s-0).

CLASS 466. *Topics in Hellenistic History II.* ★3 (Second Term, 0-3s-0).

CLASS 467. *Topics in Early Greek History I.* ★3 (First Term, 0-3s-0).

CLASS 468. *Topics in Early Greek History II.* ★3 (Second Term, 0-3s-0).

CLASS 469. *Topics in Classical Greek History I.* ★3 (First Term, 0-3s-0).

CLASS 470. *Topics in Classical Greek History II.* ★3 (Second Term, 0-3s-0).

CLASS 471. *Regional Studies in Ancient History I.* ★3 (First Term, 0-3s-0).

CLASS 472. *Regional Studies in Ancient History II.* ★3 (Second Term, 0-3s-0).

CLASS 473. *Topics in Greek and Italian Archaeology I.* ★3 (First Term, 0-3s-0).

CLASS 474. *Topics in Greek and Italian Archaeology II.* ★3 (Second Term, 0-3s-0).

CLASS 475. *Practical Methods in Classical Archaeology.* ★3 or ★6 (0-10L-0). The techniques of excavation and recording in Classical Archaeology. Prerequisite: Consent of the Department. Note: Offered only for field work in the archaeology of the Greek and Roman world and restricted to those participating in an excavation sponsored by the Department.

CLASS 481. *Greek and Latin Epic I.* ★3 (First Term, 0-3s-0).

CLASS 482. *Greek and Latin Epic II.* ★3 (Second Term, 0-3s-0).

CLASS 483. *Greek and Roman Tragedy I.* ★3 (First Term, 0-3s-0).

CLASS 484. *Greek and Roman Tragedy II.* ★3 (Second Term, 0-3s-0).

CLASS 485. *Greek and Roman Comedy I.* ★3 (First Term, 0-3s-0).

CLASS 486. *Greek and Roman Comedy II.* ★3 (Second Term, 0-3s-0).

CLASS 498. *Individual Study of Literary Problems.* ★3 (either term, 0-3s-0). Prerequisite: Consent of the Department.

CLASS 499. *Individual Study of Historical Problems.* ★3 (either term, 0-3s-0). Prerequisite: Consent of the Department.

CLASS 521. *Ancient History (Comprehensive).* ★6 (0-3s-0).

CLASS 601. *Studies in Greek Archaeology.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

CLASS 602. *Studies in Italian Archaeology.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

44.10 Comparative Literature

44.10.1 JUNIOR COURSES

C LIT 201. *Introduction to World Literature I.* ★3 (either term, 3-0-0). An analysis of a limited number of major works of world literature (in English translations) representing the more important periods and genres from antiquity to the renaissance. Note: Formerly part of C LIT 200. Only one of C LIT 201, and 202, or 301, and 302, or 201, and 302, or 202, and 301 may be taken for credit.

C LIT 202. *Introduction to World Literature II.* ★3 (either term, 3-0-0). An analysis of a limited number of major works of world literature (in English translations) representing the more important periods and genres since the renaissance. Note: Formerly part of C LIT 200. Only one of C LIT 201, and 202, or 301, and 302, or 201, and 302, or 202, and 301 may be taken for credit.

C LIT 271. *Introduction to the Comparative Study of the Canadian Literatures I.* ★3 (First Term, 3-0-0). An introductory course designed to compare the basic texts of English-Canadian and French-Canadian literatures. Note: This course is not intended to replace C LIT 201/202 as a prerequisite for senior courses.

C LIT 272. *Introduction to the Comparative Study of the Canadian Literatures II.* ★3 (Second Term, 3-0-0). An introductory course designed to compare the basic texts of English-Canadian and French-Canadian literatures. Prerequisite: C LIT 271. Note: This course is not intended to replace C LIT 201/202 as a prerequisite for senior courses.

44.10.2 SENIOR COURSES

INT D 300. *Introduction to the Study of Film.* ★6 (3-0-3). See § 44.22. Accepted as an option, and as a subject of concentration in Honors and B.A. (Special) programs.

INT D 301. *The Hollywood Film.* ★6 (3-0-3). See § 44.22. Accepted as an option only.

C LIT 301. *Studies in World Literature I.* ★3 (either term, 3-0-0). Major works of world literature, mainly in English translations, representing the more important periods and genres from antiquity to the renaissance. Prerequisite: ENGL 200 or equivalent, or a C LIT 200- or 300-level course. Note: Formerly part of C LIT 300. Only one of C LIT 201, and 202, or 301, and 302, or 201, and 302, or 202, and 301 may be taken for credit.

C LIT 302. *Studies in World Literature II.* ★3 (either term, 3-0-0). Major works of world literature, mainly in English translations, representing the more important periods and genres since the renaissance. Prerequisite: ENGL 200 or equivalent, or a C LIT 200- or 300-level course. Note: Formerly part of C LIT 300. Only one of C LIT 201 and 202, or 301 and 302, or 201 and 302, or 202 and 301 may be taken for credit.

C LIT 340. *Extrinsic Approaches to Literature.* ★6 (3-0-0). Designed to demonstrate, from a literary point of view, the use of extrinsic approaches in the study of literature; the nature of the course is introductory. It would examine such relations as literature and psychology, society and the other arts. Prerequisite: C LIT 201/202, or 301/302, or ENGL 200, or equivalent.

C LIT 344. *The Forms and Analysis of Narrative.* ★3 (First Term, 3-0-0). A systematic survey of the main components of narrative with the major emphasis placed on Continental theories. Prerequisite: ENGL 200 or equivalent.

C LIT 345. *The Forms and Analysis of Poetry.* ★3 (Second Term, 3-0-0). The elements and levels of the poetic text with the major emphasis placed on Continental theories. Prerequisite: ENGL 200 or equivalent.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). (See § 44.22.) Accepted as an option only.

C LIT 351. *Introduction to the Western Tradition in Literary Criticism I.* ★3 (either term, 3-0-0). An introduction to critical methodology, exercises in practical criticism, and an examination of concepts of literary criticism as drawn from contemporary international critical writings. Prerequisite: ENGL 200 or equivalent, or C LIT 201/202. Note: Formerly part of C LIT 350.

C LIT 352. *Introduction to the Western Tradition in Literary Criticism II.* ★3 (either term, 3-0-0). An international survey of the major developments in Western literary criticism from Aristotle to the present time. Prerequisite: ENGL 200 or equivalent, or C LIT 201/202. Note: Formerly part of C LIT 350.

C LIT 354. *Literature and the Theatre.* ★3 (either term, 3-0-0). International comparative studies in the interrelationship of literature and the theatre. Prerequisite: C LIT 201/202, or 301/302, or ENGL 200, or equivalent. Note: Formerly C LIT 460.

C LIT 355. *Comparative Studies in Traditional and Post-Colonial Literatures I.* ★3 (either term, 3-0-0). Introduction to the comparative study of the literatures of Africa in French and English with respect to their development from their traditional, i.e., oral forms. Some material will be drawn from Asian (i.a., Chinese) and Latin American literatures. Prerequisite: C LIT 201/202, or 301/302, or ENGL 200, or equivalent.

C LIT 356. *Comparative Studies in Traditional and Post-Colonial Literatures II.* ★3 (either term, 3-0-0). The comparative study of the literatures of Africa in French and English with respect to their development from their traditional, i.e., oral forms. Some material will be drawn from Asian (i.a. Chinese) and Latin American literatures. Prerequisite: C LIT 355.

C LIT 358. *Introduction to the Study of Themes and Motifs I.* ★3 (either term, 3-0-0). The study of selected international themes and motifs, their origin, and their literary development. Prerequisite: C LIT 201/202, or ENGL 200, or equivalent. Note: Formerly part of C LIT 360.

C LIT 359. *Introduction to the Study of Themes and Motifs II.* ★3 (either term, 3-0-0). The study of selected international themes and motifs, their origin and their literary development. Prerequisite: C LIT 201/202, ENGL 200, or equivalent. Note: Formerly part of C LIT 360.

C LIT 362. *International Movements in Contemporary Literature.* ★6 (3-0-0). This course is designed to introduce the student to such topics as literature of the absurd, existential literature, and surrealism. Prerequisites: C LIT 201/202, or 301/302, or ENGL 200, or equivalent.

C LIT 364. *Studies in the Concept of Genre.* ★3 (either term, 3-0-0). An introduction to the study of "genre" in an international and historical context. It would examine the development of a specific genre (i.e., the novel) within a theoretical framework. Prerequisite: ENGL 200 or equivalent, or C LIT 201/202, or 301/302.

C LIT 365. *Literature and Society.* ★3 (either term, 3-0-0). International comparative studies on the interrelationship of literature and society, seen from the point of view of literature. Prerequisite: C LIT 201/202, or 301/302, or ENGL 200, or equivalent. Note Formerly C LIT 465.

C LIT 370. *Psychological Theories in the Explication of Literature.* ★3 (either term, 3-0-0). The use of theories, such as those of Freud and Jung to explicate literary texts; examples will be drawn from a variety of literatures. Prerequisite: C LIT 201/202, or 301/302, or ENGL 200, or equivalent. Formerly C LIT 470.

C LIT 371. *Introduction to the Comparative Study of Canadian Poetry.* ★3 (either term, 3-0-0). A systematic introduction to the poetry of Canadian literatures, chiefly French and English, examined on a comparative basis within an international framework. Prerequisites: C LIT 201/202, or 301/302, or ENGL 200, or equivalent; reading knowledge of French.

C LIT 372. *Introduction to the Comparative Study of Canadian Prose.* ★3 (either term, 3-0-0). A systematic introduction to narrative and other forms of prose of Canadian literatures, chiefly French and English, examined on a comparative basis within an international framework. Prerequisites: C LIT 201/202, or 301/302, or ENGL 200, or equivalent; reading knowledge of French.

C LIT 375. *Literature and Music.* ★3 (either term, 3-0-0). An introduction to the international comparative study of the influence of music on literature (individual works, movements, forms, and styles). Prerequisites: C LIT 201/202, or 301/302, or ENGL 200, or equivalent. At least one full-course equivalent in music history covering the area of Medieval, Renaissance, Baroque or Classical, Romantic, Modern, or a combination of these areas. Note: Formerly C LIT 464.

INT D 401. *Film Theory and Criticism.* ★3 (either term, 3-0-0). See § 44.22. Accepted as an option only.

C LIT 410. *German-French Literary Relations.* ★6 (3-0-0). A survey of German-French and French-German literary relations from the Middle Ages to modern times, emphasizing periods of intense literary exchanges. Prerequisite: Competent reading knowledge of German and French, combined Honors in German-French or consent of the Department.

C LIT 420. *German-English Literary Relations.* ★6 (3-0-0). A survey of German-English and English-German literary relations from the Renaissance to modern times, including nineteenth and twentieth century American-German and German-American relations. Prerequisite: Competent reading knowledge of German, combined Honors in German and English, or consent of the Department.

C LIT 430. *French-English Literary Relations.* ★6 (3-0-0). A survey of French-English and English-French literary relations from the Middle Ages to modern times, emphasizing periods of intense literary exchanges. Prerequisite: Competent reading knowledge of French, combined Honors in French and English, or consent of the Department.

C LIT 440. *French-American Literary Relations.* ★6 (3-0-0). A survey of French-American and American-French literary relations from the eighteenth century to modern times, emphasizing periods of intense literary influences. Prerequisite: Competent reading knowledge of French, combined Honors in French and English, or consent of the Department.

C LIT 450. *Studies in Western European-Slavic Literary Relations.* ★6 (3-0-0). Studies in non-Slavic relations in Slavic literature. Prerequisite: Competent reading knowledge of a Slavic language, combined Honors in Slavic languages and English (or any Germanic or Romance Language), or consent of the Department.

C LIT 455. *The History of Comparative Literature.* ★3 (either term, 3-0-0). An introduction to the major theories and definitions of comparative literature viewed in a historical perspective. Prerequisites: A competent reading knowledge of one relevant language other than English; C LIT 201/202, or 301/302, or ENGL 200 and C LIT 351, or 352, or ENGL 315 or 317, or equivalent.

C LIT 471. *Advanced Comparative Studies in Canadian Literatures.* ★6 (3-0-0). The study of problems in Canadian literatures involving material from more than one literature. Prerequisites: C LIT 201/202, or 301/302, or ENGL 200, or equivalent; reading knowledge of one relevant language other than English.

C LIT 490. *Modern Hebrew Literature in an International Context.* ★6 (3-0-0). Contemporary Hebrew fiction in relation to East European Romantic and realistic writing and to post-symbolist English, American, French, and German literature. The course is usually taught in translation. Prerequisite: Competent reading knowledge of at least one relevant language other than English.

C LIT 495. *Special Topics in Comparative Literary History.* ★6 (3-0-0). Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 496. *Special Topics in Comparative Literary History.* ★3 (either term, 3-0-0). Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 497. *Special Studies in Comparative Literature.* ★3 (either term, 0-3s-0). Note: Restricted to Honors students.

C LIT 498. *Special Studies in Comparative Literature.* ★6 (0-3s-0). Note: Restricted to Honors students.

44.10.3 HONORS AND GRADUATE COURSES

NOTE: Before registering for these courses, students must consult the Department of Comparative Literature.

C LIT 500. *Literary Scholarship: Methods and Techniques.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Introduction to methods and techniques of literary scholarship and to its theoretical foundations, including bibliographies, style-sheets, and practical methods of research in Comparative Literature. Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 504. *Studies in the Relationship of Literature with the Visual Arts.* ★3 (either term, 3-0-0). Topics in the international history and theory of literature studied with particular reference to the interaction with the visual arts (painting, sculpture, architecture) from the point of view of Comparative Literature. Prerequisites: One senior-level course in art history, one senior-level course in literature, and reading knowledge of one relevant language other than English. Corequisite: ART H 558.

C LIT 505. *The Theory of the Study of Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 507. *Literary Stylistics.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A comparative study of the schools and trends of contemporary literary stylistics (psychological, aesthetic, linguistic, quantitative stylistics) together with an analysis of specific stylistic devices on the basis of literary texts. Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 510. *Poetics: The Nature and Forms of Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A systematic study of structures of poetry at all levels of the expression and the content (metre, genre, diction, syntax, imagery, topoi, motifs, and specific subject matter) with particular attention to their development and use through the Western tradition, ancient, and modern. Prerequisite: Evidence of a competent reading knowledge of one relevant language other than English.

C LIT 511. *Comparative Studies in "Formalistic" Approaches to Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). An introduction to major "formalistic" approaches to literature (e.g., Russian Formalism, Czech Structuralism, Polish Literary Phenomenology, German "Werkimmanente Interpretation", Anglo-American New Criticism, etc.). Prerequisite: Evidence of a competent reading knowledge of at least one relevant language other than English.

C LIT 512. *Theory of Translation.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of at least one relevant language other than English.

C LIT 514. *Poetry and Oral Tradition.* ★3 (either term, 3-0-0). The focus of the course will be on the acquisition of a critical

method to distinguish the oral from the literary tradition by the examination of the oral characteristics of style. Prerequisite: Competent reading knowledge of any relevant ancient or modern language other than English.

C LIT 515. *Studies in Folklore: Prose Forms.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Introduction to the study of folklore as the traditional aesthetic expressions of a people, and to its principal forms. Only prose forms of folk literature (e.g., folk tale and legend) will be considered. Prerequisite: Evidence of competent reading knowledge of one relevant language other than English.

C LIT 516. *Studies in Folklore: Poetic Forms.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of competent reading knowledge of one relevant language other than English.

C LIT 517. *The Greek and Latin Tradition in European Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Some knowledge of Greek but more particularly of Latin, or consent of the Department.

C LIT 518. *The Biblical Tradition in Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). This course will deal with biblical themes, characters and styles and their utilization in later works. Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 519. *Comparative Studies in the Asian and Western Tradition.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Studies in the impact of Asian literature on the Western literary tradition, with some references to Western influences on the East. Prerequisite: Competent reading knowledge of one relevant language other than English (e.g., German, French).

C LIT 520. *Comparative Studies in Medieval Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of either Latin, or French or the consent of the Department.

C LIT 529. *Studies in Renaissance Literary Theory and Criticism.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Comparative studies in Renaissance literary theory and criticism, with particular emphasis on Italian, Spanish, French, and English texts. Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 530. *Comparative Studies in European Drama of the Sixteenth and Seventeenth Centuries.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of one relevant language other than English.

C LIT 545. *Comparative Studies in Eighteenth-Century Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of one relevant language other than English.

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). (See § 44.22.) Accepted as an option only.

C LIT 550. *Comparative Studies in Romantic Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of one relevant language other than English.

C LIT 552. *Comparative Studies in Realistic Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 553. *Comparative Studies in Naturalistic Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A study of Naturalism as an international movement. Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 554. *Comparative Studies in the Novel.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A course designed as an intensive study of the genre on an international basis. Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 555. *Comparative Studies in Literature of the Late Nineteenth Century.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of one relevant language other than English.

C LIT 556. *Advanced Comparative Studies in Traditional and Post-Colonial Literatures.* ★3 (either term, 3-0-0) or ★6 (3-0-0). This course is designed as an advanced comparative study of the literatures of Africa in French and English with respect to their development from their traditional, i.e., oral forms. Some material will be drawn from Asian (i.e. Chinese) and Latin American literatures. Prerequisite: Competent reading knowledge of French, Spanish, or Portuguese, or consent of the Department.

C LIT 560. *Comparative Studies in Canadian Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 565. *Comparative Studies in the Epic.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of one relevant language other than English.

C LIT 567. *The Romance.* ★3 (either term, 3-0-0) or ★6 (3-0-0). An examination of the history and major developments of the narrative form of the romance from Greek beginnings, through Medieval and Renaissance examples, to modern texts. Prerequisite: Evidence of a competent reading knowledge of one relevant language other than English.

C LIT 568. *Comparative Studies in the Pastoral.* ★3 (either term, 3-0-0). A course designed to describe the history and the characteristics of the pastoral genre. Prerequisite: Evidence of a competent reading knowledge of at least one relevant language other than English.

C LIT 570. *Comparative Studies in Comedy.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of French.

C LIT 575. *Tragedy: A Theoretical Approach.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A course designed to establish principles of criticism for the study of tragedy as a literary genre. Prerequisite: Competent reading knowledge of French, and another relevant language such as Spanish, German, or Greek.

C LIT 580. *Comparative Studies in Literary Parody.* ★3 (either term, 3-0-0). A theoretical approach to parody as a literary procedure, differentiating it from neighboring forms such as irony and satire, with a historical introduction to its main forms and its place in literary history. Prerequisite: Evidence of a competent reading knowledge of at least one relevant language other than English.

C LIT 585. *Studies of Forms and Genres.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A comparative historical and theoretical approach to particular international literary forms and genres. The content of the course is to change from year to year and instructor to instructor. Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 590. *Studies of Motifs and Themes.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of one language other than English.

C LIT 595. *Special Topics in Comparative Literary History.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of at least one relevant language other than English. Note: Normally open to graduate students of literature only.

C LIT 599. *Tutorial.* ★0 (2-0-0). Special workshop arranged on a voluntary basis for graduate degree candidates of Comparative Literature, involving experiments in research and/or teaching skills in Comparative Literature. Prerequisite: Participation in a graduate degree program in Comparative Literature.

C LIT 609. *Special Topics in Asian Literary Theory and Criticism.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 610. *Special Topics in Literary Theory and Criticism.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of one relevant language other than English.

C LIT 611. *Marxist Literary Theory and Criticism.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of at least one relevant language other than English.

C LIT 612. *Marxist Concepts of Literature in the Twentieth Century.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of at least one relevant language other than English.

C LIT 628. *Comparative Studies in the Renaissance and Baroque Literature of Italy, Spain and France, and its Counterparts in England.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: A reading knowledge of at least one relevant language, in addition to French.

C LIT 638. *Avant-garde Trends in Twentieth Century Slavic and Western Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of at least one relevant language other than English.

C LIT 640. *Socialist Realism: Theory and Practice.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of one relevant language other than English.

C LIT 641. *Surrealism: Theory and Practice.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of competent reading knowledge of at least one relevant language other than English.

C LIT 642. *Literary Existentialism: Theory and Practice.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Evidence of a competent reading knowledge of at least one relevant language other than English.

C LIT 645. *Comparative Studies in Twentieth-Century Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of at least one relevant language other than English.

C LIT 646. *Comparative Studies in Modern Drama.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of one relevant language other than English.

C LIT 648. *Comparative Studies in French and English Literature, 1830-1900.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

C LIT 649. *Franco-German Literary Relations during the Nineteenth Century.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of French and German.

C LIT 695. *Anglo-German Literary Relations from the Sixteenth to the Nineteenth Centuries.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Competent reading knowledge of German.

C LIT 696. *Seminar Course.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Designed to meet the needs of Ph.D. candidates in Comparative Literature in their last year of residence. Prerequisite: Competent reading knowledge of two languages other than English.

C LIT 697. *Special Reading Course I.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

C LIT 698. *Special Reading Course II.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

C LIT 699. *Conference Course.* ★3 (either term, 0-3s-0); or ★6 (0-3s-0). Designed to meet the needs of individual degree candidates in Comparative Literature.

44.11 Drama

44.11.1 JUNIOR COURSES

DRAMA 200. *Theatre Art Analysis.* ★6 (2-2s-0). Critical analysis of selected plays and its application to creative solutions in their production. Analysis of contributing arts of the theatre: playwriting, acting, designing, and directing.

DRAMA 230. *Beginning Movement.* ★6 (0-6L-0). Fundamental concepts and practice in creative movement forms. Note: Restricted to B.F.A. (Drama) students.

DRAMA 240. *Voice and Speech.* ★6 (0-5L-0). Intensive voice and speech improvement; oral interpretation of poetry, prose, and dramatic literature. Note: Restricted to B.F.A. (Drama) students.

DRAMA 243. *Introduction to Oral Communication.* ★3 (either term, 0-6L-0). Exercises in voice and speech improvement; elements of oral communication and interpretation. Note: Formerly part of DRAMA 241. Restricted to B.A. and B.Ed. Drama Majors. Not open to students with credit in DRAMA 245.

DRAMA 245. *Introduction to and Development of Oral Communication.* ★6 (0-4L-0). Exploration of basic techniques of oral communications and oral interpretation drawing from various forms of literature. Note: Not open to students with credit in DRAMA 243, DRAMA 341, and former DRAMA 343.

DRAMA 251. *Improvisation.* ★3 (either term, 0-6L-0). Speech and movement improvisation with an emphasis on imaginative development; introduction to dramatic form.

DRAMA 253. *Improvisational Drama.* ★3 (either term, 0-6L-0). Developing a sense of dramatic form through improvisational and environmental techniques. Prerequisite: DRAMA 251 or DRAMA 250.

DRAMA 254. *Acting Techniques.* ★6 (0-8L-0). Restricted to B.F.A. (Drama) Students.

DRAMA 255. *First Year Acting in Rehearsal and Performance.* ★2 (Second Term, 0-0-2). Note: Restricted to B.F.A. Acting students.

DRAMA 257. *Voice and Movement Coaching in Rehearsal and Performance.* ★2 (Second Term, 0-2L-0). Note: Restricted to B.F.A. Acting students.

DRAMA 270. *Stagecraft and Design.* ★6 (0-6L-0). Investigation of skills involved in staging a play, such as use of materials and methods of construction. Restricted to B.F.A. (Drama) Students.

DRAMA 271. *Theatre Design Aesthetics.* ★6 (0-4L-0). Practical exploration and discovery of aesthetic elements in theatre art. Note: Restricted to B.F.A. (Drama) students.

DRAMA 272. *Theatre Design Techniques.* ★6 (0-9L-0). Theory and practice of drawing and painting for the stage. Prerequisite: Consent of the Department.

DRAMA 273. *Introduction to Stagecraft and Design.* ★3 (Second Term, 0-6L-0). Investigation of skills involved in staging a play, such as use of materials and methods of construction. Note: Formerly part of DRAMA 270.

DRAMA 275. *Production Lab I.* ★3 (1-0-3). Technical theatre practice. Preparation and running of the production aspects of departmental plays. Note: A single-term course offered over a full year. Formerly part of DRAMA 270. Prerequisite: DRAMA 273 or consent of the Department.

DRAMA 293. *Production Lab II.* ★3 (0-0-3). Production experience in stage managing and/or apprenticeship with qualified technical staff. Prerequisite: Consent of the Department. Note: A single-term course offered over the full year.

44.11.2 SENIOR COURSES

DRAMA 300. *Theatre of the Past.* ★6 (3-0-0). History of the theatre from the Greeks to the end of the nineteenth century; study of major plays and theatre artists in the context of their time; parallels with other art forms. Prerequisite: Consent of the Department.

INT D 300. *Introduction to the Study of Film.* ★6 (3-0-3). See § 44.22. Accepted as an option only.

INT D 301. *The Hollywood Film.* ★6 (3-0-3). See § 44.22. Accepted as an option only.

DRAMA 303. *History of Canadian Theatre from its Origins to the Depression (1925-30).* ★3 (either term, 3-0-0). A survey of the evolution of theatre art in French and English Canada with reference to the related arts of painting and architecture.

DRAMA 321. *The Creative Process of Drama.* ★3 (First Term, 2-1s-0). Theory of the creative process of drama related to the development of human resources. Prerequisite: DRAMA 251 or consent of the Department.

DRAMA 323. *Improvisation and Youth Theatre.* ★3 (Second Term, 0-4L-0). Practical and theoretical study of improvisational production applied to concepts of Theatre by and for youth. Prerequisite: DRAMA 321 and/or consent of the Department.

DRAMA 330. *Movement.* ★6 (0-6L-0). Introduction to movement forms for the actor. Prerequisite: DRAMA 230. Note: Restricted to B.F.A. (Drama) students.

DRAMA 335. *Second Year Movement Coaching in Rehearsal and Performance.* ★2 (0-2L-0). Note: A single-term course offered over the full session. Restricted to B.F.A. Acting students.

DRAMA 340. *Advanced Voice and Speech.* ★6 (0-5L-0). Extension of the voice; development of vocal sensitivity in order to meet the demands of characterization and varying forms of dramatic literature; sight reading. Prerequisite: DRAMA 240. Note: Restricted to B.F.A. (Drama) students.

DRAMA 341. *Oral Interpretation.* ★3 (either term, 0-6L-0). Poetry, prose and dramatic literature. Note: Formerly part of DRAMA 241. Prerequisite: DRAMA 243, or DRAMA 245, or consent of the Department.

DRAMA 345. *Second Year Speech in Rehearsal and Performance.* ★2 (0-0-2). Note: Restricted to B.F.A. Acting students. A half-course offered over the full session.

DRAMA 350. *Advanced Acting.* ★6 (0-10L-0). Discovery and development of techniques of characterization; intensive text analysis and classroom production. Prerequisite: DRAMA 254. Note: Restricted to B.F.A. (Drama) students.

DRAMA 351. *Basic Make-up.* ★1 (Second Term, 0-0-3). Practice in use of basic materials in creating stage make-up. Note: Restricted to B.F.A. (Drama) students and B.Mus. (Voice) students.

DRAMA 353. *Principles of Acting.* ★3 (either term, 0-6L-0). Study and enactment of scenes from plays. Note: Formerly part of DRAMA 250. Prerequisite: DRAMA 251, or 252, or consent of the Department.

DRAMA 355. *Second Year Acting in Rehearsal and Performance.* ★2 (0-0-3). Note: Restricted to B.F.A. Acting students. A single-term course offered over the full session.

DRAMA 357. *Techniques in Rehearsal and Performance.* ★3 (either term, 1-0-5). Research, rehearsal, design, staging, and presentation of a play by an acting ensemble. Prerequisites: DRAMA 353 and/or consent of Department.

DRAMA 359. *Techniques of Improvisational Production.* ★3 (First Term, 0-6L-0). Practice in the preparation of improvisational theatre. Prerequisites: DRAMA 251, and DRAMA 253, or DRAMA 323, or consent of the Department. Note: Formerly part of DRAMA 352.

DRAMA 360. *Elements of Playwriting.* ★6 (0-4L-0). Study of and practice in creating the elements of a play. Prerequisite: ENGL 200 or its equivalent, and consent of the Department.

DRAMA 370. *Theatre Design.* ★6 (0-9L-0). Study of and practice in the principles of design for the play. Prerequisite: Consent of the Department.

DRAMA 372. *Production Techniques — Scenery.* ★6 (0-6L-0). Prerequisite: Consent of the Department. Note: Formerly DRAMA 474.

DRAMA 375. *History of Decor and Dress.* ★6 (3-0-0). Note: Not open to students with credit in CL TX 304 and 403.

DRAMA 383. *Introduction to Directing.* ★3 (either term, 0-4L-0). Fundamentals of directing explored through practical exercises. Prerequisite: Consent of the Department.

DRAMA 385. *Elements of Directing.* ★3 (either term, 0-6L-0). Developing the director's creative use of the elements of directing through practical exercises in scripted scenes. Note: Formerly part of DRAMA 382. Prerequisite: DRAMA 383.

DRAMA 393. *Production Lab II B.* ★2 (0-0-2). Production organization; experience in running of a play in performance. Restricted to B.F.A. (Drama) students. Note: A single-term course offered over the full session.

DRAMA 395. *Running Crew Projects.* ★3 (0-0-6). Production organization: experience in preparing and running of a play in performance. Prerequisite: DRAMA 273. Note: Formerly DRAMA 394. Note: A single-term course offered over the full session.

DRAMA 400. *Modern Theatre.* ★6 (3-0-0). Major plays and theatre artists of the modern theatre. Exploration of the styles and movements which form the mosaic of the contemporary theatre.

INT D 401. *Film Theory and Criticism.* ★3 (either term, 3-0-0). See §44.22. Accepted as an option only.

DRAMA 403. *Modern Canadian Theatre.* ★3 (either term, 3-0-0). Survey of modern Canadian theatre.

DRAMA 405. *Honors Seminar.* ★3 (either term, 0-2s-0).

DRAMA 425. *Theatre for Young Audiences.* ★3 (either term, 0-6L-0). Theory and practice of theatre for young audiences including participatory techniques. Prerequisite: DRAMA 321 or 353 and/or consent of the Department.

DRAMA 430. *Theatre Movement.* ★6 (0-6L-0). Study of and practice in styles of movement and dance, both period and contemporary; projects in styles and choreography. Prerequisite: DRAMA 330. Note: Restricted to B.F.A. (Drama) students.

DRAMA 431. *Corporeal Mime.* ★3 (0-3L-0). Explorations in corporeal mime for the actor: technique and improvisation. Note: A single-term course offered over the full session. Restricted to B.F.A. Acting students.

DRAMA 434. *Lyric Theatre.* ★6 (0-6L-0). Exploration in theatre forms employing movement, music, dance, and acting. Prerequisite: Consent of the Department.

DRAMA 435. *Third-Year Movement in Rehearsal and Performance.* ★2 (0-3L-0). Note: Restricted to B.F.A. Acting students. A single-term course offered over the full session.

DRAMA 441. *Advanced Speech.* ★6 (0-6L-0). Extension of vocal techniques, work on text from period styles. Prerequisite: DRAMA 340. Note: Restricted to B.F.A. (Drama) students. Formerly DRAMA 540.

DRAMA 445. *Third-Year Speech in Rehearsal and Performance.* ★2 (0-3L-0). Note: Restricted to B.F.A. Acting students. A single-term course offered over the full session.

DRAMA 450. *Styles of Acting.* ★6 (0-10L-0). Study of and practice in the main period styles of acting; developing an actor's awareness of his/her place in the total dramatic event. Prerequisite: DRAMA 350. Note: Restricted to B.F.A. (Drama) students.

DRAMA 455. *Third-Year Acting in Rehearsal and Performance.* ★3 (0-4L-0). Note: Restricted to B.F.A. Acting students. A single-term course offered over the full session.

DRAMA 459. *Improvisational Production.* ★3 (Second Term, 0-6L-0). Form and content in improvisational theatre. Prerequisite: DRAMA 359 or consent of the Department. Note: Formerly part of DRAMA 352.

DRAMA 460. *Playwriting.* ★6 (3-0-0). The theory and practice of writing for dramatic media: stage, film, radio, and television. Prerequisite: DRAMA 360 or consent of the Department.

DRAMA 470. *Styles of Design.* ★6 (0-9L-0). Study of and practice in design for the period play. Prerequisite: DRAMA 370. Note: Restricted to B.F.A. (Drama) students.

DRAMA 472. *Production Techniques — Costume.* ★6 (0-6L-0). Prerequisite: Consent of the Department. Note: Formerly DRAMA 373/374.

DRAMA 493. *Production Lab III.* ★3 (either term, 0-0-6). Practical experience in assisting the designer. Corequisite: DRAMA 470. Note: Restricted to B.F.A. (Drama) students.

DRAMA 501. *Seminar in Contemporary theatre.* ★3 (either term, 0-3s-0). Exploration of developments in contemporary Drama and theatre production in the western world.

DRAMA 507. *Senior Projects.* ★3 (either term, 1-0-4). Prerequisite: Consent of the Department.

DRAMA 509. *Play Production Process.* ★3 (either term, 0-6L-0). The problems in execution of the complete script. Prerequisite: DRAMA 385 and consent of the Department.

DRAMA 530. *Advanced Movement.* ★6 (0-6L-0). Instruction and projects for individual growth in movement expression. Prerequisite: DRAMA 430. Note: Restricted to B.F.A. (Drama) students.

DRAMA 535. *Fourth-Year Movement in Rehearsal and Performance.* ★3 (0-4L-0). Note: Restricted to B.F.A. Acting students. A single-term course offered over the full session.

DRAMA 541. *Dialects and Accents.* ★6 (0-6L-0). Survey of dialects and accents; intensive practice in representative examples from the British Isles, Europe, and North America. Tutorial instruction to suit the actor's vocal needs. Prerequisite: DRAMA 441. Note: Restricted to B.F.A. (Drama) students. Note: Formerly DRAMA 440.

DRAMA 545. *Fourth-Year Speech in Rehearsal and Performance.* ★3 (0-4L-0). Note: Restricted to B.F.A. Acting students. A single-term course offered over the full session.

DRAMA 551. *Advanced Make-Up.* ★2 (First Term, 1-0-2). Practice in use of special materials and in creating character make-up. Prerequisite: DRAMA 351. Note: Restricted to B.F.A. (Drama) students.

DRAMA 552. *Collective Theatre.* ★6 (0-8L-0). The collective preparation and public presentation of improvisational theatre. Prerequisite: DRAMA 459 and/or consent of the Department. Note: Not to be taken by students with credit in DRAMA 452.

DRAMA 565. *Senior Projects in Dramatic Writing.* ★3 or ★6 (either term, 1-0-4). Prerequisite: Consent of the Department.

DRAMA 570. *Advanced Design.* ★6 (0-9L-0). Study of and practice in design for the modern play. Prerequisite: DRAMA 470. Note: Restricted to B.F.A. (Drama) students.

DRAMA 575. *Production Techniques - Lighting.* ★6 (0-6L-0). Study of and practice in the aesthetics and practical tools in stage lighting. Prerequisite: Consent of the Department. Note: Formerly part of DRAMA 570.

DRAMA 592. *Advanced Acting and Directing Projects.* ★6 (0-0-15). Rehearsal and performance of roles in public productions. Prerequisite: DRAMA 450. Note: Restricted to B.F.A. (Drama) students.

DRAMA 593. *Production Lab IV.* ★6 (0-0-6). Practical experience in assistant designing. Corequisite: DRAMA 570. Note: Restricted to B.F.A. (Drama) students.

DRAMA 595. *Professional and Critical Orientation.* ★0 (2-0-0). A non-credit course required for graduation. Note: Restricted to fourth-year B.F.A. (Drama) students.

DRAMA 665. *Special Projects in Dramatic Writing.* ★3 or ★6 (either term, 1-0-4). Prerequisite: Consent of the Department.

44.11.3 HONORS AND GRADUATE COURSES

DRAMA 500. *Theatre Aesthetics.* ★6 (3-0-0). A study of problems in dramatic theory and criticism as related to the evolution of modern theatre aesthetics. Prerequisite: Consent of the Department.

DRAMA 501. *Seminar in Contemporary Theatre.* ★3 (either term, 0-3s-0). Exploration of developments in contemporary Drama and theatre production in the western world.

DRAMA 565. *Senior Projects in Dramatic Writing.* ★either 3 or 6 (either term, 1-0-4). Prerequisite: Consent of the Department.

DRAMA 505. *Honors Seminar.* ★6 (0-3s-0).

DRAMA 601. *Methods and Tools of Research.* ★3 (First Term, 3-0-0).

DRAMA 604. *Research in Theatre History.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Research in aspects of physical theatre and production.

DRAMA 605. *Special Projects in Theatre.* ★3 (either term, 1-0-4) Prerequisite: Consent of the Department.

DRAMA 607. *Dramaturgy I.* ★3 (either term, 3-0-0).

DRAMA 608. *Research Seminar.* ★6 (0-3s-0). Research in selected topics.

DRAMA 610. *Applied Criticism.* ★3 (either term, 3-0-0). Critical analysis of theatre practice.

DRAMA 616. *Research in Canadian Drama.* ★6 (3-0-0). Note: Formerly part of DRAMA 606.

DRAMA 618. *Advanced Research Seminar.* ★6 (0-3s-0). Advanced research in selected topics. Prerequisite: DRAMA 608 or consent of the Department.

DRAMA 660. *Playwriting Projects.* ★6 (0-0-3). Prerequisite: Consent of the Department.

DRAMA 661. *Advanced Playwriting Projects.* ★6 (0-0-3).

DRAMA 665. *Special Projects in Dramatic Writing.* ★either 3 or 6 (either term, 1-0-4). Prerequisite: Consent of the Department.

DRAMA 670. *Styles in Total Design.* ★6 (0-6L-0). Note: Restricted to M.F.A. (Drama) students.

DRAMA 671. *Advanced Theatre Design.* ★6 (0-6L-0). Note: Restricted to M.F.A. (Drama) students.

DRAMA 672. *Design for Directors.* ★6 (0-4L-0). Corequisites: DRAMA 660, 661, 680 or 681. Note: Restricted to M.F.A. (Drama) students.

DRAMA 680. *Styles of Directing.* ★6 (0-3s-6). Note: Restricted to M.F.A. (Drama) students.

DRAMA 681. *Advanced Projects in Directing.* ★6 (0-3s-6). Note: Restricted to M.F.A. (Drama) students.

DRAMA 695. *Seminar in Theatre Aesthetics.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

44.12 East European and Soviet Studies

Division of Eastern European Studies

44.12.1 SENIOR COURSES

INT D 341. *Romania and Romanians.* ★3 (Second Term, 3-0-0). Included in the course is the history of Romania, the nature of its language, and the social, political, cultural, and economic development of Romania, and of Romanian settlements, especially those in the Moldavian SSR and in Canada.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). An interdisciplinary introduction to the study of the socialist system with special reference to the Soviet Union and East Europe. (Comparative Literature, Economics, Geography, History, Political Science, Slavic Languages, Sociology).

INT D 347. *Women and Socialism: USSR and Eastern Europe.* ★3 (Second Term, 3-0-0). Theory and practice of socialism as related to the status of women in Eastern Europe and the Soviet Union. Prerequisite: Consent of the Division of East European Studies. Note: Not open to students who have taken POL S 342 in 1977-78.

INT D 355. *Social Problems of Eastern Europe Under State Socialism.* ★3 (3-0-0). The socio-cultural and economic consequences of major structural transformations in East European societies, with particular emphasis on family life, the socialization of youth, work relations, popular culture, and social deviance.

INT D 443. *The Soviet North and Siberia.* ★3 (Second Term, 3-0-0). The economy, political administration, and the social development of the native peoples of Siberia and the Soviet North. Prerequisite or corequisite: An area-related course in one of Geography, Political Science, Economics, or consent of the Division of East European Studies. (Participating units normally include Division of East European Studies, and Departments of Anthropology, Economics, and Geography).

INT D 444. *The Ukraine.* ★3 (Second Term, 3-0-0). Major social, economic, political and cultural trends in the Ukrainian SSR in the post-World War II period. Prerequisite or corequisite: An area-related course in one of Geography, History, Political Science, or Ukrainian, or consent of the Division of East European Studies. (Participating units normally include Division of East European Studies, and Departments of History, and Slavic Languages).

INT D 445. *Poland.* ★3 (First Term, 3-0-0). The political, social, economic, and cultural developments in post World War II. Prerequiste: INT D 346, or POLSH 304 or equivalent, or demonstration to the Division of East European Studies of sufficient background in the area. (Participating units normally include Division of East European Studies, and Departments of Economics, Fine Arts, Geography, Slavic Languages, and Sociology).

INT D 446. *Eastern Europe: A Travel Study Course.* ★6 (5-0-15). An intensive interdisciplinary study of Eastern Europe and the Soviet Union, in Eastern Europe itself. Designed to provide an understanding of the area by directed study on location. Note: The course is offered only in the Spring or Summer Session in countries of Eastern Europe and the USSR on a selected basis and includes intensive study in one or more countries. Prerequisite: INT D 346, or consent of Division. Pre-session study and preparation.

44.12.2 HONORS AND GRADUATE COURSE

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). An interdisciplinary seminar. (Comparative Literature, Economics, Geography, History, Political Science, Slavic Languages, Sociology).

NOTE: For additional courses relating to the Soviet Union and Eastern Europe, see also entries under Comparative Literature, Economics, Educational Foundations, Geography, History, Philosophy, Polish, Political Science, Russian, Slavics, and Ukrainian.

44.13 Economics

44.13.1 JUNIOR COURSES

ECON 201. *Introduction to Micro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems, and policies with emphasis on the Canadian economy; the roles of consumers and firms in competitive and monopolistic markets; foreign ownership in the Canadian economy: the distribution of income, inequality, and poverty; the use of the environment; government economic policies. Prerequisite: Mathematics 20, or Mathematics 33, or consent of the Department.

ECON 202. *Introduction to Macro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems, and policies with emphasis on the Canadian economy: national income and monetary theory; problems of unemployment and inflation; government monetary and fiscal policies; international trade theory, problems, and government policies. Prerequisite: Mathematics 20, or Mathematics 33, or consent of the Department.

44.13.2 SENIOR COURSES

INT D 302. *Economics of Agriculture.* ★3 (either term, 3-0-0). (See § 44.22.)

INT D 303. *Economics of World Agriculture.* ★3 (either term, 3-0-0). (See § 44.22.)

ECON 306. *General Macro-Economics.* ★3 (either term, 3-0-0). Introductory survey of macroeconomic principles with an emphasis on Canadian economic issues. Note: Designed for students who do not hold credit in ECON 202 or 304. ECON 306 plus 307 are acceptable in place of ECON 201/202 as prerequisites for senior courses with the consent of the Department.

ECON 307. *General Micro-Economics.* ★3 (either term, 3-0-0). Introductory survey of microeconomic principles with an emphasis on Canadian economic issues. Note: Designed for students who do not hold credit in ECON 201 or 304. ECON 306 plus 307 are acceptable in place of ECON 201/202 as prerequisites for senior courses with the consent of the Department.

ECON 308. *American Economic Development I.* ★3 (First Term, 3-0-0). A survey to the end of the nineteenth century with emphasis on industrial development and related government policies. Prerequisites: ECON 201/202, or 304, or 306/307.

ECON 309. *American Economic Development II.* ★3 (Second Term, 3-0-0). Analysis of American economic development in the twentieth century to present. Prerequisite: ECON 308.

ECON 310. *Japanese Economic Development.* ★3 (either term, 3-0-0). An analytical survey of economic factors leading to Japan's present position in world trade. Prerequisites: ECON 201/202, or 304, or 306/307.

ECON 311. *Middle East Economic Development.* ★3 (either term, 3-0-0). The recent economic development of the Middle East. Prerequisites: ECON 201/202, or 304, or 306/307.

ECON 312. *Western European Economic Development.* ★3 (either term, 3-0-0). A survey of economic changes in Western Europe from the Industrial Revolution to the present. Note: Not to be taken by students with credit in HIST 357.

ECON 313. *Economics of Developing Countries I.* ★3 (First Term, 3-0-0). A survey of problems and conditions generally characteristic of the low-income countries; an introduction to theories and models of economic growth and development; a discussion of applied strategies of development with specific policy applications bearing on fiscal and monetary management, the process of capital formation and industrialization, employment and technological change. Prerequisites: ECON 201/202 or 306/307, or consent of the Department. Note: Formerly ECON 412.

ECON 314. *Economics of Developing Countries II.* ★3 (Second Term, 3-0-0). The theoretical and policy aspects of specific economic development problems: population, agriculture, natural resources, education and manpower training, international trade, foreign aid, and technical assistance. Prerequisites: ECON 201/202, or 306/307, or consent of the Department. Note: Formerly ECON 413.

ECON 315. *Eastern European Economic Development.* ★3 (either term, 3-0-0). A survey of the economies of Eastern Europe, particularly members of the Council of Economic Mutual Assistance (COMECON) as well as Yugoslavia and Albania. Prerequisites: ECON 201/202, or 304, or 306/307.

ECON 316. *The Canadian Economy, Part I.* ★3 (either term, 3-0-0). A survey of Canadian economic development with emphasis on the function of staple exports, capital formation, government policies, and regional differentials which characterized the nineteenth century in Canada. Note: A student may not receive credit in both ECON 316 and 318.

ECON 317. *The Canadian Economy, Part II.* ★3 (either term, 3-0-0). A survey of the economic development of Canada in the twentieth century. This survey includes study of immigration, foreign investment, economic effects of two world wars, natural resource exploitation and the emergence of distinct economic regions in Canada. Prerequisite: ECON 316 or consent of the Department. Note: A student may not receive credit in both ECON 317 and 319.

ECON 318. *Canadian Economic Development in the Twentieth Century Part I.* ★3 (First Term, 3-0-0). Analysis of Canadian economic development in the light of economic theory: The impact of prairie settlement, the First World War, foreign investment, regional disparities in income, and the Great Depression. Prerequisites: ECON 201/202 or consent of the Department. Note: A student may not receive credit in both Economics 316 and 318.

ECON 319. *Canadian Economic Development in the Twentieth Century, Part II.* ★3 (Second Term, 3-0-0). Analysis of Canadian economic development in the light of economic theory: The impact of the Second World War, extensive foreign investment, economic relations with the United States and Europe, North American continentalism, tariffs, and some consideration of the economic prospects of the Canadian economy. Prerequisite: ECON 318. Note: A student may not receive credit in both ECON 317 and 319.

ECON 323. *International Economics.* ★3 (either term, 3-0-0). A survey of the principles of international economics and the applications to economic policy. The topics are foreign trade, foreign investment, and the balance of payments. Prerequisites: ECON 201/202 or consent of the Department.

ECON 331. *Labor Economics.* ★3 (First Term, 3-0-0). Theory and empirical evidence concerning the supply of and demand for labor services, wage differentials, and the impact of unions. Some of the policy issues to be discussed are income maintenance, unemployment insurance, and minimum wage legislation. Prerequisites: ECON 201/202 or consent of the Department.

ECON 332. *Manpower Economics.* ★3 (Second Term, 3-0-0). Analytical and policy issues relating to human resource development and manpower utilization with particular reference to Canadian contemporary issues. Prerequisite: ECON 331 or consent of the Department.

ECON 334. *Economics of Poverty.* ★3 (either term, 3-0-0). An examination of the economic factors associated with low income levels and standards of living of various Canadian occupational groups. Proposals to alleviate certain low income problems — the guaranteed income plan, the negative income tax proposition, etc. A critical appraisal of existing Federal, Provincial, and Municipal programs in the Welfare and related fields. Prerequisites: ECON 201/202, or 306/307, or 304, or consent of the Department.

ECON 341. *Money and Finance.* ★3 (either term, 3-0-0). Analysis of money and credit in the exchange process; the savings-investment process; commercial banking; financial intermediaries; financial markets; central banking. Prerequisites: ECON 201/202 or consent of the Department.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). (See § 44.22.)

ECON 351. *The Public Sector.* ★3 (either term, 3-0-0). The rationale of the public sector and its development in Canada; analysis of public decision making and the budgetary process. Prerequisites: ECON 201/202 or consent of the Department.

ECON 352. *Economics of Taxation.* ★3 (either term, 3-0-0). Analysis of the effects of alternative levels of total taxation (budgetary tax policy) and alternative types of taxes (tax mix policy) on the economic decisions of households and business firms as reflected in the composition of national output, the distribution of national income, and the level and stability of economic activity. Prerequisites: ECON 201/202 or consent of the Department.

ECON 353. *Taxation Policy and Structure.* ★3 (either term, 3-0-0). Analysis of the Canadian tax structure and its role in attaining certain goals of society; requirements for an optimal tax structure. Prerequisites: ECON 201/202 or consent of the Department.

ECON 355. *Economic Analysis in the Evaluation of Large-Scale Projects.* ★3 (either term, 3-0-0). An examination of the use of cost-benefit analysis, location theory, and input-output analysis in assessing the economic merits of various large-scale investment projects. Examples of current interest will be used, e.g., river basin, electrical generation, and oil and gas projects. Prerequisites: ECON 201/202, or 304, or consent of the Department.

ECON 356. *The Economics of Education.* ★3 (either term, 3-0-0). An examination of the resource allocation within the educational sector of the economy. Selected topics deal with education today as an input into production and consumption tomorrow, manpower planning and education, educational planning and decision-making, productivity and cost considerations in the educational firm, and the use of budgetary systems in allocating resources within the educational sector. Prerequisite: Consent of the Department.

INT D 357. *Health Care Economics.* ★3 (either term, 3-0-0). (See § 44.22.)

ECON 361. *Transportation Economics.* ★3 (either term, 3-0-0). Economic analysis of alternative transportation systems (water, air, road, and rail, for both freight and passengers). Role of transportation in urban, regional, and national economic development. Public policy toward transportation. Prerequisites: ECON 201/202.

ECON 362. *Introduction to Urban Economics.* ★3 (either term, 3-0-0). An examination and analysis of the relationships of urbanization and economic growth, the economic aspects of urban spatial organization, housing, and transportation, and the urban public economy. Special attention to Canadian urban economic issues. Prerequisites: ECON 201/202, or 304, or 306/307, or consent of the Department.

ECON 363. *Introduction to Regional Economics.* ★3 (either term, 3-0-0). An appraisal of the historical and current pattern of regional income disparities in Canada, with analysis emphasizing the causes of regional variations in employment and economic growth levels. An assessment of present federal and provincial policies designed to alleviate regional disparities will be made, combined with new policy programs that may be relevant. Prerequisites: ECON 201/202 or consent of the Department.

ECON 364. *Economics of the Prairie Region.* ★3 (either term, 3-0-0). Economic history and the contemporary economic situation; agriculture, resources development, potential for economic diversification in manufacturing and service industries, the prairie region in the national economy — tariffs, transportation, monetary policy, energy policy. Prerequisites: ECON 201/202, or 304 or 306/307.

ECON 365. *Resource Economics.* ★3 (either term, 3-0-0). Problems of allocation and development of natural resources, including contemporary Canadian resource policy issues; nature and types of resources; the economics of conservation and resource scarcity; and the role of resources in growth. Prerequisites: ECON 201/202, or 304, or 306/307.

ECON 366. *Energy Economics.* ★3 (either term, 3-0-0). Types of energy resources, substitutability, conversion. The relevance of energy to economic growth. Energy as input and as a consumers' good. An overview of quantities available and used. The problems of measuring energy, the energy balance, the energy industries. The role of energy in the Canadian economic development. World energy markets. Energy policy problems. Prerequisites: ECON 201/202, or 304, or 306/307.

INT D 366. *Economics of Outdoor Recreation.* ★3 (either term, 3-0-0). (See § 44.22.)

INT D 369. *Economics of the Environment.* ★3 (either term, 3-0-0). (See § 44.22.)

ECON 373. *Industrial Organization.* ★3 (either term, 3-0-0). A survey of the behavior and performance of firms in different market structures, and discussion of public policy toward the different structures. Prerequisites: ECON 201/202 or consent of the Department. Not open to students with credit in MANEC 312.

ECON 374. *Economics of Regulation.* ★3 (either term, 3-0-0). The study of the economic issues relating to the regulation and the operation of provincial and federal regulatory bodies in a number of industries. Among the industries studied are the natural gas and electrical utilities, and the transportation and communication industries. Prerequisites: ECON 201/202, or 304, or 306/307.

ECON 381. *Micro-Economic Analysis I.* ★3 (either term, 3-0-0). The theory of consumer behavior; theory of production and cost; price and output determination under competition, monopoly and other market structures. Prerequisites: ECON 201/202 or consent of the Department. Not open to students with credit in MANEC 323.

ECON 382. *Macro-Economic Analysis I.* ★3 (either term, 3-0-0). National income concepts and income determination; theories of aggregate consumption, investment and employment behavior; monetary and fiscal policy. Prerequisites: ECON 201/202 or consent of the Department. Not open to students with credit in MANEC 333.

ECON 391. *Economic Institutions and Ideologies.* ★3 (either term, 3-0-0). Pre-capitalist Europe; the rise of individualism and the individualistic ethic; industrial capitalism; economics of Marx and Socialism; the rise of corporate capitalism; the consolidation of monopoly power; economic imperialism; Keynesian economics and economic policies; contemporary capitalism and its critics.

ECON 392. *Comparative Economics.* ★3 (either term, 3-0-0). A comparative study of the institutions and theories of important contemporary systems of economic organization, with emphasis on the "mixed" capitalist economy, "market socialism", and centrally planned economics. A survey of socialist economic thought in particular Marxian economics. Prerequisites: ECON 201/202 or consent of the Department.

ECON 393. *The Soviet Economy.* ★3 (either term, 3-0-0). The development and institutional arrangements of the Soviet economy, Soviet experience with central planning. Economic performance and its evaluation. Soviet economic reforms. Prerequisites: ECON 201/202 or consent of the Department.

ECON 394. *The Political Economy of the New Left.* ★3 (either term, 3-0-0). A survey and criticism of the economic views of the New Left radicalism. Prerequisites: ECON 201/202, or 304, or 306/307.

ECON 395. *Statistics for Economists I.* ★3 (First Term, 3-0-1). An introduction to statistical concepts and their application in economics. Sources and uses of data in economic research; descriptive statistics; elementary probability and sampling theory. Prerequisites: ECON 201/202 or consent of the Department.

ECON 396. *Statistics for Economists II.* ★3 (Second Term, 3-0-1). Estimation and tests of hypotheses; regression analysis; analysis of variance; index numbers and time series. Prerequisite: ECON 395 or consent of the Department.

ECON 403. *History of Economic Thought.* ★3 (either term, 3-0-0). A survey of economic opinions and theories with special attention to modern times. Emphasis on both theoretical analysis and socioeconomic structure at various epochs of economic thinking. Prerequisites: ECON 381/382.

ECON 405. *Computer Applications in Economics.* ★3 (either term, 3-0-0). An introduction to the relationship between economic analysis and modern high speed computers. Topics include computer techniques useful in economics, computerized statistical techniques, and examination of selected economic models of both a mathematical and stochastic nature. Prerequisites: ECON 381/382.

ECON 407. *Introduction to Econometrics I.* ★3 (First Term, 3-0-0). Statistical inference in economics. Topics in statistical theory with emphasis on estimation and tests of hypotheses. The general linear regression model. Prerequisites: ECON 381/382 or equivalent; ECON 395/396 or equivalent; MATH 202/221 or equivalent.

ECON 408. *Introduction to Econometrics II.* ★3 (Second Term, 3-0-0). Econometric problems and techniques with emphasis on regression methods. Single equation techniques and introduction to simultaneous equation systems. Applications in research projects. Prerequisite: ECON 407 or equivalent.

ECON 418. *Canadian Economic Development.* ★3 (either term, 3-0-0). Introduction to "new economic history," emphasizing the methodology of quantitative economic history research. Prerequisite: ECON 381; ECON 316, or 318, or consent of the Department.

ECON 421. *International Trade.* ★3 (First Term, 3-0-0). Nature and relevance of international trade; early trade doctrines; the theory of comparative advantage, classical and modern approaches and empirical evidence for them; new approaches to the pure theory of international trade; economic growth and international trade; market imperfections and trade; commercial policy; economic integration and the gains from trade. Prerequisites: ECON 381/382.

ECON 422. *International Economics.* ★3 (Second Term, 3-0-0). An analysis of short and long term capital movements, direct foreign investment in Canada, the foreign exchange market, balance of payments problems, international adjustment mechanisms and monetary arrangements. Prerequisites: ECON 381/382.

ECON 431. *Labor Economics.* ★3 (either term, 3-0-0). An advanced treatment of demand for labor, supply of labor, wage differentials, trade union behaviour, and related topics. Prerequisites: ECON 331; 381, or consent of the Department.

ECON 441. *Monetary Theory and Policy.* ★3 (either term, 3-0-0). The significance of price level changes; classical and Keynesian macro-economic models; theory of demand for money; theory of money supply; monetary policy. Prerequisite: ECON 382 or consent of the Department.

ECON 451. *Resource Allocation Within the Public Sector of the Canadian Economy.* ★3 (either term, 3-0-0). An examination of the basic economic principles and concepts which are utilized in allocating resources in the public sector of the Canadian economy. Prerequisites: ECON 351/352 or consent of the Department.

ECON 471. *Industrial Organization I.* ★3 (First Term, 3-0-0). Contemporary industrial structure; minimum efficient size of firms; business concentration; related topics, e.g., foreign investment in the Canadian economy and barriers to new competition. Prerequisite: ECON 381 or consent of the Department.

ECON 472. *Industrial Organization II.* ★3 (Second Term, 3-0-0). The behavior of firms in different market structures and the attendant economic performance. The development and administration of an effective competition policy: problems of law enforcement; adequate measures to deal with specific market

elements, e.g., price fixing, predatory pricing, mergers, misleading advertising. Prerequisites: ECON 381; ECON 373, or 471, or MANEC 312.

ECON 473. *Economics of Non-Market Activities.* ★3 (either term, 3-0-0). The application of economic analysis to such topics as crime, marriage, fertility and representative government. Prerequisites: ECON 201/202 and consent of the Department.

ECON 476. *Honors Seminar I.* ★3 (First Term, 0-3s-0). Note: Open only to third and fourth year students in Honors Economics.

ECON 477. *Honors Seminar II.* ★3 (Second Term, 0-3s-0). Note: Open only to third and fourth year students in Honors Economics.

INT D 478. *The Multinational Corporation and Public Policy.* ★3 (First Term, 3-0-0). (See § 44.22.)

INT D 479. *The Multinational Corporation and Public Policy: Case Studies.* ★3 (Second Term, 3-0-0). (See § 44.22.)

ECON 481. *Micro-Economic Analysis II.* ★3 (either term, 3-0-0). Theory of distribution; general equilibrium analysis; welfare economics. Prerequisite: ECON 381.

ECON 482. *Macro-Economic Analysis II.* ★3 (either term, 3-0-0). Inflation, employment, and macro-economic policy; business cycles and theories of economic growth; macro-economic forecasting and econometric models. Prerequisite: ECON 382.

ECON 486. *Applications of Mathematics to Economics I.* ★3 (First Term, 3-0-0). Elements of logic and set theory, linear algebra, differential calculus and their conjunction, as used in classical and modern economic analysis. Prerequisites: ECON 381/382; MATH 202/221 or equivalent.

ECON 487. *Applications of Mathematics to Economics II.* ★3 (Second Term, 3-0-0). Difference and differential equations, linear inequalities, convexity, programming; assorted theorems of special use in modern economic analysis. Prerequisite: ECON 486.

ECON 495. *Linear Economic Models.* ★3 (either term, 3-0-1). Input-Output analysis and its applications; optimisation in linear models; duality and shadow prices; special problems in activity analysis; analytical extensions. Prerequisites: ECON 381/382; MATH 202/221 or equivalent.

ECON 498. *Directed Readings I.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ECON 499. *Directed Readings II.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

44.13.3 HONORS AND GRADUATE COURSES

Note: The consent of the Department is required for all of the following courses.

ECON 501. *History of Economic Thought.* ★3 (either term, 3-0-0). A survey of economic thought from Adam Smith to modern times, with particular attention to the theories of economic development and growth.

ECON 503. *Micro-Economic Theory I.* ★3 (either term, 3-0-0). Prerequisites: ECON 481/482, 486/487, or corequisite ECON 597.

ECON 505. *Micro-Economic Theory II.* ★3 (either term, 3-0-0). Prerequisites: ECON 503, ECON 597, or equivalent.

ECON 507. *Econometrics I.* ★3 (First Term, 3-0-0). Statistical inference in economics. Probability and distribution theory including transformation of random variables and the multivariate normal. Estimation, including maximum likelihood methods. Tests of hypothesis including likelihood ratio tests. Prerequisites: ECON 395/396 or equivalent; MATH 202/221. Corequisite: ECON 486.

ECON 508. *Econometrics II.* ★3 (Second Term, 3-0-0). Single equation methods and problems. The general linear model, Aitken's generalization and associated problems, distributed lags, forecasting. Prerequisite: ECON 507 or equivalent.

ECON 509. *Econometrics III.* ★3 (either term, 3-0-0). Simultaneous equation methods and problems. The identification problem, simultaneous equation estimators and their properties. Forecasting and simulation with estimated structures. Prerequisite: ECON 507 or equivalent. Corequisite: ECON 508.

ECON 512. *Economic Development I.* ★3 (either term, 3-0-0). The techniques of development planning; qualitative and quantitative problems associated with the drafting and implementation of plans and programs; assessment of internal and external resources available for development and problems of measurement and mobilization of resources.

ECON 513. *Economic Development II.* ★3 (either term, 3-0-0). Economic policy alternatives in a context of growth and development; problems of inflation, balance of payments, disequilibrium, concentration of growth effects; the role of international aid and other external measures.

ECON 514. *Economic Development of Canada I.* ★3 (either term, 3-0-0). A selective analysis of historical factors involved in the economic growth and development of Canada. Consideration focused on strategies of resource involvement, especially human resources. Selected studies of regional development patterns.

ECON 515. *Economic Development of Canada II.* ★3 (either term, 3-0-0). Analysis of modern problems of economic growth and development in the Canadian economy. Consideration of the possibilities of further development that are contained in current policies of governments and in private sectors of the economy. Prerequisite: ECON 514.

ECON 521. *International Economics I.* ★3 (either term, 3-0-0). Prerequisites: ECON 481/482, ECON 421/422 recommended.

ECON 522. *International Economics II.* ★3 (either term, 3-0-0).

ECON 523. *The International Economy.* ★3 (either term, 3-0-0). Balance of payments, foreign exchange markets, foreign investment, trade and commercial policy, international economic institutions. Note: Designed for graduate students whose specialization is not Economics.

ECON 531. *Labor Economics I.* ★3 (either term, 3-0-0). Factors influencing the supply of, and demand for, labor services and the process of relative wage determination in the long- and short-run. Determination of money wage levels, aggregate labor-force participation, and the level and structure of aggregate employment and unemployment.

ECON 532. *Labor Economics II.* ★3 (either term, 3-0-0). Topics in manpower and human resource development economics. The role of human resources in economic growth, human resources viewed as capital, problems and policies in planning, forecasting, and utilizing manpower contexts, methods of evaluating specific manpower programs and projects; and relationships between poverty and manpower utilization.

ECON 540. *Monetary Economics I.* ★3 (either term, 3-0-0). Prerequisites: ECON 481/482.

ECON 541. *Monetary Economics II.* ★3 (either term, 3-0-0). Activities of financial intermediaries; evaluation of the effectiveness and the impact of monetary policy in both closed and open systems.

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). (See § 44.22.)

ECON 550. *Public Expenditure.* ★3 (either term, 3-0-0). The theory of the role of the public sector in a market economy; market failures, income distribution, evaluation of public investment, public choice, and the economic theory of federalism. Prerequisites: Introductory, and preferably intermediate economic theory, and elementary calculus, or permission of instructor.

ECON 551. *The Canadian Public Economy.* ★3 (either term, 3-0-0). The economic objectives and growth of the Canadian public sector with emphasis on budgetary processes, intergovernmental fiscal relations and public policy problems and achievements. Note: This course is designed to be of interest to graduate students from other departments.

ECON 552. *Urban Economics.* ★3 (either term, 3-0-0). Prerequisites: ECON 481/482.

ECON 553. *Economics of Taxation.* ★3 (either term, 3-0-0). Effects of taxes on allocation, distribution and stabilization objectives. Evaluation of major taxes with particular attention paid to efficiency and incidence considerations. Note: Students deficient in economics will be admitted to the course only by consent of the instructor.

ECON 559. *Health Care Economics.* ★3 (either term, 3-0-0). Problems of resource allocation in the health care sector with special reference to the Canadian economy.

ECON 561. *Transportation Economics.* ★3 (either term, 3-0-0). Economic analysis of alternative transportation systems.

ECON 563. *Regional Economics I.* ★3 (either term, 3-0-0). Methodology of regional analysis including structural studies, location theory, input-output application, aggregative models and

impact studies; regional development policy issues within a context of senior government policy objectives.

ECON 564. *Regional Economics II.* ★3 (either term, 3-0-0). The role of inter-regional mobility and substitutability of factors of production in regional growth; regional production functions and the differential impact of technical change; studies in inter-regional trade and comparative advantage in production and marketing.

ECON 565. *Resource Economics I: The Economics of Conservation and Resource Scarcity.* ★3 (either term, 3-0-0). Economic analysis of quantitative aspects of natural resource use and development; the economics of conservation; the role of resources in growth; resource scarcity; quantitative tools (benefit-cost and input-output analysis) in resources management; selected Canadian resource management; selected Canadian resource issues.

INT D 566. *Resource Economics II: Economics of the Environment.* ★3 (either term, 3-0-0). (See § 44.22.)

ECON 567. *Canadian Energy Resources.* ★3 (either term, 3-0-0). An economic evaluation of the role of energy resources in the Canadian economy.

ECON 570. *Industrial Economics I.* ★3 (either term, 3-0-0). Contemporary industrial structure, conduct and performance-Canadian and foreign; related public policies.

ECON 571. *Industrial Economics II.* ★3 (either term, 3-0-0). Government enterprise, public regulation of private enterprise, and specific public policies concerning particular market elements, such as advertising, delivered pricing and patents.

ECON 581. *Macro-Economic Theory I.* ★3 (either term, 3-0-0). Prerequisite or corequisite: ECON 597 or equivalent.

ECON 582. *Macro-Economic Theory II.* ★3 (either term, 3-0-0). Prerequisites: ECON 581, ECON 597, or equivalent.

ECON 586. *Mathematical Economics.* ★3 (either term, 3-0-0). Applications and interpretations of tools used in economic analysis such as programming and game theory; inter-industry analysis, multi-sector growth models; mathematical approach to general equilibrium theory and other related areas. Emphasis on specific topics may vary from year to year. Prerequisites: ECON 486 / 487, or ECON 597, or equivalent.

ECON 591. *Comparative Economics.* ★3 (either term, 3-0-0). A survey of major contemporary systems of economic organization with emphasis on economic planning.

ECON 593. *The Soviet Economy.* ★3 (either term, 3-0-0). A graduate survey of the theory of the Soviet economy ; the Soviet enterprise and its behavior; Soviet planning and resource allocation; the problem of efficiency and pricing; Soviet national accounts, planning and overall economics performance; Soviet strategy of economic growth. International aspects of the Soviet economy. Soviet economic reform.

ECON 595. *Computer Applications in Economics.* ★3 (either term, 3-0-0). An introduction to the relationship between economic analysis and modern high speed computers. Topics include computer techniques useful in economics, computerized statistical techniques, and examination of selected economic models of both a mathematical and stochastic nature.

ECON 597. *Mathematical Analysis for Economists.* ★3 (either term, 3-0-0). A condensed selection of mathematical concepts used in economic analysis. Elements of logic and set theory; review of the calculus; differential and difference equations; linear algebra; inequalities; convexity. Prerequisites: MATH 202 / 221 or equivalent. Note: Designed for M.A. candidates or provisional Ph.D. students who do not have the equivalent of ECON 486 / 487.

ECON 598. *Statistical Methods for Economists.* ★3 (either term, 3-0-2). Random variables and probability distributions; estimation and tests of hypotheses; single equation estimation techniques and problems; survey of simultaneous equation estimation problems. The emphasis of this course is on regression techniques as applied in economic research. Note: Designed for M.A. candidates or provisional Ph.D. students who do not have the equivalent of ECON 407 / 408.

ECON 599. *Applied Econometrics.* ★3 (either term, 3-0-0). The role of economic theory in the process of specification and estimation of models. Interpretation and critical evaluation of applied work by means of selected topics in econometric theory. Prerequisites: ECON 408 or equivalent. Corerequisite: ECON 486 / 487.

ECON 608. *Topics in Econometrics.* ★3 (either term, 3-0-0).

ECON 612. *Topics in Economic Development.* ★3 (either term, 3-0-0).

ECON 620. *Topics in International Economics.* ★3 (either term, 3-0-0).

ECON 630. *Topics in Labor Economics.* ★3 (either term, 3-0-0).

ECON 640. *Topics in Monetary Economics.* ★3 (either term, 3-0-0).

ECON 652. *Topics in Public Economics.* ★3 (either term, 3-0-0). Topics available include: local public finance, project evaluation, theory of public choice, public enterprise pricing policies, health care economics, and fiscal systems.

ECON 664. *Topics in Regional Economics.* ★3 (either term, 3-0-0).

ECON 672. *Topics in Industrial Economics.* ★3 (either term, 3-0-0).

ECON 693. *Topics in Comparative Economics.* ★3 (either term, 3-0-0).

ECON 699. *Selected Research Topics in Economics.* ★3 (either term, 3-0-0).

ECON 900. *Non-thesis Project* ★3 (variable). Note: Formerly ECON 600.

44.14 English

44.14.1 JUNIOR COURSES

The English Department offers seven junior courses. Two are full-session courses: English 200 and English 210. Five are single-term courses: English 215, English 270, English 275, English 284 and English 290. Either of the full-session courses, or any two of the single-term courses, may serve as prerequisites to 300-level senior courses.

NOTE: Normally no more than one full-session junior English course, or equivalent, may be offered for credit in an undergraduate program.

All junior English courses will require a substantial amount of writing in essays and tests to afford practice in setting down ideas in good English. English 290 and English 210, in which the art of composition is taught, will require substantially more writing than the other junior courses.

The English Department strongly urges those students intending to make English Literature a subject of concentration to take English 200, as the best preparation for further studies in English.

ENGL 200. *A Survey of English Literature from the Middle Ages to the Twentieth Century.* ★6 (3-0-0). A close study of representative masterpieces which demonstrate the development of the English literary tradition.

ENGL 210. *English Literary Forms.* ★6 (3-0-0). This course combines an introduction to the various genres of English literature (prose, poetry, and drama) with formal instruction in writing skills. One-third of the course is devoted to writing instruction.

ENGL 215. *Introduction to the Study of Literature.* ★3 (either term, 3-0-0). A close reading of significant works of prose and poetry in English, to introduce the student to the most effective ways of understanding the various genres of English literature. Three essays will be required. Note: This course is prerequisite to ENGL 270, 275, 284 and 290. Formerly part of ENGL 260 and 265.

ENGL 270. *Readings in Poetry.* ★3 (either term, 3-0-0). A close study of selected modern and traditional verse to introduce the student to ways of approaching and critically evaluating poetry. Prerequisite: ENGL 215.

ENGL 275. *Readings in Prose.* ★3 (either term, 3-0-0). A close study of novels, short stories, essays, and other forms, both modern and traditional, to introduce the student to ways of approaching prose, and to assist the student in reading critically. Prerequisite: ENGL 215.

ENGL 284. *Canadian Literature in Process.* ★3 (either term, 3-0-0). An intensive reading of mainly contemporary Canadian novels, stories, poems, and plays, in English. Prerequisite: ENGL 215.

ENGL 290. *The Craft of Writing.* ★3 (Second Term, 3-0-0). A study of techniques of expository writing, intended to increase awareness of the resources of English prose, and to provide

intensive practice in using these. Prerequisite: ENGL 215 and consent of the Department.

44.14.2 SENIOR COURSES

NOTE: Senior courses have as prerequisite English 200, or 210, or any two single-term courses in English.

INT D 300. *Introduction to the Study of Film.* ★6 (3-0-3). See § 44.22. Accepted as an option only.

INT D 301. *The Hollywood Film.* ★ (3-0-3). See § 44.22. Accepted as an option only.

ENGL 309. *Expository Writing.* ★6 (3-0-0). The purpose of this course is to increase the student's ability to write clear expository prose. The study of models of prose style will be central, combined with frequent practice in writing on the basis of such models.

ENGL 310. *Introduction to Bibliography and Methods of Research.* ★3 (either term, 3-0-0). An examination of the development of printing, textual problems, library organization, bibliography compilation, and manuscript styles and methods.

ENGL 311. *History of the Language.* ★3 (either term, 3-0-0). An analysis of the historical development of the English language, with some study in the prose tradition. Note: Formerly part of ENGL 388.

ENGL 313. *The Modern English Language.* ★3 (either term, 3-0-0). A study of modern grammar, semantics, and stylistics. Note: Formerly part of ENGL 388.

ENGL 315. *History of English Literary Criticism.* ★3 (either term, 3-0-0). A survey of the major developments in literary criticism. Note: Formerly part of ENGL 393.

ENGL 316. *Chaucer.* ★6 (3-0-0). Major works of Chaucer and of selected poets of the fifteenth century.

ENGL 317. *Applied Criticism.* ★3 (either term, 3-0-0). A study of the practical application of critical principles and methods to English literature. Note: Formerly part of ENGL 393.

ENGL 318. *Traditions in English Poetry.* ★3 (either term, 3-0-0). The traditions, forms, and techniques of English poetry.

ENGL 320. *Old English Language and Literature.* ★6 (3-0-0). An introduction to the language and literature of Anglo-Saxon England. Note: Formerly ENGL 308.

ENGL 321. *The Earlier Middle Ages.* ★3 (either term, 3-0-0). The literature of England from its beginnings to the end of the thirteenth century. Note: Formerly part of ENGL 314.

ENGL 322. *The Later Middle Ages.* ★3 (either term, 3-0-0). The literature of fourteenth- and fifteenth-century England, including Chaucer. Note: Formerly part of ENGL 314.

ENGL 330. *The Early English Renaissance.* ★3 (either term, 3-0-0). The literature of sixteenth-century England, including Shakespeare, showing the influence of Renaissance ideas and literary forms. Note: Formerly part of ENGL 324.

ENGL 331. *The Later English Renaissance.* ★3 (either term, 3-0-0). The literature of seventeenth-century England, including Milton, in the light of intellectual developments of the period. Note: Formerly part of ENGL 344.

ENGL 332. *Shakespeare.* ★6 (3-0-0). A study of representative plays. Note: Not to be taken by students with credit in ENGL 333.

ENGL 333. *Shakespeare.* ★3 (either term, 3-0-0). Selected works of Shakespeare. Note: Not to be taken by students with credit in ENGL 332.

ENGL 335. *English Drama to 1642.* ★3 (either term, 3-0-0). Representative works by medieval and later dramatists including Shakespeare, showing the development of English drama. Note: Formerly part of ENGL 390.

ENGL 340. *Milton.* ★6 (3-0-0).

ENGL 341. *The Augustan Age.* ★3 (either term, 3-0-0). Representative works by writers from the Restoration and early eighteenth century. Note: Formerly part of ENGL 348.

ENGL 343. *The Age of Johnson.* ★3 (either term, 3-0-0). Works of representative writers of the later eighteenth century, including the precursors of Romanticism. Formerly part of ENGL 348.

ENGL 345. *The British Romantic Period.* ★3 (either term, 3-0-0). Representative works of the Romantic poets and related prose materials. Note: Not to be taken by students with credit in ENGL 356.

ENGL 350. *The Earlier Victorian Age.* ★6 (3-0-0). Representative works of the earlier Victorians. Note: Not to be taken by students with credit in ENGL 364 or 372. Formerly a single-term course.

ENGL 351. *The Later Victorian Age.* ★3 (Second Term, 3-0-0). Representative works of the later Victorians. Note: Not to be taken by students with credit in ENGL 364 or 372.

ENGL 355. *Drama from the Restoration to 1870.* ★3 (either term, 3-0-0). Representative works of Restoration and later dramatists, showing changes in the English drama. Note: Formerly part of ENGL 390.

ENGL 356. *Poetry and Prose of the Romantic Period.* ★6 (3-0-0). Readings in the Major Romantic Poets. Note: Not to be taken by students with credit in ENGL 345.

ENGL 357. *The English Novel.* ★6 (3-0-0). Representative novels by Defoe, Richardson, Fielding, Smollett, Sterne, Austen, Scott, Dickens, Thackeray, Bronte, Hardy, and others. Note: Formerly ENGL 392.

ENGL 358. *Currents of Thought in American Prose.* ★3 (either term, 3-0-0). Representative works of American writers from Colonial times to the present, illustrating the intellectual milieu. Note: Not to be taken by students with credit in ENGL 373.

ENGL 359. *American Fiction to 1900.* ★3 (either term, 3-0-0). Representative works. Note: Not to be taken by students with credit in ENGL 373.

ENGL 360. *The Modern American Novel.* ★3 (either term, 3-0-0). Representative works of twentieth century American novelists. Note: Not to be taken by students with credit in ENGL 383.

ENGL 361. *The Modern British Novel.* ★3 (either term, 3-0-0). Representative works of twentieth century British novelists. Note: Not to be taken by students having credit in ENGL 380.

ENGL 362. *Modern British and American Drama.* ★6 (3-0-0). Major works by modern British and American dramatists. Note: Formerly ENGL 391, not to be taken by students with credit in that course, or ENGL 363.

ENGL 363. *Modern Drama.* ★3 (either term, 3-0-0). Selected plays of British and American dramatists. Note: Not to be taken by students with credit in ENGL 391 or 362.

ENGL 364. *Modern Canadian Drama.* ★3 (either term, 3-0-0). Selected plays by dramatists of English-speaking Canada.

ENGL 365. *Modern Poetry.* ★3 (either term, 3-0-0). Representative works of British and American poets. Note: Not to be taken by students with credit in ENGL 380 or 383.

ENGL 366. *The Short Story.* ★3 (either term, 3-0-0). Representative works of writers illustrating the tradition of the short story in English.

ENGL 367. *The Canadian Literary Tradition: Rural.* ★3 (either term, 3-0-0). Representative works of writers of English-speaking Canada from 1800 to the present. Note: Not to be taken by students with credit in ENGL 384.

ENGL 369. *The Canadian Literary Tradition: Urban.* ★3 (either term, 3-0-0). Representative works of writers of English-speaking Canada. Note: Not to be taken by students having credit in ENGL 384.

ENGL 370. *Regional Literature of Canada.* ★3 (either term, 3-0-0). Representative works of writers of English-speaking Canada.

ENGL 371. *Experimental Writing in Canada.* ★3 (either term, 3-0-0). Representative works of writers of English-speaking Canada.

ENGL 372. *Studies in Victorian Prose of Thought.* ★6 (3-0-0). Representative works by Burke, Carlyle, J. S. Mill, Newman, Arnold, Ruskin, Huxley, Butler, and Morris. Note: Not to be taken by students having credit in ENGL 460.

ENGL 373. *American Literature to 1900.* ★6 (3-0-0). A selection of representative major writers. Emphasis on the writers of the "American Renaissance", especially Poe, Hawthorne, Emerson, Thoreau, Melville, Whitman, Mark Twain, and Henry James.

ENGL 374. *Commonwealth Literature.* ★3 (either term, 3-0-0). Representative works of writers from various areas of the Commonwealth. Note: Formerly part of ENGL 399.

ENGL 376. *Introduction to Creative Writing: Fiction.* ★3 (either term, 3-0-0). Requires consent of the instructor. Note: Formerly part of ENGL 396.

ENGL 377. *Introduction to Creative Writing: Poetry.* ★3 (either term, 3-0-0). Requires consent of the instructor. Note: Formerly part of ENGL 396.

ENGL 378. *Intermediate Creative Writing: Fiction.* ★3 (either term, 3-0-0). Requires consent of the instructor. Note: Formerly part of ENGL 396.

ENGL 379. *Intermediate Creative Writing: Poetry.* ★3 (either term, 3-0-0). Requires consent of the instructor. Note: Formerly part of ENGL 396.

ENGL 380. *Early Twentieth Century British Literature.* ★6 (3-0-0). Note: Not to be taken by students with credit in ENGL 361 or 365.

ENGL 383. *American Literature from 1900.* ★6 (3-0-0). A selection of representative major writers. Note: Not to be taken by students with credit in ENGL 360.

ENGL 384. *Canadian Literature.* ★6 (3-0-0). An historical and critical study of the literature of English-speaking Canada. Note: Not to be taken by students with credit in ENGL 367 or 369.

ENGL 385. *The King James Bible in English Literature.* ★6 (3-0-0). A literary study of selections from the Old and New Testaments of the King James Bible, and of the influence of the King James Bible in English literature.

44.14.3 SPECIAL STUDIES COURSES

NOTE: Special Studies Courses have as prerequisite one full-session 300-level English course or two single-term 300-level English courses, unless otherwise specified. Not all Special Studies Courses may be offered in any given year.

ENGL 407. *Creative Writing: Advanced Fiction.* ★6 (3-0-0). Prerequisites: Two 300-level courses, one of which is to be a creative writing course, and consent of the instructor.

ENGL 408. *Creative Writing: Advanced Poetry.* ★6 (3-0-0). Prerequisites: Two 300-level courses, one of which is to be a creative writing course, and consent of the instructor.

ENGL 411. *Studies in Individual Authors.* ★3 (First Term, 3-0-0).

ENGL 412. *Studies in Individual Authors.* ★3 (Second Term, 3-0-0).

ENGL 413. *Studies in Literary Genres.* ★3 (First Term, 3-0-0).

ENGL 414. *Studies in Literary Genres.* ★3 (Second Term, 3-0-0).

ENGL 415. *Studies in National Literatures in English.* ★3 (First Term, 3-0-0).

ENGL 416. *Studies in National Literatures in English.* ★3 (Second Term, 3-0-0).

ENGL 417. *Studies in Literary History.* ★3 (First Term, 3-0-0).

ENGL 418. *Studies in Literary History.* ★3 (Second Term, 3-0-0).

ENGL 423. *Studies in Literary Theory.* ★3 (First Term, 3-0-0).

ENGL 424. *Studies in Literary Theory.* ★3 (Second Term, 3-0-0).

ENGL 425. *Special Studies in English Language and Literature.* ★3 (First Term, 3-0-0).

ENGL 426. *Special Studies in English Language and Literature.* ★3 (Second Term, 3-0-0).

44.14.4 HONORS COURSES

ENGL 301. *Seminar, Second-Year Honors English.* ★2 (0-1s-0).

ENGL 302. *Directed Reading I. Second-Year Honors English.* ★6 (3-0-0).

ENGL 401. *Seminar, Third-Year Honors English.* ★2 (0-1s-0).

INT D 401. *Film Theory and Criticism.* ★3 (either term, 3-0-0). See § 44.22. Accepted as an option only.

ENGL 402. *Directed Reading II. Third Year Honors English.* ★6 (3-0-0).

ENGL 501. *Seminar, Fourth-Year Honors English.* ★2 (0-1s-0).

ENGL 502. *Directed Reading III. Fourth-Year Honors English.* ★6 (3-0-0).

ENGL 503. *Tutorial, Fourth-Year Honors English.* ★6. In the third year of the program the Honors English student, in consultation with the Department, will arrange for a literary project to be pursued under the guidance of a member of the Department for the ensuing summer and winter. The project will involve study of some problem having to do with such matters as technique, genre, criticism, or theme.

44.14.5 GRADUATE COURSES

ENGL 540. *The Theory and Practice of Expository Writing.* ★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Program.

ENGL 541. *Forms of English Prose.* ★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Porgram.

ENGL 542. *Forms of English Poetry.* ★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Porgram.

ENGL 543. *Forms of English Drama.* ★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Porgram.

ENGL 544. *The Canadian Literary Tradition.* ★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Porgram.

ENGL 553. *Directed Reading.* ★6 (3-0-0).

ENGL 554. *Directed Reading.* ★3 (First Term, 3-0-0).

ENGL 555. *Directed Reading.* ★3 (Second Term, 3-0-0).

ENGL 560. *Bibliography and Methods of Research.* ★0 (1-0-0).

ENGL 567. *Studies in Literary History.* ★3 (either term, 3-0-0).

ENGL 568. *Literary Criticism.* ★6 (3-0-0).

ENGL 569. *Studies in Literary Criticism.* ★3 (either term, 3-0-0).

ENGL 576. *The English Language.* ★6 (3-0-0).

ENGL 577. *Studies in the English Language.* ★3 (either term, 3-0-0).

ENGL 584. *Creative Writing.* ★6 (3-0-0).

ENGL 586. *Studies in American Literature.* ★3 (either term, 3-0-0).

ENGL 587. *Nineteenth Century American Literature.* ★6 (3-0-0).

ENGL 589. *Twentieth Century American Literature.* ★6 (3-0-0).

ENGL 590. *Canadian Literature.* ★6 (3-0-0).

ENGL 591. *Studies in Canadian Literature.* ★3 (either term, 3-0-0).

ENGL 592. *Old Norse Literature.* ★6 (3-0-0).

ENGL 610. *Old English Literature.* ★6 (3-0-0).

ENGL 611. *Studies in Old English Literature.* ★3 (either term, 3-0-0).

ENGL 614. *Middle English Literature.* ★6 (3-0-0).

ENGL 615. *Studies in Middle English Literature.* ★3 (either term, 3-0-0).

ENGL 616. *Chaucer.* ★6 (3-0-0).

ENGL 628. *Medieval Drama.* ★6 (3-0-0).

ENGL 634. *Renaissance Literature.* ★6 (3-0-0).

ENGL 635. *Studies in Renaissance Literature.* ★3 (either term, 3-0-0).

ENGL 640. *Shakespeare.* ★6 (3-0-0).

ENGL 641. *Elizabethan and Jacobean Drama.* ★6 (3-0-0).

ENGL 646. *Seventeenth Century Poetry and Prose.* ★6 (3-0-0).

ENGL 647. *Studies in Seventeenth Century Literature.* ★3 (either term, 3-0-0).

ENGL 652. *Milton.* ★6 (3-0-0).

ENGL 654. *Restoration and Eighteenth Century Drama.* ★6 (3-0-0).

ENGL 658. *Restoration and Eighteenth Century Literature.* ★6 (3-0-0).

ENGL 659. *Studies in Restoration and Eighteenth Century Literature.* ★3 (either term, 3-0-0).

ENGL 660. *The Eighteenth Century Novel.* ★6 (3-0-0).

ENGL 662. *The Romantic Novel.* ★6 (3-0-0).

ENGL 663. *Romantic Literature.* ★6 (3-0-0).

ENGL 664. *Romantic Poetry.* ★6 (3-0-0).

ENGL 665. *Studies in Romantic Literature.* ★3 (either term, 3-0-0).

ENGL 670. *Currents of Thought in English Literature Since 1790.* ★6 (3-0-0).

ENGL 671. *Victorian Poetry.* ★6 (3-0-0).

ENGL 672. *The Victorian Novel.* ★6 (3-0-0).

ENGL 673. *Studies in Victorian Literature.* ★3 (either term, 3-0-0).

ENGL 676. *The Twentieth Century Novel.* ★6 (3-0-0).

ENGL 678. *Twentieth Century Prose.* ★6 (3-0-0).

ENGL 679. *Studies in Twentieth Century Literature.* ★3 (either term, 3-0-0).

ENGL 682. *Twentieth Century Poetry.* ★6 (3-0-0).

ENGL 684. *Twentieth Century Drama.* ★6 (3-0-0).

ENGL 692. *Technique of the Novel.* ★6 (3-0-0).

ENGL 693. *Studies in Literary Genres.* ★3 (either term, 3-0-0).

ENGL 694. *Studies in Literary Techniques.* ★3 (either term, 3-0-0).

ENGL 695. *Studies in Literary Themes.* ★3 (either term, 3-0-0).

ENGL 696. *Studies in Individual Authors.* ★3 (either term, 3-0-0).

44.15 *French and French-Canadian Language and Literature*

Department of Romance Languages

44.15.1 FRENCH LANGUAGE AND LITERATURE

Junior Courses

NOTE: Only one of French 200, 201, 202, or 230 may be taken for credit.

FREN 100. *Beginners' French.* ★6 (4-0-1). Designed to enable students entering with complete matriculation but without French to begin their study of this language in the University. Note: Normally, students will go from FREN 100 to FREN 200.

FREN 200. *First-Year University French.* ★6 (3-0-1). Intensive training in spoken and written French, including grammar, composition, and literature. Prerequisite: French 30 or equivalent. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 220 or 222, or CA FR 220 or 222.

FREN 201. *First-Year University French For Teachers.* ★6 (3-0-2). Designed to teach future teachers of French to speak and to write the language. Three hours of grammar and two hours of audio-visual learning per week. Prerequisite: French 30 or equivalent. Note: Arts students must obtain permission of the Dean before registering in this course. Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 220 or 222, or CA FR 220 or 222.

FREN 202. *Intermediate First-Year University French.* ★6 (3-0-1). Designed for students having French 31 and Francophone students. Prerequisite: French 31 or equivalent. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 220 or 222, or CA FR 220 or 222.

FREN 205. *Basic Skills for Reading French.* ★3 (First Term, 3-0-0). A basic course in French grammar and literature designed to develop skills in reading French. Language of instruction is English. Prerequisite: French 30 or equivalent. Note: Not accepted to meet the requirements in a principal area of concentration, or the second area of concentration if the principal area is French.

FREN 206. *French Reading Comprehension.* ★3 (Second Term, 3-0-0). An intermediate course in French grammar and literature. Language of instruction is English. Prerequisite: FREN 205 or consent of the Department. Note: Not accepted to meet the requirements in a principal area of concentration, or the second area of concentration if the principal area is French.

FREN 230. *Advanced First-Year University French.* ★6 (3-0-2). Designed for Honors students. Students having French 31 and Francophone students require the consent of the Department.

Senior Courses

FREN 301. *Second-Year University French.* ★6 (3-0-2). Designed to perfect written and oral knowledge of French. The course aims at achieving adequate fluency to enable students to proceed in literature, translation and/or composition courses. Prerequisite: Any 200-level French course except FREN 205 or 206.

FREN 304. *Readings in French Literature before 1715.* ★3 (either term, 3-0-0). Selected periods and major works in French literature. The works are studied in French and the course is given in English. Prerequisite: FREN 200 or 206. Note: Not accepted to meet the requirements in a principal area of concentration, or the second area of concentration if the principal area is French. (Note: Formerly part of FREN 305.)

FREN 305. *Readings in French Literature after 1715.* ★3 (either term, 3-0-0). Selected periods and major works in French literature. The works are studied in French and the course is given in English. Prerequisite: FREN 200 or 206. Note: Not accepted to meet the requirements in a principal area of concentration, or the second area of concentration if the principal area is French.

FREN 306. *Readings in French Theatre.* ★3 (either term, 3-0-0). Selected periods and major works in French literature. The works are studied in French and the course is given in English. Prerequisite: FREN 200 or 206. Note: Not accepted to meet the requirements in a principal area of concentration, or the second area of concentration if the principal area is French.

FREN 307. *Readings in French Poetry.* ★3 (either term, 3-0-0). Selected periods and major works in French literature. The works are studied in French and the course is given in English. Prerequisite: FREN 306. Note: Not accepted to meet the requirements in a principal area of concentration, or the second area of concentration if the principal area is French.

FREN 308. *Second-Year French for Honors Language Students.* ★6 (3-0-2). Intensive study of grammar, idiom, and vocabulary with oral and written work. Prerequisite: FREN 230 or consent of the Department.

FREN 310. *Introductory French Composition for Honors Students.* ★3 (First Term, 3-0-0). Prerequisite: Any 200-level French or French-Canadian course, except the 200-level reading series.

FREN 312. *Practical Work in Oral French for Second-Year Honors Students.* ★2 (1-0-0). Note: Formerly FREN 302.

FREN 313. *Aspects of Contemporary French Civilization and Culture I.* ★3 (First Term, 3-0-0). The civilization and culture of France as seen through its institutions, customs, and writings. This course aims at improving the student's oral and written command of French. Prerequisite: Any 200-level or 300-level French or French-Canadian course, except FREN 205, 206, 304, 305, 306, or 307. Note: Formerly part of FREN 330. Not open to students having credit or registered in Faculté Saint-Jean FRANC 324.

FREN 314. *Aspects of Contemporary French Civilization and Culture II.* ★3 (Second Term, 3-0-0). The civilization and culture of France as seen through its institutions, customs, and writings. This course aims at improving the student's oral and written command of French. Prerequisite: Any 200- or 300-level French or French-Canadian course except FREN 205, 206, 304, 305, 306, or 307. Note: Formerly part of FREN 330. Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 324.

FREN 330. *Introduction to The Close Study of French Literary Texts.* ★3 (either term, 3-0-0). Prerequisite: Any 200-level French course except FREN 205 or 206. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 325.

FREN 340. *Composition, Grammar and Advanced Conversation.* ★6 (3-0-0). Development of writing skills through practice in prose composition. Intensive study of grammar. Advanced conversation based on a survey of selected texts. Prerequisite or corequisite: Any 200- or 300-level FREN or FR CA course except FREN 205, 206, 304, 305, 306, or 307. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 320 or 321. Note: Only one of FREN 340, or FR CA 340 may be taken for credit.

FREN 360. *Introduction to French Literature of the Eighteenth Century.* ★3 (either term, 3-0-0). Prerequisite or corequisite: FREN 330. Note: Formerly part of FREN 460. Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 326.

FREN 370. *Introduction to French Literature of the Nineteenth Century.* ★3 (either term, 3-0-0). Prerequisite or corequisite: FREN 330. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 327.

FREN 380. *Introduction to French Literature of the Twentieth Century.* ★3 (either term, 3-0-0). Prerequisite or corequisite: FREN 330. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 328.

FREN 390. *Introduction to Children's Literature in French.* ★3 (either term, 3-0-1). A survey of children's literature in French especially designed for future teachers of French. Prerequisite: any 300-level French or French-Canadian courses except the 300-level reading courses. Note: Normally restricted to Faculty of Education students. Arts students require permission of the Department to take this course.

FREN 400. *Comparative Stylistics: French-English.* ★6 (3-0-0). Prerequisite: R LIN 375 or consent of the Department. Note: Formerly R LIN 400. Not open to students with credit in R LIN 400, or having credit or registered in Faculté Saint-Jean CA FA 421 or 422.

FREN 408. *Third-Year French for Honors Language Students.* ★3 (either term, 3-0-2). Intensive advanced grammar, written and oral expression. Prerequisite: FREN 308 or consent of the Department. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean CA FR 420.

FREN 409. *History of the French Language.* ★3 (either term, 3-0-0). Prerequisite: A reading knowledge of French. Note: Formerly FREN 512.

FREN 410. *French Composition I.* ★3 (First Term, 3-0-0). Prerequisite: FREN 310 or consent of the Department. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean CA FR 322.

FREN 411. *French Composition II.* ★3 (Second Term, 3-0-0). Prerequisite: FREN 410. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 322.

FREN 412. *Practical Work in Oral French for Third-Year Honors Students.* ★2 (1-0-0). Note: Formerly FREN 403.

FREN 413. *Aspects of French Civilization and Culture III.* ★3 (First Term, 3-0-0). The civilization and culture of France from the Romans to the classic era. This course is designed to improve the student's oral and written command of French and to provide a context for the study of French literature. Prerequisite: Any French or French-Canadian 300-level course except 300-level reading series.

FREN 414. *Aspects of French Civilization and Culture IV.* ★3 (Second Term, 3-0-0). The civilization and culture of France from the end of the classic era to World War I. This course is designed to improve the student's oral and written command of French and to provide a context for the study of French literature. Prerequisite: Any French or French-Canadian 300-level course except the 300-level reading series.

FREN 415. *Exercises in Translation: French Into English.* ★3 (either term, 3-0-0). Prerequisite: A 300-level course in French or French-Canadian.

FREN 416. *Exercises in Translation: English Into French.* ★3 (either term, 3-0-0). Prerequisite: A 300-level course in French or French-Canadian.

FREN 430. *Introduction to Medieval French Literature.* ★3 (either term, 3-0-0). Prerequisite: Any one of FREN 360, 370, 380, or consent of the Department. Note: Formerly part of FREN 530.

FREN 431. *Topics in Medieval French Literature.* ★3 (Second Term, 3-0-0). Prerequisite: FREN 430. For Honors students or by consent of the Department. Note: Formerly part of FREN 530.

FREN 440. *Introduction to French Literature of the Renaissance.* ★3 (either term, 3-0-0). Prerequisite: Any one of FREN 360, 370, 380, or consent of the Department. Note: Formerly part of FREN 540.

FREN 441. *Topics in French Literature of the Renaissance.* ★3 (Second Term, 3-0-0). Prerequisite: FREN 440. For Honors students or by consent of the Department. Note: Formerly part of FREN 540.

FREN 450. *Introduction to French Literature of the Seventeenth Century.* ★3 (either term, 3-0-0). Prerequisite: Any one of FREN 360, 370, 380, or by consent of the Department.

FREN 451. *Topics in French Literature of the Seventeenth Century.* ★3 (Second Term, 3-0-0). Prerequisite: FREN 450. For Honors students or by consent of the Department.

FREN 461. *Topics in French Literature of the Eighteenth Century.* ★3 (Second Term, 3-0-0). Prerequisite: FREN 360. For Honors students or by consent of the Department. Note: Formerly part of FREN 460.

FREN 471. *Topics in French Literature of the Nineteenth Century.* ★3 (either term, 3-0-0). Prerequisite: FREN 370 or consent of the Department.

FREN 481. *Topics in French Literature of the Twentieth Century.* ★3 (either term, 3-0-0). Prerequisite: FREN 380 or consent of the Department.

FREN 499. *Directed Reading.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Designed to meet the needs of individual students. Prerequisite: Any 300-level French or French-Canadian course.

Honors and Graduate Courses

FREN 500. *Reading Course.* ★6 (3-0-0). This course is for graduate students who wish to satisfy the language requirement of their Department. An intensive study of essential grammar, reading of graded texts, and translation of texts from the student's own field. Note: Not open to undergraduates.

FREN 508. *Fourth-Year French for Honors Language Students.* ★6 (3-0-2). Intensive advanced language work. Application, within specialized fields, of language skills. Prerequisite: FREN 408 or consent of the Department.

FREN 510. *Seminar in French Composition.* ★6 (0-3s-0). Intensive training in the preparation and oral presentation of reports in French. Note: For fourth-year Honors students.

FREN 515. *Advanced Exercises in Translation: French into English.* ★3 (either term, 3-0-0). Prerequisite: FREN 415.

FREN 516. *Advanced Exercises in Translation: English into French.* ★3 (either term, 3-0-0). Prerequisite: FREN 416.

FREN 520. *Honors Tutorial.* ★3 (either term, 3-0-0) or ★6 (3-0-0). For fourth-year Honors students.

FREN 521. *The History of French Literary Criticism to the Eighteenth Century.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Consent of the Department.

FREN 522. *History of French Literary Criticism From the Nineteenth Century.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Consent of the Department.

FREN 531. *Studies in Medieval French Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 600.

FREN 542. *Studies in the French Renaissance.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Consent of the Department.

FREN 551. *Studies in Seventeenth Century French Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 550.

FREN 560. *Studies in Eighteenth Century French Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Consent of the Department.

FREN 570. *Studies in the Romantic Period in France.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 470.

FREN 574. *Studies in French Realism.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 475.

FREN 576. *Studies in French Prose and Poetry of the late Nineteenth Century.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 480.

FREN 580. *Studies in Twentieth Century French Theatre.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

FREN 581. *Studies in the Twentieth Century French Novel.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 575.

FREN 582. *Studies in Twentieth Century French Poetry.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 685.

FREN 599. *Directed Reading.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Designed to meet the needs of individual Honors or Graduate students. Prerequisite: Consent of Department.

FREN 611. *History of French Syntax: From Its Origins to 1500.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 602.

FREN 613. *History of French Syntax: From 1500 to the Present.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: FREN 611, or consent of the Department. Note: Formerly FREN 603.

FREN 622. *Seminar in French Theatre II.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Note: Formerly part of FREN 606.

FREN 623. *Seminar in French Poetry.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FREN 624. *Methods of Research.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 691.

FREN 625. *Bibliography and Thesis Style.* ★1 (First Term, 0-1s-0). Note: Formerly FREN 690.

FREN 626. *Seminar in French Literary Criticism.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Note: Formerly FREN 604.

FREN 632. *The Spirit of Humanism in France up to the Renaissance.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 612.

FREN 635. *Seminar in Medieval French Literature.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Prerequisite: FREN 531 or consent of the Department. Note: Formerly FREN 605.

FREN 641. *Seminar in French Renaissance Literature.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Note: Formerly FREN 610.

FREN 652. *Seminar in Seventeenth-Century Literature.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Note: Formerly FREN 619.

FREN 662. *Seminar in Eighteenth-Century Literature.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Note: Formerly FREN 629.

FREN 663. *The Eighteenth Century Novel.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 630.

FREN 671. *The Naturalistic Novel.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 651.

FREN 672. *Seminar in Nineteenth-Century Literature.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Note: Formerly FREN 640.

FREN 675. *The Late Nineteenth-Century Theatre.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 655.

FREN 680. *Seminar in Twentieth-Century Literature.* ★6 (0-3s-0). Prerequisite: An undergraduate course in Twentieth-Century French literature. Note: Formerly FREN 660.

FREN 684. *Studies in the Contemporary French Novel.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Note: Formerly FREN 661.

FREN 696. *Studies in Individual Authors.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

FREN 697. *Special Reading Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

FREN 699. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A detailed study of a literary question not dealt with in the other Honors or graduate courses. Designed to meet the needs of individual Honors or Graduate students.

44.15.2 FRENCH-CANADIAN LANGUAGE AND LITERATURE

Senior Courses

FR CA 332. *Aspects of French-Canadian Civilization and Culture I.* ★3 (either term, 3-0-0). The eighteenth and nineteenth centuries as seen through representative authors. Practical work in grammar, composition and stylistics. Prerequisite: Any 200-level French course except FREN 205 or 206. Note: Formerly part of FR CA 331. Not open for credit to students having credit or registered in Faculté Saint-Jean CA FR 320.

FR CA 333. *Aspects of French-Canadian Civilization and Culture II.* ★3 (either term, 3-0-0). Contemporary French-Canadian civilization and culture as seen through representative authors. Practical work in composition. Prerequisite: Any 200-level course except FREN 205 or 206. Note: Formerly part of FR CA 331. Not open for credit to students having credit or registered in Faculté Saint-Jean CA FR 322.

FR CA 340. *Composition and Stylistics.* ★6 (3-0-0). This course is designed for Francophone students to improve their command of written French through intensive practice. Prerequisite: Any 200- or 300-level French or French-Canadian course except FREN 205, 206, 304, 305, 306, 307. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 320 or 321. Only one of FREN 340, or FR CA 340 may be taken for credit.

FR CA 352. *Introduction to French-Canadian Literature.* ★6 (3-0-0). Selections from representative traditional works and study of representative aspects of popular culture; practical work in conversation and phonetics. Prerequisite: Any 200-level French course except FREN 205 or 206.

FR CA 411. *Evolution of the French Language in Canada.* ★3 (either term, 3-0-0). Prerequisite: R LIN 374 or consent of the Department.

FR CA 440. *A Critical approach to "Quebecois" Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0). The sources and evolution of nationalism in French-Canadian literature as reflected in the works of early and modern writers. Prerequisite: Any full-year 300-level French or French-Canadian literature course or equivalent except FREN 304 to 307.

FR CA 450. *Introduction to Nineteenth Century French-Canadian Literature.* ★3 (either term, 3-0-0). The novel and poetry in relation to dominant themes. Prerequisite: Any 300-level French or French-Canadian course except the 300-level reading series. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean CA FR 450.

FR CA 451. *Twentieth Century French-Canadian Novel.* ★3 (either term, 3-0-0). The French-Canadian novel from the generation of 1890 to the birth of the new novel as seen through the major novelists of the period. Prerequisite: Any 300-level French or French-Canadian course except the 300-level reading series. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean CA FR 451.

FR CA 465. *Twentieth Century French-Canadian Poetry.* ★3 (either term, 3-0-0). The major themes of French-Canadian poetry from Saint-Denys Garneau to Raoul Duguay. Prerequisite: Any 300-level French or French-Canadian course except the 300-level reading series. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean CA FR 465.

FR CA 466. *Twentieth Century French-Canadian Theatre.* ★3 (either term, 3-0-0). The evolution of French-Canadian theatre from Gratien Gelines to Michel Tremblay. Prerequisite: Any 300-level French or French-Canadian course except the 300-level reading series. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean CA FR 466.

FR CA 497. *Contemporary French-Canadian Literature and Culture.* ★6 (3-0-0). Fiction and non-fiction in the Nineteenth and Twentieth Centuries. Prerequisite: Any 300-level French or French-Canadian course except the 300-level reading series.

FR CA 499. *Directed Reading.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Designed to meet the needs of individual students. Prerequisite: Any 300-level French or French-Canadian course except the 300-level reading courses.

Honors and Graduate Courses

FR CA 501. *French-Canadian Literary History and Criticism.* ★3 (either term, 3-0-0) or ★6 (3-0-0). An introduction to the major problems in literary history, theory and criticism. Prerequisite: Consent of the Department.

FR CA 597. *Readings in French-Canadian Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

FR CA 599. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A detailed study of a major author, genre or literary question. Prerequisite: Consent of the Department.

FR CA 600. *Directed Reading.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

FR CA 624. *Seminar: Literature of New France.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 625. *Seminar: Nonfiction, 1760-1867.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 626. *Seminar: Nonfiction since 1867.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 627. *Seminar: Nineteenth Century Fiction.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 628. *Seminar: Nineteenth Century Poetry.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 629. *Seminar: Nineteenth Century Drama.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 630. *Seminar: Twentieth Century Fiction.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 631. *Seminar: Twentieth Century Poetry.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 632. *Seminar: Twentieth Century Drama.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 633. *Seminar: French-Canadian Literature of Western Canada.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 640. *Seminar: French and French-Canadian Literary Relations.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

FR CA 690. *Bibliography and Style.* ★1 (First Term, 0-1s-0).

FR CA 691. *Methods of Research.* ★3 (First Term, 3-0-0).

FR CA 699. *Graduate Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

Note: For additional courses related to French and French-Canadian, see Romance Linguistics in § 44.34 and Romance Literatures in § 44.35.

44.16 Geography

NOTE: Descriptions of Geography 230/231 and other Geography courses considered to be Science courses will be found in the Faculty of Science section of the Calendar (§ 184.12, below).

NOTE: STUDENTS ARE RESPONSIBLE FOR THEIR OWN ACCOMMODATION AND MEAL EXPENSES FOR GEOGRAPHY 470 WHICH INVOLVES AN OVERNIGHT FIELD TRIP.

Courses in Cartography and Meteorology offered within the Geography Department will be found in § § 184.7 and 184.21.

44.16.1 JUNIOR COURSES

GEOG 200. *General Geography.* ★6 (3-0-0). A survey course covering various aspects of Geography, including the physical, human, and regional. Note: Geography 200 and 230/231 may not both be offered for credit in the B.A. program. Not intended for students who plan to major in Geography. Geography 200 may not be offered for credit with any other 200-level course in Geography.

GEOG 250. *Spatial Organization of Human Activity.* ★3 (either term, 3-0-0). The search for order in man's occupation of the earth and of his distribution across it; maps as techniques for understanding reality.

GEOG 251. *Introduction to Cultural Geography.* ★3 (either term, 3-0-0). The significance of human distribution on the earth.

Man's relation to the physical environment; world population problems; cultural patterns in the world.

44.16.2 SENIOR COURSES

GEOG 335. *Contemporary Alberta: A Geographical Perspective.* ★3 (either term, 3-0-0). An examination of contemporary Alberta focussing on the spatial aspects of regional organization and associated rapid change, notably: metropolitan growth, urban spill-over, small town development, and rural readjustment.

GEOG 340. *Regionalization in Canada.* ★3 (either term, 3-0-0). The regional organization of Canadian life; the influence of variation in resources, geographical location, population, urbanization, industrialization, ethnic presence, and external relations in giving rise to regional differentiation in contemporary Canada. Note: Not open to students with credit in GEOG 400.

GEOG 341. *The Cultural Landscapes of the United States.* ★3 (either term, 3-0-0). The present-day landscapes of the United States seen as the product of the changes imposed on the natural environment by human efforts to create a satisfactory way of life. Note: Note open to students with credit in GEOG 400.

GEOG 344. *Introduction to Third World Geography.* ★3 (First Term, 3-0-0). An explanatory description of the ecological and cultural environments of Earth's non-temperate lands, and of the processes that shape their development, their continuing role as resource purveyors, with comparisons made between the tropics and other non-temperate landscapes.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). (See § 44.22.) Accepted as an option only.

GEOG 350. *Introduction to Economic Geography.* ★3 (either term, 3-0-0). Analysis of the locational characteristics of economic activities throughout the world. The significance of location and spatial arrangement with respect to the relationships between geography and economics. Prerequisite: GEOG 250 or a course in economics.

GEOG 354. *Population Geography.* ★3 (First Term, 3-0-0). Spatial patterns and variations in demographic characteristics and cultural qualities of human populations. Distribution, density, structure, movement, and growth of population studied with reference to the underlying social and economical processes. Note: See INT D for a complementary course.

GEOG 359. *Introduction to Behavioral Geography.* ★3 (Second Term, 3-0-0). Decision making in a spatial context. Responses to perceived social and physical environment.

GEOG 360. *Geography of Rural Canada.* ★3 (First Term, 3-0-0). The physical environment and the development of rural Canada; physical limits and economic margins; agricultural and rural development; the future for rural Canada.

GEOG 364. *The Influence of Man on the Natural Environment.* ★3 (either term, 3-0-0). Introduction to basic concepts necessary for a general understanding of processes whereby man initiates environmental change, intentionally and unintentionally.

GEOG 365. *Geography of Energy Resources.* ★3 (either term, 3-0-0). Geographic perspective on components and characteristics of renewable and non-renewable energy resources including their physical and spatial aspects, transportation, environmental impacts, energy use and conservation.

GEOG 366. *Water Resources in Developing Countries.* ★3 (either term, 3-0-0). The role of water in developing countries, especially in Asia, South America and Africa. Present and projected water requirements, demand and use, rural and urban supplies, quality, health, sanitation and decision-making.

GEOG 370. *Political Geography.* ★3 (First Term, 3-0-0). Origins and evolution of political geography and geopolitics; spatial aspects of the development of political territories, their boundaries and internal structures, state resources, natural, political and ethnic boundaries, international geopolitical relationships.

GEOG 380. *Settlement Geography.* ★6 (3-0-0). The geography of settlement, both rural and urban; regions and problems of pioneer settlement, materials and form of shelter in the geographic landscape, patterns of dispersed and agglomerated settlement, urbanization in the world.

GEOG 381. *Geography of the City.* ★3 (First Term, 3-0-0). Origin and spread of urban settlement; problems arising from the growth and form of metropolitan areas and inter-city systems.

GEOG 382. *Geography of Urban Canada.* ★3 (Second Term, 3-0-0). Spatial aspects of urban development in Canada with particular reference to current research and literature.

GEOG 416. *Introduction to Latin America.* ★3 (First Term, 3-0-0). Characteristics of the human impact on the Latin American landscape. Note: Formerly part of GEOG 442, not to be taken by students with credit in that course or in 443.

GEOG 417. *Contemporary Latin America.* ★3 (Second Term, 3-0-0). A study of problems in the development of modern Latin America as a geographic region. Note: Formerly part of GEOG 443, not to be taken by students with credit in that course or in 442.

GEOG 424. *Resource Conservation.* ★3 (Second Term, 3-0-0). Conservation and modern environmentalism as frameworks for describing, understanding, and coping with problems of resource scarcity and environmental quality. (Students are recommended but not required to take GEOG 364 in preparation for this course.)

GEOG 444. *Africa.* ★3 (Second Term, 3-0-0). Regional surveys of physical, human and economic patterns on a continent in transition. Analysis of its contemporary problems of development and of the geographic viability of its existing political units.

GEOG 446. *Northern Lands II.* ★3 (Second Term, 3-0-0). Regional survey of northern development, human and economic characteristics and problems in Alaska, northern Canada, Greenland and Scandinavia. Prerequisite: Consent of instructor.

GEOG 447. *Man in the Arid Lands.* ★3 (Second Term, 3-0-0). An analysis of environmental factors and problems of human adjustment associated with the world's dry lands in the low and mid-latitudes.

GEOG 448. *East-Central Europe.* ★3 (either term, 3-0-0). A survey of the natural features; spatial aspects of demographic and cultural changes; territorial settlement and economic activity in the countries of East-Central Europe. Analysis of current problems associated with regional development.

GEOG 449. *Western Canada.* ★3 (either term, 3-0-0). Resources, patterns of development, and regions of Western Canada. Emphasis on the developed parts of the Prairie Provinces and British Columbia.

GEOG 450. *Manufacturing Geography.* ★3 (either term, 3-0-0). A systematic survey of raw materials, markets, transportation, and other locational factors in their effect on patterns of manufacturing. Manufacturing location theory and empirical evidence on location decisions. Prerequisite: GEOG 350 or a course in economics.

INT D 455. *Migration.* ★3 (either term, 3-0-0). (See § 44.22.)

GEOG 458. *Transportation Geography.* ★3 (First Term, 0-3s-0). Basic concepts and principles of transportation geography with particular emphasis on the evolution and distribution of transport facilities; the role of transportation services in economic geography; and their significance in both interregional and intraregional interactions. Special emphasis on Canada.

GEOG 460. *Regional Development.* ★3 (Second Term, 3-0-0). Causes and attempted remedies for regional problems; growth poles and centres; the regional planning process; disadvantaged regions in Canada and other countries. Prerequisite: Any of the following: GEOG 350, 360, 450; ECON 316, 317, 318, 319, 334, 363; or consent of instructor.

GEOG 462. *Spatial Analysis.* ★3 (First Term, 3-0-0). Evaluation of the characteristics of location patterns. Location factors. Basic criteria employed to analyze spatial patterns. Analysis of patterns of spatial equilibrium, linkages, networks, movement and hierarchies. Prerequisite: Consent of instructor.

GEOG 470. *Political Geography of Canada.* ★3 (Second Term, 3-0-0). The geographical significance of territorial sovereignty, international and internal boundaries, electoral results, rural and metropolitan government reform, public service areas, national resource ownership, federal/provincial issues.

GEOG 471. *The Historical Geography of North America.* ★3 (either term, 3-0-0). The evolution of settlement patterns and the cultural landscape of North America from the end of Amerindian Times to the mid-twentieth century. Note: Not open to students with credit in GEOG 400.

GEOG 481. *Urban Geography.* ★3 (Second Term, 3-0-0). The geographer's approach to the study of urban phenomena; social and physical configurations; process and change within the urban areas; urban goals and attitudes. Prerequisite: GEOG 381 or SOC 353.

GEOG 482. *Field Methods in Urban Geography.* ★3 (Second Term, 3-0-0). Introduction to such techniques as questionnaire and interview surveys, trade area and economic base analysis, land use and other intra-city studies, the use of mapping techniques in these analyses; and their application to urban planning. Projects will be included. Prerequisite: GEOG 481, or GEOG 488 or consent of instructor.

GEOG 488. *Introduction to Urban Planning.* ★3 (First Term, 3-0-0). Planning theories and concepts of the Twentieth Century; practical applications in various parts of the world.

GEOG 489. *Physical Planning of the Canadian City.* ★3 (Second Term, 3-0-0). The impact of physical planning concepts and practice on the Canadian city; special reference to Alberta. Prerequisite: GEOG 488 or its equivalent.

GEOG 498. *Honors Seminar.* ★3 (First Term, 0-3s-0). Problems in contemporary geographic theory and practice. Prerequisite: Consent of instructor.

45.16.3 HONORS AND GRADUATE COURSES

GEOG 500. *History and Nature of Geography.* ★3 (Second Term, 0-3s-0). Geography from ancient times to the present; the most important geographers and an assessment of their contributions; significant current geographic concepts, current major developments within special branches of geography; geography in other countries. Prerequisite: Consent of instructor.

GEOG 502. *Reading and Seminar Course.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

GEOG 506. *Scandinavia.* ★6 (0-3s-0). The regional geography of Norway, Sweden, Denmark, and Finland, with aspects of the historical, economic, and political geography of the area. Prerequisite: Consent of instructor.

GEOG 510. *Historical Geography.* ★3 (First Term, 0-3s-0). The development of historical geography and its relationship to geography and history; case studies in the geography of selected areas at given times in the past utilizing regional and topical approaches. Prerequisite: A previous course in geography or consent of instructor.

GEOG 523. *Geographic Theory.* ★3 (First Term, 3-0-0).

GEOG 542. *Seminar in the Geography of Latin America.* ★3 (Second Term, 0-3s-0). Topics vary from year to year.

GEOG 544. *Seminar on Africa.* ★6 (0-3s-0). A comparative regional study of the way in which the African landscapes, both physical and cultural, have assumed their present character since the Fifteenth Century. Special reference to the geographical ramifications of the problems confronting selected countries of Africa south of the Sahara.

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). (See § 44.22.) Accepted as an option only.

GEOG 548. *Seminar on the Human Geography of East Central Europe.* ★3 (Second Term, 0-3s-0). Selected problems in the geography of East-Central Europe. Prerequisites: GEOG 448 or INT D 346 and consent of instructor.

GEOG 550. *Research in Regional Geography.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

GEOG 552. *Research in Human Geography.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

GEOG 553. *Special Research Problems.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

GEOG 554. *Advanced Population Geography.* ★3 (Second Term, 3-0-0). Theoretical concepts and research methods in population geography. Data gathering and processing at micro, meso and macro scales. Case studies of population distribution, change and composition. Prerequisite: GEOG 354 or consent of instructor.

GEOG 558. *Research in Transportation Geography.* ★3 (Second Term, 3-0-0). Approaches to research in transportation geography. Consideration of transportation characteristics and problems. Models of development of transportation routes and networks.

GEOG 559. *Perception Research in Geography.* ★3 (either term, 3-0-0). Theoretical and practical relevance in urban, environmental, and resource management studies. Prerequisite: Consent of instructor.

GEOG 560. *Rural Development and Planning.* ★6 (0-3s-0). Spatial differences in economic conditions, delimitation and characteristics of "areas of economic stress," town and country planning legislation and rural development programs. Prerequisite: Consent of instructor.

GEOG 566. *Geography of Outdoor Recreation.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of instructor.

GEOG 580. *Seminar on Geography of Settlement.* ★6 (0-3s-0).

GEOG 581. *Physical Structure of the City.* ★3 (First Term, 0-3s-0). Analysis of form, functions and dynamics of urban physical space. Prerequisite: GEOG 481 or equivalent.

GEOG 582. *Social Geography of the City.* ★3 (Second Term, 0-3s-0). Social space and activity systems within the city. Prerequisite: GEOG 481 or equivalent.

GEOG 584. *The Geography of Market Centres and Marketing.* ★3 (Second Term, 3-0-0). Prerequisite: GEOG 481 or equivalent.

GEOG 588. *Political Urban Geography.* ★3 (First Term, 0-3s-0). The role of local government as an agent in the evolution of urban morphology; evaluation of the planning process. Prerequisite: One of GEOG 470, 481, 488, or consent of the Department.

GEOG 589. *Urban Land Use Planning.* ★3 (Second Term, 0-3s-0). Objectives and techniques of urban land use planning, with particular emphasis on Canadian experience. Prerequisite: GEOG 488 or consent of the Department.

GEOG 630. *Advanced Research in Regional Geography.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

INT D 653. *Regionalism and Urban Planning.* ★3 (either term, 3-0-0). (See § 44.22.)

GEOG 680. *Advanced Research in Human Geography.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

GEOG 681. *Advanced Research in Urban Geography.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

GEOG 690. *Seminar on Geographic Thought.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

GEOG 696. *Special Problems.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

44.17 German

Department of Germanic Languages

44.17.1 JUNIOR COURSES

GERM 100. *Conversational German for Beginners.* ★6 (3-0-2). Designed to lead to mastery of spoken and written German, with strong emphasis on the development of oral communication skills. Note: Not open to students with credit in German 30, GERM 101, or GERM 102.

GERM 101. *Intensive Beginners' German.* ★6 (3-0-2). Designed to develop practical skill in spoken and written German with special emphasis on the acquisition of an extensive vocabulary. Note: Especially for prospective Honors students, students with a concentration in German, and for students with some previous knowledge of German. Admission only with the consent of the Department.

GERM 102. *Reading German for Beginners.* ★6 (3-0-1). Designed to develop skill in written and spoken German, with strong emphasis on reading and listening comprehension. Note: Not open to students with credit in German 30, GERM 100, or GERM 101.

GERM 200. *First-Year University German.* ★6 (3-0-2). Designed to develop ability in speaking, reading, and writing German, using modern short stories, cultural readers, and audio-visual aids. Prerequisite: German 30, GERM 100, or the equivalent.

GERM 201. *Intensive First-Year University German.* ★6 (3-0-2). Designed to develop ability in speaking, reading and writing German with special emphasis on the writing skill. Prerequisite: German 30 or GERM 100 or 101 and consent of the Department. Note: Especially for prospective Honors students, students with a concentration in German and for students of native background in German who need special training in grammar and writing.

GERM 202. *Intermediate German.* ★6 (3-0-0). Designed to improve skill in reading and listening comprehension. Texts will exemplify German contributions to European intellectual life. Prerequisite: German 30, GERM 100, 101, 102, or the equivalent.

GERM 210. *Scientific German.* ★6 (3-0-0). An intensive course to give beginning students a reading knowledge of scientific German. Note: Not accepted for credit in B.A. programs. Not available to students with matriculation standing in German.

44.17.2 SENIOR COURSES

GERM 301. *Advanced German Grammar and Stylistics.* ★6 (3-0-0). Theoretical and practical study of the more complex areas of German grammar, style and idiomatic usage. Prerequisite: GERM 200, 201, 202 or consent of the Department.

GERM 306. *German-English Contrastive Phonology.* ★3 (First Term, 3-0-0). Phonetic and phonemic analysis of English and German. Contrastive study includes application to teaching and learning German. Prerequisites: GERM 200, 201, 202 or consent of the Department. Note: Formerly part of GERM 300.

GERM 307. *German-English Contrastive Grammar.* ★3 (Second Term, 3-0-0). Comparison of parts of the two grammars namely the verb, including application to teaching and learning German. Prerequisites: GERM 200, 201, 202 or consent of the Department. Note: Formerly part of GERM 300.

GERM 310. *Advanced Scientific German.* ★6 (3-0-0). Reading of advanced scientific and technical texts, supplemented by a systematic and thorough discussion of grammatical difficulties and "trouble makers" in German scientific literature. Prerequisite: German 30, GERM 100, 101, 102, 210 or their equivalent. Note: Students who pass GERM 310 with a grade of 6 or better will be considered by the Department as having fulfilled the reading requirement in German for the Ph.D. at The University of Alberta.

GERM 321. *German Prose in English Translation.* ★3 (First Term, 3-0-0). Analyses of great novels and novellas in English translation from the eighteenth century to contemporary times. Note: Not accepted to meet concentration requirements in German.

GERM 322. *German Drama in English Translation.* ★3 (Second Term, 3-0-0). Analyses of great dramas in English translation from the eighteenth century to contemporary times. Note: Not accepted to meet concentration requirements in German.

GERM 330. *German Culture and Civilization.* ★6 (3-0-0). Lectures and readings on German life, literature, and civilization. Prerequisite: GERM 200, 201, 202, or consent of the Department.

GERM 350. *Survey of German Literature.* ★6 (3-0-0). Selected periods and major works in German literature. Prerequisite: GERM 200, 201, 202, or consent of the Department.

GERM 370. *German Enlightenment and Sturm and Drang.* ★6 (3-0-0). The background of the *Aufklarung* and *Sturm und Drang,* with study of representative works. Prerequisite: GERM 200, 201, 202, or consent of the Department.

GERM 380. *German Classicism.* ★6 (3-0-0). The ideas and literature of German Classicism; the works of Goethe, Schiller, and Holderlin. Special emphasis on the works of Goethe. Prerequisite: GERM 200, 201, 202 or consent of the Department.

GERM 385. *German Romanticism.* ★6 (3-0-0). Historical and cultural background and literature of the German Romantic movement. Works of A. W. Schlegel, Friedrich Schlegel, Wackenroder, Novalis, Tieck, Brentano, Eichendorff, and E. T. A. Hoffmann. Prerequisite: GERM 200, 201, 202 or consent of the Department.

GERM 401. *German Literature of the "Restauration" Period.* ★3 (First Term, 3-0-0). A survey of the nineteenth century prose, poetry, and drama up to 1850 tracing developments from late Romanticism through the "Biedermeier" and "Jungdeutschland" movements. Prerequisites: GERM 200, 201, 202 or consent of the Department. Note: Formerly part of GERM 400.

GERM 402. *German Literature of Poetic Realism.* ★3 (Second Term, 3-0-0). A survey of the nineteenth century prose and drama after 1850; emphasizing works of Poetic Realism up to Naturalism. Prerequisites: GERM 200, 201, 202 or consent of the Department. Note: Formerly part of GERM 400.

GERM 406. *Introduction to German Linguistics.* ★3 (First Term, 3-0-0). Runes; discussion of major features of several Germanic languages. Prerequisite: GERM 200, 201, 202, or consent of the Department.

GERM 407. *History of New High German.* ★3 (Second Term, 3-0-0). Origin and development of modern standard German. Prerequisite: GERM 200, 201, 202, or consent of the Department.

GERM 411. *Middle High German Language.* ★3 (First Term, 3-0-0). An introduction to the grammar of Middle High German. Prerequisites: GERM 200, 201, 202, or consent of the Department.

GERM 412. *Middle High German Literature.* ★3 (Second Term, 3-0-0). An introduction to selected literary texts of classical Middle High German. Prerequisite: GERM 411, or consent of the Department.

GERM 421. *Medieval German Literature.* ★3 (First Term, 3-0-0). An introduction to the background and literature of the German Middle Ages (770-1500), with analysis of representative texts in modern German translation. Prerequisites: GERM 200, 201, 202, or consent of the Department.

GERM 422. *Renaissance, Reformation and Baroque German Literature.* ★3 (Second Term, 3-0-0). An introduction to the literature of the sixteenth and seventeenth centuries, with analysis of selected works. Prerequisites: GERM 200, 201, 202, or consent of the Department.

GERM 441. *Exercises in Translation: German into English.* ★3 (either term, 3-0-0). Theory and practice of translation of texts in contemporary and classical German literature. Prerequisite: GERM 301, or consent of the Department.

GERM 442. *Exercises in Translation: English into German.* ★3 (either term, 3-0-0). Practice of translations of texts from modern English literature. Prerequisite: GERM 301, or consent of the Department.

GERM 451. *Modern German Literature I.* ★3 (First Term, 3-0-0). Literature since Naturalism: Impressionism, with interpretation of representative works. Prerequisites: GERM 200, 201, 202 or consent of the Department. Note: Formerly part of GERM 450.

GERM 452. *Modern German Literature II.* ★3 (Second Term, 3-0-0). Literature since Impressionism: Expressionism and literature up to 1945, with interpretation of representative works. Prerequisites: GERM 200, 201, 202 or consent of the Department. Note: Formerly part of GERM 450.

GERM 456. *Contemporary German Prose.* ★3 (First Term, 3-0-0). An analysis and interpretation of selected novels and short stories since 1945, along with a discussion of the theory of the novel. Prerequisites: GERM 200, 201, 202, or consent of the Department.

GERM 457. *Contemporary German Drama.* ★3 (Second Term, 3-0-0). An analysis and interpretation of selected dramas and radio plays since 1945, along with a discussion of the theory of the modern drama. Prerequisites: GERM 200, 201, 202, or consent of the Department. Note: Formerly part of GERM 455.

GERM 460. *The Development of a Genre in German Literature.* ★6 (3-0-0). The novel, the *Novelle* or the drama, with interpretation of examples. Prerequisite: GERM 200, 201, 202, or consent of the Department.

GERM 497. *Special Topics in Germanic Linguistics and Philology.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 498. *Special Topics in German Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

44.17.3 HONORS AND GRADUATE COURSES

Before registering for these courses, students must consult the Department to ensure that they are qualified to undertake the work.

Courses and/or seminars marked ★3 or ★6 carry a weight of either 3 or 6 depending on the length of the course.

GERM 500. *Reading Course.* ★6 (3-0-0). This course is designed for graduate students who wish to satisfy the language requirement of their department. An intensive study of essential grammar, reading of graded texts, and translation of texts from the student's own field. Note: Not open to undergraduates.

GERM 505. *Seminar for Fourth-Year Honors Students.* ★6 (0-3s-0).

GERM 511. *Composition and Conversation.* ★3 (First Term, 3-0-0).

GERM 512. *Advanced Composition and Conversation.* ★3 (Second Term, 3-0-0).

GERM 515. *Teaching Strategies for College and University Teachers.* ★0 (1-0-2).

GERM 520. *Cultural and Political Topics in German Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 540. *Old High German.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 550. *Gothic.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 560. *History of the German Language.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 580. *Comparative Germanic Grammar.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 590. *Old Saxon.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 593. *Bibliography and Methods of Literary Scholarship.* ★3 (First Term, 3-0-0).
GERM 603. *Early Middle High German Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 604. *Studies in Middle High German Lyric Verse.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 605. *The Nibelungenlied.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 606. *Hartmann von Aue.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 607. *Wolfram von Eschenbach.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 609. *Gottfried von Strassburg.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 611. *Walther von der Vogelweide.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 612. *Late Middle High German Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 613. *Early New High German Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 615. *Studies in Seventeenth Century Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 616. *Studies in Eighteenth Century Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 617. *Lessing.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 618. *Enlightenment.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 619. *Sturm und Drang.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 620. *Classicism.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 622. *Goethe.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 624. *Schiller.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 625. *Romanticism.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 626. *Studies in the Literature of the Age of Goethe.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 635. *Realism.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 637. *Naturalism.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 639. *Expressionism.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 645. *Modern German Literature (up to 1945).* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 650. *Contemporary German Literature (from 1945 to the present).* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 655. *Studies in German Poetry.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 665. *Studies in the German Novel.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 675. *Studies in the German Novelle.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 685. *Studies in German Drama.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 696. *Conference Course in Germanic Linguistics and Philology.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 697. *Special Topics in Germanic Linguistics and Philology.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 698. *Special Topics in German Literature.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
GERM 699. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Detailed study of an author, period, genre, or any literary problem not dealt with in the Honors or Graduate courses listed above. Designed to meet the needs of individual Honors or Graduate students.
GERM 900. *Non-Thesis Project.* ★3 (variable).

44.18 Greek

Department of Classics

Note: For additional related courses see § § 44.9 and 44.25.

44.18.1 JUNIOR COURSE

GREEK 100. *Beginners' Greek.* ★6 (4-0-1). Essential grammar and vocabulary, the reading of easy Greek and simple sentences for translation into Greek.

44.18.2 SENIOR COURSES

GREEK 300. *Greek Authors and Prose Composition.* ★6 (3-0-1). Sight translation. Review of Greek forms. More difficult sentences for translation into Greek. Note: This course follows GREEK 100.
GREEK 311. *Grammar.* ★3 (either term, 3-0-0). A study of Greek grammar. Prerequisite: GREEK 300 or equivalent. Note: Restricted to Honors students.
GREEK 361. *Xenophon.* ★3 (either term, 3-0-0). Prerequisite: GREEK 300 or consent of the Department.
GREEK 371. *Herodotus.* ★3 (either term, 3-0-0). Selections from the History.
GREEK 372. *Thucydides.* ★3 (either term, 3-0-0). Selections from the Peloponnesian War.
GREEK 373. *Aeschylus.* ★3 (either term, 3-0-0).
GREEK 374. *Sophocles.* ★3 (either term, 3-0-0).
GREEK 375. *Euripides.* ★3 (either term, 3-0-0).
GREEK 376. *Greek Comedy.* ★3 (either term, 3-0-0). Selections from Aristophanes and / or Menander.
GREEK 377. *Greek Philosophical Authors.* ★3 (either term, 3-0-0). Selections from Plato and Aristotle.
GREEK 381. *Homer.* ★3 (either term, 3-0-0).
GREEK 411. *Greek Grammar and Style.* ★3 (2-0-0; 1-0-1). The writing of Greek prose. A single-term course offered over the full session.
GREEK 478. *Greek Oratory.* ★3 (either term, 3-0-0). Selections from Greek Orators. Note: Formerly GREEK 378.
GREEK 479. *Koine Greek I.* ★3 (either term, 3-0-0). Readings and studies in the New Testament and the Church Fathers and other Koine writings.
GREEK 480. *Koine Greek II.* ★3 (either term, 3-0-0). Readings and studies in the New Testament and Church Fathers and other Koine writings.

44.18.3 HONORS AND GRADUATE COURSES

GREEK 511. *Greek Grammar and Style.* ★3 (2-0-0; 1-0-1). Note: A single-term course offered over the full session.
GREEK 520. *History of the Greek Language I.* ★3 (First Term, 3-0-0). Prerequisite: GREEK 411, or 511, or equivalent.
GREEK 521. *History of the Greek Language II.* ★3 (Second Term, 3-0-0). Prerequisite: GREEK 520.
GREEK 522. *Greek Epigraphy.* ★3 (either term, 3-0-0).
GREEK 523. *Greek Palaeography.* ★3 (either term, 3-0-0).
GREEK 524. *Hellenistic Poetry.* ★3 (either term, 3-0-0).
GREEK 525. *Hesiod.* ★3 (either term, 3-0-0).
GREEK 526. *Homer I.* ★3 (First Term, 3-0-0).
GREEK 527. *Homer II.* ★3 (Second Term, 3-0-0).
GREEK 528. *Lyric Poetry.* ★3 (either term, 3-0-0).
GREEK 529. *Pindar.* ★3 (either term, 3-0-0).
GREEK 530. *Greek Philosophical Authors I.* ★3 (First Term, 3-0-0).
GREEK 531. *Greek Philosophical Authors II.* ★3 (Second Term, 3-0-0).
GREEK 532. *Greek Tragedy I.* ★3 (First Term, 3-0-0).
GREEK 533. *Greek Tragedy II.* ★3 (Second Term, 3-0-0).
GREEK 534. *Greek Oratory I.* ★3 (First Term, 3-0-0).
GREEK 535. *Greek Oratory II.* ★3 (Second Term, 3-0-0). Prerequisite: GREEK 534.
GREEK 536. *Greek Historiography I.* ★3 (First Term, 3-0-0).
GREEK 537. *Greek Historiography II.* ★3 (Second Term, 3-0-0).
GREEK 538. *Greek Comedy I.* ★3 (First Term, 3-0-0).
GREEK 539. *Greek Comedy II.* ★3 (Second Term, 3-0-0). Prerequisite: GREEK 538.

GREEK 540. *Koine and Later Authors I.* ★3 (First Term, 3-0-0).
GREEK 541. *Koine and Later Authors II.* ★3 (Second Term, 3-0-0).
GREEK 542. *Studies in Greek Literature I.* ★3 (First Term, 3-0-0).
GREEK 543. *Studies in Greek Literature II.* ★3 (Second Term, 3-0-0).
GREEK 544. *Readings in Greek History I.* ★3 (First Term, 3-0-0).
GREEK 545. *Readings in Greek History II.* ★3 (Second Term, 3-0-0).
GREEK 546. *Readings in Hellenistic History I.* ★3 (First Term, 3-0-0).
GREEK 547. *Readings in Hellenistic History II.* ★3 (Second Term, 3-0-0).
GREEK 598. *Supervised Reading.* ★3 (either term, 3-0-0).
GREEK 599. *Supervised Reading.* ★3 (either term, 3-0-0).
GREEK 642. *Studies in Greek Literature A.* ★3 (either term, 3-0-0).
GREEK 643. *Studies in Greek Literature B.* ★3 (either term, 3-0-0).
GREEK 698. *Conference Course.* ★3 (either term, 3-0-0).
GREEK 699. *Conference Course.* ★3 (either term, 3-0-0).

44.19 *Hebrew*

Department of Classics

44.19.1 JUNIOR COURSE

HEB 100. *Introductory Classical Hebrew.* ★6 (3-0-2). Basic grammar of Hebrew and selected reading from the documents of the Pentateuch.

44.19.2 SENIOR COURSES

HEB 300. *Intermediate Classical Hebrew.* ★6 (3-0-0). Basic grammar (continued) with readings from the Prophets and other writings of the Hebrew Bible. Prerequisite: HEB 100 or consent of the Department.
HEB 400. *Advanced Classical Hebrew.* ★6 (3-0-0). Further readings from the Hebrew Bible and other selected documents. Prerequisite: HEB 300 or consent of the Department. Note: This course will not be offered until 1982-83.

44.20 *Hispanic Languages and Literatures*

Department of Romance Languages

44.20.1 SPANISH

Junior Courses

SPAN 100. *Beginners' Spanish.* ★6 (4-0-1). Spanish grammar and pronunciation; an introduction to Spanish and Hispano-American civilization.
SPAN 201. *Second-Year Honors Laboratory Hour.* ★2 (1-0-0).

Senior and Advanced Courses

SPAN 300. *Second-Year Spanish.* ★6 (3-0-1). Intensive grammar, composition, and conversation; an introduction to the reading of Spanish literature. Prerequisite: SPAN 100 or equivalent.
SPAN 302. *Third-Year Honors Language Seminar.* ★2 (0-1s-0).
SPAN 307. *Conversation and Composition I.* ★3 (either term, 3-0-0). Exercises in conversation and composition based on a survey of the principal historical periods and literary movements influencing the formation and development of Hispanic culture from the Medieval period to the Renaissance. Corequisite: SPAN 300. Note: Not open to students with credit in SPAN 304.
SPAN 308. *Conversation and Composition II.* ★3 (either term, 3-0-0). Exercises in conversation and composition based on a survey of the principal historical periods and literary movements influencing the formation and development of Hispanic culture from the Golden Age to the present. Corequisite: SPAN 300. Note: Not open to students with credit in SPAN 306.
SPAN 315. *Spanish Nineteenth Century Peninsular Literature.* ★3 (either term, 3-0-0). Literature of the Nineteenth Century studied through a number of selected works. Prerequisites: SPAN 300 or 304 and 306.
SPAN 320. *Spanish Twentieth Century Peninsular Literature.* ★3 (either term, 3-0-0). Literature of the Twentieth Century studied through a number of selected works. Prerequisites: SPAN 300 or 304 and 306.
SPAN 350. *Spanish-American Literature of the Colonial Period and the Nineteenth Century.* ★3 (either term, 3-0-0). A survey of the development of Spanish-American literature during the Colonial and National periods to the end of the Nineteenth Century. Prerequisite: SPAN 300 or 304 and 306. Note: Formerly part of SPAN 340.
SPAN 355. *Spanish-American Literature of the Twentieth Century.* ★3 (either term, 3-0-0). A survey of the development of Spanish-American literature in the Twentieth Century. Prerequisite: SPAN 300, or 304, and 306. Note: Formerly part of SPAN 340.
SPAN 400. *Advanced Composition, Translation and Reading.* ★3 (either term, 3-0-0). Prerequisite: SPAN 300. Note: Formerly part of SPAN 405.
SPAN 403. *Fourth-Year Honors Language Seminar.* ★2 (0-1s-0).
SPAN 410. *Spanish Medieval Literature.* ★3 (either term, 3-0-0). Prerequisite: SPAN 315 or 320 or 350 or 355.
SPAN 415. *Prose Writers of the Golden Age.* ★3 (either term, 3-0-0). Prerequisite: SPAN 315, or 320, or 350, or 355. Note: Formerly part of SPAN 460.
SPAN 420. *Poetry of the Golden Age.* ★3 (either term, 3-0-0). Prerequisite: SPAN 315, or 320, or 350, or 355. Note: Formerly part of SPAN 460.
SPAN 425. *Theatre of the Golden Age.* ★3 (either term, 3-0-0). Prerequisite: SPAN 315, or 320, or 350, or 355. Note: Formerly part of SPAN 460.
SPAN 450. *Topics in Spanish-American Literature.* ★3 (either term, 3-0-0). Prerequisite: SPAN 315 or 320 or 350 or 355.
SPAN 499. *Directed Reading.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A course designed to meet the needs of individual students in relation to some topic of study not covered in the other available courses at the same level. Prerequisite: Consent of the Department.

Honors and Graduate Courses

SPAN 500. *Reading Course.* ★6 (3-0-0). An intensive study of essential grammar, reading of graded texts from the student's own field. Designed for graduate students who wish to satisfy the language requirement of their department. Note: Not open to undergraduates.
SPAN 501. *Teaching Strategies for the Instruction of Spanish.* ★0 (First Term, 1-1-0). Note: This course is open only to Graduate Assistants in Spanish.
SPAN 503. *Spanish Dialectology.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 510. *Spanish Semantics and Lexicography.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 512. *History of the Spanish Language.* ★3 (either term, 3-0-0). Note: Formerly SPAN 540, a full-session course.
SPAN 550. *Medieval Narrative Poetry.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 560. *Medieval Spanish Prose.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 565. *Medieval Lyric Poetry.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 590. *Seminar in Golden Age Literature.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).
SPAN 595. *Literary Theory in the Golden Age.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Literary ideas of the leading theoreticians of the Golden Age, such as Pinciano, Carvallo, Cascales, Gonzales de Salas, et al.
SPAN 600. *The Literature of the Discovery, Conquest and Colonization of America.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 610. *The Sentimental Romances and the Books of Chivalry. The Pastoral and Moresque Novel.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 611. *The Dialogue Novel, from Rojas' "La Celestina" to Lope's "La Dorotea".* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 612. *The Picaresque Novel.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 615. *Cervantes.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 620. *Sixteenth Century Drama.* ★3 (either term, 3-0-0) or ★6 (3-0-0).
SPAN 624. *Lope de Vega.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 626. *Tirso de Molina and Juan Ruiz de Alarcón.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 627. *Calderón.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 630. *The Romancero.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 633. *The Poetry of the Baroque Period.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 635. *Góngora.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 640. *Quevedo and Gracián.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 650. *The Novel, Poetry, and Drama of the Eighteenth Century.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 660. *The Romantic Movement.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 665. *Galdós and his Contemporaries.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 669. *The "Modernista" Movement.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 670. *Contemporary Spanish Poetry.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 671. *Contemporary Spanish Novelists.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 672. *Contemporary Spanish American Poetry.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 673. *Contemporary Spanish-American Novelists.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 674. *Seminar in Spanish-American Literature.* ★3 (either term, (0-3s-0). or ★6 (0-3s-0).

SPAN 675. *Unamuno.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 690. *Problems of Criticism in Hispanic Literatures.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SPAN 699. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A detailed study of some great author or literary question not dealt with in other Honors or Graduate courses. Designed to meet the needs of individual Honors or Graduate students.

44.20.2 CATALAN

CATLN 501. *Catalan.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Introduction to spoken and written modern Catalan, with reference to historical developments in older stages of the language.

CATLN 685. *Seminar on Medieval Catalan Literature.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

CATLN 690. *Seminar on Contemporary Catalan Literature.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

44.20.3 PORTUGUESE

PORT 502. *Portuguese.* ★3 (either term, 3-0-0). Introduction to modern Portuguese.

Note: For additional courses related to Hispanic Languages, see Romance Linguistics in § 44.34 and Romance Literatures in § 44.35.

44.21 History

Only one of History 200, 201, or 202 may be taken for credit. For Ancient History see Classics, § 44.9

44.21.1 JUNIOR COURSES

HIST 200. *European History.* ★6 (3-1s-0). The evolution of European society from the decline of the Roman Empire in the West to the present.

HIST 201. *European History since the Renaissance.* ★6 (3-0-0).

HIST 202. *Introduction to Medieval Europe.* ★6 (3-0-0). Europe from the fall of Rome to the Renaissance.

HIST 204. *Studies in the Political and Social History of Europe.* ★3 (either term, 3-0-0). A course dealing with four or five particular historical topics from the fall of Rome to 1914 using an integrated text and monograph studies.

HIST 205. *An Introduction to Modern Intellectual History.* ★3 (either term, 3-0-0). A survey of major trends in European intellectual history since the Enlightenment.

HIST 206. *Introduction to the History of Women.* ★3 (either term, 3-0-0). This course is an introduction to the study of woman's history. It will examine the position of women in western societies from the Middle Ages to the Twentieth Century.

HIST 278. *An Introduction to the Study of Canadian History 1500-1867.* ★3 (First Term, 3-0-0). Designed to provide a foundation for senior and advanced courses in Canadian History.

HIST 279. *An Introduction to the Study of Canadian History 1867-1967.* ★3 (Second Term, 3-0-0). Designed to provide a foundation for senior and advanced courses in Canadian History.

HIST 280. *Asia to 1500.* ★3 (either term, 3-0-0). A survey of the history of Asia to the beginning of the sixteenth century.

HIST 281. *Asia From 1500.* ★3 (either term, 3-0-0). A survey of the history of Asia from the sixteenth century. Prerequisite: HIST 280 or consent of the department.

Note: The above courses are designed to provide a foundation for senior and advanced history courses, and also background for studies in related humanities and social sciences.

44.21.2 SENIOR COURSES

HIST 300. *Medieval Europe.* ★6 (3-0-0).

HIST 302. *Early Medieval Europe 338-1050.* ★3 (either term, 3-0-0). Note: Formerly a full-session course.

HIST 303. *Later Medieval Europe.* ★3 (either term, 3-0-0). The disintegration of the Medieval Empire and the emergence of national consciousness.

HIST 304. *Europe in the Age of the Renaissance and Reformation.* ★6 (3-0-0). Note: Students with credit in HIST 306 or 307 may not take this course for credit.

HIST 306. *The Renaissance.* ★3 (either term, 3-0-0). Note: Students with credit in HIST 304 may not take this course for credit.

HIST 307. *Europe in the Sixteenth Century.* ★3 (either term, 3-0-0). Note: Students with credit in HIST 304 may not take this course for credit.

HIST 309. *Revolutionary and Nineteenth Century Europe.* ★6 (3-0-0).

HIST 310. *Twentieth Century Europe.* ★6 (3-0-0).

HIST 311. *History of International Relations since 1939.* ★6 (3-0-0).

HIST 312. *Diplomatic History of Modern France..* ★3 (either term, 3-0-0). A study of France's foreign relations and colonial policy with emphasis on the period since 1870.

HIST 313. *Social History of Modern France.* ★3 (either term, 3-0-0). An examination of the changes in French society since the Revolution.

HIST 314. *Europe in the Seventeenth Century.* ★3 (either term, 3-0-0).

HIST 315. *Europe in the Eighteenth Century.* ★3 (either term, 3-0-0).

HIST 316. *The History of Ukrainians in Canada.* ★3 (either term, 3-0-0).

HIST 317. *France in Revolution, 1760-1870..* ★3 (either term, 3-0-0). An introduction to the history of France from the origins of the French Revolution to the downfall of Napoleon III. Note: Formerly part of HIST 320, not to be taken by students with credit in that course.

HIST 318. *France Since 1870.* ★3 (either term, 3-0-0). An introducation to political, economic and social developments in France from the Third to the Fifth Republic. Note: Formerly part of HIST 320, not to be taken by students with credit in that course.

HIST 319. *Italy.* ★3 (either term, 3-0-0). A survey of Italian history since the Renaissance.

HIST 323. *Medieval Russia.* ★3 (First Term, 3-0-0). Note: Formerly part of HIST 324.

HIST 325. *Imperial Russia.* ★3 (Second Term, 3-0-0). Prerequisite: HIST 323. Note: Formerly part of HIST 324.

HIST 326. *The Soviet Union.* ★6 (3-0-0). A historical survey of domestic and foreign policy since 1917.

HIST 329. *The Weimar Republic.* ★3 (either term, 3-0-0).

HIST 330. *History of Social and Political Ideas in Western Europe in the Nineteenth Century.* ★3 (either term, 3-0-0). A survey of major political, socio-economic ideas and movements since the Enlightenment.

HIST 331. *History of Social and Political Ideas in Western Europe in the Twentieth Century.* ★3 (Second Term, 3-0-0).

HIST 332. *Foundations of East European History.* ★3 (First Term, 3-0-0). The ethnic, religious, social, and political factors which shaped the development of the peoples of East Central Europe from the Middle Ages through the Age of Enlightenment.

HIST 334. *Ancient and Medieval Ukraine.* ★3 (First Term, 3-0-0). The social, political, and cultural development of Ukrainian lands from prehistory through the Fifteenth Century. The impact of the Normans, Byzantium, and the Steppe Nomads.

HIST 335. *Ukraine in Early Modern Times.* ★3 (First Term, 3-0-0). Ukraine in the Polish-Lithuanian commonwealth. The rise of the Cossacks and their confrontations with the Turko-Tartars, Poland, and Muscovy. Religious controversies and cultural trends in the age of the Baroque. Note: Formerly part of HIST 327.

HIST 336. *Nineteenth Century Ukraine.* ★3 (Second Term, 3-0-0). The Ukrainian people in the Russian and Austro-Hungarian empires. From serfdom to capitalism. The national movement and the making of the modern nation. Note: Formerly part of HIST 328.

HIST 337. *Twentieth Century Ukraine.* ★3 (Second Term, 3-0-0). World War I and the emergence of the Ukrainian Republic. Ukrainian lands in the U.S.S.R. and Poland during the interwar period. World War II and Nazi occupation. Soviet Ukraine since 1945.

HIST 338. *History of the Byzantine Empire.* ★3 (either term, 3-0-0).

HIST 339. *Eastern Europe since World War I.* ★3 (either term, 3-0-0). The recent history of Eastern Europe.

HIST 340. *Social and Economic History of Europe.* ★6 (3-0-0).

HIST 341. *The Social History of Medieval Europe.* ★3 (either term, 3-0-0).

HIST 342. *History of the Holy Roman Empire.* ★3 (either term, 3-0-0). The rise and decline of the Holy Roman Empire from Charlemagne to its fall in 1806. Note: Formerly part of HIST 322.

HIST 343. *Germany Since Frederick the Great.* ★3 (either term, 3-0-0). A survey of modern German history from Frederick the Great (1740) to the defeat of Hitler in 1945. Note: Formerly part of HIST 322.

HIST 345. *Early Modern Intellectual History of Western Europe.* ★3 (either term, 3-0-0). The main currents of Western thought from the late Renaissance to the Napoleonic era.

HIST 346. *English Constitutional History (Medieval).* ★3 (either term, 3-0-0). Note: Formerly part of HIST 351.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). (See § 44.22.) Accepted as an option only.

HIST 347. *English Constitutional History (Modern).* ★3 (either term, 3-0-0). Note: Formerly part of HIST 351.

HIST 348. *Tudor Britain.* ★3 (either term, 3-0-0). Note: Formerly part of HIST 354.

HIST 349. *Stuart Britain.* ★3 (either term, 3-0-0). Note: Formerly part of HIST 354.

HIST 350. *British History.* ★6 (3-0-0). A survey of the history of the British Isles to 1914.

HIST 352. *The British Empire and Commonwealth.* ★6 (3-0-0).

HIST 353. *British Medieval History.* ★6 (3-0-0). A survey from Roman times to 1485.

HIST 356. *Britain in the 18th Century.* ★3 (either term, 3-0-0).

HIST 357. *The Industrial Revolution in Britain.* ★3 (either term, 3-0-0). The main focus of this survey will be on the social and economic development of Britain during the Industrial Revolution, 1750-1850; concomitant changes in the politics and intellectual climate. Note: Not open to students with credit in ECON 312.

HIST 358. *Britain as a World Power.* ★3 (either term, 3-0-0). A survey from the end of the Napoleonic Wars to the mid-Twentieth Century.

HIST 359. *Eastern Europe in the Nineteenth Century.* ★3 (either term, 3-0-0). History of the area, from the Napoleonic War to World War I; the Polish question; the evolution of the Habsburg Empire; formation of nation-states in the Balkans.

HIST 360. *American History.* ★6 (3-0-0). A survey of United States history from colonial times to the present.

HIST 361. *The Westward Expansion of the United States.* ★3 (Second Term, 3-0-0). A survey of America's frontier experience, its economic, political, and social aspects, and its heritage. Prerequisite: A course in American History or consent of the Department.

HIST 362. *History of the Negro in the United States.* ★6 (3-0-0). The History of Black Americans from their introduction as slaves to the rise of the present Black Power movement.

HIST 364. *History of American Economic Life.* ★3 (either term, 3-0-0). A survey of American economic problems and policies in their historical setting.

HIST 365. *The Early National Period of American History.* ★3 (First Term, 3-0-0). A course covering in detail the political and economic problems of the United States, 1763-1848. Prerequisite: Any course in American history or the consent of the Department.

HIST 366. *Twentieth Century America.* ★3 (either term, 3-0-0). Emphasis on the relation between the nature of the modern political system in the United States and major social problems. Prerequisite: Any course in American history or consent of the Department.

HIST 369. *History of U.S. Foreign Relations.* ★3 (either term, 3-0-0). A survey of the international issues in the American past and the factors influencing the formation and application of U.S. policy. Prerequisite: HIST 360 or consent of the Department.

HIST 370. *Topics in the Social and Intellectual History of English Canada Since 1760.* ★3 (either term, 3-0-0). A survey of the major themes in English-Canadian social and intellectual history.

HIST 371. *The Canadian West to 1870.* ★3 (First Term, 3-0-0). A lecture course emphasizing the history of the prairie west but dealing as well with westward expansion and the north and with the trans-mountain west.

HIST 372. *The Canadian West Since 1870.* ★3 (Second Term, 3-0-0).

HIST 373. *The History of Upper Canada and of Canada West, 1784-1864.* ★3 (either term, 3-0-0). The history of the founding and development of the English-speaking colony in the interior of the North American continent.

HIST 374. *French Canada to Confederation.* ★3 (either term, 3-0-0).

HIST 375. *French Canada Since Confederation.* ★3 (either term, 3-0-0).

HIST 376. *History of Canada Since 1914.* ★3 (either term, 3-0-0).

HIST 377. *Topics in the History of Canadian External Relations.* ★3 (either term, 3-0-0). A survey of the impact of the United States and Great Britain on Canadian development.

HIST 378. *History of Canada from Confederation to the First World War.* ★3 (either term, 3-0-0).

HIST 379. *The Native Aspect of Canada's History.* ★3 (either term, 3-0-0). Canada's history as it relates to native peoples, from the beginning of the sixteenth century to the present. Prerequisite: A half course in Canadian history or consent of the Department. Note: ANTHR 350 or 355 strongly recommended.

HIST 380. *East Asia.* ★6 (3-0-0). A survey of the histories of China, Japan and Korea.

HIST 381. *Japan.* ★6 (3-0-0).

HIST 383. *China.* ★6 (3-0-0).

HIST 384. *South Asia.* ★6 (3-0-0). A survey of the history of the sub-continent of India from the Indus Valley civilization to the present.

HIST 385. *History of Science and Technology in China.* ★3 (either term, 3-0-0). The development of science and technology in China from earliest times to the present. Note: Formerly "Tropical Africa", a full session course.

HIST 386. *South East Asia.* ★6 (3-0-0). A survey of the history of South East Asia from the earliest times with emphasis on selected topics.

HIST 387. *Canada's Relations with East Asia.* ★3 (either term, 3-0-0). A survey of Canada's contacts with China, Japan, Korea, and Vietnam from the mid-nineteenth century to the present.

HIST 388. *Twentieth Century China.* ★3 (either term, 0-3s-0). The history of China from the Boxer Revolt to the present.

HIST 391. *Colonial Latin America.* ★3 (either term, 3-0-0). A survey of Latin American history. Note: Formerly part of HIST 390.

HIST 392. *Modern Latin America.* ★3 (either term, 3-0-0). A survey of Latin American history since 1810. Note: Formerly part of HIST 390.

HIST 393. *Iberian History.* ★3 (First Term, 3-0-0). A survey of Spanish and Portuguese history.

HIST 395. *History of Science and Technology.* ★6 (3-0-0). The nature of science and technology. The scientific process, the origins of the scientific tradition and the emergence of science. The scientific and industrial revolutions; discovery and invention in response to intellectual, social, political, and commercial needs, and pressures. The evolution of the major scientific disciplines and of technology from antiquity to the present; the interdependence of science and technology through the ages; the natural and social sciences in our time; prediction of possible future trends.

HIST 398. *The History of Human Conflict.* ★6 (3-0-0). A course designed as an introduction to the history of one of man's least attractive, but most consequential activities.

44.21.3 ADVANCED COURSES

The following courses are normally conducted as seminars and the precise topics covered in any given course may vary from year to year. Some account, therefore, may be taken of the particular interests of students within the framework of the course.

Normally, students who take these courses are expected to have at least two previous full-session courses in History; if they do not, they must obtain the consent of the Department prior to their registration, and the Department will consider their special needs. For some courses there are additional specified requirements.

HIST 400. *Topics in Medieval European History.* ★6 (0-3s-0).

HIST 401. *Topics in Byzantine History.* ★3 (either term, 0-3s-0).

HIST 403. *Topics in the History of Medieval France.* ★6 (0-3s-0).

HIST 404. *Renaissance and Reformation.* ★6 (0-3s-0).

HIST 405. *Topics in Canadian Native History.* ★3 (either term, 0-3s-0). Selected topics in Canadian history that relate to native peoples. Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 406. *The History of Ethnic Settlement In Canada.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian History or consent of the Department.

HIST 407. *Topics in Alberta History.* ★3 (either term, 0-3s-0). Selected economic, social, and political topics with particular reference to the land and people of Alberta, beginning with native-white contact and extending to the present. Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 408. *Topics in Canadian Social History.* ★3 (either term, 0-3s-0). Selected topics in the social history of Canada, with the major emphasis on English Canada in the nineteenth and twentieth centuries. Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 409. *Topics in Canadian Intellectual History.* ★3 (either term, 0-3s-0). An examination of various aspects of Canadian thought in the period after 1867. Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 410. *Introduction to Theoretical History.* ★3 (either term, 0-3s-0). Analysis of modern schools of theoretical history since Vico (early Enlightenment).

HIST 411. *Topics in American History.* ★3 (either term, 0-3s-0).

HIST 412. *Topics in American History.* ★3 (either term, 0-3s-0).

HIST 413. *Revolution in the Modern World to 1900.* ★3 (either term, 0-3s-0).

HIST 414. *Twentieth Century Revolutions.* ★3 (either term, 0-3s-0). Note: Formerly part of HIST 413.

HIST 415. *War in the Modern World.* ★3 (either term, 0-3s-0). A seminar course on the evolution of civil-military relations in the dynastic national and totalitarian states, with an analysis of the nature, uses, and limits of military, naval, and air power in their historical contexts.

HIST 419. *Paris in Revolution. 1787-1871.* ★6 (5-0-10). A study "on location" of the French Revolution and of subsequent revolutionary events in the national capital during the Nineteenth Century in the context of urban development from the Old Regime through the creation of the modern city under Napoleon III. Prerequisite: One course in European history or consent of the Department. (Note: This course is given in Paris during the Summer Session only. A knowledge of French, though useful, is not required. Those interested may obtain a brochure from the Department of History giving further information, or are invited to consult personally with the instructor, Dr. F. A. de Luna.)

HIST 421. *Topics in Modern German History before 1870.* ★6 (0-3s-0).

HIST 424. *Topics in Soviet History.* ★3 (either term, 0-3s-0).

HIST 425. *Topics in Ukrainian History.* ★3 (either term, 0-3s-0).

HIST 426. *The Intellectual History of Russia Since 1762.* ★3 (either term, 0-3s-0).

HIST 427. *Topics in Russian History from Kievan Times to the Present.* ★3 (either term, 0-3s-0).

HIST 428. *Eastern Europe since 1800.* ★3 (either term, 0-3s-0).

HIST 429. *Topics in the History of Germany since 1870.* ★6 (0-3s-0).

HIST 431. *Topics in the History of Modern France to 1789.* ★6 (0-3s-0).

HIST 432. *Topics in the History of Modern France since 1789.* ★6 (0-3s-0).

HIST 433. *Topics in the History of Twentieth Century France.* ★3 (either term, 0-3s-0). Prerequisite: HIST 320 or consent of the Department.

HIST 434. *Karl Marx, Historian.* ★3 (either term, 0-3s-0). The emphasis will be on Marx's historical method, as exemplified in such works as *The Class Struggles in France.*

HIST 435. *The French Revolution.* ★3 (either term, 0-3s-0).

HIST 436. *Nineteenth Century France.* ★3 (either term, 0-3s-0).

HIST 438. *Enlightenment and Revolution in Europe and America 1740-1815.* ★3 (either term, 0-3s-0).

HIST 439. *Germany Since 1933.* ★3 (either term, 0-3s-0).

HIST 440. *Topics in Modern European Social History.* ★3 (either term, 0-3s-0).

HIST 441. *Topics in the Intellectual History of Europe Since 1800.* ★3 (either term, 0-3s-0).

HIST 442. *Topics in the Intellectual History of Europe, Since the Late Nineteenth Century.* ★3 (either term, 0-3s-0).

HIST 444. *Women in Modern European History.* ★3 (either term, 0-3s-0).

HIST 445. *The European Community.* ★3 (either term, 0-3s-0). The origins, development and aspirations of the drive for European unity since 1945, with particular attention to the Treaty of Rome. Prerequisite: HIST 310 or 311.

HIST 446. *Topics in the History of Weimar Germany.* ★3 (Second Term, 0-3s-0). Prerequisites: HIST 329, 342/343, or consent of the Department.

HIST 447. *History of European Socialism.* ★3 (either term, 0-3s-0). A lecture/seminar course with emphasis on the Nineteenth Century.

HIST 448. *Topics in the History of Nineteenth Century French Canada.* ★3 (either term, 0-3s-0). The nineteenth century Canadian experience from a French Canadian perspective. Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 449. *Topics in the History of Twentieth Century French Canada.* ★3 (either term, 0-3s-0). The Twentieth Century Canadian experience from a French Canadian perspective. Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 451. *Topics in English Medieval History.* ★6 (0-3s-0).

HIST 452. *Topics in Tudor and Stuart History.* ★6 (0-3s-0).

HIST 454. *English Society in the Nineteenth Century.* ★6 (0-3s-0).

HIST 456. *British Foreign Policy 1815-1956.* ★6 (0-3s-0). A lecture/seminar course on the structure, content and effect of British foreign policy with particular attention being paid to the evolution of the decision making processes, pressure groups, critics, etc.

HIST 457. *Topics in British Economic History Since 1714.* ★3 (either term, 0-3s-0). A study of the growth and changing structure of the British economy. Prerequisites: HIST 350, or 357, or ECON 312, or consent of the Department.

HIST 458. *Topics in British Social History Since 1714.* ★3 (either term, 0-3s-0). A study of the condition of the poor in Britain using the case study method. Prerequisite: HIST 350, or 357, or consent of the Department.

HIST 460. *Topics in American Westward Expansion.* ★3 (First Term, 0-3s-0). Prerequisite: HIST 361 or consent of the Department. Note: Formerly part of HIST 461.

HIST 461. *Topics in Comparative North American History.* ★3 (either term, 0-3s-0). The emphasis will be on legal, social, and political issues. Prerequisite: At least one course in either Canadian or United States history.

HIST 462. *The Gilded Age in America.* ★3 (either term, 0-3s-0). Topics in the late nineteenth century U.S.

HIST 463. *American History to 1876.* ★3 (Second Term, 0-3s-0). Prerequisite: HIST 365 or consent of the Department. Note: Formerly part of HIST 465.

HIST 464. *Topics in the History of American Economic Life.* ★3 (either term, 0-3s-0). A seminar on selected problems in American economic history.

HIST 465. *Comparative Settlement Frontiers.* ★3 (Second Term, 0-3s-0). Comparative studies of the U.S., Canadian, South African, Australian, and New Zealand Frontiers. Prerequisite: HIST 352, 371, 372, or consent of the Department.

HIST 466. *Issues in Modern America.* ★3 (either term, 0-3s-0). Note: A full course prior to 1976.

HIST 467. *Topics in American Social History.* ★3 (either term, 0-3s-0).

HIST 468. *The Development of American Thought.* ★6 (0-3s-0).

HIST 469. *American Foreign Policy.* ★3 (either term, 0-3s-0).

HIST 470. *The Canadian West to 1870.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian History or consent of the Department.

HIST 471. *The Canadian West Since 1870.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian History or consent of the Department.

HIST 472. *Topics in The History of Canada to 1791.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 473. *Topics in The History of Canada, 1791-1867.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian history or consent of the Department.

INT D 475. *The Family in Socio-Historical Perspective.* ★3 (either term, 3-0-0). (See § 44.22.) Accepted as an option only.

HIST 476. *Topics in Canadian Business History.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 477. *Topics in the History of Canadian External Relations.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 478. *The Canadian North.* ★3 (either term, 0-3s-0). A topical approach to the history of northern Canada. Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 479. *Topics in Canadian History.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 480. *Topics in East Asian History.* ★6 (0-3s-0).

HIST 481. *Topics in Early East Asian History.* ★6 (0-3s-0). Prerequisite: HIST 380, 381, or 383, or consent of the Department.

HIST 482. *Topics in Modern East Asian History.* ★6 (0-3s-0). Prerequisite: HIST 380, or 381, or 383, or consent of the Department.

HIST 484. *Topics in South East Asian History.* ★3 (either term, (0-3s-0). Prerequisite: A previous course in Asian history and consent of the Department.

HIST 486. *Topics in British Empire and Commonwealth History.* ★6 (0-3s-0).

HIST 487. *Topics in South Asian History.* ★3 (either term, 0-3s-0). Bangladesh, India, Pakistan, or Sri Lanka. Prerequisite: A previous course in Asian history or consent of the Department.

HIST 490. *Topics in Comparative History of Western Europe in the Eighteenth Century.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department.

HIST 491. *Topics in Comparative History of Western Europe in the Nineteenth Century.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

HIST 492. *Topics in the Political and Constitutional History of Canada since Confederation.* ★3 (either term, 0-3s-0). Prerequisite: A previous course in Canadian history or consent of the Department.

HIST 493. *Land and Labor in Latin America.* ★3 (First Term, 0-3s-0). An examination of the history of labor utilization and its relationship to the various agricultural systems of Latin America. Prerequisites: HIST 391/392 or consent of the Department.

HIST 494. *Political and Social Revolution in Latin America.* ★3 (Second Term, 0-3s-0). An examination of political instability in Nineteenth Century Latin America and the circumstances surrounding social revolutions in Mexico and Cuba in the Twentieth Century. Prerequisites: HIST 391/392 or consent of the Department.

HIST 495. *Topics in Latin American History to 1850.* ★3 (First Term, 0-3s-0). Prerequisites: HIST 391/392 or consent of the Department.

HIST 496. *Topics in Latin American History since 1850.* ★3 (Second Term, 0-3s-0). Prerequisites: HIST 391/392 or consent of the Department.

HIST 497. *Topics in Comparative History.* ★3 (either term, 0-3s-0).

44.21.4 HONORS AND GRADUATE COURSES

HIST 498. *Introduction to Historiography for Honors Students.* ★3 (0-1.5s-0).

HIST 501. *Special Subject, Fourth-Year Honors History.* ★6 (0-3s-0). Preparation of the Honors essay, required in the fourth year of the Honors program.

HIST 509. *Latin America (Comprehensive).* ★6 (0-3s-0).

HIST 511. *Medieval British History (Comprehensive).* ★6 (0-3s-0).

HIST 512. *Modern British History (Comprehensive).* ★6 (0-3s-0).

HIST 513. *Canadian History (Comprehensive).* ★6 (0-3s-0).

HIST 514. *American History (Comprehensive).* ★6 (0-3s-0).

HIST 515. *Medieval European History (Comprehensive).* ★6 (0-3s-0).

HIST 516. *European History, 1500-1789 (Comprehensive).* ★6 (0-3s-0).

HIST 517. *European History, since 1789 (Comprehensive).* ★6 (0-3s-0).

HIST 518. *Russian and East European History (Comprehensive).* ★6 (0-3s-0).

HIST 519. *British Empire and Commonwealth History (Comprehensive).* ★6 (0-3s-0).

HIST 520. *East Asian History (Comprehensive).* ★6 (0-3s-0).

NOTE: Courses 521 to 590 inclusive are bibliographical seminars.

HIST 521. *Medieval Europe.* ★6 (0-3s-0).

HIST 523. *Early Modern Western Europe.* ★6 (0-3s-0).

HIST 525. *Modern Western Europe.* ★6 (0-3s-0).

HIST 527. *Russia and Eastern Europe.* ★6 (0-3s-0).

HIST 531. *Modern European Intellectual History.* ★6 (0-3s-0).

INT D 540. *Seminar on Comparative, Legal, Constitutional, and Federal Studies.* ★6 (0-3s-0). (See § 44.22.) Accepted as an option only.

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). (See § 44.22.) Accepted as an option only.

HIST 552. *Medieval England.* ★6 (0-3s-0).

HIST 554. *Early Modern England.* ★6 (0-3s-0).

HIST 556. *Modern England.* ★6 (0-3s-0).

HIST 558. *British Empire and Commonwealth.* ★6 (0-3s-0).

HIST 560. *United States.* ★6 (0-3s-0).

HIST 570. *Canada.* ★6 (0-3s-0).

HIST 580. *East Asia.* ★6 (0-3s-0).

HIST 582. *China.* ★6 (0-3s-0). Bibliographical seminar for honors and graduate students specializing in the area.

HIST 583. *Japan and Korea.* ★6 (0-3s-0). Bibliographical seminar for honors and graduate students specializing in the area.

HIST 584. *Southeast Asia.* ★6 (0-3s-0). Bibliographical seminar for honors and graduate students specializing in the area.

HIST 590. *Latin America.* ★6 (0-3s-0). A bibliographical seminar.

HIST 599. *Directed Study.* ★6 (0-3s-0). Note: For students in the fourth year of the Honors program.

HIST 600. *Conference Course.* ★6 (0-3s-0). Directed studies in special subjects to meet individual requirements.

HIST 601. *Documentary Chinese for Historians.* ★6 (0-3s-0). Prerequisite: Previous training in the Chinese language and consent of the Department.

HIST 602. *Philosophy of History and Historical Methodology.* ★6 (0-3s-0). Note: Required of all candidates for higher degrees in History.

HIST 603. *Documentary Japanese for Historians.* ★6 (0-3s-0). Prerequisite: Previous training in the Japanese language and consent of the Department.

HIST 604. *Historical Interpretations.* ★6 (0-3s-0).

HIST 605. *Research Seminar.* ★3 (either term, 0-3s-0). The specific area of research is announced by the Department in the term before the seminar is offered.

HIST 607. *Methods of Quantification for Historians.* ★6 (either term, 0-3s-0).

HIST 608. *Studies in Comparative History.* ★6 (0-3s-0). Studies in select topics in comparative historical institutions and ideas. Topics to be announced annually.

HIST 611. *Topics in European Diplomatic History 1870-1945.* ★6 (0-3s-0).

HIST 612. *Topics in Modern German History.* ★6 (0-3s-0).

HIST 623. *Early Modern Western Europe.* ★6 (0-3s-0).

HIST 625. *Modern Western Europe.* ★6 (0-3s-0).

HIST 627. *Russia and Eastern Europe.* ★6 (0-3s-0).

HIST 631. *Modern European Intellectual History.* ★6 (0-3s-0).

HIST 632. *Revolutionary Movements in France 1789-1914.* ★6 (0-3s-0).

HIST 652. *Medieval England.* ★6 (0-3s-0).

HIST 654. *Early Modern England.* ★6 (0-3s-0).

HIST 656. *Modern England.* ★6 (0-3s-0).

HIST 658. *The British Empire.* ★6 (0-3s-0).

HIST 660. *The United States.* ★6 (0-3s-0).

HIST 670. *Canada.* ★6 (0-3s-0).

HIST 672. *Seminar in the History of the Canadian West.* ★6 (0-3s-0).

HIST 680. *East Asia.* ★6 (0-3s-0).

HIST 682. *China.* ★6 (0-3s-0). Directed research for graduate students specializing in the area.

HIST 683. *Japan and Korea.* ★6 (0-3s-0). Directed research for graduate students specializing in the area.

HIST 684. *Southeast Asia.* ★6 (0-3s-0). Directed research for graduate students specializing in the area.

HIST 690. *Latin America.* ★6 (0-3s-0). A research seminar.

44.22 Interdisciplinary Studies

Courses listed below are the joint concern of the departments stated in the course descriptions. Students may register in these courses either as options or as courses in subjects of concentration in the departments or subjects specified unless otherwise indicated in the respective subject listings (§ § 44.1-44.40). Instruction will be offered by members of one or more of the departments or faculties listed. Responsibility for registration is with the department shown in italics. For additional information please consult that department or other participating departments.

44.22.1 SENIOR COURSES

INT D 300. *Introduction to the Study of Film.* ★6 (3-0-3). An interdisciplinary survey (lecture and laboratory) of major areas in film studies, emphasizing history, theory, and criticism. Prerequisite: One year of ENGL 200-level, or ART H 201 and 202, or C LIT 200 or 300, or PHIL 240, or equivalent. [Art and Design, Comparative Literature, Drama, English, *Philosophy,* Political Science, and Romance Languages.] Note: This course is accepted as a part of student's program only by the Department of Comparative Literature, the other Departments accept it only as an option.

INT D 301. *The Hollywood Film.* ★6 (3-0-3). A survey of the American feature film from the silent era to the present. Prerequisite: INT D 300. [Art and Design, Comparative Literature, Drama, English, *Philosophy,* Political Science, and Romance Language] Note: This course is accepted as a part of student's program only by the Department of Comparative Literature, the other Departments accept it only as an option.

INT D 302. *Economics of Agriculture.* ★3 (either term, 3-0-0). The nature and scope of agricultural economics; economic aspects of agricultural production, marketing, finance, resource use, prices, and policy; relation of the agricultural sector to the economy as a whole; analysis of structural change, economic growth, and adjustment in agriculture. Prerequisites: ECON 201/202. Note: Formerly INT D 367. [Economics, *Rural Economy*].

INT D 303. *Economics of World Agriculture.* ★3 (either term, 3-0-0). A survey of world structure of agricultural production, consumption, and trade; international agricultural policies and agreements; impact of regional economic integration on agriculture; interrelation of economic development and trade in agricultural commodities. Prerequisites: ECON 201/202. Note: Formerly INT D 368. [Economics, *Rural Economy*].

INT D 341. *Romania and Romanians.* ★3 (Second Term, 3-0-0). Included in the course is the history of Romania, the nature of its language, and the social, political, cultural, and economic development of Romania, and of Romanian settlements, especially those in the Moldavian SSR and in Canada. [*Division of East European Studies*].

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). An interdisciplinary introduction to the study of the socialist system with special reference to the Soviet Union and East Europe. [*Division of East European Studies* and Departments of Comparative Literature, Economics, Geography, History, Political Science, Slavic Languages, Sociology.]

INT D 347. *Women and Socialism: USSR and Eastern Europe.* ★3 (Second Term, 3-0-0). Theory and practice of socialism as related to the status of women in Eastern Europe and the Soviet Union. Prerequisite: Consent of the Division of East European Studies. Note: Not open to students who have taken POL S 342 in 1977-78. [*Division of East European Studies* and Departments of Political Science, and Sociology].

INT D 355. *Social Problems of Eastern Europe Under State Socialism.* ★3 (3-0-0). The socio-cultural and economic consequences of major structural transformations in East European societies, with particular emphasis on family life, the socialization of youth, work relations, popular culture, and social deviance. [*Division of East European Studies*].

INT D 356. *Sociology of Rural Life.* ★3 (either term, 3-0-0). The rural community and rural social systems, with special reference to changes in the rural way of life. Prerequisite: R SOC 355, or SOC 202, or 403, or equivalent. [Sociology, *Rural Economy*].

INT D 357. *Health Care Economics.* ★3 (either term, 3-0-0). Resource allocation in the health care industry; production and cost relationships within various types of institutional settings (hospital, medical firm) the role of the price mechanism in allocating resources. Manpower planning; the role of the Government and professional groups in allocating resources in the non-price sector of the health industry. [Economics, *Health Services Administration*].

INT D 366. *Economics of Outdoor Recreation.* ★3 (either term, 3-0-0). Economic implications of outdoor recreation resource development and use. Prerequisite: ECON 201 or equivalent; ECON 202 recommended. [*Rural Economy,* Economics, Forest Science and Recreation Administration]

INT D 369. *Economics of the Environment.* ★3 (either term, 3-0-0). Economic growth and the deterioration of the environment; types and causes of environmental deterioration; theory, policy, and measurement relating to environmental deterioration; recreation economics; and current Canadian environmental topics. Prerequisite: ECON 201, or 304, or 307. [*Economics,* Rural Economy].

INT D 393. *Political Sociology.* ★3 (either term, 3-0-0). An examination of the impact of social organization and structure on the conduct of politics in mass societies, and of the ways the organization and structures of such societies are affected by political processes. Prerequisite: POL S 200, or 201, and 202; or SOC 202, or 403 or consent of the Department. [either *Political Science,* or Sociology].

INT D 401. *Film Theory and Criticism.* ★3 (either term, 3-0-0). Investigation of the problems of understanding and evaluating film. Includes close analysis of film extracts in class. Prerequisite: INT D 300. Note: This course is accepted as a part of student's program only by the Department of Comparative Literature, the other Departments accept it only as an option. [Art and Design, Comparative Literature, Drama, English, *Philosophy,* Political Science, and Romance Languages]

INT D 443. *The Soviet North and Siberia.* ★3 (Second Term, 3-0-0). The economy, political administration, and the social development of the native peoples of Siberia and the Soviet North. Prerequisite or corequisite: An area-related course in

one of Geography, Political Science, Economics, or consent of the Division of East European Studies. (Participating units normally include *Division of East European Studies*, and Departments of Anthropology, Economics, and Geography).

INT D 444. *The Ukraine.* ★3 (Second Term, 3-0-0). Major social, economic, political, and cultural trends in the Ukrainian SSR in the post-World War II period. Prerequisite or corequisite: An area-related course in one of geography, history, political science, or Ukrainian, or consent of the Division of East European Studies. (Participating units normally include *Division of East European Studies,* and Departments of History, and Slavic Languages).

INT D 445. *Poland.* ★3 (First Term, 3-0-0). The political, social, economic, and cultural developments in post World War II. Prerequisite: INT D 346, or POLSH 304, or equivalent, or demonstration to the Division of East European Studies of sufficient background in the area. (Participating units normally include *Division of East European Studies,* and Departments of Economics, Fine Arts, Geography, Slavic Languages, and Sociology).

INT D 446. *Eastern Europe: A Travel-Study Course.* ★6 (5-0-15). An intensive interdisciplinary study of Eastern Europe and the Soviet Union, in Eastern Europe itself. Designed to provide an understanding of the area by directed study on location. Note: The course is offered only in the Spring or Summer Session in countries of Eastern Europe and the U.S.S.R. on a selected basis and includes intensive study in one or more countries. Prerequisite: INT D 346 or consent of Division. Pre-session study and preparation. [*Division of East European Studies*].

INT D 455. *Migration.* ★3 (either term, 3-0-0). Internal and international migration, and its relationship to resources, economic opportunities, and societal organization in Canada and other countries; concepts, measures, and analytical techniques; determinants and consequences of migration; types and models of migration; adjustment of migrants; migration, and urban and metropolitan growth. [Geography, *Sociology*].

INT D 456. *Rural Social Problems and Public Policy.* ★3 (either term, 3-0-0). Social problems in Canadian rural life; analysis of policy making processes related to these problems. Prerequisite: Consent of instructor; INT D 356 recommended. [Sociology, *Rural Economy*].

INT D 458. *Socioeconomic Development of Western Canadian Agriculture.* ★3 (First Term, 3-0-0). The economic and social origins of western Canadian agricultural development. A chronological examination of farm and political organizations and other agrarian social movements influencing the farming sector. The growth of public policy and development of the institutional framework supporting agriculture. Discussion of past and present issues in Western Canadian agricultural development, including such factors as land settlement, transportation and farming support services. Prerequisite: R SOC 355, or SOC 202, or 403, or equivalent. [*Rural Economy* and Sociology].

INT D 459. *Introduction to Community Development.* ★3 (either term, 3-0-0). The history, origins, foundation and definitions of community development. [*Sociology,* Community Development].

INT D 468 *Principles of International Humanitarian Law.* ★3 (either term, 3-0-0). Historical background; humanitarian intervention; human rights; law of war; international criminal law. Prerequisite: Consent of Faculty of Law or Department of Political Science. Note: Formerly IN ST 486. [*Political Science*].

INT D 475. *The Family in Socio-Historical Perspective.* ★3 (either term, 3-0-0). Comparative study of the family in socio-historical context with emphasis on North American and European family systems. Critical examination of contemporary sociological family theory in relation to historical data. Issues in socio-historical research methods of family study. Prerequisite: SOC 371 or equivalent. [History, *Sociology*].

INT D 478. *The Multinational Corporation and Public Policy.* ★3 (First Term, 3-0-0). The development and role of large corporations within North American and European capitalism, with particular reference to the Canadian experience. A historical outline is followed by a selection of material on imperialism, international relations, international trade, and commercial organization, designed to expose problems of public policy and shifts in social and economic power arising from the emergence of the multinational corporation. Prerequisite: Consent of the Department. [*Economics,* Political Science].

INT D 479. *The Multinational Corporation and Public Policy: Case Studies.* ★3 (Second Term, 3-0-0). Prerequisite: INT D 478. [*Economics,* Political Science].

44.22.2 HONORS AND GRADUATE COURSES

INT D 500. *Nature of Man.* ★6 (0-3s-0). A seminar comparing the various conceptions of the nature of man held by sociologists, psychologists, biologists, philosophers, theologians, writers, and artists, and exploring some of the major social and philosophical issues which confront man today from the prospectives of these disciplines. [*Philosophy,* Psychology].

INT D 540 *Seminar on Comparative, Legal, Constitutional, and Federal Studies.* ★6 (0-3s-0). Prerequisite: Consent of the Department. [History, *Political Science*].

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). An interdisciplinary seminar. [*Division of East European Studies* and Departments of Comparative Literature, Economics, Geography, History, Political Science, Slavic Languages, Sociology].

INT D 566. *Resource Economics II: Economics of the Environment.* ★3 (either term, 3-0-0). Economic theory and policy relating to resource and environmental quality problems; welfare and public policy issues in resource decision-making; the relationships between economic growth and environmental preservation; externalities and public goods; economics of pollution; recreation economics; selected Canadian environmental issues. [*Economics*].

INT D 570. *Seminar in Philosophy and Psychology I.* ★3 (First Term, 0-3s-0). An examination of the contributions of philosophy and psychology to the behavioral sciences. [Philosophy, *Psychology*]

INT D 571. *Seminar in Philosophy and Psychology II.* ★3 (Second Term, 0-3s-0). An examination of the contributions of philosophy and psychology to the behavioral sciences. [Philosophy, *Psychology*]

INT D 653. *Regionalism and Urban Planning.* ★3 (either term, 3-0-0). [*Geography,* Sociology].

44.23 Italian

Department of Romance Languages

44.23.1 JUNIOR COURSES

ITAL 100. *Beginners' Italian.* ★6 (3-0-2) Italian grammar and pronunciation. Readings of easy texts dealing with different aspects of Italian culture. Note: This course is not open to students having some previous knowledge of Italian or any of its dialects. See ITAL 200.

ITAL 200. *First Year University Italian.* ★6 (3-0-0). Designed for students having some previous knowledge of Italian.

ITAL 201. *Second Year Honors Laboratory Hour.* ★2 (0-0-1).

44.23.2 SENIOR COURSES

ITAL 300. *Second Year Italian.* ★6 (3-0-0). Selected contemporary prose and poetry. Advanced grammar and phonetics. Prerequisite: ITAL 100. Note: Students who have completed ITAL 200 must have special permission from the Department in order to enrol in this course.

ITAL 302. *Third Year Honors Language Seminar.* ★2 (0-1s-0).

ITAL 321. *Contemporary Italian Novel, before 1945.* ★3 (either term, 3-0-0). Selection of representative major writers. Prerequisite: ITAL 200 or 300. Note: Formerly part of ITAL 320.

ITAL 322. *Contemporary Italian Novel, post-Second World War.* ★3 (either term, 3-0-0). Selection of representative major writers. Prerequisite: ITAL 200 or 300. Note: Formerly part of ITAL 320.

ITAL 331. *Contemporary Italian Short Stories, before 1945.* ★3 (either term, 3-0-0). Selection of representative major writers. Prerequisite: ITAL 200 or 300. Note: Formerly part of ITAL 330.

ITAL 332. *Contemporary Italian Short Stories, post-Second World War.* ★3 (either term, 3-0-0). Selection of representative major writers. Prerequisite: ITAL 200 or 300. Note: Formerly part of ITAL 330.

ITAL 340. *A Survey of Italian Literature.* ★6 (3-0-0). Major literary works in Italian from the Sicilian school to the present. Prerequisite: ITAL 320, and 330, or consent of the Department.

ITAL 362. *Italian Theatre from the Eighteenth Century to the Present.* ★3 (either term, 3-0-0). From Goldoni to Pirandello. Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department. Note: Formerly part of ITAL 360.

ITAL 370. *Introduction to the Renaissance.* ★3 (either term, 3-0-0). Selections from Lorenzo il Magnifico, Bembo, Ariosto, Machiavelli, Castiglione, Michelangelo, Tasso. Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department. Note: Formerly ITAL 365.

ITAL 376. *Nineteenth Century Novel I.* ★3 (either term, 3-0-0). Manzoni's Promessi Sposi. Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department. Note: Formerly part of ITAL 375.

ITAL 377. *Nineteenth Century Novel II.* ★3 (either term, 3-0-0). Nievo, Fogazzaro, Verga. Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department. Note: Formerly part of ITAL 375.

ITAL 378. *Twentieth Century Italian Novel.* ★3 (either term, 3-0-0). Selection of representative major writers. Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department.

ITAL 379. *Topics in Twentieth Century Italian Literature.* ★3 (either term, 3-0-0). Prerequisites: Consent of the Department.

ITAL 380. *Dante's Inferno.* ★3 (either term, 3-0-0). Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department. Note: Formerly ITAL 480.

ITAL 381. *Dante's Purgatorio and Paradiso.* ★3 (either term, 3-0-0). Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department. Note: Formerly ITAL 481.

ITAL 385. *Short Stories of the Sixteenth Century.* ★3 (either term, 3-0-0). Selection of representative major writers. Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department.

ITAL 390. *Boccaccio's Decameron.* ★3 (either term, 3-0-0). Prerequisites: ITAL 321, 322, 331, and 332, or consent of the Department.

ITAL 395. *Advanced Composition.* ★3 (either term, 3-0-0). Prerequisites: ITAL 200, or 300, or consent of the Department.

ITAL 400. *Renaissance Prose.* ★6 (3-0-0). Machiavelli's *Prince,* Castiglione's *Courtier,* Della Casa's *Galateo,* Cellini's *Autobiography,* Vasari's *Lives,* etc. Prerequisite: Consent of the Department.

ITAL 403. *Fourth-year Honors Language Seminar.* ★2 (0-1s-0).

ITAL 410. *Heroic and Mock-Heroic Epic.* ★6 (3-0-0). Pulci, Boiardo, Ariosto, Tasso. Prerequisite: Consent of the Department.

ITAL 420. *Renaissance Theatre.* ★6 (3-0-0). *La commedia del '500; La Pastorale;* the beginning of *Melodramma.* Prerequisite: Consent of the Department.

ITAL 499. *Directed Reading.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Designed to meet the needs of individual students. Prerequisite: Consent of the Department.

44.23.3 HONORS AND GRADUATE COURSES

ITAL 500. *Contemporary Italian Literary Aesthetics.* ★6 (3-0-0). Croce's aesthetics. Marxist criticism — Gramsci and G. della Volpe. Prerequisite: Two senior Italian courses.

ITAL 501. *Bibliography and Thesis Style.* ★1 (either term, 2-0-0). **Note: Formerly ITAL 690.**

ITAL 510. *Literary Movements of the Twentieth Century.* ★6 (3-0-0). A critical reading of the major periodicals of the first-half of the century: *La Ronda, La Voce, La Critica,* etc.

ITAL 570. *Early Humanist Comedy.* ★6 (3-0-0). Vergerio's *Paulus,* Barzizza's *Cauteriaria,* Ranzo's *De falso Hypocrita,* Pisani's *Repetitio Zanini* and *Philogenia,* Piccolomini's *Chrysis.*

ITAL 580. *The Literature of "Trattati d'Arte".* ★6 (3-0-0). Treatises on poetics, rhetoric, and art in the Renaissance and Baroque periods.

ITAL 590. *Goldoni and the Theatre of the Eighteenth Century.* ★6 (3-0-0). Goldoni's plays with reference to contemporary trends: Metastasio, Zeno, Gozzi.

ITAL 599. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A detailed study of some great author or question not dealt with in other Honors or Graduate courses. Designed to meet the needs of individual Honors or Graduate students. Prerequisite: Consent of the Department.

ITAL 600. *Topics in Thirteenth Century Italian Literature.* ★3 or ★6 (either term, 3-0-0).

ITAL 610. *Topics in Fourteenth Century Italian Literature.* ★3 or ★6 (either term, 3-0-0).

ITAL 620. *Topics in Fifteenth Century Italian Literature.* ★3 or ★6 (either term, 3-0-0).

ITAL 630. *Topics in Sixteenth Century Italian Literature.* ★3 or ★6 (either term, 3-0-0).

ITAL 640. *Topics in Seventeenth Century Italian Literature.* ★3 or ★6 (either term, 3-0-0).

ITAL 650. *Topics in Eighteenth Century Italian Literature.* ★3 or ★6 (either term, 3-0-0).

ITAL 660. *Topics in Nineteenth Century Italian Literature.* ★3 or ★6 (either term, 3-0-0).

ITAL 670. *Topics in Twentieth Century Italian Literature.* ★3 or ★6 (either term, 3-0-0).

ITAL 699. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A detailed study of some great author or question not dealt with in the other Graduate courses. Designed to meet the needs of individual Graduate students.

Note: For additional courses related to Italian, see Romance Linguistics in § 44.34 and Romance Literatures in § 44.35.

44.24 Japanese

Department of History

44.24.1 JUNIOR COURSES

JAPAN 100. *Introductory Modern Standard Japanese.* ★6 (either term, 0-10L-0). This course is designed primarily for students whose first language is not Japanese. It introduces the student to speaking, listening to, and writing Japanese.

JAPAN 201. *Conversational Japanese I.* ★3 (either term, 3-0-2). Elementary level conversational Japanese language. Note: JAPAN 100 and 201 may not both be taken for credit.

JAPAN 202. *Conversational Japanese II.* ★3 (either term, 3-0-2). Elementary level conversational Japanese. Prerequisite: JAPAN 201 or equivalent. Note: JAPAN 100 and 202 may not both be taken for credit.

44.24.2 SENIOR COURSES

JAPAN 300. *Basic Integrated Modern Standard Japanese.* ★6 (either term, 0-10L-0). Emphasis on reading, writing, and oral/aural skills. Prerequisite: JAPAN 100 or equivalent.

JAPAN 301. *Intermediate Japanese Language I.* ★3 (either term, 3-0-2). Emphasis on colloquial Japanese conversation and informal composition. Prerequisite: JAPAN 300 or equivalent.

JAPAN 302. *Intermediate Japanese Language II.* ★3 (either term, 3-0-2). Further emphasis on colloquial Japanese conversation and composition. Prerequisite: JAPAN 301 or equivalent.

JAPAN 303. *Intermediate Japanese Language III.* ★3 (either term, 3-0-4). Selected readings on Japanese culture featuring a variety of calligraphic styles in colloquial and literary Japanese. Prerequisite: JAPAN 300 or equivalent.

JAPAN 304. *Intermediate Japanese Language IV.* ★3 (either term, 3-0-4). Further selected readings in Japanese culture featuring a variety of calligraphic styles in colloquial and literary Japanese. Prerequisite: JAPAN 303 or equivalent.

JAPAN 307. *Japanese Language for Readers of Chinese I.* ★3 (either term, 3-0-2). Integrated course in Japanese conversation and reading for persons who already read Chinese. Prerequisite: Knowledge of written Chinese. Note: Only one of JAPAN 100, 201, or 307 may be taken for credit.

JAPAN 308. *Japanese Language for Readers of Chinese II.* ★3 (either term, 3-0-2). Integrated course in Japanese conversation and reading for persons who already read Chinese. Prerequisite: JAPAN 307 or equivalent. Note: Only one of JAPAN 100, 202, or 308 may be taken for credit.

JAPAN 310. *Introduction to Classical Japanese.* ★3 (either term, 3-0-2). Introduction to classical Japanese grammar through the reading of some of the easier early literary texts. Prerequisite: Consent of the Department.

JAPAN 321. *Early Japanese Literature in Translation.* ★3 (either term, 3-0-0). Selected readings in English of Japanese literature to 1868.

JAPAN 322. *Modern Japanese Literature in Translation.* ★3 (either term, 3-0-0). Selected readings in English of Japanese literature since 1868.

JAPAN 325. *Calligraphy I.* ★3 (either term, 3-0-0). Introduction to the history of the Japanese and Chinese written languages and to basic vocabulary through brush writing and reading. Note: JAPAN 325 and CHINA 325 may not both be taken for credit. This course is designed for students whose first language is not Japanese.

JAPAN 326. *Calligraphy II.* ★3 (either term, 3-0-0). Study of historical changes in style and usage of characters through brush writing and reading. Prerequisite: JAPAN 325, or CHINA 325, or consent of the Department. Note: JAPAN 326 and CHINA 326 may not both be taken for credit. This course is designed for students whose first language is not Japanese.

JAPAN 401. *Advanced Japanese Language I.* ★3 (either term, 3-0-3). Selected readings on Japan. Prerequisite: JAPAN 304 or equivalent.

JAPAN 402. *Advanced Japanese Language II.* ★3 (either term, 3-0-3). Further selected readings on Japan. Prerequisite: JAPAN 401 or equivalent.

JAPAN 403. *Readings from Japanese Journalism.* ★3 (either term, 3-0-3). Advanced reading from Japanese newspapers and magazines. Spoken Japanese required. Prerequisite: JAPAN 402 or consent of the Department.

JAPAN 404. *Readings in Japanese Prose.* ★3 (either term, 3-0-3). Advanced readings from fiction and social commentary. Spoken Japanese required. Prerequisite: JAPAN 403 or equivalent.

JAPAN 405. *Readings in Classical Japanese.* ★3 (either term, 3-0-3). Advanced reading in classical Japanese literary, historical, and philosophical texts. Prerequisite: JAPAN 310 or equivalent.

JAPAN 406. *Readings in Japanese Drama.* ★3 (either term, 3-0-2). Reading and cultural analysis in Japanese of selected works from early and modern eras. Prerequisite: JAPAN 402 or consent of the Department.

JAPAN 407. *Readings in Japanese Poetry.* ★3 (either term, 3-0-2). Reading and analysis in Japanese of selected works from early and modern eras. Prerequisite: JAPAN 402 or consent of the Department.

JAPAN 410. *Kanbun I.* ★3 (either term, 3-0-3). The reading of Chinese as Japanese. Prerequisite: Competence in reading modern Japanese.

JAPAN 411. *Kanbun II.* ★3 (either term, 3-0-3). The reading of Chinese as Japanese. Prerequisite: Competence in reading modern Japanese.

JAPAN 481. *Supervised Reading in Japanese I.* ★3 (either term, 3-0-4). Accelerated reading course primarily for senior and graduate students for special areas of need or interest. Prerequisite: Written consent of the Department.

JAPAN 482. *Supervised Reading in Japanese II.* ★3 (either term, 3-0-4). Further accelerated reading study for senior and graduate students. Prerequisite: Written consent of the Department.

JAPAN 581. *Supervised Study in the Japanese Language I.* ★3 (either term, 3-0-4). Prerequisite: Written consent of the Department.

JAPAN 582. *Supervised Study in the Japanese Language II.* ★3 (either term, 3-0-4). Prerequisite: Written consent of the Department.

44.25 Latin

Department of Classics

NOTE: For additional related courses see § § 44.9 and 44.18.

44.25.1 JUNIOR COURSES

LATIN 100. *Beginners' Latin.* ★6 (4-0-1). Essentials of grammar, syntax, the reading of easy Latin and prose composition. Secondary emphasis on the connexion of English with Latin.

LATIN 200. *Latin Authors.* ★6 (3-0-0). Practice in the readings of Latin and in the writing of simple Latin sentences. Note: For students with matriculation in Latin 30 or with LATIN 100.

44.25.2 SENIOR COURSES

LATIN 300. *Latin Authors and Prose Composition.* ★6 (3-0-1). Sight translation and principles of language. For students proceeding from LATIN 100 or 200.

LATIN 311. *Grammar.* ★3 (either term, 3-0-0). A study of Latin grammar. Prerequisite: LATIN 300 or equivalent. Note: Restricted to Honors students.

LATIN 351. *Ovid.* ★3 (either term, 3-0-0). Prerequisite: LATIN 300 or consent of the Department.

LATIN 361. *Roman Comedy.* ★3 (either term, 3-0-0). Selections from Plautus and Terence.

LATIN 363. *Cicero.* ★3 (either term, 3-0-0). Selections from Cicero's speeches, dialogues, and essays.

LATIN 364. *Sallust.* ★3 (either term, 3-0-0). Selections from Sallust.

LATIN 366. *Tacitus.* ★3 (either term, 3-0-0). Agricola and/or Germania.

LATIN 367. *Vergil.* ★3 (either term, 3-0-0). Selections from the Aeneid.

LATIN 368. *Roman Lyric Poetry.* ★3 (either term, 3-0-0). Selections from Horace and Catullus.

LATIN 369. *Livy.* ★3 (either term, 3-0-0).

LATIN 370. *Roman Satire.* ★3 (either term, 3-0-0). Selections from Horace, Juvenal, and others.

LATIN 411. *Latin Grammar and Style.* ★3 (2-0-0; 1-0-1). The writing of Latin prose. Note: A single-term course offered over the full session.

LATIN 464. *Cicero's Letters.* ★3 (either term, 3-0-0).

LATIN 466. *Lucretius.* ★3 (either term, 3-0-0).

LATIN 467. *Tacitus (later works).* ★3 (either term, 3-0-0).

44.25.3 HONORS AND GRADUATE COURSES

LATIN 511. *Latin Grammar and Style.* ★3 (2-0-0; 1-0-1). Note: A single-term course offered over the full session.

LATIN 530. *History of the Latin Language I.* ★3 (First Term, 3-0-0). Prerequisite: LATIN 411, or 511, or equivalent.

LATIN 531. *History of the Latin Language II.* ★3 (Second Term, 3-0-0). Prerequisite: LATIN 530.

LATIN 532. *Latin Epigraphy.* ★3 (either term, 3-0-0).

LATIN 533. *Medieval Latin.* ★3 (either term, 3-0-0). Note: Formerly LATIN 534.

LATIN 534. *Latin Palaeography.* ★3 (either term, 3-0-0). Note: Formerly LATIN 533.

LATIN 535. *Early Roman Poetry.* ★3 (either term, 3-0-0).

LATIN 536. *Vergil I.* ★3 (First Term, 3-0-0).

LATIN 537. *Vergil II.* ★3 (Second Term, 3-0-0).

LATIN 538. *Lucretius.* ★3 (either term, 3-0-0).

LATIN 539. *Roman Philosophical Authors.* ★3 (either term, 3-0-0).

LATIN 540. *Catullus.* ★3 (either term, 3-0-0).

LATIN 541. *Roman Comedy.* ★3 (either term, 3-0-0).

LATIN 542. *Roman Letters.* ★3 (either term, 3-0-0).

LATIN 543. *Roman Satire.* ★3 (either term, 3-0-0).

LATIN 544. *Lyric Poetry.* ★3 (either term, 3-0-0).

LATIN 545. *Elegiac Poetry.* ★3 (either term, 3-0-0).

LATIN 546. *Tacitus I.* ★3 (First Term, 3-0-0).

LATIN 547. *Tacitus II.* ★3 (Second Term, 3-0-0).

LATIN 548. *Cicero I.* ★3 (First Term, 3-0-0).

LATIN 549. *Cicero II.* ★3 (Second Term, 3-0-0).

LATIN 550. *Silver Latin I.* ★3 (First Term, 3-0-0).
LATIN 551. *Silver Latin II.* ★3 (Second Term, 3-0-0).
LATIN 552. *Studies in Latin Literature I.* ★3 (First Term, 3-0-0).
LATIN 553. *Studies in Latin Literature II.* ★3 (Second Term, 3-0-0).
LATIN 554. *Readings in Roman History I.* ★3 (First Term, 3-0-0).
LATIN 555. *Readings in Roman History II.* ★3 (Second Term, 3-0-0).
LATIN 556. *Roman Historiography I.* ★3 (First Term, 3-0-0).
LATIN 557. *Roman Historiography II.* ★3 (Second Term, 3-0-0).
LATIN 558. *Roman Military Authors.* ★3 (either term, 3-0-0).
LATIN 559. *Roman Antiquarians.* ★3 (either term, 3-0-0).
LATIN 598. *Supervised Reading.* ★3 (either term, 3-0-0).
LATIN 599. *Supervised Reading.* ★3 (either term, 3-0-0).
LATIN 621. *Advanced Latin Palaeography.* ★6 (3-0-0). Prerequisite: LATIN 534.
LATIN 652. *Studies in Latin Literature A.* ★3 (either term, 3-0-0).
LATIN 653. *Studies in Latin Literature B.* ★3 (either term, 3-0-0).
LATIN 698. *Conference Course.* ★3 (either term, 3-0-0).
LATIN 699. *Conference Course.* ★3 (either term, 3-0-0).

44.26 Linguistics

Department of Linguistics
Faculty of Science

44.26.1 JUNIOR COURSES

NOTE: Linguistics courses considered to be Science Courses will be found in the Faculty of Science section of the Calendar (§ 184.17).

LING 201. *Introduction to the Study of Language I.* ★3 (First Term, 3-0-0). Survey of the methodolgy of language scholarship; the cultural-humanistic tradition.
LING 202. *Introduction to the Study of Language II.* ★3 (Second Term, 3-0-0). Survey of the methodology of language scholarship; the scientific tradition. Prerequisite: LING 201.

44.26.2 SENIOR COURSES

LING 305. *Practical Phonetics.* ★3 (First Term, 3-0-3). Recognizing, transcribing, and producing speech sounds, using several systems of phonetic notation; problems in phonetic analysis; techniques for describing the sound system of an unfamiliar language, working with a native informant.
LING 382. *Modern English Syntax.* ★3 (either term, 3-0-0). Transformational description of English syntax. Prerequisite: LING 303 or consent of the Department.
LING 405. *Historical Linguistics I.* ★3 (First Term, 3-0-0). Principles and methods in historical linguistics. Prerequisites: LING 303.
LING 406. *Historical Linguistics II.* ★3 (Second Term, 3-0-0). Studies in historical linguistics. Prerequisite: LING 405.
LING 414. *Field Methods.* ★3 (Second Term, 3-0-3). Elicitation and analysis methods in the field situation. Prerequisite: LING 303.
LING 497. *Topics in Language Analysis I.* ★3 (Second Term, 3-0-0). Problems in the analysis of language; examples from English. Prerequisites: LING 303 and 382.
LING 498. *Topics in Language Analysis II.* ★3 (Second Term, 3-0-0). Problems in the analysis of language; examples from a variety of languages. Prerequisites: LING 303 and 382.

44.26.3 HONORS AND GRADUATE COURSES

LING 509. *History of Linguistics I.* ★3 (First Term, 3-0-0). Topics in the history of linguistic scholarship; Panani to the Renaissance grammarians. Prerequisites: LING 407, 409, and 410.
LING 510. *History of Linguistics II.* ★3 (Second Term, 3-0-0). Topics in the history of linguistic scholarship; the post-Renaissance grammarians to the present. Prerequisites: LING 407, 409, 410, and 509.
LING 515. *Conference Course I.* ★3 (First Term, 3-0-0). Designed to meet the needs of the individual honors student. Prerequisite: Consent of the Department.
LING 516. *Conference Course II.* ★3 (Second Term, 3-0-0). Designed to meet the needs of the individual honors student. Prerequisite: Consent of the Department.

44.27 Music

44.27.1 JUNIOR COURSES

MUSIC 200. *Rudiments of Music.* ★3 (either term, 3-0-0). Fundamentals of music theory approached through aural and written training. Note: Not open to B.Mus. students.
MUSIC 202. *History of Medieval and Renaissance Music.* ★3 (First Term, 3-0-0). Prerequisite: MUSIC 200 or satisfactory completion of Department of Music Theory Placement Examination for other than B.Mus. students.
MUSIC 203. *History of Baroque Music.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 200 or satisfactory completion of Department of Music Theory Placement Examination for other than B.Mus. students.
MUSIC 206 *Introduction to Music I.* ★3 (First Term, 3-0-0). Definition of terms; forms and styles in music from Baroque through Classical periods. Listening to recorded examples. Note: Open to all students not eligible for MUSIC 202, 203, 301, 304, or 402.
MUSIC 207. *Introduction to Music II.* ★3 (Second Term, 3-0-0). The Romantic period to the present. Familiarity with the concert repertoire. Note: Open to all students not eligible for MUSIC 202, 203, 301, or 402.
MUSIC 209. *Woodwind Techniques I.* ★3 (First Term, 3-0-0). Practical and theoretical instruction on clarinet. Prerequisite: Ability to read music. Note: Students with credit in MUSIC 311 may not take 209 for credit.
MUSIC 210. *Foundations of Music.* ★6 (0-5L-0). The development of a musical repertoire and knowledge of basic content appropriate for teachers. Note: Limited to students in the Faculty of Education not eligible for admission to MUSIC 301 and 304.
MUSIC 216. *Brass Techniques I.* ★3 (First Term, 3-0-0). Practical and theoretical instruction on trumpet. Prerequisite: Ability to read music. Note: Students with credit in MUSIC 311 may not take 216 for credit.
MUSIC 218. *String Techniques I.* ★3 (First Term, 3-0-0). Practical and theoretical instruction on violin and viola. Prerequisite: Ability to read music. Note: Students with credit in MUSIC 311 may not take 218 for credit.
MUSIC 220. *Percussion Techniques.* ★3 (First Term, 3-0-0). Practical and theoretical instruction on percussion instruments. Prerequisite: Ability to read music. Note: Students with credit in MUSIC 311 may not take 220 for credit.
MUSIC 222. *Second Practical Subject.* ★3 (1-0-0). Note: Restricted to B.Mus. students, and B.Ed. students majoring in secondary music education. Note: A single-term course offered over the full session.
MUSIC 223. *First Practical Subject.* ★6 (2-0-3). Note: Required of all candidates in the first year of the B.Mus. program studying orchestral instruments and restricted to these students. Laboratory hours involve participation in large ensemble.
MUSIC 224. *Practical Study.* ★3 (1-0-4). For non-B.Mus. students. Laboratory hours involve participation in large ensemble. Prerequisite: Consent of the Department, based upon audition. Note: a single-term course offered over the full session.
MUSIC 225. *First Practical Subject.* ★6 (2-0-4). Note: Required of all candidates in the first year of the B.Mus. program studying a keyboard instrument, or voice and restricted to these students. Laboratory hours involve participation in large ensemble.
MUSIC 229. *Ensemble.* ★3 (0-2L-0). For non-B.Mus. students. Prerequisite: Consent of the Department, based upon audition. Note: A single-term course offered over the full session.
MUSIC 250. *Elementary Harmony.* ★3 (0-3L-0). Diatonic harmony, including secondary sevenths. Modulation. Use of unessential notes of all kinds. Harmonizing of chorales in the style of Bach. Prerequisite: MUSIC 200 or satisfactory completion of Department of Music Theory Placement and Aural Skills Examinations for other than B.Mus. students. Note: A single-term course offered over the full session. Formerly a full-session course.
MUSIC 251. *Elementary Aural Skills.* ★3 (0-3L-0). The aural perception of materials covered in MUSIC 250. Prerequisite: MUSIC 200 or satisfactory completion of Dept. of Music

Theory Placement and Aural Skills Examinations for other than B.Mus. students. Note: A single-term course offered over the full session. Formerly part of MUSIC 250.

44.27.2 SENIOR COURSES

Note: The ability to read music is required for all courses listed below.

MUSIC 301. *History of Classical Music.* ★3 (First Term, 3-0-0). Prerequisite: MUSIC 200 or satisfactory completion of Department of Music Theory Placement Examination for other than B.Mus. students.

MUSIC 304. *History of Romantic and Post-Romantic Music.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 200 or satisfactory completion of Department of Music Theory Placement Examination for other than B.Mus. students.

MUSIC 305. *Musical Literature for Children.* ★3 (Second Term, 3-0-0). Survey, selection, and use of recorded materials, films, film strips, and books about music and musicians. Prerequisite: ED CI 239 or equivalent.

MUSIC 307. *Instruments for Children.* ★3 (First Term, 3-0-0). Laboratory experience with recorder ensemble, small winds, chording, and percussion instruments. Prerequisite: ED CI 239 or equivalent.

MUSIC 310. *Woodwind Techniques II.* ★3 (Second Term, 3-0-0). Practical and theoretical instruction on woodwind instruments. Prerequisite: MUSIC 209 or proficiency examination. Note: Students with credit in MUSIC 311 may not offer 310 for credit.

MUSIC 311. *Instrumental Techniques.* ★6 (0-6L-0). Practical and theoretical instruction on the instruments of the band and orchestra. Note: Students with credit in one or more of MUSIC 209, 216, 218, 220, 310, 317, 319 may not offer MUSIC 311 for credit.

MUSIC 312. *Collegium Musicum.* ★3 (0-2L-0). Preparation and performance of vocal and instrumental music from medieval to classical times. Closely associated with the content of MUSIC 202 and 203. Note: A single-term course offered over the full session.

MUSIC 313. *History of Jazz.* ★3 (either term, 3-0-0). An historical survey of the main evolutionary trends in jazz through analysis of distinctive jazz styles and listening to recorded examples. Prerequisite: MUSIC 200 or satisfactory completion of the Department of Music Theory Placement Examination for other than B.Mus. students.

MUSIC 317. *Brass Techniques II.* ★3 (Second Term, 3-0-0). Practical and theoretical instruction in brass instruments. Prerequisite: MUSIC 216 or proficiency examination. Note: Students with credit in MUSIC 311 may not take 317 for credit.

MUSIC 319. *String Techniques II.* ★3 (Second Term, 3-0-0). Practical and theoretical instruction on cello and string bass. Prerequisite: MUSIC 218 or proficiency examination. Note: Students with credit in MUSIC 311 may not take 319 for credit.

MUSIC 322. *Second Practical Subject.* ★3 (1-0-0). Note: Restricted to B.Mus. students, and B.Ed. students majoring in secondary music education. Note: A single-term course offered over the full session.

MUSIC 323. *First Practical Subject.* ★6 (2-0-3). Note: Required of all candidates in the second year of the B.Mus. program in Applied Music, Orchestral Instruments, and restricted to these students. Laboratory hours involve participation in large ensemble.

MUSIC 324. *First Practical Subject.* ★3 (1-0-4). Note: Required of all candidates in the second year of the B.Mus. program in Theory, Composition, and Music History and Literature. Open to others by consent of the Department. Laboratory hours involve participation in large ensemble. Prerequisite: MUSIC 223, 224, or 225, or equivalent. Note: A single-term course offered over the full session.

MUSIC 325. *First Practical Subject.* ★6 (2-0-4). Note: Required by candidates in the second year of the B.Mus. programs in Keyboard and Voice and restricted to these students. Laboratory hours involve participation in large ensemble.

MUSIC 326. *Master Class in Applied Music.* ★3 (3-0-0). Prerequisites: MUSIC 223, or 225, or equivalent, and consent of the Department. Note: To be offered only during Spring and/or Summer Sessions.

MUSIC 328. *Piano Accompaniment.* ★3 (0-2L-0). Prerequisites: MUSIC 225 and consent of the Department. Note: A single term course offered over the full session.

MUSIC 329. *Ensemble.* ★3 (0-2L-0). Note: A single-term course offered over the full session. Prerequisite: Consent of Department based on audition for other than B.Mus. students.

MUSIC 330. *Choral Techniques and Interpretation I.* ★3 (First Term, 3-0-0). Prerequisite: MUSIC 250, and 251, or equivalent.

MUSIC 331. *Choral Techniques and Interpretation II.* ★3 (Second Term, 3-0-0). Prerequisites: MUSIC 250, and 251, or equivalent.

MUSIC 332. *Hymnology.* ★3 (either term, 3-0-0). History of the hymn and hymn tune; types of hymns and their uses; analysis and interpretation of hymns; evaluation of standard hymnals. Note: Formerly a full-session course.

MUSIC 350. *Harmony.* ★3 (0-3L-0). Chromatic harmony in four parts. Prerequisite: MUSIC 250. Note: A single-term course offered over the full-session. Formerly a full-session course.

MUSIC 351. *Aural Skills.* ★3 (0-3L-0). The aural perception of materials covered in MUSIC 350. Prerequisite: MUSIC 251. Note: A single-term course offered over the full session.

MUSIC 352. *Counterpoint.* ★6 (3-0-0). Free counterpoint in two and three parts. Elementary canonic writing. Setting of simple texts. The writing of two-part inventions. Prerequisites: MUSIC 250 and 251.

MUSIC 360. *Introduction to Composition.* ★6 (3-0-0). Prerequisites: MUSIC 250, and 251, or equivalent.

MUSIC 361. *Form and Analysis.* ★3 (either term, 3-0-0). Study of cadence types and phrase structure. Analysis of traditional forms. Prerequisites: MUSIC 250, and 251, or equivalent. (Note: Formerly MUSIC 261.)

MUSIC 400. *History of Opera.* ★3 (either term, 3-0-0). Prerequisites: MUSIC 202, 203, 301, 304, and 402, or equivalent.

MUSIC 401. *History of the Symphony.* ★3 (either term, 3-0-0). Prerequisites: MUSIC 202, 203, 301, 304, and 402, or equivalent.

MUSIC 402. *History of Twentieth-Century Music.* ★3 (either term, 3-0-0). Prerequisite: MUSIC 200 or satisfactory completion of Department of Music Theory Placement Examination for other than B.Mus. students.

MUSIC 403. *Piano Pedagogy I.* ★3 (First Term, 2-0-1). Prerequisite: Consent of Department.

MUSIC 404. *Piano Pedagogy II.* ★3 (Second Term, 2-0-1). Prerequisite: MUSIC 403.

MUSIC 406. *Liturgics and Service Improvisation.* ★6 (1-0-2). Prerequisites: MUSIC 324 or 325 (organ) and consent of Department.

MUSIC 407. *History of the Concerto.* ★3 (either term, 3-0-0). Prerequisites: MUSIC 202, 203, 301, 304, and 402, or equivalent.

MUSIC 408. *History of Chamber Music.* ★3 (either term, 3-0-0). Prerequisites: MUSIC 202, 203, 301, 304, and 402, or equivalent.

MUSIC 409. *Viola Techniques for Violinists.* ★3 (1-0-0). Prerequisite: MUSIC 323, or 324, or equivalent. Note: A single-term course offered over the full session.

MUSIC 410. *Studies in Musical Style I.* ★3 (either term, 3-0-0). Forms, techniques, and styles studied through representative composers and genres of selected style periods. Prerequisites: MUSIC 202, 203, 301, 304, and 402.

MUSIC 411. *Studies in Musical Style II.* ★3 (either term, 3-0-0). Forms, techniques, and styles studied through representative composers and genres of selected style periods. Prerequisites: MUSIC 202, 203, 301, 304, and 402.

MUSIC 415. *Introduction to Conducting.* ★3 (First Term, 3-0-0). Prerequisites: MUSIC 250, and 251, or equivalents.

MUSIC 416. *Instrumental Conducting.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 415.

MUSIC 417. *Choral Conducting.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 415.

MUSIC 418. *Choral Literature I.* ★3 (First Term, 3-0-0). Prerequisites: MUSIC 250, and 251, and any one of the following: MUSIC 202, 203, 301, 304, 402, or equivalents.

MUSIC 419. *Choral Literature II.* ★3 (Second Term, 3-0-0). Prerequisites: MUSIC 250 and 251 and any one of the following: MUSIC 202, 203, 301, 304, 402 or equivalents.

MUSIC 422. *Second Practical Subject.* ★3 (1-0-0). Note: A single-term course offered over the full session. Restricted to B.Mus. students and B.Ed. students majoring in secondary music education.

MUSIC 423. *First Practical Subject.* ★6 (2-0-3). Note: Required of all candidates in the third year of the B.Mus. program in Applied Music (Orchestral Instruments) and restricted to these students. Laboratory hours include participation in large ensemble.

MUSIC 424. *First Practical Subject.* ★3 (1-0-0). Note: Required of all candidates in the third year of the B.Mus. programs in Theory, Composition, and Music History, and Literature. Open to others by consent of the Department. Prerequisite: MUSIC 324 or equivalent. Note: A single-term course offered over the full session.

MUSIC 425. *First Practical Subject.* ★6 (2-0-0). Note: Required by candidates in the third year of the B.Mus. program in keyboard or voice, and restricted to these students.

MUSIC 426. *Piano Improvisation.* ★3 (either term, 0-3L-0). Prerequisites: MUSIC 350, 351, and consent of the instructor.

MUSIC 427. *Continuo Realization.* ★3 (either term, 0-3L-0). Prerequisites: MUSIC 350, 351 and consent of the instructor.

MUSIC 428. *Art Song Interpretation.* ★3 (0-2L-0). Open to singers and pianists in the third and fourth years of the B. Mus. program. Prerequisite: MUSIC 324, or 325, or equivalent, and consent of the Department. Note: A single-term course offered over the full session.

MUSIC 429. *Ensemble.* ★3 (0-2L-0). Prerequisite: Consent of Department based on audition for other than B.Mus. students. Note: A single-term course offered over the full session.

MUSIC 430. *Vocal Coaching.* ★3 (0-3L-0). Coaching of vocal repertoire for individuals and ensembles. Prerequisite: Consent of Department based on audition for other than B.Mus. Students. Note: A single-term course offered over the full-session.

MUSIC 431. *Band Techniques.* ★3 (either term, 0-3L-0). Musical and practical aspects of band conducting. Prerequisite: A conducting course or substantial conducting experience.

MUSIC 432. *Music of the Great Liturgies.* ★6 (3-0-0). Comparison of the Jewish, Eastern Orthodox, Catholic, Lutheran, and Protestant Episcopal liturgies and their music; relation to music in the non-liturgical service; the church year.

MUSIC 435. *Vocal Literature I.* ★3 (First Term, 3-0-0). Prerequisite: Consent of Department for other than B.Mus. students.

MUSIC 436. *Vocal Literature II.* ★3 (Second Term, 3-0-0). Prerequisite: Consent of the Department for other than B.Mus. students.

MUSIC 437. *Sixteenth-Century Counterpoint.* ★3 (First Term, 3-0-0). Prerequisites: MUSIC 202 and 350. Note: Formerly part of MUSIC 433.

MUSIC 438. *Introduction to Medieval and Renaissance Music Theory.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 437. Note: Formerly part of MUSIC 433.

MUSIC 452. *Counterpoint.* ★6 (3-0-0). Continuation of three-voiced counterpoint, vocal,and instrumental styles. Introduction to four-voiced counterpoint. Prerequisite: MUSIC 352.

MUSIC 455. *Opera Workshop I.* ★3 (First Term, 3-0-5). Prerequisite: MUSIC 324 or 325 or equivalent.

MUSIC 456. *Opera Workshop II.* ★3 (Second Term, 3-0-5). Prerequisite: MUSIC 455 or consent of the Department.

MUSIC 457. *String Literature I.* ★3 (First Term, 3-0-0). Prerequisite: One of MUSIC 203, 301, or 304, or equivalent.

MUSIC 458. *String Pedagogy I.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 323, or 324, or equivalent.

MUSIC 460. *Composition.* ★6 (3-0-0). A sequent course to MUSIC 360 with emphasis on the study of, and writing in larger forms. Note: Public performance of works completed in the course will be expected.

MUSIC 462. *Fundamentals of Orchestration and Arranging.* ★3 (First Term, 3-0-0). Prerequisites: MUSIC 350/351 or equivalent.

MUSIC 463. *Orchestration.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 462.

MUSIC 465. *First Practical Subject.* ★6 (2-0-1). Prerequisite: MUSIC 325. Note: Required by candidates concentrating in Piano Pedagogy in the third year of the B.Mus. program and restricted to these students.

MUSIC 501. *Music History Seminar I.* ★3 (First Term, 0-3s-0). Prerequisites: MUSIC 202, 203, 301, 304, and 402, or equivalent.

MUSIC 502. *Music History Seminar II.* ★3 (Second Term, 0-3s-0). Prerequisites: MUSIC 202, 203, 301, 304, and 402, or equivalent.

MUSIC 503. *Piano Literature I.* ★3 (First Term, 3-0-0). Prerequisite: Consent of the Department.

MUSIC 504. *Piano Literature II.* ★3 (Second Term, 3-0-0). Prerequisite: Consent of the Department.

MUSIC 505. *Bibliography and Methods of Research I.* ★3 (First Term, 3-0-0).

MUSIC 506. *Tutorial Study.* ★3 (either term, 3-0-0). Independent research in a specific area of the student's interest. Prerequisites: MUSIC 202, 203, 301, 304, and 402.

MUSIC 507. *Bibliography and Methods of Research II.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 505.

MUSIC 508. *Seminar in Canadian Music.* ★3 (either term, 3-0-0). Prerequisite: MUSIC 402.

MUSIC 510. *Notation of Medieval Music.* ★3 (First Term, 0-3L-0). Development of notation through the various schools of neume notation. Gregorian notation, Troubadour, early polyphonic, model notation, the Franconian system, and the period of Ars Nova. The transcription of facsimiles. Prerequisite: MUSIC 202.

MUSIC 520. *Notation of Renaissance Music.* ★3 (Second Term, 0-3L-0). Tablature and keyboard notation, proportional notation, white notation of the Fifteenth and Sixteenth Centuries. The transcription of facsimiles. Prerequisite: MUSIC 202.

MUSIC 522. *Second Practical Subject.* ★3 (1-0-0). Note: A single-term course offered over the full session. Restricted to B.Mus. students and B.Ed. students majoring in secondary music education.

MUSIC 523. *First Practical Subject.* ★6 (2-0-3). Note: Required of all candidates in the fourth year of the B.Mus. program in Applied Music (Orchestral Instruments) and restricted to these students. Laboratory hours involve participation in large ensemble.

MUSIC 525. *First Practical Subject.* ★6 (2-0-0). Note: Required of students in the fourth year of the B.Mus. program in keyboard or voice and restricted to them.

MUSIC 528. *Art Song Interpretation.* ★3 (0-2L-0). Open to singers and pianists in the third and fourth year of the B.Mus. program. Prerequisite: MUSIC 424, or 425, or 465, and 428, or equivalent, and consent of the Department. Note: A single-term course offered over the full session.

MUSIC 529. *Ensemble.* ★3 (0-2L-0). Prerequisite: Consent of the Department based on audition for other than B.Mus. students. Note: A single-term course offered over the full session.

MUSIC 530. *Vocal Coaching.* ★3 (0-3L-0). Prerequisite: Consent of the Department based on audition for other than B.Mus. students. Note: A single-term course offered over the full session.

MUSIC 531. *History of Organ Building and Design.* ★3 (either term, 3-0-0). Prerequisites: Any two of MUSIC 202, 203, 301, 304, 402, or equivalent.

MUSIC 532. *Music in the Church.* ★3 (either term, 3-0-0). A stylistic and historical study of religious service music. Prerequisite: MUSIC 202, 203, 301, 304, and 402, or equivalent.

MUSIC 533. *Organ and Harpsichord Literature to c. 1750.* ★3 (First Term, 3-0-0). Prerequisites: MUSIC 202, and 203, or equivalent.

MUSIC 534. *Organ Literature, c. 1750-present.* ★3 (Second Term, 3-0-0). Prerequisites: Any two of MUSIC 202, 203, 301, 304, 402, or equivalent.

MUSIC 535. *Vocal Pedagogy I.* ★3 (First Term, 3-0-0). Prerequisite: Consent of the Department for other than B.Mus. students.

MUSIC 536. *Vocal Pedagogy II.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 535.

MUSIC 543. *Pedagogy of Theory.* ★6 (3-0-0). Prerequisites: MUSIC 350, 351, and 352, or equivalent.

MUSIC 544. *Advanced Harmony.* ★3 (either term, 3-0-0). Prerequisite: MUSIC 350.

MUSIC 545. *Eighteenth Century Fugue.* ★3 (either term, 3-0-0). Prerequisite: MUSIC 352.

MUSIC 555. *Opera Workshop III.* ★3 (First Term, 3-0-5). Prerequisite: MUSIC 456 or consent of the Department.

MUSIC 556. *Opera Workshop IV.* ★3 (Second Term, 3-0-5). Prerequisite: MUSIC 555 or consent of the Department.

MUSIC 557. *String Literature II.* ★3 (First Term, 3-0-0). Prerequisite: One of MUSIC 203, 301, or 304, or equivalent.

MUSIC 558. *String Pedagogy II.* ★3 (Second Term, 3-0-0). Prerequisite: MUSIC 323, or 324, or equivalent.

MUSIC 560. *Composition.* ★6 (3-0-0). A sequent course to MUSIC 460 with emphasis on the study of, and writing for, larger groups of voices and instruments. Note: Public performance of works completed in the course will be expected.

MUSIC 561. *Orchestration.* ★6 (3-0-0). Ranges, tonal qualities, technical peculiarities relating to percussion instruments, and the less common wind instruments of the orchestra. Scoring for small groups and for symphony orchestra. Prerequisite: MUSIC 463.

MUSIC 565. *First Practical Subject.* ★6 (2-0-1). Prerequisite: MUSIC 465. Note: Required by candidates concentrating in Piano Pedagogy in the fourth year of the B.Mus. program and restricted to these students.

MUSIC 570. *Aural Theory.* ★3 (0-2L-0). Prerequisite: MUSIC 351 or equivalent. Note: A single-term course offered over the full session.

MUSIC 571. *Score Reading and Orchestral Literature.* ★3 (0-2L-0). Prerequisites: MUSIC 350, 351, and 425, or equivalent. Note: A single-term course offered over the full session.

MUSIC 580. *Twentieth-Century Compositional Techniques.* ★3 (First Term, 3-0-0). Prerequisite: MUSIC 350 or consent of the Department.

MUSIC 581. *Trends in Avant Garde Music.* ★3 (Second Term, 3-0-0). Includes studies in electronic music. Prerequisite: MUSIC 580 or consent of the Department.

MUSIC 590. *Music Criticism I.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

MUSIC 591. *Music Criticism II.* ★3 (either term, 3-0-0). Prerequisite: MUSIC 590 or equivalent.

MUSIC 605. *Seminar in American Music.* ★3 (either term, 0-3s-0).

MUSIC 606. *Seminar in Baroque Music.* ★3 (either term, 0-3s-0).

MUSIC 607. *Seminar in Classical Music.* ★3 (either term, 0-3s-0).

MUSIC 608. *Seminar in Twentieth-Century Music.* ★3 (either term, 0-3s-0).

MUSIC 612. *Collegium Musicum.* ★3 (0-2L-0).

MUSIC 615. *Seminar in Music History and Literature I.* ★3 (First Term, 0-3s-0).

MUSIC 616. *Seminar in Music History and Literature II.* ★3 (Second Term, 0-3s-0). Prerequisite: MUSIC 615.

MUSIC 623. *First Practical Subject. Orchestral Instruments.* ★6 (2-0-3).

MUSIC 625. *First Practical Subject. Keyboard or Voice.* ★6 (2-0-0).

MUSIC 628. *Art Song Interpretation.* ★3 (0-2L-0). Note: A single-term course offered over the full session. Prerequisite: MUSIC 525, and 528, or equivalent, and consent of the Department.

MUSIC 629. *Ensemble.* ★3 (0-2L-0). A single-term course offered over the full session. Prerequisite: MUSIC 525, or 565, and 528, or equivalent, and consent of the Department.

MUSIC 650. *Analysis of Twentieth Century Music.* ★6 (3-0-0).

MUSIC 655. *Dramatic Coaching in Opera.* ★3 (0-3L-0). Note: A single-term course offered over the full session.

MUSIC 660. *Composition.* ★6 (3-0-0).

MUSIC 673. *Special Projects in String Performance.* ★6 (2-0-3). Note: Restricted to Doctor of Music students.

MUSIC 675. *Special Projects in Keyboard Music.* ★6 (2-0-0). Note: Restricted to Doctor of Music students.

MUSIC 679. *Special Projects in Chamber Music.* ★3 (0-2L-0). Note: A single-term course offered over the full session. Restricted to Doctor of Music students.

MUSIC 683. *Seminar in Keyboard Literature I.* ★3 (First Term, 0-3s-0). Note: Restricted to Doctor of Music students.

MUSIC 684. *Seminar in Keyboard Literature II.* ★3 (Second Term, 0-3s-0). Note: Restricted to Doctor of Music students.

MUSIC 687. *Seminar in Literature of Stringed Instruments I.* ★3 (First Term, 0-3s-0). Note: Restricted to Doctor of Music students.

MUSIC 688. *Seminar in Literature of Stringed Instruments II.* ★3 (Second Term, 0-3s-0). Note: Restricted to Doctor of Music students.

MUSIC 690. *Composition in Traditional Styles.* ★3 (either term, 0-3s-0). Note: Restricted to Doctor of Music students.

MUSIC 691. *Composition in Contemporary Styles.* ★3 (either term, 0-3s-0). Note: Restricted to Doctor of Music students.

MUSIC 692. *Seminar in Musical Analysis I.* ★3 (First Term, 0-3s-0). Note: Restricted to Doctor of Music students.

MUSIC 693. *Seminar in Musical Analysis II.* ★3 (Second Term, 0-3s-0). Note: Restricted to Doctor of Music students.

44.28 *Old and New Testament Literature*

St. Stephen's College

O NTL 352. *Old Testament Literature.* ★3 (First Term, 3-0-0). Background, authorship, sources, literary qualities and general teaching of the various books of the Old Testament, and the formation of the Old Testament. Note: Formerly part of O NTL 351.

O NTL 353. *New Testament Literature.* ★3 (Second Term, 3-0-0). Jewish and Greek environment of the New Testament; the authorship and content of its various books, and the process of New Testament formation. Note: Formerly part of O NTL 351.

44.29 *Philosophy*

For courses offered by St. Joseph's College, see § 44.29.4.

44.29.1 JUNIOR COURSES

PHIL 221. *Practical Logic.* ★3 (either term, 3-0-0). Elementary methods and principles for distinguishing correct from incorrect reasoning. Topics may include informal fallacies, introduction to scientific method, elementary formal logic, rational decision procedures, and analysis of arguments.

PHIL 230. *Problems of Philosophy.* ★3 (either term, 3-0-0). Some of the central issues of philosophy. Topics such as freedom and determinism, the concept of a person, mind and body, the existence of God, the nature of goodness, justice and value, the nature of knowledge, belief and truth, the problems of scepticism and knowledge in regard to ourselves, other persons, and the external world.

PHIL 239. *Philosophical Analysis of Contemporary Issues.* ★3 (Second Term, 3-0-0). Philosophical analysis of contemporary problems of social concern. Topics such as minority and majority rights, cultural preservation, war and violence, censorship, medical ethics, abortion, sexual equality, our place in the natural environment.

PHIL 240. *Introduction to Western Philosophy.* ★6 (3-0-0). An introduction to the main problems and theories that have dominated philosophical thought in the Western world, through study and discussion of selected philosophical classics. Emphasis upon both a sound acquaintance with the main outlines of our philosophical tradition and the ability to handle philosophical ideas independently.

PHIL 250. *Introduction to Logic.* ★6 (3-0-0). The concepts and techniques of modern logic, with emphasis on sentential and predicate logic. Other topics include critiques of non-deductive techniques, non-formal elements in arguments, traditional analysis of arguments, and philosophical logic. Note: Philosophy 250 presupposes little familiarity with symbolic notation and techniques. Students who already have such familiarity from their work in other disciplines should take Philosophy 390/391 instead.

44.29.2 SENIOR COURSES

Note: Normally each course at the 300-level will be offered every year. Except where noted, there are no formal prerequisites for 300-level courses; however, students will find it valuable to have taken a previous philosophy course such as 230, 239, or 240.

PHIL 320. *Introduction to Indian and Chinese Philosophy.* ★3 (3-0-0). A survey of the main currents in eastern philosophic thought throughout history. Emphasis on philosophy originating in India, and concerning the nature of man, the n-

ture of the universe and the methods of and standards involved in man's knowledge of the world and himself.

PHIL 321. *Metaphysics.* ★3 (either term, 3-0-0). Basic questions concerning the nature of reality. Topics such as existence, materialism and idealism, freedom and determinism, appearance and reality, causality, identity, time and space, universals and particulars.

PHIL 322. *Epistemology.* ★3 (either term, 3-0-0). Questions about knowledge, with special attention given to the sources and justification of knowledge. Topics such as scepticism and certainty, truth, belief and justification, the external world, perception, thought and memory, *a priori* and empirical knowledge.

PHIL 323. *Philosophy of Mind.* ★3 (either term, 3-0-0). Approaches to the question of what it means to be a person and have a mind. The relationship of philosophical ideas to scientific investigations of mental phenomena will be studied. Specific topics include: the mind-body relationship, personal identity, memory, imagination, intention, desire, emotion and sensation.

PHIL 324. *Philosophy of Language.* ★3 (either term, 3-0-0). Contemporary views on the nature of language considering topics such as the learning of language, the relationship between language and the world, the process of communication, and the nature of meaning and of truth.

PHIL 326. *Recent Continental Philosophy I.* ★3 (either term, 3-0-0). One or more recent movements in continental philosophy. Philosophers such as Husserl, Heidegger, Sartre, and Merleau-Ponty, and movements such as existentialism, phenomenology, hermeneutics, structuralism, and Marxism.

PHIL 327. *Recent Continental Philosophy II.* ★3 (Second Term, 3-0-0). A more detailed study of movements introduced in PHIL 326 and/or an introduction to aspects of recent continental philosophy not covered in PHIL 326. Prerequisite: PHIL 326 or consent of Department.

PHIL 328. *Early Twentieth Century Analytic Philosophy.* ★3 (either term, 3-0-0). British and North American movements such as logical atomism and logical positivism, and philosophers such as Moore, Russell, Wittgenstein.

PHIL 329. *Recent Analytic Philosophy.* ★3 (either term, 3-0-0). British and North American philosophical movements: the later work of Wittgenstein; "ordinary language" philosophy; more recent philosophical developments.

PHIL 333. *Political Philosophy I.* ★3 (First Term, 3-0-0). Concentration on central figures in the history of political philosophy such as Aristotle, Hobbes, and Rousseau. Topics include the nature and justification of political obligation, freedom and authority, and the social contract. Note: Formerly part of PHIL 348.

PHIL 334. *Political Philosophy II.* ★3 (Second Term, 3-0-0). An examination of political philosophy from Rousseau's *Social Contract* to the present day. Other authors studied may include Mill, Hegel, Marx, and some contemporary theorists. Prerequisite: PHIL 333 or the consent of the Department. Note: Formerly part of PHIL 348.

PHIL 339. *Ethics I.* ★3 (First Term, 3-0-0). An examination of questions of right and wrong, good and evil, and reasons for action, through study of the ethical theories of authors such as Plato, Aristotle, Hobbes, Hume, and Kant. Some attention will be given to practical moral issues of contemporary interest. Note: Formerly part of PHIL 354.

PHIL 340. *Ethics II.* ★3 (Seconed Term, 3-0-0). J. S. Mill and utilitarianism, and recent criticisms of utilitarian ethics; the development of ethical relativism and scepticism; theories of freedom, moral responsibility, and punishment. Prerequisite: PHIL 339 or the consent of the Department. Note: Formerly part of PHIL 354.

PHIL 341. *Greek Philosophy.* ★3 (First Term, 3-0-0). The thought of the ancient Greek world. Emphasis on Plato and Aristotle; other Greek philosophers may be considered. Prerequisite: PHIL 230, or 240, or any 300-level course, or consent of the Department.

PHIL 343. *Medieval Philosophy.* ★3 (Second Term, 3-0-0). The major themes and thinkers of the medieval world. Prerequisite: PHIL 341, or consent of the Department.

PHIL 345. *Philosophy from Descartes to Kant.* ★3 (First Term, 3-0-0). The major movements from the beginnings of modern philosophy up to and including Kant; philosophers such as Descartes, Leibniz, Spinoza, Locke, Berkeley and Hume.

PHIL 347. *Philosophy from Kant to Russell.* ★3 (Second Term, 3-0-0). The major movements from Kant to the beginning of the twentieth century; in addition to Kant, philosophers such as Schopenhauer, Hegel, Kierkegaard, Marx, Nietzsche, Mill, and Russell. Prerequisite: PHIL 345 or consent of the Department.

PHIL 349. *Aesthetics: Philosophy of Art.* ★3 (either term, 3-0-0). An introduction to some of the traditional theories, for example, the expressionist and the formalist theories, which investigate the nature and function of the arts. The nature of aesthetic experience will also be considered.

PHIL 350. *Aesthetics: Philosophy of Criticism.* ★3 (either term, 3-0-0). An introduction to the philosophical foundations of art criticism. Questions concerning the standards of interpretation and of evaluation of the arts will be given special attention.

PHIL 351. *Aesthetics: The Arts and Society.* ★3 (either term, 3-0-0). An introduction to the philosophical questions and problems relating to the place and importance of art and the artists in society. Issues such as censorship of the arts and the political role of the arts will be considered.

PHIL 352. *Social Philosophy.* ★3 (either term, 3-0-0). A philosophical and synoptic study of the nature of society.

PHIL 353. *Philosophy of History.* ★3 (either term, 3-0-0). An introduction to various philosophical conceptions of history, including a critical examination of the assumptions and consequences of each interpretation.

PHIL 355. *Philosophy of the Environment.* ★3 (either term, 3-0-0). Designed to bring traditional and contemporary philosophical theories and methods to bear on issues raised by man's relationship to his environment. Certain major environmental problems, such as pollution, overpopulation, or resource exhaustion will be considered in regard to their ethical, aesthetic, or metaphysical ramifications.

PHIL 357. *Philosophy of Religion I.* ★3 (either term, 3-0-0). General topics in the Philosophy of Religion; selections from the following will be studied: The concept of 'religion', the relations between Philosophy and Religion, arguments for and against the existence of God, meaning and intelligibility in religious language, religion and morality, religion and 'the meaning of life', implications of the study of religion in the Social Sciences.

PHIL 358. *Philosophy of Religion II.* ★3 (Second Term, 3-0-0). A scrutiny of more particular concepts and problems in religion; such as 'God' (in particular religions), 'Incarnation', 'Miracle', 'Prayer','Life after Death', 'Religious Experience', 'Transcendence', 'Problem of Evil'. Prerequisite: PHIL 357 or consent of the Department.

PHIL 361. *Inductive Logic.* ★3 (either term, 3-0-0). An introduction to the procedures of inductive logic, together with an examination of its problems and limitations.

PHIL 364. *Introduction to Philosophy of Science I.* ★3 (either term, 3-0-0). This course is designed to survey the foundations of scientific knowledge, by explaining the methods and basic assumptions which have evolved in science over the centuries.

PHIL 365. *Philosophy of the Social Sciences.* ★3 (either term, 3-0-0). A critical examination of the theories of man and of society which underlie the various sciences of man; and an evaluation of the methods appropriate to such disciplines. Consideration will be given to movements such as positivism, ethnomethodology and critical theory, and to figures such as Habermas, Popper, and Winch.

PHIL 366. *Introduction to Philosophy of Science II.* ★3 (Second Term, 3-0-0). Topics that may be discussed include the nature of scientific theories and the nature of causation, laws and explanation. Note: Formerly part of PHIL 364, a full-session course. Prerequisite: PHIL 364 or consent of the Department.

PHIL 367. *Philosophical Methodology.* ★3 (either term, 3-0-0). A consideration of the various techniques employed by philosophers in working out philosophical problems. Both traditional and contemporary methods, such as those of rationalism, empiricism, idealism, pragmatism, and language analysis will be considered.

PHIL 370. *Philosophy and Literature.* ★6 (3-0-0). An examination of literature as a means of expression of philosophic concepts. This will involve a consideration of literature as philosophy — including an examination of literary expression as a type of philosophic methodology. Problems of philosophy, such as the notion of time, the question of personal

identity,the problem of intersubjectivity, types of aesthetic criteria, theories of ethical motivation, free will vs. determinism, etc., will be investigated in both literary and philosophic sources. Note: Not open to students with credit in PHIL 371.

PHIL 371. *Philosophy and Literature.* ★3 (either term, 3-0-0). An examination of literature as a means of expression of philosophic concepts. Note: Not open to students with credit in PHIL 370.

PHIL 383. *Philosophy of Law I.* ★3 (either term, 3-0-0). A philosophical study of the foundations of law; positivism, realism, natural law; legal rules and principles, legal rights, legal reasoning. Prerequisite: PHIL 240, or 230 and 239, or consent of the Department.

PHIL 384. *Philosophy of Law II.* ★3 (either term, 3-0-0). Philosophical analysis of legal dimensions of such concepts as justice, responsibility, liberty, punishment. Prerequisite: PHIL 240, or 230 and 239, or consent of the Department.

PHIL 385. *Ethical Theory and Business.* ★3 (either term, 3-0-0). A philosophical approach to questions of business ethics. Topics covered include economic justice; social and environmental responsibility of corporations; conflict of interest; conflicts between rights and profits.

PHIL 386. *Philosophy and Medicine.* ★3 (either term, 3-0-0). A philosophical examination of concepts and issues central to medical knowledge and practice. Emphasis on topics such as: rights and responsibilities of patients and medical personnel, passive and active euthanasia, abortion, medical research and experimentation, disclosure of diagnosis and risks, death and suffering.

PHIL 390. *Symbolic Logic I.* ★3 (First Term, 3-0-0). The concepts, techniques and applications of modern symbolic logic. Topics include syntax, semantics, natural deduction systems, axiomatic systems, independence, consistency, completeness. Emphasis is on the sentential calculus. Prerequisite: Experience in the operation of symbolic notation outside of logic, or some previous work in logic.

PHIL 391. *Symbolic Logic II.* ★3 (Second Term, 3-0-0). Topics as in Philosophy 390, but with emphasis on the predicate calculus with identity. Prerequisite: PHIL 390 or consent of the Department.

PHIL 410. *Philosophy of Language.* ★3 (either term, 3-0-0). Selected problems concerning the nature of language and meaning. Prerequisite: PHIL 324 or consent of the Department.

PHIL 412. *Analytic Philosophy.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

PHIL 414. *Topics in Philosophy of Science I.* ★3 (either term, 3-0-0). Prerequisite: PHIL 364 or consent of the Department.

PHIL 415. *Topics in Philosophy of Science II.* ★3 (either term, 3-0-0). Prerequisite: PHIL 364 or consent of the Department.

PHIL 416. *Wittgenstein.* ★3 (either term, 3-0-0). Prerequisite: PHIL 324, or 328, or 329, or consent of the Department.

PHIL 418. *Problems in Philosophy.* ★6 (3-0-0).

PHIL 422. *Honors Tutorial I.* ★3 (First Term, 3-0-0). Prerequisite: Open only to final year Honors students.

PHIL 423. *Honors Tutorial II.* ★3 (Second Term, 3-0-0). Prerequisite: Open only to final year Honors students.

PHIL 433. *Philosophy of Mathematics.* ★3 (either term, 3-0-0). Topics such as the nature of numbers, mathematical truth, proof and evidence, approaches to the foundations of mathematics, including Hilbert's program, intuitionism, and the logicist reduction of mathematics to logic.

PHIL 434. *Topics in the History of Logic.* ★3 (either term, 3-0-0). Prerequisite: PHIL 250 or 390 or consent of the Department.

PHIL 435. *Modal Logic.* ★3 (either term, 3-0-0). Standard modal systems in sentential and predicate logic including possible world semantics and completeness proofs. Tense logic and epistemic logic may be considered. Prerequisite: PHIL 250, or 390, or consent of the Department.

PHIL 437. *Many-Valued Logic.* ★3 (either term, 3-0-0). A formal presentation of many-valued logic with both infinitely and finitely many values, and their relation to non-standard sentential operators. Prerequisite: PHIL 250, or 390, or consent of the Department.

PHIL 438. *Philosophy of Space and Time I.* ★3 (either term, 3-0-0). Selected theories and problems concerning the nature of space and time with emphasis on time. Some background in philosophy, mathematics or physical sciences is desirable.

PHIL 439. *Philosophy of Space and Time II.* ★3 (either term, 3-0-0). Selected theories and problems concerning the nature of space and time, with emphasis on space. Some background in philosophy, mathematics or physical sciences is desirable.

PHIL 440. *Philosophical Foundations of Probability and Induction.* ★3 (either term, 3-0-0). Certain philosophical problems which lie at the heart of much of philosophy and science: causation, probability and inductive reasoning. Prerequisite: PHIL 250, or 361, or 390, or consent of the Department. Taking or auditing PHIL 361 is recommended.

PHIL 441. *Hume and Kant.* ★3 (either term, 3-0-0). Their contrasting positions on some central questions in epistemology, ethics, and metaphysics. Prerequisite: PHIL 345 or consent of the Department.

PHIL 442. *Nineteenth-Century Philosophy.* ★6 (3-0-0). Main philosophical movements in the nineteenth century; the post-Hegelian reaction against metaphysical idealism in Germany; British idealism, and American pragmatism. Philosophers discussed include Schopenhauer, Nietzsche, Bradley, and Peirce. Prerequisite: PHIL 347 or consent of the Department. Note: Not open to students with credit in PHIL 444.

PHIL 443. *Pragmatism.* ★3 (either term, 3-0-0). The pragmatist approach to philosophical questions, including philosophers such as James, Peirce, Mead, and Dewey. Prerequisite: PHIL 347, or 367, or consent of the Department.

PHIL 444. *Nineteenth-Century Philosophy.* ★3 (either term, 3-0-0). Main philosophical movements in the nineteenth century. Prerequisite: PHIL 347 or consent of the Department. Note: Not open to students with credit in PHIL 442.

PHIL 445. *Rationalism.* ★3 (either term, 3-0-0). An examination of the rationalist tradition in Western philosophy, with emphasis on Descartes, Spinoza, and Leibniz. Prerequisite: PHIL 345 or consent of the Department.

PHIL 447. *Phenomenology.* ★3 (either term, 3-0-0). An examination of the problems which led to the development of the phenomenological method, and a consideration of the method itself. Prerequisite: PHIL 326 or consent of the Department.

PHIL 448. *Philosophy of Logic.* ★3 (either term, 3-0-0). Philosophical problems arising from logic and its application to linguistic analysis. Topics may include truth, qualification, logical form and the analytic-synthetic distinction; philosophers will include Frege, Quine, and Russell. Prerequisite: PHIL 250, or 390, or consent of the Department.

PHIL 449. *Topics in Logic.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

PHIL 450. *Advanced Aesthetics.* ★3 (either term, 3-0-0). Topics concerning art, art criticism, and natural beauty. Prerequisite: PHIL 349, or 350, or 351, or consent of the Department.

PHIL 453. *Topics in Ancient Philosophy.* ★3 (either term, 3-0-0). Prerequisite: PHIL 341 or consent of the Department.

PHIL 454. *Advanced Ethics I.* ★3 (either term, 3-0-0). Central questions in ethical theory, such as the objectivity of moral beliefs and the nature of moral arguments; writings from the history of ethics or from recent authors. Prerequisite: PHIL 348, or 354, or consent of the Department.

PHIL 455. *Advanced Ethics II.* ★3 (either term, 3-0-0). A consideration of special problems in moral philosophy. Prerequisite: PHIL 348, or 354, or consent of the Department.

PHIL 456. *Advanced Social and Political Philosophy I.* ★3 (either term, 3-0-0). Basic concepts used in social and political discourse; methods and techniques of social and political science. Prerequisite: PHIL 348, or 352, or 354, or consent of the Department.

PHIL 457. *Philosophy of Religion.* ★3 (either term, 3-0-0). Central concepts of religion; God, prayer, salvation and religious symbolism; emphasis on the Western tradition, but some themes in Eastern religious thought may be considered. Prerequisite: PHIL 357 or consent of the Department.

PHIL 458. *Advanced Social and Political Philosophy II.* ★3 (either term, 3-0-0). Prerequisite: PHIL 348, or 352, or 354, or consent of the Department.

PHIL 459. *Plato.* ★3 (either term, 3-0-0). Prerequisite: PHIL 341 or consent of the Department.

PHIL 460. *Axiomatic Set Theory.* ★6 (3-0-0). An axiomatic development of Zermelo-Fraenkel set theory. Topics include basic set algebra, functions, orderings, mathematical induction and recursive definitions, the axiom of choice and Zorn's lemma, ordinal and cardinal arithmetic and, time permitting, models for set theory. Prerequisite: Consent of the Department. Note: Not open to students with credit in PHIL 462.

PHIL 461. *Aristotle.* ★3 (either term, 3-0-0). Prerequisite: PHIL 341 or consent of the Department.

PHIL 462. *Axiomatic Set Theory.* ★3 (either term, 3-0-0). An axiomatic development of Zermelo-Fraenkel (or other standard) set theory. Prerequisite: Consent of the Department. Note: Not open to students with credit in PHIL 460.

PHIL 463. *Theory of Action.* ★3 (either term, 3-0-0). An examination of causes, motives, and explanation in the description of human behaviour. Prerequisite: PHIL 323 or consent of the Department.

PHIL 464. *Topics in Existentialism I.* ★3 (either term, 3-0-0). Prerequisite: PHIL 326 or consent of the Department.

PHIL 465. *Theory of Knowledge.* ★3 (either term, 3-0-0). Recent conceptions of knowledge, and related questions concerning perception, memory, justification, and truth. Prerequisite: PHIL 322 or consent of the Department.

PHIL 466. *Topics in Existentialism II.* ★3 (either term, 3-0-0). Prerequisite: PHIL 326 or consent of the Department.

PHIL 467. *Empiricism.* ★3 (either term, 3-0-0). The empiricist approach to certain problems from epistemology, metaphysics, philosophy of science, ethics; philosophers from the Classical British empiricists and the twentieth century. Prerequisite: PHIL 322, or 345, or consent of the Department.

PHIL 468. *Philosophy of Mind.* ★3 (either term, 3-0-0). Topics include the problems characterizing mental phenomena, the relation of minds and bodies; knowledge of other minds, issues in the explanation of behavior, the relevance of cybernetics to the discussion of mental phenomena. Prerequisite: PHIL 323 or consent of the Department.

PHIL 469. *Topics in Metaphysics I.* ★3 (either term, 3-0-0). Prerequisite: PHIL321 or consent of the Department.

PHIL 470. *Philosophy and Literature.* ★3 (either term, 3-0-0). Prerequisite: PHIL 370 or consent of the Department.

PHIL 471. *Directed Reading I.* ★3 (either term, 3-0-0). Prerequisite: Open only to Honors and B.A. (Special) students.

PHIL 473. *Directed Reading II.* ★3 (either term, 3-0-0). Prerequisite: Open only to Honors and B.A. (Special) students.

PHIL 475. *Topics in Theory of Knowledge.* ★3 (either term, 3-0-0). Prerequisite: PHIL 322 or consent of the Department.

PHIL 478. *Topics in Philosophy of Mind.* ★3 (either term, 3-0-0). Prerequisite: PHIL 468. Note: Formerly part of PHIL 468.

PHIL 479. *Topics in Metaphysics II.* ★3 (either term, 3-0-0). Prerequisite: PHIL 321 or consent of the Department.

PHIL 481. *Topics in the History of Modern Philosophy.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

PHIL 483. *Topics in Philosophy of Law.* ★3 (either term, 3-0-0). Prerequisite: PHIL 383 or consent of the Department.

PHIL 490. *Advanced Symbolic Logic.* ★3 (either term, 3-0-0). Development of formal number theory as a first order theory. Godel's proof of incompleteness. Further topics to be determined by interests of the students. Prerequisite: PHIL 391 or consent of the Department.

44.29.3 HONORS AND GRADUATE COURSES

PHIL 496. *Seminar for Honors Philosophy Students in Third Year I.* ★3 (First Term, 0-3s-0).

PHIL 497. *Seminar for Honors Philosophy Students in Third Year II.* ★3 (Second Term, 0-3s-0).

PHIL 500. *Topics in Ancient and Medieval Philosophy I.* ★3 (First Term, 3-0-0).

INT D 500. *Nature of Man.* ★6 (3-0-0). (See § 44.22.)

PHIL 501. *Topics in Ancient and Medieval Philosophy II.* ★3 (Second Term, 3-0-0).

PHIL 502. *Plato.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

PHIL 503. *Topics in Greek Philosophy I.* ★3 (either term, 3-0-0).

PHIL 504. *Aristotle.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

PHIL 505. *Topics in Greek Philosophy II.* ★3 (either term, 3-0-0).

PHIL 506. *Topics in Medieval Philosophy I.* ★3 (either term, 3-0-0).

PHIL 507. *Topics in Medieval Philosophy II.* ★3 (either term, 3-0-0).

PHIL 508. *Descartes.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

PHIL 509. *Locke.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

PHIL 510. *Hegel.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

PHIL 511. *Topics in the History of Modern Philosophy I.* ★3 (either term, 3-0-0).

PHIL 512. *Marx and Marxism.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

PHIL 515. *Topics in the History of Modern Philosophy II.* ★3 (either term, 3-0-0).

PHIL 516. *Wittgenstein.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

PHIL 519. *Problems in Philosophy I.* ★3 (either term, 3-0-0).

PHIL 520. *Problems in Philosophy II.* ★3 (either term, 3-0-0).

PHIL 522. *Moral Philosophy.* ★3 (either term, 3-0-0).

PHIL 524. *Social and Political Philosophy I.* ★3 (either term, 3-0-0).

PHIL 525. *Social and Political Philosophy II.* ★3 (either term, 3-0-0).

PHIL 526. *Aesthetics I.* ★3 (either term, 3-0-0).

PHIL 527. *Aesthetics II.* ★3 (either term, 3-0-0).

PHIL 528. *Philosophy of History.* ★3 (either term, 3-0-0).

PHIL 531. *Existentialism.* ★3 (either term, 3-0-0).

PHIL 536. *Phenomenology I.* ★3 (either term, 3-0-0).

PHIL 537. *Phenomenology II.* ★3 (either term, 3-0-0).

PHIL 545. *Metaphysics I.* ★3 (either term, 3-0-0).

PHIL 548. *Conference Course.* ★6 (3-0-0).

PHIL 549. *Conference Course.* ★3 (either term, 3-0-0).

PHIL 552. *Honors Tutorial III.* ★3 (First Term, 3-0-0).

PHIL 553. *Honors Tutorial IV.* ★3 (Second Term, 3-0-0).

PHIL 554. *Theory of Value.* ★3 (either term, 3-0-0).

PHIL 556. *Kant.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

PHIL 557. *Philosophy of Religion I.* ★3 (either term, 3-0-0).

PHIL 558. *Philosophy of Religion II.* ★3 (either term, 3-0-0).

PHIL 559. *Topics in Philosophy of the Social Sciences.* ★3 (either term, 3-0-0).

PHIL 561. *Topics in Logic I.* ★3 (either term, 3-0-0).

PHIL 562. *Topics in Logic II.* ★3 (either term, 3-0-0).

PHIL 563. *Epistemology I.* ★3 (either term, 3-0-0).

PHIL 564. *Philosophy of Science I.* ★3 (either term, 3-0-0).

PHIL 565. *Metaphysics II.* ★3 (either term, 3-0-0).

PHIL 566. *Epistemology II.* ★3 (either term, 3-0-0).

PHIL 567. *Philosophy of Science II.* ★3 (either term, 3-0-0).

PHIL 568. *Philosophy of Mind I.* ★3 (either term, 3-0-0).

PHIL 569. *Philosophy of Mind II.* ★3 (either term, 3-0-0).

PHIL 570. *Philosophy of Language I.* ★3 (either term, 3-0-0).

INT D 570. *Seminar in Philosophy and Psychology I.* ★3 (First Term, 0-3s-0). (See § 44.22.)

INT D 571. *Seminar in Philosophy and Psychology II.* ★3 (Second Term, 0-3s-0). (See §44.22.)

PHIL 571. *Contemporary Topics I.* ★3 (either term, 3-0-0).

PHIL 572. *Philosophy of Language II.* ★3 (either term, 3-0-0).

PHIL 573. *Contemporary Topics II.* ★3 (either term, 3-0-0).

PHIL 575. *Contemporary Topics III.* ★3 (either term, 3-0-0).

PHIL 577. *Contemporary Topics IV.* ★3 (either term, 3-0-0).

PHIL 580. *Topics in Philosophy of Law.* ★3 (either term, 3-0-0).

PHIL 581. *Directed Reading I.* ★3 (either term, 3-0-0). Prerequisite: Open only to graduate students beyond the qualifying year.

PHIL 582. *Directed Reading II.* ★3 (either term, 3-0-0). Prerequisite: Open only to graduate students beyond the qualifying year.

PHIL 583. *Directed Reading III.* ★3 (either term, 3-0-0). Prerequisite: Open only to graduate students beyond the qualifying year.

PHIL 584. *Directed Reading IV.* ★3 (either term, 3-0-0). Prerequisite: Open only to graduate students beyond the qualifying year.

PHIL 676. *Reading Course I.* ★6 (3-0-0). Prerequisite: Open only to provisional candidates for the Ph.D.

PHIL 677. *Reading Course II.* ★6 (3-0-0). Prerequisite: Open only to provisional candidates for the Ph.D.

PHIL 678. *Reading Course III.* ★6 (3-0-0). Prerequisite: Open only to provisional candidates for the Ph.D.

44.29.4 PHILOSOPHY

(from within the Roman Catholic tradition)
St. Joseph's College

The following courses are offered by St. Joseph's College and are accepted for credit in programs offered in the Faculty of Arts.

PHIL 217. *An Introduction to Christian Philosophy.* ★3 (First Term, 3-0-0). A study of early Christian thinkers' use of Greek philosophy, especially St. Augustine's adaptation of Platonism and St. Thomas Aquinas' adaptation of Aristotle. Note: Not available for credit with PHIL 300 or 301.

PHIL 218. *Current Questions in Catholic Philosophy.* ★3 (Second Term, 3-0-0). A philosophical analysis from a Catholic point of view of some recent philosophical positions. The main problems to be looked into will concern God, soul, truth, and goodness.

PHIL 300. *Foundations of Christian Philosophy.* ★3 (First Term, 3-0-0). A study of Greek Philosophy and Hebrew Culture, with development of themes concerning man, human knowledge, nature and ethics in the general thrust of Christian Philosophy. Note: Not available for credit with PHIL 217.

PHIL 301. *Development of Christian Philosophy.* ★3 (Second Term, 3-0-0). A study of the thought of the medieval Christian thinkers, especially Augustine and Thomas Aquinas. Note: Not available for credit with PHIL 217.

PHIL 302. *Philosophy of Man.* ★3 (First Term, 3-0-0). A study of man: His organic existence, his knowledge, his intellectual and emotional love.

PHIL 303. *Man in Society.* ★3 (Second Term, 3-0-0). A study of the person in relationship with others: The notions of law, right, duty, community.

PHIL 304. *Philosophy of Being.* ★3 (Second Term, 3-0-0). The metaphysics of Thomas Aquinas; being, one, true, good, and beauty. Also modern developments and criticism of metaphysics.

PHIL 305 *Ethics in Christianity.* ★3 (First Term, 3-0-0). A philosophic analysis of the roots of contemporary ethics in the Christian tradition.

PHIL 401. *Augustine.* ★3 (Second Term, 3-0-0). A study of the Christian Platonism of St. Augustine. Prerequisite: PHIL 217, 300, or 341, or 459, or consent of the Department.

For Christian Theology courses offered by St. Joseph's College, see § 44.8. For other information see § 246.1.2 of the University Regulations and Information for Students calendar.

44.30 Polish

Department of Slavic Languages

44.30.1 JUNIOR COURSE

POLSH 100. *Beginners' Polish.* ★6 (3-0-2). Essentials of grammar, reading, and drill on useful expressions designed to give a working knowledge of the Polish language.

44.30.2 SENIOR COURSES

POLSH 303. *Second Year Polish I.* ★3 (First Term, 3-0-0). Intermediate grammar, composition, and oral practice based on selected texts of Polish classical and contemporary literature. Prerequisite: POLSH 100 or consent of the Department. Note: Formerly part of POLSH 300.

POLSH 304. *Second Year Polish II.* ★3 (Second Term, 3-0-0). This course is a continuation of POLSH 303, with greater emphasis on reading and composition. Prerequisite: POLSH 303. Note: Formerly part of POLSH 300.

POLSH 411. *Polish Literature to the End of the Nineteenth Century.* ★3 (First Term, 3-0-0). Reading and analysis of the major Polish writers against the political and cultural background of this period. Prerequisite: POLSH 304 or consent of the Department. Note: Formerly POLSH 360.

POLSH 412. *Twentieth-Century Polish Literature.* ★3 (Second Term, 3-0-0). Modern literary movements and writers, with emphasis on the twenties and thirties. Prerequisite: POLSH 411 or consent of the Department. Note: Formerly POLSH 400.

POLSH 421. *Selected Topics in Polish Folklore.* ★3 (either term, 3-0-0). An introduction to Polish folklore. A survey of the national tradition, with analysis of texts in the original. Prerequisites: A senior course in POLSH, and consent of the Department.

POL SH 499. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Students as well as staff may initiate proposals in any given year for the content of this course. Please consult the Department Chairman for the procedure for student-initiated proposals.

44.31 Political Science

44.31.1 JUNIOR COURSES

POL S 201. *Introduction to Government.* ★3 (either term, 3-0-0). An introduction to the institutions of Canadian and other democratic governments, considering constitutions, legislatures, executives, the public service, courts, federal and other divisions of government authority, and other selected topics. Note: Formerly part of POL S 200.

POL S 202. *Introduction to Politics.* ★3 (either term, 3-0-0). An introduction to the process of democratic politics considering power, or influence, democracy, civil liberties and rights, political ideology, public opinion, elections, political parties, interest groups and other selected topics. Note: Formerly part of POL S 200.

44.31.2 SENIOR COURSES

POL S 300. *Comparative Political Systems.* ★6 (3-0-0). Comparative analysis of selected major political systems of the present day, with emphasis on the relationships between political functions and social processes. Note: Designed primarily as an introductory course at the senior level.

INT D 300. *Introduction to the Study of Film.* ★6 (3-0-3). See § 44.22. Accepted as an option only.

INT D 301. *The Hollywood Film.* ★6 (3-0-3). See § 44.22. Accepted as an option only.

POL S 310. *History of Political Thought.* ★6 (3-0-0). A historical and critical survey of the development of political and social philosophy from ancient Greece to the present time, with selected readings from major political writers.

POL S 312. *Ethics and Politics.* ★3 (either term, 3-0-0). The relationship between contemporary ethical theory and normative political analysis.

POL S 316. *Mathematical Applications in Political Science.* ★3 (either term, 3-0-0). An introductory examination of current and potential uses of descriptive and inferential statistics in the study of politics. Prerequisite: Mathematics 30 or equivalent.

POL S 317. *Research Methods and Techniques for Political Analysis.* ★3 (either term, 3-0-0). An examination of basic research methods; techniques for data collection and analysis in political science. Prerequisite: POL S 316 or consent of the Department.

POL S 320. *Canadian National Government and Politics.* ★6 (3-0-0). The structure and function of the government of Canada, especially of the Commons, Senate, Cabinet System, Civil Service, and the role of political parties. Note: Not open to students who have taken POL S 321.

POL S 321. *Canadian Government.* ★3 (either term, 3-0-0). The structure and function of the government of Canada, provincial governments, and local governments. Note: Designed primarily for students who want one senior course in political science. Not open to students who are taking or have taken POL S 200 or 320.

POL S 322. *Local Government and Administration.* ★3 (either term, 3-0-0). The structure and functions of local government in Canada with primary emphasis on the Province of Alberta. Note: Designed primarily for students who want one senior course in political science. Not open to students who are taking or have taken POL S 323.

POL S 323. *Local Government and Politics.* ★3 (either term, 3-0-0). The political process as structured by formal governmental institutions, focusing on local government in Canada. Not open to students who are taking or have taken POL S 322.

POL S 324. *Comparative Urban Political Systems.* ★3 (either term, 3-0-0). A comparative survey of the political processes and structural arrangements of several larger metropolitan regions, with emphasis upon those common conditions and problems which require significant policy decisions.

POL S 325. *Topics in City Politics.* ★3 (either term, 3-0-0). A detailed examination of specific municipal policies. Topics will vary annually. Prerequisite: POL S 322, or 323, or 324.

POL S 326. *Canadian Foreign Policy.* ★6 (3-0-0). Major trends and development in Canadian foreign policy since 1919 with primary emphasis on the period since 1945. Note: No formal prerequisite, but a course or the equivalent, in twentieth century Canadian history would be desirable.

POL S 328. *Elements of Public Administration.* ★3 (either term, 3-0-0). Topics include government organization, budgets, policy-making, and democratic control and accountability. The focus is on Canada, but other countries are also considered.

POL S 331. *Government of the United States.* ★3 (either term, 3-0-0). A study of the development and functioning of American political institutions; congressional government, parties and pressure groups. Note: Formerly a full-session course.

POL S 341. *Soviet Government.* ★3 (either term, 3-0-0). An introduction to political institutions of the USSR, with emphasis on the communist party structure, state apparatus, with aspects of ideology and state theory. Note: Formerly part of POL S 340.

POL S 342. *Problems in Soviet Government.* ★3 (Second Term, 3-0-0). The examination of recurring problems in Soviet Government. Note: Formerly part of POL S 340.

POL S 343. *Soviet Foreign Policy.* ★3 (either term, 3-0-0). Introduction to the foreign policy of the USSR from 1917, but with emphasis on current issues. Note: Formerly part of POL S 446.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). (See § 44.22.)

POL S 361. *International Relations I.* ★3 (either term, 3-0-0). Factors determining the behavior of states and other actors in the international system. Note: Formerly part of POL S 360.

POL S 362. *International Relations II.* ★3 (either term, 3-0-0). Patterns of relationships between states: war, crises, integration, economic blocs and related topics. Prerequisite: POL S 361 or consent of the Department. Note: Formerly part of POL S 360.

POL S 363. *Issues in International Politics.* ★3 (either term, 3-0-0). Contemporary issues of conflict and cooperation. Note: Designed primarily for students who want one senior course in political science. Not open to students who are taking or have taken POL S 361 or 362.

POL S 372. *Government and Politics of China.* ★3 (either term, 3-0-0). Formerly POL S 472. An introduction to political institutions, political events, and processes in contemporary China.

POL S 373. *Politics in the Middle East.* ★3 (either term, 3-0-0). Formerly POL S 473. Social behavior and attitudes, governmental processes including forms of government, political parties, pressure groups and elections, the role of the civil and military bureaucracy and the political and religious elites and their impact upon national policy formulation are considered. Focus of attention will be upon Turkey, Israel, Iran and Afghanistan.

POL S 374. *Asian Politics: India to Indonesia.* ★3 (either term, 3-0-0). Formerly POL S 474 Social behavior and attitudes, governmental, political parties, pressure groups and elections, the role of civil and military bureaucracy and the political and religious elites and their impact upon national policy formulation. Focus of attention will be upon India, Pakistan, Malaysia and Indonesia.

POL S 376. *Problems of Political Development.* ★3 (either term, 3-0-0). The examination of the common problems of developing nations; political integration, the establishment and maintenance of political order, the role of the military, and the institutionalization of political change.

POL S 380. *Comparative Politics.* ★3 (either term, 3-0-0). An introduction to topics and issues in comparative politics. Note: Formerly POL S 374.

POL S 381. *The Politics of Sub-Saharan Africa.* ★3 (either term, 3-0-0). Formerly POL S 480. Domestic and external pressures on political systems in Sub-Saharan Africa.

POL S 384. *Government of the United Kingdom.* ★3 (either term, 3-0-0). Its structure and functions, especially the monarchy, the cabinet system, parliament, the civil service, and parties.

POL S 386. *Contemporary Western European Politics.* ★3 (either term, 3-0-0). An examination of similarities and differences in the political and governmental processes of contemporary Western Europe. Note: Formerly part of POL S 383.

POL S 390. *Introduction to Political Behavior.* ★3 (either term, 3-0-0). An introduction to political behavior as exhibited in both the public and private political world of the individual. Note: Formerly a full-session course.

POL S 391. *Political Parties of Canada and Other Western Democracies.* ★3 (either term, 3-0-0). A study of the political parties of Canada in comparison with those of other western democracies. Topics include party systems, ideologies and programs, members and supporters, organization and resources, and electoral and governmental activities. Note: Formerly part of POL S 398.

POL S 392. *Interest Groups of Canada and Other Western Democracies.* ★3 (either term, 3-0-0). A study of political interest groups of Canada in comparision with those of other western democracies. Topics include group ideologies and interests, members, organization and resources, and non-governmental and governmental activities. Note: Formerly part of POL S 398.

INT D 393. *Political Sociology.* ★3 (either term, 3-0-0). (See § 44.22.)

POL S 394. *Socialization to Politics.* ★3 (either term, 3-0-0). A survey of major theories and research findings regarding the learning of 'civic' attitudes, and other aspects of political cultures, and their impact on subsequent political behavior.

POL S 395. *Political Attitudes and Ideologies.* ★3 (either term, 3-0-0). A study of political attitudes and ideologies, and of their impact on the individual citizen's involvement in politics.

POL S 396. *Electoral Behavior.* ★3 (either term, 3-0-0). Analysis of the voting behavior of individuals and social groupings. Content will be cross-national in scope and will deal largely with sociological and social-psychological influences on voting.

POL S 397. *Representation and Electoral Systems.* ★3 (either term, 3-0-0). An examination of the institutional framework within which the electoral process operates under representative government, with emphasis on voting as a mechanism of social choice.

NOTE: THE CONSENT OF THE DEPARTMENT IS REQUIRED FOR ALL 400-LEVEL COURSES.

INT D 401. *Film Theory and Criticism.* ★3 (either term, 3-0-0). (See § 44.22.) Accepted as an option only.

POL S 410. *Topics in Contemporary Political Philosophy I.* ★3 (either term, 3-0-0). A critical examination of contemporary trends in political philosophy.

POL S 411. *Topics in Contemporary Political Philosophy II.* ★3 (either term, 3-0-0). A critical examination of contemporary trends in political philosophy.

POL S 412. *Theories of Political Modernization.* ★3 (either term, 3-0-0). A comparative study of some contemporary theories of political modernization. The course will involve the analysis of various comparative and historical models and approaches, with the intent of developing a critical awareness of the theoretical problems involved in the comparative study of political change.

POL S 414. *Theories of Politics and Society.* ★3 (either term, 3-0-0). Various topics in political and social theory will be considered, centering on special approaches and perspectives in political philosophy.

POL S 415. *Analysis of Political Science.* ★3 (either term, 3-0-0). A philosophical investigation of the basic issues involved in the scientific study of politics. Note: Formerly part of POL S 315.

POL S 416. *Analysis of Political Ethics.* ★3 (either term, 3-0-0). A philosophical investigation of the perennial issues and forms of argument in political ethics. Note: Formerly part of POL S 315.

POL S 417. *Revolution and Political Change.* ★3 (either term, 3-0-0). An examination of some major revolutions of history as well as of political instability of the present. An analysis of social, economic, political, and other factors underlying and accompanying violent political change. Prerequisite: Consent of the Department.

POL S 418. *Twentieth Century Political Thought.* ★3 (either term, 3-0-0). A critical survey of major currents of political and social philosophy in the world today.

POL S 420. *Canadian National Government.* ★3 (either term, 3-0-0).

POL S 421. *Selected problems in Canadian Government.* ★3 (either term, 3-0-0). A discussion of such problems as parliamentary reforms, executive-legislative-judicial relations, etc.

POL S 422. *Canadian Public Policy.* ★3 (either term, 3-0-0). Analysis of Canadian public policy including policy formation and implementation. Attention will be given to specific policy areas such as health and welfare, the economy, agriculture, and communication.

POL S 423. *Canadian Federalism.* ★3 (either term, 3-0-0). The analysis of the development and theories of Canadian Feder-

alism. Attention will be given to current problems of the federal system.

POL S 424. *Canadian Political Behavior.* ★3 (either term, 3-0-0). A behavorial approach to the study of legislative, party, and voting activities.

POL S 425. *Canadian Public Administration.* ★3 (either term, 3-0-0). The theory of public administration and its present day application in the government; federal-provincial relations, planning and finance, human relations, and personnel administration in the Canadian Government. The purpose of the course is to provide a broad overview of the administrative organization and its working in contemporary Canada.

POL S 426. *Civil Service in Canada.* ★3 (either term, 3-0-0). The history, growth, and modernization of the Civil Service Commission of Canada. The organization of government departments and the role and position, the powers and responsibilities, the political rights of Canadian civil servants and the pressures and controls exercised upon them, as well as the role of the ombudsman are also considered.

POL S 427. *Selected Problems in Western Canadian Politics.* ★3 (either term, 3-0-0). A discussion of such problems as the special relationships amongst the three Prairie Provinces, the influence of agricultural interest groups and the reasons for the success of third parties in the four Western Provinces.

POL S 428. *Provincial Government and Politics.* ★3 (either term, 3-0-0). A study of structures, functions and processes of selected provincial governments in Canada. Prerequisite: POL S 320, or 321, or consent of the Department.

POL S 429. *Government and Politics of Alberta.* ★3 (either term, 3-0-0). The study of selected aspects of Alberta government and politics. Topics may range from political institutions, through political parties, to areas of public policy. Prerequisite: POL S 320, or 321, or consent of the Department.

POL S 430. *Public Policy in the Modern State.* ★3 (either term, 3-0-0). An examination of public policy with emphasis on how policy is shaped by the interplay of ideology, political power, and the social and economic development.

POL S 431. *Administrative Behavior.* ★3 (either term, 3-0-0). A study of decision-making, integration and conflict resolution within government and bureaucratic organizations, and of the responsiveness and effectiveness of these organizations, with specific reference to Canada.

POL S 434. *Urban Policy Analysis.* ★3 (either term, 3-0-0). A study of policy formation in selected Canadian and foreign cities. A series of independent variables (socio-economic status, governmental structure, tax base, political culture, party structure) will be examined in order to ascertain their effect on policy outcomes relating to both necessities and amenities in urban areas.

POL S 435. *Problems in Metropolitan Government.* ★3 (either term, 3-0-0). The comparative study of the functional, fiscal, structural and political aspects of metropolitan government.

POL S 442. *Problems in Soviet Government.* ★3 (either term, 3-0-0). Major problems of government and politics in the USSR, primarily domestic. Note: Formerly POL S 342.

POL S 451. *Philosophy and Theory of Law.* ★3 (either term, 3-0-0). The concept of law and its purpose; the role of morality in its development; the function and purpose of law; the nature and role of various legal concepts. Note: Formerly part of POL S 467.

POL S 452. *Selected Topics in Jurisprudential and Governmental Theory.* ★3 (either term, 3-0-0). The discussion of such topics as the concept of sovereignty; the Canadian court system; the differences between civil and criminal law; the differences between colonies and dominions; the status of the Commonwealth and other related matters. Note: Formerly part of POL S 467.

POL S 455. *Strategy and Canadian Defence Policy.* ★3 (either term, 3-0-0). Military strategy viewed from the narrower perspective of Canadian defence policy.

POL S 456. *International Conflict Resolution.* ★3 (either term, 3-0-0). The impact of psychological, national, and systemic variables on international conflict, and conflict-resolution processes.

POL S 457. *Foreign Policy Analysis.* ★3 (either term, 3-0-0). Analysis of those main variables contributing to the formation of the foreign policies of selected nations.

POL S 458. *Foreign Policy.* ★3 (either term, 3-0-0). The foreign policies and strategies of the "major" powers of the world.

POL S 460. *Nationalism, Socialism, and Imperialism.* ★3 (either term, 3-0-0). Relations between rich and poor nations. Impact of nationalism and the break-up of colonial empires; political and economic inequalities; revolutionary and conservative strategies; third-world policies of major powers.

POL S 461. *Selected Problems in International Politics.* ★3 (either term, 3-0-0). The study of selected contemporary problems and / or methods in international relations. Note: Formerly POL S 462.

POL S 464. *Selected Problems in Canadian Foreign Policy.* ★3 (either term, 3-0-0). A discussion of some of the major crises and problems in Canadian foreign policy since 1945 within the context of three or four analytical frameworks.

POL S 465. *International Relations and World Law.* ★6 (3-0-0). The nature of international law; the function of international law in society; the universal character of international law; the state and other international persons; sovereignty and equality; recognition of governments and states; civil war and intervention; war and neutrality; international institutions; world government.

INT D 468. *Principles of International Humanitarian Law.* ★3 (either term, 3-0-0). (See § 44.22.)

POL S 468. *International Organizations.* ★3 (either term, 3-0-0). The historical development, structure, and functions of international organizations. The United Nations will not be considered.

POL S 469. *United Nations.* ★3 (either term, 3-0-0). The history, constitutional structure, and problems, and the effectiveness of social, economic, and political policies of the United Nations.

POL S 471. *Comparative Communist Systems: Soviet and East European.* ★3 (either term, 3-0-0). An analysis and comparison of political culture, social structure, and political institutions in the political processes of the Soviet Union and East European countries.

POL S 475. *Politics of Contemporary Soviet Ukraine.* ★3 (either term, 3-0-0). Post-revolutionary politics and ideologies, with special attention to administrative, institutional and constitutional changes, the nationalities problems and intellectual dissent.

POL S 478. *Problems of Latin American Politics.* ★3 (either term, 3-0-0). An analysis of selected political problems of Latin America; the military; church and state; the Cuban revolution.

INT D 478. *The Multinational Corporation and Public Policy.* ★3 (First Term, 3-0-0). (See § 44.22.) Accepted as an option only.

POL S 479. *The Politics of Latin America.* ★3 (either term, 3-0-0). Comparative analysis of major political systems of Latin America.

INT D 479. *The Multinational Corporation and Public Policy: Case Studies.* ★3 (Second Term, 3-0-0). (See § 44.22.) Accepted as an option only.

POL S 483. *Political Systems, Civil Liberties, and Human Rights.* ★3 (either term, 3-0-0). An analytical and comparative study of the nature, role, and protection of civil liberties and human rights in selected political systems.

POL S 485. *The Development of Western European Politics and Government.* ★3 (either term, 3-0-0). Formerly POL S 385. Patterns in the development of political processes and governmental institutions in Western Europe. Note: Formerly part of POL S 383.

POL S 490. *Selected Topics in Political Behavior.* ★3 (either term, 3-0-0). Detailed examination of special topics of current or historical importance in the field. Topics will vary according to interests. Prerequisite: Consent of the Department.

POL S 492. *Psychology of Politics.* ★3 (either term, 3-0-0). A psycho-political consideration of questions dealing with aggressive political behavior, establishment and erosion of legitimacy, the notions of hierarchy, status, and politics, and questions concerning political socialization and crisis decision-making. Note: Formerly a full-session course.

POL S 493. *Politics and the Film.* ★3 (either term, 3-0-0). The study of the motion picture both as propaganda and as political document. Prerequisite: INT D 300 is strongly recommended as prerequisite or corequisite.

POL S 499. *Honors Essay: Fourth-Year Honors Political Science.* ★6 (3-0-0). Preparation of the Honors essay, required in the fourth year of the Honors program.

44.31.3 HONORS AND GRADUATE COURSES

NOTE: The consent of the Department is required for all 500- and 600-level courses.

POL S 500. *Conference Course.* ★6 (0-3s-0).

POL S 501. *Comparative Institutions and Processes.* ★3 (either term, 0-3s-0).

POL S 502. *Logic of Political Inquiry.* ★3 (either term, 0-3s-0).

POL S 503. *Principles of Research Design and Analysis.* ★3 (either term, 0-3s-0).

POL S 506. *Empirical Political Theory.* ★3 (either term, 3-0-0).

POL S 510. *Advanced Study of Political Thought.* ★6 (3-0-0).

POL S 511. *Topics in Normative Analysis.* ★3 (either term, 3-0-0).

POL S 512. *Modern Social Theory.* ★3 (either term, 3-0-0). Topics will center on problems of contemporary mass culture. Will consider comparatively the approaches and methods of a number of twentieth century social theorists (including Erikson, Weber, Mills, Merleau-Ponty) with the objective of finding traces of normative political theory in the modern era.

POL S 515. *Statistics for Political Scientists.* ★4 (either term, 2-0-2).

POL S 516. *Problems in Marxist Political Theory.* ★3 (either term, 3-0-0).

POL S 521. *Canadian Government and Politics.* ★3 (either term, 3-0-0).

POL S 522. *Canadian Federalism.* ★3 (either term, 3-0-0).

POL S 523. *Canadian Political Parties.* ★3 (either term, 0-3s-0).

POL S 524. *Canadian Political Culture.* ★3 (either term, 3-0-0).

POL S 525. *Urban Analysis.* ★3 (either term 3-0-0).

POL S 526. *Selected Topics in Urban Politics.* ★3 (either term, 3-0-0).

POL S 527. *Canadian Public Policy.* ★3 (either term, 3-0-0).

POL S 528. *The Politics of Public Administration.* ★3 (either term, 3-0-0). Prerequisite: POL S 425 or consent of the Department.

INT D 540. *Seminar on Comparative, Legal, Constitutional and Federal Studies.* ★6 (0-3s-0). (See § 44.22)

POL S 545. *Topics in Communism.* ★3 (either term, 0-3s-0). A seminar on select problems of the Communist bloc and the world Communist movement.

POL S 546. *Seminar in Soviet Government.* ★3 (either term, 0-3s-0). Advanced study of several areas of Soviet domestic politics.

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). (See § 44.22.)

POL S 550. *Comparative Politics: Theory and Analysis.* ★3 (either term, 0-3s-0).

POL S 551. *Comparative Politics: Selected Topics.* ★3 (either term, 3-0-0).

POL S 553. *Comparative Political Activism.* ★3 (either term, 3-0-0).

POL S 554. *Comparative Party and Group Politics.* ★3 (either term, 3-0-0).

POL S 555. *Territorial Organization in Nation States.* ★3 (either term. 0-3s-0).

POL S 560. *International Politics I.* ★3 (First Term, 3-0-0).

POL S 561. *International Politics II.* ★3 (Second Term, 0-3s-0).

POL S 562. *Canadian Foreign Policy.* ★3 (either term, 3-0-0).

POL S 564. *Conflict Resolution and Strategic Studies.* ★3 (either term, 3-0-0).

POL S 570. *Political Development: Theory.* ★3 (either term, 3-0-0).

POL S 571. *Political Development: Selected Topics.* ★3 (either term, 3-0-0).

POL S 578. *Asian Systems.* ★3 (either term, 3-0-0).

POL S 580. *Western European Systems.* ★3 (either term, 0-3s-0).

POL S 581. *Anglo-American Systems.* ★3 (either term, 3-0-0).

POL S 592. *Political Psychology.* ★3 (either term, 3-0-0).

POL S 593. *Political Behavior.* ★3 (either term, 3-0-0). Government and politics from a sociological and psychological point of view, including parties and pressure groups, public opinion, voting in elections, and voting in legislatures. Formerly a full-session course.

POL S 594. *The Comparative Study of Political Mass Movement.* ★3 (either term, 0-3s-0).

POL S 599. *Research Seminar for Non-Thesis M.A. Candidates.* ★6 (0-3s-0). Required of all non-thesis M.A. candidates in the year in which they expect to obtain their degree and involving the preparation and presentation of a major research paper.

POL S 607. *Comparative Federal Systems.* ★3 (either term, 3-0-0).

POL S 608. *Advanced Study in Comparative Politics.* ★3 (either term, 3-0-0).

POL S 609. *Readings in Comparative Politics.* ★3 (either term, 0-3s-0).

POL S 611. *Seminar in Contemporary Political Philosophy.* ★3 (either term, 0-3s-0).

POL S 612. *Topics in Classical Political Philosophy.* ★3 (either term, 3-0-0). Will examine some fundamental characteristics of seventeenth century Rationalist political thought, concentrating on Descartes, Hobbes, Spinoza, and perhaps Locke. Matters of political obligation and political knowledge will be explored in terms of the great themes of science and epistemology which were being developed at that time with the objective of gaining critical analysis of the impact of this area on current political science and philosophy.

POL S 614. *Topics in the Logic of Political Inquiry.* ★3 (either term, 3-0-0). Intensive examination of selected topics in the logic of political inquiry. Topic to change from year to year. Typical topics: the relationship between concept formation and theory construction in political science; the explanation and prediction of political phenomena; reductionism. Prerequisite: POL S 502.

POL S 619. *Readings in Political Philosophy.* ★3 (either term, 3-0-0).

POL S 620. *Topics in Canadian Government and Politics.* ★3 (either term, 3-0-0).

POL S 625. *Readings in Urban Analysis.* ★3 (either term, 0-3s-0).

POL S 626. *Administrative Practices.* ★3 (either term, 3-0-0).

POL S 629. *Readings in Canadian Government and Politics.* ★3 (either term, 0-3s-0).

POL S 660. *International Politics.* ★3 (either term, 3-0-0).

POL S 663. *Problems of International Organization.* ★3 (either term, 3-0-0).

POL S 668. *Readings in International Studies.* ★3 (either term, 3-0-0).

POL S 690. *Research Practicum in Political Behavior and Psychology.* ★3 (either term, 3-0-0). Prerequisite or corequisite: POL S 592 or 593.

POL S 695. *Advanced Topics in Political Behavior and Psychology.* ★3 (either term, 3-0-0). Prerequisite or corequisite: POL S 592 or 593.

POL S 699. *Readings in Political Behavior and Psychology.* ★3 (either term, 3-0-0).

44.32 Psychology

44.32.1 JUNIOR COURSE

NOTE: Psychology 260, a prerequisite for most courses in the Department, is to be found in the Science section of this calendar.

Students with credit in Psychology 202, 212, or Educational Psychology 269/271, may not take Psychology 260/261 for degree credit.

PSYCO 261. *Individual and Social Behavior.* ★3 (either term, 3-0-0). Introduction to the study of human individuality, personality, and social psychological processes. Some aspects of normal and abnormal human development, psychological assessment and treatment may be included. Prerequisite: PSYCO 260.

44.32.2 SENIOR COURSES

Psychology 202 or Psychology 260 and any one of 237, 241, 283 is the equivalent of 260/261.

PSYCO 306. *Honors Seminar.* ★3 (First Term, 0-3s-0). Prerequisite: Consent of the Department. Note: Required of all second-year students enrolled in Honors Psychology. Note: Formerly part of PSYCO 301.

PSYCO 307. *Honors Seminar.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department. Note: Required of all second-year students enrolled in Honors Psychology. Note: Formerly part of PSYCO 301.

PSYCO 337. *Individual Differences.* ★3 (either term, 3-0-0). A survey of the biological and social conditions contributing to variations among individuals; methods for describing individuality. Prerequisites: PSYCO 260/261 or equivalent and 309.

PSYCO 341. *Social Psychology.* ★3 (either term, 3-0-0). An advanced course in social psychology. There may be an in-depth investigation of one or more of the following topics: socialization, attitudes, person perception, aggression, or group processes. Prerequisites: PSYCO 260/261 or equivalent. Note: PSYCO 341 and SOC 341 may not both be taken for credit.

PSYCO 353. *Developmental Psychology.* ★3 (either term, 3-0-0). Behavior as it is related to normal development and aging. Prerequisites: PSYCO 260/261 or equivalent.

PSYCO 358. *Cognitive Psychology.* ★3 (First Term, 3-0-0). Surveys theoretical and empirical approaches toward issues in human cognition. Topics include: nature of mental representation; influence of knowledge on perception, comprehension, and memory; information processing; psycholinguistics; artificial intelligence. Prerequisite: PSYCO 260. Note: Formerly part of PSYCH 465 (in Science Calendar).

PSYCO 383. *Personality.* ★3 (either term, 3-0-0). An introductory survey including representative theoretical points of view and research relevant to the major problems of the study of personality. Prerequisites: PSYCO 260/261 or equivalent.

PSYCO 404. *Contemporary Psychology I.* ★3 (First Term, 3-0-0). A study of theories and trends in present day psychology. Prerequisite: Consent of the Department.

PSYCO 405. *Contemporary Psychology II.* ★3 (Second Term, 3-0-0). Further study of prominent theories and thoughts in present day psychology. Prerequisite: Consent of the Department.

PSYCO 406. *Honors Seminar.* ★3 (First Term, 0-3s-2). Prerequisite: Consent of the Department. Note: Required of all third-year students enrolled in Honors Psychology. Note: Formerly part of PSYCO 401.

PSYCO 407. *Honors Seminar.* ★3 (Second Term, 0-3s-2). Prerequisite: Consent of the Department. Note: Required of all third-year students enrolled in Honors Psychology. Note: Formerly part of PSYCO 401.

PSYCO 420. *Principles of Psychology.* ★3 (either term, 3-0-0). Basic concepts and principles of psychology. Prerequisite: Third or fourth year, or graduate standing. Note: Carries no credit for students with credit in any of PSYCO 202, 212, 237, 241, 260, 261, or 283.

PSYCO 431. *Theory and Practice of Psychometrics.* ★3 (either term, 3-0-3). The nature of psychological tests; survey of the various types of standardized tests; some practical work in administration, scoring and interpretation of tests. Prerequisites: PSYCO 260/261 (or equivalent) and 309.

PSYCO 435. *Introduction to Clinical Psychology.* ★3 (Second Term, 3-0-0). History, theory and problems of the application of the psychological knowledge to practical situations. Prerequisite: PSYCO 489 or consent of the Department.

PSYCO 441. *Experimental Social Psychology.* ★3 (either term, 3-0-2). An intensive study of methods for investigating social behavior. The evaluation of published research, design of experiments, analysis and communication of results will be stressed. Opportunity for supervised research projects. Prerequisites: PSYCO 260/261 (or equivalent), 309, and one of PSYCO 360, 361, 362 (or 365) or 366.

PSYCO 444. *Decision Making.* ★3 (either term, 3-0-2). An overview of theory and research on human decision-making processes. Topics include: A history of decision-making research, recent models of judgment and choice, psychological aspects of decision-making in law and politics, errors of judgment and possibilities of their reduction. Prerequisites: PSYCO 260/261 and 309 (or equivalent).

PSYCO 445. *Foundations of Current Social Psychological Perspectives.* ★3 (either term, 3-0-0). Theories in social psychology are discussed with emphasis on principles of theory construction. Prerequisites: PSYCO 260, 261, and 341 or consent of the Department.

PSYCO 454. *Perceptual and Cognitive Development.* ★3 (either term, 3-0-0). The development of the ability to process information from the environment. Attention, memory, and concept formation in infants and young children. Prerequisite: PSYCO 353 or consent of the instructor. Note: Formerly PSYCO 354, not to be taken by students with credit in that course.

PSYCO 455. *Personality and Social Development.* ★3 (First Term, 3-0-0). A review of psychological theory and research on age trends and individual differences in personality and social development.

PSYCO 458. *Advanced Cognitive Psychology.* ★3 (Second Term, 3-0-0). Focus on discussing published research in a particular area of human cognition using theoretical and methodological evaluative criteria. Opportunity for supervised research. Prerequisite: PSYCO 309, and 385, or 362, and consent of the instructor. Note: Formerly part of PSYCO 465.

PSYCO 489. *Abnormal Psychology.* ★3 (either term, 3-0-0). A general introduction. Prerequisite: PSYCO 383.

PSYCO 491. *Psychology of Self-Estrangement.* ★3 (Second Term, 3-0-0). Basic description of self-deception and self-estrangement in psychoanalytic and existential-humanistic theories. Discussion of basic determinants of self-deception and, alternatively, self-awareness, as well as considerations of the methods of inquiry appropriate to the area. Prerequisite: PSYCO 383.

PSYCO 492. *Creativity.* ★3 (First Term, 3-0-0). A course directed at the understanding of the creative process on theoretical, empirical, and phenomenological levels. Prerequisite: PSYCO 261.

PSYCO 495. *Psychology of Aesthetics.* ★3 (Second Term, 3-0-0). An introduction to the psychological analysis of response to art. Consideration is both theoretical and empirical. Illustrative materials are drawn from several arts, including painting, sculpture and literature. The contribution of aesthetic behavior to personality development is considered. Prerequisites: PSYCO 260/261 (or equivalent).

PSYCO 498. *Individual Study I.* ★3 (First Term, 3-0-0). A course intended to allow the senior undergraduate student to pursue a topic of interest in more depth than the classroom structure permits. The pursual may take the form of either directed reading or laboratory experience. Prerequisite: Consent of the Department.

PSYCO 499. *Individual Study II.* ★3 (Second Term, 3-0-0). A course intended to allow the senior undergraduate student to pursue a topic of interest in more depth than the classroom structure permits. The pursual may take the form of either directed reading or laboratory experience. Prerequisite: Consent of the Department.

44.32.3 HONORS AND GRADUATE COURSES

INT D 500. *Nature of Man.* ★6 (3-0-0). (See § 44.22.)

PSYCO 534. *Principles of Psychological Assessment.* ★3 (Second Term, 3-0-0). Major concepts and instruments of clinical assessment. Relationship of assessment to other clinical activities; objective approaches to measuring personality and intelligence; projective techniques; behavioral assessment methods. Prerequisite: Consent of the Department.

PSYCO 535. *Clinical Assessment I.* ★6 (3-0-3). Tests of intellectual function from Binet to the present. Prerequisite: PSYCO 431 or consent of the Department.

PSYCO 536. *Clinical Assessment II.* ★6 (3-0-3). Theory of projective tests, with study of the Rorschach and the various drawing and thematic tests. Prerequisite: PSYCO 535 or consent of the Department.

PSYCO 537. *Clinical Method I.* ★6 (4-0-0). Conference course. Principles involved in the analysis of case material. Prerequisite or corequisite: PSYCO 536, 586, or consent of the Department.

PSYCO 539. *Clinical Method II.* ★6 (3-0-3). Conference course. Principles of analysis, reporting, and psychotherapy. Prerequisite or corequisite: PSYCO 537, 588, 590, or consent of the Department.

PSYCO 540. *Seminar in Social Psychology.* ★6 (0-3s-0).

PSYCO 541. *Advanced Social Psychology.* ★3 (First Term, 3-0-0).

PSYCO 542. *Research Methods in Social Psychology.* ★3 (Second Term, 3-0-0).

PSYCO 543. *Social and Personality Development.* ★3 (Second Term, 3-0-0). Theory and research on social and personality development, including topics such as social learning processes, sex typing, and social-cognitive development.

PSYCO 550. *Experimental Analysis of Personality.* ★3 (either term, 3-0-0). Latest techniques for measurement and experimental study of such personality factors as neuroticism, anxiety, hysteria, extroversion, conflict, and motivation structure. Prerequisites: PSYCO 202, or 260 and 261; and 383, or consent of the Department.

INT D 570. *Seminar in Philosophy and Psychology I.* ★3 (First Term, 0-3s-0). (See § 44.22.)

INT D 571. *Seminar in Philosophy and Psychology II.* ★3 (Second Term, 0-3s-0). (See § 44.22.)

PSYCO 580. *Advanced Psychology of Personality.* ★3 (Second Term, 3-0-0).

PSYCO 584. *Seminar in Personality Theory.* ★3 (0-3s-0). Prerequisites: PSYCO 383 or consent of the Department.

PSYCO 585. *Seminar in Theories of Perception.* ★3 (either term, 0-3s-0).

PSYCO 587. *Basis of Abnormal Behavior.* ★3 (First Term, 3-0-0). Psychopathological behaviors. Major classification systems; methodological problems; models of etiology; related experimental findings. Prerequisite: Consent of the Department.

PSYCO 588. *The Psychoses.* ★6 (3-0-0). The symptoms and dynamics of the major functional psychoses. Prerequisite: Consent of the Department.

PSYCO 591. *Approaches to Treatment.* ★3 (Second Term, 3-0-0). Major treatment approaches to problems of adjustment including psychodynamic, behavioral, humanistic, psychophysiological, and group methods. Prerequisite: Consent of the Department.

PSYCO 592. *Psychological Therapies.* ★6 (3-0-3). Psychological therapies, with practical instruction in selected techniques. Prerequisite: Consent of the Department.

PSYCO 599. *Honors Thesis.* ★6 (0-0-6). Students in their fourth year of honors will pursue a research project under the direction of a member of the Department.

PSYCO 614. *Special Topics in Social Psychology.* ★3 (First Term, 3-0-0).

PSYCO 615. *Topics in Social Psychology.* ★3 (Second Term, 3-0-0).

PSYCO 616. *Special Topics in Personality.* ★3 (First Term, 3-0-0).

PSYCO 617. *Topics in Personality.* ★3 (Second Term, 3-0-0).

PSYCO 618. *Special Topics in Clinical Psychology.* ★3 (First Term, 3-0-0).

PSYCO 619. *Topics in Clinical Psychology.* ★3 (Second Term, 3-0-0).

PSYCO 620. *Special Topics in Cognition.* ★3 (First Term, 3-0-0).

PSYCO 621. *Topics in Cognition.* ★3 (Second Term, 3-0-0).

PSYCO 622. *Special Topics in Developmental Psychology.* ★3 (First Term, 3-0-0).

PSYCO 623. *Topics in Developmental Psychology.* ★3 (Second Term, 3-0-0).

PSYCO 648. *Research.* ★3 (First Term, 3-0-3).

PSYCO 649. *Research.* ★3 (Second Term, 3-0-3).

PSYCO 668. *Seminar in Theoretical Psychology I.* ★3 (First Term, 0-3s-0). An in-depth examination of the logical structure and empirical support of major theories in psychology.

PSYCO 669. *Seminar in Theoretical Psychology II.* ★3 (Second Term, 0-3s-0). An in-depth examination of the logical structure and empirical support of major theories in psychology.

PSYCO 672. *History of Psychology.* ★3 (either term, 3-0-0).

PSYCO 698. *Advanced Research Techniques I.* ★6 (First Term, 0-3L-0). Supervised experience in specialized research techniques.

PSYCO 699. *Advanced Research Techniques II.* ★6 (Second Term, 0-3L-0). Supervised experience in specialized research techniques.

44.33 Religious Studies

[Preface: The courses listed below represent an extensive reorganization and modification of the Department's offerings. Because of changes in course numbers and/or content, students should compare their new course selections with courses previously taken so as to avoid duplication or overlap.]

44.33.1 JUNIOR COURSE

RELIG 200. *Introduction to the Study of Religion.* ★6 (3-0-0). The origin and development of the history of religions as a separate academic discipline. Principles and methods of this discipline. Some account of the major living religions in their history and distinctive features.

44.33.2 SENIOR COURSES

RELIG 300. *Introduction to the Religions of the East.* ★6 (3-0-0). An introductory survey of the religions of India, China, Japan, South-East Asia, including some account of the growth in the appreciation of the religions by the West and the interrelationship of cultural values of East and West.

RELIG 301. *Hinduism I: Early Religious Thought of India.* ★3 (either term, 3-0-0). Study of the religion of the Vedas and the Upanishads, with the help of selected texts.

RELIG 303. *Buddhism in India: Hinayana.* ★3 (First Term, 3-0-0). The origin and growth of early Buddhism up to and including the development of the Hinayana tradition.

RELIG 304. *Buddhism in India: Mahayana.* ★3 (Second Term, 3-0-0). The form of later Buddhism in India. Prerequisite: RELIG 303. Note: Formerly part of RELIG 315/316.

RELIG 306. *The Bhagavad Gita.* ★6 (3-0-0). Critical study of the Text.

RELIG 307. *The Yogacara.* ★3 (either term, 3-0-0). The religious idealism of one of the two major schools of the Mahayana.

RELIG 308. *Introduction to the Six Systems of Indian Philosophy.* ★3 (either term, 3-0-0). An overview of the classical religious philosophies of India. Note: Formerly RELIG 302.

RELIG 309. *The Religions of India Through Art.* ★3 (either term, 3-0-0). A study of the religions of India through the art and architecture of Hinduism, Buddhism, Jainism, and Islam.

RELIG 311. *Japanese Religions.* ★6 (3-0-0). An introduction to the various Japanese religions, with special emphasis on some fundamental themes underlying myths, symbols, rituals and institutions.

RELIG 312. *Japanese Religious Thought.* ★3 (either term, 3-0-0). An examination of the perception of the Divine, of Nature, of Man embodied in the way of thinking and religious ideas of the Japanese. Note: Formerly part of RELIG 317.

RELIG 313. *Zen and Japanese Culture.* ★3 (either term, 3-0-0). A study of the history, nature, and meaning of Zen Buddhism, and its influence on various religious-aesthetic expressions of Japanese culture.

RELIG 314. *Japanese Buddhism.* ★3 (either term, 3-0-0). A study of the history and the structure of Japanese Buddhism, as distinct from Indian and Chinese Buddhism. Note: Formerly RELIG 318.

RELIG 315. *Chinese Religious Thought.* ★3 (either term, 3-0-0). An examination of the perception of the Divine, of Nature, of Man in the way of thinking and religious ideas of the Chinese. Note: Formerly part of RELIG 317.

RELIG 316. *Taoism and Chinese Culture.* ★3 (either term, 3-0-0). A study of the history and the structure of Taoism, and its influence on the life, thought, and culture of the Chinese people.

RELIG 319. *Chinese Buddhism.* ★3 (either term, 3-0-0). A study of the distinctive features of Chinese Buddhism, with particular reference to the origin and development of Chinese Zen (Ch'an) and to its meaning for East Asian Civilization.

RELIG 321. *Islam.* ★6 (3-0-0). A survey of the main elements of the Muslim tradition and their role in the formation of Islamic culture.

RELIG 322. *Islamic Religious Diversity.* ★3 (either term, 3-0-0). Examines the development of sectarian division among Muslims with their religious and political implications.

RELIG 323. *The Encounter of Islam and Christendom.* ★3 (either term, 3-0-0). Cultural and religious interaction of two world traditions.

RELIG 324. *Sufism.* ★3 (either term, 3-0-0). Historical and doctrinal examination of the great Muslim mystics and their teaching. Note: Formerly RELIG 402.

RELIG 325. *Islamic Religious Thought.* ★3 (either term, 3-0-0). A study of the meaningful expressions of the Muslims' attempts to give intellectual expressions of their faith in different periods of their history. Note: Formerly RELIG 403.

RELIG 326. *Muhammad the Prophet.* ★3 (either term, 3-0-0). A historical and thematic investigation of the career and religious impact of the Prophet.

RELIG 327. *Qur'ānic Studies.* ★3 (either term, 3-0-0). An examination of the style, structure, and doctrine of the Qur'ān.

RELIG 328. *Contemporary Islamic Religious Movements.* ★3 (either term, 3-0-0). Recent developments in the philosophical, social, and religious life of Islam throughout the world.

RELIG 329. *Islam through Cultural Forms.* ★3 (either term, 3-0-0). The religious vision of Islam through art, literature, and architecture.

RELIG 330. *The Pentateuch.* ★3 (either term, 3-0-0). A text-critical examination of the history, literature, and theology of Genesis, Exodus, Leviticus, Numbers, and Deuteronomy.

RELIG 331. *Introduction to the Old Testament.* ★3 (either term, 3-0-0). Introduction to the theology and history of the Old Testament.

RELIG 332. *Religious Developments of the Intertestamental Period.* ★3 (either term, 3-0-0). History and literature of the period between the Old and New Testaments, including: Apocalyptic, Pseudepigrapha, Dead Sea Scrolls, etc.

RELIG 333. *Religious Significance of the Prophets.* ★3 (either term, 3-0-0). The origin, meaning, and nature of prophecy in Ancient Israel and its modern relevance.

RELIG 335. *Religious Thought in Judaism.* ★6 (3-0-0). History and ideas of Jewish Philosophy and Mysticism from Rabbinic to Modern Times.

RELIG 336. *The History of the Jewish Ethical Tradition.* ★3 (either term, 3-0-0). The moral dilemmas of man in the light of Jewish ethical traditions.

RELIG 337. *Folkways, Mores, and Institutions of the Jewish People.* ★3 (either term, 3-0-0). An examination of the origin and development of the institutions of Jewish life from Biblical to Modern Times.

RELIG 338. *Judaism and the Jewish People.* ★6 (3-0-0). The history of Judaism and of the Jewish people from Second Temple through World War II. Note: Formerly RELIG 340.

RELIG 339. *Religious Movements and Ideologies in Modern Judaism.* ★3 (either term, 3-0-0). An analysis of the Jewish community in the twentieth century, its development and change as influenced by history, philosophy, and theology.

RELIG 342. *Gnosticism and the Occult.* ★3 (either term, 3-0-0). A study of Gnosticism in the early Christian period with special reference to the newly published Gnostic literature and an investigation of five esoteric occult systems: astrology, natural or white magic, witchcraft, alchemy, and hermetic religious thought in the Renaissance.

RELIG 347. *Use of Old Testament in New Testament.* ★3 (either term, 3-0-0). A study of the use of the Old Testament in the New Testament, including a study of the relation of the two testaments.

RELIG 348. *The Christian Tradition.* ★3 (Second Term, 3-0-0). This course will focus on classical themes in Christianity which have persisted from New Testament to modern times: the message of Jesus, Kerygma, Church Order, Development of Doctrine, The Canon of Scripture, Church and State, Scripture and its Interpretation. Note: Formerly RELIG 364.

RELIG 349. *Primitive Christian Literature.* ★3 (either term, 3-0-0). Introduction to the New Testament, Apocrypha, and Apostolic Fathers, and a comparative and historical study of their literary images. Note: Not open to students with credit in RELIG 350.

RELIG 350. *Jesus of Nazareth.* ★3 (either term, 3-0-0). A study of the life, death, and resurrection of Jesus, and his influence in history.

RELIG 351. *Synoptic Gospels.* ★6 (3-0-0). A comparative and historical analysis of the purpose, characteristics, and problems of the first three gospels.

RELIG 352. *The Johannine Literature.* ★6 (3-0-0). Comparative and historical study of the Johannine writings.

RELIG 353. *The New Testament Epistles.* ★6 (3-0-0). A historical and comparative study.

RELIG 354. *The Markan Gospel.* ★3 (either term, 3-0-0). A detailed exegetical study.

RELIG 356. *Christian Theology I.* ★3 (either term, 3-0-0). The emergence of the Catholic tradition and the growth of medieval theology to 1300.

RELIG 357. *Christian Theology II.* ★3 (either term, 3-0-0). The spirit of eastern Christendom, reformation, and modern theology to present time.

RELIG 358. *The Institutes of John Calvin.* ★3 (either term, 3-0-0). The theology of Calvin as found in the Institutes.

RELIG 359. *Theology of Luther.* ★3 (either term, 3-0-0). A critical study of the genesis, development, and structure of Luther's theology.

RELIG 360. *The Concept of Deity.* ★6 (3-0-0). Different concepts of God as found in the major religions of the world.

RELIG 361. *Religious Symbolism.* ★3 (either term, 3-0-0). A comparative study of religious symbols in the various religions of the world; primitive, classical and modern. Attention will be given to different approaches and methods.

RELIG 363. *Religious Founders.* ★3 (either term, 3-0-0). An examination of the lives of the founders of the world's major religious traditions with special attention to their interpretation in devotional literature.

RELIG 365. *Comparative Studies in Religious Mythology.* ★3 (either term, 3-0-0). An introduction to the modern study of religious mythology in several cultures. Focus on some major mythic themes such as creation, origin of death, etc.

RELIG 366. *Shamanism.* ★3 (either term, 3-0-0). A study of shamanism in the history of religions with special attention to myths, rituals, symbols, and the ecstatic experience.

RELIG 371. *Myth and Truth in Religious Thought.* ★6 (3-0-0). An introduction to the problems raised by religious languages, and the claim of religious teaching to embody truth in a distinctive fashion. Note: Formerly RELIG 420.

RELIG 372. *Contemporary Religious Thought.* ★6 (3-0-0). A survey of modern religious thought. Note: Formerly RELIG 401.

RELIG 373. *Modern Religious Perspectives.* ★3 (either term, 3-0-0). Contemporary problems in religious ethics and their impact on collective decision-making in the areas of politics, medicine, law, etc. Note: Formerly RELIG 390.

RELIG 374. *Religion and Social Change.* ★3 (either term, 3-0-0). Critical analysis of the mutual influence of religion and society with regard to change in comparative perspective.

RELIG 375. *Thanatology.* ★3 (either term, 3-0-0). A consideration of death and dying in the great religious traditions, with particular emphasis on the recent literature.

RELIG 380. *Religious Beliefs of Native Peoples.* ★3 (either term, 3-0-0). A consideration of the religious beliefs of the Eskimos and North American Indians.

RELIG 381. *Themes of Pre-literate Religious Tradition.* ★3 (either term, 3-0-0). A study of specific themes in the religious life of pre-literate peoples, e.g., shamanism, myths, revitalization movements, etc. Note: Formerly RELIG 310.

RELIG 385. *Religions of Western Canada.* ★3 (either term, 3-0-0). A survey of the history, structure and socio-cultural impact of religious groups in Western Canada. Note: Formerly RELIG 355.

RELIG 405. *Religions of the Ancient Near East.* ★3 (3-0-0). The religions of Persia and Egypt.

RELIG 406. *The Madhyamika.* ★3 (either term, 3-0-0). A study in depth of the religious philosophy of Nagarjuna.

RELIG 407. *The Vedanta.* ★3 (either term, 3-0-0). A study in depth of the religious philosophy of Shankara and his followers.

RELIG 408. *The Tantra.* ★3 (either term, 3-0-0). Study of Tantric esotericism, its principles, its aesthetic expressions, and its influence on the religion of Tibet, Nepal, and India.

RELIG 410. *Myths, Legends, and Folklore in Japan.* ★3 (either term, 3-0-0). An intensive study of the structure and meaning of Japanese myths and folklore from a comparative, cross-cultural perspective.

RELIG 411. *Myths, Legends, and Folklore in China.* ★3 (either term, 3-0-0). An intensive study of the structure and meaning of Chinese myths, and legends, and folklore. Attention will be given to different approaches and methods.

RELIG 412. *Taoism.* ★3 (either term, 3-0-0). An intensive study of the structure and meaning of Taoism. Attention will be given to different approaches and methods. Note: Formerly RELIG 320.

RELIG 425. *Islamic Religous Texts.* ★3 (either term, 3-0-0). Study of hadith, exegetical literature and theological writings.

RELIG 430. *Studies in Old Testament Texts.* ★3 (either term, 3-0-0). Detailed study of individual books of the Old Testament and related themes. Prerequisite: RELIG 331 or 333 or consent of the Department. Note: Formerly RELIG 334.

RELIG 431. *Studies in Rabbinic Texts.* ★6 (3-0-0). The theology of Rabbinic Judaism examined through selections from the Mishna, Talmud, Tosefta, and Midrash.

RELIG 451. *Mysticism.* ★6 (3-0-0). This course will examine religious man's mystical experiences in different traditions, *homo religiosus* in the face of the ultimate. Note: Formerly RELIG 319.

RELIG 460. *Religious Hermeneutics.* ★6 (3-0-0). A critical study of how one interprets religious documents with examples from world religions.

RELIG 462. *Methodology in Religious Studies.* ★6 (3-0-0). A study of how one arrives at normative patterns.

RELIG 465. *Myths and Symbols.* ★3 (either term, 3-0-0). An intensive study of recent theories of religious myths and symbols. Note: Formerly RELIG 415.

RELIG 480. *Directed Reading in Religious Studies.* ★6 (3-0-0). Prerequisite: Consent of the Department.

RELIG 481. *Directed Reading in Religious Studies.* ★3 (either term, 3-0-0).

RELIG 482. *Directed Reading in Religious Studies.* ★3 (either term, 3-0-0).

RELIG 499. *Reading Seminar.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

RELIG 510. *Topics in Indian Religions.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Examination of the main religious and philosophical themes in Vedas, Upanishads, Vedanta.

RELIG 511. *Topics in Islam.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

RELIG 512. *Topics in East Asian Religions.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

RELIG 513. *Topics in Judaism.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

RELIG 514. *Topics in Christianity.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

NOTE: Courses of related interest offered by affiliated colleges are listed in § 44.8 and 44.28. For other information see § 246 of University Regulations and Information for Students Calendar.

44.34 Romance Linguistics

Department of Romance Languages

44.34.1 SENIOR COURSES

R LIN 360. *The Structure of Romanian.* ★3 (either term, 3-0-0). An introduction to the phonology and syntax of Romanian with a brief consideration of its relationship to other Romance languages. Prerequisite: Consent of the Department.

R LIN 372. *French Phonetics.* ★3 (either term, 3-0-0). An introduction to French phonetics focusing on the recognition and elimination of pronunciation difficulties for English speakers. Francophones are advised to take R LIN 320 (Faculté Saint-Jean) but may be accomodated in R LIN 372. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean LIN R 320.

R LIN 375. *The Grammatical Structure of French.* ★3 (either term, 3-0-0). A linguistic introduction to the parts of speech and to sentence structure. Prerequisite: Any 200-level French course except FREN 205 or 206. Note: Not open for credit to students having credit or registered in R LIN 370 or Faculté Saint-Jean LIN R 321.

R LIN 380. *The Structure of Spanish.* ★3 (either term, 3-0-0). An introduction to the phonology and syntax of Spanish with a brief consideration of its relationship to other Romance languages.

R LIN 390. *The Structure of Italian.* ★3 (either term, 3-0-0). An introduction to the phonology and syntax of standard Italian with a brief consideration of its relationship to Italian dialects. Prerequisite: ITAL 100 or consent of the Department. Note: Formerly R LIN 391.

R LIN 395. *Introduction to the Romance Languages.* ★3 (either term, 3-0-0). The modern Romance languages, their structure and interrelationships.

R LIN 397. *Introduction to Historical Romance Linguistics.* ★3 (either term, 3-0-0). The major phonological and grammatical changes from Latin to the modern Romance Languages are presented in relation to certain basic theories and methods of historical linguistics.

R LIN 401. *Applied Linguistics: French Phonology.* ★3 (either term, 3-0-0). An in-depth study of the French sound system, with an introduction to fundamental principles and methods of contrastive phonological analysis. Prerequisite: R LIN 372. Note: Formerly R LIN 373.

R LIN 402. *Applied Linguistics: French Morphology and Syntax.* ★3 (either term, 3-0-0). An in-depth study of the morphological and syntactic structures of French with an introduction to the principles and methods of contrastive grammatical analysis. Prerequisite: R LIN 375. Note: Formerly R LIN 400.

R LIN 474. *The Structure of Canadian French.* ★3 (either term, 3-0-0). Prerequisite: R LIN 372 or 375. Note: Formerly R LIN 374. Students cannot receive credit in both R LIN 474 and 374.

R LIN 499. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Designed to meet the needs of individual students. Prerequisite: Consent of the Department.

44.34.2 HONORS AND GRADUATE COURSES

R LIN 501. *Topics in Applied Linguistics: French Phonology.* ★3 (either term, 3-0-0). Prerequisite: R LIN 401.

R LIN 502. *Topics in Applied Linguistics: French Morphology and Syntax.* ★3 (either term, 3-0-0). Prerequisite: R LIN 402.

R LIN 503. *Early Romance.* ★3 (either term, 3-0-0). The linguistic evolution from Latin until the appearance of the first Romance texts. Prerequisites: Two half-courses in Romance linguistics or equivalent. Note: Formerly R LIN 505. Students cannot receive credit in both R LIN 503 and 505.

R LIN 504. *Seminar in Portuguese.* ★3 (Second Term, 0-3s-0). Prerequisite: PORT 502.

R LIN 508. *Seminar in Romanian.* ★3 (Second Term, 0-3s-0). Prerequisite: R LIN 360.

R LIN 511. *Seminar in Applied Romance Linguistics.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Detailed study of a selected topic for Honors or Graduate students.

R LIN 570. *Romance Structure: from Latin to French.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite or Corequisite: R LIN 503.

R LIN 580. *Romance Structure: from Latin to Spanish.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite or Corequisite: R LIN 503.

R LIN 590. *Romance Structure: from Latin to Italian.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite or Corequisite: R LIN 503 or consent of the Department.

R LIN 595. *Seminar in Comparative Romance Linguistics.* ★3 (either term, 3-0-0). Prerequisite: R LIN 503.

R LIN 599. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Consent of the Department.

R LIN 600. *Diachronic Theories in Romance Linguistics.* ★3 (either term, 3-0-0). A survey of the development of historical linguistic studies in the Romance area, and a comparison of the main contemporary theoretical approaches to Romance diachronic studies.

R LIN 610. *Topics in Romance Linguistics.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

R LIN 611. *Advanced Seminar in Romance Linguistics.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0).

R LIN 620. *Romance Dialectology.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Study of a specific Romance dialect or groups of dialects.

R LIN 670. *Topics in French Grammar.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Consent of the Department.

R LIN 699. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Designed to meet the needs of individual graduate students. A detailed study of a topic not dealt with in other graduate courses.

NOTE: For an additional course related to the above, see FREN 611 in § 44.15.1.

44.35 Romance Literatures

Department of Romance Languages

44.35.1 HONORS COURSE

R LIT 505. *Honors Seminar in Romance Literatures.* ★3 (either term, 0-3s-0) or ★6 (0-3s-0). Prerequisites: Honors standing in Romance Languages. Ability to follow lectures, discuss, and write assignments in more than one Romance language.

44.36 Russian

Department of Slavic Languages

44.36.1 JUNIOR COURSES

RUSS 100. *Beginners' Russian.* ★6 (3-0-2). Essentials of grammar, reading, and drill on useful expressions. Designed to give a working knowledge of the Russian language.

RUSS 106. *Intensive Beginners' Russian I.* ★3 (25-0-5). An 'immersion' course designed to give a working knowledge of Russian, with emphasis on conversational skills. Note: This course is given during the Summer Session only.

RUSS 107. *Intensive Beginners' Russian II.* ★3 (25-0-5). The continuation of RUSS 106. Prerequisite: RUSS 106 or consent of the Department. This is a Summer Session course given in the Soviet Union.

RUSS 210. *Reading Russian.* ★6 (3-0-0). An introduction to the grammar and vocabulary of Russian essential for the comprehension of original texts in the Natural Sciences, Social Sciences or Humanities. Note: Not accepted to meet concentration requirements in Russian, if the principal subject of concentration is Russian.

44.36.2 SENIOR COURSES

RUSS 303. *Second-year Russian I.* ★3 (First Term, 3-0-1). Russian grammar, composition, oral practice, and reading of selected texts of Russian classical and contemporary literature. Prerequisite: RUSS 100, or RUSS 107, or consent of the Department. Note: Formerly part of RUSS 300.

RUSS 304. *Second-Year Russian II.* ★3 (Second Term, 3-0-1). This course is a continuation of RUSS 303. Prerequisite: RUSS 303. Note: Formerly part of RUSS 300.

RUSS 305. *Second-Year Practical Study.* ★3 (0-0-2). Development of oral skills. Recommended for students taking RUSS 303 and 304.

RUSS 306. *Intensive Second-Year Russian I.* ★3 (25-0-5). An 'immersion' course in second-year Russian, with emphasis on conversational skills. Prerequisite: RUSS 100, or 107, or consent of the Department. Note: This course is given during the Summer Session only.

RUSS 307. *Intensive Second-Year Russian II.* ★3 (25-0-5). The continuation of RUSS 306. Prerequisite: RUSS 306 or consent of the Department. Note: This is a Summer Session course given in the Soviet Union.

RUSS 311. *Advanced Reading Russian I.* ★3 (First Term, 3-0-0). A continuation of RUSS 210, this course is designed to give students a sufficient command of the language to enable them to translate advanced Russian texts in their field of study. Prerequisite: RUSS 210 or consent of the Department. Note: Formerly part of RUSS 310.

RUSS 312. *Advanced Reading Russian II.* ★3 (Second Term, 3-0-0). This course is designed as a continuation of RUSS 311; Russian articles of current interest will be discussed and translated. Prerequisite: RUSS 311. Note: Students who obtain a pass grade in this course will be considered by the Department as having satisfied the reading requirement in Russian for the M.Sc. or Ph.D. at The University of Alberta. Note: Formerly part of RUSS 310.

RUSS 315. *Readings in Pre-Twentieth Century Russian Literature.* ★3 (First Term, 3-0-0). Introduction to the study of Russian literature in the original. Assisted reading and analysis of selected texts from pre-twentieth century Russian literature. Corequisite: RUSS 303.

RUSS 316. *Readings in Twentieth-Century Russian Literature.* ★3 (Second Term, 3-0-0). Assisted reading and analysis of selected texts from twentieth-century Russian literature. Corequisite: RUSS 304.

RUSS 320. *Masterpieces of Russian Literature (in Translation).* ★3 (First Term, 3-0-0). A survey of the outstanding authors and literary trends in pre-twentieth century Russian literature with primary emphasis on nineteenth century Romanticism and Realism. Note: Not accepted to meet the requirements in the principal area of concentration, or the second area of concentration, if the principal area is Russian.

RUSS 321. *Twentieth Century Russian Literature (in Translation).* ★3 (Second Term, 3-0-0). A study of pre-revolutionary modernist, early Soviet, and recent Soviet literature. Note: Not accepted to meet the requirements in the principal area of concentration, or the second area of concentration, if the principal area is Russian.

RUSS 323. *Tolstoy and Dostoevsky (in Translation).* ★3 (Second Term, 3-0-0). An in-depth study of Russian literature's foremost novelists of the nineteenth century. Note: Not accepted to meet concentration requirements in Russian, if the principal subject of concentration is Russian.

RUSS 325. *Russian Culture.* ★3 (Second Term, 3-0-0). A survey of Russian culture and civilization stressing major developments in literature and the fine arts. Note: Not accepted to meet concentration requirements in Russian, if the principal subject of concentration is Russian.

RUSS 401. *Third-Year Russian I.* ★3 (First Term, 3-0-0). Discussion of difficult grammatical points in Russian, vocabulary building, development of the comprehension of spoken Russian. Prerequisite: RUSS 304, or 307, or consent of the Department. Note: Formerly part of RUSS 390.

RUSS 402. *Third-Year Russian II.* ★3 (Second Term, 3-0-0). This course is a continuation of RUSS 401, with greater emphasis on composition. Prerequisite: RUSS 401 or consent of the Department. Note: Formerly part of RUSS 390.

RUSS 405. *Third-Year Practical Study.* ★3 (0-0-2). Development of oral skills. Recommended for students taking RUSS 401 and 402.

RUSS 411. *Russian Drama and Theatre.* ★3 (either term, 3-0-0). Studies in the Russian drama from the age of Classicism onward. Prerequisite: RUSS 304, or 307, or consent of the Department.

RUSS 412. *Russian Poetry.* ★3 (either term, 3-0-0). Developments in Russian poetry from the inception of the syllabo-tonic tradition with special emphasis on the nineteenth century. Prerequisite: RUSS 304, or 307, or consent of the Department.

RUSS 413. *Russian Romanticism.* ★3 (either term, 3-0-0). A course devoted both to the study of the formative currents in early nineteenth century Russian literature and to the analysis of representative works by the foremost Russian romanticists — Zhukovsky, Pushkin, Marlinsky, Gogol, Lermontov et al. Prerequisite: RUSS 304, or 307, or consent of the Department.

RUSS 421. *Selected Topics in Russian Folklore.* ★3 (either term, 3-0-0). An introduction to Russian folklore. A survey of the national tradition, with analysis of texts in the original. Prerequisites: A senior course in Russian and consent of the Department.

RUSS 451. *Cultural History of the Russian Language.* ★3 (either term, 3-0-0). The growth and the development of the Russian language from its origins to the present day. Prerequisite: RUSS 304, or 307, or consent of the Department.

RUSS 453. *Russian Phonetics.* ★3 (either term, 3-0-0). Scientific study of Russian sound system. Practice in phonetic discrimination and transcription. Practical exercises to assist a student in improving his pronunciation. Prerequisite: RUSS 304, or 307, or consent of the Department.

RUSS 454. *Russian Morphology and Syntax.* ★3 (either term, 3-0-0). Study of the morphological and syntactic system of Russian. Prerequisite: RUSS 453 or consent of the Department.

RUSS 462. *Russian Literature of the Late Nineteenth and Early Twentieth Centuries.* ★3 (Second Term, 3-0-0). The main trends in Russian literature of the late nineteenth and early twentieth centuries up to the revolutionary period. Prerequisite: Any one of RUSS 411, 412, 461, or consent of the Department. Note: Formerly part of RUSS 460.

RUSS 481. *Russian Literature After The Revolution.* ★3 (First Term, 3-0-0). Russian literature since 1917, with emphasis on the twenties and on the origin and development of Socialist realism. Prerequisite: RUSS 304, or 307, or consent of the Department. Note: Formerly part of RUSS 480.

RUSS 482. *Contemporary Soviet Russian Literature.* ★3 (Second Term, 3-0-0). A continuation of RUSS 481, this course will emphasize the thirties and the post-Stalinist period. Prerequisite: RUSS 481 or consent of the Department. Note: Formerly part of RUSS 480.

RUSS 499. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Students as well as staff may initiate proposals in any given year for the content of this course. Please consult the Department Chairman for the procedure for student-initiated proposals.

44.36.3 HONORS AND GRADUATE COURSES

RUSS 500. *Reading Course.* ★6 (3-0-0). This course is for graduate students who wish to satisfy the language requirement of their Department. An intensive study of essential grammar, reading of graded texts, and translation of texts from the student's own field. Note: Not open to undergraduates.

RUSS 501. *Composition and Conversation I.* ★3 (First Term, 3-0-0).

RUSS 502. *Composition and Conversation II.* ★3 (Second Term, 3-0-0).

RUSS 503. *Russian Stylistics I.* ★3 (either term, 3-0-0).

RUSS 504. *Russian Stylistics II.* ★3 (either term, 3-0-0).

RUSS 511. *The Structure of Russian I: Syntax.* ★3 (First Term, 3-0-0). Note: Formerly S LIN 511.

RUSS 512. *The Structure of Russian II: Phonology.* ★3 (Second Term, 3-0-0). Note: Formerly S LIN 512.

RUSS 516. *Medieval Muscovite Literature.* ★3 (either term, 3-0-0). Russian literature from the fourteenth century to the end of the seventeenth. Note: Formerly RUSS 600.

RUSS 551. *Eighteenth Century Russian Literature and Culture.* ★3 (either term, 3-0-0). Russian literature during the century of Russia's Europeanization as seen against the background of philosophical, religious, aesthetic, and social problems.

RUSS 571. *History of Russian Criticism.* ★3 (First Term, 3-0-0). A detailed study of the history of Russian literary criticism, with emphasis on the nineteenth and twentieth centuries. Note: Formerly part of RUSS 530.

RUSS 641. *Studies in Russian Poetry.* ★3 (either term, 3-0-0).

RUSS 643. *Studies in Russian Realism.* ★3 (either term, 3-0-0).

RUSS 645. *Studies in Soviet Russian Literature.* ★3 (either term, 3-0-0).

RUSS 647. *Aspects of Modernism in Russian Literature.* ★3 (either term, 3-0-0). This course is designed to deal with the various aspects of the literary movements generally known as "Symbolism" and "Decadence".

RUSS 650. *Topics in Russian Literature.* ★3 (either term, 3-0-0).

RUSS 696. *Studies in Individual Authors.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

RUSS 699. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). A detailed study of a literary problem, period or genre not dealt with in the other Honors or graduate courses. Designed to meet the needs of individual Honors or Graduate students.

44.37 Scandinavian

Department of Germanic Languages

44.37.1 JUNIOR COURSE

SCAND 100. *Elementary Norwegian.* ★6 (3-0-2). Designed to give basic practical skill in everyday spoken and written Norwegian. The oral approach, using the laboratory is followed.

44.37.2 SENIOR COURSES

SCAND 300. *Second-Year Norwegian.* ★6 (3-0-1). Reading and study of selected texts in Norwegian literature and culture. Composition and conversation. Prerequisite: SCAND 100 or consent of the Department.

SCAND 340. *Medieval Scandinavian Literature in English.* ★6 (3-0-0). Selections in English from the Eddas and Sagas, followed by a brief survey of skaldic poetry and folk literature.

SCAND 351. *Modern Norwegian Literature in English.* ★3 (First Term, 3-0-0). The dramas of Ibsen and representative prose works (e.g., Hamsun, Undset). Note: Formerly part of SCAND 350.

SCAND 352. *Modern Danish and Swedish Literature in English.* ★3 (Second Term, 3-0-0). The dramas of Strindberg and representative prose works (e.g., Andersen, Jacobsen, and Lagerkviat). Note: Formerly part of SCAND 350.

SCAND 375. *Eighteenth and Nineteenth Century Scandinavian Literature.* ★6 (3-0-0). The development of Scandinavian Literature in the original from Holberg to the beginnings of Expressionism. Special emphasis in the second term on the dramas of Ibsen. Prerequisite: SCAND 300 or consent of the Department.

SCAND 380. *Modern Scandinavian Literature.* ★6 (3-0-0). Scandinavian literature in the original during the late nineteenth and twentieth centuries. Special emphasis on the plays of Strindberg. Prerequisite: SCAND 300 or consent of the Department.

SCAND 400. *Advanced Norwegian Grammar and Stylistics.* ★6 (3-0-0). Theoretical and applied study of complex areas of the Norwegian language, style, and idiomatic usage. Prerequisite: SCAND 300 or consent of the Department.

SCAND 498. *Special Topics in Scandinavian Languages and Literatures.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SCAND 499. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

44.37.3 HONORS AND GRADUATE COURSE

SCAND 550. *Old Icelandic Philology.* ★6 (3-0-0).

44.38 Slavics

44.38.1 SENIOR COURSES

SLAV 301. *Introduction to the Slavic Languages I.* ★3 (First Term, 3-0-0). The development of the Slavic languages against the background of early Slavic history and culture. The place of Slavic in the Indo-European language family. Prerequisites: POLSH 100, or RUSS 100, or 107, or UKR 100, or 107, or equivalent. Note: Formerly S LIN 301.

SLAV 302. *Introduction to the Slavic Languages II.* ★3 (Second Term, 3-0-0). A general outline of the basic features of the Slavic literary languages. Prerequisite: SLAV 301 or consent of the Department. Note: Formerly S LIN 302.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). (See § 44.22.) Accepted as an option only.

SLAV 403. *Introduction to Slavic Linguistics.* ★3 (First Term, 3-0-0). Investigation of general problems in the synchronic and diachronic study of the Slavic languages. Prerequisites: SLAV 302 and any one of POLSH 304, or RUSS 304, or 307, or UKR 304, or 307, or 332, or consent of the Department. Note: Formerly S LIN 403.

SLAV 405. *Contrastive Linguistics: Ukrainian-English.* ★3 (Second Term, 3-0-0). Contrastive study of the structures of Ukrainian and English with particular emphasis on problems of language learning. Prerequisite: SLAV 302, or 403, or consent of the Department. Note: Formerly UKR 455.

SLAV 407. *Contrastive Linguistics: Russian-English.* ★3 (Second Term, 3-0-0). Contrastive analysis of the phonological and syntactic systems of Russian and English with particular emphasis on problems of language learning. Prerequisite: SLAV 302, or 403, or consent of the Department. Note: Formerly RUSS 455.

SLAV 420. *Old Church Slavonic I.* ★3 (First Term, 3-0-0). An introduction to the grammar of the oldest Slavic texts, with selected readings. Prerequisites: SLAV 302, and RUSS 304, or UKR 304, or 332, or consent of the Department. Note: Formerly part of SLAV 520.

SLAV 421. *Old Church Slavonic II.* ★3 (Second Term, 3-0-0). A continuation of SLAV 420. Prerequisite: SLAV 420. Note: Formerly part of SLAV 520.

SLAV 499. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Students as well as staff may initiate proposals in any given year for the content of this course. Please consult the Department Chairman for the procedure for student-initiated proposals.

44.38.2 HONORS AND GRADUATE COURSES

SLAV 501. *An Introduction to Research in Slavic Literatures and Linguistics.* ★2 (First Term, 2-0-0). Note: Formerly RUSS 505.

SLAV 515. *Old East Slavic Literature.* ★3 (either term, 3-0-0). Survey of Old East Slavic literature up to the fourteenth century, with emphasis on literary documents from Kiev and Novgorod. Note: Formerly RUSS 600.

SLAV 518. *Comparative Slavic Linguistics.* ★3 (Second Term, 3-0-0). Methods of comparative linguistics as applied to the Slavic languages. Note: Formerly S LIN 404.

SLAV 522. *Historical Grammar of East Slavic.* ★3 (Second Term, 3-0-0). Detailed discussion of some specific problems in the historical development of Russian, Ukrainian, and Byelorussian. Note: Formerly S LIN 522.

SLAV 541. *Slavic Syntax.* ★3 (either term, 3-0-0). Note: Formerly S LIN 541.

SLAV 542. *Slavic Phonology.* ★3 (either term, 3-0-0). Note: Formerly S LIN 542.

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). (See § 44.22.) Required for the M.A. in East European and Soviet Studies; otherwise accepted as an option only.

SLAV 561. *History of the West Slavic Languages.* ★3 (either term, 3-0-0). Note: Formerly S LIN 621.

SLAV 562. *History of the South Slavic Languages.* ★3 (either term, 3-0-0). Note: Formerly S LIN 622.

SLAV 650. *Topics in Slavic Linguistics.* ★3 (either term, 3-0-0).

SLAV 696. *Readings in Old Slavic Texts.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

SLAV 699. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). This course is designed to meet the needs of individual Honors and Graduate students in Slavic languages and literatures. The course will normally deal with a Slavic language or national literature not offered in the other Honors and Graduate courses.

44.39 Sociology

44.39.1 JUNIOR COURSE

SOC 202. *Introductory Sociology.* ★6 (3-0-0). An analysis of the nature of society, the interrelationships of its component groups, and the processes whereby society persists and changes. Society analysed in terms of its structure, culture, and social ranking schemes. The interrelationships between the various institutions (e.g., family, church, school, government). The processes whereby the individual is socialized into society; the sources of conformist and non-conformist behavior. Note: Third-year or more advanced students are encouraged to take SOC 403 rather than 202.

44.39.2 SENIOR COURSES

SOC 301. *Sociology of Sex Roles.* ★3 (either term, 3-0-0). Comparative study of sex roles in selected societies with an emphasis upon contemporary Canada; sex-specific role behaviors and theories regarding their origin; recent sociological research on the social effects of sex roles.

SOC 311. *Statistics and Social Research.* ★6 (3-0-2). Research design, data collection, and data processing in the social sciences. Logic and interpretation of statistical concepts and methods, measures of central tendency, variability and relationships; sampling and tests of hypotheses. Techniques of social measurement, experimental design, and introduction to scaling.

SOC 313. *Introduction to Statistics.* ★3 (either term, 3-0-1). Introduction to the sociological application of statistics. The logic and interpretation of statistical concepts; measures of central tendency; variability and relationships; sampling and tests of hypotheses. Note: SOC 311 and SOC 313 may not both be taken for credit.

SOC 321. *Sociology of Social Problems.* ★3 (either term, 3-0-0). A review of several macro-sociological perspectives focusing on such topics as population, ecology, social and economic inequality, intergroup relations, nationalism, collective violence and the sociology of social intervention. Note: Not available for credit to students with credit in SOC 320, or 324.

SOC 322. *Canadian Social Issues.* ★3 (either term, 3-0-0). Issues in such institutional areas as economy, authority, social class, collective values and education; programs of selected regional, ethnic, and national interest groups; implications for other segments of Canadian society.

SOC 323. *Sociology of Poverty.* ★3 (either term, 3-0-0). The origins, meaning and effects of poverty, with special emphasis on Canada; theoretical perspectives on poverty; examination of poverty from various institutional perspectives such as education, health, law and housing; evaluation of poverty programs.

SOC 324. *Sociology of Deviance and Conformity.* ★3 (either term, 3-0-0). Processes involved in defining behavior patterns as deviant; factors which influence conformity and change; examination of such behavior patterns as sexuality, alcoholism, drug use, and selected mental and physical disabilities; public reaction to such behavior. Note: Not available for credit to students with credit in SOC 320 or 321.

SOC 325. *Criminology.* ★3 (either term, 3-0-0). Examination and attempted explanation of crime and juvenile delinquency, with an analysis of the social processes leading to criminal behavior.

SOC 327. *Criminal Justice Administration.* ★3 (either term, 3-0-0). The evolution and evaluation of the theories of punishment; the law, the police and the courts; penal and reformatory institutions; probation and parole; experiments in reform and rehabilitation. Prerequisite: SOC 325.

SOC 332. *The Development of Sociology I.* ★3 (either term, 3-0-0). A survey of the origin and the development of classical sociological theory, with particular emphasis on Comte, Spencer, Marx, Durkheim and Toennies. Prerequisite: SOC 202 or 403.

SOC 333. *The Development of Sociology II.* ★3 (either term, 3-0-0). A survey of the contributions of modern and contemporary sociological theorists, particularly Weber, Pareto, Parsons, Mead, and others. Prerequisite: SOC 332.

SOC 341. *Social Psychology.* ★3 (either term, 3-0-1). An introduction to the study of individual and group behavior observed in social processes. Prerequisites: SOC 202, or 403, or PSYCO 260/261, or EDPSY 269/271. Note: SOC 341 and PSYCO 341 may *not* both be taken for credit.

SOC 342. *Socialization.* ★3 (either term, 3-0-0). Socio-cultural influences on the development of the self, from infancy through old age. Prerequisite: SOC 341.

SOC 343. *Collective Behavior.* ★3 (either term, 3-0-0). Analysis of various forms of collective behavior, including crowds, mobs, social movements, and fugitive behavior patterns. Prerequisite: SOC 202, or 403, or 341, or PSYCO 341.

SOC 344. *Public Opinion and Mass Communication.* ★3 (either term, 3-0-0). Factors involved in the formulation and assessment of public opinion; the role of the media in mass communication. Emphasis on Canadian society. Prerequisite: SOC 202, or 403, or 341, or PSYCO 341.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). (See § 44.22.) Accepted as an option only.

SOC 351. *Population Concerns.* ★3 (either term, 3-0-0). Population trends and problems in Canada and the rest of the world; social and cultural factors underlying fertility, mortality, and migration patterns and differentials; their relationship to the "population explosion," population composition and distribution; basic population methodology; ecological theories and processes; urbanization; population theory and policy.

SOC 352. *Population, Social and Economic Development.* ★3 (either term, 3-0-0). Principles of growth and development in their historical context with regard to developed countries, such as Canada, and in their contemporary context with regard to underdeveloped countries. The interrelationships of economic, social and demographic variables in the process of development. Problems of urbanization and industrialization; factors influencing social change in the modern West or Asia or Latin America or Africa.

SOC 353. *Urban Sociology.* ★3 (either term, 3-0-0). Social implications of urban life with respect to such topics as patterns of city growth; urban social organization (family, neighbourhood, community); urban social issues (housing, crime); urban policy and urban planning (sociology of planning, citizen participation). Prerequisite: SOC 202, or 403, or consent of the Department.

INT D 356. *Sociology of Rural Life.* ★3 (either term, 3-0-0). (See § 44.22.)

SOC 361. *Social Organization.* ★3 (either term, 3-0-0). Social systems, their components, interrelations, and the bases of social differentiation and integration. Prerequisite: SOC 202 or 403.

SOC 362. *Comparative Societies.* ★3 (either term, 3-0-0). An introduction to comparative sociology with attention to theoretical and methodological issues, and substantive problems in various kinds of societies. Prerequisite: SOC 202, or 403, or consent of the Department.

SOC 363. *Industrial Sociology.* ★3 (either term, 3-0-0). An introduction to the systematic analysis of people at work. Of special interest are the impacts of industrialization on Canadian and other developed societies as well as the intergroup and

interpersonal relations in work settings. Prerequisite: SOC 202 or 403.

SOC 364. *Comparative Institutional Change.* ★3 (either term, 3-0-0). Interrelationships among social institutions (technology, economy class, kinship, power structures, basic value patterns); comparative institutional structures and changes in Canada and other selected societies. Prerequisite: SOC 202, or 403, or consent of the Department.

SOC 367. *Values and Belief Systems.* ★3 (either term, 3-0-0). The origins, developments, and social consequences of systems of beliefs and values. Prerequisite: SOC 202 or 403.

SOC 368. *Canadian Ethnic and Minority Relations.* ★3 (either term, 3-0-0). Analysis of social processes leading to the development and understanding of minority status: case studies of ethnic and minority-group relations, with reference to cross-national studies. Prerequisite: SOC 202 or 403.

SOC 371. *The Family.* ★3 (either term, 3-0-0). Structure and function of the family system, historically and cross-culturally. The family system in contemporary societies emphasizing its institutional characteristics and current trends. Prerequisite: SOC 202 or 403.

SOC 373. *Social Psychology of Health and Illness.* ★3 (either term, 3-0-0). Social psychological factors in health and illness and medical care, including attitudes, beliefs, roles, socialization, and interpersonal processes. Prerequisite: SOC 202 or 403.

SOC 374. *Social Organization of Health Care.* ★3 (either term, 3-0-0). The social structure and dynamics of health care organization, including hospitals, professional-bureaucratic relations in health care organizations, professional socialization, and governmental functions. Prerequisite: SOC 202 or 403.

SOC 375. *Sociology of Aging.* ★3 (either term, 3-0-0). Aging as a socio-cultural phenomenon. Includes aging in relation to the self-concept, family, religion, politics, health, retirement and leisure, housing, attitudes toward death, with particular emphasis on North American society.

SOC 376. *Sociology of Religion.* ★3 (either term, 3-0-0). Religion as a social phenomenon; theories of religious behavior; religious authority and leadership; the individual's religion and the interplay with other spheres of social life; the role of religion in relation to social change and social integration. Prerequisite: SOC 202 or 403.

SOC 377. *Sociology of Youth.* ★3 (either term, 3-0-0). The comparative analysis of youth in various types of societies, with special emphasis on Canada including investigation of social structures and processes influencing behavior of young people.

INT D 393. *Political Sociology.* ★3 (either term, 3-0-0). (See § 44.22).

SOC 400. *Honors Seminar.* ★3 (either term, 0-2s-0).

SOC 403. *Principles of Sociology.* ★3 (either term, 3-0-0). Basic concepts and principles of Sociology for students with advanced standing. Prerequisite: Senior or graduate standing. Note: May not be taken for credit by students with credit in SOC 202.

SOC 404. *Conference Course in Sociology for Honors Students.* ★3 (First Term, 0-2s-0).

SOC 405. *Conference Course in Sociology for Honors Students.* ★3 (Second Term, 0-2s-0).

SOC 409. *Honors Essay.* ★6 (3-0-0).

SOC 411. *Introduction to Multivariate Sociological Analysis.* ★3 (First Term, 3-0-0). Introduction to the use of multivariate tabular analysis, multiple correlation and regression and analysis of variance in sociology. Prerequisite: SOC 311. Note: Formerly SOC 412.

SOC 412. *Methodological Problems in Social Research.* ★3 (Second Term, 3-0-0). The design and evaluation of qualitative and quantitative research strategies in the social sciences. Prerequisite: SOC 311. Note: Formerly SOC 411.

SOC 413. *Data Operations in Sociology.* ★3 (either term, 3-0-0). The application of data manipulation equipment and the nature of data processing in sociological inquiry. Prerequisite: SOC 311 or 313.

SOC 424. *Social Structure and Crime.* ★3 (either term, 3-0-0). The effects of urbanization, industrialization, social change, and ecological factors on crime and deviance, with particular emphasis on comparative research. Prerequisite: SOC 325.

SOC 425. *Research Problems in Criminology.* ★3 (either term, 3-0-0). Data access, collection, interpretation and dissemination; goal definition, evaluation, and consequences of social action research. Prerequisite: SOC 311 and 325.

SOC 426. *Criminal Control.* ★3 (either term, 3-0-0). Study of proposals advanced to control criminal behavior; the interrelationship of the social sciences with the law, law enforcement and welfare agencies. Prerequisite: SOC 325.

SOC 427. *Juvenile Delinquency.* ★3 (either term, 3-0-0). Juvenile delinquency and its relation to adult crime; the social processes involved in the genesis and perceptions of styles of delinquency and their relationship to the community, and to various current theories of prevention and control, including the role of institutions and law. Prerequisite: SOC 325. Note: Not open to students with credit in SOC 329.

SOC 428. *Criminal Careers.* ★3 (Second Term, 3-0-0). Analysis of types of criminal behavior through the use of individual and limited case methods; social processes involved in the genesis and styles of crime as they apply to the involvement of the particular criminal and victim. Prerequisite: SOC 325.

SOC 429. *Sociology of Law.* ★3 (either term, 3-0-0). Conceptual and practical points of convergence between legal and social theory; processes by which legal rules are created, maintained and changed; law as an instrument of social control and change. Prerequisite: SOC 325.

SOC 434. *Contemporary Sociological Theory.* ★3 (either term, 3-0-0). Current developments in sociological theory: concepts, recent contributions, and theoretical issues and controversies. Prerequisite: SOC 333 or consent of the Department.

SOC 437. *The Sociology of Knowledge.* ★3 (either term, 3-0-0). Study of the hypothesis that the forms of social life condition knowledge. Analysis of the versions of this thesis offered by such scholars as: Vico, Marx-Engles, Nietzsche, Scheler, Pareto, Durkheim, Mannheim, and more recent writers. Assessment of their proposed solutions to the social limitations imposed on knowing.

SOC 440. *Theories in Social Psychology.* ★3 (either term, 3-0-0). Current theories and related research in social psychology. Prerequisite: SOC 341 or PSYCO 341.

SOC 442. *Reinforcement and Social Behavior.* ★3 (either term, 3-0-1). Operant principles applied to the fundamental processes of social behavior. An examination of critical studies utilizing a reinforcement perspective. Prerequisite: SOC 341 or PSYCO 341.

SOC 443. *Ethnomethodology.* ★3 (either term, 3-0-0). Major focus; methods whereby members of society make sense of their social world; analysis of invariant features of such methods. Versions of social reality as manifested in conversation. Major forerunners; Plato, Husserl, Wittgenstein, Merleau-Ponty, G. H. Mead, Blumer, Schultz. Current major exponents: Garfinkel, Sacks, Cicourel, E. Rose. Prerequisite: SOC 202, or 403, or consent of the Department.

SOC 447. *Leadership.* ★3 (either term, 3-0-0). Group interaction and the differentiation of leaders; various social systems. Prerequisite: SOC 341 or 361 or PSYCO 341.

SOC 450. *Techniques of Demographic Analysis.* ★3 (either term, 3-0-0). Conventional techniques of population analysis as applied to census and vital statistics. Prerequisite: SOC 351.

SOC 451. *Fertility and Family Planning.* ★3 (either term, 3-0-0). Emphasis on the social, social-psychological, and cultural correlates of fertility; fertility prediction and control. Prerequisite: SOC 351, or 352, or consent of the Department.

SOC 453. *The Urban Community.* ★3 (either term, 3-0-0). An examination of the urban community in Canada and other countries from the ecological, social psychological, and social organizational perspectives. Appraisal of community studies. Introduction to community research priorities and methodologies. Prerequisite: SOC 202, or 403, or consent of the Department.

INT D 455. *Migration.* ★3 (either term, 3-0-0). (See § 44.22.)

SOC 456. *Mortality, Morbidity, and Aging.* ★3 (either term, 3-0-0). Measures and determinants of mortality and morbidity; social gerontology in Canada and other developed and developing societies; demographic and selected socio-economic aspects of aging. Prerequisites: SOC 351, or 352, or 375, or consent of the Department.

INT D 456. *Rural Social Problems and Public Policy.* ★3 (either term, 3-0-0). (See § 44.22.)

SOC 457. *Sociology and the Future of Urban Canada.* ★3 (either term, 3-0-0). Alternatives to and implications of present city forms, housing, and land development policies from a socio-

logical perspective, including new towns, urban redevelopment, suburbia. Prerequisite: SOC 353 or consent of the Department.

SOC 458. *Sociology of Housing in Canada.* ★3 (either term, 3-0-0). Social and cultural bases *for* (and *impact* of) housing forms, design types, site plans and housing needs of special groups; housing trends in Canada and other countries. Prerequisite: SOC 353 or consent of the Department.

INT D 458. *Agrarian Social Movements.* ★3 (First Term, 3-0-0). (See § 44.22.)

SOC 459. *The Demography of Marriage and Family.* ★3 (either term, 3-0-1). Review and analysis of the demographic interrelationships of fertility, mortality, and migration with marriage and the family; a cross-cultural review of historical trends, contemporary patterns and future implications; emphasis on statistical measurement, family planning and policy in the Canadian setting. Prerequisite: SOC 371. Note: Formerly SOC 357.

INT D 459. *Introduction to Community Development.* ★3 (either term, 3-0-0). (See § 44.22.)

SOC 460. *Social Organization — Organizational Theory.* ★3 (either term, 3-0-0). Models of social organization; the units of social structure; the bases of social integration, social control, and social change. Prerequisite: SOC 361.

SOC 461. *Sociology of Art.* ★3 (either term, 3-0-0). A sociological study of art forms including painting, literature, music, and architecture; cross-cultural analysis of the roles of the artist; the relationship of art forms and movements to different social conditions and social change. Prerequisite: SOC 202 or 403.

SOC 462. *Science and Society.* ★3 (either term, 3-0-0). Factors in the development of the cognitive and organizational domain of science; interrelations between science and major societal institutions and culture; the future of science and the future of society. Prerequisite: SOC 202 or 403.

SOC 463. *Sociology of Professions.* ★3 (either term, 3-0-0). The process of professionalization, including the development of professional ethics, ideologies, and associations. The role of bureaucracy in professionalization and professional career patterns. Prerequisite: SOC 202 or 403.

SOC 464. *Advanced Industrial Sociology.* ★3 (either term, 3-0-0). The study of participative structures, such as industrial democracy, in work settings and an examination of current topics related to the quality of working life. Prerequisite: SOC 363.

SOC 465. *Sociology of Complex Organizations.* ★3 (either term, 3-0-0). Approaches to formal organization and management; division of labor and its organizational implications, deviance and conflict within organization, problem solving, and organizational authority. Prerequisite: SOC 361.

SOC 467. *Social Class in Modern Society.* ★3 (either term, 3-0-0). Social stratification in Western society, with reference to the effects of industrialization; comparative analysis of primitive societies. Special attention given to the basis of stratification, the structure and function of social class systems, social mobility, and the special classes in modern society, such as the "managerial class", labor, and "power elite". Prerequisite: SOC 202 or 403.

SOC 468. *Theories of Ethnic and Minority-Group Relations.* ★3 (either term, 3-0-0). Theoretical analysis of historical, comparative, and social psychological aspects of minority-majority group relationships. Prerequisite: SOC 368.

SOC 469. *Sociology of Work and Leisure.* ★3 (either term, 3-0-0). The nature, meaning, and functions of work in historical and cross-cultural context; sociological analysis of work and leisure; changing uses and meaning of leisure time. Prerequisite: SOC 202 or 403.

SOC 471. *Comparative Family Systems.* ★3 (either term, 3-0-0). Institutional analysis of similarities and differences in family systems in a variety of contemporary complex societies. Prerequisite: SOC 202, or 403, and 371.

SOC 472. *Canadian Society.* ★3 (either term, 3-0-0). The composition of the Canadian population; the value hierarchy, the nature and relationships of the major institutions, and the structure of Canadian society. Prerequisite: SOC 202 or 403.

SOC 473. *Sociology of Death and Dying.* ★3 (either term, 3-0-0). Comparative examination of death and dying in socio-cultural contexts, including theoretical and methodological issues. Prerequisite: SOC 341, or 361, or 375.

SOC 474. *Sociology of Mental Illness.* ★3 (either term, 3-0-0). Sociological aspects of mental health and illness. Includes historical perspectives, diagnostic issues, social epidemiology, and perspectives on causation and treatment.

SOC 475. *Advanced Sociology of Aging.* ★3 (either term, 3-0-0). In-depth examination of selected theoretical approaches, methodological issues, and topics of substantive concern in the study of aging and the aged. Prerequisite: SOC 375.

INT D 475. *The Family in Socio-Historical Perspective.* ★3 (either term, 3-0-0). (See § 44.22.)

SOC 476. *Religion and Societies.* ★3 (either term, 3-0-0). A comparative survey of the major world religions in interaction with the socio-economic and political structures of various societies. Prerequisite: SOC 376.

SOC 477. *Social Psychology of Marriage.* ★3 (either term, 3-0-0). Social psychological analysis of marital power and authority, sexual interaction, and marital cohesion and stability. Emphasis on theoretical issues in marital interaction over the life cycle. Prerequisite: SOC 341, and SOC 371, or FAM 241 (Home Economics students).

SOC 478. *Family Structure and Interaction.* ★3 (either term, 3-0-0). Social psychological analysis of parenthood, socialization processes and family interaction over the life cycle. Relationship between family structure and the organization and sequence of perception and behavior is emphasized. Prerequisite: SOC 341 and 371. Note: Formerly SOC 470.

SOC 480. *Theories of Social Change.* ★3 (either term, 3-0-0). Significance of change in social and cultural systems; problems of induced change in selected cultures. Prerequisite: SOC 202 or 403.

SOC 481. *Canadian Social Area Studies.* ★3 (either term, 3-0-0). To be taught from time to time with different selected emphases on one or another of Canada's social areas (e.g., Quebec Society, Maritime Society, Prairie Society, Social Change in Northern Canada, etc.). Prerequisite: SOC 361.

SOC 490. *Sociology and Public Policy.* ★3 (either term, 3-0-0). Past and present relationship among sociology, social research and social needs, including the impact of sociological research on public policy formation, program development and implementation and program assessment. Prerequisites: Four half-year courses in Sociology.

44.39.3 HONORS AND GRADUATE COURSES

SOC 503. *Conference Course in Sociology for Graduate Students.* ★3 (First Term, 3-0-0).

SOC 504. *Conference Course in Sociology for Graduate Students.* ★3 (Second Term, 3-0-0).

SOC 511. *Multivariate Analysis.* ★3 (First Term, 3-0-0). Note: Offered in alternate years with SOC 512. Prerequisite: SOC 311.

SOC 512. *Advanced Methods of Sociological Inquiry.* ★3 (Second Term, 3-0-0). Note: Offered in alternate years with SOC 511. Prerequisite: SOC 311.

SOC 514. *Evaluation Research.* ★3 (either term, 3-0-0). The application of research methods and procedures to the evaluation of social policies and social programs; methodological, political, and social issues; case studies. Prerequisite: SOC 411.

SOC 519. *Selected Topics in Research.* ★3 (either term 0-3s-0).

SOC 521. *Seminar in Theories of Deviance.* ★3 (First Term 0-3s-0).

SOC 522. *Selected Topics in Deviance and Social Control.* ★3 (Second Term, 3-0-0).

SOC 523. *Criminal Justice in the Community.* ★2 (1-0-0) Presentations by persons actively involved in the criminal justice system. Restricted to M.A. (Corrections) students. Prerequisite: Consent of the Department.

SOC 524. *Field Placement in Criminal Justice.* ★3 (either term 3-0-0). Restricted to M.A. (Corrections) students. Prerequisite: Consent of the Department.

SOC 525. *Seminar in Criminal Justice Administration.* ★3 (either term, 0-3s-0).

SOC 526. *Seminar in Criminological Theory.* ★3 (either term 0-3s-0).

SOC 527. *Seminar in Correctional Theory.* ★3 (either term 0-3s-0).

SOC 531. *Seminar in the History of Sociological Thought.* ★3 (either term, 0-3s-0).

SOC 532. *Seminar in Theory Construction.* ★3 (either term, 0-3s-0).

SOC 533. *Logic of Sociological Inquiry.* ★3 (either term, 3-0-0).

SOC 534. *Contemporary Sociological Concepts.* ★3 (either term, 3-0-0).

SOC 537. *Seminar in the Sociology of Knowledge.* ★3 (either term, 0-3s-0).

SOC 541. *Seminar in Symbolic Behavior.* ★3 (either term, 0-3s-0).

SOC 542. *Small Group Behavior.* ★3 (either term, 3-0-2).

SOC 543. *Seminar in Mass Phenomena.* ★3 (either term, 0-3s-0).

SOC 544. *Seminar in Socialization Processes.* ★3 (either term, 0-3s-0).

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). (See § 44.22.) Accepted as an option only.

SOC 550. *Historical Demography.* ★3 (either term, 3-0-0).

SOC 551. *Seminar in Demography.* ★3 (either term, 0-3s-0).

SOC 553. *Seminar in Urban Society.* ★3 (either term, 0-3s-0).

SOC 555. *Human Ecology.* ★3 (either term, 3-0-0).

SOC 556. *Selected Topics in Environmental Sociology.* ★3 (either term, 3-0-0).

SOC 561. *Seminar in Social Organization.* ★3 (either term, 0-3s-0).

SOC 562. *Seminar in Social Class.* ★3 (either term, 0-3s-0).

SOC 565. *Seminar in Work.* ★3 (either term, 0-3s-0).

SOC 566. *Seminar in Formal and Complex Organization.* ★3 (either term, 0-3s-0).

SOC 568. *Seminar in Ethnic and Minority Relations.* ★3 (either term, 0-3s-0).

SOC 570. *Seminar in Family Theory.* ★3 (either term, 0-3s-0).

SOC 571. *Seminar in Issues and Techniques in Family Theory Construction.* ★3 (either term, 0-3s-0).

SOC 572. *Selected Topics in Canadian Society.* ★3 (either term, 0-3s-0).

SOC 573. *Advanced Social Psychology of Health and Illness.* ★3 (either term, 3-0-0).

SOC 574. *Advanced Social Organization of Health Care.* ★3 (either term, 3-0-0).

SOC 575. *Seminar in Aging and Age Differentiation.* ★3 (either term, 0-3s-0).

SOC 576. *Seminar in Sociology of Religion.* ★3 (either term, 0-3s-0).

SOC 577. *Seminar in Sex Stratification and Sex Differentiation.* ★3 (either term, 0-3s-0).

SOC 578. *Seminar in Marital and Family Interaction.* ★3 (either term, 0-3s-0).

SOC 580. *Seminar in Sociology of Modernization.* ★3 (either term, 0-3s-0).

SOC 593. *Seminar in Political Sociology.* ★3 (either term, 0-3s-0).

SOC 603. *Conference Course.* ★3 (First Term, 3-0-0).

SOC 604. *Conference Course.* ★3 (Second Term, 3-0-0).

SOC 605. *Seminar in Teaching and Professional Skills.* ★3 (either term, 0-3s-0).

SOC 611. *Selected Topics in Social Statistics.* ★3 (either term, 0-3s-0). Note: Offered in alternate years with SOC 612.

SOC 612. *Selected Topics in Sociological Research Methods.* ★3 (either term, 0-3s-0).

SOC 631. *Seminar in Advanced Sociological Theory.* ★3 (either term, 0-3s-0).

SOC 633. *Mathematical Sociology.* ★3 (either term, 0-3s-0).

SOC 641. *Selected Topics in Social Psychology.* ★3 (either term, 0-3s-0).

SOC 642. *Experimental Small Group Research.* ★3 (either term, 0-3s-0).

SOC 652. *Seminar in Population, Social and Economic Development.* ★3 (either term, 0-3s-0).

INT D 653. *Regionalism and Urban Planning.* ★3 (either term, 3-0-0). (See § 44.22.)

SOC 661. *Seminar in the Sociological Profession.* ★2 (0-1s-0).

SOC 670. *Seminar in Advanced Topics in Family Theory and Research.* ★3 (either term, 0-3s-0).

SOC 673. *Seminars in Medical Sociology I.* ★3 (either term, 0-3s-0).

SOC 674. *Seminars in Medical Sociology II.* ★3 (either term, 0-3s-0).

SOC 675. *Seminars in Medical Sociology III.* ★3 (either term, 0-3s-0).

SOC 900. *Non-Thesis Project.* ★3 (variable). Prerequisite: Consent of the Department. Note: For Graduate students in the Sociology Non-Thesis M.A. program.

NOTE: FOR COURSES IN SPANISH LANGUAGE AND LITERATURES, SEE § 44.20 *HISPANIC LANGUAGES AND LITERATURES.*

NOTE FOR COURSE IN SOVIET STUDIES, SEE § 44.12 *EAST EUROPEAN AND SOVIET STUDIES.*

44.40 Ukrainian

Department of Slavic Languages

44.40.1 JUNIOR COURSES

UKR 100. *Beginners' Ukrainian.* ★6 (3-0-2). Essentials of grammar, reading, and drill on useful expressions. Designed to give a working knowledge of the Ukrainian language. Note: Not open to students with credit in Ukrainian 30.

UKR 106. *Intensive Beginners' Ukrainian I.* ★3 (25-0-5). An 'immersion' course designed to give a working knowledge of Ukrainian, with emphasis on conversational skills. Note: This course is given during the Summer Session only.

UKR 107. *Intensive Beginners' Ukrainian II.* ★3 (25-0-5). The continuation of UKR 106. Prerequisite: UKR 106 or consent of the Department. Note: This is a Summer Session course given in the Soviet Union.

UKR 200. *First-Year University Ukrainian.* ★6 (3-0-1). A brief review of phonology, an intensive study of grammar. Readings of selected texts from modern Ukrainian literature, and elementary composition supplemented by laboratory work in conversational Ukrainian. Designed for students having some previous knowledge of Ukrainian. Prerequisite: Ukrainian 30 or the consent of the Department.

44.40.2 SENIOR COURSES

UKR 303. *Second Year Ukrainian I.* ★3 (First Term, 3-0-0). Advanced Ukrainian grammar, composition, and oral practice based on selected texts of Ukrainian classical and contemporary literature. Prerequisite: UKR 100, or 107, or consent of the Department. Note: Formerly part of UKR 300.

UKR 304. *Second-Year Ukrainian II.* ★3 (Second Term, 3-0-0). This course is a continuation of UKR 303, with greater emphasis on reading and composition. Prerequisite: UKR 303 or consent of the Department. Note: Formerly part of UKR 300.

UKR 305. *Second Year Practical Study.* ★3 (0-0-2). Development of oral skills. Recommended for students taking UKR 303 and 304.

UKR 306. *Intensive Second-Year Ukrainian I.* ★3 (25-0-5). An 'immersion' course in second-year Ukrainian, with emphasis on conversational skills. Prerequisite: UKR 100, or 107, or consent of the Department. Note: This course is given during the Summer Session only.

UKR 307. *Intensive Second-Year Ukrainian II.* ★3 (25-0-5). The continuation of UKR 306. Prerequisite: UKR 306 or consent of the Department. Note: This is a Summer Session course given in the Soviet Union.

UKR 311. *Standard Scholarly and Technical Ukrainian I.* ★3 (First Term, 3-0-0). An introduction to technical Ukrainian writing stressing idiomatic usage in a variety of areas outside of belles-lettres proper (e.g. anthropology, history, geography). Prerequisite UKR 200, or 304, or consent of the Department.

UKR 312. *Standard Scholarly and Technical Ukrainian II.* ★3 (Second Term, 3-0-0). This course is designed as a continuation of UKR 311; the student will be introduced to other areas of Ukrainian writing (e.g. art, music, physical education). Prerequisite: UKR 311 or consent of the Department.

UKR 320. *Masterpieces of Ukrainian Literature (in Translation).* ★3 (either term, 3-0-0). A survey of the outstanding authors and literary trends in nineteenth and twentieth century Ukrainian literature against their social and historical backgrounds. Note: Not accepted to meet the requirements in the principal area of concentration, or the second area of concentration, if the principal area is Ukrainian.

UKR 326. *Ukrainian Culture.* ★6 (3-0-0). A survey of Ukrainian culture and civilization stressing major developments in litera-

ture and fine arts. Note: Not accepted to meet concentration requirements in Ukrainian, if the principal subject of concentration is Ukrainian.

UKR 361. *Advanced Ukrainian I.* ★3 (First Term, 3-0-0). Review of difficult grammatical points with special emphasis on syntax and stylistics; reading of selected texts from Ukrainian classical and contemporary literature. Prerequisite: UKR 200, or 304, or 307, or consent of the Department. Note: Formerly part of UKR 331 and 401.

UKR 362. *Advanced Ukrainian II.* ★3 (Second Term, 3-0-0). This course is a continuation of UKR 361 with emphasis on composition and analysis of literary texts. Prerequisite: UKR 361 or consent of the Department.

UKR 405. *Third-Year Practical Study.* ★3 (0-0-2). Development of oral skills. Recommended for students taking UKR 361 and 362.

UKR 411. *Ukrainian Literature to 1880.* ★3 (First Term, 3-0-0). A survey course covering the main authors and literary trends from the beginnings of Ukrainian literature up to and including Panas Myrnyj. Prerequisite: UKR 304, or 307, or 312, or consent of the Department. Note: Formerly part of UKR 360.

UKR 412. *Ukrainian Literature from 1880 to the 1920's.* ★3 (Second Term, 3-0-0). A continuation of UKR 411, this course will cover Ukrainian literature after 1880, with emphasis on modernism. Prerequsite: UKR 411 or consent of the Department. Note: Formerly part of UKR 360.

UKR 422. *Introduction to Ukrainian Folklore I.* ★3 (First Term, 3-0-0). A survey of the folk song genres, with analysis of texts in the original. Prerequisites: A senior course in Ukrainian and consent of the Department.

UKR 423. *Introduction to Ukrainian Folklore II.* ★3. (Second Term, 3-0-0). A continuation of UKR 422. This course will also deal with the prose and minor verbal genres. Prerequisite: UKR 422.

UKR 451. *Cultural History of the Ukrainian Language.* ★3 (either term, 3-0-0). The growth and the development of the Ukrainian language from its origins to the present day. Prerequisite: UKR 304, or 307, or 312, or consent of the Department.

UKR 453. *Ukrainian Phonetics.* ★3 (either term, 3-0-0). Scientific study of the Ukrainian sound system combined with practice in phonetic discrimination and transcription. Prerequisite: UKR 304, or 307, or 312, or consent of the Department.

UKR 454. *Ukrainian Morphology and Syntax.* ★3 (either term, 3-0-0). Study of the morphological and syntactic systems of Ukrainian. Prerequisite: UKR 453 or consent of the Department.

UKR 465. *Shevchenko.* ★3 (either term, 3-0-0). Prerequisite: UKR 304, or 307, or 312, or consent of the Department. Note: Formerly UKR 612.

UKR 466. *Ukrainka.* ★3 (either term, 3-0-0). Prerequisite: UKR 304, or 307, or 312, or consent of the Department. Note: Formerly UKR 614.

UKR 467. *Franko.* ★3 (either term, 3-0-0). Prerequisite: UKR 304, or 307, or 312, or consent of the Department. Note: Formerly UKR 616.

UKR 481. *Soviet Ukrainian Literature.* ★3 (First Term, 3-0-0). Detailed study of the major Soviet Ukrainian writers with emphasis on neoclassicism and Socialist realism. Prerequisite: UKR 304, or 307, or 312, or consent of the Department. Note: Formerly part of UKR 630.

UKR 482. *Ukrainian Emigré Literature.* ★3 (Second Term, 3-0-0). Detailed study of Ukrainian emigré writers. Prerequisite: UKR 304, or 307, or 312, or consent of the Department. Note: Formerly part of UKR 630.

UKR 499. *Conference Course.* ★3 (either term, 3-0-0) or ★6 (3-0-0). Students as well as staff may initiate proposals in any given year for the content of this course. Please consult the Department Chairman for the procedure for student-initiated proposals.

44.40.3 HONORS AND GRADUATE COURSES

UKR 503. *Ukrainian Stylistics.* ★3 (either term, 3-0-0).

UKR 504. *Problems in English-Ukrainian Translation.* ★3 (either term, 3-0-0).

UKR 511. *The Structure of Ukrainian.* ★3 (First Term, 3-0-0).

UKR 516. *Medieval Ukrainian Literature.* ★3 (either term, 3-0-0). Study of the major sources and trends in Ukrainian literature from the fourteenth to the seventeenth centuries. Note: Formerly UKR 610.

UKR 517. *Ukrainian Dialectology.* ★3 (either term, 3-0-0).

UKR 531. *History of Ukrainian Folklore Studies.* ★3 (either term, 3-0-0).

UKR 532. *Ukrainian Folklore in Canada.* ★3 (either term, 3-0-0).

UKR 631. *Topics in Ukrainian Folklore.* ★3 (either term, 3-0-0).

UKR 641. *Studies in Ukrainian Poetry.* ★3 (either term, 3-0-0).

UKR 642. *Studies in Ukrainian Drama.* ★3 (either term, 3-0-0).

UKR 643. *Studies in the Soviet Ukrainian Novel.* ★3 (either term, 3-0-0).

UKR 650. *Topics in Ukrainian Literature.* ★3 (either term, 3-0-0).

UKR 696. *Studies in Individual Authors.* ★3 (either term, 3-0-0) or ★6 (3-0-0).

UKR 699. *Conference Course.* ★3 (either term, 3-0-0). A detailed study of a literary problem, period, or genre not dealt with in the other Honors or Graduate courses. Designed to meet the needs of individual Honors or Graduate students.

Faculty of Business Administration and Commerce

51 INTRODUCTORY

51.1 Members of the Faculty

J. HENDERSON, C.A.

Student Representatives
2 M.B.A. STUDENTS
5 UNDERGRADUATE STUDENTS

NOTE: § 51.2 Reserved

51.3 General Information

The Faculty offers the degrees of Bachelor of Commerce and Master of Business Administration.

51.3.1 THE M.B.A. PROGRAM

The degree of Master of Business Administration is designed for students preparing for a career in management.

For further information contact the Associate Dean, Graduate Programs, Faculty of Business Administration and Commerce, consult the pamphlet "The M.B.A. Program at The University of Alberta", and consult § 204.12 of the Faculty of Graduate Studies and Research Calendar.

51.3.2 THE B.COM. PROGRAM

The Bachelor of Commerce program seeks to provide the student with a broad background in the different areas of business as well as in related fields in the humanities and social sciences. The business world and its environment have changed enormously in the last twenty years and will change at an even faster pace in the next twenty. In this trend, questions about the environment will become increasingly important. No school of business can possibly teach the solution to problems which will arise several years from now. A school should, therefore, seek to provide a basis for effective self-learning through actual experience by teaching the broad underlying fields of knowledge which are basic to business. The emphasis is upon the development of a comprehensive analytical framework within which various organizational problems can be analyzed.

51.3.3 CAREER OPPORTUNITIES

The opportunities for Bachelor of Commerce graduates are many and varied. They range anywhere from positions in government (Federal, Provincial, and Municipal) and large enterprises, to partner or owner of small firms.

Opportunities in any given year fluctuate with the general level of economic activity in the country. Although it is generally difficult to forecast the job market several years ahead, the demand for graduates is expected to grow over the next decade; the job market outlook is therefore generally favorable.

Additional information about employment opportunities can be obtained from "University Career Outlook", a pamphlet published by the Department of Manpower and Immigration and "Employment Opportunities Handbook", published by the University and College Placement Association, 254A Main Street N, Markham, Ontario.

Information regarding the various areas of specialization within the field of business administration is contained in § 53.1.4.

51.3.4 STUDENT ORGANIZATIONS WITHIN THE FACULTY

Undergraduate Society

BACUS (The Business Administration and Commerce Undergraduate Society) is the name of the undergraduate student organization within the Faculty. The Society appoints student representatives to Faculty committees and provides liaison between faculty and students.

The Society organizes annual functions such as Monte Carlo Night, Mixers, the Banquet and Dance, and the Bavarian Beer Fest; it also publishes a newsletter called "Occasionally from BACUS".

Undergraduates registered in the Faculty are automatically members of the Society and are entitled to run in BACUS elections for both Executive and Class Representative positions. These representatives sit on BACUS Council which manages the affairs of the Society.

The M.B.A. Association

The M.B.A. Association is the official body representing the Graduate Students in the Faculty of Business Administration. It is a non-profit service organization solely administered by the M.B.A. students.

The purposes of the Association are: to promote fellowship between students through its activities; to promote co-operation and rapport between the students and the academic and administrative staff; to represent the students on all organizations and bodies on which the Association has representation; to promote and extend the academic and non-academic interests of the members through forums, special lectures, and discussion groups; and, to advise, counsel, and act on student problems which cannot be handled effectively through faculty channels.

52 FACULTY REGULATIONS

52.1 Admission

52.1.1 GRADUATE STUDY

For information regarding Graduate Study please consult § 204.12 of the Faculty of Graduate Studies and Research Calendar.

52.1.2 UNDERGRADUATE STUDY

High School Applicants

The detailed minimum requirements for admission are set out in § § 13.1 and 13.5 of the University Regulations and Information for Students Calendar. However, the number of applicants admitted to the Faculty is limited by a quota. Consequently, it may not be possible to admit all who meet the minimum requirements. Academic performance is the primary basis used in selecting the applicants to be admitted. All applications for admission into the B.Com. program must be received not later than July 2, 1981.

Transfers from other Faculties, Colleges, or Universities

A student seeking transfer into the B.Com. program must have a grade point average of 5.0. The number of transfer applicants admitted to the Faculty is limited by a quota. Consequently, it may not be possible to admit all who meet the minimum requirement. Academic performance is the primary basis used in selecting applicants to be admitted. Partial or complete transfer of credit may be granted depending on the nature of the program, caliber of institution, the courses taken, and results achieved. An application for a transfer, complete with all supporting documents, must be received by the Faculty not later than July 2, 1981.

Adult Applicants

Persons 21 years of age and older are considered for admission based upon three Alberta Grade XII examination subjects, including English 30 and Mathematics 30, and relevant experience. Social Studies 30 or Mathematics 31 is recommended as the third subject. All applications under this provision are to be supported by a recommendation from the Student Counselling Office.

All Applicants

Upon notification of acceptance, successful applicants will be required to confirm their intention to register by submitting a non-refundable $50.00 deposit within a specified time. The deposit will be credited toward payment of tuition upon completion of registration.

English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take any one of several forms:

1. successful completion of the equivalent of three years of full-time instruction in an English language secondary institution in Canada;

2. presentation of a successfully completed full-year or more of course work, including an introductory course in English, in an accredited post-secondary institution where English is the language of instruction and from which advance credit is normally allowed by The University of Alberta;

3. successful completion of the equivalent of three years of full-time instruction in a school/institution outside Canada where academic subjects are taught by "English Language" instructors, as accredited by the International Institute of Education (I.I.E.), or as recognized by The University of Alberta;

4. successful completion of the equivalent of three years of full-time instruction in a school in Canada in which the major language of instruction is other than English but where the level of English proficiency required for graduation is equivalent to that in English language schools, as recognized by a provincial Department of Education; or,

5. presentation of results of the Test of English as a Foreign Language (TOEFL) or its equivalent in other approved standard tests.

(a) Applicants presenting a TOEFL score of 600 (or its equivalent in other approved standard tests) will be considered as having demonstrated English language proficiency.

(b) Applicants presenting a TOEFL score of less than 600 but 550 or greater will usually be considered as having a minor deficiency. Subject to the requirements of the particular Faculties, such an applicant may be granted provisional admission into

the University but will be required to successfully complete one or more remedial Faculty of Extension non-credit English language courses and may be required to register in less than a normal course load in his or her regular program until the English language deficiency has been corrected. The student will not be permitted to register in a further academic year until satisfactory command of the language of instruction has been demonstrated (as in (a) above).

(c) An applicant presenting a TOEFL score of less than 550 will be considered as having a major deficiency in the language of instruction and will not be admitted into The University of Alberta until proficiency can be demonstrated.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building, University of Alberta.

Applications will be considered incomplete until the required test results have been received by the University.

Please note that admission requirements are subject to change and may differ from one year to the next. For further information and application forms please contact the Office of the Registrar, The University of Alberta.

52.1.3 RE-ADMISSION

Students previously enrolled in the Faculty of Business Administration and Commerce who have interrupted their studies by as much as an academic year or more must apply for re-admission by completing an *Application for Re-enrolment* form, which is available from the Office of the Registrar.

Re-admission after being required to withdraw will normally not be approved until at least one year has elapsed since the withdrawal. Application for all such re-admissions must be accompanied by a recommendation from Student Counselling Services.

52.1.4 CONTINUING STUDENTS

Students in good standing who are continuing their program without interruption are not required to re-apply for admission; they need only present themselves for registration.

52.2 Changes in Registration

The Faculty makes every effort to assure that program requirements are being met by the courses in which a student is registered. However, the responsibility for the completeness and accuracy of registration rests with the student, and he/she should be satisfied that the program is in accordance with degree specifications.

52.2.1 ADDING COURSES

THE DEADLINE FOR ADDING FIRST TERM AND FULL-SESSION COURSES IS SEPTEMBER 17 AND FOR SECOND TERM COURSES IS JANUARY 11.

52.2.2 DROPPING COURSES

THE DEADLINES FOR WITHDRAWING FROM COURSES ARE AS FOLLOWS: NOVEMBER 12 FOR A SINGLE-TERM COURSE OFFERED IN THE FIRST TERM, FEBRUARY 12 FOR A FULL-SESSION COURSE, MARCH 1 FOR A SINGLE-TERM COURSE IN THE SECOND TERM.

Courses dropped before the deadline for *adding courses* will not be part of a student's record. A grade of W (withdrawal) will be recorded on a student's record if he withdraws from a course after the deadline for adding courses but prior to the deadline date for dropping courses. No withdrawal after the deadline for dropping courses will be permitted except for major causes beyond the student's control, such as extended illness.

52.3 Withdrawal from the University

Subject to the provisions specified in § 52.2.2, a student is free to withdraw from the University at any time but is encouraged to seek advice from Faculty advisors or Student Counselling Services prior to taking action to do so. Further information regarding fee refunds or exemption from fees may be found in § 15.2 of the University Regulations and Information for Students Calendar.

52.4 Academic Standing and Graduation

(1) Records of academic performance for individual students are maintained in the Student Records Office. Students are encouraged to consult their records from time to time to attest their accuracy.

Academic performance is normally measured by grade-point average attained during the academic year. In this determination, marks of W are ignored throughout; marks of ABF and INF are considered to be marks of 1.

Determination of each student's academic performance will normally occur after the end of the regular academic year, on the basis of the work attempted during that year. However, no student will be classified as probationary or required to withdraw on the basis of fewer than 15 credit hours attempted since initial enrolment in the Faculty or since the last year-end evaluation of performance. A student whose academic performance evaluation is deferred under the terms of this provision may be evaluated at either or both of the following mid-year and year-end times, with appropriate classification and possible action as described above.

(2) If a mark of 3 is obtained in a course, credit will be granted only if all the following conditions are met:

(i) The student's grade-point average for the year is 5.5 or higher.

(ii) The course is neither one required for the degree nor a prerequisite to another one in the student's program.

(iii) The student would not then have more than two half-year courses with marks of 3 in the degree program. (Within the two-year after-degree program, a maximum of one half-year course with a mark of 3 is credited to the degree program.)

(3) *Promotion* of the student from year to year is contingent upon satisfactory academic performance.

Satisfactory performance is defined as that which yields a grade-point average of 5.0 or more.

Probationary performance is that which yields a grade-point average of less than 5.0 but not less than 4.5. In such cases, the student must repeat all work for which a mark of less than 4 was received.

Unsatisfactory performance is that which yields a grade-point average of less than 4.5. In such cases, the student may not continue in the Faculty.

Required to withdraw from University is performance having a quality index of 2.0 or less. (The quality index is the grade-point average multiplied by the credits passed divided by the credits attempted.) In such cases, credit is earned only for courses in which a mark of 5 or more was received.

Students whose performance is either probationary, unsatisfactory, or required to withdraw from University may not write supplemental examinations.

Students whose performance has once been classified as either probationary, unsatisfactory, or required to withdraw from the University, must in all subsequent years in the degree program demonstrate satisfactory performance, or else they may not continue in the Faculty.

(4) *First Class Standing* is awarded to each student who achieves a grade-point average of at least 7.5 on 27 or more credits of academic study during a Winter Session.

(5) The notation *"With Distinction"* is inscribed on the permanent record and graduate parchment if the candidate has obtained a grade-point of 7.5 or higher, averaged over the last two years of the program.

(6) The *Dean's List* commends the superior academic performance of each student who has completed 30 credits of study during the Winter Session with a grade-point average of 8.0 or more.

(7) *Residency.* A student must normally (a) successfully complete at least 20 half-year University of Alberta courses within the B.Com. program, and these during the latter half of the program; (b) be registered as a student in the Faculty of Business Administration and Commerce while taking these courses; and (c) at some time while a student in this Faculty, be registered as a full-time student during at least two terms (not necessarily consecutive) in the regular academic year. Note that these requirements apply to students in the Bachelor of Commerce After-Degree program, except that the number of courses in (a) above is reduced to a minimum of 15.

(8) *Graduation.* In order to qualify for graduation the student must satisfy all degree requirements as specified in § 53.1 below and demonstrate satisfactory academic performance (as defined in (2) above) during the last academic year of the program. If such final year involved less than 15 credit hours of study, a sufficient number of immediately preceding full terms of study shall be added to the basis of evaluation to provide a minimum of 15 credit hours.

The student's attention is directed to the deadlines in the Academic Schedule (§ 11) regarding application for Bachelor of Commerce degrees to be awarded at Spring and Fall Convocations.

52.5 Appeals and Grievances

Students who encounter difficulties affecting their academic performance or standing within the Faculty have three alternative routes which can be followed depending on the nature of the difficulty:

(1) Appeals regarding the student's standing in a particular course should first be directed to the particular instructor(s) involved. Problems not resolved in this way may be appealed through reappraisal of final examinations and course marks as provided in Section 16.3.3(2) of the University Calendar. The remaining matters of appeal should be directed to the Associate Dean.

(2) Where the appeal involves a ruling concerning graduation or continuation in the B. Com. program, (except for the normal exercise of program requirements which are applied to all students), the appeal may be heard by the Faculty Academic Appeals Committee. If the student wishes to carry the appeal further, the appeal may be directed to the General Faculties Council Academic Appeals Committee (Sec. 16.7 of the University Calendar).

(3) For those appeals which concern admission or re-admission to the Faculty, the granting of credit taken outside the Faculty, and other administrative matters, the final authority rests with the Associate Dean.

For grievances related to matters other than academic performance, the student may consult either the Associate Dean or the Business Administration and Commerce Undergraduate Society.

52.6 Student Advising

Five concurrent courses is the maximum normally permitted during the Winter Session. Students wishing to register in more than five courses in a term must obtain the approval of the Associate Dean via the Student Records Office.

Advice to undergraduate students regarding academic matters is provided by two groups:

The Faculty Student Records Office handles questions concerning admission, re-enrolment, transfer, withdrawal, registration, course changes, degree requirements, after-degree programs, advanced credit, etc., and maintains records of course registration and final grades.

Members of the Faculty offer advice regarding broader and more general questions, courses in different areas of business and other fields of study, preparation for graduate programs, etc. Students are encouraged to consult faculty members about their programs.

53 PROGRAMS OF STUDY

53.1 The Degree of Bachelor of Commerce

53.1.1 DETAILED REQUIREMENTS

The four-year B.Com. degree requires 120 credits of academic study. Courses typically involve three lecture hours per week; some courses have additional time scheduled for laboratories or seminars. Required subjects total 66 credits, as listed below. The remaining 54 credits are taken in elective subjects selected from the areas indicated below.

REQUIRED COURSES

	Credits
Accounting 202 and 204	6
Business 401	3
Economics 201 and 202	6
English (See note 1 below.)	6
Finance 304	3
Industrial Relations 304	3
Legal Relations 310	3
Management Science 306, 307, 356, and 357 (See note 2 below.)	12
Managerial Economics 312, 323, and 333	9
Mathematics 240 and 243 (See note 3 below.)	6
Marketing 304	3
Organization Theory 303 and 305	6

The following courses are formally recognized as substitutes for the corresponding course listed above:
ECON 373 for Managerial Economics 312
ECON 381 for Managerial Economics 323
ECON 382 for Managerial Economics 333
MATH 202 or 203 or 242 for MATH 240
CMPUT 214 or 351 or 357 for Management Science 357.

Other courses may be recognized as substitutes on a case by case basis; contact the Student Records Office for this purpose.

NOTE: Degree credit will not be granted for a course and its substitute as indicated above. Further, degree credit will not be granted for both of a pair of courses where prohibited in the calendar description of either of them.

ELECTIVES

Social Sciences (See note 4 below.) (Maximum of 6 credits at the 200-level.)	9
Business Administration & Commerce (All must be at the 300- or 400-level.)	15
Other than Business Administration and Commerce (Maximum of 6 credits at the 200-level.)	9
Unrestricted electives (Maximum of 3 credits at the 200-level.)	21

(1) The English requirement must be completed during the first two years of the program.

The six credit hours English requirement consists of one single-term course in English Language and Literature and one single-term course in English Composition. The Department of English does not presently offer a course in English Composition generally open to Commerce students. Until provisions for such a course are made, any six credit hours given by the Department of English will be accepted.

(2) Students with an interest in computers are encouraged to substitute CMPUT 214 or 351 for MGTSC 357; CMPUT 215 is suggested as one of the open junior electives, or CMPUT 352 as a senior open elective.

(3) Students with an interest in mathematics are encouraged to substitute MATH 202, or 203, or MATH 242 for MATH 240; MATH 204 is suggested as one of the open junior electives.

(4) Social Sciences electives are courses offered by the Departments of Anthropology, Economics, Geography, Educational Psychology, History, Philosophy, Political Science, Psychology, and Sociology.

(5) Students intending to meet the requirements of the Institute of Chartered Accountants of Alberta should take a minimum of ACCTG 302, 402, 403, 404, 406 and MANEC 421. Other provinces may have different requirements. Students should contact the provincial institute to determine other professional requirements.

(6) Students intending to meet the requirements of the Society of Management Accountants (RIA), should take the following courses: ACCTG 302, 304, 402, 404, 406, 408, 412, MANEC 421 and one senior finance course. Students should contact the society to determine other professional requirements.

(7) Students wanting to choose elective courses which satisfy the educational requirements of other professional organizations are encouraged to obtain advice and suggestions directly from the organization(s) of interest.

(8) Students intending to specialize in Food Service Administration should take CHEM 250, MICRB 315, FD NU 320, 321, 325, 327, 429, and two additional courses in Foods and Nutrition or Food Science. Further information is available from the Faculty of Home Economics.

53.1.2 FLOW DIAGRAM OF PREREQUISITE RELATIONSHIPS

If a given course builds directly upon material covered in another course, the latter is a prerequisite. Prerequisites are represented by arrows extending from left to right, from the prerequisite course to the succeeding course or courses.

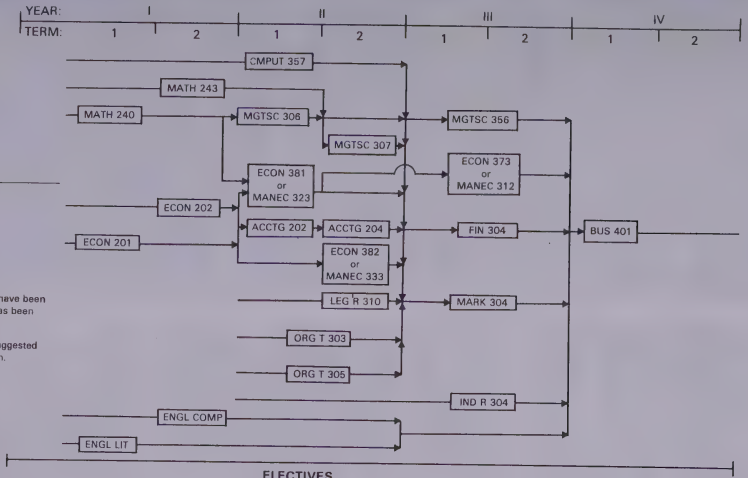
The position of a course in the diagram reflects its relative position in the program. The course boxes in the diagram have been positioned so as to indicate when a course is likely to be taken. However, a course does not have to be taken in the particular term indicated. Rather, its relationship to preceding and ensuing courses, as indicated by the arrows, determines the time by which it has to be taken in order not to delay future required courses. However, most courses have a certain leeway in this respect. This leeway is indicated by the lines extending in both directions from the respective course box.

In addition to the prerequisite relationships indicated below it is generally recommended that MATH 243 and MGTSC 357 be taken before MGTSC 307 and ACCTG 204; and English composition before ORG T 303.

53.1.3 B.COM. PROGRAM AFTER APPROVED DEGREE

Normally, the holder of an approved degree may qualify for the Bachelor of Commerce degree upon completion of twenty selected half-year courses. Further information is available from the Student Records Office.

DIAGRAM OF PREREQUISITE RELATIONSHIPS



DECLARED MAJOR: _____

Courses marked "X" have been completed or credit has been granted.

Courses circled are suggested for the coming session.

ELECTIVES

NOTE: NUMBERS IN PARENTHESES DESIGNATE 300 or 400 LEVEL COURSES.

SOCIAL SCIENCE ELECTIVES
Courses from: Anthro., Econ., Geography, Ed. Psych., Hist., Philosophy, Pol.Sc., Psych., Sociology.

53.1.4 AREAS OF SPECIALIZATION

Students can specialize in any of the areas of business mentioned in § 53.1.1, or in other areas of study offered at the University by selecting their options accordingly. A description of the various areas of specialization follows.

Accounting

Accounting may be described as the study of methods of developing and preparing financial and other information essential to the efficient conduct and evaluation of the activities of an organization. Such information is employed:

(1) in effective managerial planning, control, and decision-making; and,

(2) in discharging the accountability of organizations to investors, creditors, government agencies, taxing authorities, employees, and other users.

Accounting includes the development and analysis of data, the testing of its validity and relevance, and the interpretation and communication of the resulting information to intended users.

Finance

The finance program has three facets — (a) business finance, (b) the institutions of finance, and (c) financial topics of interest to individuals.

(a) Business finance includes the evaluation of the business firm's need for money, and the choice of how this money may be procured.

(b) Financial institutions include stocks and bond markets, brokers and investment banks, commercial banks and other lending institutions, government agencies that participate in, or regulate, financial processes, and other aspects of the financial environment.

(c) Financial topics of interest to individuals include the development of personal investment plans, the problems of evaluating and acquiring common stocks and other investment opportunities, and the analysis of insurance.

These topics are closely related. The intelligent practice of personal and business financing requires a knowledge of institutions. Personal and business financing are often two sides of the same coin, with the personal investor acting as a buyer for securities that are sold by a business.

Industrial Relations

Industrial relations involves a study of the "people" related problems of a business. As such, the study of industrial relations may include the study of:

(a) trade union / management relations.

(b) the labor market and the problems of recruiting, selecting, and training a labor force.

(c) interpersonal relations both within and between groups in the organization.

(d) superior / subordinate relations.

(e) management's relations with government and government agencies.

This field of study brings together and applies much of the basic information developed in the disciplines of economics, psychology, sociology, political science, and mathematics.

Interest in the industrial relations field has constantly been expanding over the past few decades. This increase has come about, in part, because of: (1) The development of the trade unions into new areas and the importance of trade unions and their collective bargaining activities upon the Canadian economy. (2) The increased emphasis upon specialization and efficiency of operation has placed increased pressure upon the manpower recruitment and training activities of the business firm. (3) The appreciation by most business of the importance of the contribution to productivity made by their work force and their consequent interest in such things as morale, motivation, group dynamics, etc.

Management Science

Management science is a systematic, explicit, and often multi-disciplinary study of management systems. It is the application of scientific method to the decision problems of business and other units of social organization such as government. Management science typically involves the creation of a mathematical model of a given system and an examination of the behaviour of that model under a set of policies including, possibly, optimization with respect to some objective function and finally interpretation of the results of the modelling effort back into the real world situation. The B.Com. student will find study of management science valuable in several ways. Knowledge of the field permits one (a) to determine when such a study will contribute to managerial decision-making, (b) to interact effectively with specialists in the field, and (c) to interpret properly the study results and apply them wisely to the problem at hand. Another is the training in logical, sequential thought that one obtains and in particular the use of model building as a research technique.

Managerial Economics

Managerial Economics studies:

(a) the environment in which business operates (i) at the micro level in examining the allocation of resources through the price system and the government's role in such a system, (ii) at the macro level in examining relationships between economic aggregates and government policy regarding problems such as inflation, unemployment, and growth rates, and

(b) applications of economic concepts and methods of analysis in business decision-making.

Marketing

Marketing is a system of interacting business and organizational activities designed to plan, develop, price, promote, and distribute products and services. It is the study of how and why people develop and consume goods and services.

Traditionally, the study of marketing includes only three business activities; transfer of title, physical supply, and related facilitating functions. These three activities included bringing buyers and sellers together, storing and distributing goods, and supplying credit, market information, and other market supporting services. However, the study of marketing has expanded to include an understanding of the environment in which marketers operate. In addition, it includes study of the impact of the aggregate marketing process on the individuals who are both members of society, and members of the firms and organization involved in the marketing process. Also, marketing concepts are being applied to many non-business activities such as electing political leaders and promoting government programs and agencies.

Because of the increased breadth of marketing and the complexity and magnitude of the decision marketers must take, this subject draws upon most disciplines and many data sources. It requires a good understanding of both qualitative and quantitative concepts, models, theories, and techniques. The breadth of information and knowledge aids in planning, controlling, evaluating and reformulating marketing operations.

Organization Theory and Behavior

Organization behavior is the study of human behavior within the context of formal organizations such as business firms, government agencies, hospitals, th

military, the church, and informal organizations such as industrial work groups. It is differentiated from the study of human behavior in general in that the focus is on behavior within the boundaries of an organization. Organization behavior seeks to provide an understanding of the psychological, sociological, and anthropological aspects of managing and developing human resources. Therefore, the field emphasizes the study of the behavior of individuals, pairs of individuals, small groups, organizational structure, interorganizational relationships, environment-organization relationships, and societal values.

Other Areas

Careful selection of electives permits a student to develop a specialization in a number of areas outside the Faculty of Business Administration and Commerce. These areas include, but are not limited to, Agricultural Economics, Computing Science, Economics, Food Service Administration, Political Science, Psychology, and Sociology.

53.1.5 DESIGNATED MAJORS

At any time prior to graduation, each student has the option of formally designating not more than one of the following areas as a major field of study: Accounting, Finance, Management Science, Marketing, or Industrial Relations. Information about the detailed requirements of each major field is available from the Student Records Office of the Faculty.

Completion of the requirements of a designated major is acknowledged by a suitable notation on the student's permanent University transcript.

54 DETAILS OF COURSES

54.1 General Information

All courses taught by the Faculty of Business Administration and Commerce are listed and briefly described below. Although many of the other courses of potential interest to Commerce students are also listed, any course offered within the University may be counted as an elective within the B.Com. program.

Each course is designated by its abbreviation and number. Students must use this abbreviation and number when filling in their registration forms.

Courses numbered 100 through 199 are introductory, usually equivalent to high school courses. Those numbered 200 through 299 are junior courses, normally taken by first-year undergraduates. Those numbered 300 through 499 are senior courses, normally taken after the first year. Courses numbered 500 and above are normally restricted to graduate students.

Following the title of the course is the symbol "★" standing for "course weight", and a number indicating the weight of the course as used in computing grade-point averages. The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours.

Normally, a full-year course has a weight of six and a half-year course a weight of three, with or without laboratory hours as indicated. If the course is a single-term course, the term in which it is usually offered is mentioned before the hours of instruction.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL BE OFFERED IN THE FORTHCOMING SESSION. IT IS NOT INTENDED THAT ALL COURSES SHALL BE OFFERED EACH YEAR. FURTHERMORE A NUMBER OF CHANGES USUALLY OCCUR AFTER THE PREPARATION OF THE CALENDAR. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

54.2 Accounting

ACCTG 202. *Introductory Accounting.* ★3 (either term, 3-1.5s-0). Postulates, principles, the accounting cycle, capital and income measurement, financial statement preparation and analysis; emphasis on reporting to shareholders, creditors, and other external decision-makers. Prerequisites: ECON 201/202.

ACCTG 204. *Managerial Information and Control Systems.* ★3 (either term, 3-0-2). Corporate goals, planning and control concepts, cost accumulation for pricing purposes, and product costing. Prerequisite: ACCTG 202.

ACCTG 270. *Legal Accounting.* ★2 (First Term, 3-0-0). Areas of accounting useful to a practising solicitor. Note: For non-Commerce students only.

ACCTG 302. *Intermediate Financial Accounting.* ★3 (either term, 3-0-2). An in-depth treatment of the theory and methods of the GAAP (Generally Accepted Accounting Principles) model of Accounting, and an evaluation of its strengths and weaknesses. Comparative reference to alternative Accounting models will be made on a selective basis. Prerequisites: ACCTG 202, ACCTG 204, MANEC 323. Open only to Business Administration and Commerce Students or by consent of the Department Chairman.

ACCTG 304. *Accounting Information Systems.* ★3 (either term, 3-0-2). Introduction to total information systems with emphasis on the role of accounting, using both conceptual reviews and case material pertaining to decision-making by owners, creditors, and managers. Accounting 304 is recommended for students concentrating in Accounting. Prerequisite: ACCTG 204. Open only to Business Administration and Commerce students or by consent of the Department Chairman.

ACCTG 307. *Financial Accounting.* ★3 (either term, 3-0-1.5). Accounting and reporting to persons outside of the organization. Note: Not open to students registered in the Faculty of Business Administration and Commerce.

ACCTG 308. *Managerial Accounting.* ★3 (Second Term, 3-0-2). Concepts employed to manage the planning and control aspects of organizations. Prerequisite: ACCTG 307 or permission of instructor. Note: Not open to students registered in the Faculty of Business Administration and Commerce.

ACCTG 309. *Financial and Managerial Accounting.* ★3 (either term, 3-0-2). Accounting for non-business majors. Note: Not open to students registered in the Faculty of Business Administration and Commerce.

ACCTG 402. *Accounting Theory.* ★3 (either term, 3-0-0). An examination of the structure of accounting theory, including a thorough study of theories of income and value relevant to accounting. A framework for evaluating these theories, including the theories supporting generally accepted accounting principles, is considered. Other current topics in financial accounting may be included from time to time. Prerequisites: ACCTG 302, FIN 304. Open only to fourth-year Business Ad-

ministration and Commerce students, or by consent of the Department Chairman.

ACCTG 403. *Advanced Financial Accounting.* ★3 (either term, 3-0-0). Analysis of complex accounting problems with emphasis on current issues in accounting practice. Prerequisite: ACCTG 402. Open only to fourth year Business Administration and Commerce students or by consent of the Department Chairman.

ACCTG 404. *Intermediate Managerial Control Concepts.* ★3 (either term, 3-0-0). Accounting for managerial decision-making. Emphasis on cost and revenue accumulation for control and pricing problems as well as on product costing. Prerequisites: ACCTG 204, MGTSC 356, ORG T 303, ORG T 305, or consent of the Faculty. Open only to Business Administration and Commerce students or by consent of the Department Chairman.

ACCTG 406. *Advanced Managerial Control Concepts.* ★3 (either term, 3-0-0). Current research and cases in managerial accounting. Prerequisites: ACCTG 404. Open only to fourth year Business Administration and Commerce students or by consent of the Department Chairman.

ACCTG 408. *Advanced Accounting Information Systems.* ★3 (Second Term, 3-0-0). Managerial decision-making with stress on the role of accounting measurements. Emphasis on the use of the computer in processing data. Prerequisite: ACCTG 304. Open only to Business Administration and Commerce students or by consent of the Department.

ACCTG 410. *Research in Accounting.* ★3 (Second Term, 3-0-0). Preparation of research reports on topics of interest. Prerequisites: ACCTG 402 and 404. Open only to fourth year Business Administration and Commerce students or by consent of the Department Chairman.

ACCTG 412. *Auditing History, Theory, and Current Thought.* ★3 (either term, 3-0-0). Internal and external auditing history and philosophy. Functional or operational auditing, the nature of evidence, ethics, and independence. Prerequisite: ACCTG 302. Open only to Business Administration and Commerce students or by consent of the Department Chairman.

ACCTG 445. *Individual Research Projects.* ★3 (either term, 3-0-0). Special study for advanced undergraduates. Prerequisite: Consent of instructor and Associate Dean. (When a student registers in this course for a second, third, fourth or fifth time subsequent higher course numbers are to be used, ACCTG 446, 447, 448 and 449.)

NOTE: The remaining courses in this section are open to graduate students only.

ACCTG 452. *Introductory Financial Accounting.* ★3 (First Term, 3-0-0).

ACCTG 453. *Managerial Control Systems.* ★3 (Second Term, 3-0-0).

ACCTG 561. *Seminar in Financial Accounting Theory.* ★3 (First Term, 3-0-0).

ACCTG 562. *Seminar in Management Accounting.* ★3 (Second Term, 3-0-0).

ACCTG 563. *Seminar in Current Accounting Issues.* ★3 (Second Term, 3-0-0).

ACCTG 900. *Non-Thesis Project* ★3 (variable).

54.3 *Agricultural Economics*

Department of Rural Economy

NOTE: FOR A COMPLETE LISTING OF AGRICULTURAL ECONOMICS COURSES SEE § 34 OF THE FACULTY OF AGRICULTURE AND FORESTRY CALENDAR.

Departments in round brackets offer Interdepartmental courses jointly. Square brackets indicate the department in which students register.

INT D 302. *Economics of Agriculture.* ★3 (either term, 3-0-0). The nature and scope of agricultural economics; economic aspects of agricultural production, marketing, finance, resource use, prices, and policy; relation of the agricultural sector to the economy as a whole; analysis of structural change, economic growth and adjustment in agriculture. Prerequisites: ECON 200 or 201/202. (Department of Rural Economy and the Department of Economics.) Note: Formerly INT D 367. [Rural Economy]

INT D 303. *Economics of World Agriculture.* ★3 (either term, 3-0-0). A survey of world structure of agricultural production, consumption, and trade; international agricultural policies and agreements; impact of regional economic integration on agriculture; interrelation of economic development and trade in agricultural commodities. Prerequisites: ECON 200 or 201/202. (Department of Rural Economy and the Department of Economics.) Note: Formerly INT D 368. [Rural Economy]

INT D 356. *Sociology of Rural Life.* ★3 (either term, 3-0-0). The rural community and rural social system with special reference to changes in the rural way of life. Prerequisite: R SOC 300 or SOC 202 or 403 or consent of the Department. (Department of Rural Economy and the Department of Sociology.) Note: Formerly SOC/R SOC 356. [Rural Economy]

INT D 365. *Natural Resource Economics.* ★3 (either term, 3-0-0). Economics of natural resources related to agriculture and forestry; conservation, population, resource scarcity, property and tenure institutions, economic rent and resource pricing, resource development and evaluation, environmental protection, public resource policy. Prerequisites: ECON 201; ECON 202 recommended. Note: Not open to students with credit in ECON 365. (Offered jointly by the Departments of Rural Economy and Forest Science.) [Rural Economy]

AG EC 323. *Management for Agricultural and Forest Business* ★3 (First Term, 3-0-0). Principles of management applied to farm and forest supply, service, and distribution businesses. Prerequisite: AG EC 203 or ECON 201/202 or equivalent.

AG EC 333. *Introduction to Farm and Ranch Management.* ★ (either term, 3-0-2). Application of economic principles to the organization and operation of a farm business. Introduction to farm records and business analysis; the management process and decision criteria for choice of enterprises, size of business, resource utilization, and timing of production; alternative methods of obtaining farming resources by purchase, leasing and credit. Prerequisite: AG EC 203 or ECON 201 or equivalent.

AG EC 381. *Retail Marketing of Agricultural Products.* ★ (Second Term, 3-0-0). Wholesale and retail food market structures and conduct, with emphasis on consumer motivation, retail pricing strategies, and operational techniques and problems. Note: Not recommended for those specializing in Agricultural Economics. Prerequisite: AG EC 203 or ECON 201/202 or equivalent.

AG EC 384. *Marketing of Agricultural and Forest Products.* ★ (either term, 3-0-0). Principles of marketing. Functions and institutions of markets. Market systems, price behavior, and futures markets for agricultural and forest products. Prerequisite: AG EC 203 or ECON 201/202 or equivalent.

AG EC 423. *Management Techniques in Agriculture and Forestry.* ★3 (Second Term, 3-0-0). Application of decision making techniques to the management of agricultural and forest businesses; computer assisted management game and selected case studies. Prerequisite: AG EC 323.

AG EC 433. *Advanced Farm and Ranch Management.* ★ (Second Term, 3-0-0). Application of concepts and tools in farm business management in farm planning and farm management extension. Manual and computerized methods of farm accounting, business analysis and planning; interpretation and use of information for decision making in organizing and operating a farm business to achieve goals; planning under risk and uncertainty; farm business arrangements and strategies for growth. Prerequisite: AG EC 333 or equivalent.

AG EC 484. *Agricultural Marketing Economics.* ★3 (Second Term, 3-0-0). Structure and performance of agricultural markets. Applied agricultural market and price issues. Note: Formerly AG EC 463. Prerequisite: AG EC 384 or equivalent.

AG EC 485. *Agricultural Prices and Trade.* ★3 (Second Term, 3-0-0). Price determination, future prices, and price behavior over time; exercises in statistical price analysis; theory of trade; trade and commodity agreements. Prerequisite: AG EC 203 or ECON 201/202; AG EC 384 recommended.

54.4 *Anthropology*

Department of Anthropology

NOTE: FOR A COMPLETE LISTING OF ANTHROPOLOGY COURSES SEE § 44 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

ANTHR 202. *Man and Culture.* ★6 (3-0-0). An introduction to anthropological thought concerning such topics as race, evolution, culture growth and culture change. Not open to students with credit in ANTHR 306 or 307.

ANTHR 250. *Race and Racism in the Modern World.* ★3 (either term, 3-0-0). The challenge of racism in modern societies and the response of anthropology, including the history of the "race" concept in explaining human variation and the uses of racialist notions in discussions of individual and social differences.

ANTHR 307. *Introduction to Social and Cultural Anthropology.* ★3 (either term, 3-0-0). The comparative study of human society and culture, particularly non-Western communities, with special attention to the family, social structure, economics and political institutions and religion; process of change. Note: Not open to students who have taken ANTHR 202.

ANTHR 308. *Introduction to Linguistic Anthropology.* ★3 (either term, 3-0-0). The anthropological study of language and communications. A brief survey of field and analytical methods and the theory of linguistic anthropology.

ANTHR 309. *Introduction to Physical Anthropology.* ★3 (either term, 3-0-0). Survey of theory and basic data in human evolution and human variation. Topics include primatology, osteology, hominid paleontology, variation in modern populations.

ANTHR 327. *Indigenous and Cultural Minorities in the Modern World.* ★6 (3-0-0). The survival of indigenous and minority cultures in various societies. Anthropological perspectives on the relationships among race, class, culture, and politics, and on genocide, ethnocide, and the future of native peoples in the modern state. Prerequisite: An introductory course in social or cultural anthropology or sociology.

ANTHR 330. *Technology in Culture.* ★3 (either term, 3-0-0). An anthropological introduction to the evolution of tools and techniques; the adaptation of society to environment through technology; the interrelationship of technology, ideology, and social organization.

ANTHR 346. *Peoples and Cultures of the Circumpolar Region.* ★3 (either term, 3-0-0). Comparative study of indigenous Arctic and sub-Arctic societies. Archaeological and ethnological considerations of northern societies of the Old and New Worlds.

ANTHR 350. *Indians of North America.* ★6 (3-0-0). A survey of North American Indian cultures and civilizations. Special attention given to social organization, economic systems, prehistoric and historic social change. Some emphasis on Indians of Canada in historic and present day perspectives.

ANTHR 355. *Contemporary Canadian Native Peoples.* ★3 (either term, 3-0-0). Anthropological perspectives on some current situations of native peoples in Canada.

ANTHR 410. *Sex and Status in Comparative Perspective.* ★3 (either term, 3-0-0). Sexual status as a biological and as a cultural phenomenon. The social position of women in various societies. Prerequisite: a senior-level course in Anthropology or Sociology.

ANTHR 423. *Ecological Anthropology.* ★3 (either term, 3-0-0). A consideration of the relationships between culture and the environment. Problems involving the application of basic ecological concepts and principles to human societies and evaluation of various explanatory frameworks regarding cultural adaptations. Prerequisite: ANTHR 202 or 306 or 307, or consent of the Department. Note: Formerly part of ANTHR 422.

ANTHR 424. *Economic Anthropology.* ★3 (either term, 3-0-0). An introduction to the literature and controversies within the field, with special emphasis on systems of exchange. Prerequisite: ANTHR 202 or 307, or consent of the Department.

ANTHR 425. *Anthropology of Work and Production.* ★3 (either term, 3-0-0). The organization of work and production with emphasis on the effects of development on subsistence economies. Prerequisite: ANTHR 202 or 307, or consent of the Department.

ANTHR 431. *Multilingualism.* ★3 (either term, 3-0-0). Emphasis will be on multilingual communities. Prerequisite: ANTHR 202 or 308, or consent of the Department.

54.5 Business

BUS 201. *Business in Society I.* ★3 (either term, 3-0-0). A survey of the place of business in society.

BUS 203. *Business in Society II.* ★3 (Second Term, 3-0-0). Special topics concerning the role of business in society. Prerequisite: BUS 201 or consent of instructor.

BUS 300. *Administrative Principles.* ★6 (3-0-0). Functions of management — planning, organization, staffing, directing, controlling. Note: For non-Commerce students only.

BUS 304. *Organizational Behavior.* ★3 (either term, 3-0-0). An examination of the structure and functioning of complex organizations; the formation and interaction of groups within organizations; and the resulting experiences of, and influences on, the individual.

BUS 365. *Administration of the Small Business.* ★3 (either term, 3-0-0). Issues related to the small business. Prerequisite: FIN 304.

BUS 401. *Theory of Policy Making.* ★3 (either term, 3-0-0). Case studies in business policy. Prerequisites: MANEC 312, FIN 304, IND R 304, MGTSC 356, and MARK 304.

BUS 402. *Field Studies.* ★3 (Second Term, 3-0-0). Field studies in policy making. Prerequisite: BUS 401.

BUS 410. *Social Problems Affecting Business.* ★3 (either term, 3-0-0). An analysis of contemporary social problems faced by Canadian Business. The course will examine such problem areas as employment discrimination, automation, educational opportunities, changing social values and attitudes of employees and management, crime and income distribution. Prerequisite: Consent of instructor.

NOTE: The remaining courses in this section are open to graduate students only.

BUS 502. *Seminar in Management Information Systems.* ★3 (either term, 3-0-0).

BUS 553. *Research Methodology.* ★3 (either term, 3-0-0).

BUS 555. *Business Policy I.* ★3 (either term, 3-0-0).

BUS 556. *Business Policy II.* ★3 (either term, 3-0-0).

NOTE: § 54.6 — Reserved.

54.7 Computing Science

Department of Computing Science

NOTE: FOR A COMPLETE LISTING OF COMPUTING SCIENCE COURSES OFFERED SEE § 184 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR.

NOTE ON CREDIT FOR INTRODUCTORY COURSES: credit will be granted for only one of CMPUT 214, 261, 300, 351, and 357, and for only one of CMPUT 215 and 352.

CMPUT 214. *Introduction to Computing Science.* ★3 (First Term, 3-0-3). History and application of computers; algorithms; flow diagrams; use of a high level programming language in the solution of elementary numerical and non-numerical problems. Corequisite: MATH 207, 202 or 203 or consent of the Department. See above note on credit for introductory courses.

CMPUT 215. *Elementary Data Structures.* ★3 (Second Term, 3-0-3). Representation and manipulation of data structures by a high level language; strings; arrays; linked lists; stacks; queues; trees; applications of data structures. Prerequisite: CMPUT 214. Corequisite: MATH 208 or 204 or consent of the Department. See above note on credit for introductory courses.

CMPUT 314. *Foundations of Computing Science.* ★3 (First Term, 3-0-3). Review of sets and relations; digraphs; applications of Boolean algebra; minimization; topological sorting, maximal flow and scheduling network algorithms; paths and cycle algorithms; finite representations of numbers and discrete structures; systematic programming; correctness of programs; algorithms, automata and formal grammars. Prerequisite: CMPUT 215 or 352. Credit will be granted for only one of CMPUT 314 or 364.

CMPUT 315. *Computer Organization and Programming.* ★3 (Second Term, 3-0-3). Computer architecture; physical characteristics of input, output, and storage devices; detailed study of an assembler language including macros; subroutines, coroutines, and input-output operations; elementary operating systems concepts, programming aids; loaders, assemblers, compilers, program libraries. Prerequisite: CMPUT 215 or 352. Credit will be granted for only one of CMPUT 315 or 365.

CMPUT 351. *Elements of Programming I.* ★3 (either term, 3-0-3). Basic programming techniques using a high level language; representation and manipulation of numeric and non-numeric data; survey of computing systems, history and applications. See above note on credit for introductory courses.

CMPUT 352. *Elements of Programming II.* ★3 (Second Term, 3-0-3). Problem solving; organization of data files; representation and manipulation of data structures; interfacing with operating systems; structure of computers; input-output and storage devices; introduction to assembler language programming and other programming languages. Prerequisite: CMPUT 214, 262, 300 or 351. See above note on credit for introductory courses.

CMPUT 357. *Introduction to Computing for Business Applications.* ★3 (either term, 2-0-1). Introduction to programming using a higher-level language; program libraries; simulation; computer-oriented systems and the management decision-making process. Formerly MGTSC 357. See above note on credit for introductory courses.

CMPUT 417. *Basic File Management.* ★3 (Second Term, 3-0-0). The use of computers for file management and associated automatic information processing with concurrent study of and practice with the COBOL language. Prerequisite: CMPUT 315 or 365.

54.8 Economics

Department of Economics

NOTE: FOR A COMPLETE LISTING OF ECONOMICS COURSES OFFERED SEE § 44 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

ECON 201. *Introduction to Micro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems and policies with emphasis on the Canadian economy: the roles of consumers and firms in competitive and monopolistic markets; foreign ownership in the Canadian economy: the distribution of income, inequality and poverty; the use of the environment; government economic policies. Prerequisite: Mathematics 20 or Mathematics 33 or consent of the Department.

ECON 202. *Introduction to Macro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems and policies with emphasis on the Canadian economy: national income and monetary theory; problems of unemployment and inflation; government monetary and fiscal policies: international trade theory, problems and government policies. Prerequisite: Mathematics 20 or Mathematics 33 or consent of the Department.

ECON 323. *International Economics.* ★3 (either term, 3-0-0). A survey of the principles of international economics and the application to economic policy. The topics are foreign trade, foreign investment, and the balance of payments. Prerequisites: ECON 201/202 or consent of the Department.

ECON 331. *Labor Economics.* ★3 (First Term, 3-0-0). Theory and empirical evidence concerning the supply of and demand for labour services, wage differentials and the impact of unions. Some of the policy issues to be discussed are income maintenance, unemployment insurance and minimum wage legislation. Prerequisites: ECON 201/202 or consent of the Department.

ECON 332. *Manpower Economics.* ★3 (Second Term, 3-0-0). Analytical and policy issues relating to human resource development and manpower utilization, with particular reference to Canadian comtemporary issues. Prerequisite: ECON 331 or consent of the Department.

ECON 334. *Economics of Poverty.* ★3 (either term, 3-0-0). An examination of the economic factors associated with low income levels and standards of living of various Canadian occupational groups. Proposals to alleviate certain low income problems — the guaranteed income plan, the negative income tax proposition, etc. A critical appraisal of existing Federal, Provincial and Municipal programs in the Welfare and related fields. Prerequisites: ECON 201/202 or 306/307 or 304 or consent of the Department.

ECON 341. *Money and Finance.* ★3 (First Term, 3-0-0). Analysis of money and credit in the exchange process; the savings-investment process; commercial banking; financial intermediaries; financial markets; central banking. Prerequisites: ECON 201/202 or consent of the Department.

ECON 351. *The Public Sector.* ★3 (First Term, 3-0-0). The rationale of the public sector and its development in Canada; analysis of public decision-making and the budgetary process. Prerequisites: ECON 201/202 or consent of the Department.

ECON 352. *Economics of Taxation.* ★3 (either term, 3-0-0). Analysis of the effects of alternative levels of total taxation (budgetary tax policy) and alternative types of taxes (tax mix policy) on the economic decisions of households and business firms as reflected in the composition of national output, the distribution of national income and the level and stability of economic activity. Prerequisites: ECON 201/202 or consent of the Department.

ECON 353. *Taxation Policy and Structure.* ★3 (Second Term, 3-0-0). Analysis of the Canadian tax structure and its role in attaining certain goals of society: requirements for an optimal tax structure. Prerequisites: ECON 201/202 or consent of the Department.

ECON 355. *Economic Analysis in the Evaluation of Large-Scale Projects.* ★3 (either term, 3-0-0). An examination of the use of cost-benefit analysis, location theory and input-output analysis in assessing the economic merits of various large-scale investment projects. Examples of current interest will be used, e.g., river basin, electrical generation, and oil and gas projects. Prerequisites: ECON 201/202, or consent of the Department.

ECON 356. *The Economics of Education.* ★3 (either term, 3-0-0). An examination of the resource allocation within the educational sector of the economy. Selected topics dealing with education today as an input into production and consumption tomorrow, manpower planning and education, educational planning and decision-making, productivity and cost considerations in the educational firm, and the use of budgetary systems in allocating resources within the educational sector. Prerequisite: Consent of the Department.

ECON 361. *Transportation Economics.* ★3 (either term, 3-0-0). Economic analysis of alternative transportation systems (water, air, road and rail, for both freight and passengers). Role of transportation in urban, regional and national economic development. Public policy towards transportation. Prerequisites: ECON 201/202.

ECON 362. *Introduction to Urban Economics.* ★3 (either term, 3-0-0). An examination and analysis of the relationships of urbanization and economic growth, the economic aspects of urban spatial organization, housing, and transportation, and the urban public economy. Special attention to Canadian urban economic issues. Prerequisites: ECON 201/202 or 304 or 306/307 or consent of the Department.

ECON 363. *Introduction to Regional Economics.* ★3 (either term, 3-0-0). An appraisal of the historical and current pattern of regional income disparities in Canada, with analysis emphasizing the causes of regional variations in employment and economic growth levels. An assessment of present federal and provincial policies designed to alleviate regional disparities will be made, combined with new policy programmes that may be relevant. Prerequisites: ECON 201/202 or consent of the Department.

ECON 364. *Economics of the Prairie Region.* ★3 (either term, 3-0-0). Economic history and the contemporary economic situation; agriculture, resources development, potential for economic diversification in manufacturing and service industries, the prairie region in the national economy — tariffs, transportation, monetary policy, energy policy. Prerequisites: ECON 201/202 or 304 or 306/307.

ECON 365. *Resource Economics.* ★3 (either term, 3-0-0). Problems of allocation and development of natural resources, including contemporary Canadian resource policy issues; nature and types of resources; the economics of conservation and resource scarcity; and the role of resources in growth. Prerequisite: ECON 201/202 or 304 or ECON 306/307.

ECON 366. *Energy Economics.* ★3 (either term, 3-0-0). Types of energy resources, substitutability, conversion. The relevance of energy to economic growth. Energy as input and as a consumers' good. An overview of quantities available and used. The problems of measuring energy, the energy balance, the energy industries. The role of energy in the Canadian economic development. World energy markets. Energy policy problems. Prerequisites: ECON 201/202, ECON 304, or ECON 306/307.

ECON 373. *Industrial Organization.* ★3 (either term, 3-0-0). A survey of the behavior and performance of firms in different market structures, and discussion of public policy towards the

different structures. Prerequisites: ECON 201/202 or consent of the Department. Not open to students with credit in MANEC 312.

ECON 374. *Economics of Regulation.* ★3 (either term, 3-0-0). The study of the economic issues relating to the regulation and the operation of provincial and federal regulatory bodies in a number of industries. Among the industries studied are the natural gas and electrical utilities, and the transportation and communication industries. Prerequisites: ECON 201/202, ECON 306/307 or ECON 304.

ECON 381. *Micro-Economic Analysis I.* ★3 (either term, 3-0-0). The theory of consumer behavior; theory of production and cost: price and output determination under competition, monopoly and other market structures. Prerequisites: ECON 201/202 or consent of the Department. Not open to students with credit in MANEC 323.

ECON 382. *Macro-Economic Analysis I.* ★3 (either term, 3-0-0). National income concepts and income determination; theories of aggregate consumption, investment and employment behavior; monetary and fiscal policy. Prerequisites: ECON 201/202 or consent of the Department. Not open to students with credit in MANEC 333.

ECON 391. *Economic Institutions and Ideologies.* ★3 (either term, 3-0-0). Pre-capitalist Europe; the rise of individualism and the individualistic ethic; industrial capitalism; economics of Marx and Socialism; the rise of corporate capitalism; the consolidation of monopoly power; economic imperialism; Keynesian economics and economic policies; contemporary capitalism and its critics.

ECON 394. *The Political Economy of the New Left.* ★3 (either term, 3-0-0). A survey and criticism of the economic views of the New Left radicalism. Prerequisites: ECON 201/202 or 306/307 or 304.

ECON 405. *Computer Applications in Economics.* ★3 (either term, 3-0-0). An introduction to the relationship between economic analysis and modern high speed computers. Topics include computer techniques useful in economics, computerized statistical techniques, and examination of selected economic models of both a mathematical and stochastic nature. Prerequisites: ECON 381/382.

ECON 407. *Introduction to Econometrics I.* ★3 (First Term, 3-0-0). Statistical inference in economics. Topics in statistical theory with emphasis on estimation and tests of hypotheses. The general linear regression model. Prerequisites: ECON 381/382 or equivalent; ECON 395/396 or equivalent; MATH 202/221 or equivalent.

ECON 408. *Introduction to Econometrics II.* ★3 (Second Term, 3-0-0). Econometric problems and techniques with emphasis on regression models. Single equation techniques and introduction to simultaneous equation systems. Applications in research projects. Prerequisite: ECON 407 or equivalent.

ECON 418. *Canadian Economic Development.* ★3 (either term, 3-0-0). Introduction to "new economic history," emphasizing the methodology of quantitative economic history research. Prerequisite: ECON 381 and 318 or 318 or consent of the Department.

ECON 421. *International Trade.* ★3 (First Term, 3-0-0). Nature and relevance of international trade; early trade doctrines; the theory of comparative advantage, classical and modern approaches and empirical evidence for them; new approaches to the pure theory of international trade; economic growth and international trade; market imperfections and trade; commercial policy; economic integration and the gains from trade. Prerequisites: ECON 381/382.

ECON 422. *International Economics.* ★3 (Second Term, 3-0-0). An analysis of short and long term capital movements, direct foreign investment in Canada, the foreign exchange market, balance of payments problems, international adjustment mechanisms and monetary arrangements. Prerequisites: ECON 381/382.

ECON 431. *Labour Economics.* ★3 (either term, 3-0-0). An advanced treatment of demand for labour, supply of labour, wage differentials, trade union behaviour, and related topics. Prerequisite: ECON 331 and 381, or consent of the Department.

ECON 441. *Monetary Theory and Policy.* ★3 (either term, 3-0-0). The significance of price level changes; classical and Keynesian macro-economics models; theory of demand for money; theory of money supply; monetary policy. Prerequisite: ECON 382 or consent of the Department.

ECON 451. *Resource Allocation Within the Public Sector of the Canadian Economy.* ★3 (either term, 3-0-0). An examination of basic economic principles and concepts which are utilized in allocating resources in the public sector of the Canadian economy. Prerequisites: ECON 351/352 or consent of the Department.

ECON 471. *Industrial Organization I.* ★3 (First Term, 3-0-0). Contemporary industrial structure; minimum efficient size of firms; business concentration; related topics, e.g., foreign investment in the Canadian economy and barriers to new competition. Prerequisite: ECON 381 or consent of the Department.

ECON 472. *Industrial Organization II.* ★3 (Second Term, 3-0-0). The behavior of firms in different market structures and the attendant economic performance. The development and administration of an effective competition policy; problems of law enforcement; adequate measures to deal with specific market elements, e.g., price fixing, predatory pricing, mergers, misleading advertising. Prerequisite: ECON 381 and ECON 373 or 471 or MANEC 312.

ECON 473. *Economics of Non-Market Activities.* ★3 (either term, 3-0-0). The application of economic analysis to such topics as crime, marriage, fertility and representative government. Prerequisites: ECON 201/202 and consent of the Department.

ECON 481. *Micro-Economic Analysis II.* ★3 (either term, 3-0-0). Theory of distribution; general equilibrium analysis; welfare economics. Prerequisite: ECON 381.

ECON 482. *Macro-Economic Analysis II.* ★3 (either term, 3-0-0). Inflation, employment, and macro-economic policy; business cycles and theories of economic growth; macro-economic forecasting and econometric models. Prerequisite: ECON 382.

54.9 English

Department of English

NOTE: FOR A COMPLETE LISTING OF ENGLISH COURSES OFFERED SEE § 44 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

ENGL 200. *A Survey of English Literature from the Middle Ages to the Twentieth Century.* ★6 (3-0-0). A close study of representative masterpieces which demonstrate the development of the English literary tradition.

ENGL 210. *English Literary Forms.* ★6 (3-0-0). This course combines an introduction to the various genres of English literature (prose, poetry and drama) with formal instruction in writing skills. One-third of the course is devoted to writing instruction.

ENGL 215. *Introduction to the Study of Literature.* ★3 (either term, 3-0-0). A close reading of significant works of prose and poetry in English, to introduce the student to the most effective ways of understanding the various genres of English Literature. Three essays will be required. Note: This course is prerequisite to ENGL 270, 275, 284 and 290. Formerly part of ENGL 260 and 265.

ENGL 270. *Readings in Poetry.* ★3 (either term, 3-0-0). A close study of selected modern and traditional verse to introduce the student to ways of approaching and critically evaluating poetry. Prerequisite: ENGL 215.

ENGL 275. *Readings in Prose.* ★3 (either term, 3-0-0). A close study of novels, short stories, essays, and other forms, both modern and traditional, to introduce the student to ways of approaching prose, and to assist the student in reading critically. Prerequisite: ENGL 215.

ENGL 284. *Canadian Literature in Process.* ★3 (either term, 3-0-0). An intensive reading of mainly contemporary Canadian novels, stories, poems, and plays, in English. Prerequisite: ENGL 215.

ENGL 290. *The Craft of Writing.* ★3 (Second Term, 3-0-0). A study of techniques of expository writing, intended to increase awareness of the resources of English prose, and to provide intensive practice in using these. Prerequisites: ENGL 215, any single-term course in English and consent of the Department.

54.10 Finance

FIN 304. *Business Finance.* ★3 (either term, 3-0-0). Introduction to financial decision-making. Prerequisites: ACCTG 204, MANEC 323, MGTSC 307, 357.

FIN 401. *Risk Management.* ★3 (Second Term, 3-0-0). Nature of risk and uncertainty and methods of managing risk; new approaches and empirical evidence. Prerequisite: FIN 304.

FIN 411. *Investment Principles: Security Analysis.* ★3 (either term, 3-0-0). Theories of investment with special reference to types of securities, prices, and market operation. Analytical techniques in the selection of securities. Prerequisite: FIN 304.

FIN 415. *International Financial Markets.* ★3 (either term, 3-0-0). An overview of the international financial environment and the financial function in the multi-national corporation. Its purpose is to provide decision-making skills in international money and capital markets. Prerequisite: FIN 304.

FIN 430. *Selected Topics in Finance.* ★3 (Second term, 3-0-0). Prerequisite: FIN 304 and consent of instructor.

FIN 431. *Advanced Portfolio Management.* ★3 (either term, 3-0-0). Recent developments in capital market theory, option pricing models, empirical studies, and the implications of theoretical developments for investment planning and evaluation of investment performance. Prerequisite: FIN 411.

FIN 432. *Capital Investment.* ★3 (either term, 3-0-0). Capital budgeting and the determination of the cost of capital to the firm. Prerequisites: FIN 304 or consent of instructor.

FIN 433. *Advanced Corporate Finance.* ★3 (either term, 3-0-0). Demand and cost estimation for the firm. Efficient asset selection. Growth policy. Financial strategy, including capital structure and dividend policy. Prerequisite: FIN 304.

FIN 445. *Individual Research Projects.* ★3 (either term, 3-0-0). Special study for advanced undergraduates. Prerequisite: Consent of instructor and Associate Dean. (When a student registers in this course for a second, third, fourth or fifth time subsequent higher course numbers are to be used, FIN 446, 447, 448 and 449.)

NOTE: The remaining courses in this section are open to graduate students only.

FIN 456. *Finance.* ★3 (either term, 3-0-0).

FIN 562. *Portfolio Management.* ★3 (First Term, 3-0-0).

FIN 563. *Corporate Financial Planning.* ★3 (Second Term, 3-0-0).

FIN 564. *Risk Management.* ★3 (First Term, 3-0-0).

FIN 565. *Selected Topics in Finance.* ★3 (either term, 3-0-0).

FIN 568. *International Finance.* ★3 (either term, 3-0-0).

FIN 900. *Non-Thesis Project* ★3 (ariable).

54.11 Geography

Department of Geography

NOTE: FOR A COMPLETE LISTING OF GEOGRAPHY COURSES OFFERED SEE § § 44 AND 184 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

GEOG 200. *General Geography.* ★6 (3-0-0). A survey course covering various aspects of Geography, including the physical, human and regional. GEOG 200 may not be offered for credit with any other 200-level course in Geography.

GEOG 230. *Introductory Physical Geography I.* ★3 (either term, 3-0-2). Introduction to geomorphology; the nature and formation of major landform features of the earth's surface. Rock weathering and slope movements. Landforms developed by erosional and depositional processes of rivers, glaciers, winds, waves and currents. A field trip in the Edmonton area may be offered. Laboratory work required.

GEOG 231. *Introductory Physical Geography II.* ★3 (either term, 3-0-2). Introduction to the atmosphere and biosphere. Physical elements of weather and climate. Causes, changes and patterns of weather. Climatic classification. Spatial and dynamic interrelations of climate, soils and vegetation. Laboratory work required. Note: GEOG 230 does not have to precede GEOG 231. The courses may be taken in either order or quite separately from each other.

GEOG 250. *Spatial Organization of Human Activity.* ★3 (either term, 3-0-0). The search for order in man's occupation of the earth and of his distribution across it; maps as techniques for understanding reality.

GEOG 336. *Environment Alberta.* ★3 (either term, 3-0-0). The physical environment of Alberta. Regional variation in the patterns of climate, landforms, water, soils, vegetation and wildlife; the geographic synthesis of these patterns to give a broad understanding and appreciation of the province and its environmental problems.

GEOG 350. *Introduction to Economic Geography.* ★3 (either term, 3-0-0). Analysis of the locational characteristics of economic activities throughout the world. The significance of location and spatial arrangement with respect to the relationships between geography and economics. Prerequisite: GEOG 250 or a course in economics.

GEOG 359. *Introduction to Behavioral Geography.* ★3 (Second Term, 3-0-0). Decision making in a spatial context. Response to perceived social and physical environment.

GEOG 360. *Geography of Rural Canada.* ★3 (First Term, 3-0-0). The physical environment and the development of rural Canada; physical limits and economic margins; agricultural and rural development; the future for rural Canada.

GEOG 364. *The Influence of Man on the Natural Environment.* ★3 (either term, 3-0-0). Introduction to basic concepts necessary for a general understanding of processes whereby man initiates environmental change, intentionally and unintentionally.

GEOG 381. *Geography of the City.* ★3 (First Term, 3-0-0). Origin and spread of urban settlement; problems arising from the growth and form of metropolitan areas and inter-city systems.

GEOG 382. *Geography of Urban Canada.* ★3 (Second Term, 3-0-0). Spatial aspects of urban development in Canada with particular reference to current research and literature.

GEOG 400. *North America.* ★6 (3-0-0). The regional geography of Canada and the United States. The physical framework of these countries and its significance in their historical development; the concept of the geographic region, the pattern and characteristics of these regions, with selected detailed studies. Prerequisite: A previous course in geography or consent of the Department.

NOTE: § 54.12 — Reserved.

54.13 History

Department of History

NOTE: FOR A COMPLETE LISTING OF HISTORY COURSES OFFERED, SEE § 44 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

HIST 200. *European History.* ★6 (3-1s-0). The evolution of European society from the decline of the Roman Empire in the West to the present.

HIST 201. *European History since the Renaissance.* ★6 (3-0-0).

HIST 204. *Studies in the Political and Social History of Europe.* ★3 (either term, 3-0-0). A course dealing with four or five particular historical topics from the fall of Rome to 1914 using an integrated text and monograph studies.

HIST 278. *An Introduction to the Study of Canadian History 1500-1867.* ★3 (First Term, 3-0-0). Designed to provide a foundation for senior and advanced courses in Canadian History. Note: Formerly HIST 378.

HIST 279. *An Introduction to the Study of Canadian History 1867-1967.* ★3 (Second Term, 3-0-0). Designed to provide a foundation for senior and advanced courses in Canadian History. Note: Formerly HIST 379.

HIST 310. *Twentieth Century Europe.* ★6 (3-0-0).

HIST 311. *History of International Relations since 1939.* ★6 (3-0-0).

HIST 339. *Eastern Europe since World War I.* ★3 (either term, 3-0-0). The recent history of Eastern Europe.

HIST 340. *Social and Economic History of Europe.* ★6 (3-0-0).

HIST 359. *Eastern Europe in the Nineteenth Century.* ★3. (either term, 3-0-0). History of the area, from the Napoleonic War to World War I; the Polish question; the evolution of the Habsburg Empire; formation of nation-states in the Balkans.

HIST 364. *History of American Economic Life.* ★3 (either term, 3-0-0). A survey of American economic problems and policies in their historical setting.

HIST 370. *Topics in the Social and Intellectual History of English Canada Since 1760.* ★3 (either term, 3-0-0). A survey of the major themes in English-Canadian social and intellectual history. Prerequisites: HIST 278/279 or consent of the Depart ment.

HIST 374. *French Canada to Confederation.* ★3 (either term, 3-0-0).

HIST 375. *French Canada since Confederation.* ★3 (either term, 3-0-0).

HIST 376. *History of Canada Since 1914.* ★3 (either term, 3-0-0).

HIST 377. *Topics in the History of Canadian External Relations.* ★3 (either term, 3-0-0). A survey of the impact of the United States and Great Britain on Canadian development.

HIST 392. *Modern Latin America.* ★3 (either term, 3-0-0). A survey of Latin American history since 1810. Note: Formerly part of HIST 390.

HIST 395. *History of Science and Technology.* ★6 (3-0-0). The nature of science and technology. The scientific process, the origins of the scientific tradition and the emergence of science. The scientific and industrial revolutions; discovery and invention in response to intellectual, social, political and commercial needs and pressures. The evolution of the major scientific disciplines and of technology from antiquity to the present; the interdependence of science and technology through the ages; the natural and social sciences in our time; prediction of possible future trends.

HIST 464. *Topics in the History of American Economic Life.* ★3 (either term, 0-3s-0). A seminar on selected problems in American economic history.

54.14 Industrial Relations

IND R 304. *Industrial Relations in Canada.* ★3 (either term, 3-0-0). Union, management and government participation in the Canadian industrial relations system. It examines the nature, causes and possible methods of settling labor disputes and processing grievances. It gives the student a chance to participate in simulated negotiations of collective agreements.

IND R 401. *Labor Relations Law and Legislation.* ★3 (First Term, 3-0-0). An examination of the legal framework within which collective bargaining takes place in Canada.

IND R 411. *Collective Bargaining.* ★3 (First Term, 3-0-0). A comprehensive study of collective bargaining including the theories of bargaining, negotiating techniques and the implications of collective bargaining for public policy. This course examines the historic and contemporary problems which have affected the development of the Canadian Labor Movement and Canadian Public Policy. Prerequisite: IND R 304 or consent of instructor.

IND R 412. *Administration of Agreements.* ★3 (Second Term, 3-0-0). A detailed analysis examining the scope of collective bargaining; the day-to-day administration of those agreements and the problems of dealing with industrial conflict. Prerequisite: IND R 411 or consent of instructor.

IND R 413. *Employee Benefits in Canada.* ★3 (First Term, 3-0-0). The union, management, and government response to a wide range of employee benefits and social security. The characteristics, rationale, deficiencies, and costs of these programs will be studied. This course is offered to both business and non-business students.

IND R 414. *Comparative Industrial Relations Systems.* ★3 (Second Term, 3-0-0). This course examines the economic, political and social philosophy of the industrial relations systems of several countries in various stages of industrialization. Prerequisite: IND R 304 or consent of instructor.

IND R 415. *Development and Utilization of Manpower Resources in Canada.* ★3 (either term, 3-0-0). This course recognizes Canada's need to develop its human resources. Concern is expressed over the structural impact on Canada's human resource needs of such developments as technological change and shifts within the industrial sector. Attention is given to those institutional pressures which influence the type of labor available in Canada. Specific analysis is made of the Government's influence through its manpower programs such as apprenticeship, vocational training and the Canada Manpower Centre. Similarly the trade union's influence is examined through its policies and activities such as the closed shop and jurisdictional restrictions. In such settings, management's strategy is outlined and discussed as it relates to management's policies regarding plant location and expansion, technological innovation, hiring, training and retraining, etc.

IND R 445. *Individual Research Projects.* ★3 (either term, 3-0-0). Special study for advanced undergraduates. Prerequisite: Consent of instructor and Associate Dean. (When a student registers in this course for a second, third, fourth or fifth time subsequent higher course numbers are to be used, IND R 446, 447, 448 and 449.)

NOTE: The remaining courses in this section are open to graduate students only.

IND R 471. *Unions, Managements, and the Public.* ★3 (either term, 3-0-0).

IND R 563. *Labor Relations.* ★3 (First Term, 3-0-0). An advanced study of collective bargaining including the theories of bargaining, negotiating techniques and the implications of public policy for collective bargaining. The seminar provides an opportunity for participation in simulated mediation of labor disputes. This course is not available to students who have taken IND R 411. Prerequisite: IND R 471 or equivalent.

IND R 564. *Collective Agreement Administration and Arbitration.* ★3 (Second Term, 3-0-0). Examines the philosophy and the mechanics of the third party intervention in industrial disputes. Evaluates the feasibility of dispute settlement methods in Canada, ranging from voluntary interest arbitration to compulsory rights arbitration. The seminar provides an opportunity for participating in simulated arbitration. Prerequisite: IND R 471 or equivalent.

IND R 900. *Non-Thesis Project.* ★3 (variable).

54.15 Legal Relations

LEG R 310. *Commercial Law.* ★3 (either term, 3-0-0). An introduction to the Canadian legal system with emphasis on legal problems in commercial law.

LEG R 411. *Law of Business Organizations.* ★3 (either term, 3-0-0). An introduction to the role of the corporation in the business and commercial life of Canada and Alberta, with emphasis on the small private company. Topics include characteristics of corporate existence, process of incorporation, forming a private company, relationship with third parties, distinction between management and ownership, duties of directors and officers, and shareholder rights. Prerequisite: LEG R 310 or consent of instructor.

LEG R 412. *The Legal Regulation of Business.* ★3 (either term, 3-0-0). An examination of the principles of law that underlie the administrative regulation of business by governmental agencies. A representative agency from each of the three levels of government will be analysed to determine how it is created, what powers it possesses, how it uses its powers and how its powers are constrained. Prerequisite: LEG R 310 or consent of instructor.

LEG R 445. *Individual Research Projects.* ★3 (either term, 3-0-0). Special study for advanced undergraduates. Prerequisite: Consent of instructor and Associate Dean. (When a student registers in this course for a second, third, fourth or fifth time subsequent higher course numbers are to be used, LEG R 446, 447, 448 and 449.)

NOTE: The remaining courses are open to graduate students only.

LEG R 519. *Tax Factors in Business Decision Making.* ★3 (either term, 3-0-0).

LEG R 570. *Law, Public Policy and the Canadian Managerial Environment.* ★3 (either term, 3-0-0).

LEG R 571. *Seminar on Products Liability and Consumer Protection.* ★3 (either term, 3-0-0).

LEG R 900. *Non-Thesis Project.* ★3 (variable.)

54.16 Managerial Economics

MANEC 312. *Government and Business.* ★3 (either term, 3-0-0). An analysis of the structure, conduct, and performance of industry. An examination of competition policy in Canada. Prerequisite: MANEC 323 or consent of instructor. Credit will not be given for both MANEC 312 and ECON 373.

MANEC 323. *Business Economics.* ★3 (either term, 3-0-0). Intermediate micro-economics with business applications. The theory of consumer behavior, price and output

determinations under various forms of competition; the allocation of resources; welfare economics. Prerequisites: ECON 201/202, and MATH 240. Credit will not be given for both MANEC 323 and ECON 381.

MANEC 333. *Aggregate Income Analysis.* ★3 (either term, 3-0-0). The theoretical examination of the determinants of national income. Ways in which governments, consumers, and investors combine to determine income, employment growth, and stability. Prerequisites: ECON 201/202. Credit will not be given for both MANEC 333 and ECON 382.

MANEC 409. *Canadian Business History.* ★3 (either term, 3-0-0). The development of the Canadian business system. Special attention is given to the environmental and technological forces that gave shape to the growth of Canada and how these have influenced the character and organizational structure of business.

MANEC 411. *International Business.* ★3 (either term, 3-0-0). A course to acquaint students with the problems and opportunities arising when a firm operates in more than one country: the choice between operating abroad, export and licensing, the nature and causes of the emergence of new capital markets, international institutions facilitating export finance, commodity price stabilization programmes, the implications of commercial, tax and integration policy for business decisions, aspects of international management such as hedging of foreign exchange risk, transfer pricing and choice of optimal capital structure. Prerequisite: MANEC 312.

MANEC 421. *Taxation and Estate Planning.* ★3 (either term, 3-0-0). An examination of the Canadian tax structure from economic, legal, and administrative points of view.

MANEC 441. *Economic Problems.* ★3 (either term, 3-0-0). Current economic problems in business.

MANEC 442. *The Energy Industry, Public Utilities, and Regulation.* ★3 (either term, 3-0-0). A theoretical and empirical examination of the determinants of energy supply and demand. Problems in pricing and regulation of energy industries and public utilities are analyzed. Canadian Federal and Provincial policies are reviewed in depth. Prerequisite: MANEC 312.

MANEC 445. *Individual Research Projects.* ★3 (either term, 3-0-0). Special study for advanced undergraduates. Prerequisite: Consent of instructor and Associate Dean. (When a student registers in this course for a second, third, fourth or fifth time subsequent higher course numbers are to be used, MANEC 446, 447, 448 and 449.)

MANEC 450. *Urban Economics.* ★3 (either term, 3-0-0). The economic characteristics of real property, the fundamentals of urban growth. Prerequisite: MANEC 323 and 333, or consent of instructor.

NOTE: The following courses are open to graduate students only.

MANEC 463. *Managerial Economics.* ★3 (First Term, 3-0-0).

MANEC 464. *Aggregate Income Analysis.* ★3 (either term, 3-0-0).

MANEC 550. *Pricing.* ★3 (either term, 3-0-0).

MANEC 551. *The Managerial Impact of Regulatory Development.* ★3 (either term, 3-0-0).

MANEC 552. *Government Intervention in Business Management.* ★3 (either term, 3-0-0).

MANEC 555. *Transportation Management.* ★3 (either term, 3-0-0).

MANEC 556. *Urban Management.* ★3 (either term, 3-0-0).

MANEC 567. *Selected Topics in Managerial Economics.* ★3 (Second Term, 3-0-0).

MANEC 569. *Energy Industry Policy.* ★3 (either term, 3-0-0).

MANEC 900. *Non-Thesis Project.* ★3 (variable).

NOTE: § 54.17—Reserved.

54.18 Management Science

MGTSC 306. *Probability and Statistics for Business Part I.* ★3 (First Term, 3-0-0). Introduction to probability; discrete and continuous random variables and probability distributions; expectation and variance; normal and binomial distributions; sampling; and sampling distributions for means and proportions; confidence intervals and tests of hypotheses for means and proportions; Bayesian decision theory. Prerequisite: MATH 240.

MGTSC 307. *Probability and Statistics for Business Part II.* ★3 (Second Term, 3-0-0). Statistical inference for the variance; statistical inference for the means, proportions and variances from two populations; analysis of variance; non-parametric statistics; joint probability distributions; marginal and conditional distributions; covariance, correlation and independence; contingency tables; simple linear regression, multiple linear regression, nonlinear regression, and time series analysis. Prerequisites: MGTSC 306; MATH 243.

MGTSC 356. *Introduction to Management Science (Operations Research).* ★3 (either term, 3-0-0). A problem-solving course designed to introduce the student to management science. The following topics are usually covered; history and overview of managment sciences; linear programming including formulation of linear problems, simplex programming solution techniques, and sensitivity analysis; transportation and other network algorithms. Prerequisites: MATH 243, MGTSC 306, 357.

MGTSC 357. *Introduction to Computing for Business Application.* ★3 (either term, 2-1s-0). Introduction to programming using a higher level language such as FORTRAN, and to computer-oriented systems and associated equipment. Access to program libraries. Introduction to simulation. An emphasis is put on information control functions of the management decision-making process.

MGTSC 406. *Business Data Processing.* ★3 (First Term, 3-0-0). This course will include detailed study of business data structure; design and management of large data bases; sorting and merging techniques; file management by COBOL and PL/1; information retrieval; data base management languages; design of an on-line data processing system; case studies. Prerequisite: MGTSC 357 or equivalent. Students registered with the Department of Computing Science are required to have the consent of the Chairman of the Department of Finance and Management Science.

MGTSC 407. *Simulation and Computer Modelling Techniques in Management.* ★3 (Second Term, 3-0-0). This course will include basic concepts of Monte Carlo simulation; simulation of management systems using GPSS and SIMSCRIPT; other simulation languages; design of on-line interactive models in marketing, finance, accounting, and other functional areas; case studies. Prerequisite: MGTSC 357. Students registered with the Department of Computing Science are required to have the consent of the Chairman of the Department of Finance and Management Science.

MGTSC 410. *Advanced Topics in Management Science.* ★3 (First Term, 3-0-0). Advanced mathematical programming including problems of sub-optimization, the decomposition principle, integer programming, optimal search techniques, quadratic programming, general non-linear programming and dynamic programming. Prerequisites: MGTSC 356.

MGTSC 411. *Operations Research in the Private and Public Sectors.* ★3 (Second Term, 3-0-0). Management science and operations research models applied to real operating systems. This course will present case studies illustrating all aspects of the application of quantitative models to actual problems. Modelling the system and interpreting the results will be stressed as opposed to developing solution techniques. Areas of application may include: marketing, finance, urban problems, health care delivery, and crime prevention. Prerequisites: MGTSC 356 and 412.

MGTSC 412. *Stochastic Systems.* ★3 (Second Term, 3-0-0). A course in modelling and optimizing probabilistic time-varying systems such as airport operations, traffic flow, hospitals, production processes, and consumer purchasing behavior. The following topics are covered: Markov processes, queueing models; dynamic programming; policy iteration; inventory theory; simulation. Prerequisites: MATH 243, MGTSC 306 and 357.

MGTSC 415. *Decision Analysis.* ★3 (Second Term, 3-0-0). Analysis of decision-making under uncertainty. This includes single-person decision theory (Bayesian analysis); group decision theory, risk-sharing, and the theory of syndicates; and competitive game theory. The course seeks to develop a framework for rational behavior in the face of uncertainty. Prerequisite: MGTSC 307.

MGTSC 417. *Multivariate Statistical Methods in Business.* ★3 (either term, 3-0-0). Estimation techniques for statistical models relating large sets of variables. Emphasis on application of techniques to examples from functional areas of business. Models discussed may include multiple regression, multiple and partial correlation, analysis of variance, canonical

correlation, discriminant analysis, principal components, factor analysis, cluster analysis, multi-dimensional scaling, and path analysis. Prerequisite: MGTSC 307.

MGTSC 419. *Statistical Models in Business.* ★3 (either term, 3-0-0). Estimation techniques for various types of statistical models. Emphasis on application of techniques to examples from the functional areas of business. Models may include multiple regression, lagged models; models with autocorrelated errors; simultaneous equations; time series models; exponential smoothing; input-output models. Prerequisites: MGTSC 307.

MGTSC 431. *Production Management.* ★3 (First Term, 3-0-0). A systems oriented view of the production management field. Analytical tools available to the production manager and their relationship to the performance of the total system. (Typical topics: Statistical control, scheduling, assembly line balancing, simulation). Prerequisite: MGTSC 356 or equivalent.

MGTSC 432. *Advanced Production Management.* ★3 (Second Term, 3-0-0). Further development of topics introduced in MGTSC 431. Prerequisite: MGTSC 431 or equivalent.

MGTSC 445. *Individual Research Projects.* ★3 (either term, 3-0-0). Special study for advanced undergraduates. Prerequisite: Consent of instructor and Associate Dean. (When a student registers in this course for a second, third, fourth or fifth time subsequent higher course numbers are to be used, MGTSC 446, 447, 448 and 449.)

NOTE: The remaining courses in this section are open to graduate students only.

MGTSC 459. *Quantitative Decision Analysis Under Uncertainty.* ★3 (either term, 3-0-0).

MGTSC 461. *Management Science.* ★3 (Second Term, 3-0-0).

MGTSC 462. *Statistical Inference in Business.* ★3 (Second Term, 3-0-0).

MGTSC 500. *Seminar in Quantitative Methods in Business I.* ★3 (First Term, 3-0-0).

MGTSC 501. *Seminar in Quantitative Methods in Business II.* ★3 (Second Term, 3-0-0).

MGTSC 503. *Production and Operations Management.* ★3 (First Term, 3-0-0).

MGTSC 504. *Applied Time Series Analysis.* ★3 (First Term, 3-0-0).

MGTSC 520. *Multivariate Statistical Methods in Business.* ★3 (Second Term, 3-0-0).

MGTSC 900. *Non-Thesis Project.* ★3 (variable).

54.19 Marketing

MARK 304. *Fundamentals of Marketing.* ★3 (either term, 3-0-0). The evaluation of marketing in the economy. Marketing structure, organization and behavior; marketing functions. Prerequisites: ACCTG 204, LEG R 310, MANEC 323, 333, MGTSC 307, 357, and ORG T 303 and 305; or by consent of the Chairman of the Department of Marketing and Economic Analysis.

MARK 402. *Marketing Research.* ★3 (either term, 3-0-0). Nature and significance of marketing research. Marketing research methods; investigation and analysis of specific research problems. Prerequisite: MARK 304 or consent of instructor.

MARK 403. *Communication Processes in Marketing.* ★3 (either term, 3-0-0). Basic concepts and functions of advertising and communication in the economy; consumer motivation; measurement of communication effectiveness. Prerequisite: MARK 304 or consent of instructor.

MARK 405. *Quantitative Techniques in Marketing Analysis.* ★3 (Second Term, 3-0-0). Mathematical concepts and techniques that can be utilized in the analysis and solution of marketing management problems. Prerequisite: MARK 304 or consent of instructor.

MARK 407. *Marketing Management.* ★3 (either term, 3-0-0). Product and price policies, management of the marketing organization. Emphasis on case analysis of marketing programs, plus readings in the literature. Prerequisite: MARK 304 and at least one of MARK 403, 414 and 418.

MARK 408. *Marketing Decision Simulation.* ★3 (either term, 3-0-0). Marketing decision-making in a dynamic simulated environment. Emphasis on a computerized marketing decision game, plus readings in the literature. Prerequisites: MARK 304. Also MARK 405 or consent of the instructor.

MARK 411. *Marketing Policies and Problems.* ★3 (either term, 3-0-0). Special topics in marketing, to be announced in advance by the instructor. Prerequisite: MARK 304 or consent of instructor.

MARK 414. *Channel Management.* ★3 (either term, 3-0-0). Marketing organization at the retail and wholesale levels of the marketing channel. Specialization and integration of marketing organization; emphasis on systems analysis. Problems in physical distribution and transportation. Prerequisite: MARK 304 or consent of instructor.

MARK 418. *Psychological-Sociological Approaches to Marketing.* ★3 (either term, 3-0-0). Application of the behavioral sciences to analysis of the internal and external environments of marketing; analysis of consumer motivation; comprehensive models of consumer behavior; emphasis on concepts and empirical research. Prerequisite: MARK 304 or consent of instructor.

MARK 419. *Seminar in International Business.* ★3 (Second Term, 3-0-0). Tools of international economy theory applicable to problems in international business; commercial and financial policies for the multi-national firm in industrial and developing countries. Prerequisite: MARK 304 or consent of instructor.

MARK 445. *Individual Research Projects.* ★3 (either term, 3-0-0). Special study for advanced undergraduates. Prerequisite: Consent of instructor and Associate Dean. (When a student registers in this course for a second, third, fourth or fifth time subsequent higher course numbers are to be used, MARK 446, 447, 448 and 449.)

NOTE: The remaining courses in this section are open to graduate students only.

MARK 458. *Marketing Management.* ★3 (either term, 3-0-0).

MARK 561. *Marketing Research.* ★3 (either term, 3-0-0).

MARK 564. *Consumer Behavior.* ★3 (First Term, 3-0-0).

MARK 565. *Quantitative Marketing Management.* ★3 (Second Term, 3-0-0).

MARK 566. *Marketing Public Programs.* ★3 (either term, 3-0-0).

MARK 567. *Communication Processes in Marketing.* ★3 (either term, 3-0-0).

MARK 569. *Product Management.* ★3 (either term, 3-0-0).

MARK 570. *International Marketing.* ★3 (either term, 3-0-0).

MARK 900. *Non-Thesis Project.* ★3 (variable).

54.20 Mathematics

Department of Mathematics

NOTE: FOR A COMPLETE LISTING OF MATHEMATICS COURSES OFFERED SEE § 184 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

MATH 202. *Elementary Calculus I.* ★3 (First Term, 3-0-1). Review of analytic geometry, differentiation and integration of simple functions, applications. Prerequisite: Mathematics 30 or equivalent. Note: Those students who have no knowledge of trigonometry are required to take MATH 101 concurrently. This course may not be taken for credit if credit has already been obtained in any of MATH 203, 207, 212, or 245.

MATH 203. *Elementary Calculus I.* ★3 (either term, 3-0-0). This course description is the same as for Mathematics 202. Prerequisite: Mathematics 30; Mathematics 31, (calculus sequence), or equivalent. Students with low grades in high school calculus should take MATH 202. Note: This course may not be taken for credit if credit has been obtained already in any of MATH 202, 207, 212, or 245.

MATH 204. *Elementary Calculus II.* ★3 (either term, 3-0-0). Differentiation and integration of trigonometric, exponential and logarithmic functions. Intermediate forms and improper integrals. Techniques of integration. Applications. Prerequisite: MATH 202 or 203, or 245 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in either of MATH 208 or 213.

MATH 240. *Algebra and Elementary Calculus I.* ★3 (either term, 4-0-0). Differential and integral calculus of algebraic, exponential, and logarithmic functions, with applications to problems in business and economics. Prerequisite: Mathematics 30 or equivalent. Note: This course is primarily intended for students registered in the faculties of Business Administration

and Commerce, Agriculture and Forestry, and Pharmacy and Pharmaceutical Sciences. This course may not be taken for credit if credit has already been received in any of MATH 202, 203, 207 or 212. Students who have taken Mathematics 31 should take MATH 242.

MATH 242. *Algebra and Elementary Calculus I.* ★3 (either term, 3-0-0). This course covers the same material as MATH 240. Prerequisite: Mathematics 30 and 31 or equivalent.

MATH 243. *Linear Algebra.* ★3 (either term, 3-0-0). Vector and matrix notation, solving linear equations, vector spaces, matrix algebra, determinants, and applications to economics and commerce, including linear programming, marketing problems, and input-output analysis. Prerequisite: Mathematics 30 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in any of the following: MATH 274, 278, 312, 381. This course is required for all students in Business Administration and Commerce.

MATH 245. *Elementary Calculus II.* ★3 (Second Term, 3-0-0). Properties and calculus of trigonometric functions, implicit differentiation, partial differentiation, integral tables. Prerequisite: MATH 240 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in any of MATH 202, 203, 207 or 212.

MATH 251. *Mathematics of Finance I.* ★3 (First Term, 3-0-0). Simple and compound interest; force of interest; applications. Certain annuities, simple and general. Perpetuities. Prerequisites: Mathematics 30.

MATH 252. *Mathematics of Finance II.* ★3 (Second Term, 3-0-0). Applications of interest; amortizations, sinking funds, depreciation, depletion, bonds and stocks. Investments. Cash flow analysis. Income tax considerations. Prerequisite: MATH 251.

MATH 302. *Intermediate Calculus I.* ★3 (either term, 3-0-0). Vectors in space geometry, determinants, Cramer's rule, complex numbers, partial differentiation, multiple integration. Prerequisite: MATH 204 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in either of MATH 307 or 314.

MATH 303. *Intermediate Calculus II.* ★3 (either term, 3-0-0). Infinite series, elements of linear differential equations, curves and tangent vectors, polar, cylindrical, and spherical coordinates, arc length and surface area. Prerequisite: MATH 302 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in MATH 308

MATH 351. *Life Annuities and Life Insurance I.* ★3 (First Term, 3-0-0). Compound interest review. Elements of probability and application to life contingencies. Construction of the mortality table. Types of life annuities and life insurance. Net premiums. Prerequisite: A statistics course, MATH 204 and MATH 341.

MATH 352. *Life Annuities and Life Insurance II.* ★3 (Second Term, 3-0-0). Net and gross premiums. Reserves, net level and modified. Options, surrender values. Distribution of surplus. Group insurance. Pension plans. Prerequisite: MATH 351.

54.21 Organizational Analysis

NOTE: The following courses are open to graduate students only.

ORG A 470. *The Individual in Groups and Organizations.* ★3 (either term, 3-0-0).

ORG A 472. *Organization Theory and Administrative Practice.* ★3 (either term, 3-0-0).

ORG A 552. *Selected Topics in Behavioral Sciences.* ★3 (either term, 3-0-0).

ORG A 557. *Advanced Seminar in Personality and Organizations.* ★3 (either term, 3-0-0).

ORG A 558. *Advanced Seminar in Theories of Organizations.* ★3 (either term, 3-0-0).

ORG A 565. *Seminar in Personnel Administration.* ★3 (either term, 3-0-0).

ORG A 598. *Seminar in the Management of Complex Organizations.* ★3 (either term, 3-0-0).

ORG A 900. *Non-Thesis Project* ★3 (variable).

54.22 Organization Theory

ORG T 303. *Behavior in Organizations.* ★3 (either term, 3-0-0). Examines the sociological and psychological bases of individual behavior in organizations. Topics of individual psychology examined will include cognition, perception, attitude formation and change, personality structure and change, and motivation. The course will also investigate the behavior of individuals in groups and organizations. In this context various aspects of group dynamics such as leadership, communication, interpersonal sensitivity, morale and satisfaction, and the formation and attainment of individual and group goals will be discussed.

ORG T 305. *Theory of Formal Organizations.* ★3 (either term, 3-0-0). An examination of the structural and functional imperatives of formal organizations. Formation, structure, and change in complex organizations including bureaucratic, matrix, and process-oriented types of organizational designs. Power, authority, and legitimacy variables are examined using anthropological and sociological methodological constructs.

ORG T 421. *Theory and Practice of Personnel Administration I.* ★3 (either term, 3-0-0). Philosophy and procedures in obtaining and maintaining an efficient work force with emphasis on the methods of initiating and carrying out an effective manpower management program. Includes recruitment, selection, utilization, and development of human resources. Prerequisite: ORG T 303 and 305, or equivalent.

ORG T 422. *Theory and Practice of Personnel Administration II.* ★3 (Second Term, 3-0-0). Focus on the development and administration of programs for job analysis; job evaluation; wage surveys; wage and salary systems and administration; performance standards; performance analysis and evaluation; employee services and fringe benefits. Prerequisite: ORG T 421.

ORG T 430. *Seminar in Advanced Theories of Behavior in Organizations.* ★3 (either term, 3-0-0). The same general areas will be covered as in Organization Theory 303. However, the coverage will be in-depth and the seminar format will be utilized in order to develop a maximal interchange of ideas between instructor and student. Prerequisite: ORG T 303.

ORG T 440. *Seminar in Advanced Concepts of Formal Organization Theory.* ★3 (either term, 3-0-0). An analysis of the philosophical and empirical bases of organization theory. The implications of bureaucratic dysfunctions, structural modifications, scientific management concepts and industrial humanism. Critical issues in adapting traditional organization structures to technological and societal changes will be explored. Prerequisite: ORG T 305.

ORG T 441. *Selected topics in Organization Theory and Behavior.* ★3 (either term, 3-0-0). Topics dealt with in this seminar may vary from year to year, and will be chosen at the discretion of the instructor. Prerequisite: Consent of the instructor.

ORG T 445. *Individual Research Projects.* ★3 (either term, 3-0-0). Special study for advanced undergraduates. Prerequisite: Consent of instructor and Associate Dean. (When a student registers in this course for a second, third, fourth or fifth time subsequent higher course numbers are to be used, ORG T 446, 447, 448 and 449.)

54.23 Philosophy

Department of Philosophy

NOTE: FOR A COMPLETE LISTING OF PHILOSOPHY COURSES, SEE § 44 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTE SAINT-JEAN CALENDAR.

PHIL 221. *Practical Logic.* ★3 (either term, 3-0-0). Elementary methods and principles for distinguishing correct and incorrect reasoning. Topics may include informal fallacies, introduction to scientific method, elementary formal logic, rational decision procedures, the analysis of arguments.

PHIL 250. *Introduction to Logic.* ★6 (3-0-0). The concepts and techniques of modern logic, with emphasis on sentential and predicate logic. Other topics include critiques of non-deductive techniques, non-formal elements in arguments, traditional analysis of arguments, and philosophical logic.

Note: Philosophy 250 presupposes little familiarity with symbolic notation and techniques. Students who already have such familiarity from their work in other disciplines should take PHIL 390/391 instead.

PHIL 390. *Symbolic Logic I.* ★3 (First Term, 3-0-0). The concepts, techniques and applications of modern symbolic logic. Topics include syntax, semantics, natural deduction systems, axiomatic systems, independence, consistency, completeness. Emphasis is on the sentential calculus. Prerequisite: Experience in the operation of symbolic notation outside of logic, or some previous work in logic.

PHIL 391. *Symbolic Logic II.* ★3 (Second Term, 3-0-0). Topics as in Philosophy 390, but with emphasis on the predicate calculus with identity. Prerequisite: PHIL 390 or consent of the Department.

54.24 Political Science

Department of Political Science

NOTE: FOR A COMPLETE LISTING OF POLITICAL SCIENCE COURSES OFFERED SEE § 44 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

POL S 201. *Introduction to Government.* ★3 (either term, 3-0-0). An introduction to the institutions of Canadian and other democratic governments, considering constitutions, legislatures, executives, the public service, courts, federal and other divisions of government authority and selected topics. Note: Formerly part of POL S 200.

POL S 202. *Introduction to Politics.* ★3 (either term, 3-0-0). An introduction to the process of democratic politics considering power, or influence, democracy, civil liberties and rights, political ideology, public opinion, elections, political parties, interest groups and other selected topics. Note: Formerly part of POL S 200.

POL S 300. *Comperative Political Systems.* ★6 (3-0-0). Comparative analysis of selected major political systems of the present day, with emphasis on the relationships between political functions and social processes. Note: Designed primarily as an introductory course at the senior level.

POL S 310. *History of Political Thought.* ★6 (3-0-0). A historical and critical survey of the development of political and social philosophy from ancient Greece to the present time, with selected readings from major political writers.

POL S 312. *Ethics and Politics.* ★3 (either term, 3-0-0). The relationship between contemporary ethical theory and normative political analysis.

POL S 316. *Mathematical Applications in Political Science.* ★3 (either term, 3-0-0). An introductory examination of current and potential uses of descriptive and inferential statistics, in the study of politics. Prerequisite: Mathematics 30 or equivalent.

POL S 317. *Research Methods and Techniques for Political Analysis.* ★3 (either term, 3-0-0). An examination of basic research methods; techniques for data collection and analysis in political science. Prerequisite: POL S 316 or consent of the Department.

POL S 320. *Canadian National Government and Politics.* ★6 (3-0-0). The structure and function of the government of Canada, especially of the Commons, Senate, Cabinet System, Civil Service, and the role of political parties. Note: Not open to students who have taken POL S 321.

POL S 321. *Canadian Government.* ★3 (either term, 3-0-0). The structure and function of the government of Canada, provincial governments and local governments. Note: Designed primarily for students who want one senior course in Political Science. Not open to students who are taking or have taken POL S 200 or 320.

POL S 322. *Local Government and Administration.* ★3 (either term, 3-0-0). The structure and functions of local government in Canada with primary emphasis on the Province of Alberta. Note: Designed primarily for students who want one senior course in Political Science. Not open to students who are taking or have taken POL S 323.

POL S 324. *Comparative Urban Political Systems.* ★3 (either term, 3-0-0). A comparative survey of the political processes and structural arrangements of several larger metropolitan regions, with emphasis upon those common conditions and problems which require significant policy decisions.

POL S 325. *Topics in City Politics.* ★3 (either term, 3-0-0). A detailed examination of specific municipal policies. Topics will vary annually. Prerequisite: POL S 322, or 323, or 324.

POL S 328. *Elements of Public Administration.* ★3 (either term, 3-0-0). Topics include government organization, budgets, policy-making, and democratic control and accountability. The focus is on Canada, but other countries are also considered.

POL S 376. *Problems of Political Development.* ★3 (either term, 3-0-0). The examination of the common problems of developing nations; political integration, the establishment and maintenance of political order, the role of the military, and the institutionalization of political change.

POL S 380. *Comparative Politics.* ★3 (either term, 3-0-0). An introduction to topics and issues in comparative politics. Note: Formerly POL S 374.

POL S 384. *Government of the United Kingdom.* ★3 (either term, 3-0-0). Its structure and functions, espeically the monarchy, the cabinet system, parliament, the civil service and parties.

POL S 385. *The Development of Western European Politics and Government.* ★3 (either term, 3-0-0). Patterns in the development of political processes and governmental institutions in Western Europe. Note: Formerly part of POL S 383.

POL S 386. *Contemporary Western European Politics.* ★3 (either term, 3-0-0). An examination of similarities and differences in the political and governmental processes of contemporary Western Europe. Note: Formerly part of POL S 383.

POL S 390. *Introduction to Political Behavior.* ★3 (either term, 3-0-0). An introduction to political behavior as exhibited in both the public and private political world of the individual. Note: Formerly a full-session course.

POL S 391. *Political Parties of Canada and Other Western Democracies.* ★3 (either term, 3-0-0). A study of the political parties of Canada in comparison with those of other western democracies. Topics include party systems, ideologies and programs, members and supporters, organization and resources, and electoral and governmental activities. Note: Formerly part of POL S 398.

POL S 392. *Interest Groups of Canada and Other Western Democracies.* ★3 (either term, 3-0-0). A study of political interest groups of Canada in comparison with those of other western democracies. Topics include group ideologies and interests, members, organization and resources, and non-governmental and governmental activities. Note: Formerly part of POL S 398.

POL S 394. *The Study of Socialization to Politics.* ★3 (either term, 3-0-0). Topics covered include political perception, the formation of attitudes, attitude structures and belief systems in political behavior, the learning of "civic" attitudes and their impact on subsequent political behavior.

POL SC 395. *Political Attitudes and Ideologies.* ★3 (either term, 3-0-0). A study of political attitudes and ideologies, and of their impact on the individual citizen's involvement in politics.

POL S 396. *Electoral Behavior.* ★3 (either term, 3-0-0). Analysis of the voting behavior of individuals and social groupings. Content will be cross-national in scope and will deal largely with sociological and institutional influences on voting.

NOTE: § 54.25 — Reserved.

54.26 Psychology

Department of Psychology

NOTE: FOR A COMPLETE LISTING OF PSYCHOLOGY COURSES OFFERED SEE § § 44 AND 184 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

PSYCO 260. *Basic Psychological Processes.* ★3 (First Term, 3-0-0). Principles and development of perception, motivation, learning, and thinking and their relationship to the psychological functioning of the individual. This course is a prerequisite for most courses in the Department and is normally followed by PSYCO 261.

PSYCO 321. *Psychology Applied to Business and Industry.* ★3 (either term, 3-0-0). Methods and results of psychological studies in such fields as: selection, placement, training and

supervision of personnel; promotion of efficiency and safety in production; advertising, selling and consumer research. Prerequisite: PSYCO 309.

PSYCO 341. *Social Psychology.* ★3 (either term, 3-0-0). Individual and group behavior observed in social processes. Prerequisites: PSYCO 260/261 or equivalent. Note: PSYCO 341 and SOC 341 may not both be taken for credit.

PSYCO 383. *Personality.* ★3 (either term, 3-0-0). An introductory survey including representative theoretical points of view and research relevant to major problems of the study of personality. Prerequisites: PSYCO 260/261 or equivalent.

PSYCO 404. *Contemporary Psychology I.* ★3 (First Term, 3-0-0). A study of theories and trends in present day psychology. Prerequisite: Consent of the Department.

PSYCO 431. *Theory and Practice of Psychometrics.* ★3 (either term, 3-0-3). The nature of psychological tests, with practical work in administration, scoring, and interpretation of tests. Prerequisites: PSYCO 260/261 or equivalent and 309, or consent of the Department.

PSYCO 441. *Experimental Social Psychology.* ★3 (either term, 3-0-2). An intensive study of methods for investigating social behavior. The evaluation of published research, design of experiments, analysis and communication of results will be stressed. Opportunity for supervised research projects. Prerequisites: PSYCO 260/261 or equivalent, PSYCO 309, and one of PSYCO 360, 361, 362, 365, or 366.

54.27 Sociology

Department of Sociology

NOTE: FOR A COMPLETE LISTING OF SOCIOLOGY COURSES OFFERED SEE § 44 OF THE FACULTIES OF ARTS AND SCIENCE CALENDAR AND § 174 OF FACULTÉ SAINT-JEAN CALENDAR.

SOC 202. *Introductory Sociology.* ★6 (3-0-0). An analysis of the nature of society, the interrelationships of its component groups, and the processes whereby society persists and changes. Society analyzed in terms of its structure, culture, and social ranking schemes. The interrelationships between the various institutions (e.g., family, church, school, government). The process whereby the individual is socialized into society; the sources of conformist and nonconformist behavior. Note: Third-year or more advanced students are encouraged to take SOC 403 rather than 202.

SOC 321. *Sociology of Social Problems.* ★3 (either term, 3-0-0). A review of several macro-sociological perspectives focusing on such topics as population, ecology, social and economic inequality, intergroup relations, nationalism, collective violence and the sociology of social intervention. Note: Not available for credit to students with credit in SOC 320, 322, or 324.

SOC 325. *Criminology.* ★3 (either term, 3-0-1). Examination and attempted explanation of crime and juvenile delinquency, with an analysis of the social processes leading to criminal behavior.

SOC 327. *Criminal Justice Administration.* ★3 (either term, 3-0-1). The evolution and evaluation of the theories of punishment, the law, the police and the courts, penal and reformatory institutions, probation and parole, experiments in reform and rehabilitation. Prerequisite: SOC 325.

SOC 341. *Social Psychology.* ★3 (either term, 3-0-1). An introduction to the study of individual and group behavior observed in social processes. Prerequisite: SOC 202 or 403 or PSYCO 260/261 or EDPSY 276. Note: SOC 341 and PSYCO 341 may not both be taken for credit.

SOC 344. *Public Opinion and Mass Communication.* ★3 (either term, 3-0-0). The nature of public opinion; factors involved in its assessment and its formation. The role of the media of mass communication. Prerequisite: SOC 341 or PSYCO 341.

SOC 351. *Population Concerns.* ★3 (either term, 3-0-0). Population trends and problems in Canada and the rest of the world; social and cultural factors underlying fertility, mortality, and migration patterns and differentials; their relationship to the "population explosion", population composition and distribution; basic population methodology; ecological theories and processes; urbanization; population theory and policy.

SOC 352. *Population, Social and Economic Development.* ★3 (either term, 3-0-0). Principles of growth and development in their historical context with regard to developed countries, and in their contemporary context with regard to underdeveloped countries. The interrelationships of economic, social and demographic variables in the process of development. Problems of urbanization and industrialization; factors influencing social change in the modern West and Asia or Latin America or Africa.

SOC 353. *Urban Sociology.* ★3 (either term, 3-0-0). Social implications of the urban life with respect to such topics as patterns of city growth; urban social organization (family, neighborhood, community); urban social issues (housing, crime); urban policy and urban planning (sociology of planning, citizen participation). Prerequisite: SOC 202 or 403 or consent of the Department.

SOC 361. *Social Organization.* ★3 (either term, 3-0-0). Social systems, their components, interrelations, and the bases of social differentiation and integration. Prerequisite: SOC 202.

SOC 363. *Industrial Sociology.* ★3 (either term, 3-0-0). An introduction to the systematic analysis of people at work. Of special interest are the impacts of industrialization on Canadian and other developed societies as well as the intergroup and and interpersonal relations in work settings. Prerequisite: SOC 202 or 403.

SOC 364. *Comparative Institutional Change.* ★3 (either term, 3-0-0). Interrelationships among social institutions (technology, economy class, kinship, power structures, basic value patterns); comparative institutional structures and changes in Canada and other selected societies. Prerequisite: SOC 202 or 403 or consent of the Department.

SOC 371. *The Family.* ★3 (either term, 3-0-0). Structure and function of the family system, historically and cross-culturally. The family system in contemporary societies emphasizing its institutional characteristics and current trends. Prerequisite: SOC 202 or 403.

SOC 403. *Principles of Sociology.* ★3 (either term, 3-0-0). Basic concepts and principles of Sociology for students with advanced standing. Prerequisite: Senior or graduate standing. Note: Designed for third year students and carries no credit for those with SOC 202 credit.

SOC 412. *Methodological Problems in Social Research.* ★3 (Second Term, 3-0-0). The design and evaluation of qualitative and quantitative research strategies in the social sciences. Prerequisite: SOC 311. Note: Formerly SOC 411.

SOC 427. *Juvenile Delinquency.* ★3 (either term, 3-0-1). Juvenile delinquency and its relation to adult crime; the social processes involved in the genesis and perceptions of styles of delinquency and their relationship to the community, and to various current theories of prevention and control, including the role of institutions and law. Prerequisite: SOC 325. Note: Not open to students with credit in SOC 329.

Faculty of Dentistry

66 INTRODUCTORY

66.1 Members of the Faculty

66.1.1 OFFICERS OF THE FACULTY

Dean
G. W. THOMPSON, DDS, MScD, PhD, FRCD(c), FICD

Associate Dean
H. M. DICK, DDS, MSc

Assistant Dean
B. B. BOYKO, BA, DDS

Research and Graduate Studies
J. A. HARGREAVES, LDS, MChD, AM

Academic Standing
H. M. DICK, DDS, MSc

Universities Coordinating Council
H. M. DICK, DDS, MSc

Curriculum

Clinical Professor
J. D. M. ALTON, MSc, MD (Plastic Surgery)

Alberta Dental Association Representative
B. P. MARTINELLO, DDS, DDPH, FRCD

Medical Sciences Librarian
P. GODDARD, BA, MA, MLS (non-voting member)

Student Representative
ELECTED ANNUALLY

Registrar (or designate)

66.2 Faculty Objectives

1. To provide an academic and intellectual milieu in a University setting that facilitates all aspects of education and research in dentistry and allied health and scientific fields by:
(a) attracting, selecting, and motivating the most qualified academic and non-acedemic staff.
(b) creating a University environment that emphasizes the quality of life for staff and students.

2. To contribute to the advancement of knowledge in dentistry and allied fields by doing research and publishing research papers, and communicating and interacting with:

(a) other health sciences and other disciplines of the University in order to promote comprehensive health care.
(b) the dental profession, dental auxiliaries, auxiliary-training programs, and the community in order to promote oral health.
(c) basic and clinical science organizations and granting agencies in order to promote disciplinary and inter-disciplinary research.

To graduate competent undergraduate dentistry students and dental hygienists, and graduate and post-graduate students by:

(a) attracting, selecting and then motivating the most suitable and well-qualified students who have the ability to acquire the education and training for a professional and / or academic career.
(b) maintaining an undergraduate dentistry curriculum that integrates basic medical and dental sciences, behaviour and social sciences, dental clinical sciences, community and preventive dentistry, hospital dentistry, and practice management; and incorporates recent concepts, materials, techniques, advances and research in all areas; and reflects the existing and projected provincial, national, and international oral health needs.
(c) maintaining a dental hygiene curriculum that produces a student who will complement the present and future dental-care-delivery system.
(d) maintaining an educational program that allows for the smooth transition from graduation to practice and which ensures that the student is competent to practise in an efficient and responsible manner.
(e) graduating students who are competent to assume a role of leadership and service in their profession and community.

4. To provide the opportunity and stimulus for continued learning through post-graduate, graduate, research and continuing education programs.

5. To provide efficient and quality dental treatment for the community that emphasizes and recognizes the needs of the patient.

66.3 General Information

66.3.1 D.D.S. DEGREE

Dental education was instituted at The University of Alberta in 1917 in the School of Dentistry under the Faculty of Medicine. The first full degree program was offered in 1923, and the first class graduated in 1927. The School became the Faculty of Dentistry in 1944. Dental Auxiliary training was instituted in 1961. In 1962 the School of Dental Hygiene came into being and offered both the Dental Auxiliary and Dental Hygiene programs. A program of graduate studies was formally approved in 1962.

In 1980 the following academic structure was approved:

Department of Dental Health Care
- Division of Community Dentistry
- Division of Dental Hygiene
- Division of General Practice

Department of Oral Biology
- Division of Anatomy
- Division of Biochemistry
- Division of Pathology
- Division of Physiology

Department of Restorative Dentistry
- Division of Biomaterials
- Division of Endodontics
- Division of Fixed Prosthodontics
- Division of Operative Dentistry
- Division of Removable Prosthodontics

Department of Stomatology
- Division of Diagnosis and Oral Radiology
- Division of Oral & Maxillofacial Surgery and Hospital Dentistry
- Division of Orthodontics
- Division of Pedodontics
- Division of Periodontics

Curriculum. The Faculty of Dentistry offers a four-year program of study leading to the degree of Doctor of Dental Surgery (D.D.S.), following satisfactory completion (after senior matriculation) of at least *two* pre-professional years of university education. The pre-professional years provide the necessary background in inorganic chemistry, organic chemistry, biology, physics, the humanities and social sciences.

In the dental curriculum, lecture and laboratory instruction in such fundamental subjects as Anatomy, Physiology, Bacteriology, Histology, General Pathology, Pharmacology, Medicine, Surgery and General Anaesthesia are offered by the respective departments of other faculties. The lectures, laboratories, seminars, and clinics offered by the Faculty of Dentistry relate and integrate these fundamental disciplines with the knowledge, skills, judgment and performance required of the dental practitioner.

In addition to bedside and operating instruction in medicine and surgery, the senior students are assigned to the Dental Department and the Department of General Anaesthesia at the University Hospital. An experience in the Dental Auxiliary Utilization Clinic and in the Mobile Dental Clinic is a requirement in the final year of the program. Thus students are afforded an opportunity to relate their field of health service to the science and art of preventing, curing, or alleviating disease in general.

Information on programs of graduate study and continuing education offered by the Faculty will be found in § § 68.2, 68.4, and 68.5.

Library. The Medical Sciences reading room of the Cameron Library contains a comprehensive selection of reference materials and textbooks on dentistry and related subjects. In addition, it contains most current dental journals in English and other languages, and the *Index to Dental Periodical Literature,* an index to all dental periodicals since 1839.

66.3.2 M.Sc. AND Ph.D. DEGREES

(1) The Faculty of Dentistry has research laboratories and instructional facilities for a limited number of graduate students proceeding to the Master of Science degree in basic science (oral biology). In addition, the Division of Oral Biology offers programs leading to the Doctor of Philosophy degree.

(2) Dental graduates may undertake graduate programs in either oral biology or clinical science. Students without dental qualifications holding a B.Sc. degree in biological or physical science are eligible for graduate study in oral biology. Normally, science students accepted into the Ph.D. program in oral biology will hold the equivalent of a four year (Honors) B.Sc. degree.

(3) The research interests of the staff include: Anatomy — human growth and development, embryonic induction of dental tissues and organs. Biochemistry — structure, crosslinking of collagen and elastin, calcification. Oral Pathology — immunology and oral tumors, pulp capping agents. Physiology — neuromuscular function. Public Health and Community Dentistry —

health care, delivery systems, administration of public health programs. Clinical Dentistry — multi-disciplinary studies in dental caries and periodontal disease, problems in orthodontic diagnosis and treatment. Dental Materials — fluoride, etching of dental porcelain, physical properties of dentin, evaluations of impression material and tooth desensitizing.

(4) Fellowships and Assistantships are available. Applications may be submitted to the Director, Division of Graduate Studies and Research.

(5) More detailed information may be obtained from the Director of Graduate Studies and Research.

66.3.3 D.H. DIPLOMA

The program of study for Dental Hygienists leads to a Dental Hygiene diploma.

The continuing growth of knowledge in the profession of dentistry created a need for an auxiliary capable of working with the dental team in the areas of preventive clinical services and education of the public to the principles and practices of achieving and maintaining oral health. In 1913 Dr. Alfred C. Fones organized the first formal educational program for this auxiliary, called the Dental Hygienist, at Fones' Clinic, Bridgeport, Connecticut, U.S.A. Since that time, Schools of Dental Hygiene have grown to number more than two hundred and seventy (270) on the North American continent and in Europe.

The ever-increasing knowledge in the area of preventive dental services, and the need and demand for such services by the public, creates a demand for Dental Hygienists far in excess of the number now available. The curriculum in the Dental Hygiene Program offers excellent preparation for many opportunities open to Dental Hygienists.

The Dental Hygiene Program is located in the Dentistry-Pharmacy Centre at The University of Alberta. Its programs benefit from the close co-operation and assistance of members of the Faculty of Dentistry and consultants from the office of the Dean of Dentistry. Courses are also offered within the program from the Faculties of Arts, Medicine and Science. The Dental Hygiene laboratories and clinics are equipped with modern facilities and afford the student an opportunity to apply knowledge, skills, and techniques for the improvement of dental health. The services offered in the Dental Hygiene Clinic are available by appointment to students at The University of Alberta and citizens of Edmonton and surrounding districts. Further benefits are derived from the Program's association with the Local Health Units of Alberta, the Dental Clinics at The University of Alberta Hospital and the Alberta Hospital.

The Dental Hygiene Program is approved by the Councils of Dental Education of the Canadian Dental Association and of the American Dental Association. Successful students in the Dental Hygiene Program are encouraged to write the National Board Dental Hygiene Examinations of the American Dental Association.

66.3.4 ORTHODONTICS DIPLOMA

The Faculty of Dentistry offers a postgraduate program designed to prepare dental graduates for specialist certification in orthodontics. Details may be obtained from the Chairman, Graduate Studies and Research, Faculty of Dentistry.

66.4 Registration and Licensing

66.4.1 D.D.S. DEGREE

The Faculty of Dentistry of The University of Alberta is approved by the Canadian Dental Association and the American Dental Association.

Graduates in dentistry from The University of Alberta may register in the Province of Alberta upon payment of a licencing fee without further examination.

Regulations regarding the practise of dentistry in any of the other provinces in Canada may be obtained by writing to the Dental Registrar of that province:

ALBERTA
Alberta Dental Association
#101, 8230-105th Street,
Edmonton, Alberta
T6E 5H9

BRITISH COLUMBIA
College of Dental Surgeons of British Columbia
1125 West 8th Avenue, Vancouver, B.C.
V6H 3N4

MANITOBA
The Manitoba Dental Association
308 Kennedy Street,
Winnipeg, Manitoba
R3B 2M6

NEW BRUNSWICK
New Brunswick Dental Society
440 Champlain Street
Saint John West, New Brunswick
E2M 1R9

NEWFOUNDLAND
Newfoundland Dental Association
203 LeMarchant Road, St. John's,
Newfoundland A1C 2H5

NOVA SCOTIA
Nova Scotia Dental Association
12-5880 Spring Garden Road
Halifax, Nova Scotia
B3H 1Y1

ONTARIO
The Royal College of Dental Surgeons
of Ontario
230 St. George Street,
Toronto, Ontario
M5R 2N5

PRINCE EDWARD ISLAND
Dental Association of Prince Edward Island
239 Water Street
Summerside, P.E.I. C1N 1B4

QUEBEC
Order of Dentists of Quebec
Ste. 303, 801 est, rue Sherbrooke,
Montreal, P.Q. H2L 1K7

SASKATCHEWAN
College of Dental Surgeons of Saskatchewan
Ste. 811, 105-21st Street East
Saskatoon, Saskatchewan S7K 0B3

Graduates of approved Dental Schools are eligible for registration with the National Dental Examining Board of Canada upon submission of an application, dated not later than March 30th of the year of graduation (subject to change). Failure to apply by that date will entail the passing of an examination in order to receive the Certificate. Applications may be obtained from the Dean's office.

Graduates are also eligible to write licencing examinations in most of the states in the United States and the examinations of the National Board of Dental Examiners of the American Dental Association.

The Doctor of Dental Surgery (D.D.S) degree and the Doctor of Dental Medicine (D.M.D.) degree (granted by some Canadian and United States universities) are equivalent degrees.

66.4.2 D.H. DIPLOMA

A diploma from the dental hygiene program does not, in itself, confer the right to practise. A dental hygienist desiring to practise dental hygiene in Canada should consult the appropriate provincial licencing body as listed below:

Alberta — Registrar, Alberta Dental Association, Ste. 101, 8230 - 105 Street, Edmonton, Alberta T6E 5H9.

British Columbia — Registrar, College of Dental Surgeons of British Columbia, 1125 West 8th Avenue, Vancouver, British Columbia V6H 3N4.

Manitoba — Registrar, The Manitoba Dental Association, 308 Kennedy Street, Winnipeg, Manitoba R3B 2M6.

New Brunswick — Registrar, College of Dental Surgeons of New Brunswick, 440 Champlain St., Saint John, N.B. E2M 1R9.

Newfoundland — Registrar, Newfoundland Dental Association, Campbell Building 203 LeMarchant Rd., St. John's, Newfoundland A1C 2H1.

Nova Scotia — Registrar, Provincial Dental Board of Nova Scotia, 1548 Robie Street, Halifax, Nova Scotia B3H 3E6.

Ontario — Registrar-Secretary, Royal College of Dental Surgeons of Ontario, 230 St. George Street, Toronto, Ontario M5R 2P1.

Prince Edward Island — Registrar, The Dental Association of Prince Edward Island, 239 Water St., Summerside, Prince Edward Island C1N 1C1.

Quebec — Registrar, College of Dental Surgeons of the Province of Quebec, 801 Est, Rue Sherbrooke, Montreal, P.Q H2L 1K7.

Saskatchewan — Registrar, The College of Dental Surgeons of Saskatchewan, Suite 811, 105 21st Street East, Saskatoon, Saskatchewan S7K 0B3.

Dental Hygienists are employed at all times under the supervision or direction of a fully qualified dentist.

66.5 Finance

66.5.1 D.D.S. DEGREE

An estimated budget for dental students

	First Year	*Second Year*
Tuition and Fees	$974	$974
Books	440	470
Dental kits	3,000	2,550
Replacements, miscellaneous dental supplies and DUS Fees	135	135
N.B.D.E. (American) Examinations	—	—
N.D.E.B. (Canadian) Examinations	—	—
	Third Year	*Fourth Year*
Tuition and Fees	$974	$974
Books	400	205
Replacements, miscellaneous dental supplies and DUS Fees	260	135
N.B.D.E. (American) Examinations	—	25
N.D.E.B. (Canadian) Examinations	—	200

No student will be allowed to purchase a kit without the permission of the Faculty.

66.5.2 M.SC. AND PH.D. DEGREES

For information regarding graduate program fees, see § 15 of the Faculty of Graduate Studies and Research Calendar.

66.5.3 D.H. DIPLOMA

Approximate Costs

Tuition and Fees	
First year	$680.00
Second year	$680.00
Books	
First year	$350.00
Second year	$300.00
Dental Hygiene Kits	
First year	$400.00
Second year	$300.00

Uniforms—The student will be expected to have a lab coat, one uniform and a pair of white oxfords. The lab coat, uniform and shoes will be purchased under the direction of the Program.

66.5.4 ORTHODONTIC DIPLOMA

For information regarding post-graduate and graduate program fees, contact the Director of Graduate Studies and Research, Faculty of Dentistry.

67 FACULTY REGULATIONS

67.1 Admission

67.1.1 D.D.S. DEGREE

(1) *Academic requirement.* The basic requirement for admission to the Faculty of Dentistry is the satisfactory completion (after senior matriculation) of at least two full years (i.e. ten full courses) of university work including full university courses in organic chemistry, inorganic chemistry, physics and biology. Students completing the pre-professional requirements in either the Faculty of Arts, the Faculty of Science, or Faculté Saint-Jean at The University of Alberta, must include in their programs the following:

1. Chemistry 200, 202 or 302
2. Chemistry 250 or 350
3. Two of Biology 296, 297, 298 or 299

(An applicant not presenting senior matriculation Biology will take Biology 130 during the first year and two of the above-mentioned courses during the second year.)

4. Physics 203 and 207 or Physics 203 and 209
(May be taken only by students who are not presenting Physics at the senior matriculation level.)
or Physics 205 and 207 or Physics 205 and 209
or Physics 242 or Physics 212

The requirement can be met in various patterns in different faculties. Students are urged to take the program that they find most interesting, and that will still give them these prerequisites. For information, the Registrar should be consulted.

Applicants having sequential high school background courses in English, Biology, Chemistry, Mathematics and Physics will best be prepared to succeed in the two year predental program.

(2) *Dental Aptitude Test.* Each applicant will be required to take the *Canadian* Dental Association Aptitude Test. The dental aptitude test is an important component in the selection process. If the test is taken more than once the better set of scores will be used. It is up to each applicant to decide whether or not the test should be re-taken. Tests taken prior to 1975 will not be accepted. Information and application forms are available from the Admissions Office, Faculty of Dentistry.

(3) *Personal Interview.* Although scholarship is a prime criterion, admission cannot be guarateed on the basis of academic standing alone. Before acceptance, an applicant will be interviewed by a team to determine if he/she possesses the personal qualities necessary for the profession. The interview is designed to evaluate an applicant's degree of maturity and motivation, initiative, ability to communicate and personal qualities and interests. Candidates will be advised of the interview dates.

(4) *Final Selection.* Applicant profiles are made up of:

(a) an average of the academic averages
(b) an average of the grades of the required subjects
(c) the dental aptitude scores
(d) the interview scores

Minimum criteria are established for each of the above factors. An applicant who falls below the minimum in any one of the factors will not be considered for admission.

(5) *Residence Requirements.* A minimum of 5% foreign students and 10% non-Alberta Canadians may be accepted providing that no non-resident of Alberta is admitted who is less qualified than any Alberta resident who is denied admission. The remaining 85% may be reserved for Canadian citizens who are residents of Alberta or of the North West Territories or Yukon.

(6) *Application Deadline.* All candidates for admission to the first year of study in the Faculty of Dentistry are required to make application on or before February 1 of the year in which admission is sought. The earliest date for filing such applications is September 30 of the previous year.

(7) *Limitation of Enrollment.* Enrollment is limited to the number of students who can be accommodated.

(8) *Deposit.* Upon notification of acceptance successful applicants will be required to confirm their intention to register by submitting a non-refundable $50.00 deposit within a specified time. The deposit will be credited toward payment of tuition upon completion of registration.

(9) *Changes in Registration.* The last day for changes in registration will be that date designated in § 11.3 of the University Regulations and Information for Students Calendar.

(10) B.Sc. Degree students registered in the Faculty of Dentistry may apply for the B.Sc. degree after successful completion of the first two years of the dental program.

(11) The Admissions Committee reserves the right to use its judgement with respect to individual cases. For example, in some instances, certain candidates such as applicants who have had extensive university education or have had extensive previous work experience in areas acceptable to the Admissions Committee may be given special consideration. Less weight may be given to the minimum criteria established for any one of the factors identified for admission. Applicants will normally be expected to have completed the prerequisite courses in chemistry, physics and biology or their equivalent, the Dental Aptitude Test and the interview.

(12) Applicants are reminded of the regulations set out in § § 13.1.2 and 13.1.3 of the University Regulations and Information for Students Calendar. Admission will normally be refused to an applicant who has had to write what the Faculty considers an inordinate number of examinations in order to attain the nominal entrance requirements of the University.

(13) A dental examination is required of all accepted candidates.

(14) Candidates seeking any other advice with respect to matters related to admissions should contact the Office of Admissions, Faculty of Dentistry.

(15) *English Language Proficiency:* English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take any one of several forms:

1. successful completion of the equivalent of three years of full-time instruction in an English language secondary institution in Canada;
2. presentation of a successfully completed full-yea

or more of course work, including an introductory course in English, in an accredited post-secondary institution where English is the language of instruction and from which advance credit is normally allowed by The University of Alberta;

3. successful completion of the equivalent of three years of full-time instruction in a school/institution outside Canada where academic subjects are taught by "English Language" instructors, as accredited by the International Institute of Education (I.I.E.), or as recognized by The University of Alberta;

4. successful completion of the equivalent of three years of full-time instruction in a school in Canada in which the major language of instruction is other than English but where the level of English proficiency required for graduation is equivalent to that in English language schools, as recognized by a provincial Department of Education; *or*

5. presentation of results of the Test of English as a Foreign Language (TOEFL) or its equivalent in other approved standard tests. Applicants presenting a TOEFL score of 600 (or its equivalent in other approved standard tests) will be considered as having demonstrated English language proficiency.

Having been designated as an official test center, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Room 123, Administration Building, University of Alberta.

(16) *Advanced Standing.* Applications from dentistry graduates from other countries for admission into second year dentistry may be considered by the Admissions Committee. Application deadline is February 1st.

67.1.2 M.SC. AND PH.D. DEGREES

The requirements for admission as a graduate student are:

(1) A baccalaureate degree, with a grade point average of at least 6.0 in the work of the last two undergraduate years at The University of Alberta, or an equivalent qualification from another institution; and

(2) A statement from the chairman of the department concerned to the effect that the applicant is, in all respects, acceptable to the department. A special graduate student or an exchange graduate student, however, not being a candidate for a degree, does not require department recommendation.

(3) All *non-Canadians* for whom English is not the major language (a) first *must* write and pass satisfactorily either the Michigan English Language Examination (The Director, Testing and Certification Division, English Language Institute, The University of Michigan, Ann Arbor, Michigan 48104, U.S.A.) or the Test of English as a Foreign Language (TOEFL Educational Testing Service, Princeton, New Jersey 08540, U.S.A.) before formal admission can be given; and (b) in addition, if formally admitted, must arrive on campus and write, *one week before registration,* an English Language Examination set and administered by The University of Alberta. Students whose performance is unsatisfactory in this English Examination will be allowed to continue their graduate work, but may be required to take English language instruction as part of their regular program

Application for admission to the Faculty must be submitted on forms supplied by the Office of Graduate Studies and Research. No assurance can be given that applications received after August 15 (for First Term, Winter Session), November 15 (for Second Term, Winter Session); March 1 (for Spring Session) or April 2 (for the Summer Session) can be processed in time to permit registrations in that session. A graduate of another university must arrange with the Registrar of that institution to forward two transcripts of his/her academic record to the Dean prior to these dates. The Dean may require the applicant to furnish an official description of the content of the courses listed on the transcripts.

67.1.3 D.H. DIPLOMA

(1) *Academic Requirements.* A student applying for admission to the Dental Hygiene Program, must present Chemistry 30, Biology 30, and English 30 (or equivalents): and two of the following: Mathematics 30 or 33; Mathematics 31; Physics 30; Social Studies 30; Language (other than English) at the 30 level (or equivalents).

(2) *Adult Applicants.* Persons 21 years of age or older who do not meet regular matriculation requirements may, in certain circumstances, receive special consideration. Non-matriculated adult applicants to the Dental Hygiene Program must present Chemistry 30, Biology 30 and English 30, or equivalents of these courses, with a 60% overall average and not less than a 50% grade in any single course; and must be a resident of Alberta.

(3) *Dental Hygiene Aptitude Test.* All applicants are required to submit D.H.A.T. scores. Seating space is limited, therefore, it is recommended that candidates apply early in the year to write the exams. Applications are available from the Dental Hygiene Office, University of Alberta.

(4) *Personal Interview* (requirement for in-province applicants). Applicants resident in the Province of Alberta will be interviewed by a team to determine if they possess the personal qualities necessary for the profession. The interview is designed to evaluate an applicant's degree of maturity and motivation, initiative, ability to communicate and personal qualities and interests. The interview schedule differs from year to year, therefore, candidates will be advised of the interview dates.

Statement of Self-Assessment (requirement for out-of-province applicants). Out-of-province applicants are required to write a Statement of Self-Assessment, in lieu of the interview. The Statement of Self-Assessment form will be mailed to the applicant upon receipt of her/his application to the Dental Hygiene Division at the University of Alberta.

(5)*English Language Proficiency:* English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take any one of several forms:

1. successful completion of the equivalent of three years of full-time instruction in an English language secondary institution in Canada;

2. presentation of a successfully completed full-year or more of course work, including an introductory course in English, in an accredited post-secondary institution where English is the language of instruction and from which advance credit is normally allowed by The University of Alberta;

3. successful completion of the equivalent of three years of full-time instruction in a school/institution outside Canada where academic subjects are taught by "English Language" instructors, as accredited by the International Institute of Education (I.I.E.), or as recognized by The University of Alberta;

4. successful completion of the equivalent of three years of full-time instruction in a school in Canada in which the major language of instruction is other than English but where the level of English proficiency required for graduation is equivalent to that in English language schools, as recognized by a provincial Department of Education; *or*

5. presentation of results of the Test of English as a Foreign Language (TOEFL) or its equivalent in other approved standard tests. Applicants presenting a TOEFL score of 600 (or its equivalent in other approved standard tests) will be considered as having demonstrated English language proficiency.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Room 123, Administration Building, University of Alberta.

(6) *Application Deadline:* All candidates for admission to the Dental Hygiene Program are required to make application on or before February 1 of the year in which admission is sought. The earliest date for filing such applications is September 30 of the previous year.

(7) *Application for Admission.* The completion of a candidates file at an early date may result in the candidate's acceptance in the Dental Hygiene Program prior to the August Admissions Committee meeting. A file is considered complete when the following have been received: application for admission, official transcript of prior academic work, D.H.A.T. score, personal interview (in-province applicants) OR statement of self-assessment (out-of-province applicants). Files that are incomplete by July 25th of any year will not be considered by the Admissions Committee.

(8) *Final Selection:* Applicant profiles are made up of:

(a) Academic standing
(b) DHAT Score
(c) Interview results (in-province applicants)
Statement of Self-Assessment (out-of-province applicants)

Minimum criteria are established for each of the above factors. An applicant who falls below the minimum in any one of the above factors will not be considered for admission.

(9) *Residence Requirements.* Highest priority consideration for admission will be given to Canadian citizens who are Alberta matriculants (residents). Second consideration will be given to Canadian citizens, resident of other provinces. Third consideration will be given to all other candidates.

For admission purposes, a resident of Alberta is defined as a Canadian citizen or Landed Immigrant who has been domiciled in the Province ot Alberta or Yukon or North West Territories for at least one continuous year immediately prior to the date of intended registration at the University.

(10) *Limitation of Enrollment.* Enrollment is limited to the number of students who can be accommodated.

(11) *Dental Examination.* All accepted candidates are required to have a dental examination form (available from the Registrar's Office or from the Dental Hygiene Office) completed by a dentist and returned to the Program Chairman during the week of registration.

(12) *Notification of Acceptance.* The Admissions Committee meets about August 10 to consider all applications for admission to the Dental Hygiene Program. During the following week, all applicants will be informed of the decision on their application — namely, accepted, waiting list, or not accepted. Applicants in the category of accepted or waiting list must reply by return mail, signifying their decision to accept or refuse the position of their application in the Dental Hygiene Program. Upon notification of acceptance successful applicants will be required to confirm their intention to register by submitting a non-refundable $50.00 deposit within a specified time. The deposit will be credited toward payment of tuition upon completion of registration.

Students should not come to the University until they have received an official acceptance of their application.

For further, more detailed information, consult § § 13.1 and 13.7 of the University Regulations and Information for Students Calendar.

67.1.4 ORTHODONTIC DIPLOMA

See § 67.1.2.

67.2 Academic Standing

67.2.1 D.D.S. DEGREE

(1) Students entering the dentistry program who have not previously successfully completed the university writing competence test will, unless otherwise informed, be required to do so in the first year of the program.

(2) Except in special circumstances students must complete each year before being promoted.

(3) Although the minimum passing grade for undergraduate courses in the University is 4, dental students receiving a final grade of 4 in a single course will be eligible for promotion only if their grade point average is equal to or greater than 5.5. A grade of 4 in more than one course, whatever the grade point average, will make a student in dentistry ineligible for promotion.

(4) Students will be required to pass both the practical and the theoretical examinations of any course having a practical and theoretical component.

(5) *Supplemental Examinations.* In order to qualify for supplemental examination privileges a student must have a minimum G.P.A. of 5.0. Supplemental examinations are not normally available in laboratory and clinical courses. A student is permitted to write a supplemental examination in no more than two courses in each year of the program. The maximum supplemental examination grade shall be a grade of 6 and the examination result(s) will not alter the student's class standing.

(6) Students will be permitted to repeat first-year Dentistry only in exceptional cases as determined by the Council of the Faculty of Dentistry.

(7) A student permitted to repeat a failed year, who does not achieve a grade-point average of 5.5 at the end of the First and Second Terms of the repeated year, will be required to withdraw from the program. A repeating student will not be permitted to carry a reduced academic load.

(8) *Course Exemptions.* Students in the dentistry program are not permitted to carry a reduced academic load. Students eligible for course exemptions

must make application to the Chairman of the Academic Standing Committee, at whose discretion course substitutions will be permitted. A repeating student in dentistry, with the exception of repeating students in the fourth year of the program, will not be exempted from any course. Repeating fourth year students may have a special course of studies set up by the Academic Standing Committee and may be recommended for graduation at the end of first term upon recommendation of the Academic Standing Committee and after consultation with the course directors.

(9) *Faculty Advisor.* At the discretion of the Academic Standing Committee, a Faculty Advisor may be assigned to students who are having difficulty meeting promotion requirements. The method of assignment and role of the Faculty Advisor shall be determined from time to time by the Dentistry Faculty Council.

(10) All students registered in the Faculty of Dentistry are required by Provincial legislation to be registered in the Educational Register of the Alberta Dental Association. This registration permits the practice of dentistry within the confines of the formal dental curriculum.

67.2.2 M.SC. AND PH.D. DEGREES

Except in a qualifying year, the pass mark in any course taken for credit towards an advanced degree is a grade of 6. Grades of 5 may be accepted in two single-term courses or one full-session course provided a minimum average of 6.0 is acquired at the time of completion of work for the degree. In this connection the student should keep in mind that courses are weighted differently. Thus a grade of 7 in a session or term course does not necessarily bring one's average up to 6.0 if a grade of 5 was received in another course which carried a greater weight. In a qualifying year, a grade of 4 or 5 may be accepted in an individual course, provided that the grade point average for the year's work is at least 6.0. (Note: The above are *minimum* grades which the Faculty will accept. Individual departments may require higher grades than these.) A grade of 4 obtained by Probationary, Special, or Exchange Graduate Students will be recorded as a failure.

Graduate students are not permitted to take supplemental examinations. If, after consulting the department or the committee concerned, the Faculty decides that a graduate student is not making satisfactory progress in either course work or research, the student may be required to withdraw. For further information see § 202.4 of the Faculty of Graduate Studies and Research calendar.

67.2.3 D.H. DIPLOMA

In addition to the regulations set out in § 16 of the University Regulations and Information for Students Calendar, the following apply to students in the Dental Hygiene Program:

(1) Students entering the Dental Hygiene program who have not previously successfully completed the university writing competence test, will, unless otherwise informed, be required to do so in the first year of the program. In order to be eligible for graduation, students must present a valid, current St. John's Ambulance Service certificate from the standard first-aid course by March 1st of the year of graduation.

(2) Advanced standing will be granted to Dental Hygiene applicants (students) who have completed approved university courses (see § 14.4.1 University Regulations and Information for Students Calendar). Applicants (students) eligible for course exemption(s) must advise the Dental Hygiene Program Director by September 15th. Upon consultation with the Program Director, the student may elect to choose an approved option or carry a reduced academic load. A student who chooses to carry a reduced academic load other than English 210, for first year Dental Hygiene and Sociology 202 and Psychology 260 for second year Dental Hygiene, will not be eligible for awards or class standing.

(3) Recommendations for promotion and graduation will be on the basis of a grade of at least 4 in each subject and a grade-point average of at least 5.0.

(4) Credit may be granted for a grade of 3 when the following conditions apply:

(i) The grade-point average for the year is 5.5 or higher;

(ii) not more than one such grade is granted per year;

(5) The records of all students will be reviewed at the end of each academic year by the Academic Standing Committee of the Faculty of Dentistry and the Council of the Faculty of Dentistry. Where a student has not met the above requirements, permission to write one or more supplemental examinations is at the discretion of the Academic Standing Committee and the Council of the Faculty of Dentistry. Each case will be considered on the basis of a student's yearly performance and supplemental privileges may be granted provided the writing of these examinations makes it mathematically possible to raise the grades to a pass or for the student to obtain a G.P.A. of 5.0, and provided it is sanctioned by the instructor involved, the Academic Standing Committee and the Faculty Council.

(6) Because of early registration, a student may be conditionally promoted pending the results of supplemental examinations written in the month of August. If the deficiencies are not cleared, a student may be asked to repeat the failed year or to withdraw from the Program.

(7) Students seeking to repeat a failed year in the Dental Hygiene Program during the academic session immediately following the failure will not be guaranteed readmission, but will be considered on an individual basis by the Admissions Committee.

(8) Students seeking to repeat a failed year after an absence of one academic session or more, will be considered at the Admissions Committee meeting for that academic session.

(9) Repeating students are required to take the entire course load.

67.2.4 ORTHODONTICS DIPLOMA

See § 67.2.2.

67.3 Appeal Procedure

67.3.1 DENTAL HYGIENE DIPLOMA, D.D.S. DEGREE, AND POSTGRADUATE DIPLOMA STUDENTS

Students should attempt to resolve all issues of contention in the first instance with the individual instructor and then the Department Chairman.

Following such attempts, the student may bring the matter to the attention of the Dean.

Should the matter remain unresolved the student may wish to file a formal appeal with the Dean stating the basis of the appeal in writing and in detail. The Dean will then place the issue before the Executive Committee of the Council of the Faculty of Dentistry which shall elect an 'ad hoc' Appeal Committee of five

academic Faculty members from the Faculty of Dentistry and one student from the appropriate program. One of the elected Faculty members shall be designated as the Chairman of the Committee. Procedural guidelines for the Faculty Appeals Committee are those approved by the Dentistry Faculty Council, a copy of which may be obtained from the Office of the Dean. The deadline for the receipt of notice of intent to appeal shall be June 30 of the academic year in question.

In the event of an unsuccessful appeal, a student may go to the Academic Appeals Committee of General Faculties Council (See § 16.7 of the University Regulations and Information for Students Calendar).

67.3.2 M.SC. AND PH.D. DEGREES

Student grievances of an academic nature sometimes arise. If this occurs, students in the Faculty of Graduate Studies and Research are advised to first contact the instructor concerned from whom, in most cases, satisfactory explanations will be obtained. If the matter is not resolved, students are advised to see the Department Chairman and the Dean of the Faculty of Graduate Studies and Research, in that order.

For further information regarding Appeals Procedures at the Faculty level the student should seek the advice of the Dean.

For further information related to Appeals and Grievances, students are directed to § 16.7 of the University Regulations and Information for Students Calendar and § 202.8 of the Faculty of Graduate Studies and Research calendar.

68 PROGRAMS OF STUDY

68.1 D.D.S. Degree

The courses prescribed for the degree program , 1980-81 are listed below for each of the four years of the program. The format is as folows: the first position indicates total lecture hours per term; the second position indicates total clinic hours per term; and the third indicates total laboratory hours per term. In § 69, Details of Courses, they are grouped by subject area.

	First Term (Total Hours)	*Second Term (Total Hours)*
First Year		
ANAT 412 (Gross Anatomy) ★5	45-0-60	—
ANAT 417 (Microscopic Anatomy) ★3	30-0-30	—
ANAT 419 (Neuroanatomy) ★2	—	15-0-15
PHYSL 451 (Human / Oral Physiology) ★6	45-0-0	45-0-0
BACT 422 (Bacteriology) ★3	30-0-10	—
DENT 401 (Oral Histology) ★3	—	30-0-30
DENT 402 (Comparative Odontology) ★0.5	—	7-0-0
DENT 403 (General Biochemistry) ★4	30-0-0	30-0-0

DENT 492 (Hospital Dentistry) ★2	0-30c-0	0-30c-0
DENT 493 (Mobile Clinic) ★2	0-30c-0	0-30c-0

Clinical Dentistry. Students of the two final years are required to carry to completion a specified amount of treatment of patients in the various branches of Dentistry and are assigned to the diagnostic clinic for specified periods in rotation.

68.2 M.Sc. and Ph.D. Degrees

(1) The courses of study for the degree program are selected by the thesis supervisor or supervisory committee and the Committee of Graduate Studies and Research of the Faculty of Dentistry within the regulations and guide-lines of the Faculty of Graduate Studies and Research.

(2) The thesis requirement for the Master of Science degree or Doctor of Philosophy degree are detailed in the Calendar or the Faculty of Graduate Studies and Research; refer to section 203.

(3) A list of courses available in Graduate Studies in the Faculty of Dentistry is given in section 69.2 below.

(4) Students are permitted to undertake graduate courses in other faculties of the University.

68.3 D.H. Diploma

	First Term (Total Hours)	*Second Term (Total Hours)*
First Year		
D HYG 203 (Dental Anatomy) ★3	39-0-0	—
D HYG 205 (Dental Radiography) ★2	—	26-6-0

68.4 Orthodontic Diploma

Refer to § 68.2.

68.5 Continuing Education

Courses are offered by various departments from time to time to provide a program of continuing education for the dental profession. A program outlining dates, course descriptions, participation, and length is prepared annually and distributed to the profession.

69 DETAILS OF COURSES

69.1 D.D.S. Degree

69.1.1 GENERAL INFORMATION

Courses open to students in the Faculty of Dentistry are listed here in alphabetical order, whether they are offered by the Faculty of Dentistry or by another faculty, except the graduate courses, which are listed separately in § 69.2.

Each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their registration forms.

Following the title of the course is the symbol "★", standing for "course weight", and a number indicating the weight of the course as used in computing grade-point averages.

The figures, enclosed in parentheses, indicate the total hours of instruction in the course. If the course is a single-term course, the term in which it may be offered is mentioned before the hours of instruction.

A list of recommended textbooks will be available at registration. Detailed information may be obtained by contacting the Assistant Dean, Faculty of Dentistry.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. COURSE DESCRIPTIONS OUTLINED BELOW ARE THOSE COURSES OFFERED DURING THE 1980-81 SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

69.1.2 BASIC SCIENCES

ANAT 412. *Gross Anatomy.* ★5 (First Term, 105 hrs.). Gross anatomy of the body in general and of the head and neck in detail, with emphasis on clinical dental practice. This course is open only to dental students.

ANAT 417. *Microscopic Anatomy.* ★3 (First Term, 60 hrs.). The microscopic features of cells, tissues and organs of the human body to provide a comprehensive knowledge in the basics of general human histology. This course is open only to dental students.

ANAT 419. *Neuroanatomy.* ★2 (Second Term, 30 hrs.). A basic course in the main structural and functional aspects of the central nervous system, with emphasis on the practical importance of neurological science rather than theoretical concepts. This course is open only to dental students.

BACT 422. *Bacteriology.* ★3 (First Term, 40 hrs.). General bacteriology, illustrating the fundamental aspects of infection and resistance. Special bacteriology of the mouth including dental caries and periodontal diseases.

PATH 422. *General Pathology.* ★3 (First Term; 46 hrs.). Lectures on the principles of pathology, laboratory instruction in histopathology and an introduction to the functions of a pathology laboratory in a hospital.

PMCOL 470. *General Pharmacology.* ★6 (104 hrs.). The pharmacological action of drugs selected for their physiological and clinical significance. Basic pharmacological principles are applied to representative drugs having their primary action on various organ systems of the body. Classes of drugs studied include general and local anaesthetics, hypnotics, sedatives and anti-convulsants, analgesics, central nervous system stimulants, autonomic and curariform drugs, histamine and anti-histaminics, chemotherapeutic agents and antibiotics.

PHYSL 451. *Human Oral Physiology.* ★6 (90 hrs.). A comprehensive lecture course on mammalian and human physiology with emphasis on oral physiological topics. Available to students in the Faculty of Dentistry only.

69.1.3 DENTAL CARIES

DENT 409. *Dental Caries.* ★0.5 (First Term: 5 hrs.). An integrated module on dental caries by both oral biology and clinical sciences.

DENT 439. *Dental Caries.* ★0.5 (Second Term: 5 hrs.). A continuation of the integrated module on dental caries. Clinically relevant situations will be presented.

69.1.4 DENTAL HEALTH CARE

DENT 404. *Community Dentistry.* ★2 (30 hrs.). To acquaint the student with the history of the profession of dentistry and to awaken in the student an awareness that his professional conduct is related to his patient, his profession and his community on sociological principles embodied in professional code of moral principles.

DENT 431. *Nutrition.* ★1 (Second Term: 15 hrs.). Basics of nutrition and diets and their practical application in Dentistry. Prerequisite: DENT 403.

DENT 432. *Behavioral Science.* ★1 (First Term: 15 hrs.). An introduction to behavioral science as it relates to the psychology of patient and staff management, including didactic material on treatment plan presentation and motivational theory.

DENT 464. *Community Dentistry.* ★1 (Second Term: 15 hrs.). The concepts of community dental health with major emphasis on the role of dentistry in private practice and in the community. A comprehensive approach to the dental health problem, including biometrics as applied in dentistry, prevention and control of dental diseases, auxiliary personnel, and recent legislation.

DENT 484. *Community Dentistry.* ★1 (Second Term: 15 hrs.). The moral and legal aspects of the practice of dentistry. The legal factors are presented and discussed by members of the Faculty of Law. The teaching of Forensic Odontology will be coordinated with related material presented in other courses.

DENT 490. *Practice Management.* ★2 (30 hrs.). Office procedures and administration. The effective integration of auxiliary services.

DENT 491. *Dental Auxiliary Utilization Clinic.* ★3 (90 hrs.). Each student will spend a period of time during the year in a Dental Auxiliary Utilization Clinic. This course is a practical extension of DENT 490.

DENT 493. *Mobile Clinic.* ★2 (60 hrs.). Each student will spend 2 weeks in a Mobile Dental Clinic in an area of need of the Province. This course is a practical extension of DENT 490.

DENT 469. *Elective Study.* ★1 (Second Term: 15 hrs.). A program of electives will be offered. Clinical, sociological and research electives will be emphasized.

69.1.5 DENTAL MATERIALS

DENT 419. *Dental Materials.* ★1 (First Term: 15 hrs.). Introduction to the scientific basis for the selection and manipulation of dental materials. The specific materials systems to be discussed will be thermoplastic impression materials, amalgams and dental cements.

DENT 429. *Dental Materials.* ★3 (60 hrs.). Lectures, seminars and laboratory in which every student has a contract requirement to actively contribute to the class in discovering why dental materials behave in the way that they do. An understanding of how or why materials behave as they do greatly enhances treatment planning and service to patients. Specific materials systems to be dealt with will include technique materials, dental metals, ceramics, resins plus bases and liners.

69.1.6 DENTAL THERAPEUTICS

DENT 414. *Dental Therapeutics.* ★2 (Second Term: 30 hrs.). The rationale of drug therapy in the treatment of oral disease and lectures and demonstrations on the administration of local anaesthetics including pain and anxiety control.

DENT 434 *Dental Therapeutics* ★3 (67 hrs.) The rationale of drug therapy in the treatment of oral disease and lectures and demonstrations on the administration of local anaesthetics including pain and anxiety control.

69.1.7 DIAGNOSIS AND ORAL RADIOLOGY

DENT 415. *Diagnosis.* ★1 (Second Term: 15 hrs.). The fundamental principles of the clinical study of disease and practical experience in taking histories and doing clinical examinations

DENT 435. *Diagnosis and Oral Radiology.* ★3 (66 hrs.). The fundamental and elementary principles of dental roentgenology. Tests for the detection of infection, chemical intoxication, neoplasia, hormone imbalance, nutritional disturbances, stress disorders, hemorrhagic diathesis and dental caries susceptibility.

DENT 465. *Diagnosis and Oral Radiology.* ★1 (First Term: 15 hrs.). Case presentations by students emphasizing the total case concept of patient management.

DENT 466. *Diagnosis and Oral Radiology.* ★2 (First Term: 54 hrs.). The student will receive clinical experience in the Oral Diagnosis Clinic.

DENT 485. *Diagnosis.* ★1 (First Term: 15 hrs.). The management of oral disease is continued from DENT 465 / 466. Students are assigned patients for comprehensive care and are also assigned a number of emergency cases.

69.1.8 ENDODONTICS

DENT 462. *Endodontics.* ★1 (First Term: 15 hrs.). The conservation of pulp-involved and pulpless teeth. Procedures for diagnosis and treatment described, demonstrated and correlated with the related dental and basic sciences.

DENT 463. *Endodontics.* ★2 (52 hrs.). Laboratory practice on manikins under simulated clinical conditions. An introduction to clinical procedures with treatment carried out on selected patients.

DENT 483. *Endodontics.* ★2 (51 hrs.). A continuation of Dentistry 463 with application to clinical practice. Endodontic treatment will be carried out on selected patients.

69.1.9 FIXED PROSTHODONTICS

DENT 405. *Oral Anatomy.* ★1 (First Term: 15 hrs.). This course consists of a detailed study of the anatomy of the teeth individually and collectively.

DENT 406. *Oral Anatomy.* ★1 (First Term: 30 hrs.). The teaching of dental morphology and manual dexterity will be accomplished by carving the coronal morphology of representative teeth in wax.

DENT 407. *Occlusion.* ★1 (Second Term: 15 hrs.). Those principles of occlusion common to all disciplines of clinical dentistry will be covered to provide the student with a basic understanding of the fundamentals involved. This will be the initial phase of an integrated teaching module and will orient the student to the basic philosophy of occlusion and give him a correlated foundation from which deviations can be developed by the various clinical departments.

DENT 408. *Occlusion.* ★1 (Second Term: 45 hrs.). The concepts of occlusion will be reinforced in laboratory periods through the use of articulated models and the fabrication of an ideal occlusal model in wax.

DENT 424. *Fixed Prosthodontics.* ★1 (First Term: 15 hrs.). This course will include principles of dental hard tissue surgery for extra-coronal retainers, principles of appliance design and fabrication and special occlusal considerations.

DENT 425. *Fixed Prosthodontics.* ★3 (90 hrs.). Laboratory instruction on the basic principles in the construction and preparation of abutment teeth for the reception of retainers, piers, pontics and connectors for a fixed partial denture. Manikins are used on which a simple bridge is constructed. Experience with porcelain fused to metal will be introduced.

DENT 454. *Fixed Prosthodontics.* ★3 (45 hrs.). Handling of the various materials used and engineering principles involved in fixed partial denture construction. Instruction in the fabrication of a porcelain jacket crown. Porcelain fused to metal fixed prosthodontic techniques will be covered.

DENT 455. *Fixed Prosthodontics.* ★6 (172 hrs.). A designated number of units of fixed dentures will be completed. Clinical programs will provide direction and experience in these areas.

DENT 474. *Fixed Prosthodontics.* ★2 (30 hrs.). Advanced clinical aspects of fixed prosthodontics.

DENT 475. *Fixed Prosthodontics.* ★5 (100 hrs.). Practical application of the techniques covered in the lecture portion.

69.1.10 OPERATIVE DENTISTRY

DENT 412. *Operative Dentistry.* ★2 (30 hrs.). Included will be discussions of basic operating principles; cutting instruments; principles of cavity nomenclature and classification; the principles of cavity preparations along with the manipulation requirements of amalgam and gold foil.

DENT 413. *Operative Dentistry.* ★3 (90 hrs.). Cavity preparations will be cut in artificial and extracted natural teeth and manipulation of both silver amalgam and gold foil will be practiced. Students are responsible for supplying both anterior and posterior natural teeth for their own use.

DENT 422. *Operative Dentistry.* ★2 (30 hrs.). A continuation of DENT 412 with emphasis being given to the use of gold foil in situations other than class V, the use of gold inlays, an introduction into the use of white restoratives and the use of amalgam with pin retention in extensively broken down teeth.

DENT 423. *Operative Dentistry.* ★5 (135 hrs.). Both natural (extracted) teeth and artificial teeth will be used in practising the techniques related to gold foils, gold inlays, some white restoratives and large pin amalgams. The second term will be an introducation to the clinic where students will prepare and place silver amalgam restorations in patients.

DENT 452. *Operative Dentistry.* ★1 (First Term: 15 hrs.). The principles and procedures necessary to successful clinical practice will be emphasized. This is a continuation of DENT 422 in which the material will be covered in more depth and oriented specifically to dealing with patients rather than just in a laboratory situation. All the materials used in operative will be included in the discussions but special emphasis will be given to white restoratives.

DENT 453. *Operative Dentistry.* ★7 (172 hrs.). Clinical practice on patients will be provided to allow the student to develop the necessary operative skills. All materials, amalgam, gold inlays, gold foil and white restoratives will be used. The proper operating environment using rubber dam along with orderly procedures will be mandatory.

DENT 473. *Operative Dentistry.* ★9 (166 hrs.). A continuation of DENT 453 in which students will be expected to increase their skills and efficiency in operative dentistry to the point where they are capable of completely independent professional judgement and execution. The use of all the types of operative materials is mandatory as is the use of rubber dam in providing a proper operating environment. Observing when and how other students are doing as well as critically assessing that which is observed will be a part of the seminar portion of the course.

69.1.11 ORAL AND MAXILLOFACIAL SURGERY AND HOSPITAL, DENTISTRY

DENT 468. *Oral Surgery.* ★3 (58 hrs.). Diagnosis and treatment of the various conditions of the mouth requiring surgical care, including removal of teeth.

DENT 488. *Oral Surgery.* ★2 (30 hrs.). Instruction and demonstrations of exodontia and minor oral surgical procedures under both local and general anaesthesia.

DENT 489. *Oral Surgery.* ★1 (36 hrs.). This program will give the student experience in exodontia and minor surgery procedures.

DENT 492. *Hospital Dentistry.* ★2 (60 hrs.). A two week period of hospital training for senior students where they become familiar with hospital protocol and operating room procedures, observe oral surgery and anesthesia, attend other medical and dental clinics, perform physical evaluation of patients and provide emergency dental care and patient treatment services.

MED 434. *Medicine.* ★1 (Second Term: 15 hrs.). General aspects of medicine with particular reference to local and systematic diseases of dental interest.

SURG 434. *Surgery.* ★1 (Second Term: 15 hrs.). Surgical problems in the head and neck region of particular interest to the dental student.

69.1.12 ORAL BIOLOGY

DENT 401. *Oral Histology.* ★3 (Second Term: 60 hrs.). The development and histology of the teeth and adjacent structures in man.

DENT 402. *Comparative Odontology.* ★0.5 (Second Term: 7 hrs.). A series of lectures which will draw attention to and analyses of, the many unique features of the human dentition, both morphological and functional, by comparing them with those of other recent and fossil animals.

DENT 403. *General Biochemistry.* ★4 (60 hrs.). Designed to give students in first year dentistry an appreciation of general biochemical concepts in relation to metabolism. In addition, certain topics in oral biochemistry are considered.

DENT 418. *Oral Biology and Embryology.* ★1 (First Term: 15 hrs.). Human embryology with special emphasis on the developmental processes involved in the formation of the head and neck. The effects of abnormalities on these processes.

DENT 433. *Immunology.* ★0.5 (Second Term: 8 hrs.). The study of cell, tissue and humeral immunity.

DENT 437. *Oral Pathology.* ★3 (Second Term: 60 hrs.). The diagnosis, pathology and treatment of common diseases of the teeth and adjacent structures.

DENT 467. *Correlated Science Seminars.* ★1 (Second Term: 15 hrs.). Selected topics will be presented by various means involving staff / student participation. The clinical relevance of earlier basic science teaching will be demonstrated.

DENT 487. *Clinical Oral Pathology.* ★1 (First Term: 15 hrs.). Reading assignments on diseases will be made and cases presented for each student to diagnose. Discussions will follow and will include treatment considerations.

69.1.13 ORTHODONTICS

DENT 440. *Orthodontics.* ★1 (Second Term: 15 hrs.). Growth and development of the dento-facial complex, and embryology of the face and jaws.

DENT 460. *Orthodontics.* ★2 (30 hrs.). Introduction to etiology, classification, diagnosis, prevention and interception of malocclusions.

DENT 461. *Orthodontics.* ★2 (60 hrs.). Laboratory instruction in impression, model and soldering techniques and the construction of appliances designed for cases requiring simple treatment.

DENT 480. *Orthodontics.* ★2 (30 hrs.). Each student presents two seminars. Demonstrations are given on selected clinical problems.

DENT 481. *Orthodontics.* ★3 (60 hrs.). Clinical experience, involving preventive, interceptive and simple treatment of orthodontic problems of particular concern to the general practitioner, is designed to enable the student to apply knowledge acquired in the lectures and laboratory.

69.1.14 PEDODONTICS

DENT 428. *Pedodontics.* ★1 (Second Term: 15 hrs.). Mental, physical and behavioral development of children in the family and the community. Child behavior in the dental environment.

DENT 458. *Pedodontics.* ★2 (30 hrs.). This course is designed to provide the student with the basic background material necessary to accomplish effective treatment of pre-school and school age children in a clinical setting.

DENT 459. *Pedodontics.* ★3 (90 hrs.). The laboratory course is designed to provide the student with the attainment of basic technical skills necessary to effectively carry out treatment for child patients in the clinic. The clinical component gives the student the opportunity to put into practice with patients, the various techniques acquired in the lab sessions.

DENT 478. *Pedodontics.* ★2 (30 hrs.). The lecture program is designed to provide the student with an advanced and deeper insight into the diagnosis, treatment and management of preschool and school age children. Particular emphasis is given to children with extensive dental disease problems and various types of handicaps.

DENT 479. *Pedodontics.* ★3 (60 hrs.). The pedodontic clinic is designed to provide the student with experience in diagnosis and treatment of more complex dental problems as well as the competent management of child behavior in a dental setting.

69.1.15 PERIODONTICS

DENT 416. *Periodontics.* ★1 (Second Term: 15 hrs.). An illustrative lecture course devoted to etiology, systemic factors, clinical laboratory tests, nutritional deficiencies and clinical problems in periodontal therapy. Objectives of therapy, diagnosis and prognosis and treatment planning for the periodontally involved mouth will be presented. The interrelationship of periodontics and other phases of dentistry will be stressed.

DENT 417. *Periodontics.* ★1 (Second Term: 30 hrs.). The clinic sessions will introduce the student to introductory periodontal therapy including charting, scaling, polishing and elementary gingival surgery. The histology of supporting tissues will be introduced.

DENT 426. *Periodontics.* ★2 (30 hrs.). The program begun in first year will be continued with additional lecture material.

DENT 427. *Periodontics.* ★2 (45 hrs.). The program begun in first year will be continued with additional clinical experience for the student.

DENT 456. *Periodontics.* ★2 (30 hrs.). The periodontal program is designed to give the student experience in all phases of periodontal case management. The lectures are devoted largely to periodontal therapy.

DENT 457. *Periodontics.* ★3 (76 hrs.). Students will receive clinical experience in most phases of periodontal therapy.

DENT 476. *Periodontics.* ★2 (30 hrs.). A continuation of DENT 456.

DENT 477. *Periodontics.* ★3 (60 hrs.). Clinical experience in treatment of more advanced cases, including furcations. Treatment planning is reinforced.

69.1.16 REMOVABLE PROSTHODONTICS

DENT 410. *Removable Prosthodontics.* ★2 (Second Term: 30 hrs.). A lecture-audio / visual series that will relate to the DENT 411 laboratory experience; an introduction to removable partial dentures specific to classification, component parts, physiological / psychological design concepts and natural tooth recontouring.

DENT 411. *Removable Prosthodontics.* ★3 (Second Term: 60 hrs.). A laboratory experience that simulates clinical procedures and which requires the application of the concepts presented in DENT 410.

DENT 420. *Complete Denture Prosthodontics.* ★5 (30 hrs.). The lectures relate the material learned in Anatomy 412, Anatomy 417 and Physiology 451 to the principles of complete denture construction.

DENT 430. *Complete Denture Prosthodontics.* ★3 (90 hrs.). The laboratory exercises are designed to teach the student the technical aspect of complete denture construction.

DENT 421. *Partial Denture Prosthodontics.* ★2 (30 hrs.). The lectures will deal with the diagnosis and treatment planning of extra coronally attached removable partial dentures.

DENT 436. *Partial Denture Prosthodontics.* ★3 (90 hrs.). The students will be taught how to survey and design all classes of removable partial dentures and given an opportunity to practice impression procedures.

DENT 450. *Removable Prosthodontics.* ★2 (First Term: 30 hrs.). A lecture-audio / visual series that relates to the DENT 451 clinical practice; an introduction to basic clinical prosthodontics specific to clinical procedures and patient management.

DENT 451. *Removable Prosthodontics.* ★5 (150 hrs.). A clinical experience offering instruction in treating edentulous patients.

DENT 470. *Removable Prosthodontics.* ★2 (30 hrs.). A lecture-audio / visual series that introduces the student to advanced prosthodontic procedures.

DENT 471. *Removable Prosthodontics.* ★6 (140 hrs.). An advanced clinical experience offering instruction in treating patients requiring complete dentures, removable partial dentures, immediate surgical dentures, relines and overdentures.

69.2 Graduate Courses

The hours of instruction in the course per week are indicated by the three figures in the parenthesis after the term. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated.

DENT 500. *Cephalometrics.* ★5 (First Term, 0-3s-3). Measurements of cranial and jaw relationships by radiographic techniques.

DENT 501. *Advanced Pedodontics.* ★11 (1-9c-0).

DENT 502. *Advanced Oral Pathology.* ★3 (First Term, 3-0-0). A review of diseases which affect the oral tissues and exploration of recent additions to knowledge pertaining to them.

DENT 503. *Mineralization in Biological Systems.* ★3 (First Term, 3-0-0).

DENT 504. *Oral Biology (Applied Anatomy).* ★3 (First Term, 3-0-0). Consideration of developmental and gross anatomy related to the appreciation and practice of dentistry.

DENT 505. *Dental Biochemistry and Physiology.* ★2 (Second Term, 2-0-0).

DENT 506. *Oral Medicine.* ★3 (Second Term, 3-0-0). A study of the mechanisms of oral disease as a basis for rationale of treatment.

DENT 507. *Research Methodology.* ★1 (Second Term, 1-0-0). Reading assignments, the preparation of a detailed plan for a research project and its defense.

DENT 510. *Recent Advances in Oral Medicine.* ★1 (First Term, 1-0-0). In a series of 14 lectures the current status of Oral Medicine — Oral Pathology is reviewed. The emphasis is on an application of new knowledge to the diagnosis and management of dental and paradental disease processes in adolescents.

DENT 540. *Advanced Complete Denture Prosthodontics.* ★11 (1-0-9).

DENT 541. *Advanced Removable Partial Denture Prosthodontics.* ★8 (1-0-6).

DENT 550. *Clinical Orthodontics.* ★17 (1-3c-0; 6-18c-0). A course designed to give the student the clinical training necessary to treat orthodontic problems. The edgewise technique is the basic system taught in the clinical program.

DENT 551. *Orthodontic Technique.* ★6 (First Term, 1-0-9). Lectures on the biomechanical principles involved in orthodontic tooth movement. The laboratory entails advanced techniques to teach the student the skills and methods of manipulating orthodontic materials and fabricating the appliances required to treat orthodontic clinical problems.

DENT 552. *Orthodontic Seminar.* ★4 (Second Term, 0-4s-0). Orthodontic theory including etiology and diagnosis of malocclusion, treatment planning and philosophy of treatment techniques.

DENT 553. *Craniofacial Growth and Development.* ★2 (Second Term, 0-2s-0). A detailed review of the postnatal growth and development of human craniofacial structures. This course involves an analysis of the cephalometric and growth studies especially related to the practice of orthodontics.

DENT 554. *Functional Occlusion.* ★3 (Second Term, 3-0-0).

DENT 555. *Dental Materials.* ★2 (First Term, 2-0-0). The course will cover the structure, properties and testing methods relative to dental materials. Specific materials and the clinical and biological significance of their properties will be discussed.

DENT 556. *Orthodontic Diagnosis and Treatment Planning.* ★3 (First Term, 3-0-0). Designed to develop in the student the creative ability and critical analysis necessary to diagnose orthodontic problems and to treatment plan critical cases. Limitations to orthodontic therapy will be emphasized during treatment planning.

DENT 557. *Clinical Orthodontics.* ★6 (6-18c-0). A continuation of DENT 550 for students in the first year of the graduate orthodontic program. A course designed to give the student the clinical training necessary to treat orthodontic problems.

DENT 558. *Orthodontic Seminar.* ★3 (0-3s-0). A continuation of DENT 552 for students in the first year of the graduate program. A course in orthodontic theory.

DENT 601. *Advanced Pedodontics.* ★11 (1-0-9).

DENT 640. *Advanced Complete Denture Prosthodontics.* ★11 (1-0-9).

DENT 641. *Advanced Removable Partial Denture Prosthodontics.* ★8 (1-0-6).

DENT 643. *Maxillofacial and Surgical Prosthetics.* ★3 (First Term, 1-0-3).

DENT 650. *Clinical Orthodontics.* ★24 (6-18c-0; 0-18c-0). A continuation of DENT 550 for students in the second year of the graduate Orthodontic program.

DENT 652. *Advanced Orthodontic Seminar.* ★10 (0-4s-0; 0-6s-0). This course is a continuation of DENT 552. In the Second Term the seminars focus on post retention cases and a review of current literature relevant to orthodontics.

DENT 657. *Clinical Orthodontics.* ★6 (0-18c-0). A continuation of DENT 650 for students in the second year of the graduate orthodontic program. A course designed to give the student the clinical training necessary to treat orthodontic problems.

DENT 658. *Orthodontic Seminar.* ★3 (either term, 0-3s-0). A continuation of DENT 652 for students in the second year of the graduate program. An advanced course in orthodontic theory.

69.3 D.H. Diploma

69.3.1 GENERAL INFORMATION

In the following list of courses open to students in the Dental Hygiene Program, each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their registration forms.

The courses are listed in subject order.

Following the title of each course is the symbol "★" standing for "course weight", and a number indicating the weight of the course as used in computing grade-point averages.

The figures, enclosed in parentheses, indicate the total hours of instruction in the course. If the course is a single-term course, the term in which it may be offered is mentioned before the hours of instruction.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. COURSE DESCRIPTIONS OUTLINED BELOW ARE THOSE COURSES OFFERED DURING THE 1980-81 SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

69.3.2 DENTAL HYGIENE COURSES

D HYG 203. *Dental Anatomy.* ★3 (First Term, 39 hrs.). A self-study course that is concerned with nomenclature, biologic considerations of tooth form and function; permanent and deciduous teeth are studied in detail.

D HYG 205. *Dental Radiography.* ★2 (Second Term, 32 hrs.). An introductory course covering the history of dental radiography as well as lectures in radiation physics, radiobiology, radiation control and radiation hygiene. Common types of radiographic films and film characteristics will be discussed as well as photographic chemistry and methods of processing. Projection geometry, principles of dental radiography and normal radiographic anatomy as it relates to identification and mounting of radiographs will be stressed. Each student will also rotate through the clinics in the Second Term for preclinical experience.

D HYG 212. *Dental Auxiliary Practice I and II.* ★14 (273 hrs.). A lecture, pre-clinic and clinical course that integrates the knowledge and practice of dental hygiene skills, dental assisting skills, dental practice management and administration. An experiential approach to the prevention of dental diseases, including individual patient instruction in oral physiotherapy. Special emphasis on the theories and practice of periodontology. Each student will receive a basic course in cardio-pulmonary resuscitation.

D HYG 213. *Anatomy and Physiology.* ★6 (130 hrs.). Basic human anatomy, physiology, and histology; the normal functions of the body with particular emphasis on head and neck.

D HYG 220. *Nutrition.* ★2 (First Term, 26 hrs.). An introductory course. Importance of food nutrients for good general health as well as dental health. Nutrient requirements for an individual at various phases of the life cycle. The art of diet counselling and diet assessment techniques are demonstrated.

D HYG 222. *Oral Histology and Embryology.* ★3 (Second Term, 52 hrs.). The histological development and structural characteristics of the head, face, oral cavity, and teeth. General study of the elementary body tissues and structures to supplement the introduction to histology in D HYG 213.

D HYG 223. *Dental Materials.* ★4 (Second Term, 65 hrs.). The properties, preparation, and manipulation of materials used in dentistry. Laboratory work includes student participation in the taking and pouring up of impressions, fabrication of trays, the placing and carving of restorations, investing and casting, as well as the manipulation of waxes, cements, gold, amalgam, perio pack, etc.

D HYG 227. *Periodontology for the Dental Hygienist.* ★1 (Second Term, 13 hrs.). A lecture and demonstration course designed to introduce the student to those procedures that are commonly associated with the practice of periodontics. Lectures on the classification of periodontal disease, the objectives of periodontal therapy and on how to assess periodontal conditions are also included. A periodontal clinical association with dental students will also take place on a clinic rotation basis.

D HYG 301. *Communications.* ★3 (Second Term, 26 hrs.). Lectures and workshops designed to introduce the student to various communication models useful in interpersonal communications with groups and individuals. Principles of procedures, and preparation and presentation of topics for public speaking, common parliamentary procedures, debating, chairmanship and panel discussions.

D HYG 302. *Pathology.* ★3 (First Term, 52 hrs.). Introduction to the principles of pathology with consideration of the more common diseases affecting the human body. Visual differentiation between normal and abnormal tissues; the physiological and pathological changes which affect the teeth, their supporting structures and the oral mucosa, including oral manifestations of selected systemic disturbances.

D HYG 305. *General Pharmacology.* ★2 (First Term, 26 hrs.). General principles of therapeutics and the pharmacological effects of medication, classified by the responses of organ systems of the body. The beneficial and adverse effects of drugs; the application of the following drug groups: local and systemic anti-infectives, sedatives, hypnotics, stimulants, anti-convulsants, analgesics, psychotherapeutic agents, anaesthetics, cardiovascular drugs, anti-coagulants, coagulants, blood forming agents and replacements, hormones, enzymes, and nutritional agents. Dental and oral therapeutics and therapeutic aids used in dental hygiene. Department of Pharmacology, Faculty of Medicine.

D HYG 312. *Dental Auxiliary Practice III and IV.* ★6 (78 hrs.). A continuation of Dental Auxiliary Practice I and II with emphasis on dental specialities including oral diagnosis, orthodontics, oral surgery, fixed and removable prosthodontics and pedodontics. Lectures and demonstrations on office emergencies, ethics and laws pertaining to dental auxiliary practice, the role of the profession and its interactions with other professions and agencies constitute this course.

D HYG 314. *Oral Physiology.* ★1 (First Term, 13 hrs.). The physiological functions of the oral structures. Physiological aspects of the periodontal tissue with special emphasis on its innervation, nutrition, and reaction to injuries. Lectures on dynamics of mastication, kinesiology of the masticatory muscles, temporomandibular joint, deglutition, speech, special reflexes involving cranial nerves, receptors of the stomotognathic system, salivary glands, composition of the saliva and its relevance to caries. Oral manifestation of metabolic disease, physiology of pain, infection, and oral habits that affect the physiological functions of the oral cavity.

D HYG 315. *Dental Radiography.* ★2 (26 hrs.). Clinical experience in intraoral examinations on patients as well as processing and mounting radiographs.

D HYG 316. *Dental Auxiliary Practice III and IV.* ★6 (350 hrs.). An advanced clinical course that integrates the knowledge and practice of dental hygiene skills, dental assisting skills, dental practice management and administration. Also, each student will participate in a two week field experience in a mobile dental clinic in a designated area of the province following an assignment in the Dental Auxiliary Utilization clinic.

D HYG 321. *Dental Health Education.* ★6 (117 hrs.). Through lecture, discussion and field experiences, this course is designed to provide an introduction to the principles of dental health education. A review of dental health education concepts for the private practice environment; the procedures for establishing a patient education program; construction and utilization of audiovisual materials and the operation of audiovisual equipment; instructional preparation for group education and application of educational theory to teaching experiences is included.

D HYG 322. *Dental Public Health.* ★2 (First Term, 26 hrs.). The historical and philosophical background of public health; the history of dentistry, the function of dentistry in public health services. The role of the dental health team as related to the concept of community dental health.

D HYG 323. *Biochemistry.* ★3 (Second Term, 39 hrs.). This course is designed to provide the students in the dental hygiene program with a general understanding of biochemical concepts. In addition, certain topics in oral biochemistry are considered.

69.3.3 BACTERIOLOGY

BACT 422. *Bacteriology.* ★3 (First Term, 40 hrs.). An introduction to general bacteriology, aspects of infection and resistance, selected examples of infectious disease. Special bacteriology of the mouth including dental caries and periodontal diseases.

69.3.4 ENGLISH

ENGL 210. *English Literary Forms.* ★6 (78 hrs.). This course combines an introduction to the various genres of English literature (prose, poetry and drama) with formal instruction in writing skills. One-third of the course is devoted to writing instruction. Department of English, Faculty of Arts.

69.3.5 PSYCHOLOGY

PSYCO 260. *Basic Psychological Processes.* ★3 (Second Term, 39 hrs.). Principles and development of perception, motivation, learning, and thinking and their relationship to the psychological functioning of the individual. Faculty of Science.

69.3.6 SOCIOLOGY

SOC 202. *Introductory Sociology.* ★6 (78 hrs.). An analysis of the nature of society, the interrelationships of its component groups, and the processes whereby society persists and changes. Society analysed in terms of its structure, culture, and social ranking schemes. The interrelationships between the various institutions (e.g., family, church, school, government). The process whereby the individual is socialized into society; the sources of conformist and non-conformist behavior. Department of Sociology, Faculty of Arts. Note: Third-year or more advanced students are encouraged to take SOC 403 rather than 202.

Faculty of Education

71 INTRODUCTORY

71.1 *Members of the Faculty*

71.1.1 OFFICERS OF THE FACULTY

Dean
W. H. WORTH, Ed.D.

Associate Dean (Planning and Development)
R. S. PATTERSON, Ph.D.

Associate Dean (Student Services)
M. P. BROWNE, Ph.D.

Assistant Deans
C. A. NORMAN, Ph.D. (Admissions)
A. T. PEARSON, Ph.D. (Practicum)
R. M. SMALL, Ph.D. (Continuing Education)

Administrative Officers
D. E. CHALMERS, (Records Officer)
G. I. FORTH, (Operations Officer)
M. O. JOHNSTON, (Information Officer)
V. A. KIFFIAK, B.A. (School Liaison Officer)
C. E. MACHON, B.Com. (Planning Officer)

71.1.2 DEPARTMENT OF EDUCATIONAL ADMINISTRATION

Professor and Chairman
D. E. SEGER, Ph.D.

Professors
A. J. BERGEN, Ph.D.
D. C. BRYCE, Ph.D.
R. S. BUMBARGER, Ed.D.
J. ENNS, Ph.D.
H. FRIESEN, Ph.D.
J. R. GUE, Ph.D.
J. D. HODGSON, Ph.D.
J. A. HOLDAWAY, Ph.D.
J. J. INGRAM, Ph.D.
J. G. KONRAD, Ph.D.
J. A. MacKAY, Ph.D.
J. G. McINTOSH, Ed.D.
J. MIKLOS, Ph.D.
W. RATSOY, Ph.D.
R. M. SMALL, Ph.D.
W. H. WORTH, Ed.D.

Associate Professors
D. E. BAIRD, Ph.D.
H. H. BALDERSON, Ph.D.
J. FRIS, Ph.D.
J. M. RICHARDS, Ph.D.
J. L. WARD, M.Ed.

71.1.3 DEPARTMENT OF EDUCATIONAL FOUNDATIONS

Professor and Chairman
J. J. MILLER, Ph.D.

Professors
K. BACCHUS, Ph.D.
C. BHATTACHARYA, Ph.D.
R. J. CARNEY, Ph.D.
A. D. FISHER, Ph.D.
H. GARFINKLE, Ph.D.
H. W. HODYSH, Ph.D.
M. R. LUPUL, Ph.D.
R. S. PANNU, Ph.D.
R. S. PATTERSON, Ph.D.
A. T. PEARSON, Ph.D.
D. R. P. PUGH, M.Ed.

Associate Professors
M. I. ASSHETON-SMITH, MPH
A. M. DECORE, Ph.D.
I. DeFAVERI, Ph.D.
N. KACH, Ed.D.
G. D. TAYLOR, Ph.D.
C. A. URION, Ph.D.
D. G. WANGLER, Ph.D.
J. R. YOUNG, M.Ed.

Assistant Professors
H. M. LYSONS, M.A.
F. N. WALKER, Ph.D.

Honorary Assistant Professor
P. ROOKE, Ph.D.

71.1.4 DEPARTMENT OF EDUCATIONAL PSYCHOLOGY

Professor and Chairman
H. W. ZINGLE, Ph.D.

Professors
C. C. ANDERSON, Ph.D.
F. J. BOERSMA, Ph.D.
J. P. DAS, Ph.D.
E. L. EBERLEIN, Ph.D.
W. J. HAGUE, Ph.D.
S. M. HUNKA, Ph.D.
H. L. JANZEN, Ph.D.
G. M. KYSELA, Ph.D.
R. S. MacARTHUR, Ph.D.
T. O. MAGUIRE, Ph.D.
J. J. MITCHELL, Ph.D.
V. R. NYBERG, Ed.D.
J. G. PATERSON, Ed.D.
M. RODDA, Ph.D.
E. W. ROMANIUK, Ph.D.
P. C. SARTORIS, Ph.D.
D. D. SAWATZY, Ph.D.
L. L. STEWIN, Ph.D.
L. A. WHYTE, Ph.D.

Honorary Professor
G. R. LeFRANCOIS, Ph.D.

Associate Professors
B. C. BAIN, Ph.D.
D. A. BAINE, Ed.D.
J. K. BISHOP, Ph.D.
E. A. BLOWERS, Ph.D.
P. CALDER, Ph.D.
G. N. FITZSIMMONS, Ph.D.
E. E. FOX, Ph.D.
J. S. GOLDBERG, Ph.D.

R. K. GUPTA, Ph.D.
C. T. KING, Ph.D.
P. W. KOZIEY, Ph.D.
R. F. MULCAHY, Ph.D.
C. A. NORMAN, Ph.D.
J. W. OSBORNE, Ph.D.
D. T. SHANNON-BRADY, Ph.D.
R. H. SHORT, Ph.D.
E. N. SKAKUN, Ph.D.
A. VANDERWELL, Ph.D.
L. WILGOSH, Ph.D.
C. R. YEWCHUK, Ph.D.

Assistant Professors

R. FRENDER, Ph.D.
R. A. SCHULTZ, Ph.D.
F. D. SNART, Ph.D.

Administrative Officer

E. H. COLLINS

71.1.5 DEPARTMENT OF ELEMENTARY EDUCATION

Professor and Chairman

P. A. McFETRIDGE, Ph.D.

Professors

T. P. ATKINSON, Ph.D.
M. P. BROWNE, Ph.D.
W. G. CATHCART, Ph.D.
C. R. CHAMBERLIN, Ph.D.
W. T. FAGAN, Ph.D.
E. H. FILIPKOWSKI, M.A.
M. HOROWITZ, Ed.D.
R. K. JACKSON, Ph.D.
M. D. JENKINSON, Ph.D.
J. M. KIRMAN, Ph.D.
D. L. MASSEY, Ph.D.
L. D. NELSON, Ph.D.
K. A. NEUFELD, Ph.D.
W. F. REESE, Ed.D.
J. E. ROBERTSON, Ph.D.
D. SAWADA, Ph.D.
B. SCHWARTZ, D.Ed.
R. E. STEPHENS, Ed.D.
R. L. WARE, Ed.D.
L. G. WIEDRICK, Ed.D.
W. D. WILDE, Ph.D.
D. W. R. WILSON, Ph.D.
J. E. WORTH, Ph.D.

Associate Professors

J. M. BLAKEY, Ed.D.
L. M. EVERETT-TURNER, M.Ed.
M. L. GRAYSON, M.A.
W. W. LAING, Ph.D.
J. B. LOMBARD, D.Ed.
F. M. MacCANNELL, Ph.D.
G. V. MALICKY, Ph.D.
P. A. PAYNE, M.Ed.
P. J. PLATT, M.Ed.
P. H. RAFFERTY, M.Ed.
D. J. SANDE, Ph.D.
S. A. THERRIEN, Ph.D.
D. G. TUCKER, Ph.D.
J. VALLANCE, M.A.
J. WRIGHT, M.S.
J. H. YOUNG, Ph.D.

Assistant Professors

D. A. DILLON, Ph.D.
H. G. ILOTT, B.Ed.
M. L. McNAY, Ph.D.
J. T. PATRIE, Ph.D.
D. J. SEARLE, M.A.

Administrative Officer

E. J. GRAHAM, M.Ed.

71.1.6 DEPARTMENT OF SECONDARY EDUCATION

Professor and Chairman

T. T. AOKI, Ph.D.

Professors

K. L. BOWERS, Ph.D.
K. G. JACKNICKE, Ph.D.
H. J. KASS, Ph.D.
T. E. KIEREN, Ph.D.
R. N. MacGREGOR, Ph.D.
R. G. MARTIN, Ph.D.
M. J. MONOD, Ph.D.
M. A. NAY, Ph.D.
C. Y. OH, Ph.D.
A. T. OLSON, Ph.D.
D. V. PARKER, Ph.D.
S. E. SIGURDSON, Ph.D.
A. A. SMITH, DMA
M. F. R. SMITH, Ph.D.
M. J. van MANEN, Ph.D.

Associate Professors

A. H. BORYS, Ph.D.
W. BROUWER, Ph.D.
T. O. CRAIG, M.A.
D. G. ENGEL, Ed.D.
J. J. LAFOLLETTE, Ed.D.
V. M. LEFEBVRE, Ph.D.
J. E. OSTER, Ph.D.
E. L. RANKIN, Ed.D.
W. D. SAMIRODEN, M.Sc.
S. D. UBELACKER, Ph.D.

Assistant Professors

L. S. BEAUCHAMP, Ed.D.
W. D. HRYCHUK, Ph.D.
J. B. PARSONS, Ph.D.

71.1.7 DEPARTMENT OF INDUSTRIAL AND VOCATIONAL EDUCATION

Professor and Chairman

H. D. TICHENOR, Ph.D.

Professors

J. E. GALLAGHER, Ed.D.
M. W. PETRUK, Ph.D.

71.2 *General Information and Important Deadlines*

The Faculty of Education provides professional preparation for teachers and graduate study opportunities for those interested in more specialized advanced work in the field of education. Undergraduate teacher preparation programs are available for those anticipating careers in preschool, elementary, secondary or post-secondary / adult education.

Each program for the Bachelor of Education degree provides for certification to practice as a teacher in Alberta. Certificates are granted by the Minister of Education, on the recommendation of the Faculty of Education. *Student Visitors (persons on student visas) will not be recommended for certification.*

Inquiries should be addressed to the Office of the Associate Dean (Student Services), Faculty of Education, The University of Alberta.

71.2.2 IMPORTANT DEADLINES

(a) Admission to the University — All programs:
September term — June 1
January term — November 2

(b) Transfer to the Faculty of Education from another faculty in the University:
For September admission — June 1
For January admission — November 2

NOTE: Students who registered in another faculty in September may not transfer in January, Spring Session or Summer Session, unless the requirements of the program to which admission is sought warrant an immediate transfer.

(c) Advance Registration:
Continuing students in B.Ed., B.Ed. / A.D., Graduate Diploma Programs — March 15
New students or transfers from other faculties must register in-person in September.
On-campus evening credit — June 1

(d) Withdrawal from University:
Formal notice is required. See 15.2.5 of University Regulations and Information for Students Calendar for fee assessment.

(e) Addition of courses to student's program or changing from "audit" to "credit".
Full Session and First Term courses — September 17
Second Term courses — January 11

(f) Dropping courses from a student's program or changing from "credit" to "audit".
(i) For students who are *not* registered in a 6 or 10 week practicum-related course:
First Term courses — November 12
Full Session courses — February 12
Second Term courses — March 1
(ii) For students who *are* registered in a 6 or 10 week practicum-related courses:

Last date for withdrawing from First Term courses will be:
First 6 weeks — October 5, 1981
Second 6 weeks — November 16, 1981
Ten weeks — October 19, 1981

Last date for withdrawing from Second Term courses will be:
First 6 weeks — February 1, 1982
Second 6 weeks — March 15, 1982
Ten weeks — February 15, 1982

(g) Application for regular supplemental or deferred final examinations:
To be written August 4-8 — July 3
To be written after First Term — March 17

(h) Application to receive a degree:
At Spring Convocation — February 1
At Fall Convocation — July 15

(i) Readmission after a failed year:
Notification to Faculty and to Student Counselling Services that readmission for Fall Session is being sought — July 15.

NOTE: Normally one year must elapse before readmission is sought.

71.3 *Board of Teacher Education and Certification*

A Board of Teacher Education and Certification representing jointly the Department of Education, the Universities of Alberta, Calgary and Lethbridge, the Alberta School Trustees' Association, the Conference of Alberta School Superintendents, the Alberta Teachers' Association and the Department of Advanced Education and Manpower serves as a liaison body for the groups it represents. This board is purely an advisory body. It is authorized to make recommendations to the Minister of Education and to the President of the University respecting the programs of instruction, the estimates of expenditures on these programs, regulations governing the certification of teachers prepared in Alberta or elsewhere, and appointments to the staff of the Faculty of Education.

72.1 Admission

72.1.1 ADMISSION REQUIREMENTS

(1) *Academic Requirement.* The matriculation requirements for all B.Ed. programs are set out in § § 13.1 and 13.8 of the University Regulations and Information for Students Calendar.

(2) *Non-matriculated Adult Applicants.* Residents of Alberta, who are Canadian citizens or Permanent Residents (Landed Immigrants) and who do not meet the regular matriculation requirements may qualify for admission to the Faculty of Education by meeting the requirements outlined below:

(a) Applicants must be twenty-one years of age by December 31st in the calendar year in which admission is sought.

(b) Applicants must present to the Office of the Registrar a high school transcript indicating credit in English 30 and one of: Biology 30, Chemistry 30, French 30, German 30, Latin 30, Mathematics 30, Mathematics 31, Physics 30, Social Studies 30, or Ukrainian 30. A minimum mark of 50% in any one course and an average of 60% in the two courses presented for admission is required.

(c) Applicants should communicate with Student Counselling Services (telephone 432-5205) for testing and an interview. A positive recommendation is required from Student Counselling Services.

(3) *Vocational Education Route.* To gain admission to a B.Ed. program, vocational education route, a student must meet special admission requirements. These requirements are outlined in detail in § 73.5.1. A student might present the following modified matriculation pattern:

(1) English 30
(2) Subject from Group A or C
(3) Subject from Group A or C
(4) Vocational Education 32 subject
(5) Vocational Education 32 subject

The average on (1), (2), and (3) must be at least 60% with no grade below 50%. The average on (4) and (5) must be at least 65% with no grade below 50%.

(4) *Interview.* All students must attend a program counselling session prior to their first registration in the Faculty. First year students may attend the session prior to being admitted. All applicants will be informed of the session time prior to the registration period.

(5) *Speech Test.* Since competence in spoken English is a requirement of admission to the Faculty of Education, a speech test is required of all applicants for first admission. This test is over and above the English language proficiency requirement outlined in § 14.3 of the University Regulations and Information for Students Calendar. Students must sign up for the speech test during the first In-Person Registration period. Registration in Education Practicum courses will not normally be permitted unless speech clearance has been obtained.

(6) *Application deadlines.* Normally preference will be given to students who apply early. Students currently on programs in Alberta universities and colleges are urged to apply before May 1st to ensure admission the following September. Students should not expect to be informed of their admission status prior to August 1 since all documents must be received and assessed before the admission ruling can be made.

(7) *Holders of Approved Degrees of The University of Alberta.* Students seeking admission to a teacher education program on the basis of an approved degree from The University of Alberta are not automatically entitled to admission to the Faculty of Education. See § 73.8.2 for details of prerequisite requirements for admission to specific programs. Points (3), (4), and (5) above apply. Applicants should complete an Application for Re-enrolment form at the Office of the Registrar prior to June 1 for September admission.

72.1.2 ADMISSION WITH ADVANCED STANDING OR ADVANCED CREDITS

(1) Applicants seeking advanced standing for work completed at institutions other than the University of Alberta must have their transcripts evaluated by the Office of the Registrar. The transcripts should be submitted to the Registrar, The University of Alberta, Edmonton.

(2) A maximum of ten full course equivalents (60 credits) may be granted for work completed at other institutions. Applicants should not expect to receive more than 60 credits which is the maximum amount of advance credit that will be granted. However, the amount of credit will depend upon the program elected by the applicant.

(3) Students entering the Faculty of Education with advanced standing who expect to teach in Alberta should obtain an evaluation for salary purposes from the Teacher Qualification Service, A.T.A., Barnett House, 11010 - 142 St., Edmonton, Alberta, T5N 2R1. An evaluation for salary purposes does not necessarily agree with an evaluation for admission purposes.

72.1.3 ADMISSION WITH EXTRAMURAL CREDITS

Credit to a maximum of four junior courses (24 credits) taken by correspondence from another recognized university may be allowed, although the actual number will vary with the program.

72.1.4 APPLICATION FOR ADMISSION

Application procedure is explained in § 14 of the University Regulations and Information for Students calendar.

No definite and final ruling concerning admission can be given until all certificates and transcripts of standing have been reviewed by the Office of the Registrar. Final decisions on admission status will not be made until August 1 or later, depending upon the receipt of documents. It is the applicant's responsibi;ity to ensure that the University receives all documents.

72.1.5 RE-ADMISSION

A candidate returning to the Faculty of Education after a break of twelve months or longer in his or her program should request and complete Re-enrolment Forms and submit them to the Registrar's Office.

72.1.6 RE-ENROLMENT ON TRANSFER

A student transferring into the four-year B.Ed. program of the Faculty of Education from another faculty within the University of Alberta should request and complete Re-enrolment Forms and submit these to the Registrar's Office, before June 1, for September admission; before November 2 for January admission.

72.1.7 RESIDENCE REQUIREMENTS

A student proceeding towards the B.Ed. degree must complete a minimum of two years (60 credits) in the

Faculty of Education. Students should be aware that, because of the highly structured nature of the program, full-time attendance will be mandatory at different points in the degree program.

72.2 Registration

(1) *Registration Procedure.* The procedure for registration is that set out in § 15 of the University Regulations and Information for Students calendar.

(2) The normal course load each term of the Winter Session is 15 credits. Students may be permitted to do 18 credits each term if they:

(a) Have an average of 7.5 or better on the last 30 credits already recorded for work done in the Faculty of Education. (First Term grades will not be considered in calculating the G.P.A. of 7.5.)

(b) Have a G.P.A. of 6.0 or better and will meet graduation requirements during the Winter Session in which the extra courses are requested.

STUDENTS REGISTERED IN EXTENDED PRACTICUM EXPERIENCES (4-10 WEEKS) ARE RESTRICTED TO THE NORMAL LOAD.

(3) *Registration in Practicum.* Students with problems related to health, speech or any other disability are advised to consult with the Assistant Dean (Practicum) prior to enrolling in education practicum courses since some adjustment in assignment may be necessary.

72.2.1 CHANGE OF REGISTRATION

A student wishing to change his or her registration, including "Audits", must apply to the Student Records Office of the Faculty of Education. No credit will be granted in a course unless a student is officially registered in the course prior to the published deadline. Please refer to the Academic Schedule for deadlines and to § 71.2.2 of this calendar.

72.2.2 WITHDRAWAL FROM FACULTY

Once a student has registered in the faculty, 'Notice of Withdrawal' forms must be completed if the student decides not to attend. Fees will be assessed according to the regulations and dates outlined in 15.1.5, 15.1.15, and 15.2.5 of the University Regulations and Information for Students calendar and the appropriate section of the In-person Registration handbook.

72.3 Academic Standings and Graduation

(1) The pass mark in all courses in both degree and certification programs is a grade of 4. For admission to a course with a prerequisite requirement a grade of at least 4 must be obtained in the prerequisite course.

(2) *Categories of Academic Standing.* There are three categories of academic standing, designated as categories (A), (B), and (C). These categories are determined for each student by the computation of a Quality Index upon the completion of each year of study. The Quality Index (Q.I.) is defined by the following formula:

$$\text{Q.I.} = \frac{\text{Number of Courses Passed}}{\text{Number of Courses Attempted}} \times \text{G.P.A.}$$

In the above formula, G.P.A. (Grade Point Average) is the sum of the products of all grades and their respective course weights divided by the sum of those weights.

The categories of standing are as follows:

Category A: All students with a Q.I. of 4.0 or greater.

Category B: All students with a Q.I. of less than 4.0 but greater than 2.0. Performance in this Q.I. range is considered to be "unsatisfactory."

Category C: All students with a Q.I. of 2.0 or less. Performance at this level is considered to be "extremely unsatisfactory." Students in this category at the end of a year's work will be required to withdraw from the faculty. When a student has been required to withdraw, normaliy at least a year must elapse before readmission will be granted. All applications for readmission after a requirement to withdraw must be accompanied by a recommendation from the Student Counselling Services.

(3) To obtain a Bachelor of Education degree a student must present a grade of 4 or better in a minimum of eighteen full-course equivalents (108 credits), not less than a grade of 3 in the other two full course equivalents (12 credits), except that a grade of 3 is not acceptable in the area of specialization, and a grade-point average of at least 5.0 in all courses credited to the degree after the first year. i.e. the last 90 credits.

(4) To qualify for a Bachelor of Education degree "With Distinction" students must complete the final 60 credits at this university with a grade-point average of 7.5 or higher. Students who complete 3 or more credits of the last 60 credits at another institution will not be eligible for the degree "With Distinction".

(5) To be recommended for the first certificate a student must obtain a grade-point average of at least 5.0 on all courses credited toward the certificate.

(6) A student transferring to the B.Ed. program at The University of Alberta with more than 30 credits must obtain a grade-point average of at least 5.0 on all courses completed at The University of Alberta for credit towards his/her degree.

(7) A holder of an approved degree may not obtain credit for more than one full course equivalent (6 credits) with a grade of 3.

(8) A student will not be allowed to write supplemental examinations on more than two full course equivalents (12 credits) in any one year.

(9) A student will not be allowed to write supplemental examinations on more than five full course equivalents (30 credits) on the four-year B.Ed. program.

(10) A holder of an approved degree taking the B.Ed. program will not be allowed to write supplemental examinations in more than two full course equivalents (12 credits).

(11) A teacher who, during the regular Supplemental Examination period, is in a teaching position may, with the approval of the Dean, write the supplemental examination at the end of the Summer Session. If an examination in the required subject is on the regular schedule, the fee for the supplemental is $15.00. If a special examination paper must be prepared, the fee is $60.00.

(12) A student who fails a course in the Spring or Summer Sessions will not be granted a supplemental privilege.

(13) There is no supplemental privilege in education practicum courses.

(14) A student who, in any Winter Session, is unable to complete Student Teaching because of Faculty regulations based on School Board policies will be required to withdraw from Student Teaching and

re-register in the appropriate Student Teaching (ED PR) course in a subsequent year.

(15) A student will not be granted the privilege of repeating a failed course more than once during the degree program.

(16) A student who is repeating a year will be granted no supplemental privileges in the courses taken in that year and must pass all courses with a minimum grade of 4 and with a grade-point average of at least 5.0 in order to be allowed to continue.

(17) The maximum number of additional courses including repeated courses in which a student may enrol during a B.Ed. program may not exceed by more than five the number of courses required for completion of any B.Ed. program.

(18) Special regulations applying to particular routes to the B.Ed. degree are set out in § 73.

(19) The Faculty of Education has an Academic Appeals Committee, similar to the General Faculties Council Academic Appeals Committee. Matters regarding a student's academic status may become the subject of an appeal, with the exception of marks in individual courses.

Students who wish to discuss grades which they receive should consult first with the professor offering the course and then with the Chairman of the Department offering the course. See also § 16.7 (Appeals and Grievances) in the University Regulations and Information for Students Calendar.

72.4 Special Regulations

(1) *Transfer from one route to another.* Students who wish to change their route should consult with personnel in the Office of the Associate Dean (Student Services). Route changes are possible but students must expect to meet all of the requirements of the new route. This may involve additional course work.

(2) *Advance Credits for Certificated Teachers.* Normally one year's credit in the four-year program is given for basic teacher education programs.

(3) *Review of Inactive Programs.* A student whose B.Ed. program has been inactive for three years or who has failed to complete the degree in fifteen years may have his/her program reviewed and, if necessary, rearranged according to prevailing requirements.

(4) Established students who expect to receive credit on their University of Alberta program in the Faculty of Education for a course completed elsewhere must get prior permission in writing from the Associate Dean (Student Services).

(5) *Transfer from Probationary Status.* Program changes which occur in the B.Ed. degree program while a student has probationary status will be applied. Therefore, the degree requirements which are in effect at the date of admission to the B.Ed. degree program will be applicable.

72.5 Certification

NOTE: ALL STUDENTS ENTERING THE FACULTY OF EDUCATION IN SEPTEMBER, 1973, OR LATER MUST COMPLETE EITHER:

(a) the four-year B.Ed. degree or

(b) the certification requirements of The University of Alberta for the holder of an approved degree,

BEFORE BEING RECOMMENDED TO THE DEPARTMENT OF EDUCATION FOR A TEACHING CERTIFICATE.

72.5.1 GENERAL INFORMATION

Alberta teaching certificates are issued only by the Department of Education of the Province of Alberta. The Faculty of Education recommends students who have completed certification requirements of the faculty to the Department of Education for the teaching certificate to which they are entitled. For further details of the regulations respecting certification of teachers students should write to The Registrar, Department of Education, Devonian Building, 11160 Jasper Avenue Edmonton. A pamphlet is available on request. New persons with Student Visitor (Student Visa) status will not be recommended for certification.

73 PROGRAMS OF STUDY

73.1 The Degree of B.Ed.

73.1.1 GENERAL INFORMATION

Underlying Principles

The following principles underlie teacher preparation programs in the faculty:

1. The B.Ed. degree consists of a minimum of 120 credits.

2. A number of alternative programs should be available in order to accommodate the individual differences in the motivation, knowledge, career objectives and preferred learning styles of students and the differing perspectives, preferences and approaches in the field of education which are reflected in the Faculty.

3. The activities, courses and programs of the Faculty should be satisfying and meaningful to students.

4. The education of a teacher is a continuous, lifelong process. In addition to emphasizing basic or fundamental preparation, the initial pre-service experience should aid the development of attitudes which will encourage self-evaluation and improvement and the acquisition of the knowledge and skills which will facilitate life-long learning.

5. Skills and knowledge essential to successful teaching should be an important part of all of the Faculty's teacher preparation programs. These various elements are identified within, and guaranteed by, the component model.

6. Teacher preparation is a multi-partner multi-faceted endeavor. The various partners, including all departments of the Faculty, numerous other departments of the university, and the profession, through their collective involvement, should provide intending teachers with essential practical skills, a knowledge of theory and its relationship to practice, liberal studies and subject-matter competence.

7. Intending teachers should experience in their professional preparation, exemplary models of a variety of teaching styles and modes of effective instruction. This implies that differing methodologies and techniques should be utilized in the education of teachers in the Faculty.

8. The Faculty of Education is committed to the provision of quality teacher preparation programs and

recognizes the importance of continuously monitoring, evaluating and refining its offerings so that they adequately reflect changes in society and advances in knowledge.

Program Planning

The Faculty of Education assists candidates with program planning. Preregistration conferences will be held near the end of each academic session. Students currently enrolled will have programs planned at that time to speed the registration process. Candidates failing to preregister may be required to enrol after classes have begun, a lengthy and more extended procedure. Candidates with special problems may schedule interviews with one of the academic officers in the Office of the Associate Dean (Student Services).

It is the candidate's responsibility to be acquainted with all rules and regulations and to meet the requirements for his/her degree as outlined. Any exceptions to the requirements must be approved in writing by the Associate Dean (Student Services) with one copy to be placed in the candidate's file and one to be given to him/her.

Students who were admitted between September 1, 1973 and September 1, 1977, will normally follow the program outlined in the calendar of the year which they were admitted.

Students admitted to the faculty September 1, 1977, or beyond will be required to complete thirteen (13) weeks (full days) of practicum in order to be recommended for the teaching certificate. Program modifications as necessary will be imposed in order for students who were admitted in 1977 and 1978 to meet this requirement.

Students entering the faculty in September, 1979, must meet the requirements adopted by the Faculty of Education in June of 1979. The general requirements of that program are outlined in subsequent sections of this calendar.

Students must register in one of the following routes: Elementary, Secondary, Industrial Arts or Vocational Education.

For holders of approved degrees, § 73.8 gives details concerning the requirements for admission and certification.

Students who hold a Professional Teaching Certificate and an approved degree should consult § 73.9 for information about advanced study in Education.

73.2 Elementary Education Route

73.2.1 GENERAL

The broad goal of the elementary education route is to prepare subject generalists who can teach all children normally found in elementary school classrooms K — 6.

The program has several components, with varying numbers of courses or credits, which are directed toward the broad and specific goals.

I. *NON-EDUCATION* (Courses in other faculties of the University)

The object of this component is to provide a liberal or general education background for the prospective elementary school teacher. Students are required to take courses in seven different elements of the Non-Education component: *Canadian Studies, Fine Arts, Language and Literature, Mathematics, Natural Science, Physical Education, Social Science.* These elements and the remaining courses are to be planned by students *with faculty advice.* To assure some depth in academic study, a minimum number must be senior courses (numbered 300 or above).

II. *BASIC EDUCATION*

Courses in three departments, Educational Foundations, Educational Psychology and Educational Administration, constitute the Basic Education component.

Study in *Educational Foundations* is designed to provide students with a socio-historical understanding of Canadian Education and an opportunity to study important theoretical questions through one of the recognized disciplines.

Required study in *Educational Psychology* focuses on child/adolescent development and learning theory and their implications for diagnosing the needs of learners.

In *Educational Administration* study is concerned with the legal, organizational and professional aspects of a teacher's role.

III. *ELEMENTARY EDUCATION CURRICULUM AND INSTRUCTION*

In this component, courses are focused on general teaching strategies, curriculum and instruction related to several specific subject areas, and the shaping of these ideas as related to particular groups of children.

IV. *FIELD EXPERIENCES/PRACTICUM*

There will be field experiences throughout the program and three levels of practicum. The practicum, a total of 13 weeks, begins in Year I and is completed in a professional year later in the program.

V. *ELECTIVES*

Opportunities for student choice include an Elective Package designed to develop further competence in an area of school instruction, or to develop a focus which would integrate learnings from several disciplines. Descriptions of Elective Packages available will be provided to students with other counselling information. Some packages may be distributed over the 4 years of the program and offered only at the U. of A.

In addition to the package, there will be some limited opportunity for options in Education.

In summary, the program consists of a total 120 — 123 credits in the five program components.

Other important features of the program are found in the program organization. Groups of students will study together with teams of staff to promote collegiality and shared learning. Terms and courses are carefully sequenced to enable maximum integration of learnings. Core skills and knowledge are introduced early and culminated in the final year. To achieve these ends the program has limited entry points.

Students Registering on Generalist Programs:

Year I

ED PR 251 and nine three-credit or half-courses in Non-Education. The Non-Education selections should be made with Faculty advice, using information to be provided in counsellig sessions.

Year II (1981-82)

EDFDN 201
EDPSY 263
ED CI 215
Non-Ed. — 15 credits

Years III and IV

Program will include practicum in one professional year, or in two professional terms, requiring attendance for full days. Senior courses in all components and the electives will be part of the final two years.

73.2.2 TEACHING SPECIALIZATIONS ELEMENTARY EDUCATION ROUTE (FOR STUDENTS ADMITTED PRIOR TO SEPTEMBER, 1979)

The following information on the requirements for the teaching specializations apply only to those students admitted to elementary education programs prior to September 1, 1979. All other students must meet the requirements set forth in the generalist model.

TABLE I

ART
I (i) ART 231
(ii) and (iii) *Two* full course equivalents as approved by subject area advisers.
II (i) ED CI 336
(ii) ED CI 437

ENGLISH (Language Emphasis)
I (i) *One* full course equivalent in Literature
(ii) *One* full course equivalent about Language
(iii) *One* senior full course equivalent in Literature or Language
II (i) ED CI 229 or 329
(ii) *One* of ED CI 329, 429, 430
(iii) *One* of ED CI 224 or 323, 423, 424, 425

ENGLISH (Reading Emphasis)
I (i) *One* full course equivalent in Literature
(ii) *One* full course equivalent about Language
(iii) *One* senior full course equivalent in Literature or Language
II (i) *Two* of ED CI 224 or 323, 423, 424, 425
(ii) *One* of ED CI 229, 329, 429, 430

MATHEMATICS
I (i) Mathematics 221/one-half approved mathematics course
(ii) Mathematics 375/328
(iii) *One* full course equivalent in mathematics.
II (i) ED CI 216
(ii) ED CI 416
(iii) ED CI 417

MUSIC
I (i) Music 250/251
(ii) Music 304, 330
(iii) *One* full course equivalent as approved by subject area adviser.
II (i) ED CI 339
(ii) ED CI 439
(iii) ED CI 440

PHYSICAL EDUCATION
I (i) MOV 201/202
(ii) MOV 321/325
(iii) MOV 327/351
II (i) *One* of MOV 227, 231, 251
(ii) *One* of MOV 369, 379, 389
(iii) MOV 437

SCIENCE
I Minimum of *three* Science full course equivalents offered in the Faculty of Science, at least *two* of which must be laboratory courses from *two* different fields.
II (i) ED CI 220
(ii) ED CI 320
(iii) ED CI 420
(NOTE: First year course selection should be discussed with adviser.)

SECOND LANGUAGES
French
I (i) French 201 or 230
(ii) French 301
(iii) French 313, 314
II (i) ED CI 308
(ii) ED CI 408

Other Languages
I (i) The student should consult with the Department.

SOCIAL STUDIES
I (i) Two half courses in history or social sciences which focus primarily on Canadian content.
(ii) and (iii) *Two* full course equivalents as approved by subject area advisers.
II (i) ED CI 212
(ii) ED CI 412
(iii) ED CI 413
(NOTE: First year course selection should be discussed wit adviser.)

EARLY CHILDHOOD EDUCATION
I (i) A minimum of *three* full course equivalents in *one* of th subject matter areas such as Mathematics, English, etc
(ii) A minimum of *three* full course equivalents to be selecte from at least *three different* areas from the following:
(a) ART 231, 312, 322, 362, 372, ART H 304/35 306/356;
(b) Drama 245, 251, 253, 321;
(c) English 305, 306, 398, Library Science 412, 432;
(d) Family 350 or Sociology 371: Family 343, 442, 44 448, 449, 543, 551;
(e) MOV 201, 301, 423, 433;
(f) Music 210, 305, 307.
(NOTE: First year students should choose *one* full cours equivalent from (i) *and* (ii) above.)
II (i) ED CI 404
(ii) *One* half course to be selected in Language, (i.e., *one* ED CI 229, 329, 429, 430)
(iii) *One* half course in Reading (ED CI 224 or 323, 424)

SPECIAL EDUCATION
I (i) A minimum of *three* full course equivalents in *one* of th subject matter areas such as Mathematics, English, etc
(ii) Educational Psychology 251 *and* 253
(iii) Educational Psychology 351 *and* 355
(iv) Educational Psychology 357 *and* 361
(v) Educational Psychology 461 *and one* of Educational Ps chology 453 *or* 459
(NOTE: First year students should choose *one* full cour equivalent from (i) above *and* EDPSY 251 *and* 253.)

73.2.3 STUDIES IN INTERCULTURAL EDUCATION

The B.Ed. program provides an opportunity f students to undertake special studies in Intercultur Education program. These studies are designed to pr pare teachers for service in areas where other culture prevail, such as Indian, Metis, and Eskimo commun ties, or third-world countries. The student must cor plete a prescribed pattern of courses and must be pr pared to accept a practicum experience in cross-cultural setting.

1. *Selection of Courses.* During the four years of th B.Ed. program, the Intercultural Education student mu complete the four full course equivalents (selecte from the areas) listed below:
(a) Social Sciences — Two half-courses, Anthrop ogy 307 and Anthropology 308.
(b) Curriculum and Instruction — Two half-courses the area of teaching Engliish as a second languag ED CI 309 and ED CI 409.
(c) Two full course equivalents in a special intere area (either theoretical areas or cultural are such as native peoples, Latin America, etc.).

2. At the request of the student, the intercultu focus will be recognized by a letter from the De stating that the student has completed the course r quirements in Intercultural Education.

3. Any student interested in Intercultural Education advised to consult the Coordinator of the Intercultu Program, Department of Educational Foundations. T coordinator must approve all programs.

73.3 Secondary Education Route

73.3.1 GENERAL

The Secondary Education route provides the use two professional terms. The first professional term v take place during year two or three. Four courses v

be taken during the first ten weeks of the term and will be followed by a four week full-day practicum experience (Phase II)

The second professional term will take place during year three or year four. Three courses will be taken on campus interspersed with two rounds of full day practicum experiences consisting of four weeks each (Phase II).

For those students who have specialization courses which are comprised almost entirely of full-year courses, e.g., Art and Drama, it may be necessary to take Phase II and Phase III of the practicum during the same academic year, that is, Phase II during term one and Phase III during term two.

NOTE: All students who require or plan to take full year courses should take these courses in year one or two where possible.

73.3.2 TEACHING SPECIALIZATIONS SECONDARY EDUCATION ROUTE

Six full course equivalents (36 credits) for a teaching specialization are required on the secondary education route. Students must choose an area of specialization from the following:

- Art
- Biological Science
- Business Education
- Drama
- English
- General Sciences
- Home Economics
- Mathematics
- Modern Languages (French, German, Slavic Languages)
- Music
- Physical Education
- Physical Sciences
- Social Studies.

Provision may also be made for a 'Second Teaching Specialization' (minor). It is expected that almost all students will choose a second area of teaching from either a subject discipline, or an area identified as a non-subject area specialization.

Students will choose a second area of teaching from the subject areas as listed under the teaching specialization. A minimum of three full course equivalents (18 credits) in the subject area will be required for the second area of specialization. One-half course (3 credits) of the 18 credit total *may* be comprised of a Curriculum and Instruction course in the field of specialization. The remaining 15 credits will be offered by faculties other than the Faculty of Education.

It is anticipated that there will be developed second areas of specialization that are not subject specific. It is also anticipated that such programs will consist of clusters of courses (up to a maximum of 18 credits) distributed throughout the four year program.

Further information on non-subject area second teaching specializations may be obtained from the Office of the Associate Dean (Student Services).

The following component model will illustrate the areas and credits required for a B.Ed. degree in Secondary education.

Component	*Credit*
Basic Education	
EDPSY 263 and 371	6
EDFDN 201 and a specified 300 level course	6
EDADM 401	3
	15
Practicum*	
ED PR 251 (Phase I)	3
ED PR 353 (Phase II)	3
ED PR 354, 355 356 (Phase III)	9
	15
Curriculum and Instruction	
ED CI 352	3
ED CI (Major area — 300 level)	3
ED CI (Major area — 300 level)	3
	9
Teaching Specialization	
6 full course equivalents	36
Second Teaching Specialization	
2½ full course equivalents	15
½ course subject area C. & I. *or*	
½ course in subject area specialization	3
	18
Senior Elective	3
Options	
4 full course equivalents	
1½ — General Studies	9
2 — Unspecified	12
½ — Education (to be taken concurrently with Phase II)	3
	24
	120

*NOTE: Students enrolled in Practicum courses may have the following changes in their programs:

(a) Final examinations in concurrent lecture courses may be scheduled outside of designated examination weeks.
(b) Students may be required to student teach during designated examination weeks.
(c) Reading Week (Term II) may be moved to coincide with school systems' Spring Break.

ED PR 251 (Phase I), EDFDN 201, and EDPSY 263 can be taken either during Year 1 or Year 2 of the program, but preferably during Year 1. EDPSY 371 and the 300 level specified course in Educational Foundations will be taken concurrently with ED CI 352 and Phase II practicum during either Year 2 or Year 3, preferably Year 2. Phase III practicum and associated Curriculum and Instruction courses (integrated program) will be taken during Year 3 or Year 4, preferably term two of Year 3 or term one of Year 4. The Senior Elective course and EDADM 401 will be offered following the integrated program, preferably during Year 4. The subject area specialization, minor specializations, and options will be distributed throughout the four year program (excluding professional terms).

Outlined below for each teaching specialization (major) and each second teaching specialization (minor) are:

I) a list of courses, elements of which should be chosen to complete requirements for the teaching specialization component.

NOTE A: 36 credits are required on the major component and 18 credits are required on the minor component over the four year program

NOTE B: Unless otherwise indicated, the first course(s) listed are the recommended registration for the first year.

II) those Curriculum and Instruction courses which are required in the area of specialization. (Note: Curriculum and Instruction courses on the major are normally taken with ED PR 354, 355, 356)

ART

Major

I. (i) Art 231
(ii) Art History 201/202 or Art History 306/356
(iii) (iv) and (vi) 24 credits in art and design

NOTE: Up to 6 credits in aesthetics or related area will be acepted as part of the requirement.

II. ED CI 385 and 386

NOTE: Taken with ED PR courses, normally during third year.

Minor

I. (i) Art 231
(ii) Art History 201/202
(iii) 6 credits from art and design *or*
3 credits from art and design plus ED CI 485.

BIOLOGICAL SCIENCES

Major

I. (i) Chemistry 250
(ii) Biology 297 and 299
(iii) Biology 296 and 298
(iv) Biology 301 and 302
(v) and (vi) 12 credits from senior offerings in Biology, Botany, Biochemistry, Entomology, Genetics, Microbiology, Zoology.

II. ED CI 370 and 371

NOTE A: Students must register in (i) and (ii) in first year.

NOTE B: Biology 30 or 130 is a prerequisite for the introductory biology program. Students lacking Biology 30 may take Biology 130 as an option.

Minor

I. (i) Biology 296 and 297
(ii) Biology 298 and 299
(iii) 6 credits from senior Zoology *and/or*
Botany *or* 3 credits from Zoology *and/or*
Botany plus one of ED CI 469, 471, 472 *or* 475.

BUSINESS EDUCATION

Major

I. (i) Economics 201 and 202
(ii) Accounting 202 and EDBUS 341
(iii) Organization Theory 303 and 305
(iv) Legal Relations 311 and EDBUS 357
(v) and (vi) 12 credits from: EDBUS 343, 351, 355, 460, 461, 481, 483, 485; Businss 304; Economics 316, 317; Finance 304; Geography 350; Industrial Relations 304, 401; Managerial Economics 312, 323, 333; Marketing 304; Management Science 357; Psychology 321; FAM 440, LAW 302, 303, 304, or other approved courses in Business Administration and Commerce, Computing Science or Economics.

II. ED CI 378 and 379.

III. EDBUS 485 or one year of previous work experience in business.

Minor

I. (i) Economics 201 and 202
(ii) Accounting 202 and EDBUS 341
(iii) Legal Relations 311 and EDBUS 357

DRAMA

Major

I. (i) Drama 251 and 243
(ii) Drama 275 and 321
(iii) Drama 323 and 353
(iv), (v) and (vi) A theatre history course and 12 credits in approved drama courses from the following: Drama 383, 385, 357, 341, 359, 459, 303, 403.

II. ED CI 389 and 390.

Minor

I. (i) Drama 245
(ii) Drama 251 and 321
(iii) Drama 275 and 323

ENGLISH

Major

I. (i) English 200 or equivalent
(ii) and (iii) 12 credits chosen from senior English courses, 3 credits of which must be in Canadian literature
(iv), ((v) and (vi) 18 credits chosen so that at least 9 are from English 288, 309, 311, 313; Linguistics 303, 382, 416; and the remaining 9 are from other senior English courses, Classics 357, 359, 360; Comparative Literature 300, 371, 372; Interdisciplinary Studies 300; Drama 245, 341; and Library Science 433.

II. ED CI 353 and 354

NOTE: First year students should register in (i).

Minor

I. (i) English 200 or equivalent
(ii) Senior English
(iii) 6 credits from senior English courses, ED CI 348, 349, 452, 453.

GENERAL SCIENCES

Major

I. (i) Two of: Biology 296, 297, 298, 299
(ii) Chemistry 200 or 202
(iii) 6 credits from Biology 296, 297, 298, 299, 301, 302.
(iv) Physics 203 or 205 and 207 or 209
(v) Geology 202 and 203 (or equivalent)
(vi) 6 credits from: Biology (Biology 301 and 302 are recommended), Chemistry, Astronomy, Geology Meteorology, Physics, Physical Geography, Botany Entomology, Genetics, Microbiology or Zoology

II. ED CI 368 and 369

NOTE A: First year students must register in (i) and (ii) above.

NOTE B: Chemistry 200 and 202 are 6 credit courses and should be taken in the first year to avoid timetable problems later registration.

Minor

I. (i) 15 credits from the following four groups with at least credits from 3 of the groups:
(a) Biology 296/297/298/299
(b) Chemistry 200 or 202
(c) Physics 203/205/207/209
(d) Geology 202/203
(ii) One of ED CI 469, 470, 472, 474, 475

HOME ECONOMICS

Major

I. (i) Clothing and Textiles 203 (A student granted advanced placement in Clothing and Textiles 203 must select Clothing and Textiles 307); and Clothing and Textiles 200 or 306
(ii) Clothing and Textiles 300 or 412 and Clothing and Textiles 309
(iii) Family 350 and 440
(iv) Family 343 or 347; and Family 346 or 551
(v) Foods and Nutrition 320 and 321
(vi) Foods and Nutrition 325 or 326; and Foods and Nutrition 327 or 328.

II. ED CI 382 and 383

A *Minor-Foods and Nutrition*

I. (i) Chemistry 250
(ii) Foods and Nutrition 320, 321
(iii) Foods and Nutrition 325, 326; Foods and Nutrition 3 or 328.

NOTE: It is recommended that students wishing to minor Foods and Nutrition begin by taking Chemistry 250 in their fi year.

B *Minor-Clothing and Textiles*

I. (i) One course (3 credits) from each of the follow groups:
(a) Clothing and Textiles 203 and Clothing and Textil 307 or 406
(b) Clothing and Textiles 200 or 400
(c) Clothing and Textiles 300, 412 or 408
(d) Clothing and Textiles 309 or 409
(e) Three additional credits in Clothing and Textiles

NOTE: A student granted advance placement in Clothing a Textiles 203 should select six credits in Clothing and Textiles (e).

C *Minor-Family Studies*

I. (i) Family 350 or Sociology 371
(ii) Family 440
(iii) Family 343 or 347
(iv) Family 346 or 551
(v) 6 credits from Family Studies *other than* Family 359.

MATHEMATICS

Major

I. (i) Mathematics 202 or 203 and Mathematics 204
(ii) Statistics 255
(iii) Mathematics 221 and Mathematics 328
(iv) Mathematics 375; Mathematics 376 or 474
(v) and (vi) 12 credits from Mathematics 222, 302, 303, 361, 362, 376, 415, 416, 427, 474; Computing Science 261, 262 or any senior Mathematics or Computing Science courses or any approved science courses.

II. ED CI 364 and 365

Minor

I. (i) Mathematics 202 or 203 and 204
(ii) Mathematics 375
(iii) 6 credits from Mathematics 221, 328, Statistics 241 plus ED CI 366 or 367.

MODERN LANGUAGES — FRENCH

Major

I. (i) French 201 or 230
(ii) French 301
(iii) Romance Linguistics 372
(iv) French 313 and 314, or French-Canadian 332 and 333
(v) and (vi) 15 credits approved by a subject area advisor.

II. ED CI 356 and 357

Minor

I. (i) French 201 or 230
(ii) French 301
(iii) 6 credits chosen from: Romance Linguistics 372, French 313, 314, French-Canadian 332, 333.

NOTE A: Students who are excused from Romance Linguistics 372 following testing by the Department of Romance Languages are to enrol in Romance Linguistics 375.

NOTE B: Students are advised to take Romance Linguistics 372 concurrent with or following French 301.

MODERN LANGUAGES — GERMAN

Major

(i) One of German 200, 201 or 202
(ii) German 330
(iii) German 350
(iv) German 300
(v) and (vi) 12 credits at the senior level to be approved by a subject area advisor.

I. ED CI 356 and 357

Minor

(i) German 200 or 201
(ii) German 330
(iii) German 350

MODERN LANGUAGES — UKRAINIAN

Major

(i) Ukrainian 200
(ii) Ukrainian 361 and 362
(iii) Slavics 301 and one of: Ukrainian 453, 454; Slavics 405
(iv) Two of: Ukrainian 411, 412, 422, 423
(v) and (vi) 12 credits in senior courses approved by a subject area advisor.

I. ED CI 356 and 357

NOTE A: Students who wish to follow Ukrainian, but who do not have Ukrainian 30 should consult with the Department of Slavic Languages for an alternative program.

NOTE B: A program in a language not mentioned elsewhere in this section may be planned in consultation with the Department of Secondary Education.

Minor

(i) Ukrainian 200
(ii) Ukrainian 361 and 362
(iii) 6 credits chosen from Ukrainian 411, 412, 422, 423

MUSIC

Major

(i) Music 250 and 251
(ii) Music 224
(iii) Music 311
(iv) Music 330 and 331
(v) Any two of Music 202, 203, 301, 304, 402
(vi) Music 415 and Music 416, 417 or Music 431 plus 3 credits from Philosophy 349, 350, 351, Music 222, 324 or other Music courses approved by the faculty advisor

II. ED CI 387 / 388

NOTE A: Music minors who have had Music 250 / 251 waived should see a Secondary Education advisor regarding substitute courses.

NOTE B: The courses outlined above provide basic specialization in the various areas of music education. Those students who wish instrumental music emphasis in their program beyond that provided in Music 311, may discuss the possibility of including, during the first years of their program, the following courses in the various instruments of the orchestra: Music 209, 216, 218, 220, 310, 317, and 319. Students who hold credit in these courses will not take Music 311. (Only two of these courses will apply as (iii), replacing Music 311; the remainder will have to be chosen as options.)

NOTE C: First year students will take Music 250 / 251 and Music 224. Entry to Music 250 / 251 normally depends on demonstrated theoretical competence while entry to Music 224 normally depends on the successful passing of an audition during May, June, and August preceding the student's first year. Under certain circumstances the first year requirements may be waived or postponed till second year.

NOTE D: Students wishing greater specialization in secondary music education than what is provided for by the above program should consult with the faculty advisor in the Department of Secondary Education.

Minor

I. (i) Music 250 and 251
(iii) Music 311
(iv) Music 330 and 331

PHYSICAL EDUCATION

Major

I. (i) Movement Education 244 and 245
(ii) Movement Education 301 and 325
(iii) (iv) and (v) 18 credits selected from the activities listed below so that there is a minimum of 3 credits from each grouping:
(a) Physical Education 224, 225, 227, 228, Movement Education 351
(b) Physical Education 211, 212, 213, 214, 215, 216, Movement Education 321
(c) Dance 270, 375, 376, Movement Education 327
(vi) Physical Education 250 and Health Education 391

II. ED CI 394 and 395

Minor

I. (i) Movement Education 244 and 245
(ii) 9 credits selected from activities listed below so that there is a minimum of 3 credits from each grouping:
(a) Physical Education 224, 225, 227, 228, Movement Education 351
(b) Physical Education 211, 212, 213, 214, 215, 216, Movement Education 321
(c) Dance 270, 375, 376, Movement Education 327
(iii) ED CI 494

PHYSICAL SCIENCES

Major

I. (i) Chemistry 202
(ii) Physics 212 or 240 or Physics 205 and Physics 207 or 209
(iii) Chemistry 350
(iv) 6 credits from Physics 301, 303, 401, 403
(v) 6 credits from senior Chemistry or senior Physics
(vi) 6 credits, approved by subject area advisor, from: Astronomy, Geology, senior Physics, senior Chemistry, or any other physical science

II. ED CI 374 and 375

NOTE A: Students without Physics 30: do Physics 203 and 209 (may also do Physics 207 in addition to or in place of Physics 209.

NOTE B: Corequisite for (i) and (ii): do Mathematics 202 / 204 as non-education option or math minor.

Minor

I. (i) Chemistry 202
(ii) Physics 212 or 6 credits chosen from Physics 203, 207, 209.
(iii) 3 credits of senior Physics or senior Chemistry
(iv) One of ED CI 469, 473, 474, 475

SOCIAL STUDIES

Major

I. (i) History 200 or 201
(ii) History 278 and 279
(iii) Geography 250 and 251
(iv) 6 credits in Geography or Anthropology
(v) and (vi) 12 credits from the social science area. These include: History, Geography, Anthropology, Sociology, Political Science, Economics, Psychology, Religious Studies, Philosophy.

II. ED CI 360 and 361

NOTE A: Students must select at least six credits from (iv), (v), or (vi) which have a Canadian Studies emphasis. The following courses satisfy the Canadian Studies requirement: Anthropology 350, 355; Economics 316/317, 318/319; Geography 360, 382; History 370, 371/372, 373, 374/375, 376, 377; Political Science 201/202, 320, 321, 326, 391, 392; Sociology 322, 323, 351, 363, 368, 377. Check the Faculty of Arts calendar for senior level courses with Canadian Studies emphasis.

NOTE B: Social Studies majors are encouraged to select at least one optional course reflecting a concern with logic of inquiry, research methodology, or philosophy of social science. For example, Philosophy 322, 353, 365; Sociology 311, 437; Political Science 317; Educational Foundations 453.

Minor

Eighteen credits chosen from the following:

I. (i) History 200 or History 201
(ii) History 278 and 279
(iii) Geography 250 and Geography 251
(iv) ED CI 462 and / or ED CI 463

73.3.3 PROGRAM IN INTERCULTURAL EDUCATION

See § 73.2.3 above.

73.4 Industrial Arts Route

73.4.1 GENERAL

Industrial arts, in its modern sense, is a subject of general education designed to reinforce and synthesize other academic disciplines, through study of materials, technologies and occupational opportunities founded on those disciplines.

A large part of the program is conducted in multiple-activity laboratories where students use up-to-date equipment and study technological influences on human resource development. The program includes all of the basic elements of professional teacher education with special attention to developing technical competencies, methods of teaching, natural and social sciences.

73.4.2 PROGRAM

Normally, the 4 year program will be as follows:

Year 1

Term I
EDFDN 201
Science
EDPSY 263
English
Social Science

Term II
Minor
Science
Social Science
English
ED PR 251

Year 2

Term I
EDIND 211
EDIND 213
EDPSY 371
Minor
EDIND 235

Term II
EDIND 233
EDFDN XXX
EDIND 237
EDIND 391
ED PR 351

Year 3

Term I
EDIND 395
EDIND 457
EDIND 4XX
EDIND 4XX
Minor

Term II
EDIND 4XX
EDADM 401
EDIND 4XX
Minor
EDPSY (Special Education)

Year 4

Term I
EDIND 485
EDIND 497
ED PR 357
ED PR 358
ED PR 359

Term II
Senior Elective
EDIND 4XX
Option
Option
Option

Note: Students transferring from other institutions may experience scheduling difficulties and should contact the Department of Industrial and Vocational Education as early as possible for individual programming.

73.4.3 PROGRAM IN INTERCULTURAL EDUCATION

See § 73.2.3 above.

73.5 Vocational Education Route

73.5.1 GENERAL

The Vocational Education Route provides preparation to teach, with specialization in teaching job entry skills in designated trade, business and technical areas at the senior high school level. These subject areas include Commercial Art, Graphic Arts, Drafting, Aircraft Maintenance, Automotives, Autobody, Building Construction, Machine Shop, Piping, Sheet Metal, Welding, Electricity, Electronics, Beauty Culture, Fashion and Furnishings, Food Preparation, Health Services, Performing Arts, Television Crafts, Horticulture, Business-Secretarial, Business-Accounting, Business-Data Processing.

Normal Faculty of Education (see Faculty of Education Calendar, § 72.1.1) admission requirements are:

(a) senior matriculation (10 credits of Vocational Education 30-level courses may be used in meeting matriculation quirements), or
(b) successful completion of one full year or more at a recognized Alberta post-secondary institution, or
(c) non-matriculated adult status.

In addition, vocational education applicants must meet special entrance requirements. Normally, evidence of competency must be presented in one of the previously mentioned subject areas through documentation of at least a four year training period and appropriate Journeyman's Certificate or equivalent.

The exception to the normal requirements is in the case of the Combined Schedule, where students may be admitted with an incomplete training period. Here the minimum is 35 high school credits in the area, or successful completion of a one year approved post-secondary training program, or successful completion (with letters of recommendation) of one year of an approved formal industrial/business based training program, in the subject areas outlined above.

Equivalency is determined by relevant documents, letters of reference and, in the case of Business applicants, a documented typing speed of not less than 55 words per minute on a 5 minute typing test with not more than 8 errors.

73.5.2 PROGRAM

The Vocational Education route is described below.

Education Courses	*Credits*
EDPSY 263	3
EDPSY 371 (263, —)	3
EDFDN 301	3
EDFDN —	3
EDADM 401	3
ED AV 361/363/470	3
EDIND 245	3
EDIND 390 (245, 263, and 371)	3
EDIND 396 (245, 251, and 371)	3
EDIND 485 (390, —)	3
EDIND 497 (390, —)	3
ED PR 251	3
ED PR 351 (—, 396)	3

ED PR 359	3
Senior Elective	3
Subject Area Courses	*Credits*
EDIND 223 (Ind. Pract.)	2
EDIND 243 (Ind. Pract.)	2
EDIND 323 (Ind. Pract.)	2
EDIND 343 (Ind. Pract.)	4
EDIND 423 (Ind. Pract.)	4
EDIND 443 (Ind. Pract.)	1
Non-Education	15
Non-Education Courses	
English	6
Minor	12
Student Selections	9
Free Options	
Open	12
Total Credits	120

NOTES:

Courses shown in brackets identify prerequisites before the comma, and either pre or co-requisites after the comma.

Subject Area: A minimum of 15 credits and a maximum of 30 credits (one year) of advanced standing is available on the program in recognition of training and experience in the identified industrial or business area.

Training. Successful completion of a four-year equivalent training period including appropriate certification is a required and integral part of the program.

(a) Normally, students will present documentation of training and Alberta certification and be awarded advanced standing in the Industrial Practicum courses, EDIND 223-443.

(b) Students admitted with an incomplete training period will receive credit toward the Industrial Practicum requirements according to the amount of training documented on entry. Students are required to register in the remaining work experience courses and carry out the requirements specified to receive further credit.

Experience. On entry into the program, students presenting work experience beyond the four-year training period receive additional standing on the basis of 3 credits for each full year of experience, up to a maximum of 15 credits.

3. "Minor" courses must be selected from one subject area other than vocational education as specified in § 73.3.2 of the Education Calendar.

4. "Non-Education" courses must be taken outside the Faculty of Education and may be used to extend competency in the minor or for a more general education.

5. "Option" courses may be selected freely and used in the area of minor, special-education courses, such as EDPSY 341 (exceptional children), or for general interest.

73.5.3 REGULAR SCHEDULE

The following is a recommended schedule of the requirements of the Vocational Education program for students entering with a Journeyman's Certificate, plus work experience.

73.5.4 TRANSFER SCHEDULE

When planning to transfer from another Alberta university or college it is strongly advised that the student undertakes the equivalent of ED PR 251, EDFDN 201, EDPSY 263 and English in their originating institution and plan on attending the special summer session section of EDIND 245 before commencing the regular September term. Guidance regarding the selection of courses is advised prior to commencing an expected transfer year, as the detail depends heavily on the amount of advanced standing for business and industrial training and experience.

73.5.5 COMPRESSED SCHEDULE

Following is a recommended schedule for those qualifying and wishing to meet certification in 13 months.

Summer Session:
(Term II) — EDIND 245 and EDPSY 263

Winter Session:
ED PR 251
EDPSY 371
One of: ED AV 361/363 or 470
EDIND 396
EDIND 390
ED PR 351
EDIND 485
EDIND 497
ED PR 357
ED PR 358
ED PR 359
EDFDN 301

Spring Session:
(term I) — English (3 credits) and Non-Education (3 credits).
(Term II) — English (3 credits).

Summer Session:
(Term I) — EDADM 401 (3 credits) and Minor (3 credits).
(Term II) — Minor (3 credits).

EDIND 497 (390, —)
ED PR 357
ED PR 358 (351, —)
ED PR 359
Spring:
(EDIND 443 — 8 weeks)

Applications to this program are to be submitted in the normal fashion. In addition, prospective students are strongly encouraged to contact the Department of Industrial and Vocational Education directly for specific entrance and program advice.

73.6 Post Secondary/Adult Education

This route is currently under review. Information may be obtained from the Office of the Associate Dean (Student Services).

73.7 Program for Certificated Teachers

Certificated teachers are granted credit for the first year of the general B.Ed. program for their Normal School or Junior E training, provided this training was of not less than seven months duration.

Teachers who have not attended the University of Alberta should seek admission by contacting the Registrar's Office, University of Alberta, to obtain Application of Admission forms.

Teachers who completed a one-year program offered by the University of Alberta (prior to 1962) should contact the Registrar's Office to obtain Application for Re-enrolment forms.

Program counselling will be available at specified times during the year.

73.8 Programs for Holders of Approved Degrees

73.8.1 GENERAL

The Faculty of Education offers a program to prepare holders of approved degrees for the Professional Teaching Certificate issued by the Alberta Department of Education.

Candidates will register as B.Ed./A.D. students.

73.8.2 ADMISSION

Admission to the B.Ed./A.D. program will be on the basis of:

(1) an approved degree which includes adequate preparation in an area of teaching concentration relevant to elementary and/or secondary schools;

(2) an interview for educational and professional planning. Candidates should consult with the Assistant Dean (Admissions) well in advance of a planned admission date. In cases where the degree does not have adequate prerequisites for admission, it may be necessary to complete additional courses prior to admission.

Elementary

After/Degree applicants must present 36 credits of work in areas relevant to subjects taught in elementary schools. Fifteen of these credits must be distributed over the Non-Education component of the generalist program. These 15 credits are to consist of 3 credits in each of 5 of the 7 required Elementary Elements (Canadian Studies, Fine Arts, Language and Literature, Mathematics, Natural Science, Physical Education, Social Science). Three regular terms including 13 weeks of practicum, are required to complete certification.

Secondary

Candidates seeking admission to the B.Ed. A/D, secondary route, are required to present five approved full course equivalents (30 credits) in one of the specialization areas described below (major). As well, candidates should attempt to have a second area of specialization designated as a minor (18 credits. See 73.3.2 listing for details of minor).

In each major area of specialization, specific courses are required and these or their equivalents form part of the prerequisite.

Art: Art 231; Art History 201/202 or Art History 306/356.

Biological Sciences: Chemistry 250 or 350; Biology 296, 297, 298, 299 or equivalent.

Business Education: Accounting 202, Legal Relations 310, Economics 201 and 202, Organization Theory 303 and 305, Typewriting 20.

Drama: Drama 251; Drama 243 or 245; 24 credits chosen from the following: Drama 200, 253, 273, 275, 300, 303, 321, 323, 341, 353, 357, 359, 383, 385, 403, 425.

English: English 200 or equivalent.

General Science: 6 credits from each of the following three areas: (a) Biology 296, 297, 298, 299; (b) Chemistry 100 or 200 or 202; (c) Physics 203 or 205 and Physics 207 or 209.

Home Economics: Clothing and Textiles 203; Family 350 or Sociology 371; Foods nd Nutrition 320 or 321; 325 or 326, 327 or 328. An additional 15 credits chosen from: Clothing and Textiles 200, 306, 300 or 412, 309; Family 343 or 347, 346 or 551, 440; Foods and Nutrition 320 or 321.

Mathematics: Statistics 241, Mathematics 375 or equivalent.

Modern Languages: Students who intend to enrol in the B.Ed. A/D program should present a program which resembles as much as possible the program laid out for undergraduate students in modern languages contained in § 73.3.2 of the calendar. It is appreciated that owing to a variety of factors it may be impossble to present the specific courses mentioned. Fluency in the language, good pronounciation, and a thorough grasp of the grammar of the language are the main criteria which will be considered. An understanding of the culture represented by the language is essential.

Music: Music 311, Music 330 and 331.

Physical Education: 12 credits to be chosen from the activities listed below so that there is a minimum of 3 credits from each of the groupings:
(a) Physical Education 224, 225, 227, 228, 229, Movement Education 351.
(b) Physical Education 211, 212, 213, 214, 215, 216, Movement Education 321.
(c) Dance 270, 375, 376, 475, Movement Education 327.

Physical Sciences: Chemistry 202 or equivalent; Physics 212 or equivalent; 6 credits in a senior Chemistry or Physics.

Social Studies: 6 credits in each of the following areas: (a) Canadian history; (b) European history; (c) Cultural geography.

Industrial Arts

Candidates seeking admission to the B.Ed. A/D, industrial arts route, must normally present a degree in engineering or specialized areas in science. Consultation with the Department of Industrial and Vocational Education is mandatory prior to application.

Vocational Education

Applicants must possess a recognized degree (including 6 credits in English) in addition to the previously identified vocational entrance requirements (see § 73.5.1).

73.8.3 PROGRAMS

Elementary Education

Students entering in January will follow the program outlined below:

ED CI 215 or 225 (9 credits)
EDFDN 301 (3 credits)
EDPSY 363 (3 credits)
September-April: (Professional Year)
ED CI 315 or 325 (9 credits)
EDADM 401 (3 credits)
One of: EDFDN 340, 341, 350, 360, 361 (3 credits)
EDPSY 371 (3 credits)
ED PR 210 (4 credits)
ED PR 331 (8 credits)
Professional Certificate at this point.

Students entering in September will follow the program outlined below:

Professional Year
ED CI 215 or 225 (9 credits)
EDADM 401 (3 credits)
One of: EDFDN 340, 341, 350, 360, 361 (3 credits)
EDPSY 363 (3 credits)
ED PR 210 (4 credits)
ED PR 331 (8 credits)
September-December:
ED CI 315 or 325 (9 credits)
EDFDN 301 (3 credits)
EDPSY 371 (3 credits)
Professional Certificate at this point.

To qualify for the B.Ed. degree an additional 18 credits as follows will be required:

Elective Package (12 credits)
Senior Education Elective (3 credits)
Senior Elementary Curriculum and Instruction (3 credits)

Secondary Education

The B.Ed. A/D program requires a minimum of 45 credits for certification. The following components are necessary to qualify for the Professional Certificate:

Basic Education

Educational Psychology 363/371	6 credits
Educational Foundations 301/3XX	6 credits

Educational Administration 401 3 credits

Practica*
ED PR 251 (Phase I) 3 credits
ED PR 353 (Phase II) 3 credits
ED PR 354, 355, 356 (Phase III) 9 credits

Curriculum and Instruction
ED CI 352 3 credits
ED CI (Major area) 3 credits
ED CI (Major area) 3 credits

Senior Elective 3 credits
Senior Education Option or
ED CI (Minor) 3 credits

*Note: Students enrolled in Practicum course may have the following changes in their programs:

(a) final examinations in concurrent lecture courses may be scheduled outside of designated examination weeks.
(b) students may be required to student teach during designated examination weeks.
(c) Reading Week (Term II) may be moved to coincide with school systems' Spring Break.

Professional Certificate at this point.

To complete the B.Ed. degree the following would be required:

Approved Options 15 credits

Vocational Education

Term I
ED PR 251
EDIND 245
EDFDN 301
EDPSY 363
ED AV 361 or 363 or 470

Term II
EDIND 396 (245, 251, 363)
EDIND 390 (245, 363)
EDFDN —
EDADM 401
ED PR 351
EDPSY 371

Term III
EDIND 485
EDIND 497
ED PR 357
ED PR 358
ED PR 359

Professional Certificate at this point.

To qualify for the B.Ed. degree an additional 12 credits will be required as follows:
Option
Option

Industrial Arts

Consultation with the Department of Industrial and Vocational Education is mandatory to ensure completion of the necessary content courses.

73.9 *Advanced Study in Education*

73.9.1 B.ED. FOR HOLDERS OF APPROVED DEGREES WHO ALSO HOLD THE ALBERTA PROFESSIONAL CERTIFICATE

(1) Holders of approved degrees who have not completed the Professional Diploma of The University of Alberta will be required to complete a minimum of ten full course equivalents (60 credits) in order to qualify for the B.Ed. degree.

(2) Holders of approved degrees who hold the Professional Diploma of the Faculty of Education and the Alberta Professional Certificate may qualify for the B.Ed. degree by completing a five full-course equivalent (30 credits) program planned in one of the six departments of the Faculty of Education.

73.9.2 GRADUATE DIPLOMA

The Faculty of Education offers, through its six departments, a series of graduate diploma programs providing additional special qualifications in designated areas. Normally admission to a graduate diploma program will include an undergraduate degree and a professional teaching certificate. Where exceptional circumstances warrant, one or both of the above requirements may be waived. Additional requirements may be set and quotas may be imposed on particular graduate diploma programs. Students who now hold the M.Ed. degree may not obtain the Diploma on the basis of courses credited on the M.Ed. degree program. Courses credited toward the diploma may not also be credited toward the B.Ed. degree. The pass mark for courses to be credited toward the Diploma is a grade of 5. Residence requirements for the Diploma may be met in consecutive Spring or Summer Sessions or in a Winter Session.

A candidate who does not hold a Professional Teaching Certificate will not receive one upon the completion of a Graduate Diploma. A student wishing to obtain certification must take the basic Certification program described in § 73.8.

Graduate Diploma in Post Secondary Education. A Graduate Diploma in Post-Secondary Education is available to holders of an approved degree, who have experience or a career interest at the postsecondary level. Teaching certification is not an admission requirement. Prospective students interested in some aspect of adult or higher education, should communicate directly with the Coordinator of the Centre.

Graduate Diploma for Teachers of Hearing Impaired Children. This diploma is designed for certified teachers and others who wish to teach or work in a specialist setting with hearing impaired children. It may be completed in fourteen months, and can be individually designed to meet a variety of academic and practical backgrounds from within or outside the Province of Alberta. It focuses on practical skills applicable in a variety of remedial settings. Additional information may be obtained from the Department of Educational Psychology.

73.9.3 GRADUATE DEGREE PROGRAMS

In the Faculty of Education graduate work is offered for the preparation of teachers, supervisors, guidance workers, administrators and other educational specialists, and may lead to the degrees of Master of Education, Doctor of Education and Doctor of Philosophy. Candidates for these advanced degrees choose an area of concentration corresponding to the specialization of a particular department as follows:

Department of Educational Administration: school administration (elementary and secondary), general supervision, school finance and business administration, chief administrative roles. Chairman — Dr. J. E. Seger.

Department of Educational Foundations: philosophy, sociology, and history of education, anthropology and intercultural education, comparative and international education. Chairman — Dr. P. J. Miller.

Department of Educational Psychology: counselling psychology, educational psychology, school psychology, special education. Chairman — Dr. H. W. Zingle.

Department of Elementary Education: curriculum and instruction in kindergarten, primary, and elementary education (Grades I-VI). Chairman — Dr. P. A. McFetridge.

Department of Industrial and Vocational Education: Industrial Arts and Vocational Education. Chairman — Dr. H. D. Tichenor.

Department of Secondary Education: curriculum and instruction in secondary education. (Grades VII-XII). Chairman — Dr. T. Aoki

In order to meet the needs and interests of candidates, the departments permit considerable flexibility in the programs leading to advanced degrees. In general, students pattern their courses from the offerings of the department of their choice supplemented by approved courses from other departments of the University. Normally a candidate for the master's degree must present a program consisting of six courses and a minor thesis. A candidate for the master's degree is required to spend at least one academic year in study and research in residence at The University of Alberta. A candidate for the doctor's degree (if he/she already holds a Master's degree) is normally required to spend two academic years in study and research in residence at The University of Alberta.

Graduate courses in education are offered in the Winter, Spring and Summer Sessions.

A student who wishes to inquire about graduate programs should address his/her preliminary inquiries to the Dean of the Faculty of Graduate Studies and Research, The University of Alberta, Edmonton.

After a student has decided upon an area of specialization, he/she should communicate directly with the appropriate department chairman and, if possible, arrange for an interview. By this means the student's eligibility will be determined and further information given about the degree programs available in the department.

All candidates for graduate degrees register with the Faculty of Graduate Studies and Research which administers graduate programs throughout the University.

73.9.4 SPECIAL STUDENTS

A student holding a B.Ed. degree or the equivalent and not desiring to register for a graduate degree, or not meeting all the requirements for admission to the Faculty of Graduate Studies and Research, may register in the Faculty of Education as a special student.

74 DETAILS OF COURSES

74.1 General Information

The courses listed in § § 74.2 to 74.10 inclusive represent the total offerings of the Faculty of Education. Courses on the specializations are usually offered by the Faculties of Agriculture and Forestry, Arts, Engineering, Science, Physical Education and Recreation, Business Administration and Commerce, Home Economics and Library Science. For the convenience of first year students the first course on each specialization is listed alphabetically in § 74.12.

Each course is designated by its computer abbreviation and by a number which indicates the level at which it is offered. Students should use this abbreviation and number when filling in their registration forms. Courses numbered at the 100 level are introductory, usually equivalent to senior matriculation courses; those numbered at the 200 level are junior, normally taken by first year students; those numbered at the 300 level are senior, taken after the first year; those numbered at the 400 level are advanced, normally taken by third- and fourth-year students. Courses numbered at the 500 and 600 level are open only to graduate students. In special cases students on B.Ed. programs may be permitted to register in 500 level courses but special permission to do so must be obtained in writing from the Chairman of the Department offering the course.

The course title is followed by the symbol "★" and a number indicating the course weighting used in computing the grade-point average. Usually a single-term course carries a weight of 3, a full course a weight of 6. The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. For the single-term courses the term in which the course is offered is listed first. For full courses the time allotment is normally the same in both terms.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN EITHER OR BOTH TERMS OF THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

74.2 Education — Administration

EDADM 301. *Issues in Planning and Management in Schools.* ★3 (either term, 3-0-0). Prerequisite or corequisite: EDADM 401 or consent of the Department.

EDADM 401. *The Role of the Teacher.* ★3 (either term, 3-0-0). Note: Formerly EDADM 261/461.

EDADM 463. *The Role of the Administrator and the Supervisor.* ★3 (either term, 3-0-0). Open to senior undergraduate or graduate students in Education.

EDADM 465. *Organization and Administration of Instruction in the School.* ★3 (either term, 3-0-0). Open to senior undergraduate or graduate students in Education.

EDADM 466. *Organization and Administration of Instruction in the Elementary School.* ★3 (either term, 3-0-0). Restricted to Plan B students.

Graduate Courses

EDADM 501. *Evolving Concepts in Educational Administration.* ★3 (either term, 3-0-0) Note: Formerly EDADM 561.

EDADM 502. *Administrative Processes in Education.* ★3 (either term, 3-0-0).

EDADM 505. *Selected Topics in Educational Administration I.* ★3 (either term, 3-0-0).

EDADM 506. *Selected Topics in Educational Administration II.* ★3 (either term, 3-0-0).

EDADM 511. *Research Design and Data Analysis I.* ★3 (First Term, 3-0-1).

EDADM 512. *Research Design and Data Analysis II.* ★3 (Second Term, 3-0-1).

EDADM 513. *Administration of Research and Development Projects I.* ★3 (First Term, 3-0-0).

EDADM 514. *Administration of Research and Development Projects II.* ★3 (Second Term, 3-0-0).

EDADM 515. *Research Projects I.* ★3 (either term, 3-0-2). Prerequisite: Consent of the Department. Note: Formerly EDADM 506.

EDADM 516. *Research Projects II.* ★3 (either term, 3-0-2). Prerequisite: Consent of the Department. Note: Formerly EDADM 507.

EDADM 517. *Developmental Projects I.* ★3 (either term, 3-0-0).

EDADM 518. *Developmental Projects II.* ★3 (either term, 3-0-0).

EDADM 521. *Supervision of Educational Personnel.* ★3 (either term, 3-0-0). Note: Formerly EDADM 525.

EDADM 522. *Selected Topics in Educational Supervision.* ★3 (either term, 3-0-0).

EDADM 527. *Orientations to Administrator-Student Relationships.* ★3 (either term, 3-0-0).

EDADM 528. *Administration of Student Personnel Services.* ★3 (either term, 3-0-0).

EDADM 531. *Organization of Schools.* ★3 (either term, 3-0-0).

EDADM 532. *Organization of School Districts.* ★3 (either term, 3-0-0).

EDADM 541. *Planned Change in Educational Organizations.* ★3 (either term, 3-0-0).

EDADM 542. *Adaptative Processes in Educational Organizations.* ★3 (either term, 3-0-0). Note: Formerly EDADM 563.

EDADM 545. *Educational Planning Technologies.* ★3 (either term, 3-0-0).

EDADM 546. *Educational Planning Processes.* ★3 (either term, 3-0-0).

EDADM 547. *Models for Decision Making.* ★3 (either term, 3-0-0) Note: Formerly EDADM 569.

EDADM 548. *Management of Information Systems.* ★3 (either term, 3-0-0).

EDADM 551. *Administration of Public Education in Canada.* ★3 (either term, 3-0-0). Note: Formerly EDADM 559.

EDADM 552. *Topics in Administration of Education in Canada.* ★3 (either term, 3-0-0).

EDADM 553. *Legal Aspects of Educational Administration.* ★3 (either term, 3-0-0).

EDADM 555. *Administration of Education in Selected Countries.* ★3 (either term, 3-0-0).

EDADM 557. *Administration of Intercultural Education.* ★3 (either term, 3-0-0). Note: Formerly EDADM 535.

EDADM 565. *Educational Finance.* ★3 (either term, 3-0-0).

EDADM 566. *Operational Finance.* ★3 (either term, 3-0-0).

EDADM 571. *The Organization of Post-Secondary Education.* ★3 (either term, 3-0-0).

EDADM 572. *Administration of Post-Secondary Education.* ★3 (either term, 3-0-0). Prerequisite: EDADM 571.

EDADM 591. *Supervised Individual Study I.* ★3 (either term, 3-0-0).

EDADM 592. *Supervised Individual Study II.* ★3 (either term, 3-0-0).

EDADM 593. *Seminar and Practicum in Administrative Behavior I.* ★3 (either term, 3-0-1). Prerequisite: Consent of the Department.

EDADM 594. *Seminar and Practicum in Administrative Behavior II.* ★3 (either term, 3-0-1). Prerequisite: Consent of the Department.

EDADM 605. *Problems in Educational Administration I.* ★3 (First Term, 3-0-0). Note: Formerly EDADM 663.

EDADM 606. *Problems in Educational Administration II.* ★3 (Second Term, 3-0-0) Note: Formerly EDADM 664.

EDADM 611. *Advanced Research Design and Data Analysis I.* ★3 (First Term, 3-0-0).

EDADM 612. *Advanced Research Design and Data Analysis II.* ★3 (Second Term, 3-0-0).

EDADM 625. *Administrative Behavior I.* ★3 (First Term, 3-0-0).

EDADM 626. *Administrative Behavior II.* ★3 (Second Term, 3-0-0).

EDADM 635. *Organization Theory I.* ★3 (First Term, 3-0-0). Note: Formerly EDADM 661.

EDADM 636. *Organization Theory II.* ★3 (Second Term, 3-0-0). Note: Formerly EDADM 662.

EDADM 645. *Policy Development in Education I.* ★3 (First Term, 3-0-0) Note: Formerly EDADM 667.

EDADM 646. *Policy Development in Education II.* ★3 (Second Term, 3-0-0) Note: Formerly EDADM 668.

EDADM 655. *Politics of Education I.* ★3 (First Term, 3-0-0). Note: Formerly EDADM 659.

EDADM 656. *Politics of Education II.* ★3 (Second Term, 3-0-0) Note: Formerly EDADM 660.

EDADM 665. *Economic Environment of Education I.* ★3 (First Term, 3-0-0).

EDADM 666. *Economic Environment of Education II.* ★3 (Second Term, 3-0-0).

EDADM 671. *Problems in Administration of Post-Secondary Education I.* ★3 (First Term, 3-0-0). Prerequisite: Consent of the Department.

EDADM 672. *Problems in Administration of Post-Secondary Education II.* ★3 (Second Term, 3-0-0). Prerequisite: Consent of the Department.

EDADM 691. *Supervised Individual Study I.* ★3 (either term, 3-0-0).

EDADM 692. *Supervised Individual Study II.* ★3 (either term, 3-0-0).

EDADM 900. *Non-Thesis Project.* ★3 (either term, variable). Comprehensive problems in Educational Administration activities. Includes preparation of a final report.

EDADM 901. *Non-Thesis Project.* ★6 (variable) Comprehensive problems in Educational Administration activities. Includes preparation of a final report.

74.3 Education — Adult

EDADU 439. *Methods and Programs in the Teaching of English as a Second Language to Adults.* ★3 (either term, 3-0-0). Co-ordinated by the Department of Elementary Education.

EDADU 457. *Teaching a Second Language to Adults.* ★3 (either term, 0-3L-0). Coordinated by the Department of Secondary Education.

EDADU 460. *Conference Course in ED CI at Post-Secondary Level I.* ★3 (either term, 3-0-0). Coordinated by the Department of Industrial and Vocational Education.

EDADU 461. *Conference Course in ED CI at Post-Secondary Level II.* ★3 (either term, 3-0-0). Prerequisite: EDADU 460. Co-ordinated by the Department of Industrial and Vocational Education.

EDADU 484. *Community Home Economics Education.* ★3 (either term, 3-0-0). Coordinated by the Department of Secondary Education.

Graduate Courses

EDADU 511. *Instructional Design in Post-secondary Education.* ★3 (either term, 3-0-0).

EDADU 521. *Psychology of Learning and Teaching at the Adult Level.* ★3 (either term, 3-0-0). A study of learning and teaching from the background of educational and developmental psychology.

EDADU 523. *Administration of Further Education.* ★3 (either term, 3-0-0). Adult Education in sociological, cultural and economic perspectives; organization and implementation of programs. Coordinated by the Department of Educational Administration.

EDADU 551. *Selected Topics in Adult Education.* ★3 (either term, 3-0-0).

EDADU 555. *Research Project in Adult Education.* ★3 (either term, 3-0-0).

EDADU 557. *Independent Study in Adult Education.* ★3 (either term, 3-0-0).

EDADU 577. *Adult Education as a Field of Study.* ★3 (either term, 3-0-0).

EDADU 579. *Programs in Adult Education: A Case Study Approach.* ★3 (either term, 3-0-0).

74.4 Education — Audiovisual

ED AV 361. *Audiovisual Communications.* ★3 (either term, 0-3L-0)

ED AV 363. *Preparation of Instructional Materials.* ★3 (either term, 3-0-1).

ED AV 465. *Principles of Graphic Communication.* ★3 (either term, 0-3L-0). Prerequisite: ED AV 363; prerequisite or corequisite: ED AV 361 or consent of the Department.

ED AV 467. *Principles of Photographic Communication.* ★3 (either term, 0-3L-0). Prerequisite: ED AV 363; prerequisite or corequisite: ED AV 361 or consent of the Department.

ED AV 470. *Curricular Integration of Audiovisual Materials.* ★3 (Second Term, 3-0-0) Prerequisite: ED AV 361; prerequisite or corequisite: ED AV 363 or consent of the Department.

ED AV 471. *Educational Technology and Communication.* ★3 (either term, 3-0-0).

ED AV 473. *Designing Multi-Media Instruction.* ★3 (either term, 0-3L-0). Prerequisite: ED AV 471.

ED AV 481. *Television in Education: Production and Use.* ★3 (either term, 3-0-3). Prerequisite: ED AV 363; prerequisite or corequisite: ED AV 361 or consent of the Department.

ED AV 483. *Educational Television: Preparation of Instructional Materials for Television Use.* ★3 (either term, 0-3L-0). Prerequisite: ED AV 481 or consent of the Department.

Graduate Courses

ED AV 559. *Intermediate Production in Instructional Media.* ★3 (either term, 3-0-3) Prerequisite: ED AV 467 or consent of the Department.

ED AV 561. *Organization and Supervision of the Audiovisual Media Program I* ★3 (either term, 3-0-0). Prerequisites: ED AV 361 and 363.

ED AV 563. *Organization and Supervision of the Audiovisual Program II.* ★3 (either term 3-0-3) Prerequisite: ED AV 561.

ED AV 571. *Developing Multi-Media Instructional Materials I.* ★3 (either term, 0-3L-0). Prerequisite or corequisite: ED AV 465, ED AV 467 or consent of the Department.

ED AV 573. *Developing Multi-Media Instructional Materials II.* ★3 (either term, 0-3L-0) Prerequisite: ED AV 571.

ED AV 580. *Graduate Seminar in Educational Media.* ★6 (3-0-0). Prerequisite: ED AV 471 and ED AV 473 or consent of the Department.

ED AV 581. *Educational Television: Direction and Script Writing.* ★3 (either term, 3-0-3). Prerequisite: ED AV 483 or consent of the Department.

ED AV 583. *Educational Television: Survey of Educational Applications.* ★3 (either term, 0-3L-0). Prerequisite or corequisite: ED AV 481 or consent of the Department.

74.5 Education — Business

EDBUS 341. *Teaching of Typewriting.* ★3 (either term, 3-0-0). Prerequisite: Typewriting 20 of high school or the equivalent. Not open to students who took EDBUS 246 prior to 1973.

EDBUS 343. *The Teaching of Shorthand.* ★3 (either term, 0-5L-0). Prerequisites: Typewriting 20 and Shorthand 20 of high school or the equivalent. Not open to students who took EDBUS 248 prior to 1973.

EDBUS 351. *Office Procedures.* ★3 (either term, 3-0-0). Office organization and services.

EDBUS 355. *Business Processing.* ★3 (either term, 0-4L-0). Commercial applications, and the teaching of data processing in the secondary school.

EDBUS 357. *Curriculum and Instruction in Automated Data Processing and Accounting.* ★3 (either term, 3-0-0). Prerequisite: ACCTG 202.

EDBUS 460. *Curriculum and Instruction in Secondary School Distributive Education I.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

EDBUS 461. *Curriculum and Instruction in Secondary School Distributive Education II.* ★3 (either term, 3-0-0). Prerequisite: EDBUS 460.

EDBUS 481. *Curriculum Laboratory in Business Education.* ★3 (either term, 3-0-0). The development of units for individualized and group instruction. Prerequisite: student teaching experience or consent of the Department.

EDBUS 483. *Curriculum and Instruction for Work Experience Programs.* ★3 (either term, 3-0-0).

EDBUS 485. *Supervised Occupational Experience.* ★3 (either term, 100 hrs; 0-1L-0). Required of business students who do not have one year of work experience.

74.6 Education — Curriculum and Instruction

74.6.1 ELEMENTARY EDUCATION

ED CI 200. *Introduction to Elementary Education.* ★3 (either term, 2-0-4). This course is intended to orient the future teacher to the elementary school. Much of the learning on the part of the student teachers will result from observation and limited participation in selected fields and simulated situations and from small group discussions both in schools and at the University.

ED CI 205. *Curriculum and Instruction in Creative Dance K-VI.* ★3 (either term, 0-3L-0). Formerly MOV 227.

ED CI 206. *Curriculum and Instruction in Games K-VI.* ★3 (Second Term, 0-3L-0). Formerly MOV 231.

ED CI 207. *Curriculum and Instruction in Elementary School Physical Education K-VI.* ★3 (either term, 0-3L-0). Not open to students who have credit in, or who are currently enroiled in MOV 201 or MOV 202. Formerly MOV 237.

ED CI 208. *Curriculum and Instruction in Educational Gymnastics K-VI.* ★3 (Second Term, 0-3L-0). Formerly MOV 251.

ED CI 212. *Curriculum and Instruction in Elementary School Social Studies.* ★3 (either term, 0-3L-0).

ED CI 215. *Elementary School Curriculum and Instruction I.* ★9 (either term, 9-0-3). An integration of the subject areas of art, mathematics, movement and science, and a selected set of basic skills of teaching.

ED CI 216. *Curriculum and Instruction in Elementary School Mathematics.* ★3 (either term, 0-3L-0).

ED CI 220. *Curriculum and Instruction in Elementary School Science.* ★3 (either term, 0-3L-0).

ED CI 224. *Curriculum and Instruction in Elementary School Reading.* ★3 (either term, 0-3L-0).

ED CI 225. *Elementary School Curriculum and Instruction I.* ★9 (either term, 9-0-3). An integration of the subject areas of language, music, reading and social studies, and a selected set of basic skills of teaching.

ED CI 229. *Curriculum and Instruction in Elementary School Language.* ★3 (either term, 0-3L-0).

ED CI 236. *Curriculum and Instruction in Elementary School Art.* ★3 (either term, 1-0-2). Additional laboratory time may be required.

ED CI 239. *Curriculum and Instruction in Elementary School Music.* ★3 (either term, 0-3L-0).

ED CI 240. *Music Education for Recreation Teachers.* ★3 (either term, 3-0-0). Restricted to Recreation Administration students.

ED CI 300. *Analysis of Teaching.* ★3 (either term, 0-3L-0). Prerequisite: ED PR 201.

ED CI 301. *Individualizing Curriculum in the Elementary School.* ★3 (either term, 0-3L-0).

ED CI 302. *The Teacher's Role in Curriculum Development.* ★3 (either term, 3-0-0).

ED CI 304. *Orientation to Early Childhood Education.* ★3 (either term, 3-0-0). Note: this course is designed for students in Departments other than Elementary Education and for students in Elementary Education who are not specializing in Early Childhood Education.

ED CI 306. *Curriculum and Instruction in the Outdoors K-VI.* ★3 (Second Term, 3-0-0). Prerequisite: MOV 201 or MOV 202 or consent of the Department. Not open to first and second year students. Formerly MOV 389.

ED CI 308. *Introduction to Second Language Teaching in the Elementary School.* ★3 (either term, 3-0-0). Prerequisite: At least one course in the language to be taught or consent of the Department.

ED CI 309. *Introduction to the Teaching of English as a Second Language.* ★3 (either term, 3-0-0).

CU ME 310. *L'enseignement du francais aux francophones.* ★3 (l'un ou l'autre semestre, 3-0-0). Cours d'introduction a l'enseignement du francais langue maternelle au niveau de l'ecole elementaire. Note: ce cours sera donne a la Faculté Saint-Jean par ses propres instructeurs. (Voir CU ME de la Faculté).

CU ME 311. *L'enseignement du francais au deuxieme cycle l'elementaire.* ★3 (2eme semestre, 3-0-0).

ED CI 312. *The Teaching of Current Canadian Social Issues in Elementary Schools.* ★3 (either term, 3-0-0).

ED CI 315. *Elementary School Curriculum and Instruction II.* ★9 (either term, 9-0-3). An integration of the subject art, mathematics, movement and science, and a selected set of basic skills of teaching. Prerequisite: ED CI 225.

ED CI 316. *Laboratory Procedures and Materials for Elementary School Mathematics.* ★3 (First Term, 0-0-3).

ED CI 317. *Diagnostic Teaching of Mathematics.* ★3 (either term, 3-0-0) Prerequisite: ED CI 216 or equivalent.

ED CI 320. *Instruction in Elementary School Science.* ★3 (either term 0-3L-0). Prerequisite: ED CI 220 or equivalent.

ED CI 323. *Introduction to Elementary School Reading Instruction.* ★3 (either term, 0-3L-0). Senior students only. Credit granted for either ED CI 224 or ED CI 323 but not both.

ED CI 324. *Trends and Issues in the Teaching of Reading.* ★3 (either term, 3-0-1). Prerequisite: Open to senior students or by permission of instructor.

ED CI 325. *Elementary School Curriculum and Instruction II.* ★9 (either term, 9-0-3). An integration of the subject art, mathematics, movement and science, and a selected set of basic skills of teaching. Prerequisite: ED CI 215.

ED CI 326. *Diagnostic Teaching of Reading.* ★3 (either term, 3-0-1). Prerequisite: An ED CI course equivalent in reading.

ED CI 329. *Elementary School Language.* ★3 (either term, 0-3L-0). Prerequisite: ED CI 229 or equivalent.

ED CI 332. *Speech Problems: Role of the Classroom Teacher.* ★3 (either term, 3-0-0).

ED CI 333. *Seminar in Group Projects in Elementary Education I.* ★variable (either term, variable). Prerequisite: Consent of the Department.

ED CI 336. *Children's Art Laboratory.* ★3 (either term, 2-0-3). Additional laboratory time may be required.

ED CI 337. *Art Materials and Processes in the Schools.* ★3 (either term, 1-0-4).

ED CI 338. *Children's Art Expression in Contemporary Culture.* ★3 (either term, 3-0-0).

ED CI 339. *Music in the Elementary School.* ★3 (either term, 0-3L-0). An introductory course in music curriculum and instruction designed for students in the Music specialization and students with a music background, who have the consent of the Department. Not open to students who have taken ED CI 239.

ED CI 344. *Supervised Independent Study in Elementary Education I.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 345. *Seminar in Group Projects in Elementary Education I.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 346. *Introduction to School Libraries.* ★3 (either term, 3-0-0).

ED CI 402. *Curriculum and Instruction in the Elementary School I.* ★6 (First Term, 6-0-4).

ED CI 403. *Curriculum and Instruction in the Elementary School II.* ★6 *(Second Term, 6-0-4). Prerequisite: ED CI 402.*

ED CI 404. *Curriculum and Instruction in Early Childhood Education.* ★6 (3-0-3; 3-0-0) or (3-0-0; 3-0-3). Restricted to senior students in Early Childhood Education Specialization.

ED CI 406. *Curriculum and Instruction in Elementary School Physical Education.* ★3 (either term, 3-0-0). Prerequisite: Fourth year students who have a background of movement courses for children (MOV) or consent of the Department. Formerly MOV 437.

ED CI 408. *Methods and Programs in the Teaching of Second Languages in the Elementary School.* ★3 (either term, 3-0-0). Prerequisite: ED CI 308 or consent of the Department.

ED CI 409. *Methods and Programs in the Teaching of English as a Second Language.* ★3 (either term, 3-0-0). Prerequisite: ED CI 309 or consent of the Department.

ED CI 412. *Curriculum in Elementary School Social Studies.* ★3 (either term, 3-0-0) Prerequisite: ED CI 212 or equivalent.

ED CI 413. *Instruction in Elementary School Social Studies.* ★3 (either term, 3-0-0). Prerequisite or corequisite: ED CI 412. In addition, at least one course in social science or history or consent of the Department.

ED CI 414. *Innovations in Elementary School Social Studies Curriculum and Instruction.* ★3 (either term, 3-0-0). Note: This course is designed for practising teachers.

ED CI 416. *Instruction in Elementary School Mathematics.* ★3 (either term, 3-0-0) Prerequisite: ED CI 216 or equivalent.

ED CI 417. *Curriculum in Elementary School Mathematics.* ★3 (either term, 3-0-0). Prerequisite: ED CI 416 and at least one course in mathematics or consent of the Department.

ED CI 420. *Curriculum in Elementary School Science.* ★3 (either term, 0-3L-0). Prerequisites: ED CI 320 and at least one laboratory science course or consent of the Department.

ED CI 423. *The Reading Process: Theory and Observation.* ★3 (either term, 3-0-0). Prerequisite: ED CI 224 or 323 or written consent of the Department.

ED CI 424. *Reading in Early Childhood Education.* ★3 (either term, 0-3L-0). Prerequisite: ED CI 224 or 323.

ED CI 425. *Reading in Upper Elementary School.* ★3 (Second Term, 0-3L-0). Prerequisite: ED CI 224 or 323.

ED CI 427. *Teaching Literature in Elementary Schools.* ★3 (either term, 3-0-0).

ED CI 429. *Using Language in the Content Areas.* ★3 (either term, 0-3L-0). Prerequisite: ED CI 229 or ED CI 329 or equivalent.

ED CI 430. *Creative Aspects of Language in the Elementary School.* ★3 (either term, 0-3L-0). Prerequisite: ED CI 229 or ED CI 329 or equivalent.

ED CI 432. *Speech in the Elementary School.* ★3 (Second Term, 0-3L-0). Prerequisite: ED CI 332.

ED CI 433. *Seminar in Group Projects in Elementary Education 2.* ★variable (either term, variable). Prerequisite: Consent of the Department.

ED CI 436. *Art Education Laboratory.* ★3 (either term, 2-0-3). Prerequisite: ED CI 336.

ED CI 437. *Art Program Development in the Elementary School.* ★6 (3-0-1). Prerequisites: One half course in art education and one full course equivalent in art.

ED CI 439. *Music in the Elementary School I.* ★3 (First Term, 3-0-2). Prerequisites: ED CI 239 or ED CI 339 or equivalent and at least one course in music, or consent of the Department.

ED CI 440. *Music in the Elementary School II.* ★3 (Second Term, 3-0-2). Prerequisite: ED CI 439.

ED CI 443. *School Library Services.* ★3 (either term, 3-0-0). Prerequisite: ED CI 346 or consent of the Department.

ED CI 444. *Supervised Independent Study in Elementary Education II.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 445. *Seminar in Group Projects in Elementary Education II.* ★3 (either term, 0-3s-0). Prerequisite: Consent of the Department.

ED CI 446. *Selection of School Library Materials.* ★3 (either term, 3-0-0) Prerequisite or corequisite: ED CI 346 or consent of the department.

ED CI 447. *Organization of School Library Materials.* ★3 (either term, 3-0-2). Prerequisite or corequisite: ED CI 346 or consent of the department.

Graduate Courses

ED CI 500. *Research Seminar.* ★0. Reports and discussion by staff and graduate students to provide candidates for advanced degrees with experience in the selection and evaluation of research problems and procedures. The seminar will be offered as arranged. No course credit will be given.

ED CI 501. *Seminar in Elementary Education.* ★3 (either term, 0-3s-0). Prerequisite: Consent of the Department.

ED CI 502. *Research Seminar.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

ED CI 503. *Early Childhood Education: Home/School/Community Relations.* ★3 (3-0-0). This course is designed to investigate the teacher's role in improving communication among the school, home, and community.

ED CI 504. *Program Development in Early Childhood.* ★3 (either term, 3-0-0) Prerequisite: ED CI 404 or consent of the Department.

ED CI 505. *Research in Program Development in Early Childhood Education.* ★3 (either term, 3-0-0). Prerequisite: ED CI 504 or consent of the Department.

ED CI 506. *Program Development in Elementary School Physical Education.* ★6 (0-3L-0). Prerequisite: Graduate students only. Formerly MOV 530.

ED CI 508. *Program Development in Second Languages at the Elementary Level.* ★6 (3-0-0). Prerequisite: ED CI 408, or 409 or consent of the Department.

ED CI 509. *Problems in the Teaching of English as a Second or Other Language.* ★3 (either term, 3-0-0) Prerequisite: ED CI 309 and 409 or equivalent.

ED CI 510. *Program Development in the Teaching of English as a Second or Other Language.* ★3 (either term, 3-0-0). Prerequisite: ED CI 309 and ED CI 409 or equivalent.

ED CI 512. *Program Development in Elementary Social Studies I.* ★3 (either term, 3-0-0). Prerequisites: ED CI 412 and ED CI 413 or consent of the Department.

ED CI 513. *Program Development in Elementary Social Studies II.* ★3 (either term, 3-0-0) Prerequisite: ED CI 512 or consent of the Department.

ED CI 516. *Program Development in Elementary School Mathematics I.* ★3 (either term, 3-0-0). Prerequisite: ED CI 417 or consent of the Department.

ED CI 517. *Research in Mathematics Education I.* ★3 (either term, 3-0-0) Prerequisite: ED CI 417 or consent of the Department.

ED CI 520. *Research in Elementary School Science.* ★3 (either term, 3-0-0). Prerequisite: ED CI 420 or consent of the Department.

ED CI 521. *Program Development in Elementary School Science.* ★3 (either term, 3-0-0). Prerequisite: ED CI 420 or consent of the Department.

ED CI 522. *Theory of Reading Processes.* ★3 (either term, 3-0-0). Prerequisite: One-half course equivalent in Reading Education and one-half course equivalent in Language Education.

ED CI 523. *Research in Reading Processes.* ★3 (either term, 3-0-0). Prerequisite: ED CI 522 or consent of the Department.

ED CI 524. *Diagnostic Instruments in Reading.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 525. *Diagnosis of Reading Disability.* ★3 (either term, 3-0-3). Prerequisite: Consent of the Department.

ED CI 526. *Remedial Procedures for Reading Problems.* ★3 (either term, 3-0-3). Prerequisite: Consent of the Department.

ED CI 527. *The Reading Curriculum.* ★3 (either term, 3-0-0). Prerequisite or corequisite: Ed CI 522 or consent of the Department.

ED CI 528. *Organization of the Reading Program.* ★3 (Second Term, 3-0-0). Problems of organization, development, evaluation and supervision of the reading program. Prerequisite: Consent of the Department.

ED CI 529. *Language Acquisition and Growth in Young School Children.* ★3 (either term, 3-0-0) Prerequisite: ED CI 429 or 430 or equivalent.

ED CI 530. *Program Development for the Expansion of Elementary Children's Language.* ★3 (either term, 3-0-0). Prerequisite: ED CI 529.

ED CI 533. *Seminar in Group Projects in Elementary Education 3.* ★variable (either term, variable). Prerequisite: Consent of the Department.

ED CI 537. *Program Development and Research in Elementary School Art: Performance.* ★3 (either term, 3-0-0). Prerequisite: ED CI 437 or consent of the Department.

ED CI 538. *Program Development and Research in Elementary School Art: History and Criticism.* ★3 (either term, 3-0-0). Prerequisite: ED CI 437 or consent of the Department.

ED CI 539. *Program Development in Elementary School Music.* ★3 (First Term, 3-0-0) Prerequisite: ED CI 439 or consent of the Department.

ED CI 540. *Research in Elementary School Music.* ★3 (Second Term, 3-0-0) Prerequisite: ED CI 539 or consent of the Department.

ED CI 544. *Directed Individual Study in Elementary Education.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 545. *Directed Individual Study in Elementary Education.* ★6 (variable). Prerequisite: Consent of the Department.

ED CI 547. *Directed Study in School Library Programs.* ★3 (either term, 3-0-0). Prerequisite: ED CI 446 and 447 or consent of the instructor. (Listed also as LIB S 569.)

ED CI 551. *Curriculum Design.* ★3 (either term, 3-0-0). The application of curriculum theory to a specific task; the planning of a curriculum which can be used by teachers as a point of departure for their teaching.

ED CI 600. *Curriculum and Instruction Laboratory.* ★0. Discussion and supervision of experiences designed to prepare doctoral students for pre-service and in-service education of Elementary School teachers. Compulsory for all doctoral students.

ED CI 601. *Seminar in Elementary Education.* ★3 (both terms, 0-1.5s-0) or (either term, 0-3s-0). Discussion of perennial issues and current solutions to problems in elementary education. Compulsory for all doctoral students.

ED CI 602. *Conference Course in Elementary Education.* ★6 (variable).

ED CI 603. *Symposium in Elementary Education.* ★3 (both terms, 1.5-0-0) or (either term, 3-0-0). Research reports by staff and students. Compulsory for all doctoral students.

ED CI 612. *Research in Elementary School Social Studies.* ★3 (First Term, 3-0-0).

ED CI 613. *Planning Research in Elementary School Social Studies.* ★3 (Second Term, 3-0-0). Prerequisite: ED CI 612.

ED CI 616. *Program Development in Elementary School Mathematics II.* ★3 (either term, 3-0-0).

ED CI 617. *Research in Mathematics Education II.* ★3 (either term, 3-0-0).

ED CI 623. *Theories and Models of Reading Process.* ★3 (either term, 3-0-0).

ED CI 624. *Research I: Bases of Knowledge for Reading Research.* ★3 (either term, 3-0-0).

ED CI 625. *Research II: Recent Research in Reading.* ★3 (either term, 3-0-0).

ED CI 626. *Theory and Analysis of Reading Assessment.* ★3 (either term, 3-0-3). Prerequisite: ED CI 525.

ED CI 627. *Evaluation and Administration of Remedial Procedures.* ★3 (either term, 3-0-3).

ED CI 629. *Research in Language.* ★6 (3-0-0).

ED CI 637. *Research in Art Education.* ★6 (3-0-0).

ED 644. *Individual Project.* ★3 (either term, variable). Comprehensive problems in Curriculum and Instruction — Elementary. Includes preparation of final report.

ED 645. *Individual Project.* ★6 (variable). Comprehensive problems in Curriculum and Instruction — Elementary. Includes preparation of final report.

ED CI 649. *Curriculum Evaluation.* ★3 (First Term, 3-0-0). An inter-departmental seminar devoted to an examination of *evaluation* in the broad perspective of its place in education.

ED CI 650. *Curriculum Evaluation Practicum.* ★3 (either term, 3-0-0). The preparation and implementation of an evaluation study in the field. Prerequisite or corequisite: ED CI 649.

ED CI 900. *Non-Thesis Project.* ★6 (variable) Non-thesis route research project. Includes preparation of final report.

ED CI 901. *Non-Thesis Project.* ★3 (either term, variable) Non-thesis route research project. Includes preparation of final report.

74.6.2 ELEMENTARY AND SECONDARY (COMMON COURSES)

ED CI 132. *Speech Improvement.* ★0.

ED CI 346. *Introduction to School Libraries.* ★3 (either term, 3-0-0).

ED CI 348. *Reading in Junior High School.* ★3 (Second Term, 0-3L-0).

ED CI 349. *Reading in Senior High School.* ★3 (Second Term, 0-3L-0).

ED CI 443. *School Library Services.* ★3 (either term, 3-0-0). Prerequisite: ED CI 346 or consent of the Department.

ED CI 446. *Selection of School Library Materials.* ★3 (either term, 3-0-0) Prerequisite: ED CI 346.

ED CI 447. *Organization of School Library Materials.* ★3 (either term, 3-0-2). Prerequisite: ED CI 346.

ED CI 448. *The Mathematics Curriculum in the Elementary and Secondary School.* ★3 (either term, 3-0-0).

ED CI 450. *The Teacher's Role in Curriculum Development.* ★3 (either term, 3-0-0).

Graduate Courses

ED CI 547. *Directed Study in School Library Programs.* ★3 (either term, 3-0-0). Prerequisite: ED CI 446 and 447 or consent of the Department.

ED CI 549. *Curriculum Development.* ★3 (First Term, 3-0-0). Curriculum theory and research with particular reference to determinants of curriculum, curriculum development, implementation and evaluation.

ED CI 550. *Current Curriculum Developments.* ★3 (Second Term, 3-0-0). Problems and practices in innovation and evaluation of current curriculum developments.

ED CI 551. *Curriculum Design.* ★3 (Second Term, 3-0-0). The application of curriculum theory to a specific task: the planning of a curriculum which can be used by teachers as a point of departure for their teaching.

ED CI 649. *Curriculum Evaluation.* ★3 (First Term, 3-0-0). An inter-departmental seminar devoted to an examination of *evaluation* in the broad perspective of its place in education.

ED CI 650. *Curriculum Evaluation Practicum.* ★3 (either term, 3-0-0). The preparation and implementation of an evaluation study in the field. Prerequisite or corequisite: ED CI 649.

74.6.3 SECONDARY EDUCATION

ED CI 296. *Driver Education.* ★3 (either term 3-0-3). Offered in Summer Session only.

ED CI 346. *Introduction to School Libraries.* ★3 (either term, 3-0-0).

ED CI 348. *Reading in Junior High School.* ★3 (Second Term 0-3L-0).

ED CI 349. *Reading in Senior High School.* ★3 (Second Term, 0-3L-0).

ED CI 352. *Teaching in the Secondary Schools.* ★3 (either term, 3-0-1).

ED CI 353. *Curriculum and Instruction in Secondary School English I.* ★3 (either term, 3-0-0).

ED CI 354. *Curriculum and Instruction in Secondary School English II.* ★3 (either term, 3-0-0).

ED CI 355. *Speech in the Secondary School.* ★3 (either term, 0-3L-0).

ED CI 356. *Curriculum and Instruction in Secondary School Second Language I.* ★3 (either term, 0-3L-0). Prerequisites or corequisites: Three full courses in the teaching specialization.

ED CI 357. *Curriculum and Instruction in Secondary School Second Language II.* ★3 (either term, 0-3L-0). Prerequisites or corequisites: Three full courses in the teaching specialization and ED CI 356.

CU ME 358. *L'enseignement du francais aux francophones.* ★3 (l'un ou autre semestre, 4-0-0). Cours d'introduction a l'enseignement du francais langue maternelle aux niveaux de l'ecole secondaire inferieure et superieure. Note: ce cours sera donne a la Faculté Saint-Jean par ses propres instructeurs.

ED CI 360. *Curriculum and Instruction in Secondary School Social Studies I.* ★3 (First Term, 3-0-0). Prerequisites: Three full courses in the teaching specialization or consent of the Department.

ED CI 361. *Curriculum and Instruction in Secondary School Social Studies II.* ★3 (Second Term, 3-0-0). Prerequisite: ED CI 360 or consent of the Department.

ED CI 364. *Introduction to Mathematics Curriculum in Secondary Education.* ★3 (either term, 3-0-0).

ED CI 365. *Introduction to Methods for Teaching Mathematics in Secondary Schools.* ★3 (either term, 3-0-0).

ED CI 368. *Introduction to Teaching Secondary School General Science I.* ★3 (Second Term, 0-3L-0). Prerequisites: Three full course equivalents in the teaching specialization for continuing B.Ed. students, or five full course equivalents for students with approved degrees, or consent of the Department.

ED CI 369. *Introduction to Teaching Secondary School General Science II.* ★3 (Second Term, 0-3L-0). Prerequisites: ED CI 368 or consent of the Department.

ED CI 370. *Introduction to Teaching Secondary School Biological Science I.* ★3 (either term, 0-3L-0). Prerequisites: Three full course equivalents in the teaching specialization for continuing B.Ed. students or five full course equivalents for students with approved degrees, or consent of the Department.

ED CI 371. *Introduction to Teaching Secondary School Biological Science II.* ★3 (either term, 0-3L-0). Prerequisite: ED CI 370 or consent of the Department.

ED CI 374. *Introduction to Teaching Secondary School Physical Science I.* ★3 (Second Term, 0-3L-0). Prerequisites: Three full course equivalents in the teaching specialization for continuing B.Ed. students, or five full course equivalents for students with approved degrees, or consent of the Department.

ED CI 375. *Introduction to Teaching Secondary School Physical Science II.* ★3 (Second Term, 0-3L-0). Prerequisite: ED CI 374 or consent of the Department.

ED CI 378. *Curriculum and Instruction in Secondary School Business Education I.* ★3 (Second Term, 3-0-0). Prerequisites or corequisites: Three full courses in the teaching specialization.

ED CI 379. *Curriculum and Instruction in Secondary School Business Education II.* ★3 (Second Term, 3-0-0). Prerequisites or corequisites: Three full courses in the teaching specialization and ED CI 378.

ED CI 382. *Curriculum and Instruction in Secondary School Home Economics I.* ★3 (Second Term, 3-0-1). Prerequisites or corequisites: Three full courses in the teaching specialization or consent of the Department.

ED CI 383. *Curriculum and Instruction in Secondary School Home Economics II.* ★3 (Second Term, 3-0-1). Prerequisite: ED CI 382 or consent of the Department.

ED CI 384. *Advanced Curriculum and Instruction in Secondary School Home Economics I.* ★3 (either term, 3-0-0). Prerequisites: ED CI 382 / 383 or consent of the Department.

ED CI 385. *Art Curriculum in the Secondary School.* ★3 (Second Term, 3-0-0). Prerequisites or corequisites: Three full courses in the teaching specialization.

ED CI 386. *Art Instruction in the Secondary School.* ★3 (Second Term, 3-0-0). Prerequisites or corequisites: Three full courses in the teaching specialization and ED CI 385.

ED CI 387. *Curriculum and Instruction in Secondary School Music I.* ★3 (Second Term, 3-0-0). Prerequisites or corequisites: Three full courses in the teaching specialization.

ED CI 388. *Curriculum and Instruction in Secondary School Music II.* ★3 (Second Term, 3-0-0). Prerequisites or corequisites: Three full courses in the teaching specialization and ED CI 387.

ED CI 389. *Curriculum and Instruction in Secondary School Drama I.* ★3 (Second Term, 3-0-0). Prerequisites or corequisites: Three full courses in the teaching specialization.

ED CI 390. *Curriculum and Instruction in Secondary School Drama II.* ★3 (Second Term, 3-0-0). Prerequisite: ED CI 389.

ED CI 391. *Practicum in Secondary School Music I.* ★6 (0-6L-0).

ED CI 392. *Recent Studies in Art Curriculum and Instruction.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 393. *Advanced Curriculum and Instruction in Secondary Drama Education I.* ★3 (First Term, 3-0-0). Prerequisites or corequisites: ED CI 389 / 390 or 489 / 490.

ED CI 394. *Curriculum and Instruction in Secondary School Physical Education I.* ★3 (either term, 3-0-0). Prerequisites: MOV 244 / 245 and two full courses in the teaching specialization for continuing B.Ed. students, or five full course equivalents for students with approved degrees, or consent of the Department.

ED CI 395. *Curriculum and Instruction in Secondary School Physical Education II.* ★3 (either term, 3-0-0). Prerequisite: ED CI 394.

ED CI 443. *School Library Services.* ★3 (either term, 3-0-0). Prerequisite: ED CI 346 or consent of the Department.

ED CI 446. *Selection of School Library Materials.* ★3 (either term, 3-0-0). Prerequisite or corequisite: ED CI 346 or consent of the Department.

ED CI 447. *Organization of School Library Materials.* ★3 (either term, 3-0-2). Prerequisite or corequisite: ED CI 346 or consent of the Department.

ED CI 448. *The Mathematics Curriculum in the Elementary and Secondary School.* ★3 (either term, 3-0-0).

ED CI 452. *Teaching Literature in the Secondary School.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 453. *Teaching Language and Composition in the Secondary School.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 454. *Curriculum and Instruction in Secondary School English.* ★6 (3-0-0).

ED CI 456. *Curriculum and Instruction in Secondary School Second Language I.* ★3 (either term, 0-3L-0).

ED CI 457. *Curriculum and Instruction in Secondary School Second Language II.* ★3 (either term, 0-3L-0).

ED CI 458. *New Approaches to Second Language Instruction.* ★3 (either term, 0-3L-0).

ED CI 459. *Advanced Curriculum and Instruction in Second Language Teaching.* ★3 (either term, 0-3L-0).

ED CI 460. *Curriculum and Instruction in Secondary School Social Studies I.* ★3 (First Term, 3-0-0).

ED CI 461. *Curriculum and Instruction in Secondary School Social Studies II.* ★3 (Second Term, 3-0-0).

ED CI 462. *Innovations in Secondary School Social Studies Curriculum.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 463. *New Approaches in Secondary School Social Studies Instruction.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 464. *An Introduction to the Teaching of Secondary School Mathematics.* ★3 (either term, 3-0-0).

ED CI 465. *An Introduction to Curriculum and Instruction in Secondary School Mathematics.* ★3 (Second Term, 3-0-0). Prerequisite: ED CI 464 or consent of the Department.

ED CI 466. *The Use of Computers in the Teaching and Learning of Mathematics.* ★3 (either term, 3-0-1). Prerequisite: ED CI 364 or consent of the Department.

ED CI 467. *Teaching Mathematics in the Junior High School.* ★3 (either term, 3-0-0).

ED CI 468. *Specialized Methods in Secondary School Mathematics Teaching.* ★3 (either term, 3-0-0).

ED CI 469. *The Junior High School Science Curriculum.* ★3 (either term, 0-3L-0). Prerequisite: Consent of the Department.

ED CI 470. *Methods and Resources for Teaching the Earth-Space Sciences.* ★3 (either term, 0-3L-0). Prerequisite: Consent of the Department.

ED CI 471. *The Senior High School Biology Curriculum.* ★3 (either term, 0-3L-0). Prerequisite: Consent of the Department.

ED CI 472. *Methods and Resources for Teaching Secondary School Biology.* ★3 (either term, 0-3L-0). Prerequisite: Consent of the Department.

ED CI 473. *The Physics and Chemistry Curriculum in the Senior High School.* ★3 (either term, 0-3L-0). Prerequisite: Consent of the Department.

ED CI 474. *Methods and Resources for Teaching Secondary School Physical Sciences.* ★3 (either term, 0-3L-0). Prerequisite: Consent of the Department.

ED CI 475. *Environmental Education for the Secondary School.* ★3 (either term, 0-3L-0). Prerequisite: Consent of the Department.

ED CI 476. *Testing and Evaluation in Science Teaching.* ★3 (either term, 0-3L-0). Prerequisite: Consent of the Department.

ED CI 478. *Curriculum and Instruction in Secondary School Business Education I.* ★3 (either term, 3-0-0).

ED CI 479. *Curriculum and Instruction in Secondary School Business Education II.* ★3 (either term, 3-0-0).

ED CI 480. *Advanced Curriculum and Instruction in Secondary Business Education I.* ★3 (either term, 3-0-0). Prerequisite: ED CI 378 or 478 or consent of the Department.

ED CI 481. *Advanced Curriculum and Instruction in Secondary School Business Education II.* ★3 (either term, 3-0-0). Prerequisite: ED CI 480.

ED CI 482. *Curriculum and Instruction in Secondary School Home Economics I.* ★3 (either term, 3-0-0).

ED CI 483. *Curriculum and Instruction in Secondary School Home Economics II.* ★3 (either term, 3-0-0).

ED CI 484. *Advanced Curriculum and Instruction in Secondary School Home Economics II.* ★3 (either term, 3-0-0). Prerequisites: ED CI 382 / 383 or consent of the Department.

ED CI 485. *Crafts Teaching in the Secondary School.* ★3 (either term, 1-3s-0). Prerequisite: Consent of the Department.

ED CI 486. *Fine Arts Criticism in the Secondary School.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 487. *Curriculum and Instruction in Secondary School Music I.* ★3 (either term, 3-0-0).

ED CI 488. *Curriculum and Instruction in Secondary School Music II.* ★3 (either term, 3-0-0).

ED CI 489. *Curriculum and Instruction in Secondary School Drama I.* ★3 (First Term, 3-0-0).

ED CI 490. *Curriculum and Instruction in Secondary School Drama II.* ★3 (Second Term, 3-0-0).

ED CI 491. *Practicum in Secondary School Music II.* ★6 (0-6L-0). Registration limited to secondary route students on a music specialization who have completed the first year of MELAB.

ED CI 493. *Advanced Curriculum and Instruction in Secondary Drama Education II.* ★3 (Second Term, 3-0-0). Prerequisite: ED CI 393.

ED CI 494. *Curriculum and Instruction in Secondary School Physical Education I.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

ED CI 495. *Curriculum and Instruction in Secondary School Physical Education II* ★3 (Second Term, 3-0-0). Prerequisite: ED CI 395 or consent of the Department.

ED CI 497. *Conference Seminar.* ★3 (either term, 3-0-0).

ED CI 498. *Conference Seminar.* ★3 (either term, 3-0-0).

ED CI 499. *Guided Individual Study in Secondary Education.* ★3 (either term, 3-0-0). Prerequisite: Consent of the instructor and the Department.

Graduate Courses

ED CI 549. *Curriculum Development.* ★3 (First Term, 3-0-0). Curriculum theory and research with particular reference to determinants of curriculum, curriculum development, implementation and evaluation.

ED CI 550. *Current Curriculum Developments.* ★3 (Second Term, 3-0-0). Problems and practices in innovation and evaluation of current curriculum developments.

ED CI 551. *Curriculum Design.* ★3 (either term, 3-0-0). The application of curriculum theory to a specific task; the planning of a curriculum which can be used by teachers as a point of departure from their teaching.

ED CI 560. *Instructional Planning in Secondary School Social Studies.* ★3 (either term, 3-0-0).

ED CI 561. *Historical Methodology in Secondary School Social Studies.* ★3 (either term, 3-0-0).

ED CI 564. *Secondary Mathematics Education Research Seminar.* ★3 (First Term, 3-0-0).

ED CI 565. *Secondary Mathematics Education Program Development.* ★3 (Second Term, 3-0-0).

ED CI 570. *Science and Society: Implications for Teaching.* ★3 (either term, 0-3s-0). A seminar course on the nature of science and social aspects of science, and implications for science teaching. Emphasis is placed on the understanding of the scientific components of current social problems, and techniques and curricula for dealing with the nature and social context of science.

ED CI 574. *Instructional Strategies in Science Teaching.* ★3 (either term, 0-3s-0). A seminar course in which an in-depth study is made of the major techniques in science instruction. Heavy emphasis is given to research in science education and its implication for instruction.

ED CI 596. *Research Methods in Secondary Education.* ★3. (First Term, 3-0-0).

ED CI 597. *Research Design in Secondary Education.* ★3. (Second Term, 3-0-0).

ED CI 598. *Conference Seminar in Secondary Education I.* ★3 (either term, 0-3s-0) Prerequisite: Consent of instructor and Department.

ED CI 599. *Advanced Level Guided Individual Study in Secondary Education 1, 2, or 3.* ★3 (variable). Prerequisite: Consent of instructor and Department.

ED CI 649. *Curriculum Evaluation.* ★3. (First Term, 3-0-0). An inter-departmental seminar devoted to an examination of *evaluation* in the broad perspective of its place in education.

ED CI 650. *Curriculum Evaluation Practicum.* ★3. (either term, 3-0-0). The preparation and implementation of an evaluation study in the field. Prerequisite or corequisite: ED CI 649.

ED CI 654. *Seminar: Secondary Education English.* ★6 (0-3s-0).

ED CI 656. *Seminar: Secondary Education Second Language.* ★6 (0-3s-0).

ED CI 660. *Seminar: Secondary Education Social Studies.* ★6 (0-3s-0).

ED CI 664. *Seminar: Secondary Education Mathematics.* ★6 (0-3s-0).

ED CI 670. *Development, Implementation and Evaluation of Science Curricula.* ★3 (either term, 0-3s-0). An advanced seminar course on theory, practice and research on science curricula. The historical, philosophical, psychological and sociological aspects of science curricula are also considered, as are the applications of information storage, retrieval and dissemination techniques to curriculum materials.

ED CI 674. *Current Issues and Trends in Science Education.* ★3 (either term, 0-3s-0). A seminar course in which an examination and synthesis is made of current thinking and research in science education. Topics are selected from major areas of interest including curriculum development, scientific literacy, science concept acquisition, instruction and evaluation. Emphasis is given to classroom applications of major ideas.

ED CI 678. *Seminar: Secondary School Business Education.* ★6 (3-0-0).

ED CI 682. *Seminar: Secondary Education Home Economics.* ★6 (3-0-0).

ED CI 685. *Current Issues in Art Education.* ★3 (First Term, 3-0-0). Prerequisite: Undergraduate major in art or consent of instructor.

ED CI 686. *Directed Study in Art Education.* ★3 (Second Term, 3-0-0). Prerequisite: ED CI 685 or consent of Department.

ED CI 687. *Seminar: Secondary Education Music.* ★6 (3-0-0).

ED CI 689. *Seminar: Secondary Education Drama.* ★6 (3-0-0).

ED CI 690. *Advanced Research Topics in Secondary Education.* ★3. (either term, 3-0-0).

ED CI 694. *Seminar: Curriculum in Secondary School Physical Education.* ★3 (First Term, 3-0-0)

ED CI 695. *Seminar: Instruction in Secondary School Physical Education.* ★3 (Second Term, 3-0-0).

ED CI 696. *Secondary Education.* ★6 (3-0-0). Reading and discussion of research, curriculum, and teaching procedures in one of the major fields of the secondary school.

ED CI 697. *The Curriculum of Teacher Education.* ★6 (3-0-0). This course is designed for the achievement of a perspective on current philosophies and practices in teacher education, and the identification of proposals for modification and reform.

ED CI 698. *Conference Seminar in Secondary Education II.* ★3 (either term 0-3s-0) Prerequisite: Consent of instructor and Department.

ED CI 950. *Non-Thesis Project.* ★3 (variable). Colloquium project. Restricted to non-thesis students in Secondary Education.

74.7 Education — Foundations

EDFDN 201. *Introduction to Canadian Education.* ★3 (either term, 3-0-0). A sociological analysis of the historical development of Canadian education with particular reference to the relationship between schooling and other agencies of socialization viewed in their social, political, and economic context.

EDFDN 301. *Education in Canada: Selected Topics.* ★3 (either term, 3-0-0). Not to be taken by students who have credit in EDFDN 201.

EDFDN 340. *Schools and Their Curriculum: An Historical Study.* ★3 (either term, 3-0-0). An examination and analysis of the varieties of curriculums which have been employed in particular types of schools throughout the history of Western Civilization, with particular emphasis upon the modern period. Formerly EDFDN 381.

EDFDN 341. *Concepts of Childhood in History.* ★3 (either term, 3-0-0). A study of those views of childhood which have exerted a significant influence on educational theory and practice over the last two hundred years. Formerly EDFDN 481.

EDFDN 350. *Fundamental Problems in Education: A Philosophical Perspective.* ★3 (either term, 3-0-0).

EDFDN 360. *Society and Education.* ★3 (either term, 3-0-0). The changing function and structures of education, with special reference to contemporary Canadian society. Formerly EDFDN 413.

EDFDN 361. *Sociology of Learning and Achievement.* ★3 (either term, 3-0-0). Formerly EDFDN 421.

EDFDN 401. *Selected Topics in Educational Foundations.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

EDFDN 402. *Directed Study in Educational Foundations.* ★3 (either term, 3-0-0) Prerequisite: Consent of the Department. Formerly EDFDN 499.

EDFDN 410. *Cross Cultural Studies in Education.* ★3 (either term, 3-0-0). The ethnographic study of education and cultural change. Prerequisite: ANTHR 202, or ANTHR 307, or ANTHR 325, or ANTHR 350, or ANTHR 355, or consent of the Department.

INT D 416. *Anthropology and Education.* ★6 (3-0-0). Prerequisite: A basic course in anthropology or consent of the Department.

EDFDN 420. *Contemporary Systems of Education in Western Europe, the U.S.A. and the U.S.S.R.* ★3 (either term, 3-0-0). Formerly EDFDN 471.

EDFDN 422. *Education in Developing Countries: A Study of Education in Selected Areas in Asia, Africa and Latin America.* ★3 (either term, 3-0-0) Formerly EDFDN 473.

EDFDN 430. *History of Education in Western Canada.* ★3 (either term, 3-0-0) Formerly EDFDN 351.

EDFDN 431. *The Education of Selected Minority Groups in Western Canada: An Historical Study.* ★3 (either term, 3-0-0). An examination of the education of immigrants and their children since Confederation with special attention to the content and agencies of Canadianization. Formerly EDFDN 353.

EDFDN 432. *The Education of Native Peoples in Canada: An Historical Study.* ★3 (either term, 3-0-0). An examination of the education of Indian, Metis, and Eskimo peoples with special attention to church-state and federal-provincial relations. Formerly EDFDN 355.

EDFDN 433. *The Progressive Education Movement in Canada.* ★3 (either term, 3-0-0). An historical study of the influence of 'progressive education' in the United States on Canadian education since 1890. Formerly EDFDN 357.

EDFDN 440. *History of Educational Thought to Rousseau.* ★3 (either term, 3-0-0). A study of the writers who have influenced educational theories and practices in the Western World to Rousseau. Formerly EDFDN 495.

EDFDN 441. *History of Educational Thought in Modern Times.* ★3 (either term, 3-0-0). A study of writers who have influenced educational theories and practices in the Western World since Rousseau. Formerly EDFDN 497.

EDFDN 442. *Political Dimensions of Educational Theory and Practice: An Historical Study.* ★3 (either term, 3-0-0). Formerly EDFDN 483.

EDFDN 450. *The Aims of Education: A Philosophical Study.* ★3 (either term, 3-0-0). An introduction to the language and techniques of contemporary philosophy in discussions relating to the aims of education. Formerly EDFDN 491.

EDFDN 452. *Education and Theories of Knowledge: A Philosophical Approach.* ★3 (either term, 3-0-0). Formerly EDFDN 447.

EDFDN 453. *Logic in Teaching.* ★3 (either term, 3-0-0). A study of logical techniques employed by classroom teachers including definition, explanation and justification. Emphasis will be on the application of these techniques. Formerly EDFDN 449.

EDFDN 454. *Social Philosophy and Education.* ★3 (either term, 3-0-0). An examination of some basic concepts of social philosophy and their relation to education. Formerly EDFDN 493

EDFDN 456. *Moral Philosophy and Education.* ★3 (either term, 3-0-0). Relevance to education of contemporary theories about moral judgment and moral obligation. Formerly EDFDN 445.

EDFDN 460. *Sociology in Educational Context.* ★3 (either term, 3-0-0). Concepts, principles and methods of sociology for students of education. (Not open to students with credit in SOC 202 or SOC 403.) Formerly EDFDN 403.

EDFDN 461. *School and Community.* ★3 (either term, 3-0-0). The school in the context of community culture and structure. Formerly EDFDN 415.

EDFDN 462. *The Sociology of the School.* ★3 (either term, 3-0-0). Prerequisite: SOC 202 or SOC 403 or EDFDN 460 or equivalent. Formerly EDFDN 417.

EDFDN 463. *Youth, Social Change and Socializing Agencies.* ★3 (either term, 3-0-0). Formerly EDFDN 419.

EDFDN 470. *Issues in Contemporary Education.* ★3 (either term, 3-0-0). A critical examination of selected educational issues. Formerly EDFDN 451.

EDFDN 472. *Theoretical Foundations of Education in the Elementary School.* ★3 (3-0-0; 0-0-3). Restricted to Plan B students only. Formerly EDFDN 399.

EDFDN 474. *Contemporary Issues in the Education of Native Peoples: A Social Science Perspective.* ★3 (either term, 3-0-0). An analysis of current issues of debate in Indian, Metis and Eskimo education, with special reference to their social origins. Formerly EDFDN 455.

Graduate Courses

EDFDN 500. *Education Seminar.* ★0. Non-credit; hours to be arranged. Prerequisite: Consent of the Department.

EDFDN 501. *Conference Course on Selected Topics.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

EDFDN 502. *Conference Course on Selected Topics.* ★6 (3-0-0). Prerequisite: Consent of the Department.

EDFDN 510. *Education from an Anthropological Perspective.* ★3 (either term, 3-0-0) Formerly EDFDN 509.

EDFDN 512. *Anthropological Theory and Education.* ★6 (3-0-0). Formerly EDFDN 526.

EDFDN 521. *Studies of Educational Change in Western Nations.* ★3 (either term, 3-0-0) Formerly EDFDN 571.

EDFDN 522. *Functions of Education in the Development of Emerging Nations.* ★3 (either term, 3-0-0) Formerly EDFDN 573.

EDFDN 523. *Development Theory and Education.* ★3 (either term, 3-0-0). An examination of the meaning of the concept "Societal Development". A review of theories of development put forward by selected writers, and an analysis of the role of education in the development process, with particular attention to the Third World. Prerequisite: Consent of the Department. Formerly EDFDN 575.

EDFDN 530. *History of Education in Canada.* ★3 (either term, 3-0-0). A survey of studies in the history of formal and informal educational institutions in Canada, and their interrelationship with Canadian society. Formerly EDFDN 504.

EDFDN 532. *Topics in the History of Education in Western Canada.* ★3 (either term, 3-0-0) Formerly EDFDN 587.

EDFDN 534. *Topics in the History of Education in Eastern Canada.* ★3 (either term, 3-0-0) Formerly EDFDN 585.

EDFDN 540. *History of Modern Education.* ★3 (either term, 3-0-0) Formerly EDFDN 503.

EDFDN 541. *History of Higher Education.* ★3 (either term, 3-0-0). Formerly EDFDN 579.

EDFDN 542. *History of Education in the United States Before 1900.* ★3 (either term, 3-0-0) Formerly EDFDN 583.

EDFDN 543. *History of Education: Method and Structure.* ★3 (either term, 3-0-0) Formerly EDFDN 589.

EDFDN 544. *History of Education as a Field of Study: Its Emergence and Development.* ★3 (either term, 3-0-0).

EDFDN 545. *Studies in the History of Schooling and Curriculum.* ★3 (either term, 3-0-0).

EDFDN 546. *Childhood and Childrearing in Western Culture: An Historical Perspective.* ★3 (either term, 3-0-0).

NT D 546. *Soviet and East European Studies: An Interdisciplinary Seminar.* ★6 (3-0-0).

EDFDN 547. *History of English Education Since the Industrial Revolution.* ★3 (either term, 3-0-0).

EDFDN 550. *Philosophical Analysis and Education.* ★3 (either term, 3-0-0) Formerly EDFDN 505.

EDFDN 551. *Philosophy of Education I.* ★3 (either term, 3-0-0). Formerly EDFDN 591.

EDFDN 552. *Philosophy of Education II.* ★3 (either term, 3-0-0). Formerly EDFDN 593.

EDFDN 553. *Philosophical Analysis of Teaching.* ★3 (either term, 3-0-0) Formerly EDFDN 531.

EDFDN 554. *Philosophical Foundations of Educational Research.* ★3 (either term, 3-0-0) Formerly EDFDN 533.

EDFDN 555. *Moral Concepts in Education.* ★3 (either term, 3-0-0). Formerly EDFDN 537.

EDFDN 556. *The Educational Theory of a Selected Philosopher.* ★3 (either term, 3-0-0).

EDFDN 557. *Learning and the Philosophy of Knowledge.* ★3 (either term, 3-0-0).

EDFDN 560. *Education from a Sociological Perspective.* ★3 (either term, 3-0-0) Formerly EDFDN 507.

EDFDN 561. *Community Education: A Sociological Perspective.* ★3 (either term, 3-0-0). The organization and processes of community education at the local, provincial and national levels of social interaction as seen from the theory and research of contemporary sociology. Formerly EDFDN 511.

EDFDN 562. *Development and Theory of Sociology of Education.* ★3 (either term, 3-0-0) Formerly EDFDN 513.

EDFDN 563. *Research Methods in Sociology of Education.* ★3 (either term, 3-0-0) Formerly EDFDN 515.

EDFDN 564. *Education and Social Change.* ★3 (either term, 3-0-0). Formerly EDFDN 517.

EDFDN 565. *Sociology of Higher Education.* ★3 (either term, 3-0-0). Formerly EDFDN 519.

EDFDN 601. *Conference Course on Selected Topics.* ★3 (either term, 3-0-0).

EDFDN 602. *Conference Course on Selected Topics.* ★6 (3-0-0).

EDFDN 620. *Comparative and International Education.* ★6 (0-3s-0).

EDFDN 640. *History of Education.* ★6 (0-3s-0).

EDFDN 641. *History of Education: Historiography.* ★6 (0-3s-0).

EDFDN 642. *History of Education: Selected Areas.* ★6 (0-3s-0).

EDFDN 650. *The Nature of Philosophy in Education.* ★6 (0-3s-0).

EDFDN 651. *Traditional Philosophies of Education.* ★6 (0-3s-0).

EDFDN 652. *Analytic Philosophy of Education.* ★6 (0-3s-0).

EDFDN 660. *Sociology of Education.* ★6 (0-3s-0).

EDFDN 661. *Sociological Theory in Education.* ★6 (0-3s-0).

EDFDN 662. *Sociology of Education: Research Methodology.* ★6 (0-3s-0).

EDFDN 900. *Non-Thesis Project.* ★6 (variable). Supervised individual project. Restricted to non-thesis students in Educational Foundations.

74.8 Education — Industrial and Vocational

EDIND 207. *Drafting for Industrial Arts Teachers.* ★3 (either term, 2-1s-4). Development of necessary techniques for teaching and applying drafting in an industrial arts setting.

EDIND 211. *Materials I. Metals and Materials Testing.* ★3 (either term, 2-1s-4). Study of the processes and machines inherent in the metal and material testing technologies.

EDIND 213. *Materials II. Woods, Plastics, and Earths.* ★3 (either term, 2-1s-4). Study of the processes and machines inherent in the wood, plastic and earth technologies.

EDIND 223. *Industrial Practicum.* ★2 (17 weeks).

EDIND 233. *Technology I. Power Technology.* ★3 (either term, 2-1s-4). Study of energy conversion systems; and energy transmission and control.

EDIND 235. *Technology II. Graphics Technologies.* ★3 (either term, 2-1s-4). Study of the processes, procedures and materials inherent in the graphics technologies.

EDIND 237. *Technology III. Electronic and Computer Technologies.* ★3 (either term, 2-1s-4). Study of the concepts and practices inherent in the electrical, electronic, and computer technologies.

EDIND 243. *Industrial Practicum.* ★2 (17 weeks).

EDIND 245. *Introduction to Vocational Technical Education.* ★3 (either term, 3-0-0). Background and role of vocational education in Canada and abroad, including the early influences of apprenticeship and guilds.

EDIND 323. *Industrial Practicum.* ★2 (17 weeks).

EDIND 343. *Industrial Practicum.* ★4 (33 weeks).

EDIND 385. *Methods of Performance Evaluation in Vocational Education.* ★3 (Second Term, 3-0-0).

EDIND 390. *Occupationally Based Instructional Planning.* ★3 (either term, 3-0-0). This course focuses on the following topics as they relate to industrial and vocational education: mastery learning; vocational program goals and objectives;long range curriculum planning; occupational analysis processes; writing preformance objectives; psycomotor skill development. Prerequisite: EDIND 245. Corequisite: EDPSY 371.

EDIND 391. *Multiple Activity Laboratory I.* ★3 (either term, 3-0-3). Prerequisite / Corequisite: EDIND 211, 213, 233, 235, 237.

EDIND 392. *Industrial Arts Activities for Elementary Teachers.* ★3 (Second Term, 3-0-3).

EDIND 395. *Man and Technology I.* ★3 (either term, 2-1s-4). Study of the interrelationship of man and technology utilizing simulated industrial environment.

EDIND 396. *Skills and Modes of Teaching Vocational Education.* ★3 (either term, 2-0-2). A study of a variety of teaching techniques as they may be used in vocational education laboratories. Emphasis is placed on application of concepts with practice in micro-teaching and peer-teaching settings. Considerable time is devoted to the study of student-teacher relationships, communications, problems and conflict resolution. EDIND 396 is intended as the methods course preparatory for the Phase II practicum and Professional Term. Prerequisite or corequisite: ED PR 251, EDPSY 371.

EDIND 412. *Materials I-A.* ★3 (either term, 2-1s-4). Further study of Metals. Prerequisite: EDIND 211.

EDIND 416. *Materials II-A.* ★3 (either term, 2-1s-4). Further study of Woods, Plastics, and Earths. Prerequisite: EDIND 213.

EDIND 423. *Industrial Practicum.* ★4 (34 weeks).

EDIND 434. *Technology I-A.* ★3 (either term, 2-1s-4). Further study of Power Technology. Prerequisite: EDIND 233.

EDIND 436. *Technology II-A.* ★3 (either term, 2-1s-4). Further study of Graphics Technologies. Prerequisite: EDIND 235.

EDIND 438. *Technology III-A.* ★3 (either term, 2-1s-4). Further study of Electronic and Computer Technologies. Prerequisite: EDIND 237.

EDIND 443. *Industrial Practicum.* ★1 (8 weeks).

EDIND 457. *Multiple Activity Laboratory II.* ★3 (either term, 2-1s-4). Synthesizing activities with content from the material and technology components of productive society.

EDIND 465. *Manpower and Curriculum Implications.* ★3 (Second Term, 3-0-0). Further study of vocational technical education including implications for manpower training.

EDIND 477. *Man and Technology II.* ★3 (either term, 2-1s-4). Study of the teaching of the interrelationship of man and technology.

EDIND 485. *Performance Evaluation in Industrial and Vocational Education.* ★3 (either term, 3-0-0). This course includes selected aspects of evaluation of importance to teachers who specialize in technical, vocational or industrial arts education. Various techniques of assessing learning or behavior in the cognitive, affective, and psychomotor domains are considered. The course is taught from an applications point of view. Specific theories of evaluation are not considered as such, but constructs, principles and techniques of measurement are considered from the practical perspective of those who teach industrial arts, vocational or technical education. This course is integrated with the practicum in a professional term. Integration is both in terms of content and scheduling. Prerequisites: EDIND 390 and EDIND 391. Corequisite: EDIND 497, ED PR 357, ED PR 358, ED PR 359.

EDIND 490. *Writing of Learning/Training Objectives.* ★3 (either term, 3-0-0). Writing detailed learning and/or training objectives for competency based programs.

EDIND 492. *Technical Communications.* ★3 (either term, 3-0-0). Instruction and intensive practice in technical communication skills. Emphasis on organization and production of the two main forms of technical writing: instructional material and technical reports; treatment of other types of technical writing such as abstract writing and technical correspondence. Diagnosis and correction of individual writing faults.

EDIND 494. *Trade Training and Industry in Britain and Continental Europe.* ★6 (8-5s-20). A study of European training and institutions which will include lecture trips and seminars held at London City and Guilds, Holland's Bemetel Institute, etc., aimed at providing vocational educators and industrial training personnel with a deeper understanding of European industry and current industrial training programs and methods. Prerequisite: EDIND 245 and EDIND 465 or consent of the Department. Note: This course is given in Europe during the Summer Session only.

EDIND 496. *Individual Directed Study.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

EDIND 497. *Curriculum Development in Industrial and Vocational Education.* ★3 (either term, 3-0-3). A study of selecting and sequencing learning activities with application to course, unit and lession planning for the business and industrial education teacher. Methods of managing the laboratory experiences, budgeting and ordering supplies, and record keeping are dealt with. This course, along with EDIND 485, is integrated with practicum in a professional term. Integration is in terms of both content and scheduling. Prerequisites: ED PR 351, EDIND 390 or EDIND 391. Corequisite: EDIND 485, ED PR 357, ED PR 358, ED PR 359.

EDIND 498. *Individual Directed Laboratory Study.* ★3 (either term, 3-0-3). Prerequisite: Consent of the Department.

Graduate Courses

EDIND 500. *Industrial and Vocational Education Seminar.* ★0. Non-credit. Hours to be arranged. Reports and discussions by staff and graduate students to provide candidates for advanced degrees with experience in the selection and evaluation of research problems and procedures.

EDIND 509. *Development and Principles of Industrial and Vocational Education.* ★3 (either term, 3-0-0).

EDIND 511. *Curriculum and Instruction in Industrial and Vocational Education.* ★3 (either term, 3-0-0).

EDIND 519. *Supervision and Planning of Industrial and Vocational Facilities and Programs.* ★3 (either term, 3-0-0).

EDIND 521. *Evaluation of Industrial and Vocational Education Programs.* ★3 (either term, 3-0-0).

EDIND 539. *Technological Assessment and its Implication for Industrial and Vocational Education Curricula.* ★3 (either term, 3-0-0).

EDIND 541. *Technological Forecasting and its Implication for Industrial and Vocational Education Curricula.* ★3 (either term, 3-0-0).

EDIND 549. *Survey of Occupations — Conference Seminar I.* ★3 (either term, 1-0-3).

EDIND 551. *Survey of Occupations — Conference Seminar II.* ★3 (either term, 1-0-3).

EDIND 585. *Individual Directed Laboratory Study.* ★3 (either term, 3-0-3).

EDIND 587. *Individual Directed Study.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

EDIND 589. *Organization of Industrial and Vocational Education.* ★3 (either term, 3-0-0).

EDIND 591. *Problems and Trends in Industrial and Vocational Education.* ★3 (either term, 3-0-0).

EDIND 593. *Survey of Industrial and Vocational Education Research I.* ★3 (either term, 3-0-0).

EDIND 595. *Survey of Industrial and Vocational Education Research II.* ★3 (either term, 3-0-0).

EDIND 900. *Non-Thesis Project.* ★6 (variable).

74.9 Education — Practicum

ED PR 200. *Student Teaching: Elementary.* ★6 (6 weeks). Note: Available only with permission of the Dean.

ED PR 201. *Student Teaching: Elementary.* ★3 (2 weeks).

ED PR 202. *Student Teaching: Elementary.* ★3 (2 weeks).

ED PR 248. *Practicum in Intercultural Education I.* ★((Intersession Experience).

ED PR 251. *A Study of Classroom Behavior.* ★3 (either term, 2-0-4). An education option in the practicum (student teaching) component.

ED PR 252. *Secondary School Teaching Practicum.* ★6 (0-6L-0). An Education option involving practical classroom experience in the area of the student's specialization.

ED PR 301. *Student Teaching: Elementary.* ★3 (4 weeks).

ED PR 302. *Student Teaching: Elementary.* ★3 (3 weeks).

ED PR 310. *Student Teaching in the Elementary School — II.* ★ (4 weeks).

ED PR 330. *Student Teaching in the Elementary School — III.* ★ (8 weeks).

ED PR 331. *Student Teaching in the Elementary School — III.* ★ (9 weeks). Restricted to students in the B.Ed. A/D program.

ED PR 348. *Practicum in Intercultural Education II.* ★ (Intersession Experience).

ED PR 350. *Student Teaching in the Secondary School.* ★6 (weeks). Note: Available only with permission of the Dean.

ED PR 351. *Student Teaching — Phase II (Industrial Arts and Vocational Education).* ★3 (4 weeks).

ED PR 353. *Student Teaching in the Secondary School — II.* ★ (4 weeks).

ED PR 354. *Campus Based Practicum (Secondary Education).* ★3 (0-3L-0).

ED PR 355. *Student Teaching in the Secondary School — III.* ★3 (4 weeks).

ED PR 356. *Student Teaching in the Secondary School — III.* ★3 (4 weeks).

ED PR 357. *Campus Based Practicum (Industrial Arts and Vocational Education).* ★3 (0-3L-0).

ED PR 358. *Student Teaching — Phase III (Industrial Arts and Vocational Education).* ★3 (4 weeks).

ED PR 359. *Student Teaching — Phase III (Industrial Arts and Vocational Education).* ★3 (4 weeks).

ED PR 400. *Student Teaching in the Elementary School.* ★6 (6 weeks). Note: Available only with permission of the Dean.

ED PR 401. *Student Teaching: Elementary.* ★3 (3 weeks).

ED PR 402. *Student Teaching: Elementary.* ★9 (7 weeks).

ED PR 450. *Student Teaching in Secondary School.* ★6 (6 weeks). Note: Available only with permission of the Dean.

ED PR 451. *Student Teaching.* ★3 (3 weeks).

ED PR 453. *Student Teaching.* ★3 (3 weeks).

ED PR 454. *Student Teaching at Post-Secondary Level: I.* ★3 (3 weeks).

ED PR 455. *Student Teaching at Post-Secondary Level: II.* ★3 (3 weeks).

74.10 Education — Psychology

EDPSY 251. *Introduction to Exceptional Children.* ★3 (either term, 3-0-1). Special Education students only.

EDPSY 255. *Developmental and Learning Characteristics of Exceptional children.* ★3 (3-0-0). Formerly EDPSY 351.

EDPSY 263. *Introduction to Educational Psychology: Development.* ★3 (either term, 3-2-0). Formerly EDPSY 261.

EDPSY 271. *Introduction to Educational Psychology: Learning.* ★3 (either term, 1.5-1.5s-0).

ED PSY 329. *Educational Psychology of Adolescence.* ★3 (either term, 3-0-0).

EDPSY 341. *Psychology of Exceptional Children and Youth.* ★3 (either term, 3-0-0). No prerequisites. Not to be taken by students with credit in EDPSY 251/253.

EDPSY 343. *Education of Exceptional Children and Youth.* ★3 (either term, 3-0-0). Prerequisite: EDPSY 341. Not to be taken by students with credit in EDPSY 251/253.

EDPSY 351. *Developmental and Learning Characteristics of Exceptional Children.* ★3 (either term, 3-0-0). Prerequisites: EDPSY 251 and 253; or consent of the Department. Special Education students only.

EDPSY 355. *Psychoeducational Diagnosis and Assessment of Exceptional Children.* ★3 (either term, 3-0-1). Prerequisites: EDPSY 251 and 255. Corequisite: EDPSY 357.

EDPSY 357. *Behavioral Management of Exceptional Children.* ★3 (3-0-1). Prerequisite: EDPSY 251 and 255. Corequisite: EDPSY 355.

EDPSY 359. *Instructional Materials and Programming Methods for Special Education.* ★2 (2-0-1). Prerequisites: EDPSY 251, 255, 355, and 357.

EDPSY 361. *Seminar and Clinical Practicum: Exceptional Children.* ★3 (0-2s-4). Prerequisites: EDPSY 351 and 355. Special Education students only.

EDPSY 363. *Introduction to Educational Psychology: Development.* ★3 (either term, 3-2-0). Restricted to students enrolled in the B.Ed. A/D program.

ED PSY 371. *Learning, Instructional Psychology and Educational Practice.* ★3 (either term, 3-2s-0).

EDPSY 411. *Introduction to Guidance.* ★3 (either term, 3-0-0). Prerequisite: EDPSY 263 or equivalent.

EDPSY 412. *The Psychology of Classroom Communication.* ★6 (3-0-1). Prerequisite: EDPSY 263 or equivalent.

EDPSY 419. *Educational and Vocational Guidance in the Classroom.* ★3 (either term, 3-0-0). Prerequisite: EDPSY 263 or equivalent.

EDPSY 421. *Personal and Social Dynamics in Education.* ★3 (either term, 3-0-0) Prerequisite: EDPSY 263 or equivalent.

EDPSY 425. *Psychology of Confluent Education.* ★3 (either term, 3-0-3). Prerequisite: EDPSY 263 and consent of the Department.

EDPSY 453. *Interdisciplinary Perspectives on Exceptionality.* ★3 (either term, 3-0-0). Prerequisite: EDPSY 361 or consent of the Department. Special Education students only.

EDPSY 459. *Seminar in Special Education.* ★3 (either term, 1-2s-0). Prerequisite: EDPSY 361 or consent of the Department. Special Education students only.

EDPSY 461. *Seminar and Classroom Practicum: Exceptional Children.* ★3 (0-1s-5). Prerequisite: EDPSY 361. Prerequisite or corequisite: EDPSY 357. Special Education students only.

EDPSY 467. *Learning and Development in the Elementary School.* ★3 (3-0-0; 0-0-3). Prerequisite: EDPSY 263 or equivalent. Note: Restricted to Plan B students only.

EDPSY 468. *Learning and Development in the Elementary School.* ★6 (3-0-3). Prerequisite: EDPSY 263 or equivalent.

EDPSY 469. *Human Development and Education.* ★3 (either term, 3-0-0) Prerequisite: EDPSY 263 or equivalent.

EDPSY 471. *Learning and Instruction.* ★3 (either term, 3-0-0). Prerequisite: EDPSY 371 or consent of the Department.

EDPSY 473. *Language and Cognition in the Education of the Child.* ★3 (either term, 3-0-0) Prerequisite: EDPSY 263 or equivalent.

EDPSY 475. *Individual Differences in Education.* ★3 (either term, 3-0-0). Prerequisites: EDPSY 263 or equivalent.

EDPSY 477. *Bilingualism and Cognition in the Education of the Child.* ★3 (either term, 3-0-0). Prerequisites: EDPSY 263 or equivalent.

EDPSY 479. *Introduction to Computer Assisted Instruction.* ★3 (First Term, 3-0-3). Prerequisite: EDPSY 263; or corequisite: EDPSY 371.

EDPSY 481. *Problems in Implementation and Evaluation of Computer Based Instructional Systems.* ★3 (Second Term, 1-0-3). Prerequisite: EDPSY 479

EDPSY 487. *Principles of Classroom Measurement.* ★3 (either term, 3-0-0). Prerequisite: EDPSY 263 or consent of the Department.

EDPSY 489. *Test Construction for Teachers.* ★3 (either term, 3-0-0). Prerequisite: EDPSY 263 or consent of the Department.

EDPSY 497. *Senior Seminars.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department. Content varies from year to year. Topics announced prior to registration period.

EDPSY 498. *Senior Seminar in Educational Psychology.* ★6 (0-3s-0). Content varies from year to year. Topics announced prior to registration period. Prerequisite: Consent of the Department.

EDPSY 499. *Directed Individual Study in Educational Psychology.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

Graduate Courses

EDPSY 501. *Nonparametric Statistical Inference in Educational Research.* ★3 (either term, 3-0-0).

EDPSY 502. *Introduction to Educational Research.* ★6 (3-0-3).

EDPSY 504. *Statistics and Research Design in Education.* ★6 (3-0-3). Prerequisite: EDPSY 502 or equivalent.

EDPSY 510. *Counselling Theory I.* ★6 (2-0-4). Prerequisite or corequisite: EDPSY 515 or consent of the Department.

EDPSY 511. *Vocational Development and Choice.* ★3 (either term, 3-0-0).

EDPSY 512. *Seminar and Practicum in Counselling I.* ★6 (2-1.5s-4). Prerequisites or corequisites: EDPSY 515 and 510 or equivalent and consent of the Department.

EDPSY 513. *Group Assessment in Guidance and Counselling.* ★3 (either term, 3-0-1). Prerequisite: EDPSY 487 or equivalent; or consent of the Department.

EDPSY 515. *Theories of Personality.* ★3 (either term, 3-0-0).

EDPSY 517. *Religious and Moral Development and Education.* ★3 (either term, 3-0-0).

EDPSY 518. *Seminar and Practicum in Group Counselling.* ★6 (0-3s-4). Prerequisite: EDPSY 512; or equivalent.

EDPSY 519. *Seminar in Elementary School Counselling.* ★3 (Second Term, 0-3s-0). Prerequisite: Consent of the Department.

EDPSY 521. *Interpersonal Relations in Education.* ★3 (either term, 0-0-3). Prerequisite: Consent of the Department.

EDPSY 524. *Seminar and Practicum in School Psychology I.* ★6 (3-0-3). Prerequisite: Consent of the Department.

EDPSY 531. *Psychology of Exceptional Children.* ★3 (either term, 3-0-0). An overview of the psychology of exceptional

children with emphasis on intellectual and emotional deviance, learning disability, mental retardation, sensory deficits and the problems of deprivation.

EDPSY 533. *Advanced Course in Psychoeducational Diagnosis.* ★3 (First Term, 3-0-1). To provide skill in administration and interpretation of a variety of psychoeducational measures which show potential in advancing our understanding of exceptional children.

EDPSY 535. *Educational Programming from Psychoeducational Data.* ★3 (Second Term, 3-0-1). Prerequisite: EDPSY 533 or consent of the Department.

EDPSY 537. *Task Analysis and Instructional Design in Special Education.* ★3 (First Term, 0-4L-0). To provide skill in developing curriculum materials and instructional sequencing and criterion referenced tests through task analysis.

EDPSY 538. *Practicum in Special Education.* ★6 (0-4L-0). Supervised practicum in a variety of special education settings. Prerequisite: EDPSY 531.

EDPSY 539. *Behavior Management in Schools.* ★3 (Second Term, 0-4L-0). To provide skill in implementing behavior management practices in classroom settings as well as skills for assisting teachers to implement behavior management techniques.

EDPSY 541. *Development and Learning of Exceptional Children.* ★3 (either term, 3-0-0). A consideration of the value of current theories in learning and development for understanding exceptional children. Prerequisites or corequisites: EDPSY 531, 569 and 571 or consent of the Department.

EDPSY 542. *Theory and Research in Mental Retardation.* ★6 (3-0-0). Prerequisite: Consent of the Department.

EDPSY 544. *Seminar on Research in Special Education.* ★6 (0-3s-0). Prerequisite or corequisite: EDPSY 502 or equivalent.

EDPSY 546. *Seminar in Psychopathology of the Child.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

EDPSY 555. *Cross-Cultural Psychology: Cognitive Development.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

EDPSY 560. *Seminar and Research in Developmental Psychology.* ★6 (0-3s-1). Prerequisite: Consent of the Department. Note: All students registered in the basic area must take EDPSY 560 instead of EDPSY 569.

EDPSY 562. *Comparative Educational Psychology: Soviet and Western.* ★6 (3-0-0). Prerequisite: Consent of the Department.

EDPSY 568. *Seminar and Research in Learning.* ★6 (0-3s-1). Prerequisite: Consent of the Department. Note: All students registered in the basic area must take EDPSY 568 instead of EDPSY 571.

EDPSY 569. *Advanced Educational Psychology: Development.* ★3 (either term, 3-0-0).

EDPSY 571. *Advanced Educational Psychology: Learning.* ★3 (either term, 3-0-0).

EDPSY 578. *Psychology of Language, Cognition and Bilingualism.* ★6 (3-0-0). Prerequisite: Consent of the Department.

EDPSY 580. *Seminar and Research in Educational Measurement.* ★6 (3-2s-0). Prerequisite: EDPSY 502, its equivalent or consent of the Department.

EDPSY 591. *Social Psychology and Education.* ★3 (either term, 3-0-0).

EDPSY 592. *Seminar and Research in the Social Psychology of School and Classroom.* ★6 (0-3s-0). Prerequisite: Consent of the Department.

EDPSY 594. *Core Seminar.* ★12 (0-6s-0). An integrated course limited to graduate students requiring the foundation normally provided through EDPSY 515, 569, 571, and 591. Subsequent registration in these courses will not be approved.

EDPSY 597. *Special Seminars.* ★3 (either term, 0-3s-0). Prerequisite: Consent of the Department. Content varies from year to year. Topics announced prior to registration period. The student's transcript carries title descriptive of content. May be repeated.

EDPSY 598. *Special Seminars.* ★6 (0-3s-0). Prerequisite: Consent of the Department. Content varies from year to year. Topics announced prior to registration period. The student's transcript carries title descriptive of content. May be repeated.

EDPSY 599. *Individual Directed Reading and Research.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Department.

EDPSY 610. *Counselling Theory II.* ★6 (3-0-0).

EDPSY 612. *Seminar and Practicum in Counselling II.* ★6 (3-3s-3). Incorporates internship.

EDPSY 616. *Research in Counselling.* ★6 (3-0-0).

EDPSY 620. *Personality, Affect, and Cognition.* ★6 (3-0-0).

EDPSY 624. *Seminar and Practicum in School Psychology II.* ★6 (3-0-3).

EDPSY 640. *Special Education.* ★6 (3-0-0).

EDPSY 660. *Developmental Psychology.* ★6 (3-0-0).

EDPSY 676. *Psychology of Learning.* ★6 (3-0-0).

EDPSY 680. *Educational Measurement.* ★6 (3-0-3).

Note: § 74.11 reserved.

74.12 *Courses Offered by Other Faculties*

NOTE: This list of courses offered by other faculties is included for the use of first year students to provide an overview of the kinds of courses offered by other faculties. It also includes some senior courses which are required for certain teaching specializations. All students should consult the appropriate Faculty Calendars for more comprehensive course information.

74.12.1 ACCOUNTING

ACCTG 202. *Introductory Accounting.* ★3 (either term, 3-1.5s-0). Postulates, principles, the accounting cycle, capital and income measurement, financial statement preparation and analysis; emphasis on reporting to shareholders, creditors and other external decision-makers. Prerequisites: ECON 200 or 201/202.

74.12.2 AGRICULTURAL ECONOMICS — DEPARTMENT OF RURAL ECONOMY

AG EC 203. *Introduction to Agricultural Economics.* ★3 (First Term, 3-0-0). Economic and social issues in food production and consumption; prices, costs, and incomes; nature and causes of farm problems; role of agriculture in the overall economy; world food situation; public policies affecting agriculture. Note: Not recommended for students with credit in any other agricultural economics course.

74.12.3 ANIMAL SCIENCE

AN SC 210. *Equine Physiology and Nutrition.* ★3 (First Term, 3-0-0). Application of the principle of digestive and metabolic physiology. Nutrient requirements of the horse; sources of energy and nutrients; feed formulation.

74.12.4 ANTHROPOLOGY

ANTHR 202. *Man and Culture.* ★6 (3-0-0). An introduction to anthropological thought concerning such topics as race, evolution, culture growth and culture change. Note: Not open to students with credit in ANTHR 306 or 307.

74.12.5 ART AND DESIGN

ART H 201. *Introduction to the History of Art I.* ★3 (either term 3-0-0). Introduction to European Art from the Middle Ages to the 17th Century by analysis of selected works and movements. Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 250.

ART H 202. *Introduction to the History of Art II.* ★3 (either term 3-0-0). Introduction to the art of the 17th, 18th, 19th and 20th Centuries by analysis of selected works and movements Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 251.

ART 231. *Visual Fundamentals.* ★6 (2-0-4). A studio based introduction to the exploration and production, in two and three dimensions, of visually expressed information. Note: Not open to students with credit in ART 232.

74.12.6 ASTRONOMY

ASTRO 253. *Astronomy.* ★6 (3-0-0). This is a general course in astronomy. Major topics presented include the solar system properties of stars, galaxies and cosmology. The results from manned and unmanned space probes are included in the discussions. Emphasis is placed on the physical processes

responsible for astronomical phenomena. Prerequisite: Mathematics 30 and Physics 30 or PHYS 203. Students are advised to have knowledge of trigonometry.

ASTRO 353. *Survey of Astronomical Theories and Techniques.* ★6 (3-0-0). This course is intended primarily for students in the Faculties of Education and Arts. Our current knowledge of the universe is discussed using a descriptive approach avoiding mathematical details wherever possible. Emphasis is placed on understanding our modern picture of the universe. Techniques of observation and analysis are studied through a series of practical exercises. This course will include viewing experience, using the observatory on the roof of the Physics Building, whenever appropriate. Prerequisites: It is recommended that students have credit in Mathematics 30 and Physics 30 or PHYS 203. Credit may be obtained in only one of ASTRO 253 or 353.

ASTRO 410. *Astrophysics.* ★6 (3-0-0). Summary of the concepts in physics and astronomy which are relevant to astrophysics; stellar spectra, atmospheres, interiors and evolution; galactic structure; cosmology. Prerequisites: MATH 202 or 203 and 204; PHYS 240. Some additional knowledge of mathematics (e.g., MATH 302/303) and astronomy (e.g., ASTRO 253) would be advantageous.

NOTE: All three courses described include viewing experience using the observatory on the roof of the Physics Building whenever appropriate.

74.12.7 BIOLOGY

BIOL 130. *Introductory Biology.* ★6 (3-0-3). A basic biology course emphasizing the diversity and interrelations of organisms, the relationships between form and function, heredity, cellular structure, and ecological principles. Note: Not open to students with credit in Biology 30.

BIOL 210. *Biology and the Modern World.* ★3 (either term, 3-0-3). Biological basis for an ecology of man including human origins, evolution, biological peculiarities and exploding populations; man's place in and influence on the biosphere; speculation concerning man's future. Demonstration laboratories and discussions. No prerequisite. This course may be combined with ENT 209 to make a full course in biological science.

BIOL 296. *Evolutionary Biology.* ★3 (either term, 3-0-3). The numbers and kinds of organisms, their origins, structures, systematic relationships, and modes and mechanisms of evolution. Prerequisite: Biology 30.

BIOL 297. *Heredity.* ★3 (either term, 3-0-3). The cellular and molecular basis of the transmission of hereditary characteristics. Mendelian inheritance and its cytological basis; microbial genetics; cytoplasmic inheritance, linkage and genetic mapping; DNA as genetic material; gene action; the genetic code. Prerequisite: Biology 30.

BIOL 298. *Environmental Biology.* ★3 (either term, 3-0-3). The basic principles and concepts of ecology. Emphasis on structure and function of populations, communities, and ecosystems. Laboratory to include ecological experiments, demonstrations, and discussions. Prerequisite: Biology 30.

BIOL 299. *Biological Function.* ★3 (either term, 3-0-3). Comparative physiology of animals and higher plants from the standpoint of nutrition, energetics, gas exchange, circulation, ionic and osmotic relations and control systems. Prerequisite: Biology 30.

74.12.8 CHEMISTRY

CHEM 200. *Introductory University Chemistry.* ★6 (3-1s-3). Bonding and structure; chemical and phase equilibria; solution chemistry; thermochemistry, electrochemistry and chemical kinetics, with applications to inorganic chemistry. Prerequisite: CHEM 100, or Chemistry 30, or equivalent.

CHEM 202. *Introductory University Chemistry.* ★6 (3-1s-3). Bonding and structure; chemical and phase equilibria; solution chemistry; thermochemistry; electrochemistry and chemical kinetics with applications to inorganic chemistry. Designed for students who are taking or have taken a university level mathematics course. Prerequisite: CHEM 100, or Chemistry 30, or equivalent. Corequisite or prerequisite: MATH 202 or 203 or equivalent.

CHEM 250. *Organic Chemistry.* ★6 (3-0-3). The study of functional groups found in the main classes of organic compounds and their molecular conformation and stereochemistry in such a way that the chemistry of some molecules important to biology (e.g., amino acids, proteins, medicinals, pesticides, fats, sugars, carbohydrates, nucleic acids) as well as some molecules found in every day life (soaps, detergents, fibers, perfumes, polymers, etc.) can be discussed. Prerequisite: CHEM 100, or Chemistry 30 or equivalent. Note: Students with credit in CHEM 200 or 202 will proceed to CHEM 350. Such students may enroll in CHEM 250 only if written consent of the Department is obtained.

74.12.9 CLASSICS

CLASS 201. *Literature of Greece and Rome.* ★3 (either term, 3-0-0). An introductory survey in English translation of Greek and Latin literature in its social, artistic and cultural background. A limited number of major works, representing the most important genres, will be studied. May not be taken concurrently with or subsequent to CLASS 359/362.

CLASS 202. *Greek and Roman Mythology.* ★3 (either term, 3-0-0). A survey of classical mythology with readings in translation from various ancient authors as well as from modern scholarly works. Note: Formerly part of CLASS 240.

CLASS 230. *Introduction to the Ancient Near East and Greece.* ★3 (either term, 3-0-0). An introductory course in the history of the Ancient Near East and Greece from the Neolithic Age to the Fourth Century A.D. May not be taken concurrently with or subsequent to CLASS 363/364.

CLASS 231. *Introduction to Rome and the West.* ★3 (either term, 3-0-0). An introductory course in the history of Rome and the western Mediterranean to the collapse of the Roman Empire. May not be taken concurrently with or subsequent to CLASS 365/366 and 371/372.

CLASS 241. *Ancient Science and Technology.* ★3 (either term, 3-0-0). A survey of ancient science and technology in the Middle Eastern, Greek and Roman civilizations.

CLASS 250. *The Greek World.* ★3 (either term, 3-0-0). Greek life and society illustrated by archaeological discoveries; the Bronze Age, the city, temples, Athens, Sparta, Greek art and architecture, trade and warfare. Slides, films, and other materials.

CLASS 251. *The Roman World.* ★3 (either term, 3-0-0). A study of Roman society illustrated by archaeological discoveries; city life, housing, town planning, games, trade, shipping and the army. Slides, films, coins, other materials. Note: formerly a full-session course.

CLASS 260. *Greek and Latin Etymology.* ★3 (either term, 3-0-0). A study of Greek and Latin words commonly used in English; how these words are built, and how they gain and change in meanings.

74.12.10 DRAMA

DRAMA 243. *Introduction to Oral Communication.* ★3 (either term, 0-6L-0). Exercises in voice and speech improvement; elements of oral communication and interpretation. Note: Formerly part of DRAMA 241. Restricted to B.A. and B.Ed. Drama Majors. Note: Not open to students with credit in DRAMA 245.

DRAMA 245. *Introduction to and Development of Oral Communication.* ★6 (0-4L-0). Exploration of basic techniques of oral communications and oral interpretation drawing from various forms of literature. Note: Not open to students with credit in DRAMA 243, DRAMA 341, and former DRAMA 343.

DRAMA 251. *Improvisation.* ★3 (either term, 0-6L-0). Speech and movement improvisation with an emphasis on imaginative development; introduction to dramatic form.

DRAMA 253. *Improvisational Drama.* ★3 (either term, 0-6L-0). Developing a sense of dramatic form through improvisational and environmental techniques. Prerequisites: DRAMA 251 or DRAMA 250.

74.12.11 ECONOMICS

ECON 201. *Introduction to Micro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems and policies with emphasis on the Canadian economy; the roles of consumers and firms in competitive and monopolistic markets; foreign ownership in the Canadian economy; the distribution of income, inequality and poverty; the use of the environment; government economic policies. Prerequisites: Mathematics 20 or Mathematics 33 or consent of the Department.

ECON 202. *Introduction to Macro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems and policies with emphasis on the Canadian economy; national income and monetary

theory; problems of unemployment and inflation; government monetary and fiscal policies; international trade theory, problems and government policies. Prerequisites: Mathematics 20 or Mathematics 33 or consent of the Department.

74.12.12 ENGLISH

NOTE: English 200, 210, or any two 200-level single term courses (including English 290) serve as prerequisites to senior English courses. Senior English courses may not be taken without the necessary prerequisite(s) (including ENGL 305, 306 and 398). A MAXIMUM OF SIX CREDITS in literature at the 200 level may be accepted for credit in a B.Ed. program. English 288 will not serve as a prerequisite to senior English courses.

ENGL 200. *A Survey of English Literature from the Middle Ages to the Twentieth Century.* ★6 (3-0-0). A close study of representative masterpieces which demonstrate the development of the English literary tradition.

ENGL 210. *English Literary Forms.* ★6 (3-0-0). This course combines an introduction to the various genres of English literature (prose, poetry and drama) with formal instruction in writing skills. One-third of the course is devoted to writing instruction.

ENGL 215. *Introduction to the Study of Literature.* ★3 (either term, 3-0-0).A close reading of significant works of prose and poetry in English, to introduce the student to the most effective ways of understanding the various genres of English literature. Three essays will be required. Note: This course is prerequisite to ENGL 270, 275, 284 and 290. Formerly part of ENGL 260 and 265.

ENGL 270. *Readings in Poetry.* ★3 (either term, 3-0-0). A close study of selected modern and traditional verse to introduce the student to ways of approaching and critically evaluating poetry. Prerequisite: ENGL 215.

ENGL 275. *Readings in Prose.* ★3 (either term, 3-0-0). A close study of novels, short stories, essays, and other forms, both modern and traditional, to introduce the student to ways of approaching prose, and to assist the student in reading critically. Prerequisite: ENGL 215.

ENGL 284. *Canadian Literature in Process.* ★3 (either term, 3-0-0). An intensive reading of mainly contemporary Canadian novels, stories, poems, and plays, in English. Prerequisite: ENGL 215.

ENGL 288. *An Introduction to the English Language.* ★6 (3-0-0). A historical and structural study of the sounds, grammar, and vocabulary of English.

ENGL 290. *The Craft of Writing.* ★3 (Second Term, 3-0-0). A study of techniques of expository writing, intended to increase awareness of the resources of English prose, and to provide intensive practice in using these. Prerequisite: ENGL 215 and consent of the Department.

ENGL 305. *The Development of Children's Literature.* ★3 (either term, 3-0-0). A study of the history of children's literature, with works of representative writers. Note: Not to be taken by students having credit in ENGL 398.

ENGL 306. *Folklore in Children's Literature.* ★3 (either term, 3-0-0). A study of myths, folk-tales, legends and other oral materials drawn into English literature from a variety of cultural traditions. Note: Not to be taken by students having credit in ENGL 398.

ENGL 398. *Children's Literature.* ★6 (3-0-0). A historical and critical study of children's literature in English. It includes books written especially for children and books annexed from English literature by children. The course is divided into two parts: a study of myth and folklore drawn into English literature from various cultural traditions, and a study of works in English. Note:

74.12.13 ENTOMOLOGY

ENT 207. *Agricultural Entomology.* ★3 (either term, 3-0-3). Introdcution to insects and related anthropods emphasizing those aspects of their structure and life history responsible for some of them becoming pests and indicating those aspects towards which control measures can be directed. Principles of integrated control. Prerequisite: Biology 30 or BIOL 130 or equivalent recommended.

ENT 209. *Entomology for Non-Biologists.* ★3 (either term, 3-0-3). Comparisons of the structure, relationships, behavior and place in nature of insects and man. No prerequisite.

74.12.14 FOOD SCIENCE

FD SC 200. *Introduction to Food Science.* ★3 (either term, 3-0-0). Historical and philosophical aspects of food supplies and food processing. World food supply and utilization. Trends in the processing, preservation, handling and utilization of food. Food fads and fallacies. No prerequisite.

74.12.15 FOREST SCIENCE

FOR 200. *Introduction to Forestry.* ★3 (First Term, 3-0-0). A review of the field of forestry and integrated-use forest management including historical development of forestry and logging, wood products, silviculture and reforestation, forest enemies — fire, insects and diseases, forest land uses, conservation and management. Not available for credit to B.Sc. Forestry students.

74.12.16 FRENCH

FREN 201. *First Year University French for Teachers.* ★6 (3-0-2). Designed to teach future teachers of French to speak and to write the language. Three hours of grammar and two hours of audio / visual learning per week. Prerequisite: French 30 or equivalent. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 220 and 222, or CA FR 220 or 222.

FREN 202. *Intermediate First Year University French.* ★6 (3-0-1). Designed for students having French 31 and Francophone students. Prerequisite: French 31 or equivalent. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean FRANC 220 or 222, or CA FR 220 or 222.

FREN 230. *Advanced First Year University French.* ★6 (3-0-2). Designed for Honors students. Students having French 31 and Francophone students require the consent of the Department.

74.12.17 GEOGRAPHY

NOTE: Geography 230 and 231 do not have to be taken in sequence. They are completely separate courses. Either one may be taken without the other, and Geography 231 can be taken before Geography 230.

GEOG 230. *Introductory Physical Geography I.* ★3 (either term, 3-0-2). Introduction to geomorphology; the nature and formation of major landform features of the earth's surface. Rock weathering and slope movements. Landforms developed by erosional and depositional processes of rivers, glaciers, winds, waves and currents. A field trip in the Edmonton area may be offered. Laboratory work required.

GEOG 231. *Introductory Physical Geography II.* ★3 (either term, 3-0-2). Introduction to the atmosphere and biosphere. Physical elements of weather and climate. Causes, changes and patterns of weather. Climatic classification. Spatial and dynamic interrelations of climate, soils and vegetation. Laboratory work required. Note: GEOG 230 does not have to precede GEOG 231.

GEOG 250. *Spatial Organization of Human Activity.* ★3 (either term, 3-0-0). The search for order in man's occupation of the earth and of his distribution across it; maps as techniques for understanding reality.

GEOG 251. *Introduction to Cultural Geography.* ★3 (either term, 3-0-0). The significance of human distribution on the earth. Man's relation to the physical environment; world population problems; cultural patterns in the world.

74.12.18 GEOLOGY

GEOL 202. *Physical Geology.* ★3 (First Term, 3-0-3). Internal structure and composition of the earth; continents and oceans; minerals and rocks; ground water and water supply; erosion, transportation and deposition of sediments; igneous activity and metamorphism; mountain building; plate tectonics. Not available to students with credit in GEOL 301 or 390.

GEOL 203. *Earth History.* ★3 (Second Term, 3-0-3). Geological time; fossils, evolution of the principal groups and man; use of fossils in historical geology; paleography; historical geology; continental drift and polar wandering. Prerequisite: GEOL 202.

GEOL 301. *Earth Science I.* ★3 (First Term, 3-0-0). The nature, origin and evolution of the universe and of planetary systems; the physical properties of the earth and of its environment; the materials and structures of the earth's interior and surface and the processes affecting these regions, such as conti-

nental drift, the formation of ocean basins and mountain building. Note: Not available to students who have taken GEOL 202 or 390.

GEOL 306. *The Succession of Life through Geological Time.* ★3 (Second Term, 3-0-0). The nature of the primitive earth and the origin of self-replicating molecules; the earth environment and its influence on the development of life; modification of the early environment by developing life forms; the nature of the fossil record; the sequence of development and interrelationships of the major animal and plant groups. Not available to students with credit in GEOL 203 or 302.

74.12.19 GERMAN

GERM 100. *Conversational German for Beginners.* ★6 (3-0-2). Designed to lead to mastery of spoken and written German, with strong emphasis on the development of oral communication skills. Not open to students with credit in German 30, GERM 101, or GERM 102.

GERM 101. *Intensive Beginners' German.* ★6 (3-0-2). Designed to develop practical skill in spoken and written German with special emphasis on the acquisition of an extensive vocabulary. Note: Especially for prospective Honors students, students with a concentration in German and students with some previous knowledge of German. Admission only with the consent of the Department.

GERM 102. *Reading German for Beginners.* ★6 (3-0-1). Designed to develop skill in written and spoken German, with strong emphasis on reading and listening comprehension. Note: Not open to students with credit in German 30, GERM 100, or GERM 101.

GERM 200. *First Year University German.* ★6 (3-0-2). Designed to develop ability in speaking, reading and writing German, using modern short stories, cultural readers and audio-visual aids. Prerequisite: German 30, GERM 100, or the equivalent.

GERM 201. *Intensive First Year University German.* ★6 (3-0-2). Designed to develop ability in speaking, reading and writing German with special emphasis on the written skill. Prerequisite: German 30 or GERM 100 or 101 and consent of the Department. Note: Especially for prospective Honors students, students with a concentration in German and for students of native background in German who need special training in grammar and writing.

GERM 202. *Intermediate German.* ★6 (3-0-0). Designed to improve skill in reading and listening comprehension. Texts will exemplify German contributions to European intellectual life. Prerequisite: German 30, GERM 100, 101, 102, or the equivalent.

GERM 306. *German/English Contrast Phonology.* ★3 (First Term, 3-0-0). Phonetic and phonemic analysis of English and German. Contrastive study includes application to teaching and learning German. Prerequisites: GERM 200, 201, 202 or consent of the Department. Note: Formerly part of GERM 300.

GERM 307. *German/English Contrastive Grammar.* ★3 (Second Term, 3-0-0). Comparison of parts of the two grammars namely the verb, including application to teaching and learning German. Prerequisites: GERM 200, 201, 202 or consent of the Department. Note: Formerly part of GERM 300.

GERM 321. *German Prose in English Translation.* ★3 (First Term, 3-0-0). Analyses of great novels and novellas in English translation from the eighteenth century to contemporary times.

GERM 322. *German Drama in English Translation.* ★3 (Second Term, 3-0-0) Analyses of great dramas in English translation from the eighteen century to contemporary times.

74.12.20 HISTORY

HIST 200. *European History.* ★6 (3-1s-0). The evolution of European society from the decline of the Roman Empire in the West to the present.

HIST 201. *European History Since the Renaissance.* ★6 (3-0-0).

HIST 202. *Introduction to Medieval Europe.* ★6 (3-0-0). Europe from the Fall of Rome to the Renaissance.

HIST 278. *An Introduction to the Study of Canadian History 1500-1867.* ★3 (First Term, 3-0-0). Designed to provide a foundation for senior and advanced courses in Canadian history.

HIST 279. *An Introduction to the Study of Canadian History 1867-1967.* ★3 (Second Term, 3-0-0). Designed to provide a foundation for senior and advanced courses in Canadian history.

HIST 280. *Asia to 1500.* ★3 (either term, 3-0-0). A survey of the history of Asia to the beginning of the sixteenth century.

HIST 281. *Asia from 1500.* ★3 (either term, 3-0-0). A survey of the history of Asia from the sixteenth century. Prerequisite: HIST 280 or consent of the Department.

74.12.21 HOME ECONOMICS

CL TX 200. *Design in Everyday Living.* ★3 (either term, 3-0-3). An introductory course in design to develop visual awareness. The functional components in our physical environment and their aesthetic qualities are evaluated through problem solving.

CL TX 203. *Clothing Construction and Flat Pattern Design.* ★3 (either term, 2-0-4). Interrelationships of the principles of flat pattern, pattern adjustments and garment fitting. Application of construction principles to design details and fabric characteristics.

CL TX 307. *Experimental Techniques in Clothing Construction.* ★3 (Second Term, 3-0-3). Analysis and modifications of construction techniques in relation to prescribed standards. Study and experimentation in handling fabrics which require special techniques. Prerequisite: CL TX 203 or advanced placement and CL TX 309.

FAM 340. *Management of Family Resources.* ★3 (Second Term, 3-0-1.5). Introduction to the principles of management as applied to the use of family resources.

FAM 350. *Family in Transition.* ★3 (First Term, 3-0-0). An introduction to the study of the family through the issues which surround the family and marriage in contemporary society. Reference to research studies and to historical data will provide the basis of the course. FAM 350 and SOC 371 may not both be taken for credit.

FD NU 222. *Current Topics in Human Nutrition and Foods.* ★3 (First Term, 3-0-0). An introductory course. Selected problems in community nutrition in developed and developing countries. Prerequisite: Chemistry 30 or consent of the instructor. Note: This course is not open to students who have credit in FD NU 325, 327, 464, 465.

74.12.22 LATIN

LATIN 100. *Beginners' Latin.* ★6 (4-0-1). Essentials of grammar, syntax, the reading of easy Latin and prose composition. Secondary emphasis on the connexion of English with Latin.

LATIN 200. *Latin Authors.* ★6 (3-0-0). Practice in the reading of Latin and in the writing of simple Latin sentences. Note: For students with matriculation in Latin 30 or with LATIN 100.

74.12.23 MATHEMATICS

MATH 101. *Trigonometry.* ★0 (First Term, 2-0-0). This course consists of the trigonometry material contained in MATH 100 and is offered in the Winter Session. Prerequisite: Mathematics 20 or equivalent. Note: This course cannot be taken for credit towards a degree.

MATH 202. *Elementary Calculus I.* ★3 (First Term, 3-0-1). Review of analytic geometry, differentation and integration of simple functions, applications. Prerequisite: Mathematics 30 or equivalent. Note: Prerequisite: Those students who have no knowledge of trigonometry are required to take MATH 101 concurrently. This course may not be taken for credit if credit has already been obtained in any of MATH 203, 207, 212, or 245.

MATH 203. *Elementary Calculus I.* ★3 (either term, 3-0-0). This course description is the same as for MATH 202. Prerequisite: Mathematics 30, Mathematics 31, (calculus sequence), or equivalent. Students with low grades in high school calculus should take MATH 202. Note: This course may not be taken for credit if credit has been obtained already in any of MATH 202, 207, 212 or 245.

MATH 204. *Elementary Calculus II.* ★3 (either term, 3-0-0). Differentiation and integration of trigonometric, exponential and logarithmic functions. Indeterminate forms and improper integrals. Techniques of integration. Applications. Prerequisite: MATH 202 or 203, or 245 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in either of MATH 208 or 213.

MATH 221. *Linear Algebra I.* ★3 (either term, 3-0-0). Solving linear equations, matrix algebra, determinants, n-space, linear programming. Prerequisite: Mathematics 30 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in any of MATH 243, 274, 278, 281 or 312.

MATH 222. *Linear Algebra II.* ★3 (either term, 3-0-0). Bases, linear transformations, change of bases, eigenvectors, Markov processes. Prerequisite: MATH 221, 278 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in MATH 378 or MATH 381.

MATH 261. *Foundations of Mathematics I.* ★3 (either term, 3-0-0). Axiomatic treatment of mathematical systems. Groups, rings and fields. Elementary logic and methods of proof. Prerequisite: Mathematics 30. This course is primarily for students of Elementary Education who have not chosen mathematics as an area of concentration. It may not be taken for credit by Arts and Science students.

MATH 262. *Foundations of Mathematics II.* ★3 (either term, 3-0-0). Introduction to set theory. Cartesian products, relations, and functions. Applications to elementary algebra, combinatories, and topology. Classical and modern views of geometry with applications. Prerequisite: MATH 261.

74.12.24 MOVEMENT EDUCATION

MOV 201. *Introduction to the Movement Activities of Children Aged 0-8.* ★3 (either term, 0-6L-0). A study of play and other movement activities including games, gymnastics and dance for children.

MOV 202. *Introduction to the Movement Activities of Children Aged 8-12.* ★3 (either term, 0-6L-0). A study of games, gymnastics, dance and other movement activities for children.

MOV 244. *Introduction to the Movement Activities of Youth, Part I* ★3 (First Term, 0-3L-0). A study of a wide range of physical activities and the related underlying concepts.

MOV 245. *Introduction to the Movement Activities of Youth, Part II* ★3 (Second Term, 0-3L-0). A continued study of physical activities and the related underlying concepts. Prerequisite: MOV 244.

MOV 301. *Motor Development and Motor Learning.* ★3 (either term, 3-0-0). Lecture course focusing on important relationships between human physical growth and development, and environmental factors that influence the acquisition of motor skills.

MOV 321. *Structure and Strategy of Games.* ★3 (First Term, 0-3L-0). A study of games, their classification with regard to skills, rules and strategies through practical and theoretical experiences.

MOV 325. *Introduction to the Scientific Basis of Human Movement.* ★3 (either term, 3-0-0). Lecture course with emphasis on introductory knowledge and practical implications of the structural and functional characteristics and capacities of the human body with respect to movement.

MOV 327. *Creative Dance.* ★3 (either term, 0-3L-0). A study of the application of Laban's principles of movement in dance. The individual's understanding of these principles is extended through personal performance.

MOV 351. *Educational Gymnastics.* ★3 (either term, 0-3L-0). Gymnastics themes are studied and used to develop efficient movement through practical work in individual work in individual and group situations.

Curriculum and Instruction Courses see § 74.6.

74.12.25 MUSIC

MUSIC 200. *Rudiments of Music.* ★3 (either term, 3-0-0). Fundamentals of music theory approached through aural and written training.

MUSIC 206. *Introduction to Music I.* ★3 (First Term, 3-0-0). Definition of terms; forms and styles in music from Baroque through Classical periods. Listening and recorded examples. Note: Open to all students not eligible for MUSIC 202, 203, 301, 304 or 402.

MUSIC 207. *Introduction to Music II.* ★3 (Second Term, 3-0-0). The Romantic period to the present. Familiarity with the concert repertoire. Note: Open to all students not eligible for MUSIC 202, 203, 301, or 402.

MUSIC 209. *Woodwind Techniques I.* ★3 (First Term, 3-0-0). Practical and theoretical instruction on clarinet. Prerequisite: Ability to read music. Note: Students with credit in MUSIC 311 may not offer 209 for credit.

MUSIC 210. *Foundations of Music.* ★6 (0-5L-0). The development of a musical repertoire and knowledge of basic content appropriate for teachers. Note: Limited to students in the Faculty of Education, not eligible for admission to MUSIC 301 and 304.

MUSIC 216. *Brass Techniques I.* ★3 (First Term, 3-0-0). Practical and theoretical instruction on trumpet. Prerequisite: Ability to read music. Note: Students with credit in MUSIC 311 may not offer 216 for credit.

MUSIC 218. *String Techniques I.* ★3 (First Term, 3-0-0). Practical and theoretical instruction on violin and viola. Prerequisite: Ability to read music. Note: Students with credit in MUSIC 311 may not offer 218 for credit.

MUSIC 220. *Percussion Techniques.* ★3 (First Term, 3-0-0). Practical and theoretical instruction on percussion instruments. Prerequisite: Ability to read music. Note: Students with credit in MUSIC 311 may not offer 220 for credit.

MUSIC 250. *Elementary Harmony.* ★3 (0-3L-0). Diatonic harmony, including secondary sevenths. Modulation. Use of unessential notes of all kinds. Harmonizing of chorales in the style of Bach. Prerequisite: MUSIC 200 or satisfactory completion of Department of Music Theory Placement and Aural Skills Examinations for other than B.Mus. students. Note: A single-term course offered over the full session. Note: Formerly a full-session course.

MUSIC 251. *Elementary Aural Skills.* ★3 (0-3L-0). The aural perception of materials covered in MUSIC 250. Prerequisite: MUSIC 200 or satisfactory completion of the Department of Music Theory Placement and Aural Skills Examinations for other than B.Mus. students. Note: A single-term course offered over the full-session. Note: Formerly part of MUSIC 250.

THE ABILITY TO READ MUSIC IS REQUIRED FOR ALL COURSES LISTED BELOW.

MUSIC 310. *Woodwind Techniques II.* ★3 (Second Term, 3-0-0). Practical and theoretical instruction on woodwind instruments. Note: Students with credit in MUSIC 311 may not offer 310 for credit. Prerequisite: MUSIC 209 or proficiency examination.

MUSIC 311. *Instrumental Techniques.* ★6 (0-6L-0). Practical and theoretical instruction on the instruments of the band and orchestra. Note: Students with credit in one or more of MUSIC 209, 216, 218, 220, 310, 317, 319 may not offer MUSIC 311 for credit.

MUSIC 317. *Brass Techniques II.* ★3 (Second Term, 3-0-0). Practical and theoretical instruction on brass instruments. Prerequisite: MUSIC 216 or proficiency examination. Note: Students with credit in MUSIC 311 may not offer 317 for credit.

MUSIC 319. *String Techniques II.* ★3 (Second Term, 3-0-0). Practical and theoretical instruction on cello and string bass. Prerequisite: MUSIC 218 or proficiency examination. Note: Students with credit in MUSIC 311 may not offer 319 for credit.

74.12.26 PHYSICAL EDUCATION

The following courses are open to Education students:

DANCE 270. *Introduction to Modern Dance.* ★3 (either term, 3-0-0).

DANCE 275. *Dance Forms.* ★3 (either term, 3-0-0).

P ED 211. *Introduction to Basketball.* ★3 (either term, 3-0-0).

P ED 212. *Introduction to Field Hockey.* ★3 (either term, 3-0-0).

P ED 213. *Introduction to Football.* ★3 (First Term, 3-0-0).

P ED 214. *Introduction to Ice Hockey.* ★3 (either term, 3-0-0).

P ED 215. *Introduction to Soccer.* ★3 (First Term, 3-0-0).

P ED 216. *Introduction to Volleyball.* ★3 (either term, 3-0-0).

P ED 224. *Introduction to Wrestling.* ★3 (either term, 3-0-0).

P ED 225. *Introduction to Gymnastics.* ★3 (either term, 3-0-0).

P ED 227. *Introduction to Aquatics.* ★3 (either term, 3-0-0).

P ED 228. *Introduction to Track and Field I.* ★3 (First Term, 3-0-0).

P ED 229. *Introduction to Track and Field II.* ★3 (Second Term, 3-0-0).

74.12.27 PHYSICS

PH SC 341. *Physical Science.* ★6 (3-0-0). A course designed to give non-science students some appreciation of fundamental ideas and methods in the physical sciences, their history and development, modern trends in these fields, and their relation to other disciplines. Illustrative material will be taken from Physics, Chemistry, Astronomy, and Geology.

PHYS 203. *Introductory General Physics I (Mechanics).* ★ (First Term, 4-1s-3). A non calculus course in physics for students without Physics 30. Vectors, forces in equilibrium, linear and rotational motion, dynamics of particles

oscillations. Prerequisite: Mathematics 30. The course is intended to be taken in sequence with PHYS 207 and/or 209. Credit may be obtained for only one of PHYS 203, 205 or 212.

PHYS 205. *Introductory General Physics I. (Mechanics).* ★3 (First Term, 3-0-3). Course contents same as PHYS 203 but designed for students who have taken Physics 30. Prerequisite: Mathematics 30, Physics 30. Credit may be obtained for only one of PHYS 203, 205 or 212.

PHYS 207. *Introductory General Physics II (Matter, Sound, Heat and Optics).* ★3 (Second Term, 3-0-3/2). Properties of gases, liquids and solids, wave motion and sound, heat, and thermodynamics, geometrical and physical optics. Prerequisite: PHYS 203 or 205. Credit may not be obtained for both PHYS 207 and 212.

PHYS 209. *Introductory General Physics III (Electricity, Magnetism and Atoms).* ★3 (Second Term, 3-0-3/2). The nature of electricity and magnetism, AC currents, electromagnetic waves, atomic and nuclear structure. Prerequisite: PHYS 203 or 205. Credit may not be obtained for both PHYS 209 and 212.

PHYS 212. *Basic General Physics.* ★6 (3-0-3). Physics 212 utilizes some calculus. Topics include mechanical, thermal, electromagnetic and optical properties of matter; the forms and transformations of energy; introduction to the atomic theories of modern physics. Prerequisites: Physics 30; Mathematics 30. Corequisites: MATH 202, 204. Credit may be obtained for only one of PHYS 203, 205 or 212.

PHYS 242. *Mechanics, Electricity and Magnetism.* ★6 (3-1s-3). Kinematics; particle dynamics; work and energy; linear momentum; gravitation; oscillations; charge; electric field; Gauss's law; electric potential; capacitance; currents and resistance; EMF and DC circuits; magnetic field; Ampere's law; Faraday's law; inductance. Prerequisites: Physics 30, Mathematics 30. Corequisite: MATH 202(203)/204.

PHYS 269. *The Physics of Music and High-Fidelity.* ★3 (Second Term, 3-0-0). Waves and sound, complex waves and musical instruments, the nature of music, decibels, loudspeakers, electricity and amplifiers, heat production, electromagnetic waves and tuners, electromagnetism and cartridges, records and tape decks. Note: Credit may be obtained in only one of PHYS 269 or 369.

PHYS 301. *Quantum Aspects of Modern Physics.* ★3 (First Term, 3-0-3/2). Experimental evidence leading to the development of quantum mechanics including the photo-electric effect, the Compton effect, Xray production and electron diffraction. A discussion of the Heisenberg uncertainty principle and the Schrodinger theory of quantum mechanics including applications of one dimensional potential wells and barriers, tunnelling, the simple harmonic oscillator. Prerequisite: First year physics course(s) (two-term); MATH 204.

PHYS 303. *Relativistic Aspects of Modern Physics.* ★3 (Second Term, 3-0-0). Topics included are limitations of classical physics; Einstein's special theory; length contraction; time dilation; twin paradox; equivalance of mass and energy; relativistic mass and momentum. The General Theory of Relativity including deflection of light, black holes, models of the universe and curvature of space. Prerequisite: First year physics course(s) (two-term).

PHYS 304. *Revolutions in Physics.* ★6 (3-0-0). Discussion of the way scientists were forced to change their concepts that caused the major revolutions in physics and the accompanying reverberations in the non-scientific world. Illustrations from celestial motion, Newtonian synthesis, theory of relativity, the probabilistic nature of quantum mechanics. Prerequisite: First year physics course(s) (two-term).

PHYS 313. *Thermal Physics with Biological Applications.* ★3 (First Term, 3-0-0). Applications of elementary probability to biopolymers, solute flow and diffusion across membranes. Thermal equilibrium. Ideal gas. Simple crystals. Entropy and the Second Law of Thermodynamics. Free energies. Applications to solutions of organic molecules in simple liquids, DNA replication and oxygen in haemoglobin. Prerequisite: First year physics course(s) (two-term); MATH 204.

PHYS 342. *Contemporary Physics.* ★6 (3-0-0). A largely non-mathematical course aimed at providing non-science students with a basic framework of fundamental laws upon which the technology of modern life is based. Currently important topics such as conventional and nuclear energy production, resources and hazards will be discussed. Modern technological applications (e.g., lasers, computers, satellites, communication, transistors) are included. Additional topics will depend on student interest.

PHYS 361. *Physics of the Energy Question.* ★3 (First Term, 3-0-0). Energy in its various forms. Energy conversion. Nuclear fission and fusion. Nuclear power, its advantages and limitations. Heat engines, refrigerators and their efficiencies. Electric power generation. Earth's energy balance, thermal pollution. Growth of the world's population and energy consumption. Energy sources, transient and continuous (solar energy). Technology of energy use. Energy conservation and the economics of energy use. Prerequisite: First year physics course(s) (two-term).

PHYS 363. *Applications of Physics to Environmental Problems.* ★3 (Second Term, 3-0-0). Radiation and climate. Body heat balance and energy exchange. Space heating. Interaction of radiation with matter. Environmental and human health impacts of power production. Noise. Air pollution. Transportation, the automobile and mass transportation. Technology and applications of solar energy. Prerequisite: First year physics course(s) (two-term).

PHYS 369. *Physical Aspects of Music and High Fidelity.* ★3 (Second Term, 3-0-3). A lecture and lab course designed to illustrate the concepts of waves, sound, electricity and magnetism as applied to musical instruments, amplifiers, tuners, records and tape decks. Note: Credit may be obtained in only one of PHYS 369 or 269.

PHYS 401. *Nuclear Physics and Elementary Particles.* ★3 (Second Term, 3-0-3/2). Topics include the properties and structure of the nucleus; radioactivity, carbon dating, tracer techniques; nuclear fission; fusion; nuclear reactors; elementary particles and particle accelerators. Prerequisite: PHYS 301.

PHYS 403. *Atomic, Molecular and Solid State Physics.* ★3 (Second Term, 3-0-3/2). Topics in atomic physics: Thomson's and Rutherford's model of the atom, experimental aspects of atomic spectra, the Bohr model, atomic structure based on the Schrodinger wave equation, electron spin, the Pauli exclusion principle and characteristic Xray spectra. Topics in molecular physics: a discussion of bonding in molecules and the basis for understanding molecular structure from both the experimental and theoretical points of view. Topics in solid state physics: elementary statistical mechanics, properties of metals, insulators, semi-conductors; specific heat and magnetic properties of solids; superconductivity. Prerequisite: PHYS 301.

74.12.28 PLANT SCIENCE

PL SC 215. *Introductory Plant Science.* ★3 (Second Term, 3-0-0). Climatic, soil and biological factors in relation to growth of native and crop plants. Their regional adaptability, distribution and production. Principles of crop protection and management.

INT D 230. *Practical Plant Biology.* ★3 (First Term, 3-0-3). The practical aspects of plant structure and classification. Laboratory exercises will emphasize crop plants. Prerequisite: Biology 30 or BIOL 130. (Offered jointly by the Department of Botany and Plant Science.) [Plant Science.]

74.12.29 POLITICAL SCIENCE

POL S 201. *Introduction to Government.* ★3 (either term, 3-0-0). An introduction to the institutions of Canadian and other democratic governments, considering constitutions, legislatures, executives, the public service, courts, federal and other divisions of government authority and other selected topics. Formerly part of POL S 200

POL S 202. *Introduction to Politics.* ★3 (either term, 3-0-0). An introduction to the process of democratic politics considering power, or influence, democracy, civil liberties, and rights, political ideology, public opinion, elections, political parties, interest groups and other selected topics. Note: Formerly part of POL S 200.

74.12.30 RELIGIOUS STUDIES

RELIG 200. *Introduction to the Study of Religion.* ★6 (3-0-0). The origin and development of the history of religions as a separate academic discipline. Principles and methods of this discipline. Some account of the major living religions in their history and distinctive features.

74.12.31 ROMANCE LINGUISTICS

R LIN 372. *French Phonetics.* ★3 (either term, 3-0-0). An introduction to French phonetics focusing on the recognition and elimination of pronunciation difficulties for English speakers. Francophone students require permission to take this course. Note: Not open for credit to students having credit or registered in Faculté Saint-Jean LIN R 320.

74.12.32 RUSSIAN

RUSS 100. *Beginners' Russian* (Arts Section). ★6 (3-0-2). Essentials of grammar, reading, and drill on useful expressions. Designed to give a working knowledge of the Russian language.

74.12.33 SOCIOLOGY

SOC 202. *Introductory Sociology.* ★6 (3-0-0). An analysis of the nature of society, the interrelationships of its component groups, and the processes whereby society persists and changes. Society is analysed in terms of its structure, culture and social ranking schemes. The interrelationships between the various institutions (e.g., family, church, school, government). The processes whereby the individual is socialized into society; the sources of conformist and non-conformist behavior. Note: Third year or more advanced students are encouraged to take SOC 403 rather than 202.

74.12.34 SOIL SCIENCE

SOILS 302. *Principles of Soil Science.* ★3 (First Term, 3-0-0). An introduction to soil components and their properties. Concepts of soil dynamics in different ecological systems. Formations and classification of major soil groups of Canada and the world. A review of world soil resources. Primarily designed for students in faculties other than Agriculture and Forestry.

74.12.35 UKRAINIAN

UKR 200. *First Year University Ukrainian.* ★6 (3-0-1). A brief review of phonology, an intensive study of grammar. Readings of selected texts from modern Ukrainian literature, and elementary composition supplemented by laboratory work in conversational Ukrainian. Designed for students having some previous knowledge of Ukrainian. Prererquisite: Ukrainian 30 or the consent of the Department.

Faculty of Engineering

81 INTRODUCTORY

81.1 Members of the Faculty

81.1.1 OFFICERS OF THE FACULTY

Professor and Dean
P. F. G. ADAMS, Ph.D., P.Eng.

Associate Deans
T. M. HRUDEY, Ph.D., P.Eng.
C. E. CAPJACK, Ph.D., P.Eng.

81.1.2 DEPARTMENT OF CHEMICAL ENGINEERING

Professor and Chairman
F. D. OTTO, Ph.D., P.Eng.

Professors
I. G. DALLA LANA, Ph.D., P.Eng.
D. G. FISHER, Ph.D., P.Eng.
J. H. MASLIYAH, Ph.D., P.Eng.
A. E. MATHER, Ph.D.
W. NADER, Dr. Phil.
D. B. ROBINSON, Ph.D., P.Eng.
J. T. RYAN, Ph.D.
S. E. WANKE, Ph.D., P. Eng.
R. K. WOOD, Ph.D.

Associate Professors
C. KIPARISSIDES, Ph.D.
S. L. SHAH, Ph.D.

Assistant Professor
D. T. LYNCH, B.Sc.

81.1.3 DEPARTMENT OF CIVIL ENGINEERING

Professor and Chairman
J. P. VERSCHUREN, Ph.D., P.Eng.

Professors
P. F. G. ADAMS, Ph.D., P.Eng.
K. O. ANDERSON, M.Sc., P.Eng.
I. J. BAKKER, M.S.C.E., P.Eng.
R. BJORHOVDE, Dr. Ing., Ph.D., P.Eng.
P. H. BOUTHILLIER, S. M., P.Eng.
D. M. CRUDEN, Ph.D., P. Geol.,
(Joint Appointment with Geology)
E. EISENSTEIN, Ph.D., P.Eng.
E. L. FOWLER, M.Sc., P.Eng.
I. GERARD, Ph.D., P.Eng.
T. M. HRUDEY, Ph.D., P.Eng.
B. L. KULAK, Ph.D., P.Eng.
. LONGWORTH, M.Sc., P.Eng.
. G. MacGREGOR, Ph.D., P.Eng.
. R. MORGENSTERN, Ph.D., P.Eng., F.R.S.C.
. W. MURRAY, Ph.D., P.Eng.
. W. PETERSON, M.Sc., P.Eng.
. RAJARATNAM, Ph.D., P.Eng.
. D. SCOTT, Ph.D., P. Eng., (AOSTRA Professor)
. H. SIMMONDS, Ph.D., P.Eng.
. W. SMITH, Ph.D., P. Eng., P.E.
. TEPLY, Dip. Ing., P.Eng.
. THOMSON, Ph.D., P.Eng.
WARWARUK, Ph.D., P.Eng.

Associate Professors
S. E. HRUDEY, Ph.D., P.Eng.
P. K. KAISER, Ph.D., P. Eng.
C. J. MONTGOMERY, Ph.D., P.Eng.
D. C. SEGO, Ph.D., P. Eng.
G. T. WORMSBECKER, B.Sc., P.Eng.

81.1.4 DEPARTMENT OF ELECTRICAL ENGINEERING

Professor and Chairman
C. R. JAMES, Ph.D., P.Eng.

University Professor
G. B. WALKER, Ph.D., P.Eng.

Professors
K. E. BOLLINGER, M.Sc., (Electric Utilities Professor of Power Engineering)
C. E. CAPJACK, Ph.D., P.Eng.
G. S. CHRISTENSEN, Ph.D., P.Eng.
F. S. CHUTE, Ph.D., P.Eng.
P. A. GOUD, Ph.D., P.Eng.
V. GOURISHANKAR, Ph.D., P.Eng.
P. J. R. HARDING, M.A.Sc., P.Eng.
D. H. KELLY, Ph.D., P.Eng.
Y. J. KINGMA, Ir., P.Eng.
R. P. W. LAWSON, Ph.D., P. Eng.
A. A. OFFENBERGER, Ph.D.
R. E. RINK, Ph.D., P.Eng.
A. M. ROBINSON, Ph.D.
H. G. SCHMIDT-WEINMAR, Ph.D.
H. J. J. SEGUIN, Ph.D.
P. R. SMY, Ph.D., D.Sc., P.Eng.
K. A. STROMSMOE, Ph.D., P.Eng.
J. TULIP, Ph.D.
F. E. VERMEULEN, Ph.D., P.Eng.
W. A. G. VOSS, Ph.D., P.Eng., C.Eng.

Associate Professors
C. G. ENGLEFIELD, Ph.D.
R. W. KING, B.Sc., P.Eng.
D. O. KOVAL, Ph.D.
D. ROUTLEDGE, Ph.D., P.Eng.
W. R. TINGA, Ph.D., P.Eng.
J. F. VANELDIK, Ph.D., P.Eng.

81.1.5 DEPARTMENT OF MECHANICAL ENGINEERING

Professor and Chairman
D. G. BELLOW, Ph.D., P.Eng.

Professors
K. C. CHENG, Ph.D.
J. R. COLBOURNE, Ph.D., P.Eng.
A. CRAGGS, Ph.D., P.Eng.
J. D. DALE, Ph.D., P. Eng.
M. G. FAULKNER, Ph.D., P.Eng.
G. FORD, Ph.D., P.Eng
R. R. GILPIN, Ph.D., P.Eng.
J. B. HADDOW, Ph.D.
J. S. KENNEDY, Ph.D., P.Eng.
G. S. H. LOCK, Ph.D., P.Eng.
D. J. MARSDEN, Ph.D., P.Eng.
C. M. RODKIEWICZ, Ph.D., P.Eng.
G. W. SADLER, M.Sc., P.Eng.

J. C. SPRAGUE, Ph.D., P.Eng.
D. J. WILSON, Ph.D., P.Eng.

Associate Professors
D. R. BUDNEY, Ph.D., P. Eng.
T. W. FOREST, Ph.D., P.Eng.
E. M. GATES, Ph.D.
A. MIODUCHOWSKI, Ph.D., P.Eng.
J. D. WHITTAKER, Ph.D., P.Eng.

81.1.6 DEPARTMENT OF MINERAL ENGINEERING

Professor and Chairman
D. L. FLOCK, Ph.D., P. Eng.

Professors
N. BERKOWITZ, Ph.D., P.Eng.
S. A. BRADFORD, Ph.D., P.Eng.
P. M. DRANCHUK, M.Sc., P.Eng.
S. M. FAROUQ ALI, Ph.D., P. Eng.
T. S. GOLOSINSKI, Ph.D., P. Eng.
M. JEREMIC, Dr. Ing. P.Eng., P. Geol.
B. M. PATCHETT, Ph.D., P.Eng.
(NOVA Professor of Welding Engineering)
L. R. PLITT, M.Sc., P.Eng.
F. H. VITOVEC, Dr. Tech. Sci., P. Eng.
M. L. WAYMAN, Ph.D.

Associate Professors
R. G. BENTSEN, Ph.D.
M. B. DUSSEAULT, Ph.D., P.Eng. (AOSTRA Professor)
T. H. ETSELL, Ph.D.
B. STIMPSON, Ph.D., P.Eng.

Assistant Professor
B C. FLINTOFF, M.Sc.

81.1.7 SESSIONAL LECTURER IN ENGINEERING

B. R. TOUCHINGS, LL.B.

81.1.8 ADDITIONAL MEMBERS OF FACULTY COUNCIL

President and Vice-Chancellor
M. HOROWITZ, Ed.D.

Professors
A. Z. CAPRI, Ph.D. (Physics)
W. A. DAVIS, Ph.D. (Computing Science)
K. W. DOMIER, Ph.D., P.Eng. (Agricultural Engineering) (Alternate)
L. H. ERBE, Ph.D. (Mathematics) (Alternate)
B. T. STEPHANSON, M.Sc., P.Eng. (Agricultural Engineering)
J. TARTAR, Ph.D. (Computing Science) (Alternate)
J. TIMOURIAN, Ph.D. (Mathematics)

Associate Professors
D. W. GILLEN, Ph.D., (Economics)
J. S. MARTIN, Ph.D. (Chemistry)
R. W. MAY, Ph.D., P. Geol. (Geology)

Assistant Professor
B. J. MITCHELL, Ph.D. (English)

Representatives
(The Association of Professional Engineers, Geologists and Geophysicists of Alberta)
W. R. CHERITON, B.E., B.A.Sc., P.Eng. (Alternate)
H. L. MORRISON, B.Sc., P.Eng.

Representatives from Engineering Students
D. L. COUTTS
J. A. LEGGE
R. K. MacDOUGALL

Registrar of the University
W. A. BLANCHARD, Ph.D.

81.1.9 STUDENT WORK EXPERIENCE PROGRAM

Director
P. G. KUSHNIR

82 FACULTY REGULATIONS

82.1 Admission and Registration

The general admission requirements, application procedure, registration procedure and fee schedule are set out in § § 13, 14 and 15 of the University Regulations and Information for Students Calendar. Students wishing to enter the Faculty of Engineering with advance standing including students returning to the faculty, must submit their application and all documents by June 15.

Upon notification of acceptance, successful applicants will be required to confirm their intention to register by submitting a non-refundable $50.00 deposit within a specified time. The deposit will be credited toward payment of tuition upon completion of registration.

Specific regulations pertaining to the admission of students to the Faculty of Engineering are included here for both Canadian and foreign students. Students who completed the bulk of their final year of high school two or more years prior to making application for admission are required to consult with the Dean and the Student Counselling Services by June 30.

The admission requirements are:

1. *Applicants from Alberta High Schools*

Applicants for admission from the high schools of Alberta must normally possess a High School Diploma, a minimum grade of at least 50% and an overall average of at least 60% in the following subjects: English 30, Mathematics 30, Physics 30, Chemistry 30 and one other matriculation subject (preferably Mathematics 31).

A student lacking either Physics 30 or Chemistry 30 may be considered for admission at the discretion of the Dean. In such cases program adjustments may be necessary.

2. *Applicants from other Provinces and Territories of Canada*

A student from another province who has clear senior matriculation and would be acceptable in a similar program in that province may be considered for admission at The University of Alberta.

3. *Applicants from outside Canada*

Admission requirements for students presenting other than Canadian admission qualifications are outlined in § 13.23 of the University Regulations.

Applications for admission from non-Canadian students must be received, fully completed, by the Office of the Registrar not later than June 1, 1981.

4. *English Language Proficiency*

In addition to the English requirements included above and regardless of country of origin or citizenship status, applicants will be required to demonstrate

proficiency in the English language as a prerequisite to admission as indicated in § 14.3 of the University Regulations and Information for Students Calendar.

Since students in the Faculty of Engineering are required to carry a full course load [see regulation 82.3.3(b)], applicants presenting a TOEFL score as proof of proficiency will not be admitted if the score is less than 600.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building, University of Alberta.

Additional information may be obtained at the Office of the Dean of Engineering, 5th floor, Mechanical Engineering Building. Prospective students who have been away from their studies for some time or have special problems should make an appointment to see the Associate Dean (Student Affairs and Records) prior to June 30. This appointment can be made by mail or by telephone (432-3399).

82.2 Residence Requirements

A student proceeding towards a B.Sc. degree in engineering must normally attend at least the equivalent of two academic years in the Faculty of Engineering and complete four full terms of approved course work comprising a minimum of 72 units of credit. This should comprise the last four terms of the student's program.

Where a student has been accepted as a transfer student from another accredited engineering program at a Canadian university and has the equivalent of six full terms of transfer credit, consideration may be given to reducing the residence requirement to one academic year consisting of two full terms.

82.3 Academic Regulations

1. *Quotas*

Student quotas exist for initial entry to the Faculty of Engineering and again at the second year level to a specialized program.

Entry to a specialized program is based upon the student's academic performance in the first, or qualifying, year. All students in a first or qualifying year and new applicants to the faculty with sufficient advance credit to be considered for the second year quota must submit a "SECOND YEAR ENGINEERING BRANCH SELECTION FORM" by June 15.

A student entering the Faculty directly from high school must normally qualify for a specialized program in not more than four terms (two years); others in not more than two terms (one year). Failure to do so will result in the student being required to withdraw.

2. *Requirements to Graduate*

Pass in all courses as required by the specific program in accordance with the rules and regulations of the Faculty of Engineering and the University.

3. *Course Load*

(a) The normal course loads for each term are outlined in the appropriate section of the calendar under "Programs of Study" (§ 83). A student at his/her own request, or upon the advice of a counsellor, may extend the course load of terms three to eight over a total of eight terms. Students wishing to do so should consult with their departmental advisor at the start of the third term.

(b) Students in their qualifying year for a specialized program may not normally take a course load of less than 20 units per term.

(c) Other students may not normally take a course load of less than 15 units per term.

(d) A student may not take more than a normal load except with Faculty permission. A student on probation *must not* take a course load in excess of a normal load.

4. *Promotion to Next Term*

At the end of each term, a student's progress will be evaluated as follows:

(a) *Pass* — term G.P.A. not less than 4.5. Proceed to next term, repeating any failed course(s).

(b) *Conditional* — term G.P.A. less than 4.5 but not less than 4.0. Proceed to next term on probation repeating any failed course(s) except if already on probation or has been twice before, in which case student must withdraw. The only exceptions are: (i) if the student is in "First Term" (§ 83.2) of the program he/she may proceed to the next term without penalty, repeating any failed course(s); (ii) if the student is in the final term of the program, in which case credit is withheld for grades of 4. One more term is allowed in which the student must complete the degree requirements and obtain a G.P.A. not less than 4.5. Failure to do so will result in the student being required to withdraw.

(c) *Fail* — term G.P.A. less than 4.0. Required to withdraw except if in "First Term" of program student may repeat the term once without penalty, receiving credit for those courses completed with a grade of 5 or better.

The term G.P.A. will be the weighted average for all courses taken in that term. A full year course will be included in the second term G.P.A. using its full session unit value. Where a course grade is AB-F or WF then the term G.P.A. will be calculated using a numerical value of 1 for such grades.

5. *Deficiencies From a Previous Term*

Where a student is deficient credit in a course (or courses) from a previous term either through failure or otherwise, that student must normally clear that deficiency the next time the course (or courses) is (are) offered.

Where the deficiency is the result of failure or withdrawal from an elective course, another course may be substituted provided that Faculty approval is first received to do so.

6. *Re-enrolment After Being Required to Withdraw*

A student who is required to withdraw may make application for re-enrolment for the same term the following year, receiving credit for those courses completed with a grade of 5 or better.

A student who is required to withdraw a second time will not normally be re-admitted to the Faculty of Engineering.

7. *Passing Grade*

A grade of 4 or better is normally a passing grade. A grade of 3 may be accepted if:

(i) it is attained in a course given by an engineering department, and

(ii) it is the only grade of 3 or less in that term, and

(iii) the course load is 15 units or more, and

(iv) the term G.P.A. is 5.5 or greater.

8. *Withdrawal From Courses*

Where permitted, a student wishing to drop a course or change from "credit" to "audit" must do so prior to the following dates: First term courses, November 12; Second term courses, March 1. A withdrawal after these dates will be assumed to be due to imminent failure in the course(s) and a grade of WF will be assigned.

A student's course load may not be reduced below the limits given in 3. *Course Load.*

9. *Supplemental Examinations*

Supplemental examination privileges will not be granted except in the three specific cases outlined in (a), (b) and (c) below. In these specific cases, supplemental privileges may be granted following application to the Dean's Office.

(a) If the student is in good standing and is otherwise eligible for graduation, he or she may be granted supplemental privileges in one course only in the penultimate term. In this case the supplemental examination is to be written no later than the end of Second Term Reading Week.

(b) If a student has passed the supplemental examination under clause (a) above, is in good standing and is otherwise eligible for graduation, he or she may be granted supplemental privileges in one course only in the next term if it is the final term.

(c) If a student has not written a supplemental examination under clause (a) above, is in good standing and is otherwise eligible for graduation, he or she may be granted supplemental privileges in two courses only in the final term.

10. *Part-Time Students*

A student unable, for acceptable reasons, to carry the course load required in 3. *Course Load*, may enrol as a part-time student.

Credit may be granted toward a degree for a grade of 5 or better, withheld for a grade of 4 and failure assigned for a grade of 3 or less.

Such a student may not totally complete the degree requirements on a part-time basis but must meet the normal Faculty residence requirements (see § 82.2).

11. *Academic Awards and Recognition*

(a) Unless otherwise specified, consideration for an academic award or recognition is normally based upon the work of an academic session (two terms), in which the student must have completed at least a total of 36 units of credit.

(b) For purposes of determining the eligibility of a student to be considered for a particular award when completion of, or entry to a year is specified, the following guidelines will normally be used:

Year completed (entering)	*Minimum units* completed
1st (2nd)	36
2nd (3rd)	72
3rd (4th)	108
4th	Degree awarded

12. *Appeal of Academic Decisions*

A student may appeal an academic decision (but no a specific grade) of a senior administrative officer t the Faculty Academic Appeals Committee. To do s he / she must make his / her decision known to the Dea within 10 days of the date of the decision. An unsuc cessful appeal within the Faculty may be carried to th General Faculties Council Academic Appeals Commit tee. See § 16.7 University Regulations and Informatio for Students Calendar.

82.4 *Professional Associations and Technical Societies*

The practice of Engineering throughout Canada i regulated by Professional Associations in each prov ince. The right to practice and accept professional re sponsibility is limited to those who are registered wit the professional organization in the particular provinc concerned. In Alberta this is The Association of Profes sional Engineers, Geologists and Geophysicists o Alberta. Members of the Engineering Students' Societ are automatically student members of the Associatio Graduates are encouraged to join the Association a Engineers in Training. Two years of acceptable exper ence following graduation is necessary and sufficie for registration as a Professional Engineer.

The practicing engineer keeps abreast of technolo ical developments through membership in one of se eral technical societies. Student Branches of these s cieties (C.S.A.E.; C.S.Ch.E.; C.S.C.E.; I.E.E.E C.S.M.E.; C.I.M.) have active chapters on campu Engineering students are encouraged to join the so ety closest to their speciality.

82.5 *Registration in Engineering Courses by Students in Other Faculties*

Although the Faculty of Engineering is a restricte enrolment Faculty, it is possible for students who a registered in other Faculties to enrol in a limited nu ber of engineering courses.

However, students who are not registered in th Faculty of Engineering *must* obtain permission to enr in engineering courses. The appropriate Departme Chairman in the Faculty of Engineering is authorized grant permission.

NOTE: This requirement does *not* apply to studen who are in programs (e.g. Agricultural Engineerin which include engineering courses as a formal part the program.

83 PROGRAMS OF STUDY

A degree of B.Sc. in Engineering is offered and is described in Section 83.1. A four-year program in Agricultural Engineering is offered cooperatively by the Faculty of Agriculture and Forestry and the Faculty of Engineering. For details of the program see Section 83.8 of the Faculty of Engineering Calendar.

83.1 The Degree of B.Sc. in Engineering

83.1.1 GENERAL INFORMATION

The program for the degree of B.Sc. in Engineering begins with two terms in which the courses are common to all students.

In subsequent terms some of the courses are common to all students and many options are available to give the student an introduction to a specialized field of Engineering. In the final terms each department suggests one or more specialized patterns although each student has freedom in the choice of electives.

Students, with the consent of the Faculty or departmental advisors, may make substitutions in a recommended course pattern; however, each department will require certain courses, prerequisites and corequisites before registration can be approved.

The Faculty of Engineering recognizes the need for exposure of all engineering students to certain fundamental engineering, science, human relations, public relations and communications courses. Therefore the following courses must be taken by all students within the Faculty of Engineering.

	No. of Units
1. CHEM 203 (Introductory University Chemistry I)	4.3
2. CHEM 205 (Introductory University Chemistry II)	3.8
3. A single-term course in Economics (Note A)	3.0
4. ENGG 200 (Orientation to the Engineering Profession)	2.0
5. ENGG 210 (Engineering Graphics)	3.5
6. ENGG 230 (Engineering Statics I)	4.0
7. ENGG 231 (Engineering Statics II)	3.0
8. ENGG 500 (The Practice of the Engineering Profession)	1.0
9. MATH 212 (Calculus I)	4.0
10. MATH 213 (Calculus II)	5.0
11. MATH 312 (Linear Algebra and Infinite Series)	3.0
12. MATH 313 (or equivalent) (Differential Equations IA)	4.0
13. MATH 315 (Calculus III)	3.0
14. PHYS 231 (Mechanics)	3.8
15. PHYS 235 (Electricity and Magnetism)	3.8
16. A total of four single-term courses in the humanities and social sciences, *two* of which must be from the approved list provided at time of registration.	
17. At least one 3-unit course in each of at least three of the following five areas:	
(i) Strength of Materials	
(ii) Thermodynamics	
(iii) Materials Science	
(iv) Fundamental Electrical Engineering	
(v) Engineering Mechanics (Dynamics)	

NOTE A: Any Economics course taught within the Faculty, or in the Faculties of Arts or Business Administration and Commerce, will meet the requirement for Economics.

NOTE B: Pass-Fail courses will not be accepted for credit unless specifically approved by the Dean.

83.2 Recommended Program (All Engineering Students)

First Term

	Hours	*Units*
CHEM 203 (Introductory University Chemistry I)	3-1s-3/2	4.3
ENGG 200 (Orientation to the Engineering Profession)	2-0-0	2.0
ENGG 210 (Engineering Graphics)	2-0-3	3.5
or		
Elective (Note A)	3-0-0	3.0
ENGG 230 (Engineering Statics I)	3-0-2	4.0
MATH 212 (Calculus I)	3-0-2	4.0
PHYS 231 (Geometrical Optics and Mechanics)	3-0-3/2	3.8
		Total 21.1 or 21.6

Second Term

	Hours	*Units*
CHEM 205 (Introductory University Chemistry II)	3-0-3/2	3.8
ENGG 210 (Engineering Graphics)	2-0-3	3.5
or		
Elective (Note A)	3-0-0	3.0
ENGG 231 (Engineering Statics II)	2-0-2	3.0
MATH 213 (Calculus II)	4-0-2	5.0
PHYS 235 (Electricity and Magnetism)	3-0-3/2	3.8
Elective (Note A)	3-0-0	3.0
		Total 21.6 or 22.1

NOTE A: The elective shall be from the list referred to in item 16 under § 83.1.1.

NOTE B: Approximately one-half of the first year engineering students will take ENGG 210 in the First Term and the other half will take it in the Second Term.

83.3 Third to Eighth Terms— Chemical Engineering

83.3.1 GENERAL INFORMATION

The B.Sc. program in Chemical Engineering provides a technical background to prepare students for careers in the chemical and petroleum processing industries, and in a variety of related fields. The program consists of courses in the basic sciences, fundamentals of chemical engineering and elective courses. The elective courses provide an opportunity to obtain background in areas such as natural gas processing, environmental engineering, process dynamics and control, industrial engineering, management sciences, food processing, and polymer engineering.

The Department program gives emphasis to computer applications both in the undergraduate and graduate courses of instruction and in research. This is made possible by the interest of the staff, by the unique facilities available in the Data Acquisition Control and Simulation Centre located in the department, and by the University Computing Services. Instruction is offered in computer oriented mathematical techniques, modelling, analog and digital computer simulation, systems engineering, and in real-time computer applications. Many of these courses are also available to undergraduate students in other branches of engineering or in science.

83.3.2 REQUIRED COURSES

In addition to the courses listed under § 83.1.1, the following are required courses for a B.Sc. in Chemical Engineering:

1. CHEM 350 and 370; PHYS 333; CMPUT 300; CH E 324, 356, 378, 412, 414, 416, 424, 451, 452, 456, 484, 518, 534, 546, 551, 552, 556, 581, 583 and 584.

2. Credit in one of MNL E 352, MEC E 350, or CIV E 360.

3. Credit in one suitable 400 or higher level single-term course in Mathematics or Computing Science.

4. Credit in six single-term approved technical electives.

83.3.3 RECOMMENDED PROGRAM

Third Term

	Hours	Units
MATH 312 (Linear Algebra and Infinite Series)	3-0-0	3.0
MATH 315 (Calculus III)	3-0-0	3.0
PHYS 333 (Electricity and Magnetism)	3-1s-3	5.0
CHEM 370 (Elementary Physical Chemistry)	3-0-3	4.5
CMPUT 300 (Problem Solving and Programming)	2-0-2	3.0
Elective (e.g., Economics 304)	3-0-0	3.0
		Total 21.5

Fourth Term

	Hours	Units
CHEM 370 (Elementary Physical Chemistry)	3-0-3	4.5
MATH 313 (Differential Equations 1A)	3-0-2	4.0
CH E 324 (Engineering Thermodynamics)	3-1s-0	3.5
CH E 356 (Process Analysis)	2-3s-0	3.5
CH E 378 (Statistical Applications in Chemical Engineering)	2-1s-0	2.5
Elective (e.g., MNL E 352)	3-0-3/2	3.8
		Total 21.8

Fifth Term

	Hours	Units
CHEM 350 (Organic Chemistry)	3-0-3	4.5
CH E 412 (Fluid Mechanics)	3-1s-0	3.5
CH E 424 (Chemical Engineering Thermodynamics)	3-1s-0	3.5
CH E 451 (Chemical Engineering Laboratory I)	1-0-4	3.0
CH E 484 (Industrial Tours—I)	—	—
Elective (e.g., Technical)	3-0-0	3.0
Elective (e.g., Humanities)	3-0-0	3.0
		Total 20.5

Sixth Term

	Hours	Units
CHEM 350 (Organic Chemistry)	3-0-3	4.5
CH E 414 (Heat Transfer)	3-1s-0	3.5
CH E 452 (Chemical Engineering Laboratory II)	1-0-4	3.0
CH E 456 (Chemical Engineering Design I)	2-3s-0	3.5
CH E 484 (Industrial Tours—I)	—	—
Elective (e.g., CH E 476)	3-1s-0	3.5
CH E 416 (Equilibrium Stage Process)	3-2s-0	4.0
		Total 22.0

Seventh Term

	Hours	Units
CH E 518 (Diffusion Operations)	2-2s-0	3.0
CH E 534 (Chemical Reactor Analysis)	3-1s-0	3.5
CH E 546 (Process Dynamics and Control)	3-1s-0	3.5
CH E 551 (Chemical Engineering Laboratory III)	1-0-4	3.0
CH E 581 (Colloquium I)	0-1s-0	0.5
CH E 584 (Industrial Tours—II)	—	—
Elective (e.g., Technical)	3-1s-0	3.5
Elective (e.g., Technical)	3-0-3/2	3.8
		Total 20.8

Eighth Term

	Hours	Units
CH E 552 (Chemical Engineering Laboratory IV)	1-0-4/2	2.0
CH E 556 (Chemical Engineering Design II)	1-0-6	4.0
CH E 583 (Colloquium II)	0-1s-0	0.5
CH E 584 (Industrial Tours—II)	—	—
ENGG 500 (The Practice of the Engineering Profession)	1-0-0	1.0
Elective (e.g., Technical)	3-1s-0	3.5
Elective (e.g., Technical)	3-1s-0	3.5
Elective (e.g., Technical)	3-0-3/2	3.8
Elective (e.g., Humanities)	3-0-0	3.0
		Total 21.3

NOTE A: Total units are approximate depending upon choice of electives.

NOTE B: A student with a high academic standing (G.P.A. of 7.5 or better) may make some limited substitutions in the required course pattern.

NOTE C: Students may replace ECON 304 with a suitable alternative course in economics.

NOTE D: All programs require the approval of the Department of Chemical Engineering.

83.3.4 ELECTIVE COURSES

In addition to required courses, programs in Chemical Engineering offer considerable flexibility through electives to develop interdisciplinary interests or to study certain fields in some depth. Subject only to feasibility of timetabling, a student may choose from technical elective courses offered by the Department (CH E 476, 502, 520, 522, 536, 538, 540, 542, 544, 555, 560 and 576) or courses offered by other Departments such as CIV E 520; E E 301, 302, 354; MEC E 413, 465, 512, 513; MNL E 431, 435, 450, 457, 464, 466, 545, 564, 573, 575, 584, 596; ENGG 420; BIOCH 300; CHEM 450, 470; CMPUT 458; GEOG 465; GEOL 320, 401, 460, 523, 524; MARK 405; MATH 408, 413, 414; METEO 407; FD SC 453, 454, 587.

A brief description of some fields in which electives may be chosen follows:

Process Dynamics and Control

Industrial plants are normally designed on the basis of steady state operation, but due to planned changes in process conditions or from unexpected disturbances, such as changes in raw materials, often the operation is not at steady state. As a result modelling of process units and subsequent simulation of their dynamic behavior can significantly assist in achieving efficient operation. Process control is concerned with the development of systems ranging from simple manual instruments to sophisticated computers which will keep industrial units operating at the desired condition. Both areas are becoming increasingly important due to higher performance specifications and the concern for reducing environmental pollution.

Natural Gas and Petroleum Engineering

Many chemical engineering graduates find employment in the oil and gas industries. The Department offers electives in natural gas processing, energy resource development and properties of petroleum fluids. A number of additional elective courses, related to the petroleum or mineral engineering fields, are offered by the Department of Mineral Engineering.

Industrial Engineering and Management Sciences

Chemical engineers very frequently find themselv

employed in a position in which their primary function is management. Consequently elective courses in organization theory, the behavioral sciences, economics, management science and/or operations research provide a useful background for future employment. For those engineers involved in production or design, many tasks will involve establishing optimal operating conditions. The course offered by the Department, although concentrating on optimization techniques, also provides an insight into the scope of operations research. In addition many related courses in the industrial engineering area are given by the Department of Mechanical Engineering.

By proper choice of electives, students may be able to obtain advance credit towards a Master of Business Administration (M.B.A.) or an M.A. in Economics.

Food Processing

A special sequence of electives can be arranged for students who wish to obtain a background in food process engineering. Programs should be developed in consultation with the Department prior to entering the third term.

Environmental Engineering

There is a growing awareness of the need to protect the quality of our environment and as a result many engineers are involved in developing technically and economically feasible solutions to environmental pollution problems. Electives such as CH E 502, CH E 560 and CIV E 520 will help engineering students to become aware of environmental technology and also serve as appropriate background for those desiring to specialize in the environmental field.

83.4 *Third to Eighth Terms — Civil Engineering*

83.4.1 GENERAL INFORMATION

The Civil Engineering curriculum provides a solid grounding in the physical sciences and mathematics, a basic understanding of the major areas of engineering and allows specialization in those areas of civil engineering of particular interest to the individual.

Mathematics and computer courses are oriented to engineering practice. Use of the computer is introduced early in the program, and other courses in civil engineering apply computer techniques to the solution of problems in particular areas of civil engineering.

Throughout, the curriculum is based on the application of mechanics: fluid mechanics, to enable the engineer to control the flow of rivers and to combat the problems of pollution; soil mechanics, to enable the engineer to design foundations, earth structures and roadways; structural mechanics, to enable the engineer to design bridges and buildings. To balance the necessary technical emphasis, civil engineering students study economics, communicative arts and humanities so that they will be aware of the influence of their decisions on the lives of others.

The first four terms of the eight term program contain basic sciences, mathematics and introductory engineering courses. The last four terms are arranged to provide a core of required courses together with a number of optional patterns. Students may select options in the field of their interest in Civil Engineering, or from courses in other faculties and so may emphasize education in one of the many phases of design or management. The total program is designed to provide students with a knowledge of the fundamentals of engineering specialization in the field of their interest, and the capacity to adapt to the challenges facing the practising civil engineer.

83.4.2 REQUIRED COURSES

In addition to the courses listed under § 83.1.1 (the required courses for all students within the Faculty, consisting of 48.2 units of physical and engineering sciences; 3.0 units of economics; and 12.0 units of humanities, social sciences and the communicative arts), the following courses are required for a B.Sc. in Civil Engineering for students entering first year.

1. CIV E 301, 302, 350, 351, 360, 361, 401, 404, 405, 406, 420, 430, 431, 460, 471, 472, 480, 500, 501, 510, 541, 570, 590; E E 301, 302; GEOL 390; MEC E 350; MNL E 352.

2. Additional courses must be taken as technical electives for a credit of not less than 12 units, which may be selected from (a) the technical electives listed in § 83.4.4, or (b) approved courses offered by other Engineering Departments, or, (c) approved courses offered by the Faculties of Arts, Science, Business Administration and Commerce, and Agriculture and Forestry.

All programs must be approved by the Department of Civil Engineering.

83.4.3 RECOMMENDED PROGRAM

Third Term

	Hours	*Units*
CIV E 360 (Mechanics of Deformable Bodies I)	3-0-3	4.5
E E 301 (Elements of Electrical Engineering)	3-0-3/2	3.8
GEOL 390 (Engineering Earth Sciences)	3-0-3	4.5
MATH 312 (Linear Algebra and Infinite Series)	3-0-0	3.0
MATH 315 (Calculus III)	3-0-0	3.0
MNL E 352 (Materials Science II)	3-0-3/2	3.8
		Total 22.6

Fourth Term

	Hours	*Units*
CIV E 301 (Civil Engineering Design)	2-0-2	3.0
CIV E 302 (Civil Engineering Applications of Computer Programming)	2-0-2	3.0
CIV E 350 (Plane Surveying)	2-0-2	3.0
CIV E 361 (Introduction to Solid Mechanics)	3-1s-0	3.5
E E 302 (Electrical Engineering Devices)	3-0-3/2	3.8
MATH 313 (Differential Equations)	3-0-2	4.0
MEC E 350 (Engineering Mechanics — Dynamics)	3-0-0	3.0
CIV E 351 (Survey Camp) (Two weeks at end of fourth term. Students will be charged for room and board.)		3.0
		Total 26.3

Fifth Term

	Hours	*Units*
CIV E 401 (Civil Engineering Materials)	3-0-3/2	3.8
CIV E 404 (Civil Engineering Analysis I)	2-0-2/2	2.5
CIV E 405 (Civil Engineering Analysis II)	2-0-2/2	2.5
CIV E 430 (Introduction to Fluid Mechanics)	3-0-3/2	3.8
CIV E 460 (Structural Analysis I)	3-1s-0	3.5
CIV E 471 (Structural Design I)	2-0-3/2	2.8
Elective	3-0-0	*3.0
		Total 21.9

Sixth Term

	Hours	Units
CIV E 406 (Civil Engineering Analysis III)	3-0-2	4.0
CIV E 420 (Environmental Engineering I)	3-0-0	3.0
CIV E 431 (Hydraulics)	3-0-3	4.5
CIV E 472 (Structural Design II)	3-0-3	4.5
CIV E 480 (Soil Mechanics)	3-0-3	4.5
Elective	3-0-0	*3.0
		Total 23.5

Seventh Term

	Hours	Units
CIV E 510 (Highway Engineering)	3-0-2	4.0
CIV E 541 (Hydrology)	3-0-3/2	3.8
CIV E 570 (Structural Design III)	3-0-3	4.5
CIV E 590 (Soil Engineering)	3-0-3	4.5
Electives	6-0-0	*6.0
		Total 22.8

Eighth Term

	Hours	Units
CIV E 500 (Civil Engineering Report Writing)	1-2s-0	2.0
CIV E 501 (Project Management)	3-0-3/2	3.8
ENGG 500 (The Practice of the Engineering Profession)	1-0-0	1.0
Electives	12-0-0	*12.0
		Total 18.8

*Since laboratory hours are dependent upon the electives chosen, hours of instruction and the associated credit units are approximate. Electives must satisfy the requirements of § 83.1.1 and § 83.4.2.

83.4.4 TECHNICAL ELECTIVES

Electives selected must satisfy the requirements of § 83.4.2.

Technical Electives: Terms 5 or 7

	Hours	Units
CH E 324 (Engineering Thermodynamics)	3-1s-0	3.5
ENGG 420 (Engineering Law)	3-0-0	3.0
CIV E 450 (Geodesy and Photogrammetry)	3-0-3	4.5
ECON 304 (Principles of Economics)	3-0-0	3.0

Technical Electives: Terms 6 or 8

CH E 324 (Engineering Thermodynamics)	3-1s-0	3.5
CH E 560 (Man and His Environment)	3-0-0	3.0
ENGG 420 (Engineering Law)	3-0-0	3.0
CIV E 512 (Town Planning I)	3-1s-0	3.5
ECON 304 (Principles of Economics)	3-0-0	3.0
GEOL 391 (Engineering Geology)	3-0-3	4.5

Technical Electives: Term 7

CIV E 502 (Impact Evaluation of Civil Engineering Projects)	3-2s/2-0	3.5
CIV E 520 (Environmental Engineering II)	3-0-3	4.5
CIV E 540 (Hydraulic Engineering)	3-0-3	4.5
CIV E 550 (Geodesy I)	3-0-3	4.5
CIV E 560 (Structural Analysis II)	3-2s-0	4.0
MEC E 512 (The Design and Implementation of Production Systems)	3-1s-0	3.5
MEC E 551 (Mechanical Vibrations)	3-0-0	3.0
GEOL 482 (Glacial Geology)	3-0-3	4.5

Technical Electives: Term 8

CIV E 511 (Transportation Operations and Planning)	3-0-0	3.0
CIV E 531 (Environmental Fluid Mechanics)	3-0-2	4.0
CIV E 551 (Geodesy II)	3-0-3	4.5
CIV E 571 (Structural Design IV)	3-0-3	4.5
CIV E 591 (Geotechnical Design)	3-0-3	4.5
CIV E 640 (River Engineering) (See Note B)	3-0-1	3.5
CIV E 694 (Permafrost Engineering) (See Note B)	3-0-0	3.0
MEC E 513 (The Scheduling and Control of Production Systems)	3-1s-0	3.5

NOTE A: MEC E 413 will satisfy the Faculty requirement in Economics specified in § 83.1.

NOTE B: A grade point average of at least 7.0 is required to enrol in these courses.

83.5 Third to Eighth Terms—Electrical Engineering

83.5.1 GENERAL INFORMATION

There are 3 basic patterns available in Electrical Engineering.

Pattern I is a general Electrical Engineering program balancing theory and practice. This pattern allows for a choice of third and fourth year options.

Engineering Physics/Pattern II, offered in co-operation with the Department of Physics, is of a more fundamental nature than Pattern I. It provides students with an extensive background in mathematics and physics.

Students who wish to take Engineering Physics/Pattern II must have a high standing in mathematics and physics and normally will be required to have a minimum grade-point average of 7.5 in the first year. Exceptions to this rule may be made by the Chairman of the Department of Electrical Engineering.

Pattern III is intended for those students interested in managerial work and consists of electrical engineering courses augmented by courses in commerce and business administration. Enrolment in Pattern III may be restricted as required. Well qualified students may proceed to an M.B.A. in one additional year after the B.Sc. in Electrical Engineering (Pattern III). Contact the Department for information.

Students entering Pattern III are required to have a grade point average of at least 7.0 in their second year. Those not accepted (at the end of third year) for the accelerated M.B.A. program must return to the Pattern program as early as possible, with courses chosen in consultation with the Department Chairman or his designate. Permission from both Electrical Engineering and Business Administration is required.

In all patterns the core program consists of courses in the basic sciences and electrical engineering courses providing a basis for more intensive studies in a number of specialized areas in Electrical Engineering. These areas are covered by elective courses which may be chosen to meet the student's requirements. Some of these areas are Lasers, Plasmas, Control Systems, Power Systems, Microwave, Communication, High Vacuum, Biomedical Engineering, Digital Electronics.

83.5.2 REQUIRED COURSES

In addition to the courses listed under § 83.1.1, the following are required courses for a B.Sc. in Electrical Engineering.

Patterns I and III:

E E 330, 331, 355, 356, 379, 415, 416, 430, 431, 435, 444, 451, 470, 471, 487, 489, 511, 533, 538, 560, 561, 570; MATH 312, 315, 317, 318, 408; PHYS 331; CH E 324; MEC E 350.

(1) In addition:

Pattern I: MEC E 413.

Pattern III: ECON 304 (third term).

(2) Credit in electives as indicated:

Pattern I:

(a) Two non-technical electives.

(b) Six technical electives as follows: One of the following group of electives: Power: E E 521 and two of E E 501, 507, 525, 527, 531, 545, MEC E 522; Electronics: E E 479, 571, 572; Communication: E E 539, 571, 588, 591; Digital: E E 479, 535, 537, 571; Computer: E E 479, 535, 537, CMPUT 215, 314, 315 and 416 or 417 (E E 511, 533 not required; E E 415, 416 to be taken in Seventh and Eighth Terms). The remaining technical electives with consent of the department.

Pattern III:

(a) Two non-technical electives.

(b) Eight business electives selected from an approved list.

Engineering Physics/Pattern II: E E 330, 331, 355, 356, 430, 431, 435, 451, 471, 538, 560, 561, 570; CH E 324; MATH 312, 315, 317, 318, 408; MA PH 443, 551; PHYS 343, 371, 382, 390, 461, 471, 482, 497, 509, 515. In addition, three technical electives (requiring departmental approval) and two non-technical electives.

83.5.3 RECOMMENDED PROGRAM (PATTERNS I AND III)

Third Term

	Hours	Units
E E 330 (E E Design I)	2-1s-0	2.5
E E 355 (Electrical Circuits I)	3-1s-3/2	4.3
E E 379 (Introduction to Digital Electronics)	3-0-3/4	3.4
MATH 315 (Calculus III)	3-0-0	3.0
MATH 317 (Differential Equations I)	2-1s-0	2.5
MEC E 350 (Engineering and Mechanics: Dynamics)	3-0-0	3.0
	Sub-total	18.7

Additional Courses—*Pattern I*

Elective (non-technical)	3-0-0	3.0
	Sub-total	3.0
	Total	21.7

Additional Courses—*Pattern III*

ECON 304	3-0-0	3.0
	Sub-total	3.0
	Total	21.7

Fourth Term

	Hours	Units
CH E 324 (Thermodynamics)	3-1s-0	3.5
E E 331 (E E Design II)	2-1s-0	2.5
E E 356 (Electrical Circuits II)	3-1s-3/3	4.3
MATH 312 (Linear Algebra and Infinite Series)	3-0-0	3.0
MATH 318 (Differential Equations II)	2-1s-0	2.5
PHYS 331 (Electricity and Magnetism)	3-2s/2-3/2	4.3
	Total	20.1

Fifth Term

	Hours	Units
E E 430 (Electro-mechanics I)	3-0-0	3.0
E E 435 (Signals and Networks)	3-1s-0	3.5
E E 470 (Electronics I)	3-1s-3/2	4.3
E E 487 (Engineering Applications to Random Processes)	3-0-0	3.0
MATH 408 (Complex Variables)	3-0-0	3.0
	Sub-total	16.8

Additional Courses—*Pattern I (See Note A)*

	Hours	Units
E E 415 (Engineering Electromagnetics I)	3-1s-0	3.5
E E 444 (E E Technical Report Writing)	2-0-0	2.0
	Sub-total	5.5
	Total	22.3

Additional Courses—*Pattern III*

	Hours	Units
Business Electives	6-0-0	6.0
	Sub-total	6.0
	Total	22.8

Sixth Term

	Hours	Units
E E 431 (Electromechanics II)	3-0-3/2	3.8
E E 451 (Network Analysis)	2-1s-3/4	2.9
E E 471 (Electronics II)	3-1s-3/2	4.3
E E 489 (Introduction to Communication Systems)	3-0-0	3.0
	Sub-total	14.0

Additional Courses—*Pattern I (See Note A)*

	Hours	Units
E E 416 (Engineering Electromagnetics II)	2-1s-0	2.5
MEC E 413 (Engineering Evaluation)	3-0-0	3.0
Elective (Technical)	3-0-0	3.0
	Sub-total	8.5
	Total	22.5

Additional Courses—*Pattern III*

	Hours	Units
Elective (Non-Technical)	3-0-0	3.0
Business Electives	6-0-0	6.0
	Sub-total	9.0
	Total	23.0

Seventh Term

	Hours	Units
E E 560 (Control Systems I)	3-0-3	4.5
E E 570 (Electronics III)	3-0-3	4.5
E E 538 (Introduction to Signal Theory and Processing)	3-0-0	3.0
	Sub-total	12.0

Additional Courses—*Pattern I (See Note A)*

	Hours	Units
E E 511 (Analytical Methods of Electrical Engineering)	3-1s-0	3.5
Electives	6-0-0	6.0
	Sub-total	9.5
	Total	21.5

Additional Courses—*Pattern III*

	Hours	Units
E E 415 (Engineering Electromagnetics I)	3-1s-0	3.5
Approved Business Electives	6-0-0	6.0
	Sub-total	9.5
	Total	21.5

Eighth Term

	Hours	Units
ENGG 500 (The Practice of the Engineering Profession)	1-0-0	1.0
E E 561 (Control Systems II)	3-0-3	4.5
E E 533 (Electrical Energy Sources)	3-0-0	3.0
	Sub-total	8.5

Additional Courses—*Pattern I (See Note A)*

	Hours	Units
Elective (Non-Technical)	3-0-0	3.0
Electives (Technical)	9-0-3	10.5
	Sub-total	13.5
	Total	22.0

Additional Courses—*Pattern III*

	Hours	Units
E E 416 (Engineering Electromagnetics II)	2-1s-0	2.5
Elective (Non-Technical)	3-0-0	3.0
Business Electives	6-0-0	6.0
	Sub-total	11.5
	Total	19.0

NOTE A: Modifications for the computing stream: CMPUT 215, 315 replace E E 415, 416 in terms 5, 6. E E 415, 416 are then taken in terms 7, 8. CMPUT 314, 416

or 417 replace E E 511, 533. E E 479, 535, 537 and 571 are required in place of technical electives.

83.5.4 RECOMMENDED PROGRAM (ENGINEERING PHYSICS / PATTERN II)

Third Term

	Hours	Units
E E 330 (E E Design I)	2-1s-0	2.5
E E 355 (Electrical Circuits I)	3-1s-3/2	4.3
CH E 324 (Thermodynamics)	3-1s-0	3.5

83.5.5 TECHNICAL ELECTIVES

	Hours	Units
E E 501 (Electrical Design)	3-0-0	3.0
E E 507 (High Voltage Engineering)	3-0-3	4.5
EE / BE 512 (Physical Measurements in Medicine)	3-1s-0	3.5
E E 514 (Reliability Engineering)	3-0-0	3.0
E E 521 (Power Systems I)	3-0-0	3.0
E E 525 (Power Systems II)	3-0-3/2	3.8
E E 527 (Industrial Power Distribution)	3-0-0	3.0
E E 531 (Electrical Machinery)	3-0-3	4.5
E E 533 (Electrical Energy Sources)	3-0-0	3.0
E E 535 (Logical Design of Digital Computers)	3-0-0	3.0
E E 537 (Advanced Digital Topics)	1-0-4	3.0
E E 539 (Digital Signal Processing)	3-0-0	3.0
E E 541 (High Vacuum Technology)	3-0-3/2	3.8
E E 545 (Electrical Instruments and Relays)	3-0-3	3.5
E E 571 (Electronics IV)	3-0-3	4.5
E E 572 (Physical Electronics)	3-0-0	3.0
E E 575 (Generation of High Frequencies)	3-0-3/2	3.8
E E 577 (Pulse and Waveshaping Circuits)	3-0-0	3.0
E E 583 (Introduction to Plasma and Fusion)	3-0-0	3.0
E E 585 (Acoustics)	3-0-0	3.0
E E 586 (Introduction to Fiber Optics Communications)	3-0-0	3.0
E E 588 (Communication in Noise)	3-0-0	3.0
E E 589 (Telecommunication Systems)	3-1s-0	3.5
E E 590 (Engineering Electromagnetics III)	3-0-0	3.0
E E 591 (Engineering Electromagnetics IV)	3-0-0	3.0
E E 593 (Advanced Topics in Engineering Electromagnetics)	3-0-0	3.0
E E 595 (Radiation, Antennas and Propagation)	3-0-0	3.0
E E 596 (Introduction to Principles of Lasers)	3-0-0	3.0
E E 597 (Microwave Engineering)	3-0-3/2	3.8
E E 598 (Special Problems I)	3-0-0	3.0
E E 599 (Special Problems II)	3-0-0	3.0
MEC E 522 (Power Plant Engineering)	3-0-0	3.0
CH E 560 (Man and His Environment)	3-1s-0	3.5
PHYS 531 (Fundamentals of Modern Physics)	3-0-0	3.0

In addition to this list, other courses (e.g., BIOL 210, CMPUT 458, LEG R 310, etc.) may be taken on approval of the Department.

83.6 *Third to Eighth Terms— Mechanical Engineering*

83.6.1 GENERAL INFORMATION

The program of studies in Mechanical Engineering provides a background for careers in research development, design, and manufacture in a wide variety of industries. Graduates normally go into industries such as manufacturing, petro-chemical, pulp and paper, construction, consulting, and energy and resource related industries.

Because of the variety of concepts within Mechanical Engineering there is a considerable selection of courses available. To provide some guidelines in assisting students to choose courses, the department offers patterns of study in each of four general areas namely, Applied Mechanics, Design, Industrial, and Thermo-Science. There can be overlaps in many of these areas and students may select their courses fo

basic knowledge prior to seeking a career in industry, or can select courses as a foundation for a career in research and development. In Applied Mechanics the work emphasizes mechanics of materials, statics and dynamics, vibrations, continuum mechanics, elasticity, plasticity, and stability. Design is concerned with comprehensive systems design, product design, mechanical analysis and mechanisms design, and component design. Industrial engineering caters to students whose interest is the planning and implementation of economic and management systems, especially those applied to scientific and engineering endeavours. In Thermo-Science, courses and specialized work are offered in thermo-dynamics, thermo-power systems, energy conversion, fluid mechanics and heat transfer.

83.6.2 REQUIRED COURSES

In addition to the courses listed in § 83.1.1, the following courses are required for a B.Sc. in Mechanical Engineering.

(1) CH E 324; CH E 476; CIV E 360; CMPUT 300; E E 354, 405; MATH 413; MEC E 350, 360, 402, 403, 413, 431, 440, 460, 461, 470, 501, 503, 523, 550, 560, 561, 584; MNL E 352; PHYS 333; STAT 335.

(2) Credit in one of CH E 548 OR E E 569.

(3) Credit in a minimum of seven elective courses not including those required in the first and second terms. Two of these must be in the humanities and social sciences in order to satisfy Faculty requirements. The remaining five electives are free electives but they are subject to approval by the Department.

83.6.3 RECOMMENDED PROGRAM

Third Term

	Hours	Units
MATH 312 (Linear Algebra and Infinite Series)	3-0-0	3.0
MATH 315 (Calculus III)	3-0-0	3.0
PHYS 333 (Electricity and Magnetism)	3-1s-3	5.0
MEC E 350 (Engineering Mechanics—Rigid Body Dynamics)	3-0-0	3.0
CIV E 360 (Mechanics of Deformable Bodies)	3-0-3	4.5
CMPUT 300 (Problem Solving and Programming)	2-0-2	3.0
		Total 22.5

Fourth Term

	Hours	Units
MATH 313 (Differential Equations IA)	3-2s-0	4.0
E E 354 (Fundamentals of Electrical Engineering)	3-0-3/2	3.8
CH E 324 (Engineering Thermodynamics)	3-1s-0	3.5
MNL E 352 (Materials Science II)	3-0-3/2	3.8
MEC E 360 (Engineering Design)	2-0-3	3.5
Elective (see Note A)	3-0-0	3.0
		Total 21.6

Fifth Term

	Hours	Units
MEC E 402 (Mechanical Measurements)	3-0-3	4.5
MEC E 413 (Engineering Evaluation)	3-0-0	3.0
MEC E 461 (Machine Components)	2-0-3/2	2.8
MATH 413 (Advanced Calculus I) or	3-0-0	3.0
CH E 476 (Mathematical Application)	3-1s-0	3.5
MEC E 431 (Fluid Mechanics I)	3-0-1	3.5
Elective (see Note A)	3-0-0	3.0
		Total 19.8

Sixth Term

	Hours	Units
STAT 335 (Probability, Statistics and Programming)	3-0-2	4.0
MEC E 403 (Mechanical Engineering Laboratory I)	1-0-3	2.5
MEC E 440 (Applied Thermodynamics)	3-0-0	3.0
MEC E 460 (Mechanics of Machines)	3-0-3/2	3.8
MEC E 470 (Heat Transfer)	3-2s-0	4.0
Elective (see Note A)	3-0-0	3.0
		Total 20.3

Seventh Term

	Hours	Units
E E 405 (Fundamentals of Electrical Engineering)	3-0-3/2	3.8
MEC E 501 (Engineering Design)	1-0-0	1.0
MEC E 503 (Mechanical Engineering Laboratory II)	1-0-3	2.5
MEC E 550 (Vibrations and Sound)	3-1s-0	3.5
MEC E 584 (Advanced Strength of Materials II)	3-0-0	3.0
Elective (see Note A)	3-0-0	3.0
Elective (see Note A)	3-0-0	3.0
		Total 19.8

Eighth Term

	Hours	Units
MEC E 523 (Principles of Heating and Air Conditioning)	3-1s-0	3.5
MEC E 560 (Mechanical Systems Design)	3-0-2	4.0
MEC E 561 (Design Project)	0-0-5	2.5
E E 569 (Feedback Control Systems for Mechanical Engineers) or	3-0-3/2	3.8
CH E 548 (Computer Applications in Process Control)	3-0-3/2	3.8
ENGG 500 (The Practice of the Engineering Profession)	1-0-0	1.0
Elective (see Note A)	3-0-0	3.0
Elective (see Note A)	3-0-0	3.0
		Total 20.8

NOTE A: Since hours of instruction depend upon the electives chosen, the numbers shown in the tables are approximate.

83.6.4 ELECTIVE COURSES

Electives in the Mechanical Engineering Program may be chosen from courses offered by the Faculties of Engineering, Agriculture and Forestry, Arts, Business Administration and Commerce, or Science. Departmental approval of all elective courses is required. Students are encouraged to consult with their faculty advisors for assistance in choosing technical and humanities electives.

Typical technical elective courses are: AG EN 342; CIV E 420, 520; CMPUT 458; GEOL 390; ENGG 420; MATH 408, 414, 480; MEC E 412, 450, 464, 465, 481, 490, 512, 513, 522, 531, 537, 541, 543, 553; MNL E 450, 457, 545, 572, 574.

To assist students in planning their technical elective program, the Department schedules groups of courses to avoid timetable conflicts. This enables the students to obtain additional depth in a selected field.

Descriptions of several such fields are listed below. Details of elective patterns may be obtained from the Department.

Mechanical Engineering Systems

Design is one of the main areas of endeavour of professional engineers. Accordingly the Department has established a group of electives, the purpose of which is to teach students to apply scientific principles to obtain realistic solutions to small or large-scale engineer-

ing problems. Emphasis is placed on the philosophy of design, creativity, and the decision-making process with due regard to the impact of technology on society and nature.

Mechanical Engineering Science

Students who are planning careers in the field of research and development or who are contemplating postgraduate study may require a more complete knowledge of the theoretical basis of Mechanical Engineering. For these students, proper selection of elective courses within and outside the Department will provide the necessary background.

Engineering Management

Engineering Management is the application of engineering methods and the principles of scientific management to production, design, improvement, and installation of integrated systems of men, materials and equipment. The management engineer has responsibility in matters of labor measurement, safety, cost reduction and control, quality control and plant layout and design. The management engineer is often a major contributor in management planning and operations research groups.

83.7 *Third to Eighth Terms—Mineral; Mining, Petroleum and Metallurgical Engineering*

83.7.1 GENERAL INFORMATION

The Department of Mineral Engineering offers undergraduate programs in four disciplines: Mineral Engineering, Mining Engineering, Petroleum Engineering and Metallurgical Engineering. These programs are designed to prepare students for engineering careers in the mineral and petroleum industries, and for all industries where materials problems such as corrosion must be considered.

The Mineral Engineering curriculum is designed primarily for students wishing to pursue careers in the area of mineral processing. This field includes the primary processing of fossil fuels such as coal and tar sands, metal-bearing ores and the industrial minerals such as potash. The curriculum permits concentration in related fields such as business, geology, synthetic fuels or computer applications.

Students in Mining Engineering take a program of courses which cover all phases of mining including exploration, rock mechanics, mining methods, materials handling, environmental control, economics and management. Since mining operations must be viewed as part of a system for the discovery and production of materials that are useful to mankind, a number of courses in geology and metallurgy are also included. Several optional courses may be taken to accommodate special interests such as coal and tar sands mining.

Students in Petroleum Engineering will take courses dealing with all aspects of petroleum engineering including courses in drilling and completion, production operations, and reservoir engineering. Students may further their understanding of particular areas of petroleum engineering by taking appropriate optional courses such as heavy oil recovery, in the final two terms.

The Metallurgical Engineering curriculum provides core courses in all phases of the broad field of metallurgy including mineral processing, extractive metallurgy, physical metallurgy, and corrosion. In the final two terms, students are able to specialize in a particular area of metallurgy through selection of appropriate optional courses and their individual research projects.

83.7.2 REQUIRED COURSES

Mineral Engineering

In addition to the courses listed under § 83.1.1 (51.2 units of fundamental science plus 12.0 units in the humanities), the following are required courses for a B.Sc. degree in Mineral Engineering.

(1) CH E 410, 412, 548, 560; CIV E 360; CMPUT 300; E E 301, 302; GEOL 308, 401; MNL E 352, 390, 422, 431, 435, 495, 499, 528, 533, 540, 541, 542, 549, 597, 599.

(2) Either CHEM 370 or CIV E 350/351 must be taken.

(3) Additional courses must be taken to reach a total of 165 units (not including CIV E 351, Survey Camp).

Mining Engineering

In addition to the courses listed under § 83.1.1, the following courses are required to graduate with a B.Sc. in Mining Engineering:

(1) CH E 412; CIV E 350, 351, 360; CMPUT 300; E E 301; GEOL 401, 440; MEC E 512; MNL E 352, 390, 401, 406, 410, 416, 421, 422, 423, 430, 431, 435, 495, 499, 502, 507, 513, 514, 516, 527, 528, 529, 599.

(2) Additional courses must be chosen from an approved list of technical electives to reach a total of 170 units.

Petroleum Engineering

In addition to the courses listed under § 83.1.1, the following courses are required to graduate with a B.Sc. in Petroleum Engineering:

(1) CH E 324, 410, 412; CHEM 370; CIV E 360; CMPUT 300; E E 301, 302; ECON 365; ENGG 420; GEOL 320, 401; MNL E 352, 390, 422, 462, 464, 466, 495, 499, 564, 573, 575, 577, 584, 588, 589, 596, 597, 599.

(2) Additional courses must be taken to reach a total of 165 units.

Metallurgical Engineering

In addition to the courses listed under § 83.1.1, the following courses are required to graduate with a B.Sc. in Metallurgical Engineering:

(1) CH E 410, 412, 548; CHEM 370; CIV E 360; CMPUT 300; GEOL 401; MNL E 352, 390, 431, 432, 440, 457, 458, 495, 499, 530, 540, 541, 545, 548, 549, 552, 553, 597, 599; PHYS 333.

(2) Additional courses must be taken to reach a total of 165 units, including 6 units from an approved list of technical electives.

All programs in the Department of Mineral Engineering must be approved. Under some circumstances, students may be given approval to replace some of the required courses to allow further specialization in an area of particular interest.

A Business/Economics program is available to well-qualified students which may permit them to proceed to an M.B.A. or an M.A. in Economics in one additional year after the B.Sc. Details of these programs are available from the Department of Mineral Engineering.

The next MNL E 528/548 field trip will be in the fall of 1981. Students are required to pay for their food and lodging on the field trip and a levy of not more than $50 is made for transportation expenses.

NOTE A: Students in Metallurgical Engineering and Petroleum Engineering will take CHEM 370 (Physical Chemistry). Students in Mining Engineering will take E E

301 (Elements of Electrical Engineering). Students in Mineral Engineering will take CHEM 370 or an elective.

NOTE B: Students in Mining Engineering will take CIV E 350 (Plane Surveying), CIV E 351 (Survey Camp) and GEOL 440 (Petrology). Students in Petroleum Engineering will take CHEM 370 and CH E 324 (Engineering Thermodynamics). Students in Metallurgical Engineering will take CHEM 370 and an elective. Students in Mineral Engineering will take CHEM 370 and an elective or CIV E 350, 351 and an elective.

NOTE C: Since the hours of instruction depend on the electives chosen, the numbers shown in the tables are approximate.

83.7.3 RECOMMENDED PROGRAM FOR ALL STUDENTS IN THE DEPARTMENT OF MINERAL ENGINEERING

Third Term

	Hours	Units
CIV E 360 (Mechanics of Deformable Bodies I)	3-0-3	4.5
CMPUT 300 (Problem Solving and Programming)	2-0-2	3.0
GEOL 401 (Basic Geology)	3-0-3	4.5
MATH 312 (Linear Algebra and Infinite Series)	3-0-0	3.0
MATH 315 (Calculus III)	3-0-0	3.0
Elective (see Note A)	3-0-3/2	3.8
		Total 21.8

Fourth Term

	Hours	Units
MNL E 390 (Intro. to Mineral Engineering)	2-0-3/2	2.8
MATH 313 (Differential Equations IA)	3-2s-0	4.0
ECON 304 (Principles of Economics)	3-0-0	3.0
MNL E 352 (Materials Science II)	3-0-3/2	3.8
Electives (see Note B)	6-0-3	7.5
		Total 21.1

83.7.4 RECOMMENDED PROGRAM MINERAL ENGINEERING

Fifth Term

	Hours	Units
CH E 412 (Fluid Mechanics)	3-1s-0	3.5
E E 301 (Elements of Electrical Eng.)	3-0-3/2	3.8
MNL E 422 (Rock Mechanics I)	3-0-0	3.0

Eighth Term

	Hours	Units
ENGG 500 (The Practice of the Engineering Profession)	1-0-0	1.0
MNL E 435 (Extractive Metallurgy)	2-0-3/2	2.8
MNL E 502 (Mine Design)	0-0-6	3.0
MNL E 507 (Mine Safety)	2-0-3/2	2.8
MNL E 529 (Mining Seminar)	1-0-0	1.0
Electives (See Note C)		7.7
		Total 18.3

83.7.6 RECOMMENDED PROGRAM PETROLEUM ENGINEERING

Fifth Term

	Hours	Units
E E 301 (Elements of Electrical Eng.)	3-0-3/2	3.8
CH E 412 (Fluid Mechanics)	3-1s-0	3.5
MNL E 422 (Rock Mechanics I)	3-0-0	3.0
MNL E 462 (Petroleum Reservoir Fluids)	3-1s-0	3.5
MNL E 464 (Drilling & Completion)	3-1s-0	3.5
MNL E 588 (Petroleum Field Trip)	—	—

MNL E 495 (Statistical Methods for Mineral Engineers)	2-1s-0	2.5
MNL E 499 (Mineral Seminar I)	0-1s-0	0.5
		Total 20.3

Sixth Term

	Hours	Units
CH E 410 (Heat and Mass Transfer)	3-0-1	3.5
E E 302 (Electrical Eng. Devices)	3-0-3/2	3.8
ENGG 420 (Engineering Law)	3-0-0	3.0
GEOL 320 (Sedimentation & Stratigraphy)	3-0-3	4.5
MNL E 466 (Pet. Production Operations)	3-0-0	3.0
MNL E 564 (Well Logging and Formation Evaluation)	3-0-0	3.0
		Total 20.8

Seventh Term

	Hours	Units
ECON 365 (Resource Economics)	3-0-0	3.0
MNL E 573 (Fundamental Reservoir Eng.)	3-0-3/2	3.8
MNL E 584 (Petroleum Engineering Design)	2-0-3	3.5
MNL E 597 (Operations Research)	3-1s-0	3.5
MNL E 599 (Mineral Seminar II)	0-1s-0	0.5
Elective (e.g. Humanities)		3.0
Elective (See Note C)		3.0
		Total 20.3

Eighth Term

	Hours	Units
ENGG 500 (The Practice of the Engineering Profession)	1-0-0	1.0
MNL E 575 (Applied Reservoir Eng.)	3-1s-0	3.5
MNL E 577 (Modelling in Petroleum Engineering)	3-0-0	3.0
MNL E 589 (Petroleum Seminar)	1-0-0	1.0
MNL E 596 (Case Studies in Mineral Engineering)	1-3s-0	2.5
Elective (e.g. Humanities)		3.0
Elective (See Note C)		3.3
		Total 17.3

83.7.7 RECOMMENDED PROGRAM METALLURGICAL ENGINEERING

Fifth Term

	Hours	Units
CH E 412 (Fluid Mechanics)	3-1s-0	3.5
MNL E 431 (Mineral Processing I)	3-0-3	4.5
MNL E 440 (Met. Thermodynamics & Kinetics)	3-0-0	3.0
MNL E 457 (Fundamentals of Physical Metallurgy I)	3-0-3	4.5
MNL E 495 (Statistical Methods for Mineral Engineers)	2-1s-0	2.5
MNL E 499 (Mineral Seminar I)	0-1s-0	0.5
Elective (See Note C)		3.0
		Total 21.5

Sixth Term

	Hours	Units
CH E 410 (Heat and Mass Transfer)	3-1s-0	3.5
MNL E 432 (Pyrometallurgy)	3-0-3/2	3.8
MNL E 545 (Corrosion & Oxidation)	3-0-0	3.0
MNL E 458 (Fund. of Physical Met. II)	3-0-3	4.5
PHYS 333 (Electricity & Magnetism)	3-1s-3	5.0
		Total 19.8

Seventh Term

	Hours	Units
MNL E 530 (Hydrometallurgy & Electrometallurgy)	3-0-3/2	3.8
MNL E 540 (Met. Research Project I)	0-0-3	1.5
MNL E 548 (Metallurgical Field Trip)	— —	— —
MNL E 552 (Applications of Physical Met. I)	3-0-3/2	3.8
MNL E 597 (Operations Research)	3-1s-0	3.5
MNL E 599 (Mineral Seminar II)	0-1s-0	0.5
Elective (e.g. Humanities)		3.0
Elective (See Note C)		3.8
		Total 19.9

Eighth Term

	Hours	Units
CH E 548 (Comp. Appl. in Process Control)	3-0-3/2	3.8
ENGG 500 (The Practice of the Engineering Profession)	1-0-0	1.0
MNL E 541 (Met. Research Project II)	0-0-6	3.0
MNL E 549 (Metallurgical Seminar)	1-0-0	1.0
MNL E 553 (Applications of Phys. Met. II)	3-0-3/2	3.8
Elective (e.g. Humanities)		3.0
Elective (See Note C)		3.2
		Total 18.8

83.7.8 ELECTIVE COURSES

Elective courses for all programs in Mineral Engineering may be chosen from those offered by the Department, the Faculty of Engineering, or by the Faculties of Arts, Science, Business Administration and Commerce. Departmental approval is required for all elective courses.

83.8 B.Sc. Program in Agricultural Engineering

A four-year program in Agricultural Engineering is offered cooperatively by the Faculty of Agriculture and Forestry and the Faculty of Engineering. The program is administered by a Joint Agricultural Engineering Curriculum Committee consisting of the Deans of the Faculty of Agriculture and Forestry and the Faculty of Engineering (or their representatives), the Agricultural Engineering Program Coordinator, the Chairman, Department of Agricultural Engineering, or another member of the Department if the Chairman is also Coordinator, and two full-time Academic members selected by and from the Faculty of Engineering.

For administrative purposes students in the program will be registered in the Faculty of Agriculture and Forestry.

(1) *Admission.* The matriculation requirements are set out in section 13.3.1. of the University Regulations and Information for Students calendar.

(2) *Promotion.* Promotion from year to year will be decided by the Joint Committee but in general the requirements for promotion will be the same as those of the Faculty of Engineering.

(3) *Graduation.* The Joint Committee will recommend approval of the candidate for the degree by the Council of the Faculty of Agriculture and Forestry.

(4) *Scholarships.* Details of scholarships for which students in the program are eligible are listed under the Faculty of Agriculture and Forestry and Faculty of Engineering Awards section of the Calendar.

ALL INQUIRIES SHOULD BE DIRECTED TO THE DEAN OF THE FACULTY OF AGRICULTURE AND FORESTRY (TELEPHONE 432-4931) OR THE CHAIRMAN OF THE DEPARTMENT OF AGRICULTURAL ENGINEERING (TELEPHONE 432-4251).

83.8.1 GENERAL INFORMATION

Agricultural Engineering applies engineering principles to the industry of agriculture. It involves engineering design of machinery, structures and environmental systems for plant and animal production, use of energy sources, processing systems for agricultural products and applications of engineering to the use of soil, water and other natural resources.

The program of studies in Agricultural Engineering provides a background for careers in design, development, manufacture, testing and research in industries related to agricultural production.

The core curriculum contains basic sciences, mathematics as well as introductory engineering and agricultural courses.

The selection of technical electives allows students to obtain additional depth in Agricultural Engineering and / or related areas.

The next field trip will be in September 1982.

83.8.2 REQUIRED COURSES

In addition to the courses listed under 83.1.1 (the required courses for all students within the Faculty consisting of 48.2 units of physical and engineering sciences; 3 units of economics; and 12 units of humanities, social sciences and the communicative arts), the following courses are required for a B.Sc. in Agricultural Engineering.

(1) AG EN 301, 313, 413, 421, 453, 454, 500, 503, 510, CH E 324, CIV E 350, 351, 360, 473, 480, E E 301, 302, FD SC 588, MEC E 350, 431, SOILS 310.

(2) credit in: one of BIOL 296, 298 or 299; credit in: one of AN SC 300, 372 or 460; credit in: one of PL SC 300, 352, 354, 355, or 341; credit in: CMPUT 300 or equivalent; credit in: STATS 241 or equivalent.

(3) credit in a minimum of 12 units of approved technical electives.

A student with a high academic standing (GPA 7.0 or better) may make some limited substitutions in the required course pattern, in order to obtain additional depth in a specific area.

All programs must be approved by the Department of Agricultural Engineering.

83.8.3 RECOMMENDED PROGRAM

First Term — Detailed in § 83.2

Second Term — Detailed in § 83.2

Third Term

	Hours	Units
MATH 312 (Linear Algebra and Infinite Series)	3-0-0	3.0
CMPUT 300 (Problem Solving and Programming)	2-0-1	2.5
SOILS 310 (Introduction to Soil Science)	3-0-3	4.5
AG EN 313 (Soil and Water Engineering)	3-0-2	4.0
Elective (eg. Humanities)	3-0-0	3.0
Elective (eg. BIOL 296)	3-0-3	4.5
		Total *21.5

Fourth Term

	Hours	Units
MATH 313 (Differential Equations I)	3-0-2	4.0
MATH 315 (Calculus III)	3-0-0	3.0
CIV E 350 (Plane Surveying)	2-0-2	3.0
CIV E 360 (Mechanics of Deformable Bodies)	3-0-3	4.5
CH E 324 (Engineering Thermodynamics)	3-1s-0	3.5
MEC E 350 (Engineering Mechanics — Dynamics)	3-0-0	3.0
CIV E 351 (Survey Camp)		3.0
		Total 24.0

Fifth Term

	Hours	Units
E E 301 (Elements of Electrical Engineering)	3-0-3/2	3.8
MEC E 431 (Fluid Mechanics I)	3-0-1	3.5
AG EN 301 (Heating and Ventilating and Air Conditioning Agricultural Buildings)	3-0-3	4.5
Elective (e.g. STAT 241)	3-0-2	4.0
Elective (e.g. Humanities)	3-0-0	3.0
AG EN 500 (Agricultural Engineering Field Trip)	—	—
		Total *18.8

Sixth Term

	Hours	Units
E E 302 (Electrical Engineering Devices)	3-0-3/2	3.8
CIV E 473 (Introduction to Structural Design)	3-0-3	4.5
CIV E 480 (Soil Mechanics)	3-0-3	4.5
AG EN 421 (Simulation Methods in Agricultural Engineering)	3-0-3	4.5
Elective (e.g. Technical)	3-0-0	3.0
Elective (e.g. PL SC 300)	3-0-0	3.0
		Total *23.3

Seventh Term

	Hours	Units
AG EN 453 (Power Units)	3-0-3	4.5
FD SC 588 (Heat and Mass Transfer in Food Engineering)	3-0-0	3.0
Elective (e.g. AN SC 372)	3-0-3	4.5
Elective (e.g. Technical)	3-0-0	3.0
Elective (e.g. Technical)	3-0-0	3.0
Elective (e.g. Humanities)	3-0-0	3.0
		Total *21.0

Eighth Term

	Hours	Units
AG EN 413 (Irrigation and Drainage Engineering)	3-0-3	4.5
AG EN 454 (Agricultural Machinery)	3-0-3	4.5
AG EN 503 (Instrumentation in Agricultural Engineering)	3-0-3	4.5
AG EN 510 (Agricultural Engineering Project)	1-0-4	3.0
ENGG 500 (The Practice of the Engineering Profession)	1-0-0	1.0
Elective (e.g., Technical)	3-0-0	3.0
		Total *20.5

*Total units are approximate depending on choice of electives.

83.8.4 ELECTIVE COURSES

Electives in the Agricultural Engineering Program may be chosen from courses offered by the Faculties of Agriculture and Forestry, Arts, Business Administration and Commerce, Engineering or Science.

Typical technical elective courses are: AG EN 420, 456, 552, 555; CIV E 420, 431, 520, 541, 590, LEG R 310; CHEM 250; CMPUT 458; CH E 548; E E 569; ENGG 420; MATH 413; MEC E 460, 461, 464, 481, 541, 584; MNL E 351, 352; MICRB 201; SOILS 360, 425, 440, 470.

Students will consult with their faculty advisors for assistance in choosing technical and humanities electives. All programs must be approved by the department.

83.9 Graduate Studies

The University of Alberta offers the degrees of Master of Engineering, Master of Science, and Doctor of Philosophy in many fields of Engineering. Details of these programs are given in the Faculty of Graduate Studies and Research Calendar.

84.1 General Information

Courses offered by the Faculty of Engineering are listed here in alphabetical order; courses open to Engineering students but offered by other faculties are listed separately in § 84.9. Agricultural Engineering courses are listed in § 84.8.

Each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their registration forms.

"☐" — This symbol stands for "course units". The number following indicates the units of the course as used in computing grade-point averages. The number of units is based on the number of hours of lectures, seminars, and laboratories. Some honors and graduate courses involving research may vary in unit value according to the length and difficulty of the research project. Some courses are offered for credit only, and carry no unit value.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hour (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The expression "3/2" means three hours of instruction every second week. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated. If the course is a single term course, the term in which it may be offered is mentioned before the hours of instruction.

"★" — This symbol stands for "course weight". The number following indicates the weight of the course as used in computing grade-point averages for students who are registered in a faculty other than Engineering.

Prerequisite requirements have in some cases been listed. Confirmation of whether or not a course has a prerequisite must be obtained from the Department.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

84.2 Chemical Engineering

84.2.1 UNDERGRADUATE COURSES

CH E 324. *Engineering Thermodynamics.* ☐ 3.5 (either term, 3-1s-0). An introduction to the first and second laws of thermodynamics. Prerequisite: MATH 213. (★3.)

CH E 356. *Process Analysis.* ☐ 3.5 (Second Term, 2-3s-0). Steady and unsteady state; material and energy balances; introduction to process engineering economics. Corequisites: CH E 324, CHEM 370 and MATH 315 or equivalent. (★3.)

CH E 378. *Statistical Applications in Chemical Engineering.* ☐ 2.5 (Second Term, 2-1s-0). Statistical methods for the analysis of problems in the field of engineering. Prerequisite: MATH 213, Prerequisite or Corequisite: CMPUT 300. (★2.)

CH E 410. *Heat and Mass Transfer.* ☐ 3.5 (Second Term, 3-1s-0). Steady and unsteady conduction; convection; thermal radiation; leaching; extraction; absorption; distillation. Prerequisite: CH E 412. (★3.)

CH E 412. *Fluid Mechanics.* ☐ 3.5 (First Term, 3-1s-0). Newtonian and non-Newtonian fluid behavior; viscometric measurements; elements of potential and boundary layer theory; laminar, turbulent and compressible flow; two-phase flow, settling of solids, porous media. Prerequisites: CH E 356, MATH 313 and 315. (★3.)

CH E 414. *Heat Transfer.* ☐ 3.5 (Second Term, 3-1s-0). Conduction; thermal radiation; convection; evaporation; macroscopic energy balances. Prerequisite: CH E 412. (★3.)

CH E 416. *Equilibrium Stage Processes.* ☐ 4.0 (Second Term, 3-2s-0). Design of separation processes with emphasis on equilibrium stage concept, distillation, absorption, extraction, and adsorption. Prerequisite: CHEM 370. (★3.)

CH E 424. *Chemical Engineering Thermodynamics.* ☐ 3.5 (First Term, 3-1s-0). The thermodynamics of non-ideal gases and liquids; vapor-liquid equilibrium, and thermodynamics of chemical processes. Prerequisites: CH E 324 and MATH 313 or equivalent. (★3.)

CH E 451. *Chemical Engineering Laboratory I.* ☐ 3.0 (First Term, 1-0-4). Experiments in fluid mechanics. Corequisite: CH E 412. (★3.)

CH E 452. *Chemical Engineering Laboratory II.* ☐ 3.0 (Second Term, 1-0-4). Experiments in heat transfer and thermodynamics. Corequisite: CH E 414. (★3.)

CH E 456. *Chemical Engineering Design I.* ☐ 3.5 (Second Term, 2-3s-0). Engineering design concepts; profitability analysis; engineering economics; projects planning and scheduling: selected projected design examples. Prerequisites: CH E 356 and MATH 312. (★3.)

CH E 476. *Mathematical Application.* ☐ 3.5 (either term, 3-1s-0). Mathematical formulation of engineering problems; solution of the resulting equations. Prerequisites: MATH 313 and 315. (★3.)

CH E 484. *Industrial Tours—I.* ☐ 0.0. Guided visits to selected industrial plants, laboratories and field installations. Corequisite: CH E 451. (★0.)

CH E 502. *Process Design for Pollution Control.* ☐ 3.5 (First Term, 3-1s-0). A course designed to deal with special processes, design techniques and operating procedures related to environmental and ecological considerations. Emphasis is placed on the fundamentals of air pollution and its control. Prerequisite: Consent of instructor. (★3.)

CH E 518. *Diffusion Operations.* ☐ 3.0 (Second Term, 2-2s-0). Molecular diffusion; mass transfer coefficients; design of continuous contact mass transfer processes including absorption, humidification, and drying. Prerequisite: CH E 412. (★3.)

CH E 520. *Energy Resource Development.* ☐ 3.0 (Second Term, 3-0-0). A broad technological and economic assessment of energy resource development projects in Western Canada. Medium and long term scientific and technological perspectives. Future supply-demand scenarios analyzed by large scale energy models such as AERAM and PILOT. Implications of policy decisions in the areas of taxation, financing arrangements, export-import restrictions and energy pricing regulations. (The course is interdisciplinary, with lecturers from several University departments including the Department of Economics.) Prerequisite: Consent of instructor. (★3.)

CH E 522. *Natural Gas Processing.* ☐ 3.5 (Second Term, 3-1s-0). An introduction to the physical, chemical and engineering principles required for the design and operation of plants used for the treatment of natural gas and associated liquids. The removal and recovery of sulphur plus other substances obtained from natural gas is also considered. Prerequisites: CH E 414, 424, and 416, or consent of instructor. (★3.)

CH E 534. *Chemical Reactor Analysis.* ☐ 3.5 (First Term, 3-1s-0). Kinetics of homogeneous and heterogeneous chemical reactions; design of chemical reactors and related equipment. Prerequisites: CH E 414 and CHEM 370. (★3.)

CH E 536. *Chemical Kinetics and Catalysis.* ☐ 3.5 (First Term, 3-1s-0). Characterization of heterogeneous catalysts; mechanisms and kinetics of heterogeneously catalyzed reactions. Prerequisite: CH E 414 or consent of instructor. (★3.)

CH E 538. *Polymer Reactor Engineering.* ☐ 3.5 (Second Term, 3-1s-0). Introduction to chain and step polymerization kinetics; physical, chemical and mechanical characterization methods for polymers; bulk, suspension, solution and emulsion polymerization processes; copolymers; polymerization reactor design and control. Prerequisite: CH E 534 or consent of instructor.

CH E 540. *Introduction to Real-Time Computer Applications.* ☐ 4.5 (First Term, 3-0-3). Introduction to real-time computer hardware and operating systems; data acquisition techniques; analog supervisory and direct-digital control; applications involving research experiments, analytical instruments and analog-digital computer hybrid systems; data processing techniques. Laboratory will involve student use of Department's real-time digital computer and interfaced applications. Prerequisite: CMPUT 300 or equivalent. (★3.)

CH E 542. *Process Modelling and Simulation.* ☐ 3.8 (First Term, 3-0-3/2). Modelling of process systems; analog simulation; digital simulation; numerical solutions. Prerequisite: CH E 414. (★3.)

CH E 544. *Process Control.* ☐ 3.8 (Second Term, 3-0-3/2). Linear and non-linear analysis; process equipment control schemes; sampled data and computer control. Prerequisite: CH E 546. (★3.)

CH E 546. *Process Dynamics and Control.* ☐ 3.5 (First Term, 3-1s-0). Control applications; process transfer functions; transient response; stability criteria; real-time data acquisition and computer control. Prerequisites: MATH 313 and 315. (★3.)

CH E 548. *Computer Applications in Process Control.* ☐ 3.8 (Second Term, 3-0-3/2). Block diagrams; transfer functions of systems of interest to process engineers; analog simulation; frequency response; time and frequency domain control system design techniques; control system design by computer; computer control. Prerequisites: MATH 313 and 315. (★3.)

CH E 551. *Chemical Engineering Laboratory III.* ☐ 3.0 (First Term, 1-0-4). Experiments in control, kinetics and mass transfer. Corequisites: CH E 416 and 534. (★3.)

CH E 552. *Chemical Engineering Laboratory IV.* ☐ 2.0 (Second Term, 1-0-4/2). Projects in Chemical Engineering. Prerequisites: CH E 416 and 534. (★3.)

CH E 555. *Process Optimization.* ☐ 3.5 (Second Term, 3-1s-0). Single and multivariable search techniques; linear programming; dynamic programming; EVOP; variational methods. Prerequisites: CH E 414 and MATH 313 or consent of instructor. (★3.)

CH E 556. *Chemical Engineering Design II.* ☐ 4.0 (Second Term, 1-0-6). Integration of chemical engineering practice and theory in the design of a processing plant. Prerequisites: CH E 416, 456 and 534. (★3.)

CH E 560. *Man and His Environment.* ☐ 3.5 (Second Term 3-1s-0). The massive environmental problems of over-population, pollution and scarcity of non-renewable resources will be considered quantitatively and from a systems point of view. Topics include: demographic analysis; energy, mineral, water and agricultural resources; environmental degradation; structure of urban communities; concepts of an ecosystem; computer models of complex systems. Course is interdisciplinary, with lecturers from several University Departments. Restricted to students registered in the 6th to 8th terms. (★3.)

CH E 576. *Mathematical Applications.* ☐ 3.0 (First Term, 3-0-0). Mathematical formulation of engineering problems; solution of the resulting differential equations by transform techniques: Laplace, Fourier, and Z-transformations; considerations of stability. Prerequisites: MATH 313 and 315. (★3.)

CH E 581. *Colloquium I.* ☐ 0.5 (First Term, 0-1s-0). Oral presentation of technical material. Prerequisite: CH E 456. (★1.)

CH E 583. *Colloquium II.* ☐ 0.5 (Second Term, 0-1s-0). Oral presentation of technical material. Prerequisite: CH E 581. (★1.)

CH E 584. *Industrial Tours—II.* ☐ 0.0. Guided visits to selected industrial plants, laboratories and field installations. Prerequisite: CH E 484. (★0.)

84.2.2 GRADUATE COURSES

CH E 610. *Advanced Mass Transfer Operations.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CH E 612. *Advanced Fluid Mechanics.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 613. *Selected Topics in Mass Transfer.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CH E 614. *Advanced Heat Transfer.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CH E 615. *Advanced Separation Processes.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 616. *Rheology and Polymer Processing.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CH E 622. *Advanced Physical Properties and Behavior of Petroleum Fluids.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 624. *Advanced Thermodynamics.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 634. *Advanced Chemical Reactor Design.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 636. *Advanced Chemical Kinetics and Catalysis.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 640. *Real-Time Computer Applications.* ☐ 4.5 (First Term, 3-0-3). Note: Credit will not be given for both CH E 640 and CH E 540. (★3.)

CH E 642. *Dynamics of Process Systems.* ☐ 3.8 (Second Term, 3-0-3/2). (★3.)

CH E 644. *Advanced Process Control.* ☐ 3.8 (Second Term, 3-0-3/2). (★3.)

CH E 654. *Decision Analysis.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 674. *Numerical Solutions of Engineering Problems.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 676. *Applied Mathematics I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CH E 678. *Applied Mathematics II.* ☐ 3.0 (either term, 3-0-0). (★3.)

CH E 682. *Graduate Seminar.* ☐ 0.5 (0-1s-0). (★1.)

CH E 694. *Advanced Topics in Chemical Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

CH E 900. *Non-Thesis Project.* ☐ 3.0 (Variable). (★3.)

84.3 *Civil Engineering*

84.3.1 UNDERGRADUATE COURSES

CIV E 301. *Civil Engineering Design.* ☐ 3.0 (Second Term, 2-0-2). Introduction to basic concepts of design, systems analysis and decision making as applied to civil engineering problems. Prerequisite: MATH 312; corequisite: CIV E 302 or equivalent. (★3.)

CIV E 302. *Civil Engineering Applications of Computer Programming.* ☐ 3.0 (Second Term, 2-0-2). Fortran programming with Civil Engineering applications. (★3.)

CIV E 350. *Plane Surveying.* ☐ 3.0 (Second Term, 2-0-2). Surveying instruments, measurement and measurement errors, field surveying, electronic distance measurements, computations. (★3.)

CIV E 351. *Survey Camp.* ☐ 3.0 (Two weeks at end of Second Term). Practical exercises in field methods, project type of assignments; field astronomy, electronic distance measuring instruments. Note: Survey School is held off campus. Prerequisite: CIV E 350. (★3.)

CIV E 360. *Mechanics of Deformable Bodies I.* ☐ 4.5 (either term, 3-0-3). Plane stress and strain; stress-strain relationships; stresses and deformations resulting from axial and transverse loads; buckling of columns; torsion of circular sections; combined stress and statically indeterminate problems; Laboratory to demonstrate mechanical properties and verify assumptions of analysis. Prerequisites: ENGG 231 and MATH 213. (★3.)

CIV E 361. *Introduction to Solid Mechanics.* ☐ 3.5 (Second Term, 3-1s-0). Stress, strain and displacements in two and three dimensions. Stress-strain relations. Governing equations of elasticity and simple solutions. Strain energy and virtual work. Theories of failure. Prerequisites: CIV E 360 and MATH 315. (★3.)

CIV E 401. *Civil Engineering Materials.* ☐ 3.8 (First Term, 3-0-3/2). Properties of Portland cement concrete related to micro- and macro-structure and constituent materials; properties of bituminous materials and design of bituminous mixes; epoxy compounds. Prerequisite: MNL E 352. (★3.)

CIV E 404. *Civil Engineering Analysis I.* ☐ 2.5 (First Term, 2-0-2/2). The formulation of partial differential equations modelling civil engineering problems and an introduction to classical solution techniques. Prerequisites: MATH 313 and CIV E 361. (★3.)

CIV E 405. *Civil Engineering Analysis II.* ☐ 2.5 (First Term, 2-0-2/2). Statistical and probabilistic approaches to civil engineering problems. Prerequisites: MATH 213 and CIV E 302. (★3.)

CIV E 408. *Civil Engineering Analysis III.* ☐ 4.0 (Second Term, 3-0-2). Application of numerical methods to civil engineering problems. Prerequisites: CIV E 302, MATH 312 and 315. (★3.)

CIV E 420 *Environmental Engineering I.* ☐ 3.0 (Second Term, 3-0-0). Domestic and industrial requirements, transportation, and distribution of water; water quality and chemistry; physical, chemical, and biological treatment processes for water and wastes. Prerequisite: CHEM 203 or equivalent. (★3.)

CIV E 430. *Introduction to Fluid Mechanics* ☐ 3.8 (First Term, 3-0-3/2). Fundamental principles of fluid mechanics; an introduction to the first and second laws of thermodynamics. Prerequisite: MEC E 350. (★3.)

CIV E 431. *Hydraulics.* ☐ 4.5 (Second Term, 3-0-3). Similitude and dimensional analysis; closed conduit flow; rotodynamic machines; open channel flow, unsteady flow. Prerequisite: CIV E 430. (★3.)

CIV E 450. *Geodesy and Photogrammetry.* ☐ 4.5 (First Term, 3-0-3). Geodesy; cartography; legal survey systems; photogrammetry; photographic interpretation; application in laboratory. Prerequisite: CIV E 350. (★3.)

CIV E 460. *Structural Analysis I.* ☐ 3.5 (First Term, 3-1s-0). Deformations of statically determinate beams, trusses and frames, influence lines; analysis of statically indeterminate structures by consistent deformations, slope deflection and moment distribution. Prerequisite: CIV E 360. (★3.)

CIV E 471. *Structural Design I.* ☐ 2.8 (First Term, 2-0-3/2). Introduction to structural design; loads; design of timber beams, columns, connections and curved members. Prerequisite: CIV E 360. (★3.)

CIV E 472. *Structural Design II.* ☐ 4.5 (Second Term, 3-0-3). Ultimate strength design of reinforced concrete beams, columns, footings and slabs. Prerequisite: CIV E 471. (★3.)

CIV E 473. *Introduction to Structural Design.* ☐ 4.5 (Second Term, 3-0-3). Fundamental principles of structural design; loadings; timber, steel and concrete beams, columns and connections. This course is not offered to students in Civil Engineering. Prerequisite: CIV E 360. (★3.)

CIV E 480. *Soil Mechanics.* ☐ 4.5 (Second Term, 3-0-3). Soil classifications; site investigation; principle of effective stress; theories of steady seepage and consolidation; compaction of soils; mechanical properties of soils; introduction to the application of the theories of elasticity and plasticity. Prerequisites: GEOL 390 and CIV E 361 or equivalent. Corequisite: CIV E 406. (★3.)

CIV E 500. *Civil Engineering Report Writing.* ☐ 2.0 (Second Term, 1-2s-0). Written and oral communication; lectures and practice on presentation of oral and written reports; a comprehensive written report must be submitted by each student. Prerequisite: Consent of the Department. (★3.)

CIV E 501. *Project Management.* ☐ 3.8 (Second Term, 3-0-3/2). Planning and scheduling; theories and techniques of project management. Prerequisite: CIV E 301. (★3.)

CIV E 502. *Impact Evaluation of Civil Engineering Projects.* ☐ 3.5 (Second Term, 3-2s/2-0). The need and regulations concerning environmental impact assessment are presented. Methods of analysis (matrix and network analysis techniques), parameter considerations, decision criteria, project evaluation and modification criteria, decision models, and impact of past projects. Prerequisite: CIV E 420 or consent of Department. (★3.)

CIV E 510. *Highway Engineering.* ☐ 4.0 (First Term, 3-0-2). Traffic planning; highway economics; geometric design. Earthwork; compaction, frost action; pavement design; stabilization; construction and maintenance. Prerequisites: CIV E 350, 401 and 480. (★3.)

CIV E 511. *Transportation Operations and Planning.* ☐ 3.0 (Second Term, 3-0-0). Elements of transportation systems, surveys, traffic control, principles of transportation planning, transportation management, urban transportation alternatives. Prerequisite: CIV E 510. (★3.)

CIV E 512. *Town Planning.* ☐ 3.5 (Second Term, 3-1s-0). Historical growth and development of cities; growth and decay; population forecasting; urban land use and land planning; transportation planning; public services; planning legislation; outline plan preparation. Prerequisite: CIV E 420 or consent of Department. (★3.)

CIV E 520. *Environmental Engineering II.* ☐ 4.5 (First Term, 3-0-3). Municipal engineering; general effects of wastes on the environment; solid wastes management; design of storm drains, subdivision regulations and major design projects; laboratory tests on water and wastes; field trip. Prerequisite: CIV E 420 or consent of Department. (★3.)

CIV E 531. *Environmental Fluid Mechanics.* ☐ 4.0 (Second Term, 3-0-2). Turbulent flow: equations of motion and pollutant conservation equation; slender flows, jets and plumes. Mixing processes in rivers and lakes. Hydraulics of hot water and effluent discharges into water bodies. Oil spill in rivers and ocean. Prerequisite: CIV E 431. (★3.)

CIV E 540. *Hydraulic Engineering.* ☐ 4.5 (First Term, 3-0-3). Transient flow, pump and turbine characteristics, spillway and control structures. Prerequisite: CIV E 431. (★3.)

CIV E 541. *Hydrology.* ☐ 3.8 (First Term, 3-0-3/2). Water occurrence in nature and its relation to civil engineering; analysis of precipitation and stream flow data, precipitation-runoff relationships, ground water, river behavior. Prerequisite: Consent of Department. (★3.)

CIV E 550. *Geodesy I.* ☐ 4.5 (First Term, 3-0-3). Review of concepts in matrix algebra and in statistics; history and need for geodetic systems; three dimensional and terrestrial coordinate systems. Geometry of the ellipsoid. Types of latitude, Gauss and Soldner spheres; relationships between latitude and coordinate systems. Geodetic datums; topocentric systems; radii of curvature; curves on the ellipsoid; normal sections and geodesics; reduction of observations to ellipsoid surface. Lengths, angles, and coordinates on the ellipsoid. Prerequisite: Consent of the Department. (★3.)

CIV E 551. *Geodesy II.* ☐ 4.5 (Second Term, 3-0-3). Computations on the ellipsoid; direct and inverse problems in three dimensions; conformal mapping projections; meridian convergence; projected curves; loxodromes; mercator, transverse, and UTM projections. Physical geodesy; gravity and systems of heights; reductions and anomalies. Prerequisite: CIV E 550. (★3.)

CIV E 552. *Higher Surveying I.* ☐ 4.5 (First Term, 3-0-3). Methods of precise surveying with theodolites, tapes, electronic distance measuring equipment and precise levelling. Computations and error analysis. First and second order trilateration and triangulation procedures. Introduction to design of survey control networks. Prerequisites: CIV E 350 and 405 or consent of instructor. (★3.)

CIV E 553. *Higher Surveying II.* ☐ 4.5 (Second Term, 3-0-3). Application of statistical methods to: the analysis and design of measurement systems; the adjustment of triangulation, trilateration, traverse and control networks. Mathematical models and step by step adjustment procedures. Prerequisite: CIV E 552. Note: CIV E 550 and CIV E 551 will be offered in alternate years with CIV E 552 and 553. (★3.)

CIV E 560. *Structural Analysis II.* ☐ 4.0 (First Term, 3-2s-0). Numerical analysis of beams and columns; matrix methods. Prerequisite: CIV E 460. (★3.)

CIV E 570. *Structural Design III.* ☐ 4.5 (First Term, 3-0-3). Limit states design of steel structures, including tension members, columns, beams, beam-columns, composite beams, and connections. Prerequisite: CIV E 471. (★3.)

CIV E 571. *Structural Design IV.* ☐ 4.5 (Second Term, 3-0-3). Design of steel plate girders; design of prestressed concrete structures; design of masonry and reinforced masonry structural components. Two major design projects constitute the laboratory portion. Prerequisites: CIV E 472 and 570. (★3.)

CIV E 590. *Soil Engineering.* ☐ 4.5 (First Term, 3-0-3). Stability of natural slopes, cuts, and embankments, theories of earth pressure; design of temporary excavations and earth retaining structures; settlements of foundations; bearing capacity of foundations; pile foundations. Prerequisite: CIV E 480. (★3.)

CIV E 591. *Geotechnical Design.* ☐ 4.5 (Second Term, 3-0-3). Design and analysis of shallow and deep foundations and retaining structures. Slope stability of embankments and cuts including foundation excavations. Special problems in dewatering and underpinning. Prerequisite: CIV E 590. (★3.)

84.3.2 GRADUATE COURSES

CIV E 601. *Cement and Concrete Technology.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 609. *Special Topics in Civil Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 610. *Pavement Design.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 611. *Pavement Materials.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 612. *Transportation Design.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 613. *Transportation Systems Analysis.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 614. *Transportation Engineering.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 615. *Functional Planning and Geometric Design.* ☐ 3.5 (Second Term, 2-0-3). (★3.)

CIV E 616. *Public Transportation.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 619. *Advanced Topics in Transportation and Highway Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 620. *Environmental Engineering Measurements I.* ☐ 4.0 (First Term, 1-0-6). (★3.)

CIV E 621. *Municipal Distribution and Collection Systems.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 622. *Physical/Chemical Water and Wastewater Treatment.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 623. *Industrial Water and Wastewater Management.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 624. *Biological Waste Treatment Processes.* ☐ 3.0 (Second Term, 3-0-0). (★3.).

CIV E 625. *Engineering Management of Water Quality.* ☐ 3.0 (First Term, 3-0-0). (★3.).

CIV E 626. *Environmental Health Engineering.* ☐ 3.0 (Second Term, 3-0-0). (★3.).

CIV E 627. *Environmental Engineering Measurements II.* ☐ 4.0 (Spring Session, 1-0-6). (★3.).

CIV E 629. *Advanced Topics in Environmental Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 630. *Open Channel Flow.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 631. *Engineering Fluid Mechanics.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 632. *Hydraulic Structures.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 633. *Unsteady Flow in Pipes and Channels.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 634. *Applied Hydrodynamics.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 635. *Turbulent Flow.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 636. *Ice Engineering.* ☐ 3.5 (either term, 3-0-1). (★3.).

CIV E 639. *Advanced Topics in Fluid Mechanics and Hydraulics.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 640. *River Engineering.* ☐ 3.5 (Second Term, 3-0-1). (★3.)

CIV E 641. *Surface Water Hydrology.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 642. *Risk and Decision in Civil Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 643. *Flow Through Porous Media.* ☐ 3.5 (either term, 3-0-1). (★3.)

CIV E 644. *Sediment Transport.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 649. *Advanced Topics in Hydrology.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 660. *Advanced Structural Analysis I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 661. *Advanced Structural Analysis II.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 663. *Design of Shell Structures.* ☐ 3.0 (either term, 3-0-0). Offered alternate years. (★3.)

CIV E 664. *Introduction to Solid Mechanics.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 665. *Introduction to Finite Element Methods.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 666. *Structural Concepts.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 667. *Advanced Topics in the Finite Element Method.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 670. *Behavior and Design of Steel Members.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 671. *Behavior and Design of Steel Structures.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 672. *Behavior and Design of Concrete Members.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 673. *Behavior and Design of Concrete Structures.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 674. *Behavior and Design of Prestressed Concrete Structures.* ☐ 3.0 (either term, 3-0-0). (★3.).

CIV E 675. *Structural Analysis and Design.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 676. *Behavior and Design of Masonry Structures.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 679. *Advanced Topics in Structural Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 680. *Engineering Properties of Soils.* ☐ 4.0 (First Term, 3-1s-1). (★3.)

CIV E 681. *Seepage and Drainage.* ☐ 4.0 (First Term, 3-1s-1). (★3.)

CIV E 683. *Site Investigation Practice.* ☐ 2.0 (First Term, 2-0-0). (★3.)

CIV E 684. *Engineering Geology and Terrain Analysis.* ☐ 4.0 (First Term, 3-1s-1). (★3.)

CIV E 690. *Advanced Foundation Engineering.* ☐ 5.0 (Second Term, 4-1s-1). (★6.)

CIV E 693. *Foundation Engineering.* ☐ 3.0 (First Term, 3-0-0). (★3.)

CIV E 694. *Permafrost Engineering.* ☐ 4.0 (Second Term, 3-1s-1). (★3.)

CIV E 695. *Soil Structures.* ☐ 4.0 (Second Term, 3-1s-1). (★3.)

CIV E 696. *Geotechnical Aspects in Highway Engineering.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

CIV E 697. *Rock Engineering.* ☐ 4.0 (Second Term, 3-1s-1). (★3.)

CIV E 698. *Geotechnical Engineering of Oil Sands Development.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 699. *Advanced Topics in Soil Mechanics.* ☐ 3.0 (either term, 3-0-0). (★3.)

CIV E 900. *Non-Thesis Project.* ☐ 3.0. (Variable). (★3.)

84.4 *Electrical Engineering*

84.4.1 UNDERGRADUATE COURSES

NOTE A: A course listed for either term will be offered in either the First or the Second Term, not both.

NOTE B: In some cases prerequisite requirements may be waived with the consent of the Department.

E E 301. *Elements of Electrical Engineering.* ☐ 3.8 (First Term, 3-0-3/2). Circuit parameters, Kirchoff's Laws, basic circuit analysis including loop and node methods, Thevenin, natural and forced responses, steady state AC, power, power factor. Three phase, power transmission, frequency response and Bode plots, two ports. (★3.)

E E 302. *Electrical Engineering Devices.* ☐ 3.8 (Second Term, 3-0-3/2). Semi-conductors, rectification, transistor circuits and characteristics, amplifiers, feedback, special electronic devices, DC machines and speed control. AC machines, motor selection, introduction to feedback control. Transducers. Prerequisite: E E 301 or consent of the Department. (★3.)

E E 330. *Electrical Engineering Design I.* ☐ 2.5 (First Term, 2-1s-0). Introduction to Fortran programming; error analysis applied to electrical measurements; root solving and least square curve fitting in electrical engineering design. Corequisite: E E 355. (★3.)

E E 331. *Electrical Engineering Design II.* ☐ 2.5 (Second Term, 2-1s-0). Advanced Fortran programming techniques; numerical techniques applied to Electrical Engineering problems; numerical integration, interpolation, Runga Kutta methods, solution of linear and nonlinear circuit equations. Prerequisite: E E 330 or CMPUT 214; corequiste: E E 356. (★3.)

E E 354. *Fundamentals of Electrical Engineering.* ☐ 3.8 (Second Term, 3-0-3/2). Physical concepts of resistance, inductance and capacitance. Kirchoff's Laws and circuit equations of DC networks, magnetic circuits, energy concepts, time domain analysis of R-L, R-C and R-L-C networks, complex numbers and phasor algebra, impedance concept, power factor, resonance, three phase circuits, network theorems, measuring instruments, vacuum tube and transistor. (★3.)

E E 355. *Electrical Circuits I.* ☐ 4.3 (First Term, 3-1s-3/2). Definitions of linear elements, dependent and independent sources, sign conventions, basic circuit laws; node and mesh analysis, Thevenin, Norton and other theorems; phasor concepts, impedance, admittance, A.C. (sinusoidal) circuit analysis, validity of laws and theorems, phasor diagrams; average, effective values of waveforms, real, reactive and complex power, power factor correction; wye and delta

3-phase circuits, 3-phase power measurements; resonant circuits, frequency response, Q, half power points, bandwidth, effect on Q of non-ideal elements; mutual inductance, coupling. Prerequisite: MATH 213; corequisite MATH 317 (★3.)

E E 356. *Electrical Circuits II.* ☐ 4.3 (Second Term, 3-1s-3/2). Network topology-definitions of nodes, branches, network, graph, tree and links, independent network equations, loop and nodal analysis, self and mutual impedance and admittance; network transients — R-C, R-L, and R-L-C first and higher order systems, forced solutions, complete response using initial conditions for exponential and sinusoidal excitation; electronic devices, semi-conductor diodes, diode applications, transistors. Prerequisites: MATH 317 and E E 355. (★3.)

E E 379. *Introduction to Digital Electronics.* ☐ 3.4 (First Term, 3-0-3/4). Boolean Algebra including truth tables and Venn diagrams. Switching devices and their symbology with an introduction to NAND and NOR logic. Number systems, codes, minimization procedures, synthesis of combinational networks. Synchronous sequential circuits, flip-flops, counters. (No prerequisite). (★3.)

E E 403. *Electronic Instrumentation.* ☐ 3.8 (Second Term, 3-0-3/2). Fundamentals of electronics; amplification, oscillation, modulation applied to measuring instruments; methods of measuring non-electrical quantities. Examples of biomedical instrumentation. The laboratory will illustrate the use and limitations of typical instruments. Note: This course is offered for students of the Biological and Medical Sciences. (★3.)

E E 405. *Fundamentals of Electrical Engineering (for Mechanical Engineers).* ☐ 3.8 (Second Term, 3-0-3/2). Introduction to electronics, operational amplifiers and applications in instrumentation, higher-power electronic devices and applications; DC and AC rotating machines; speed control, machine selection; transient behavior and use of the Laplace transform. Prerequisites: E E 354. and PHYS 333 (★3.)

E E 415. *Engineering Electromagnetics I.* ☐ 3.5 (First Term, 3-1s-0). Review of vector calculus, electrostatics, and magnetostatics. Electric and magnetic fields in material media, including polarization mechanisms and generalized boundary conditions on D and H. Solutions to static field problems. Introduction to time-varying electromagnetic fields, including Maxwell's equations and waves in free space. Prerequisites: MATH 315, 318 and PHYS 331. (★3.)

E E 416. *Engineering Electromagnetics II.* ☐ 2.5 (Second Term, 2-1s-0). Wave impedance, velocities, and polarization. Standing and travelling waves. Poynting's theorem. Propagation in conducting media and dielectrics. Reflection and refraction. Transmission lines, including impedance matching and the Smith Chart. Rectangular waveguides. Prerequisite: E E 415. (★3.)

E E 423. *Electrical Engineering Analysis II.* ☐ 3.5 (Second Term, 3-1s-0). Applications of the theory of partial differential equations to Maxwell's equations, the diffusion equation, the transmission line equation, the Laplace equation. Transform methods. Prerequisite: E E 435. (★3.)

E E 430. *Electromechanics I.* ☐ 3.0 (First Term, 3-0-0). Magnetic circuits analysis with AC and DC excitation; properties of ferromagnetic materials; hysteresis and eddy current losses, stored energy, transformers, mechanical forces in magnetic devices, modelling and analysis of transducers. Prerequisite: E E 355. (★3.)

E E 431. *Electromechanics II.* ☐ 3.8 (Second Term, 3-0-3/2). An extension of E E 430 to rotating machines. Analysis and performance of DC, induction, and synchronous machines. Prerequisite: E E 430. (★3.)

E E 435. *Signals and Networks.* ☐ 3.5 (First Term, 3-1s-0). Signal representation by discrete, continuous and generalized exponentials (Fourier series and Transforms and Laplace Transforms), convolution and superposition integrals. Application of Laplace Transforms to networks, Bode diagrams, single and double tuned circuits, stability of networks. Prerequisites: E E 356; MATH 312, 315 and 318. (★3.)

E E 444. *Scientific and Technical Writing.* ☐ 2.0 (First Term, 2-0-0). Letters and technical memoranda. Professional resumes. Report writing: collecting and presenting material, communications planning sheets, abstracts, key words, referencing. The language of patents and other special documents; preparing and presenting "papers". Specific rules of style in technical and scientific writing. Writing R and D proposals.(★3.)

E E 451. *Network Analysis.* ☐ 2.9 (Second Term, 2-1s-3/4). Two port networks, Bessel filters; realizability; network synthesis (including driving point impedances; Foster and Cauer forms). Filter synthesis with passive and active components; sensitivity; practical constraints. Prerequisite: E E 435. (★3.)

E E 470. *Electronics I Active Devices.* ☐ 4.3 (First Term, 3-1s-3/2). Transport phenomena in semiconductors, characteristics of junction diodes, bipolar transistors and FETs. Transistor biasing and thermal stabilization. Transistor circuit models. Prerequisites: E E 356, and MATH 317. (★3.)

E E 471. *Electronics II Active Devices.* ☐ 4.3 (Second Term, 3-1s-3/2). Biasing and stability of active devices. Circuit and Device parameters, equivalent ciruits. AC analysis of active devices in various network configurations, frequency characteristics, Bode plots, feedback amplifiers. Prerequisite: E E 470. (★3.)

E E 479. *Digital Logic Design.* ☐ 3.4 (Second Term, 3-0-3/4). A continuation of E E 379. Design and realization of synchronous and asynchronous sequential circuits. Iterative networks, networks for arithmetic operations. Hazards in sequential networks. Special purpose devices including multiplexers, decoders, fast address multipliers, Arithmetic Logic Units, pressetable counters, etc. Error detecting codes. An introduction to micropressors. Prerequisite E E 379. (★3.)

E E 487. *Engineering Applications to Random Processes.* ☐ 3.0 (First Term, 3-0-0). Basic concepts and fundamental techniques of probability are applied to communications, telephone traffic, maintenance, reliability, queuing, random processes including coding, surges, and fading of signals. (★3.)

E E 489. *Introduction to Communication Systems.* ☐ 3.0 (Second Term, 3-0-0). Spectral analysis, amplitude modulation, multiplexing, frequency modulation and pulse code modulation. Prerequisite: E E 435. (★3.)

E E 501. *Electrical Design.* ☐ 3.0 (First Term, 3-0-0). Electrical design starting from fundamental principles using engineering methods. (★3.)

E E 507. *High Voltage Engineering.* ☐ 4.5 (Second Term, 3-0-3). High voltage phenomena on transmission lines, dielectric phenomena. AC testing, impulse testing and rating, grounding, circuit breaking. (★3.)

E E 511. *Analytical Methods of Electrical Engineering.* ☐ 3.5 (First Term, 3-1s-0). Applications of the theory of partial differential equations to Maxwell's equations, heat flow problems, the transmission line equation and Laplace's equation. Boundary value problems; Bessel functions; numerical methods. Prerequisite: E E 435. (★3.)

EE / BE 512. *Physical Measurements in Medicine.* ☐ 3.5 (Second Term, 3-1s-0). Properties of the cell membrane, Nernst-Planck equation, Donnan membrane, constant field membrane, membrane impedance. Action potentials, voltage clamp measurements, membrane conductance, H-H equations, nerve conduction. Mathematical models of the axon. Electrodes. Gas and blood gas analysis. The E.C.G., E.E.G., and the E.M.G., origin and type of these signals, measurement techniques. Blood flow and blood pressure measurements (invasive and non-invasive). Safety aspects of electrical equipment in medicine. Prerequisite: Consent of Department. (★3.)

E E 514. *Reliability Engineering.* ☐ 3.0 (either term, 3-0-0). Study of how and why electrical and mechanical systems and components fail; Murphy's law; definitions of reliability and failure modes; practical statistical distributions and frequency and duration approach for designing and evaluating system and component reliability levels; repairable, non-repairable and standby systems. Prerequisite: E E 487 or equivalent (★3.)

E E 521. *Power Systems I.* ☐ 3.0 (First Term, 3-0-0). Power system components, performance and characteristics of transmission lines, compensation, load flow and matrix methods, economic dispatch, DC transmission. (★3.)

E E 525. *Power Systems II.* ☐ 3.8 (Second Term, 3-0-3/2). Faults and unbalanced operation of systems, symmetrical components, stability and control, circuit breakers, tie line control, overvoltages, lightning and switching surges. Prerequisite: E E 521. (★3.)

E E 527. *Industrial Power Distribution.* ☐ 3.0 (First Term, 3-0-0). Fundamentals of engineering design of electrical distribution systems for buildings and electrical plants. Current design practices and engineering methods. Prerequisite: E E 43 (★3.)

E E 531. *Electrical Machinery.* ☐ 4.5 (First Term, 3-0-3). Electrical machinery: DC machines, power rectifying equip

ment, AC commutator machines and a more detailed study of selected topics from electrical engineering. Prerequisite: E E 431 (★3.)

E E 533. *Electrical Energy Sources.* ☐ 3.0 (Second Term, 3-0-0). Current energy consumptions and reserves. Growth rates. Electrical energy sources and their cost. This includes hydro generators, fossil fuel sources, nuclear fission reactors, MHD generators, solar cells, wind generators, thermonic generators, thermoelectric generators, fuel cells, nuclear fusion reactors, geothermal power sources. (★3.)

E E 535. *Advanced Digital Logic Design.* ☐ 3.0 (First Term, 3-0-0). Detailed study of programming and structure of various microcomputers. Typical design of logic systems using LSI components. Types of memories. A/D and D/A converters and their applications. Prerequisite: E E 479.(★3.)

E E 537. *Advanced Digital Topics.* ☐ 3.0 (Second Term, 1-0-4). Microprocessor circuitry and applications, with emphasis on laboratory construction. Prerequisites: E E 479 and 535. Enrolment by consent of Department. (★3.)

E E 538. *Introduction to Signal Theory and Processing.* ☐ 3.0 (First Term, 3-0-0). Review of Fourier analysis; sampled signals and the sampling theorem; the z-transform; design of recursive digital filters; discrete Fourier Transform, the periodogram. Fast Fourier Transform, Algorithms, aliasing, leakage; spectral analysis, applications. Prerequisites: E E 435 and 487. (★3.)

E E 539. *Digital Signal Processing.* ☐ 3.0 (Second Term, 3-0-0). Digital filter design, realization, and hardware implementation; finite-word-length effects. Selected applications. Prerequisites: E E 535, and 538. (★3.)

E E 541. *High Vacuum Technology.* ☐ 3.8 (Second Term, 3-0-3/2). Gas kinetics, gas flow, pumping speed theory, system design, pumping methods and pressure measurements, fabrication and leak detection techniques, adsorption and desorption processes, vacuum deposition techniques. (★3.)

E E 545. *Electrical Instruments and Relays.* ☐ 4.5 (Second Term, 3-0-3). A study of modern AC instruments, relays, and applications. (★3.)

E E 550. *Network Theory — Synthesis.* ☐ 3.0 (First Term, 3-0-0). Realizability, network synthesis (including driving-point impedances, Cauer and Foster forms), filter synthesis with passive and active components, including sensitivity and practical constraints. Prerequisite: E E 451. (★3.)

E E 560. *Control Systems I.* ☐ 4.5 (First Term, 3-0-3). Mathematical modeling of components, processes, and systems. Signal flow graphs, transfer functions and frequency response. Stability analyses of open and closed loop systems (Routh-Hurwitz criterion, root-locus method, Nyquist criterion). Error coefficients and time domain specifications. Basic compensation methods. Prerequisites: E E 435, 451 and MATH 408. (★3.)

E E 561. *Control Systems II.* ☐ 4.5 (Second Term, 3-0-3). Important nonlinearities in systems; describing function method. State space method to describe systems; the phase plane method. Economic systems, ecological systems. System dynamics approach. Simulation. Digital systems and design of digital controllers. Prerequisite: E E 560. (★3.)

E E 569. *Feedback Control Systems for Mechanical Engineers.* ☐ 3.8 (Second Term, 3-0-3/2). Linear models of electrical, mechanical, hydraulic and electromechanical components used in control systems. Block diagrams. Transfer functions. Time domain analysis of control systems. Root-locus diagrams. Frequency response. Stability considerations. Compensation of control systems. (★3.)

E E 570. *Electronics III.* ☐ 4.5 (First Term, 3-0-3). Linear and non-linear waveshaping circuits, large-signal models for bipolar and field-effect transistors, generation of linear voltage sweeps, multivibrators, gate circuits, A/D and D/A converters. Prerequisite: E E 471. (★3.)

E E 571. *Electronics IV.* ☐ 4.5 (Second Term, 3-0-3). Operational amplifier techniques, active filters, small-signal models for bipolar and field-effect transistors, tuned and untuned amplifiers, sinusoidal oscillators, modulation and demodulation techniques, device and system noise. Prerequisites: E E 451 and 570. (★3.)

E E 572. *Physical Electronics.* ☐ 3.0 (First Term, 3-0-0). Crystalline solids; quantum and wave theory of solids, electrons in periodic lattices; semiconductors; metal- structure; metal-insulator-semiconductor structure; high electric fields in semiconductors and failure mechanisms of semiconductor devices. Corequisite: E E 511. (★3.)

E E 575. *Generation of High Frequencies.* ☐ 3.8 (Second Term, 3-0-3/2). Fundamentals of microwave amplifiers and oscillators. Introduction to the principles of operation and the properties of important microwave tubes and microwave semiconductor devices. Prerequisite: E E 416. (★3.)

E E 577. *Pulse and Waveshaping Circuits.* ☐ 3.0 (Second Term, 3-0-0). Waveshaping circuits using passive elements and active devices; pulse generating circuits, mainly multivibrators and blocking oscillators; generation of linear voltage and current sweeps; other topics such as counting circuits, gating circuits, applications to computers, television, etc. Prerequisite: E E 471. Corequisite: E E 570. (★3.)

E E 583. *Introduction to Plasma and Fusion.* ☐ 3.0 (First Term, 3-0-0). Energy sources and conditions for nuclear fusion. Behavior of plasma. Collision phenomena. Boltzmann equation, transport properties, electrical breakdown of gases. Hydrodynamic and individual particle methods. Current experimental approaches to fusion — steady state and pulsed. State-of-the-art in confinement and heating of plasma. (★3.)

E E 585. *Acoustics.* ☐ 3.0 (First Term, 3-0-0). General laws; impedance; transducers; enclosures; room acoustics; etc. (★3.)

E E 586. *Introduction to Optical Fiber Communications.* ☐ 3.0 (Second Term, 3-0-0). Aspects of light transfer through dielectric fibers; optical and physical properties of optical fiber cables; principles and characteristics of sources and photodetectors. System design, light coupling, color multiplexing. Prerequisite: E E 416. (★3.).

E E 588. *Communication in Noise.* ☐ 3.0 (Second Term, 3-0-0). Probability, random variables and processes, Gaussian noise, noise in AM and FM Systems, data transmission, information theory and coding. Prerequisites: E E 487 and 489. (★3.)

E E 589. *Telecommunication Systems.* ☐ 3.5 (Second Term, 3-1s-0). Common-carrier telecommunication systems (including telephone networks); signal quality and systems specifications; exchange switching and queuing; distortion and signal-to-noise ratio; multiplexing, modems and frequency converters; transmission media, digital transmission methods, and system constraints; signal conditioning; field trips. Prerequisite: E E 587. (★3.)

E E 590. *Engineering Electromagnetics III.* ☐ 2.0 (First Term, 2-0-0). Cylindrical waveguides; cavity resonators, Q-factor, introduction to perturbation theory. Special theory of relativity; Lorentz transformation, relativistic kinematics, relativistic optics, space-time and 4-vectors, relativistic mechanics. Prerequisite: E E 416; corequisite: E E 511. (★3.)

E E 591. *Engineering Electromagnetics IV.* ☐ 3.0 (either term, 3-0-0). Introduction to radiation, antenna fundamentals, self- and mutual-impedances of linear antennas, arrays of linear antennas, practical considerations and feeding arrangements. Friis transmission equation, propagation between elevated antennas over a lossy earth, Fresnel zones and the effect of obstacles, earth curvature and the effects of normal refraction and ducting, tropospheric scatter, propagation in an ionized medium, ionospheric critical frequency and MUF. Prerequisites: E E 356 and 416. (★3.)

E E 593. *Advanced Topics in Engineering Electromagnetics.* ☐ 3.0 (Second Term, 3-0-0). Engineering aspects of wave propagation in ionized gases, waves in anisotropic media (including ferrites), magnetohydrodynamics, space charge waves, travelling wave tubes, accelerators, periodically loaded structures, surface waveguides, forces on dielectric and magnetic materials in non-uniform fields and their biomedical and industrial applications, perturbation theory. (★3.)

E E 596. *Introduction to Principles and Physics of Lasers.* ☐ 3.0 (Second Term, 3-0-0). Interaction of radiation with atoms, laser oscillations and threshold conditions, 3- and 4-level laser systems, rate equations, special properties of laser light, cavity Q and photon lifetime, optical resonators and lens waveguides, Gaussian beams, gain saturation, Q-switching, mode locking, interaction of light and sound, holography. Description of various lasers: solid, gas, semiconductor, dye, Raman and chemical. Laser applications. Prerequisite: E E 416 or equivalent. (★3.)

E E 597. *Microwave Engineering.* ☐ 3.8 (First Term, 3-0-3/2). Properties of transmission media, synthesis of impedance transformers, microwave junctions, scattering matrix and scattering parameters, properties of microwave cavities, filters, ferrite circulators and isolators. Prerequisite: E E 416. (★3.)

E E 598. *Special Problems I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 599. *Special Problems II.* ☐ 3.0 (Second Term, 3-0-0). Courses E E 598 and 599 are intended to enable individuals or a small group of students to study topics in their particular field of interest under the supervision of a member of the Faculty. (★3.)

84.4.2 GRADUATE COURSES

E E 600. *Research Project.* ☐ 0.5 (Second Term, 0-2s-0). (★0.)

E E 601. *Special Topics in Electrical Engineering I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 602. *Special Topics in Electrical Engineering II.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 603. *Departmental Research Seminar I.* ☐ 0.5 (First Term, 0-2s-0). (★0.)

E E 609. *Departmental Research Seminar II.* ☐ 0.5 (Second Term, 0-2s-0). (★0.)

E E 622. *Power System Problems I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 623. *Power System Problems II.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 628. *Radio Astronomy Techniques.* ☐ 3.0 (Second Term, 3-0-0). (★3.).

E E 629. *Advanced Topics in Power Systems.* ☐ 3.0 (either term, 3-0-0). (★3.)

E E 631. *Active Networks.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 632. *Solid State Circuit Design.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 635. *Logical Design of Digital Computers.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 639. *Advanced Topics in Electronics.* ☐ 3.0 (either term, 3-0-0). (★3.)

E E 641. *High Vacuum Technology.* ☐ 3.8 (either term, 3-0-3/2). (★3.)

E E 642. *Special Topics Using High Vacuum Technology.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 645. *Selected Laser Topics.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 649. *Advanced Topics in Lasers.* ☐ 3.0 (either term, 3-0-0). (★3.)

E E 651. *Network Synthesis I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 652. *Network Synthesis II.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 655. *Introduction to Modern Control Theory.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 656. *Statistical Communications.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 657. *Advanced Communication Theory.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 659. *Advanced Topics in Controls.* ☐ 3.0 (either term, 3-0-0). (★3.)

E E 660. *Optimal Control Systems.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 662. *Discrete Data Control Systems I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 663. *Discrete Data Control Systems II.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 665. *Biosystems Modelling and Analysis.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 666. *Nonlinear Systems Theory.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 668. *Sensory Communications.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 669. *Advanced Topics in Biomedical Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

E E 670. *Electromagnetic Theory.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 671. *Electromagnetic Waves.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 672. *Electron Dynamics.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 675. *Principles of Particle Accelerators.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 679. *Advanced Topics in Accelerators.* ☐ 3.0 (either term, 3-0-0). (★3.)

E E 680. *Microwave Measurements and Techniques.* ☐ 2.8 (Second Term, 2-0-3/2). (★3.)

E E 681. *Semiconductor Microwave Electronics.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 682. *Microwave Circuit Theory.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 689. *Advanced Topics in Microwaves.* ☐ 3.0 (either term, 3-0-0). (★3.)

E E 693. *Elements of Plasma Theory.* ☐ 3.0 (First Term, 3-0-0). (★3.)

E E 694. *Advanced Topics in Plasma Theory.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 695. *Plasma Devices and Diagnostics.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

E E 699. *Advanced Topics in Plasma.* ☐ 3.0 (either term, 3-0-0). (★3.)

E E 900. *Non-Thesis Project.* ☐ Variable (Variable). (★Variable.)

84.5 *Engineering, General*

ENGG 200. *Orientation to the Engineering Profession.* ☐ 2.0 (First Term, 2-0-0). An outline of the development and history of the engineering profession; the branches of engineering; the work of the engineer in the various branches. The course will consist basically of presentations from practitioners drawn from the various branches of engineering. Several written assignments will be required, which will form the basis for an assessment of the student's proficiency in report writing. (★2.)

ENGG 210. *Engineering Graphics.* ☐ 3.5 (either term, 2-0-3). Sketching, drafting and interpretation of pictorials and multiviews of three-dimensional objects; visual design; introduction to scales, sectioning; dimensioning. (★3.) Note: students in all sections of this course will write a common final examination.

ENGG 230. *Engineering Statics I.* ☐ 4.0 (either term, 3-0-2). Equilibrium of planar systems. Analysis of statically determinate trusses and frames. Friction. Virtual work. Three-dimensional equilibrium. Corequisite: MATH 212. (★3.) Note: students in all sections of this course will write a common final examination.

ENGG 231. *Engineering Statics II.* ☐ 3.0 (either term, 2-0-2). Centroids and centers of gravity. Forces in beams and cables. Force and moment diagrams. Distributed forces. Fluid Statics. Second moments of area. Prerequisites: ENGG 230 and MATH 212. (★3.) Note: students in all sections of this course will write a common final examination.

ENGG 305. *Engineering and Society.* ☐ 3.0 (Second Term, 3-0-0). An interpretative course on the art and science of engineering. Historical perspective. Basic concepts and techniques, including energy, equilibrium, decision-making, feedback, optimization. Examples of engineering design and analysis drawn from current societal problems in the areas of energy resources and environmental protection. Note: This course is offered for students registered in faculties other than the Faculty of Engineering. (★3.)

ENGG 420. *Engineering Law.* ☐ 3.0 (either term, 3-0-0). Contracts; specifications; agreements, industrial relations, labor laws, Workers' Compensation Act; building trades Protection Act, company law. The engineer as an expert witness; patents and inventions; trade marks; registered designs; copyrights. Note: Restricted enrolment. Registration approval by Dean's office only. (★3.)

ENGG 500. *The Practice of the Engineering Profession.* ☐ 1.0 (Second Term, 1-0-0). The technical and professional duties and responsibilities of the engineer, the ethics of the engineering profession, technical and professional organizations. The role of the engineer in the social environment. Note: Registration in this course is normally open only to those students in their final two terms. (★1.)

84.6 *Mechanical Engineering*

84.6.1 UNDERGRADUATE COURSES

MEC E 350. *Engineering Mechanics: Dynamics.* ☐ 3.0 (either term, 3-0-0). Moments of inertia. Kinematics and kinetics of rigid body motion, energy and momentum methods for plan motion, impact, mechanical vibrations. Prerequisites: ENG 230, 231 and MATH 213. (★3.)

MEC E 360. *Engineering Design.* ☐ 3.5 (Second Term, 2-0-3 Introduction to principles of design. Analysis and design components: joints, springs, flywheels, brakes, clutche Design as a decision making process. Prerequisite: CIV E 36 (★3.)

MEC E 402. *Mechanical Measurements.* ☐ 4.5 (First Term, 3-0-3). Characterization and behavior of typical measuring systems. Transducers and their response to steady and transient phenomena. Selected experiments in various fields of mechanical engineering to illustrate typical measurement situations. Prerequistes: CIV E 360 and MATH 213; corequiste: MEC E 431. (★3.)

MEC E 403. *Mechanical Engineering Laboratory I.* ☐ 2.5 (Second Term, 1-0-3). Selected laboratory experiments in applied mechanics and thermosciences. Prerequisite: MEC E 402. (★3.)

MEC E 412. *Operations Engineering.* ☐ 3.0 (Second Term, 2-0-2). The measurement and utilization of data by the engineer in industry. Types of data, effectiveness of data, models and methods of data collection, activity sampling, acceptance sampling, control charts. Prerequisite or corequisite: MEC E 402. (★3.)

MEC E 413. *Engineering Evaluation.* ☐ 3.0 (First Term, 3-0-0). The application of the fundamentals of economics to engineering alternatives in planning, developing and managing industrial projects. (★3.)

MEC E 431. *Fluid Mechanics I.* ☐ 3.5 (First Term, 3-0-1). Basic equations, hydrostatics. Bernoulli equation. Momentum theories, similitude, fluid metering, fluid friction in pipes. Compressible flow, boundary layers. Prerequiste: CH E 324. (★3.)

MEC E 440. *Applied Thermodynamics.* ☐ 3.0 (Second Term, 3-0-0). Thermodynamic analysis of cycles and propulsion systems applicable to engines, steam and gas turbines, elementary rockets, refrigeration, principles of combustion. Heat balance problems. Prerequisite: CH E 324. (★3.)

MEC E 450. *Vector Dynamics.* ☐ 3.0 (Second Term, 3-0-0). Kinematics of rigid bodies in three dimensions. Moments of inertia, equations of motion for a body, engineering applications. Prerequisite: MEC E 350. (★3.)

MEC E 460. *Machine Components.* ☐ 3.8 (Second Term, 3-0-3/2). Theories of failure, fatigue, stress concentration, contact stress. Design of welded structures, power screws, spur gears, worm gears. Study of rolling element bearings. Prerequisite: MEC E 360. (★3.)

MEC E 461. *Mechanics of Machines.* ☐ 2.8 (First Term, 2-0-3/2). Velocities and acceleration in plane mechanisms. Balancing of rotating and reciprocating machinery. Gears and gear trains. Prerequisite: MEC E 350. (★3.)

MEC E 464. *Manufacturing Processes.* ☐ 2.8 (Second Term, 2-0-3/2). Primary and secondary processes in metal forming. Material removal and fabrication techniques. Selected field trips and laboratory and shop exercises. Prerequisite: MEC E 360. (★3.)

MEC E 465. *Environmental Factors in Mechanical Engineering Design.* ☐ 3.0 (Second Term, 3-0-0). Properties of atmospheric environment important for engineering design and human comfort. Design considerations for extreme environments, dispersion and control of air pollution from stationary and mobile sources, thermal pollution. Noise control. Government legislation. Prerequisite: CH E 324. (★3.)

MEC E 470. *Heat Transfer.* ☐ 4.0 (Second Term, 3-2s-0). Mechanisms of heat transfer, steady and unsteady heat conduction. Thermal radiation, free and forced convection, heat exchanger selection. Prerequisite: MEC E 431. (★3.)

MEC E 471. *Transport Processes.* ☐ 3.0 (Second Term, 3-0-0). For Engineering students other than Mechanical Engineering students. Introduction to fluid mechanics, heat transfer, conduction, convection and thermal radiation. Prerequisites: CH E 324, MATH 317 and PHYS 331. (★3.)

MEC E 481. *Advanced Strength of Materials I.* ☐ 3.0 (First Term, 3-0-0). Review of analysis of beams and trusses; deflections of beams and trusses; analysis of statically indeterminate structures; application of methods to buildings, bridges, machine support structures and aircraft structures. Prerequisites: CIV E 360 and MATH 312. (★3.)

MEC E 490. *Development of Mechanical Engineering.* ☐ 2.0 (First Term, 2-0-0). The historical development of technology in western civilization: pre-industrial era; post-industrial era. The evolution of mechanical engineering devices and techniques during the last two centuries. Technology assessment: economic, ecological and social impact of technology in western civilization. The past, present and future role of mechanical engineering in Canada. (★3.)

MEC E 501. *Engineering Design.* ☐ 1.0 (First Term, 1-0-0). Selected guest lecturers on design problems in engineering. (★1.)

MEC E 503. *Mechanical Engineering Laboratory II.* ☐ 2.5 (First Term, 1-0-3). Selected laboratory experiments in applied mechanics and thermosciences. Prerequisite: MEC E 402. (★3.)

MEC E 512. *The Design and Implementation of Production Systems.* ☐ 3.5 (First Term, 3-1s-0). Organizational structure, the design and layout of new facilities, the expansion and modernization of existing facilities and the determination of plant location and size. Prerequisite: MEC E 413. (★3.)

MEC E 513. *The Scheduling and Control of Production Systems.* ☐ 3.5 (Second Term, 3-1s-0). The determination and the design of records of performance for administrative control of a manufacturing enterprise; operational problems of production systems including production orders, schedules, inventory control, and manpower requirements. Prerequisite: MEC E 512. (★3.)

MEC E 522. *Power Plant Engineering.* ☐ 3.0 (First Term, 3-0-0). Economics, design, and equipment of modern power stations and systems. Prerequisite: CH E 324. (★3.)

MEC E 523. *Principles of Heating and Air Conditioning.* ☐ 3.5 (Second Term, 3-1s-0). A study of the requirements for comfort conditions in commercial and industrial buildings; the calculation of heating and cooling loads, the characteristics of systems and systems components. Prerequisites: CH E 324 and MEC E 431. (★3.)

MEC E 531. *Fluid Mechanics II.* ☐ 3.0 (Second Term, 3-0-0). Laminar and turbulent flow theory, lubrication, ideal flow theory. Boundary layers and separation, cavitation, aerodynamics. Prerequisite: MEC E 431. (★3.)

MEC E 537. *Aerodynamics.* ☐ 3.0 (First Term, 3-0-0). Boundary layer flow, vorticity, circulation and aerodynamic lift, wing theory, aeronautical applications. Prerequisite: MEC E 431. (★3.)

MEC E 541. *Combustion Engines.* ☐ 3.0 (First Term, 3-0-0). History of basic cycles; air standard analysis of cycles; combustion theory including stoichiometry, flame temperatures and propagation, and engine knock; cycles analysis with deviations from ideal cycles and performance characteristics; fuels; design and operation of carburation and injection processes; exhaust emissions measuring techniques, identification of design parameters and their effect on emissions. Prerequisite: CH E 324. (★3.)

MEC E 543. *Energy Conversion.* ☐ 3.0 (Second Term, 3-0-0). Sources, flow and overall efficiency of use of various energy forms in society; thermodynamic analysis of new energy conversion devices including thermoelectric and magnetohydrodynamic generators, solar and fuel cells; new sources of energy from fission and fusion reactors as well as effects of these systems on overall energy system. Prerequisite: CH E 324. (★3.)

MEC E 550. *Vibrations and Sound.* ☐ 3.5 (First Term, 3-1s-0). Free and forced vibration of single degree of freedom systems with and without damping, vibration isolation. Free vibration of two degrees of freedom lumped mass systems; vibration absorption; beam vibrations. Sound waves, sound sources; subjective aspects of noise. Prerequisites: MEC E 350 and MATH 413 or CH E 476.

MEC E 552. *Advanced Vibrations.* ☐ 3.0 (Second Term, 3-0-0). Free vibration of lumped mass systems with many degrees of freedom and of continuous systems; modal analysis for forced vibrations, free and forced vibrations of chainlike systems. Application of computer to vibration problems. Prerequisite: MEC E 550.

MEC E 553. *Acoustic and Noise Control.* ☐ 3.0 (Second Term, 3-0-0). Acoustic waves, sound transmission through walls and structures. Acoustics of large and small rooms, mechanisms of sound absorption. Design of silencers. Prerequisites: MEC E 550 and MATH 413. (★3.)

MEC E 560. *Mechanical Systems Design.* ☐ 4.0 (Second Term, 3-0-2). Advanced machine design: lubrication, shaft vibration. Systems: reliability theory, optimization methods, applications of PERT and CPM. Prerequisites: MEC E 460 and 461. (★3.)

MEC E 561. *Design Project.* ☐ 2.5 (Second Term, 0-0-5). Selected design projects requiring the student to exercise creative ability, to make assumptions and decisions, and in general, devise new designs, rather than analyse existing ones. Corequisite: MEC E 560. (★3.)

MEC E 570. *Advanced Heat Transfer.* ☐ 3.0 (Second Term, 3-0-0). Advanced topics in conduction, convection and thermal radiation heat transfer with special emphasis on analytical and numerical solution techniques applied to engineering problems. Prerequisites: MEC E 470 and MATH 413. (★3.)

MEC E 584. *Advanced Strength of Materials II.* ☐ 3.0 (First Term, 3-0-0). Special topics for beams. Torsion, pressure vessels, circular and rectangular plates, stability, fracture mechanics. Prerequisites: CIV E 360 and MATH 413 or CH E 476. (★3.)

84.6.2 GRADUATE COURSES

MEC E 601. *Graduate Seminar.* ☐ 0.5 (0-1s-0). (★0.5.)

MEC E 605. *Experimental Strain Analysis.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 610. *Engineering Economic Analysis.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 611. *Quantitative Methods for Industrial Systems I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 612. *Quantitative Methods for Industrial Systems II.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 613. *The Total Design of Operating Systems.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 620. *Combustion.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 628. *Reading Projects in Advanced Applied Thermodynamics.* ☐ 3.0 (either term, 3-0-0). (★3.)

MEC E 629. *Reading Projects in Advanced Applied Thermodynamics.* ☐ 6.0 (3-0-0). (★6.)

MEC E 630. *Introduction to Viscous Flow.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 632. *Turbulent Fluid Dynamics.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 635. *Gas Dynamics.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 638. *Reading Projects in Advanced Fluid Dynamics.* ☐ 3.0 (either term, 3-0-0). (★3.)

MEC E 639. *Reading Projects in Advanced Fluid Dynamics.* ☐ 6.0 (3-0-0). (★6.)

MEC E 640. *Analytical Thermodynamics.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 648. *Reading Projects in Advanced Thermodynamics.* ☐ 3.0 (either term, 3-0-0). (★3.)

MEC E 649. *Reading Projects in Advanced Thermodynamics.* ☐ 6.0 (3-0-0). (★6.)

MEC E 650. *Analytical Dynamics.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 652. *Nonlinear Oscillations.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 655. *Dynamics of Structures.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 658. *Reading Projects in Advanced Dynamics.* ☐ 3.0 (either term, 3-0-0). (★3.)

MEC E 659. *Reading Projects in Advanced Dynamics.* ☐ 6.0 (3-0-0). (★6.)

MEC E 660. *Design of Mechanical Systems I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 661. *Design of Mechanical Systems II.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 664. *Techniques of Mechanical Design.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 670. *Advanced Heat Transfer.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 671. *Laminar Convection.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 672. *Thermal Radiation.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 678. *Reading Projects in Advanced Heat Transfer.* ☐ 3.0 (either term, 3-0-0). (★3.)

MEC E 679. *Reading Projects in Advanced Heat Transfer.* ☐ 6.0 (3-0-0). (★6.)

MEC E 680. *Continuum Mechanics.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 681. *Elasticity.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 682. *Plasticity.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 683. *Plates and Shells.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MEC E 684. *Static and Dynamic Stability.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 685. *Macro Fracture Mechanics.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MEC E 688. *Reading Projects in Advanced Solid Mechanics.* ☐ 3.0 (either term, 3-0-0). (★3.)

MEC E 689. *Reading Projects in Advanced Solid Mechanics.* ☐ 6.0 (3-0-0). (★6.)

MEC E 900. *Non-Thesis Project.* ☐ 6.0 (Variable). (★6.)

84.7 Mineral Engineering

84.7.1 UNDERGRADUATE COURSES

MNL E 351. *Materials Science I.* ☐ 3.0 (either term, 3-0-0). An introduction to the science of materials from the standpoint of the relationships between structure and physical and mechanical properties. Atomic bonding, crystal structure and crystal imperfections, binary phase equilbria and phase transformations. Structures of metallic, non-metallic and composite materials. Elastic and plastic deformation, fracture, fatigue and creep in crystalline and amorphous solids. Corrosion and thermal stability of materials in service. Prerequisite: CHEM 205 or consent of Department. (★3.)

MNL E 352. *Materials Science II.* ☐ 3.8 (either term, 3-0-3/2). An introduction to the science of materials relating their mechanical, thermal electronic and chemical properties to atomic, molecular and crystal structure. Ceramic and metallic crystals, glasses, polymers and composite materials. Multi-phase materials, strengthening processes. Laboratories include mechanical properties of metals and polymers, microstructure, heat treatment of steel corrosion. Prerequisite: CHEM 205. (★3.)

MNL E 354. *Materials Science III.* ☐ 2.8 (First Term, 2-0-3/2). The structures of solid materials. Atomic bonding, crystal structure and crystal imperfections, fundamentals of x-ray diffraction, polymer and silicate structures. Binary phase equilibria, phase changes, nucleation, and non-equilibrium reactions in solids. The effect of heat treatment and other strengthening mechanisms on the structure of metals. Prerequisite: CHEM 205. (★3.)

MNL E 355. *Materials Science IV.* ☐ 2.8 (Second Term, 2-0-3/2). The properties of materials as related to their structures. Mechanical behavior, including mechanical tests, elasticity of crystalline and non-crystalline materials, elementary dislocation theory, plastic deformation, and fracture. Chemical properties: oxidation of metals and the electrochemical theory of aqueous corrosion. Electronic properties based on the energy band theory of solids. Thermal and electrical conduction, semiconduction, dielectric behavior and magnetism. Prerequisite: MNL E 354. (★3.)

MNL E 390. *Introduction to Mineral Engineering.* ☐ 2.8 (Second Term, 2-0-3/2). An introduction to the exploration, production and processing of minerals including metallic minerals, industrial minerals, coal, oil sands, petroleum and natural gas. (★3.)

MNL E 401. *Mine Plant Engineering.* ☐ 3.8 (First Term, 3-0-3/2). Analysis of mine plant elements with emphasis on design; mining machinery and power requirements, transmission, application and control; mechanical power transmission; compressors and air distribution systems, pumps and dewatering systems, fan systems. Selection, installation, operation and maintenance of mining equipment. Prerequisite: E E 301 or consent of instructor. (★3.).

MNL E 406. *Principles of Mine Ventilation.* ☐ 2.8 (Second Term, 2-0-3/2). Mine ventilation, gases and dusts, humidity and heat, mechanics of air flow, ventilation circuits and fans, safety standards and practices. (★3.).

MNL E 410. *Mine Economics and Organization.* ☐ 3.0 (Second Term, 3-0-0). Evaluation of ore deposits, markets, production costs, cash flow, taxation and estimates of profitability; financial and organization structures of mining companies; financial planning and management functions. Prerequisite: MNL E 41[illegible] and 495 or consent of instructor. (★3.).

MNL E 416. *Mineral Deposits and Exploration.* ☐ 4.5 (First Term, 3-0-3). Metalliferous deposits, economic mineral associations, morphology, mining exploration including prospecting applications of geophysics and geochemistry, sampling prospect drilling. Principles of mine development including general layouts and selection of methods. Laboratory exercises in preparing mine plans and calculation of ore tonnages and grades. Prerequisite: MNL E 390 or consent of instructor. (★3.)

MNL E 422. *Rock Structures and Intact Rock Properties.* ☐ 3.[illegible] (First Term, 3-0-3/2). Rock texture and fabric; compaction, fracture and deformation properties, effect of environment and time, strength theories. State of stress in the Earth's crust and its measurement. Formation, geometry and classification of depositional, diastrophic and non-diastrophic structures including bedding, jointing, faulting, folding, cleavage

Representation of structures on maps and stereographic projections. Prerequisite: CIV E 360 or consent of instructor. (★3.)

MNL E 423. *Rock Mechanics.* ☐ 3.8 (Second Term, 3-0-3/2). Mechanical properties of rock masses, field and laboratory determination; classification and index testing; permeability and flow; stresses around underground openings, elastic prototypes and numerical methods; ground support principles and mechanics of common support systems, loads on supports; hydraulic backfill, earth pressures, consolidation theory and practical consequences in mining; mechanics of subsidence and caving; rockburst mechanics; slope stability, rock mechanics instrumentation. Prerequisite: CIV E 360 or consent of instructor. (★3.)

MNL E 424. *Rock Fragmentation.* ☐ 2.0 (Second Term, 2-0-0). Rock dynamics; blasting theories; explosives; design of rounds; controlled blasting; vibrations; fragmentation without explosives; drilling. Prerequisite: CIV E 360. (★2.)

MNL E 430. *Mine Transport and Materials Handling.* ☐ 3.8 (Second Term, 3-0-3/2). Objectives of materials handling; surface and underground haulage, unit and continuous methods; hoists and hoisting systems; transfer and blending techniques; hydraulic pipelining; analysis of materials handling systems. (★3.).

MNL E 431. *Mineral Processing I.* ☐ 4.5 (First Term, 3-0-3). Unit operations employed to concentrate minerals including comminution, classification, gravity concentration, froth flotation, thickening, filtering; tailings disposal; marketing of minerals; economics. Prerequisite: MNL E 390 or consent of instructor. (★3.)

MNL E 432. *Pyrometallurgy.* ☐ 3.8 (Second Term, 3-0-3/2). Nature of ores, furnaces, fuels, slags, mattes and refractories. Metallurgical calculations. Metallurgical unit processes involving the use of elevated temperatures to extract metals including calcining, roasting, reduction, distillation, smelting, converting, refining and casting. Metals discussed include iron and steel, lead, zinc, titanium, tin and copper. Prerequisite: MNL E 440. (★3.)

MNL E 435. *Extractive Metallurgy.* ☐ 2.8 (Second Term, 2-0-3/2). Fundamentals and applications of pyrometallurgical, hydrometallurgical and electrometallurgical processes used to win metals from their ores and concentrates. Prerequisite: MNL E 431, or consent of instructor. (★3.)

MNL E 440. *Metallurgical Thermodynamics and Kinetics.* ☐ 3.0 (First Term, 3-0-0). Application of thermodynamics and kinetics to problems in extractive and solid-state metallurgy. Review of thermodynamic variables and mathematical prerequisites. Solution thermodynamics applied to metallurgical reduction and refining processes, phase equilibria. Experimental methods and estimation of thermochemical data, kinetics of homogeneous and heterogeneous metallurgical processes; formal basis of diffusion theory. Prerequisite or corequisite: CHEM 370. (★3.)

MNL E 450. *Physical Metallurgy.* ☐ 3.8 (First Term, 3-0-3/2). The physical metallurgy of engineering alloys, composition, heat treatment and engineering properties of steels, cast irons and selected non-ferrous alloys. Materials selection. Metallurgy of welding and joining. Prerequisite: MNL E 352. (★3.)

MNL E 457. *Fundamentals of Physical Metallurgy I.* ☐ 4.5 (First Term, 3-0-3). Elements of crystallography. Stereographic projection, x-ray diffraction, structure of alloys, crystal defects. Diffusion. Phase equilibria and transformations. Prerequisite: MNL E 351 or 352 or 355. (★3.)

MNL E 458. *Fundamentals of Physical Metallurgy II.* ☐ 4.5 (Second Term, 3-0-3). Elastic deformation. Dislocation theory, plastic deformation of crystals, strengthening mechanisms, annealing behavior. Fracture, creep and fatique processes. Prerequisite: MNL E 457. (★3.)

MNL E 462. *Petroleum Reservoir Fluids.* ☐ 3.5 (First Term, 3-1s-0). Origin, accumulation, composition, nature and behavior of petroleum reservoir fluids. Prerequisite: CHEM 370 or CH E 324, or consent of instructor. (★3.)

MNL E 464. *Oil Well Drilling and Completion.* ☐ 3.5 (First Term, 3-1s-0). Elements of rock mechanics, drilling fluids, factors affecting rate of penetration, formulation evaluation and well completions. Prerequisites: CIV E 360 and either CHEM 370 or CH E 324, or consent of instructor. (★3.)

MNL E 466. *Petroleum Production Operations.* ☐ 3.0 (Second Term, 3-0-0). Types and characteristics of well completions, elementary theory of reservoir flow, flow through conduits, flow measurement and control, artificial lift, fluid separation treatment and disposal, design of gathering lines and production facilities, well-testing simulation and recompletion, reserves estimation and decline curve analysis. Prerequisites: MNL E 462 and 464. (★3.)

MNL E 495. *Statistical Methods for Mineral Engineers.* ☐ 2.5 (First Term, 2-1s-0). Engineering statistics including experimental design, data analysis and sampling theory, with emphasis on mineral engineering applications. Prerequisite: MATH 213. (★3.)

MNL E 499. *Mineral Seminar I.* ☐ 0.5 (First Term, 0-1s-0). Special lectures and discussions on topics of interest in mining, mineral process, metallurgical and petroleum engineering. (★1.)

MNL E 502. *Mine Design I.* ☐ 3.0 (Second Term, 0-0-6). Planning of the exploration, surface and/or underground layout and operation of a mine. Students work in groups, select a problem involving a mineral deposit, prepare plans, schedules for its development. Results are to be submitted in a report, complete with drawings, specifications and cost estimates. Prerequisites: MNL E 513 and 514. (★3.)

MNL E 505. *Mine Project and Contract Management.* ☐ 3.0 (either term, 3-0-0). The theory and practice of mine project and contract management including financing, government regulations, organization of the operational unit, and operational analysis. Applied statistics probability and programming for mine operations. Prerequisite: MNL E 410 or consent of instructor. (★3.).

MNL E 507. *Mine Safety.* ☐ 2.8 (Second Term, 2-0-3/2). Physiological effects of: dusts of coal, silica, asbestos, heat, humidity and gases in underground mines. Control and dilution of mine dusts and gases. Hazards of underground gas and dust explosions, prevention and safety procedures, and inundation of water. Effects of radiation in mines, noise and mine illumination on the mine environment. Prerequisite: MNL E 524. (★3.).

MNL E 508. *Mine Environmental Planning.* ☐ 3.0 (either term, 3-0-0). Mining planning, development and exploitation of mineral deposits as influenced by (1) disposal of waste rock, (2) engineering and design of tailings dams, (3) reclamation and revegation of mine spoil, (4) mine drainage and pollution control case studies. Prerequisite: MNL E 524 or consent of instructor. (★3.).

MNL E 513. *Surface Mining.* ☐ 3.8 (First Term, 3-0-3/2). Planning of surface mines including pit designs; equipment selection and control of operations; optiminization of financial returns; land conservation and reclamation. Prerequisites: MNL E 416 and 422. (★3.).

MNL E 514. *Underground Mining Methods.* ☐ 3.8 (First Term, 3-0-3/2). A study of various mining methods involving particular references to economic optiminization in both design and production. In addition to conventional mining methods new, under review mining systems are also analyszed, particularly for large scale mining. Development and production costs associated with mining methods is an inherent aspect of this course. Prerequisite: MNL E 352. (★3.).

MNL E 516. *Mine Development and Explosives.* ☐ 3.0 (First Term, 3-0-0). Environmental conditions, models of underground openings and development, shafts, inclines and ramps, horizontal openings, boring technique, interaction between openings, planning of mine openings, costs, safety and environmental requirements. Prerequisite: MNL E 416. (★3.)

MNL E 518. *Coal Mining Methods.* ☐ 3.0 (either term, 3-0-0). Technical consideration of factors which affect and constrain choice of mining methods. Engineering design of the elements of mine structures. Mining methods for flat, gently dipping, pitching and steep desposits, with reference to seam thickness. Factor studies are: coal getting, natural and artificial support, mechanization, coal recovery and conservation. Prerequisite: MNL E 512 or consent of instructor. (★3.).

MNL E 519. *Coal Mining and Processing.* ☐ 3.8 (Second Term, 3-0-3/2). Nature of coal deposits; physical and chemical properties; exploration and evaluation; mining, coal processing and conversion; economics and utilization. (This course is intended for senior students in Mineral Engineering and Geology.) (★3.)

MNL E 527. *Practical Experience and Report.* ☐ 1.0. Before being granted the degree, students must satisfy the Department that they have had at least six months practical experience in mining, metallurgy or geological field work. A suitable report on practical experience must be submitted to the Department *not later* than December 1 of the fourth year. (★1.)

MNL E 528. *Mining Field Trip.* ☐ 0.0. An extended trip to visit mining and metallurgical plants is made every second year by Third- and Fourth-Year Mining, Mineral and Metallurgy students accompanied by staff. Fourth-Year students in Mining and Mineral Engineering may also be required to make several part-day trips during the session to mining, metallurgical and other industrial plants near Edmonton. Prerequisite: MNL E 390. (★0.)

MNL E 529. *Mineral Seminar.* ☐ 1.0 (Second Term, 1-0-0). Meetings of students and staff for discussion of topics related to mining engineering. (★1.)

MNL E 530. *Hydrometallurgy and Electrometallurgy.* ☐ 3.8 (First Term, 3-0-3/2). Principles and applications of hydrometallurgical and electrometallurgical processes to extract metals: atmospheric and pressure leaching, ion exchange, solvent extraction, hydrogen reduction, electrowinning and electrorefining. Metals discussed include copper, nickel, cobalt, uranium, zinc, aluminum and magnesium. Prerequisite: MNL E 440. (★3.)

MNL E 533. *Mineral Processing II.* ☐ 3.8 (First Term, 3-0-3/2). The analysis, optimization and control of mineral processing systems through mathematical modelling and digital simulation. Instrumentation and control of mineral processing plants. Prerequisites: MNL E 431 and 495. (★3.)

MNL E 535. *Origins, Formation and Properties of Coal.* ☐ 3.0 (First Term, 3-0-0). Conditions for formation and metamorphic development of coal. The Coal "series". Coal compositions. Mineral matter in coal. Physical and chemical properties of coal, with emphasis on properties bearing on coal storage, transportation and end-uses (including gasification and liquefaction). Prerequisite: MNL E 352. (★3.)

MNL E 540. *Metallurgical Research Project I.* ☐ 1.5 (First Term, 0-0-3). Research on current topics in metallurgical and mineral engineering, including physical, chemical and mechanical metallurgy, and mineral processing. Literature survey on a specific topic and submission of a detailed research proposal. Corequisite: MNL E 599. (★2.)

MNL E 541. *Metallurgical Research Project II.* ☐ 3.0 (Second Term, 0-0-6). Execute research according to research proposal prepared in MNL E 540. Write research report. Prerequisite: MNL E 540. Corequisite: MNL E 549. (★3.)

MNL E 542. *Metallurgical Plant Design and Operation.* ☐ 3.5 (First Term, 2-0-3). Fundamental concepts of design, flowsheet layout, cost estimation, profitability analysis, equipment sizing and selection, maintenance scheduling and operating practices. Prerequisite: MNL E 431. (★3.)

MNL E 543. *Special Topics in Metallurgy.* ☐ 3.0 (either term, 3-0-0). Physical and chemical principles underlying metallurgical topics of current interest such as composite materials, materials problems in energy conversion, electrofinishing, recycling, extraction of metals from fossil fuels, iron and steelmaking , and refractory-slag interactions. (★3.)

MNL E 545. *Corrosion and Oxidation.* ☐ 3.0 (Second Term, 3-0-0). Electrochemical theory of galvanic attack, concentration cells and differential temperature cells. Uniform attack. The interaction of mechanical stresses and corrosion. Selection of corrosion-resistant materials. Protective coatings, inhabitors and cathodic protection, corrosion testing, high-temperature oxidation and other gas-metal reactions. Prerequisite: MNL E 352 or 355. (★3.)

MNL E 548. *Metallurgical Field Trip.* ☐ 0.0. An extended trip to visit mining and metallurgical plants is made every second year by Third- and Fourth-Year Mining, Mineral Processing and Metallurgy students accompanied by staff. Fourth-Year students in Metaliurgy may also be required to make several part-day trips during the session to mining, metallurgical and other industrial plants near Edmonton. Prerequisite: MNL E 390. (★0.)

MNL E 549. *Metallurgical Seminar.* ☐ 1.0 (Second Term, 1-0-0). Meetings of staff and fourth-year students for discussion of topics from recent literature related to metallurgical research. Prerequisites: MNL E 432 and 457. (★1.)

MNL E 552. *Applications of Physical Metallurgy I.* ☐ 3.8 (First Term, 3-0-3/2). Service conditions, mechanical properties and materials selection of engineering alloys. Composition, structure, heat treatment and properties of alloys including steels, tool and die materials, refractory metals, and light metal alloys. Metallurgical design. Prerequisite: MNL E 457. (★3.)

MNL E 553. *Applications of Physical Metallurgy II.* ☐ 3.8 (Second Term, 3-0-3/2). Solidification processing, deformation processing. Metal working by forging, rolling and drawing. Powder metallurgy. Metallurgy of welding and joining. Prerequisite: MNL E 552 or 450. (★3.)

MNL E 555. *Special Topics in Metal Processing.* ☐ 3.0 (Second Term, 3-0-0). Studies of the metallurgical background of specific metal processing techniques which are of current interest. Prerequisite: MNL E 552 or 450. (★3.)

MNL E 564. *Well Logging and Formation Evaluation.* ☐ 3.0 (Second Term, 3-0-0). Theory and engineering applications of measurements of physical properties of the formation near the well bore; interpretation and use of the information in reservoir engineering. Prerequisite: MNL E 462, or consent of instructor. (★3.)

MNL E 568. *Heavy Oil Recovery.* ☐ 3.0 (First Term, 3-0-0). The objectives of this course are to introduce the student to the current heavy oil recovery technology, and to develop the practical project design techniques. Emphasis will be on thermal methods, although nonthermal methods will be covered briefly. This is designed to be suitable for both undergraduate and graduate students. Pre- or corequisite MNL E 573. (★3.).

MNL E 573. *Fundamental Reservoir Engineering.* ☐ 3.8 (First Term, 3-0-3/2). Rock properties, rock-fluid interaction, flow through porous media; material balance. Prerequisite: MNL E 462 or consent of instructor. (★3.)

MNL E 575. *Applied Reservoir Engineering.* ☐ 3.5 (Second Term 3-1s-0). Analysis and prediction of reservoir performance by use of material balance, steady and unsteady state flow equations. Prerequisite: MNL E 573. (★3.)

MNL E 577. *Modelling in Petroleum Engineering.* ☐ 3.0 (Second Term, 3-0-0). Fundamentals of Modelling in Petroleum Engineering. Simulation methods as applied to specific problems in petroleum reservoir behavior. Examples will be drawn from primary, secondary and tertiary recovery phases of petroleum production. Prerequisites: MNL E 573, CMPUT 301 and MATH 312 or equivalent. (★3.)

MNL E 584. *Petroleum Engineering Design.* ☐ 3.5 (First Term 2-0-3). A design problem in petroleum engineering involving exploration, drilling, production and development fundamentals and field case histories, Canadian oil and gas regulations, conservation of petroleum by control of production, unitization and equalization of investment. (★3.)

MNL E 588. *Petroleum Field Trip.* ☐ 0.0. Students in their final two terms will be required to make several trips to selected field installations, laboratories and industrial plants. (★0.)

MNL E 589. *Petroleum Seminar.* ☐ 1.0 (Second Term, 1-0-0). Meeting of students and staff for discussion of topics related to petroleum engineering. (★1.)

MNL E 596. *Case Studies in Mineral Engineering.* ☐ 2.5 (either term, 1-3s-0). Designed to deal with special case studies in the Mining and Petroleum industries; an analysis of reserves, the prediction of production and operating procedures related to the project; the application of economics in the analysis of profitability; economics and planning as tools for a management position. Prerequisite: MNL E 584 or consent of the instructor. (★3.)

MNL E 597. *Operations Research.* ☐ 3.5 (First Term, 3-1s-0). Simulation, linear programming; network analysis; dynamic programming. (★3.)

MNL E 599. *Mineral Seminar II.* ☐ 0.5 (First Term, 0-1s-0). Special lectures and discussions on topics of interest in mineral engineering. (★1.)

84.7.2 GRADUATE COURSES

MET E 601. *Research Techniques in Metallurgy.* ☐ 3.5 (either term, 2-0-3). (★3.)

MET E 610. *Welding Metallurgy.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MET E 611. *Welding Processes.* ☐ 3.8 (First Term, 3-0-3/2). (★3.)

MET E 615. *Quality Control of Weldments.* ☐ 3.8 (either term, 3-0-3/2). (★3.)

MET E 630. *Special Topics in Process Metallurgy.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 640. *Special Topics in Metallurgical Thermodynamics and Kinetics.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 645. *Electrochemical Processes.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 650. *Corrosion.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 660. *Metallurgical Applications of X-rays.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 661. *Metallurgical Application of the Electron Microscope.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 662. *Fracture of Metals.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 669. *Theory of Alloy Phases.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 675. *Crystal Lattice Imperfections and the Mechanical Behavior of Solids.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MET E 676. *Special Topics in Physical Metallurgy.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 680. *Ceramics.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 900. *Non-Thesis Project.* ☐ 3.0 (Variable). (★3.)

MIN E 602. *Design Project I.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MIN E 603. *Design Project II.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MIN E 620. *Rock Mechanics.* ☐ 3.0 (either term, 3-0-0). (★3.)

MIN E 621. *Geomechanics of Underground Mining.* ☐ 3.0 (either term, 3-0-0). (★3.)

MIN E 622. *Surface Mining.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MIN E 650. *Special Topics in Mining Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

MIN E 900. *Non-Thesis Project.* ☐ 3.0 (Variable). An engineering project course for students registered in a Master of Engineering program. (★3.)

PET E 612. *Porous Media.* ☐ 3.0 (First Term, 3-0-0). (★3.)

MNL E 623. *Oil Sands and Energy Resources Geomechanics* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MNL E 630. *Advanced Topics in Coal Preparation.* ☐ 3.0 (either term, 3-0-0). (★3.)

MNL E 635. *Coal Conversion and Utilization.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

MNL E 900. *Non-Thesis Project.* ☐ 3.0 (Variable). An engineering project course for students registered in a Master of Engineering program. (★3.)

PET E 614. *Well Logging and Formation Evaluation.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

PET E 630. *Petroleum Reservoir Engineering.* ☐ 3.0 (First Term, 3-0-0). (★3.)

PET E 632. *Advanced Topics in Petroleum Production Mechanics.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

PET E 634. *Secondary Recovery.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

PET E 635. *Numerical and Analytical Solution of Porous Media Flow Problems.* ☐ 3.0 (First Term, 3-0-0). (★3.).

PET E 644. *Fluid Mechanics of Natural Gas Production.* ☐ 3.0 (First Term, 3-0-0). (★3.)

PET E 650. *Resevoir Simulator Development.* ☐ 3.0 (Second Term, 3-0-0). (★3.).

PET E 682. *Graduate Seminar.* ☐ 0.5 (0-1s-0). (★1.)

PET E 684. *Oil and Gas Property Evaluation.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

PET E 694. *Advanced Topics in Petroleum Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

PET E 900. *Non-Thesis Project.* (Variable) (★3.)

84.7.3 READING COURSES

MET E 638. *Process Metallurgy.* ☐ 3.0 (either term, 3-0-0). (★3.)

MET E 678. *Physical Metallurgy.* ☐ 3.0 (either term, 3-0-0). (★3.)

MIN E 610. *Mining.* ☐ 3.0 (either term, 3-0-0). (★3.)

PET E 732. *Reservoir Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

PET E 734. *Secondary Recovery.* ☐ 3.0 (either term, 3-0-0). (★3.)

PET E 744. *Natural Gas Engineering.* ☐ 3.0 (either term, 3-0-0). (★3.)

84.8 Agricultural Engineering

84.8.1 UNDERGRADUATE COURSES

AG EN 301. *Heating, Ventilating and Air-Conditioning Agricultural Buildings.* ☐ 4.5 (First Term, 3-0-3). Environmental requirements as determined by physiological principles. Environmental control. (★3.)

AG EN 313. *Soil and Water Engineering.* ☐ 4.0 (First Term, 3-0-2). Basic principles of agricultural hydrology, soil-water relations, water resource development, water conservation practices. Formerly AG EN 408. Prerequisite: SOILS 310 recommended. Note: Not open to students with credit in AG EN 308. (★3.)

AG EN 413. *Irrigation and Drainage Engineering.* ☐ 4.5 (Second Term, 3-0-3). Irrigation and drainage principles; planning and design of irrigation and drainage systems. Prerequisite: CIV E 430. (★3.)

AG EN 420. *Analysis of Agricultural Systems.* ☐ 4.5 (First Term, 3-0-3). The application of mathematical programming methods to problems in agricultural systems. Prerequisite: MATH 243 or 312 or AG EC 316. Not open to students with credit in FOREN 420. (★3.)

AG EN 421. *Simulation Methods in Agricultural Engineering.* ☐ 4.5 (Second Term, 3-0-3). Use of analogue and digital computers to simulate agricultural processes (e.g., harvesting, fertilizing, seeding, ventilating, irrigating). Continuous and discrete simulation models are developed in group projects. Prerequisite: Introductory courses in computing science and calculus. Not open to students with credit in FOREN 421. (★3.)

AG EN 453. *Power Units.* ☐ 4.5 (First Term, 3-0-3). Energy conversion, power transmission, soil vehicle mechanics, hydraulic systems, tractor performance and evaluation, tractor dynamics. Prerequisites: CH E 324, CIV E 430 and MEC E 350. (★3.)

AG EN 454. *Agricultural Machinery.* ☐ 4.5 (Second Term, 3-0-3). The course uses the wedge theory and the Mohr-Coulomb failure criteria as a basis for a simple tillage theory. Various tillage tools are examined as well as implement and tractor chassis mechanics. An introduction to harvesting processes is made. Particle dynamics and mechanics of raking and cutting are developed. Harvesting systems are noted. Prerequisites: MEC E 350, CIV E 480. (★3.)

AG EN 456. *Post-harvest Technology.* ☐ 4.5 (First Term, 3-0-3). Forage conditioning, fractionation, watering, preservation; and silage, grain and forage dehydration, feeding and transport equipment, storage regimes cleaning, sorting and milling, conveying and metering, process control. Prerequisite: AG EN 301. (★3.)

AG EN 500. *Agricultural Engineering Field Trip.* ☐ 0.0. An extended trip to visit agricultural engineering operations is made every second year by Third- and Fourth-Year Agricultural Engineering students. (★0.)

AG EN 503. *Instrumentation in Agricultural Engineering.* ☐ 4.5 (First Term, 3-0-3). A study of the primary sensing elements used in agricultural engineering, their principles of operation and application. Prerequisites: CIV E 360, E E 302 and MEC E 350. (★3.)

AG EN 510. *Agricultural Engineering Project.* ☐ 3.0 (Second Term, 1-0-4). Each final year student in the B.Sc. (Agr. Eng.) program works independently on a project approved by the Coordinator. The project must be either a literature review or an engineering design problem or an experimental research project or a combination of any of these. Both a brief outline and a formal report must be submitted by the due dates. (★3.)

AG EN 552. *Advanced Irrigation and Drainage.* ☐ 3.5 (Second Term, 3-1s-0). Studies of selected topics or special problems in irrigation and drainage. Prerequisite: SOILS 470 or AG EN 313. (★3.)

AG EN 555. *Data Analysis and Processing.* ☐ 3.0 (Second Term, 3-0-3). Application of statistical techniques to experiments in agricultural engineering including dimensional analysis and curve fitting techniques. Data computation with graphical output. Prerequisites: CMPUT 351, STAT 241. (★3.)

84.8.2 GRADUATE COURSES

AG EN 600. *Agricultural Engineering Seminar.* ☐ 0.0 (0-1s-0). (★0.)

AG EN 602. *Selected Topics in Agricultural Mechanization.* ☐ 1.5 (either term, 1-2s-0) (★3.). or ☐ 3.0 (1-2s-0) (★6.)

AG EN 603. *Advanced Agricultural Buildings and Environment.* ☐ 1.5 (either term, 1-2s-0) (★3.) or ☐ 3.0 (1-2s-0). (★6.)

AG EN 604. *Advanced Farm Power and Machinery.* ☐ 3.0 (Second Term, 3-0-0). (★3.)

AG EN 605. *Project in Agricultural Machinery.* ☐ 1.5 (either term, 1-2s-0) (★3.) or ☐ 3.0 (1-2s-0). (★6.)

AG EN 606. *Advanced Soil and Water Engineering.* ☐ 1.5 (either term, 1-2s-0) (★3.) or ☐ 3.0 (1-2s-0). (★6.)

AG EN 910. *Non-Thesis Project.* ☐ 3.0 (variable). (★3.)

84.9 Courses Offered by Other Faculties

84.9.1 ARTS

ANTHROPOLOGY

ANTHR 202. *Man and Culture.* ☐ 6.0 (3-0-0). An introduction to anthropological thought concerning such topics as race, evolution, culture growth and culture change. Note: Not open to students with credit in ANTHR 306 or 307. (★6.)

ANTHR 306. *Introduction to Prehistory.* ☐ 3.0 (either term, 3-0-0). The nature, purposes, theory and methods of prehistory and its relation to anthropology as a whole. Note: Not open to students who have taken ANTHR 202. (★3.)

ANTHR 307. *Introduction to Social and Cultural Anthropology.* ☐ 3.0 (either term, 3-0-0). The comparative study of human society and culture, particularly non-Western communities, with special attention to the family, social structure, economics and political institutions and religion; processes of change. Note: Not open to students who have taken ANTHR 202. (★3.)

ANTHR 308. *Introduction to Linguistic Anthropology.* ☐ 3.0 (either term, 3-0-0). The anthropological study of language and communication. A brief survey of field and analytical methods and the theory of linguistic anthropology. (★3.)

ANTHR 309. *Introduction to Physical Anthropology.* ☐ 3.0 (either term, 3-0-0). Survey of theory and basic data in human evolution and human variation. Topics include primatology, osteology, hominoid paleontology, variation in modern populations. (★3.)

ANTHR 330. *Technology in Culture.* ☐ 3.0 (either term, 3-0-0). An anthropological introduction to the evolution of tools and techniques; the adaption of society to environment through technology; the interrelationship of technology, ideology and social organization. (★3.)

ART AND DESIGN

ART H 201. *Introduction to the History of Art I.* ☐ 3.0 (either term, 3-0-0). Introduction to European Art from the Middle Ages to the 17th Century by analysis of selected works and movements. (★3.)

ART H 202. *Introduction to the History of Art II.* ☐ 3.0 (either term, 3-0-0). Introduction to the art of the 17th, 18th, 19th and 20th Centuries by analysis of selected works and movements. (★3.)

ART H 250. *Survey of Western Art I.* ☐ 3.0 (either term, 3-0-0). A survey of Western art to the end of the Middle Ages. Note: Formerly part of ART 200; not to be taken by students with credit in that course of ART H 201. (★3.)

ART H 251. *Survey of Western Art II.* ☐ 3.0 (either term, 3-0-0). A survey of Western art from the beginning of the Renaissance to the present day. Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 201. (★3.)

CLASSICS

CLASS 201. *Literature of Greece and Rome.* ☐ 3.0 (either term, 3-0-0). An introductory survey in English translation of Greek and Latin literature in its social, artistic and cultural background. A limited number of major works, representing the most important genres, will be studied. (★3.)

CLASS 202. *Greek and Roman Mythology.* ☐ 3.0 (either term, 3-0-0). A survey of classical mythology with readings in translation from various ancient authors as well as from modern scholarly works. Note: Formerly part of CLASS 240. (★3.)

CLASS 230. *Introduction to the Ancient Near East and Greece.* ☐ 3.0 (either term, 3-0-0). An introductory course in the history of the Ancient Near East and Greece from the Neolithic Age to the Fourth Century A.D. (★3.)

CLASS 231. *Introduction to Rome and the West.* ☐ 3.0 (either term, 3-0-0). An introductory course in the history of Rome and the western Mediterranean to the collapse of the Roman Empire. (★3.)

CLASS 241. *Ancient Science and Technology.* ☐ 3.0 (either term, 3-0-0). A survey of ancient science and technology in the Middle Eastern, Greek and Roman civilizations. (★3.)

CLASS 250. *The Greek World.* ☐ 3.0 (either term, 3-0-0). Greek life and society illustrated by archaeological discoveries; the Bronze Age, the city, temples. Athens, Sparta, Greek art and architecture, trade and warfare. Slides, films, other materials. (★3.)

CLASS 251. *The Roman World.* ☐ 3.0 (either term, 3-0-0). A study of Roman society illustrated by archaeological discoveries: city life, housing, town planning, games, trade, shipping, and the army. Slides, films, coins and other materials will be used. (★3.)

CLASS 260. *Greek and Latin Etymology.* ☐ 3.0 (either term, 3-0-0). A study of Greek and Latin words commonly used in English; how these words are built, and how they gain and change in meanings. (★3.)

COMPARATIVE LITERATURE

C LIT 201. *Introduction to World Literature I.* ☐ 3.0 (either term, 3-0-0). An analysis of a limited number of major works of world literature (in English translations) representing the more important periods and genres from antiquity to the renaissance. Note: Formerly part of C LIT 200. Only one of C LIT 201 and 202, or 301 and 302, or 201 and 302, or 202 and 301 may be taken for credit.

C LIT 202. *Introduction to World Literature II.* ☐ 3.0 (either term, 3-0-0). An analysis of a limited number of major works of world literature (in English translations) representing the more important periods and genres since the renaissance. Note: Formerly part of C LIT 200. Only one of C LIT 201 and 202, or 301 and 302, or 201 and 302, or 202 and 301 may be taken for credit. (★3.)

ECONOMICS

ECON 304. *Principles of Economics.* ☐ 3.0 (either term, 3-0-0). An introduction to economic principles as applied to business organization and finance; price determination; enterprise costs and output optimization; commercial and central banking; national income analysis. Note: Not acceptable for credit for students who have taken Economics 201 and Economics 202, or equivalent. (★3.)

ECON 312. *Western European Economic Development.* ☐ 3.0 (either term, 3-0-0). A survey of economic changes in Western Europe from the Industrial Revolution to the present. Note: Not to be taken by students with credit in HIST 357. (★3.)

ECON 313. *Economics of Developing Countries I.* ☐ 3.0 (First Term, 3-0-0). A survey of problems and conditions generally characteristic of the low-income countries; an introduction to theories and models of economic growth and development; a discussion of applied strategies of development with specific policy applications bearing on fiscal and monetary management, the process of capital formation and industrialization, employment and technological change. Prerequisites: ECON 201/202 or 306/307, or consent of the Department. (★3.)

ECON 314. *Economics of Developing Countries II.* ☐ 3.0 (Second Term, 3-0-0). The theoretical and policy aspects of specific economic development problems: population, agriculture, natural resources, education and manpower training, international trade, foreign aid, and technical assistance. Prerequisites: ECON 201/202 or 306/307, or consent of the Department. (★3.)

ECON 316. *The Canadian Economy, Part I.* ☐ 3.0 (either term, 3-0-0). A survey of Canadian economic development with emphasis on the function of staple exports, capital formation, government policies, and regional differentials which characterized the Nineteenth Century in Canada. (★3.)

ECON 317. *The Canadian Economy, Part II.* ☐ 3.0 (either term, 3-0-0). A survey of the economic development of Canada in the Twentieth Century. This survey includes study of immigration, foreign investment, economic effects of two world wars, natural resource exploitation and the emergence of distinct economic regions in Canada. Prerequisite: ECON 316 or consent of the Department. (★3.)

ECON 355. *Economic Analysis in the Evaluation of Large-Scale Projects.* ☐ 3.0 (either term, 3-0-0). An examination of the use of cost-benefit analysis, location theory and input-output an-

alysis in assessing the economic merits of various large-scale investment projects. Examples of current interest will be used, e.g., river basin, electrical generation and oil and gas projects. Prerequisites: ECON 201/202 or 304 or consent of the Department. (★3.)

ECON 365. *Resource Economics.* ☐ 3.0 (either term, 3-0-0). Problems of allocation and development of natural resources, including contemporary Canadian resource policy issues; nature and types of resources; the economics of conservation and resource scarcity; and the role of resources in growth. Prerequisite: ECON 201/202 or 304 or 306/307. (★3.)

ECON 392. *Comparative Economics.* ☐ 3.0 (either term, 3-0-0). A comparative study of the institutions and theories of important contemporary systems of economics organization, with emphasis on the "mixed" capitalist economy, "market socialism" and centrally planned economies. A survey of socialist economic thought, in particular Marxian economics. Prerequisites: ECON 201/202 or consent of the Department. (★3.)

ECON 393. *The Soviet Economy.* ☐ 3.0 (either term, 3-0-0). The development and institutional arrangements of the Soviet economy. Soviet experience with central planning. Economic performance and its evaluation. Soviet economic reforms. Prerequisites: ECON 201/202 or consent of the Department. (★3.)

ENGLISH

ENGL 210. *English Literary Forms.* ☐ 6.0 (3-0-0). This course combines an introduction to the various genres of English literature (prose, poetry and drama) with formal instruction in writing skills. One-third of the course is devoted to writing instruction. (★6.)

ENGL 215. *Introduction to the Study of Literature.* ☐ 3.0 (either term, 3-0-0). A close reading of significant works of prose and poetry in English, to introduce the student to the most effective ways of understanding the various genres of English literature. Three essays will be required. Note: This course is prerequisite to ENGL 270, 275, 284 and 290. Formerly part of ENGL 260 and 265. (★3.)

ENGL 270. *Readings in Poetry.* ☐ 3.0 (either term, 3-0-0). A close study of selected modern and traditional verse to introduce the student to ways of approaching and critically evaluating poetry. Prerequisite: ENGL 215. (★3.)

ENGL 275. *Readings in Prose.* ☐ 3.0 (either term, 3-0-0). A close study of novels, short stories, essays, and other forms, both modern and traditional, to introduce the student to ways of approaching prose, and to assist the student in reading critically. Prerequisite: ENGL 215. (★3.)

ENGL 284. *Canadian Literature in Process.* ☐ 3.0 (either term, 3-0-0). An intensive reading of mainly contemporary Canadian novels, stories, poems, and plays, in English. Prerequisite: ENGL 215. (★3.)

HISTORY

HIST 200. *European History.* ☐ 7.0 (3-1s-0). The evolution of European society from the decline of the Roman Empire in the West to the present. (★6.)

HIST 201. *European History since the Renaissance.* ☐ 6.0 (3-0-0). (★6.)

HIST 202. *Introduction to Medieval Europe.* ☐ 6.0 (3-0-0). Europe from the fall of Rome to the Renaissance. (★6.)

HIST 204. *Studies in the Political and Social History of Europe.* ☐ 3.0 (either term, 3-0-0). A course dealing with four or five particular historical topics, from the fall of Rome to 1914 using an integrated text and monograph studies. (★3.)

HIST 206. *Introduction to the History of Women.* ☐ 3.0 (either term, 3-0-0). This course is an introduction to the study of woman's history. It will examine the position of women in western societies from the Middle Ages to the Twentieth Century. (★3.)

HIST 278. *An Introduction to the Study of Canadian History 1500-1867.* ☐ 3.0 (First Term, 3-0-0). Designed to provide a foundation for senior and advanced courses in Canadian history. (★3.)

HIST 279. *An Introduction to the Study of Canadian History 1867-1967.* ☐ 3.0 (Second Term, 3-0-0). Designed to provide a foundation for senior and advanced courses in Canadian history. (★3.)

HIST 280. *Asia to 1500.* ☐ 3.0 (either term, 3-0-0). A survey of the history of Asia to the beginning of the sixteenth century. (★3.)

HIST 281. *Asia From 1500.* ☐ 3.0 (either term, 3-0-0). A survey of the history of Asia from the sixteenth century. Prerequisite: HIST 280 or consent of the department. (★3.)

PHILOSOPHY

PHIL 230. *Problems of Philosophy.* ☐ 3.0 (either term, 3-0-0). Some of the central issues of philosophy. Topics such as freedom and determinism, the concept of a person, mind and body, the existence of God, the nature of goodness, justice and value, the nature of knowledge, belief and truth, the problems of scepticism and knowledge in regard to ourselves, other persons and the external world. (★3.)

PHIL 239. *Philosophical Analysis of Contemporary Issues.* ☐ 3.0 (Second Term, 3-0-0). Philosophical analysis of contemporary problems of social concern. Topics such as minority and majority rights, cultural preservation, war and violence, censorship, medical ethics, abortion, sexual equality, our place in the natural environment. (★3.)

PHIL 240. *Introduction to Western Philosophy.* ☐ 6.0 (3-0-0). An introduction to the main problems and theories that have dominated philosophical thought in the Western world, through study and discussion of selected philosophical classics. Emphasis upon both a sound acquaintance with the main outlines of our philosophical tradition and the ability to handle philosophical ideas independently. (★6.)

POLITICAL SCIENCE

POL S 201. *Introduction to Government.* ☐ 3.0 (either term, 3-0-0). An introduction to the institutions of Canadian and other democratic governments, considering constitutions, legislatures, executives, the public service, courts, federal and other divisions of government authority and other selected topics. (★3.)

POL S 202. *Introduction to Politics.* ☐ 3.0 (either term, 3-0-0). An introduction to the process of democratic politics considering power, or influence, democracy, civil liberties and rights, political ideology, public opinion, elections, political parties, interest groups and other selected topics. (★3.)

POL S 322. *Local Government and Administration.* ☐ 3.0 (either term, 3-0-0). The structure and functions of local government in Canada with primary emphasis on the Province of Alberta. Note: Designed primarily for students who want one senior course in Political Science. Not open to students who are taking or have taken POL S 323. (★3.)

SOCIOLOGY

SOC 202. *Introductory Sociology.* ☐ 6.0 (3-0-0). An analysis of the nature of society, the interrelationships of its component groups, and the processes whereby society persists and changes. Society analysed in terms of its structure, culture, and social ranking schemes. The interrelationships between the various institutions (e.g., family, church, school, government). The processes whereby the individual is socialized into society; the sources of conformist and non-conformist behavior. (★6.)

84.9.2 BUSINESS ADMINISTRATION AND COMMERCE

ACCOUNTING

ACCTG 202. *Introductory Accounting.* ☐ 3.8 (either term, 3-1.5s-0). Postulates, principles, the accounting cycle, capital and income measurement, financial statement preparation and analysis; emphasis on reporting to shareholders, creditors and other external decision-makers. Prerequisites: ECON 201/202. (★3.)

ACCTG 204. *Managerial Information and Control Systems.* ☐ 4.0 (either term, 3-0-2). Corporate goals, planning and control concepts, cost accumulation for pricing purposes, and product costing. Prerequisite: ACCTG 202. (★3.)

FINANCE

FIN 304. *Business Finance.* ☐ 3.0 (either term, 3-0-0). Introduction to financial decision-making. Prerequisites: ACCTG 204, MANEC 323, MGTSC 307 and 357. (★3.)

INDUSTRIAL RELATIONS

IND R 304. *Industrial Relations in Canada.* ☐ 3.0 (either term, 3-0-0). Union, management and government participation in the Canadian industrial relations system. It examines the nature, causes and possible methods of settling labor disputes and processing grievances. It gives the student a chance to participate in simulated negotiations of collective agreements. (★3.)

LEGAL RELATIONS

LEG R 310. *Commercial Law.* ☐ 3.0 (either term, 3-0-0). An introduction to the Canadian legal system with emphasis on legal problems in commercial law. (★3.)

MANAGEMENT SCIENCE

MGTSC 356. *Introduction to Management Science (Operations Research).* ☐ 3.0 (either term, 3-0-0). A problem-solving course designed to introduce the student to management science. The following topics are usually covered: history and overview of management sciences; linear programming including formulation of linear problems, simplex programming solution techniques, and sensitivity analysis; transportation and other network algorithms. Prerequisites: MATH 243, MGTSC 306, and 357. (★3.)

MGTSC 410. *Advanced Topics in Management Science.* ☐ 3.0 (First Term, 3-0-0). Advanced mathematical programming including problems of suboptimization; the decomposition principle; integer programming; optimal search techniques; quadratic programming; general non-linear programming and dynamic programming. Prerequisite: MGTSC 356. (★3.)

MGTSC 411. *Operations Research in the Private and Public Sectors.* ☐ 3.0 (Second Term, 3-0-0). Management science and operations research models applied to real operating systems. This course will present case studies illustrating all aspects of the application of quantitative models to actual problems. Modelling the system and interpreting the results will be stressed as opposed to developing solutions and techniques. Areas of application may include: marketing, finance, urban problems, health care delivery, and crime prevention.

Prerequisites: MGTSC 356 and 412. (★3.)

MARKETING

MARK 304. *Fundamentals of Marketing.* ☐ 3.0 (either term, 3-0-0). The evaluation of marketing in the economy. Marketing structure, organization and behavior; marketing functions. Prerequisites: ACCTG 204, LEG R 310, MANEC 323, 333, MGTSC 307, 357, and ORG T 303, 305; or by consent of the Chairman of the Department of Marketing and Economic Analysis. (★3.)

84.9.3 SCIENCE

CHEMISTRY

CHEM 203. *Introductory University Chemistry I.* ☐ 4.3 (either term, 3-1s-3/2). Chemical energy, enthalpy, Hess' Law and applications to bond energies and stability of compounds. Ionic and covalent compounds, principles of chemical equilibrium with applications to acid-base chemistry. Chemistry of hydrogen and the oxygen group. Prerequisite: Chemistry 30 or equivalent. (★4.)

CHEM 205. *Introductory University Chemistry II.* ☐ 3.8 (Second Term, 3-0-3/2). Oxidation and reduction, electrochemical cells and the Nernst Equation, free energy and equilibrium. Chemistry of the halogens and the transition metals. Chemical kinetics. Prerequisite: CHEM 203. (★4.)

CHEM 350. *Organic Chemistry.* ☐ 9.0 (3-0-3). The study of molecular structure and reactivity of organic compounds of both biological and industrial interest. Special attention is given to the chemistry of polymers, fats, peptides and carbohydrates. Methods of structure determination are discussed. Prerequisite: CHEM 200 or 202 or 203 and 205. Note: Students who have obtained credit for CHEM 250 cannot take CHEM 350 for credit. (★6.)

CHEM 370. *Elementary Physical Chemistry.* ☐ 9.0 (3-0-3). The laws of thermodynamics; calorimetry, phase equilibrium, chemical equilibrium and solution theory, kinetic-molecular theory; chemical kinetics. Prerequisites: CHEM 200 or 202, or 203 and 205; MATH 212 and 213 or equivalent. (★6.)

CHEM 432. *Inorganic Chemistry.* ☐ 6.0 (3-0-0). Prerequisites: CHEM 203 and 205. (★6.)

CHEM 434. *Inorganic Chemistry.* ☐ 7.5 (3-0-3; 3-0-0). Prerequisites: CHEM 203 and 205. (★8.)

CHEM 452. *Organic Chemistry.* ☐ 6.0 (3-0-0). Mechanism and reactions of aromatic and aliphatic compounds. Prerequisite: CHEM 350. Prerequisite or corequisite: CHEM 370. (★6.)

COMPUTING SCIENCE

Note on credit for introductory Computing Science courses: Credit will be granted for only one of 214, 261, 300, 351 and 357, and for only one of 215 and 352.

CMPUT 214. *Introduction to Computing Science.* ☐ 4.5 (First Term, 3-0-3). History and application of computers; algorithms; flow diagrams; use of a high level programming language in the solution of elementary numerical and non-numerical problems. Corequisite: MATH 207, 202 or 203 or consent of the Department. See above note on introductory Computing Science courses. (★3.)

CMPUT 215. *Elementary Data Structures.* ☐ 4.5. (Second Term, 3-0-3) Representation and manipulation of data structures by a high level language, strings, arrays, linked lists, stacks, queues, trees, applications of data structures,. Prerequisite: CMPUT 214. Corequisite: MATH 208 or 204 or consent of the Department. See above note on introductory Computing Science courses. (★3.)

CMPUT 300. *Problem Solving and Programming.* ☐ 3.0 (either term, 2-0-2). An introduction to problem solving by computer: analyzing problems; formulating algorithms; programming in FORTRAN IV and APL; and the use of MTS terminals. FORTRAN IV and the numerical solution of engineering and scientific problems will be emphasized. Credit will be granted for only one of CMPUT 214, 261, 300, 351 and 357. (★2.)

CMPUT 314. *Foundations of Computing Science.* ☐ 4.5 (First Term, 3-0-3). Review of sets and relations, digraphs, applications of Boolean algebra, minimization, topological sorting, maximal flow and scheduling network algorithms, paths and cycle algorithms, finite representations of numbers and discrete structures, systematic programming, correctness of programs, algorithms, automata and formal grammars. Prerequisite: CMPUT 215 or 352. Note: Credit will be granted for only one of CMPUT 314 or 364. (★3.)

CMPUT 315. *Computer Organization and Programming.* ☐ 4.5 (Second Term, 3-0-3) Computer architecture, physical characteristics of input, output and storage devices, detailed study of an assembler language including macros, subroutines, coroutines and input-output operations, elementary operating systems concepts, programming aids, loaders, assemblers, compilers, program libraries. Prerequisite: CMPUT 215 or 352. Note: Credit will be granted for only one of CMPUT 315 or 365. (★3.).

CMPUT 322. *Applied Statistics.* ☐ 4.0 (Second Term, 3-0-2). Sampling distributions, estimation, hypothesis testing, linear regression of two or more random variables, simulation of samples, cost analyses, applications which are primarily of interest to computing scientists. Prerequisite CMPUT 321. Corequisite: MATH 303. (★3.)

CMPUT 414. *Programming Languages.* ☐ 3.5 (First Term, 3-0-1). Formal definition of programming languages; introduction to syntax analysis; properties of algorithmic languages; list processing languages; run-time representation of program and data structures. Prerequisite: CMPUT 314/315 or 364/365. (★3.)

CMPUT 416. *Systems Programming.* ☐ 4.0 (Second Term, 3-0-2) Detailed study of assembler language facilities under a large-scale operating system, data management, task management, job management, loading and subroutine linkage input-output and channel programming and hardware. Prerequisite: CMPUT 314/315 or 364/365. (★3.).

CMPUT 417. *Basic File Management.* ☐ 3.0 (either term, 3-0-0) The use of computers for file management and associated automatic information processing with concurrent study of and practice with the COBOL language. Prerequisite: CMPUT 315 or 365. (★3.).

CMPUT 458. *Numerical Analysis.* ☐ 3.0 (either term, 3-0-0). An introduction to numerical methods with engineering applications. Topics include solution of nonlinear equations, interpolation, integration, matrix methods, and ordinary differential equations. Prerequisites: CMPUT 300 or equivalent, MATH 312 and 313. (★3.)

CMPUT 462. *Switching Theory and Logical Design.* ☐ 4.5 (Second Term, 3-0-3). Codes: synthesis of gate networks, simplification of combinatorial networks; fault detection; reliability; threshold logic; synchronous and asynchronous sequential machines; minimization. Prerequisite: CMPUT 315 or 365, or equivalent. (★3.)

CMPUT 472. *Theory of Computation I.* ☐ 3.0 (First Term, 3-0-0) Effective procedures; simple programming languages; computable functions; recursive functions; Turing machine, semi-computable predicates; computing science—its definition and development. Prerequisite: CMPUT 314 or 364. (★3.

GEOLOGY

GEOL 308. *Earth's Physical Resources.* ☐ 3.0 (Second Term, 3-0-0). Resources and resource systems of planet Earth; energy resources and mineral deposits; constructional and other bulk materials; implications of earth resource systems in human affairs. Prerequisites: GEOL 202 and 203 or GEOL 301 and 302. (★3.)

GEOL 320. *Principles of Sedimentation and Stratigraphy.* ☐ 4.5 (Second Term, 3-0-3). Sedimentary processes, environments and facies; properties and classification of sedimentary rocks; stratigraphic nomenclature and the stratigraphic column; principles of stratigraphic paleontology. Prerequisites: GEOL 202 and 203. (★3.)

GEOL 380. *Geomorphology.* ☐ 4.5 (First Term, 3-0-3). Land forms and the processes which create and modify them; study of landforms on aerial photographs and topographic maps. Prerequisite: GEOL 390 or 401. (★3.)

GEOL 390. *Engineering Earth Sciences.* ☐ 4.5 (First Term, 3-0-3). Rock-forming minerals, igneous activity and igneous rocks, metamorphic and sedimentary rocks, economic minerals; rock weathering and soil formation, mass wasting, groundwater; deformation of the earth's crust. Laboratories on identification of minerals and rocks and the interpretation of geological maps and aerial photography. Not available to students who have taken GEOL 401. (★3.)

GEOL 391. *Engineering Geology.* ☐ 4.5 (Second Term, 3-0-3). Introduction to geological topics important in engineering and regional planning; mass-wasting, hydrogeology, surficial geology, weathering processes and their effects on natural materials. Analysis of aerial photographs and maps to determine constraints on land use imposed by geology. Prerequisite: An introductory course in geology. (★3.)

GEOL 401. *Basic Geology for Senior Students.* ☐ 4.5 (First Term, 3-0-3). The structure and composition of the earth, continents and oceans. Minerals and rocks; the time-scale, historical geology and an introduction to geotectonics. Not available to students who have taken GEOL 390. Intended for graduate students or students majoring in subjects other than geology. (★3.)

GEOL 423. *Subsurface Geological Methods.* ☐ 4.5 (First Term, 3-0-3). Methods of acquiring geologic data from beneath the surface by remote means: drilling, sampling, coring, logging; significance of geophysical techniques; presentation of subsurface information. Prerequisites: GEOL 320 and 362 or consent of Department. (★3.)

GEOL 440. *Hand Specimen Petrography.* ☐ 4.5 (Second Term, 3-0-3). Study of igneous, sedimentary and metamorphic rocks in hand specimens. Not available to students with credit in GEOL 445, 446, or 447. Prerequisite: GEOL 202 or 204 or 390 or 401. (★3.)

GEOL 460. *Structural Geology I.* ☐ 4.5 (First Term, 3-0-3). Nature, orientation, measurement, representation and analysis of planar and linear structures, faults, joints and folds. Prerequisites: GEOL 362 and PHYS 240 or PHYS 205 and 207. (★3.)

GEOL 482. *Glacial and Periglacial Geology.* ☐ 4.5 (First Term, 3-0-3). Elements of glaciology; character and origin of glacial deposits and landforms; geological processes, sediments and landforms in the periglacial environment; frozen ground phenomena, including permafrost; glacio-isostatic rebound and eustatic changes in sea level; glacial history of Western Canada; field trips. Prerequisite: GEOL 380 (★3.)

GEOL 524. *Petroleum Geology I.* ☐ 4.5 (First Term, 3-0-3). Origin and accumulation of petroleum hydrocarbons; stratigraphic and geographic distribution of oil and gas deposits; petroleum exploration; case histories. Prerequisites: GEOL 362 and 420 or 421. (★3.)

GEOL 525. *Petroleum Geology II.* ☐ 3.0 (First Term, 3-0-0). Characteristics of classic oil and gas provinces and fields; geologic analysis of sedimentary basins; economics of petroleum; case histories. Prerequisite: GEOL 524. (★3.)

GEOL 563. *Structural Geology II.* ☐ 4.5 (Second Term, 3-0-3). Numerical geometric analysis; analysis of strain; structural associations. Prerequisite: GEOL 460. (★3.)

GEOL 588. *Hydrogeology.* ☐ 4.5 (First Term, 3-0-3). The occurrence, distribution, movement, and chemistry of groundwater as a function of the geological environment; groundwater as a geologic agent; methods of collection, organization, and use of hydrogeologic data; groundwater budgets, model studies, selected problems and case histories. Prerequisites: GEOL 380, MATH 204. (★3.)

GEOL 592. *Photogeology and Remote Sensing.* ☐ 3.5 (First Term, 2-0-3). The application of aerial photographs to geologic mapping and terrain analysis; interpretation of remote sensing in geology. Sensor geological structure and landforms; principles and capabilities; analysis of imagery. Prerequisite: Consent of the Department. (★3.)

MATHEMATICS

MATH 212. *Calculus I.* ☐ 4.0 (either term, 3-0-2). Coordinates, geometry of lines and planes. Functions, limits, continuity, derivatives and applications. Integration and applications. Prerequisite: Mathematics 30 (for students who have not had trigonometry, MATH 101 is a corequisite). Note: This course may not be taken for credit if credit has already been obtained in MATH 202, 203, 207 or 245. (★4.) Note: students in all sections of this course will write a common final examination.

MATH 213. *Calculus II.* ☐ 5.0 (either term, 4-0-2). Applications of integration to lengths, areas, volumes and masses. Transcendental functions. Methods of integration, polar coordinates, parametric equations. Vectors, vector functions and derivatives. Prerequisite: MATH 212 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in either MATH 204 or 208. (★4.) Note: students in all sections of this course will write a common final examination.

MATH 312. *Linear Algebra and Infinite Series.* ☐ 3.0 (either term, 3-0-0). Review of elementary vector operations. Linear transformations, matrices and matrix operations. Eigenvalues and eigenvectors. Infinite Series, examples. Prerequisite: MATH 213 or equivalent. (★3.) Note: students in all sections of this course will write a common final examination.

MATH 313. *Differential Equations I.* ☐ 4.0 (Second Term, 3-0-2). First order linear and non-linear equations. Linear differential equations with constant coefficients. Laplace Transforms, applications, Picard's Method. Series solutions. Prerequisite: MATH 213 or equivalent. Prerequisite or corequisite MATH 312. Note: This course may not be taken for credit if credit has already been obtained in MATH 317. (★3.) Note: students in all sections of this course will write a common final examination.

MATH 315. *Calculus III.* ☐ 3.0 (either term, 3-0-0). Partial differentiation, derivatives of integrals. Multiple integration using rectangular, cylindrical and spherical coordinates. Vector Field Theory. Prerequisite: MATH 213 or equivalent. (★3.) Note: students in all sections of this course will write a common final examination.

MATH 317. *Differential Equations I.* ☐ 2.5 (First Term, 2-0-1). First order linear and non-linear differential equations. Integrating factors. The general linear equation, Wronskians independence. Equations with constant coefficients. Variations of parameters, undetermined coefficients. Prerequisite: MATH 213 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in MATH 313. (★2.)

MATH 318. *Differential Equations II.* ☐ 2.5 (Second Term, 2-0-1). Power series solutions. Laplace transforms, inverse transforms and applications. Prerequisite: MATH 317 or equivalent. (★2.)

MATH 401. *Advanced Calculus and Differential Equations I.* ☐ 3.0 (First Term, 3-0-0). First and second order differential equations. The Laplace transform, series solution of differential equations, method of Frobenius. Special functions, Legendre and Bessel functions. Prerequisite: MATH 303 or equivalent. Note: Credit may not be obtained for both MATH 401 and MATH 431. (★3.)

MATH 402. *Advanced Calculus and Differential Equations II.* ☐ 3.0 (Second Term, 3-0-0). Vector analysis, line and surface integrals. Theorems of Green and Stokes, applications, curvilinear coordinates, Jacobians. Boundary value problems, Fourier series. Prerequisite: MATH 401 or MATH 431 or equivalent. (★3.)

MATH 408. *Theory of Functions of a Complex Variable.* ☐ 3.0 (either term, 3-0-0). Complex numbers, complex series. Functions of a complex variable. Cauchy's theorem and contour integration, conformal mappings. Schwart-Christoffel transformation, inverse Laplace transforms. Prerequisite: MATH 315 or equivalent. (★3.)

MATH 412. *Linear Algebra.* ☐ 3.0 (either term, 3-0-0). Abstract vector spaces. Transformations of coordinates, hermitian matrices. Characteristic values, similarity, diagonalization. Orthogonalization, canonical forms of matrices. Quadratic forms, inner-products, functions of matrices with application to linear systems of differential equations. Introduction to ten-

sor analysis. Prerequisite: MATH 312 or consent of the Department. (★3.)

MATH 413. *Advanced Calculus I.* ☐ 3.0 (either term, 3-0-0). Review of ordinary differential equations. Boundary value problems, applications. Orthogonality, completeness and Fourier series. Solution of Laplace, heat and wave equations by Fourier series, transforms. Numerical methods. Prerequisites: MATH 312, 313 and 315 or equivalent. (★3.)

MATH 414. *Advanced Calculus II.* ☐ 3.0 (Second Term, 3-0-0). Series solutions of ordinary differential equations. Bessel, Legendre and Hermite equations. Vibrating membranes, heat flow in solids, gravitational potential. Transform methods. Additional topics may be added at the request of the students. Prerequisite: MATH 413 or equivalent. (★3.)

MATH 431. *Introduction to Differential Equations.* ☐ 3.0 (First Term, 3-0-0). First order equations, second order equations with constant coefficients. Series solutions, with a brief introduction to separation of variables, application to boundary value problems of mathematical physics, elementary special functions. Elementary transform techniques. Prerequisites or corequisites: MATH 222, 302 or 307 and MATH 378 or 381. (★3.)

MATH 432. *Intermediate Differential Equations.* ☐ 3.0 (Second Term, 3-0-0). Elementary existence and uniqueness theorems, stability, perturbation theory, introduction to numerical methods. Introduction to phase plain analysis. Prerequisite: MATH 431. Prerequisite or corequisite: MATH 303 or 308. (★3.)

MATH 436. *Introduction to Partial Differential Equations.* ☐ 3.0 (Second Term, 3-0-0). Introduction to partial differential equations. Cauchy-Kowalewski's theorem, classification of second order linear equations. Elliptic equations (Laplacian and Schrodinger — fundamental solutions, maximal principles, growth estimates). Hyperbolic equations (wave equation characteristics, singularities, Duhamel's principle, Riemann's method, method of descent). Parabolic equations (heat equation; maximal principles, parametrics). Concept of well-posed problem in the sense of Hadamard. Introduction to numerical methods. Von Neumann criterion. Prerequisite: MATH 431. (★3.)

MATH 437. *Boundary Value Problems.* ☐ 3.0 (Second Term, 3-0-0). Boundary value problems of classical Math Physics, orthogonal expansions, classical special functions. Advanced transform techniques. Prerequisite: MATH 431. (★3.)

MATH 452. *Analysis I.* ☐ 3.0 (First Term, 3-0-0). Construction of real numbers, Heine-Borel and related theorems, uniform continuity, series of functions, uniform convergence, Riemann integral, integration of series; metric topological, Banach and Hilbert spaces, bounded linear operators. Prerequisite: MATH 315 or MATH 303 or equivalent. (★3.)

MATH 453. *Analysis II.* ☐ 3.0 (Second Term, 3-0-0). Measurable sets, Lebesgue integrals, linear spaces, and linear operators. Prerequisite: MATH 452. (★3.)

MATH 480. *Cartesian Tensors and Applications.* ☐ 3.0 (First Term, 3-0-0). Euclidean vector spaces. Linear transformations and matrices. Algebra of cartesian tensors. Vector and tensor calculus. Determinants. Structure of second-order tensors. Isotropic tensors. Physical applications. Prerequisites: MATH 312 and 313, or equivalent. (★3.)

MATHEMATICAL PHYSICS

MA PH 443. *Classical Mechanics I.* ☐ 3.0 (First Term, 3-0-0). Review of fundamental principles; Lagrange's equations derived from Newton's Laws and D'Alembert's Principle; non-conservative and non-holonomic systems; central force problem; motion of a rigid body. Prerequisite: PHYS 343 and MATH 303 or 308. (★3.)

MA PH 551. *Mathematical Methods of Physics I.* ☐ 3.0 (First Term, 3-0-0). Application to problems in physics of: method of steepest descent; Fourier and Laplace transforms; boundary-valve problems, integral equations and Green's functions. Prerequistes:PHYS 471 and 482, or consent of both departments. (★3.)

MA PH 553. *Mathematical Methods of Physics II.* ☐ 3.0 (Second Term, 3-0-0). Application to problems in physics of: contour integral solutions of linear differential equations; Legendre, Bessel and hypergeometric functions with complex arguments; applications to the differential and integral equations of mathematical physics; perturbation theory; calculus of variations; conformal mapping; elements of group theory. Prerequiste: MA PH 551 or consent of both departments. (★3.)

PHYSICS

PHYS 231. *Mechanics.* ☐ 3.6 (either term, 3-0-3/2). Kinematics; particle dynamics; work and energy; linear momentum; gravitation; oscillations. Prerequisites: Mathematics 30, Physics 30. Corequisite: MATH 212. (★3.)

PHYS 233. *Waves, Sound and Optics.* ☐ 3.8 (either term, 3-0-3/2). Gravitation. Simple harmonic motion. Waves on a string. Compressional waves. Reflection and refraction. Lenses. Interference. Diffraction. Polarization. Prerequisite: PHYS 231. (★3.)

PHYS 235. *Electricity and Magnetism.* ☐ 4.3 (either term, 3-2s/2-3/2). Charge; electric field; Gauss's law; electric potential; capacitance; currents and resistance; EMF and DC circuits; magnetic field; Ampere's law; Faraday's law; inductance. Prerequisite: PHYS 231. (★3.)

PHYS 331. *Electricity and Magnetism.* ☐ 4.3 (Second Term, 3-2s/2-3/2). Electrostatics, electric field, potential capacitance, magnetic field, electromagnetism, induced to EMF, inductance. Prerequisites: PHYS 233 and MATH 213. (★3.)

PHYS 333. *Electricity and Magnetism.* ☐ 5.0 (First Term, 3-1s-3). An introductory course in electrostatics, currents, magnetism and electromagnetic induction. Prerequisites: PHYS 233 and MATH 213. (★3.)

PHYS 343. *Mechanics.* ☐ 3.0 (Second Term, 3-0-0). Particle dynamics; central forces; planetary motion; Rutherford scattering; potential theory; damped and forced harmonic oscillators; wave motion; vibrating strings and normal modes. Prerequisites: PHYS 233 and MATH 313 or 317. (★3.)

PHYS 351. *Relativity.* ☐ 3.0 (Second Term, 3-0-0). Postulates of Special and General relativity including acceleration, four-vectors, energy and momentum, relativistic connection between electric and magnetic fields, curved space, gravitation and black holes. Prerequisites: PHYS 233 and MATH 213. (★3.)

PHYS 371. *Introductory Atomic and Nuclear Physics.* ☐ 3.0 (Second Term, 3-0-0). Thermal radiation and the quantum theory. Planck's radiation law; photoelectric and Compton effects; Bohr atom; periodic table; X-rays. Corequisite: PHYS 331 or 333. (★3.)

PHYS 382. *Electricity and Magnetism.* ☐ 4.0 (2-0-0). A basic course in electricity and magnetism. Maxwell's equations and magnetism. Maxwell's equations in intregal form will be developed from the experimental evidence. Methods for treating DC and AC electric circuits and the properties of dielectrics will be included in the development. Prerequisite: PHYS 233. Corequisites: MATH 313/317. Credit may not be obtained for both PHYS 340 and 382. (★4.)

PHYS 390. *Physics Laboratory A.* ☐ 3.0 (0-0-4.5). Experiments in mechanics, atomic physics, electricity and magnetism. This course is intended for students in the Honors and Specialization programs. Prerequisites or corequisites: PHYS 343, and 340 or 382, or consent of the Department. (★3.)

PHYS 417. *Introduction to Wave Mechanics and Theory of Solids.* ☐ 3.0 (Second Term, 3-0-0). The Schrodinger equation, quantum statistics, binding forces, electron theory of solids, properties of metals and semi-conductors. Prerequisites: PHYS 331 or 333 and MATH 313 or 317. (★3.)

PHYS 461. *Physical Optics.* ☐ 3.0 (First Term, 3-0-0). Complex optical systems; Fresnel and Fraunhofer diffraction; polarization; interaction of light and matter; thin films; lasers and holography. Prerequisites: PHYS 331, 333, 340 or 382. (★3.)

PHYS 471. *Quantum Mechanics A.* ☐ 3.0 (Second Term, 3-0-0). Wave packets, Fourier transforms, group velocity, etc. The basic postulates of quantum mechanics. Solutions of the Schrodinger equation in three dimensions, angular momentum, square well, harmonic oscillator, hydrogen atom. Prerequisite: PHYS 382. Prerequisite or corequisite: MATH 402 or 437. (★3.)

PHYS 482. *Electromagnetic Theory.* ☐ 6.0 (3-0-0). Laplace's and Poisson's equations applied to simple cases. Maxwell equations and solutions under various boundary conditions, transmission lines, wave guides, and antennae. Theory of dielectrics and magnetic media. Introduction to plasma physics. Prerequisite: PHYS 382. Prerequisites or corequisites: MATH 401 and 402 or 431 and 437. (★6.)

PHYS 497. *Physics Laboratory.* ☐ 3.0 (Second Term, 0-0-6). A continuation of PHYS 493 with experiments in optics, electricity and magnetism. This course is intended for students in the Honors and Specialization programs. Prerequisite: PHYS 493 or 495. Corequisite: PHYS 482. (★3.)

PHYS 509. *Statistical Physics for Engineers.* ☐ 3.0 (First Term, 3-0-0). Quantum states, temperature, entropy, chemical potential, Boltzmann factor, fermions and bosons, kinetic theory of gases, Fermi-Dirac distributions and electrons in metals, Bose-Einstein distributions and photons, Debye theory of photons. Bose-Einstein condensation. Prerequisite: PHYS 331 or 333. (★3.)

PHYS 511. *Statistical Physics I.* ☐ 3.0 (First Term, 3-0-0). Kinetic theory of gases, canonical distribution and applications, grand canonical ensemble. Prerequisites: PHYS 382 and MATH 401/402, or 408. (★3.)

PHYS 513. *Statistical Physics II.* ☐ 3.0 (Second Term, 3-0-0). Quantum statistics, black body radiation, Debye theory of solids, ortho and parahydrogen, Fermi theory of B-decay. Prerequisite: PHYS 511. (★3.)

PHYS 515. *Introductory Solid State Physics.* ☐ 3.0 (First Term, 3-0-0). Crystal structure; crystal diffraction and reciprocal lattice; specific heat of a solid; Einstein and Debye models; free-electron theory of metals; band theory of solids; semi-conductors. Prerequisites: PHYS 471 or consent of the Department. (★3.)

PHYS 531. *Fundamentals of Modern Physics.* ☐ 3.0 (First Term, 3-0-0). Atomic theory of matter, wave-particle quality, quantum theory and wave mechanics, nuclear structure, applications of nuclear physics. Prerequisite: PHYS 331 or 333. (★3.)

PHYS 571. *Quantum Mechanics B.* ☐ 3.0 (First Term, 3-0-0). Review of the physical basis of quantum mechanics; matrix formulation; angular momentum; perturbation theory; collision theory; the many-particle Schrodinger equation; identical particles; spin and statistics; atomic and molecular systems. Prerequisite: PHYS 471 or consent of the Department. (★3.)

PHYS 573. *Nuclear and Particle Physics.* ☐ 3.0 (First Term, 3-0-0). Nuclear systematics; nuclear dimensions; semiempirical mass formula; electromagnetic moments; radioactive decay; nucleon-nucleon interactions; the deuteron; neutron-proton and proton-proton scattering; nuclear models; nuclear reactions; introduction to fundamental particles. Prerequisites: PHYS 471 or consent of the Department. (★3.)

STATISTICS

STAT 241. *Introduction to Statistics.* ☐ 4.0 (either term, 3-0-2). Random Variables and frequency distributions. Averages and variance. The binomial and normal distribution. Sampling distributions and elementary inference. The x^2-*test* for contingency tables. Regression and correlation. Analysis of Variance. Prerequisite: Mathematics 30 or equivalent. This course may not be taken for credit if credit has already been obtained in any of STAT 255, 335, 337, 365. (★3.)

STAT 335. *Probability, Statistics, and Programming.* ☐ 4.0 (First Term, 3-0-2). The calculus of probability. Binomial, multinomial, Poisson, and normal distributions. Estimation. Tests of hypothesis and confidence limits. Tests of control and control charts. Sampling plans and sequential sampling. Computer programming with applications to statistics. Prerequisite: A knowledge of basic programming. This course may not be taken for credit if credit has already been obtained in STAT 337 or 365. (★3.)

STAT 365. *Elements of Probability Theory.* ☐ 3.0 (First Term, 3-0-0). Finite probability spaces; random variables, random vectors and probability distributions on finite spaces; introduction to discrete and continuous random variables. Prerequisite: MATH 204 or equivalent. (★3.)

STAT 366. *Elements of Statistics.* ☐ 4.0 (Second Term, 3-0-2). Principles of statistical inference on finite sample-spaces; introduction to statistical inference on discrete and continuous space; some common statistical procedures. Prerequisite: STAT 365. (★3.)

NOTE: Descriptions of electives offered by other faculties will be found in the appropriate faculty calendars.

HOME
ECONOMICS

Faculty of Home Economics

91 INTRODUCTORY

91.1 Members of the Faculty

91.1.1 OFFICERS OF THE FACULTY

Professor and Dean
D. BADIR, M.Sc.

Associate Professor and Associate Dean
T. DENNIS, M.S.

Professor and Chairman, Foods and Nutrition
Z. HAWRYSH, Ph.D.

Associate Professor and Chairman, Clothing and Textiles
E. CROWN, Ph.D.

Professor and Chairman, Family Studies
D. KIEREN, Ph.D.

Administrative Officer
L. MASON

Administrative Assistant Admissions; Student Affairs
L. DE LEON, B.B.A.

91.1.2 ACADEMIC STAFF

Professors
W. ADAMS, Ph.D.
E. DONALD, Ph.D.
A. KERNALEGUEN, Ph.D.
M. E. STILES, Ph.D.

Associate Professors
P. BROGDON, M.S.
N. FETTERMAN, Ph.D.
M. GEE, M.Sc.
N. KERR, M.S.
A. LAMBERT, M.A.
J. MONTGOMERY, Ph.D.
A. OSTAPOVITCH, M.A.
E. RICHARDS, M.S.

Assistant Professors
G. BACHYNSKI, M.Sc.
P. FIELDHOUSE, M.Phil.
N. KEATING, Ph.D.
K. LAVERTY, M.Sc.
J. MARSHALL, M.Sc.
P. JELEN, Ph.D. (Food Science)
E. SNIDER, Ph.D. (Sociology)

Asistant Professor
W. J. PAGE, Ph.D. (Microbiology)

91.1.3 ADDITIONAL MEMBERS OF FACULTY COUNCIL

President and Vice-Chancellor
M. HOROWITZ, Ed.D.

Associate Professors
W. J. HAGUE, Ph.D. (Educational Psychology)

Representatives
T. HOLT, Alberta Registered Dietitians Association
B. COUSENS, Alberta Home Economics Association

Registrar of the University

Student Representatives
J. PAWELEK (Undergraduate)
L. ROLES (Graduate Students)

91.2 General Information

Home Economics is a study of the laws, conditions, principles, and ideals concerned with people's immediate physical environment and their nature as social beings. It deals especially with the relationship between the two *for the purpose of improving the quality of people's daily lives.* Consumer orientation, family dynamics and daily home living patterns are common themes running through all programs and courses. Programs are offered at bachelor's and master's degree levels.

91.2.1 UNDERGRADUATE PROGRAMS

For convenience, the Faculty divides the total field of home economics into three main areas and offers a four year undergraduate program in each one. All programs are flexible and contain sufficient options to permit tailoring the program for personal interests and career goals.

The *Clothing and Textiles Program* covers many aspects of both clothing and textiles and also introduces the student to housing and design. The social sciences, physical sciences and humanities are applied to the study of people's most personal environment — their clothing and shelter. Through choice of suitable options, the program can be designed for a broad university education or as preparation for careers in merchandising, public relations, extension services, teaching, journalism, international development, textile testing, museum work and textile arts.

Students interested in merchandising and retailing may wish to choose their options from courses offered by the Faculty of Business Administration and Commerce. A student with a flair for design may wish to select options in fine arts and other related areas. Students interested in housing may wish options from sociology, family studies, economics, geography and other related areas. The selection of English and/or communications options should help students prepare for work as consumer consultants either as journalists or radio and T.V. personalities. A student whose main

interest is the study of textiles is advised to select courses in chemistry, biochemistry, physics and mathematics while a student who wishes to proceed to museology should consider courses in anthropology, history, fine arts and recreation administration.

Students interested in studying *all* areas of Home Economics should read the material below under the headings: *Adapting the three programs for generalized study of home economics, or for a career in teaching and/or extension.*

Students who plan to undertake postgraduate study after receiving the bachelor's degree should discuss plans with the Faculty's staff members and select options which will prepare them to enter desired postgraduate degree programs (§ 93.4).

Details of the *Clothing and Textiles* program may be found in § 93.1.1.

The *Family Studies Program* provides an interdisciplinary study of the historical, contemporary and emerging family forms through formal course work and interaction with individuals and families. Field experiences are an integral part of the program. Each student is placed in a field experience with an agency in the final year of study. Through this experience the student has an opportunity to develop skills in interacting with individuals and groups and to learn how to adapt knowledge to the needs of the community.

The increasing need for support services for individuals and families suggests a growing demand for personnel trained to deal with personal and interpersonal problems. Interdisciplinary social welfare teams, recreational agencies, financial counselling groups, senior citizen groups, and agricultural extension agencies are a few of the potential employers of graduates of this program.

Two routes of Family Studies are possible. The first is a General Home Economics Route which focuses attention on all three areas of Home Economics: Family Studies, Clothing and Textiles, and Foods and Nutrition. Chemistry 250 is a necessary prerequisite to elect this route. Students desiring careers in agricultural extension, the consumer field or teaching should plan their program on these general principles. The second is a General Family Studies Route. This route is advised for students desiring greater depth in the study of the nature of the family and/or family interaction and the application of this knowledge. Biology 298 and another half option in biology are necessary prerequisites. This route is especially relevant for students desiring careers in family related social service agencies.

Students in the Family Studies Program are advised to obtain counselling early in their program of study to plan appropriate choices of basic science courses and options.

Postgraduate study may be undertaken at this or other universities; interested students should consult the faculty's staff members and should also refer to § 93.4.

Details of the *Family Studies* program may be found in § 93.1.2.

The *Foods and Nutrition Program* includes study of: the application of scientific principles in understanding the nutritional value of foods; the utilization, functions and interrelationships of nutrients in health and disease; the chemical, physical and sensory properties of food; the safety and quality of foods and their social and psychological significance. Optional courses chosen from the arts provide a broader education, while optional courses in other areas allow the student to plan a program to meet specific interests and career goals.

The program is suitable for students planning to become dietitians, nutritionists, home economists in the food industry, home economists or foods and/or nutrition specialists in provincial departments of agriculture and in consumer work. Students interested in dietetics should refer to the section below entitled: *Adapting the foods and nutrition program for dietetics training.* Students interested in the other careers may choose a variety of courses as options; early in their programs (not later than the end of the first year) they should consult the faculty's staff members for guidance in selecting suitable options.

Students interested in broadening their study to embrace *all* areas of home economics should read the material below, under the headings: *Adapting the three programs for generalized study or for a career in teaching.*

The study of foods and nutrition may be continued at postgraduate level in this and other universities. Excellent opportunities are open to the holders of the master's or doctoral degrees. Interested students should consult the faculty's staff members for guidance in designing their undergraduate programs suitably; they should also refer to § 93.4.

Details of the *Foods and Nutrition* Program may be found in § 93.1.3.

ADAPTING THE THREE PROGRAMS FOR GENERALIZED STUDY OF HOME ECONOMICS, OR FOR A CAREER IN TEACHING

It is possible to adapt all three programs for *generalized* study of home economics. Students who do not wish to concentrate on one area exclusively, but would rather acquire a general knowledge of the entire field or prepare themselves to fill positions as home economists in the extension service of provincial departments of agriculture or utility companies, may do so by enrolling in any one of the programs and selecting some optional courses from the other two. Graduates with a generalized program of this sort can *also* prepare for a career in teaching home economics by completing the Teacher Home Economics Qualification Program which appears in § 73.8 of the Faculty of Education calendar. Students interested in generalizing their programs should seek advice as soon as possible upon enrolling in the Faculty of Home Economics since careful selection of options should commence very early.

(For a description of Bachelor of Education degree program with specialization in Home Economics, see § 73.3.3 of the Faculty of Education calendar.)

ADAPTING THE FOODS AND NUTRITION PROGRAM FOR DIETETICS TRAINING

The *Foods and Nutrition* program provides an opportunity to prepare for a professional career in *Dietetics*; the interested student will find guidance in § 93.1.3 – Note C.

To qualify as a *professional dietitian* a graduate must spend twelve months in an internship approved by the Canadian Dietetic Association. The Canadian Dietetic Association recognizes that there are three kinds of dietitians: the Therapeutic Dietitian, the Food Service Administrator, and the Generalist (who has duties related to both Therapeutics and Food Service Administration). Internships to meet the needs of these three kinds of dietitians are now being offered in Canada; however, the number of specialized internships in Therapeutics and Food Service Administration are still limited. Further information about internships can be obtained by inquiring at the general office of the Fa

ulty of Home Economics. Interested students should make inquiries early in their careers.

The *Foods and Nutrition* program offered by the Faculty of Home Economics emphasizes Therapeutic dietetics and General dietetics. Until more Therapeutic internships are started, graduates may qualify by completing the Generalist internship for which they can prepare by appropriate selection of options (see § 93.1.3 — Note C).

An alternative route for those students interested in pursuing a career in Food Service Administration is a program being offered jointly by the Faculty of Home Economics and the Faculty of Business Administration and Commerce (see § 93.3 and 53.1.4). A limited number of specialized internships are available for graduates of this program who wish to qualify for membership in the Canadian Dietetic Association. Further information can be obtained in the general office of the Faculty of Home Economics.

Early in the program, students interested in *dietetics* should refer to the document entitled "Academic Requirements for Membership in the Canadian Dietetic Association — June 1972". Copies are available in the general office of the Faculty.

91.2.2 POSSIBILITIES FOR TRANSFER FROM OTHER POST-SECONDARY INSTITUTIONS

The first year of the Faculty's programs may be taken at the University of Calgary, the University of Lethbridge or one of the following Junior Colleges: Red Deer Regional, Grande Prairie Regional, Medicine Hat, Camrose Lutheran, Concordia Lutheran and Canadian Union College (see the appropriate University or College calendar).

Applications for transfer from other post secondary institutions will be evaluated individually.

91.2.3 BRIEF HISTORY OF THE FACULTY

Degree programs have been offered at the University of Alberta since 1918 when a Department of Household Economics was established. In 1928, the School of Household Economics was organized under the Faculty of Arts and Science. In 1963, it became part of the newly organized Faculty of Science and three years later it became an autonomous school. In 1976 the status and name were changed to the present designation, Faculty of Home Economics. The Faculty is not departmentalized but is organized somewhat less formally into three divisions: Clothing and Textiles; Family Studies; and Foods and Nutrition.

91.3 Course Numbering System

Courses numbered 100 to 199 are introductory, usually equivalent to high school courses. Those numbered 200 to 299 are junior courses, normally taken by first-year undergraduates. Those numbered 300 to 499 are senior courses, normally taken after the first year. Courses numbered 500 are normally restricted to senior and graduate students, 600 to graduate students only.

92 FACULTY REGULATIONS

92.1 Admission

(1) The admission requirements of the Faculty are set out in § § 13.1 and 13.10 of the University Regulations and Information for Students Calendar.

(2) *Admission With Advanced Standing*

(i) Students transferring into any B.Sc. (H.Ec.) degree program must meet all curriculum requirements of the program of their choice.

(ii) Normally, a maximum of 10 full-session courses or equivalents may be granted for work completed at other institutions.

(iii) Students who have completed more than two years of a home economics bachelor's degree program at another university are advised to seek permission from their university to attend The University of Alberta as a Visiting Student (refer to § 12.2.3 Item 3 of the University Regulations and Information for Students Calendar) rather than apply for admission into one of the programs offered by the Faculty of Home Economics.

(3) *Admission Policy for Non-Matriculated Mature Students*

Requirements: 1. Minimum age — 21 years. 2. Credit in the following two senior matriculation courses: English 30 and Chemistry 30. An average of 60% in the two courses. 3. Personal interview with the Administrative Assistant. 4. Positive recommendation from Student Counselling Services, following interview and appropriate tests*. 5. Deadline for application is June 1st.

*These should include tests of vocational interest, personality inventory and academic aptitude.

(4) *English Language Proficiency:* English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take any one of several forms: 1. successful completion of the equivalent of three years of full-time instruction in an English language secondary institution in Canada; 2. presentation of a successfully completed full-year or more of course work, including an introductory course in English, in an accredited post-secondary institution where English is the language of instruction and from which advance credit is normally allowed by The University of Alberta; 3. successful completion of the equivalent of three years of full-time instruction in a school/institution outside Canada where academic subjects are taught by "English Language" instructors, as accredited by the International Institute of Education (I.I.E.), or as recognized by The University of Alberta; 4. successful completion of the equivalent of three years of full-time instruction in a school in Canada in which the major lan-

guage of instruction is other than English but where the level of English proficiency required for graduation is equivalent to that in English language schools, as recognized by a provincial Department of Education; or 5. presentation of results of the Test of English as a Foreign Language (TOEFL) or its equivalent in other approved standard tests.

(a) Applicants presenting a TOEFL score of 600 (or its equivalent in other approved standard tests) will be considered as having demonstrated English language proficiency.

(b) Applicants presenting a TOEFL score of less than 600 but 550 or greater will usually be considered as having a minor deficiency. Subject to the requirements of the particular Faculties, such an applicant may be granted provisional admission into the University but will be required to successfully complete one or more remedial Faculty of Extension non-credit English language courses and may be required to register in less than a normal course load in his or her regular program until the English language deficiency has been corrected. The student will not be permitted to register in a further academic year until satisfactory command of the language of instruction has been demonstrated (as in (a) above). (c)
An applicant presenting a TOEFL score of less than 550 will be considered as having a major deficiency in the language of instruction and will not be admitted into The University of Alberta until proficiency can be demonstrated.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building, University of Alberta.

The Faculty of Home Economics Requirements. Applicants presenting a TOEFL score of less than 600 but 550 or greater will not be permitted to register in more than 4 full courses. They will be required to achieve a passing G.P.A. in these courses, and the equivalent of 600 on the TOEFL after taking the non-credit Language courses in written and conversational English offered by the Faculty of Extension.

92.2 Residence Requirements

(1) A student proceeding towards a first degree must attend at least one academic year and complete a full year's program.

(2) The final year of a degree program must normally be taken in attendance at The University of Alberta.

(3) Any student who has fulfilled the first requirement before beginning the final year of the program may apply to the Dean of the Faculty for permission to fulfill the second requirement by attendance at the Special Session of this university or at another university.

92.3 Academic Standings and Graduation

(1) To be granted a B.Sc. in Home Economics, a student must complete 20 full-session courses presenting passing grades (4 or better) in a minimum of nineteen full-session courses or equivalent, not less than a grade of 3 in the remaining full-session course or equivalent, and a grade-point average (GPA) of at least 5.0 in all courses credited toward the degree after the first year.

(2) A student transferring to the University with advanced standing will normally be required to complete at least ten full-session courses or equivalent and fulfill the residency requirement at The University of Alberta. Following enrollment at the University, a transfer student requires a GPA of at least 5.0 in those courses credited toward the degree.

(3) The Dean may, in exceptional circumstances, permit a student to accelerate or decelerate. Five full courses or the equivalent per year constitute a full course load. Normally, in order to carry more than a full course load, a student must have achieved a GPA of 6.5 based on a full course load taken in the previous year.

(4) For the purpose of obtaining passing marks or raising the GPA to the required 5.0, a student may write supplemental examinations, provided they are offered in the appropriate courses. The number of full courses or the equivalent in which supplemental examinations may be written must not exceed two per year or a total of five per degree program. For the purpose of calculating the promotion average, *the student will retain the grade of the final examination if the supplemental grade is lower.*

(5) A student who is repeating a year must pass all courses with a grade of 4 or better and obtain a GPA of 5.0. No supplemental privileges will be granted.

(6) A student will not be granted the privilege of repeating a failed course more than once during the degree program, except for reasons deemed sufficient by the Faculty's Council.

(7) A. *Degree with Distinction:* The notation "with distinction" is awarded to a graduating candidate who has obtained a GPA of 7.5 or higher *over the last two years of the program. A student who has taken part of the work at another university may be granted a degree "with distinction" at the discretion of the Faculty Council.*

B. *First Class Standing:* First Class Standing is awarded to any student, carrying a full course load, who secures a grade point average of not less than 7.5 in the work of that year.

C. *Promotion:* A student who is not in the graduating year is promotable if all courses are passed. If a student has failed one or more courses, both the GPA and the number of courses passed will be considered by the Student Promotions Committee. In some cases, a student may be required to write a supplemental examination or may be denied credit in one course because of a poor grade.

(8) A student who interrupts a degree program is warned that after an absence of two calendar years from academic study at university level it may be necessary to comply with any new regulations which have come into effect regarding program and requirements. If the absence has been of more than five year's duration, the student may be required to take placement tests.

(9) A grade of 4 in a prerequisite course represents the minimum requirement for admission to a course with a prerequisite requirement.

(10) It is the student's responsibility to be acquainted with all rules and regulations and to meet the requirements of his/her degree as outlined. The student should familiarize himself/herself with regulations described in the *Faculty of Home Economics cal-*

endar and also the *University Regualtions and Information for Students calendar.*

92.4 *Change of Registration*

The deadline for changes in registration are:
First-term and full courses: September 17.
Second Term Courses: January 12.

92.5 *Withdrawal from Courses*

Deadlines for withdrawal from courses are:
From a half course offered in the First Term, November 12.
From a full course, February 12.
From a half course offered in the Second Term, March 1.

92.6 *Student Academic Appeals Committee*

The Faculty of Home Economics Student Academic Appeals Committee hears appeals from students against any ruling on the following matters:

(a) Transfer from one program or faculty to another
(b) Continuation in a program
(c) Graduation

Students who wish to appeal a ruling affecting their academic standing, other than grades in individual courses, should direct their appeal to the Dean within 60 days following notification by the Faculty of the ruling. The Student Academic Appeals Committee will then consider the appeal. If a student wishes to carry the appeal further, the appeal may be directed to the General Faculties Council Academic Appeals Committee (§ 16.7 of the University Regulations and Information for Students calendar).

Appeals regarding the student's standing in a particular course should be directed to the instructor concerned. For reappraisal deadlines refer to § 16.3.3(2) of the University Regulations and Information for Students calendar.

92.7 *Student Advisory Service*

Advice to undergraduate students regarding academic matters is provided by two groups:

The Administrative Assistant in the General Office of the Home Economics Building handles questions concerning admission, re-enrolment, transfer, withdrawal, registration, course changes, degree requirements, after-degree programs, advanced credit, etc., and maintains records of course registration and final grades.

Members of the Faculty, the Associate Dean, and the Dean offer advice regarding broader and more general career questions, optional courses available in different areas of home economics and other fields of the University, preparation for particular careers and/or graduate programs, etc. Students are encouraged to seek consultation on these matters.

92.8 *Examinations*

1. *Unexcused Absence from Final Examinations.* A student with an unexcused absence from a final examination will be given no grade for that examination. The final grade for the course will be calculated by using zero as the raw score for the final examination.

2. *Excused Absence from Final Examinations.* Refer to § 16.3.5 of the University Regulations and Information for Students calendar.

3. *Code of Student Behavior.* Refer to § 19.2 of the University Regulations and Information for Students calendar.

93 PROGRAMS OF STUDY

93.1 *The Degree of B.Sc. in Home Economics*

93.1.1 CLOTHING AND TEXTILES PROGRAM

First Year

CL TX 200 (Design in Everyday Living) (half course)
CL TX 203 (Clothing Construction and Flat Pattern Design) (half course) (see Note A)
ART H 250 and 251
CHEM 250
ENGL 210
One full course from Group I

NOTE A: For students with experience in clothing construction and pattern making, a placement test may be written to assess level of competence. If students have adequate competency, they may substitute one half course for CL TX 203. This test may be written prior to or during in-person registration.

Second Year

CL TX 307 (Experimental Techniques in Clothing Construction) (half course)
CL TX 309 (Textile Science I) (half course)
CL TX 310 (Textile Science II) (half course)
One half course from Group II
Two full courses from Group I
Arts or Science Option

Third Year

FAM 359 (Presentation and Communications) (half course)
Three half courses from Group II
Senior Option
Option
Senior Arts or Science Option or Senior Business Administration and Commerce Option

Fourth Year

Two Senior Options
Four half courses from Groups II and III
Option

Group I includes the following courses:
SOC 202

PSYCO 260 and 261
CHEM 200
Junior Physics and/or Junior Mathematics (including Statistics)
ECON 201/202 or 306/307
HIST 200 or 201
ART 231

Group II includes the following courses:
CL TX 300 (Clothing and the Consumer)
CL TX 302 (Home Design)
CL TX 304 (History of Interior Design and Furniture)
CL TX 305 (Textile Design)
CL TX 306 (Housing)
CL TX 401 (Advanced Flat Pattern Design)
CL TX 403 (Historic Costume)
CL TX 404 (Historic Textiles)
CL TX 405 (Advanced Textile Design)
CL TX 407 (Tailoring)
CL TX 410 (Consumer Textiles)
CL TX 411 (Advanced Textiles)
CL TX 412 (Socio-cultural Aspects of Clothing)
CL TX 416 (Economics of Clothing and Textiles)
CL TX 417 (Selected Topics)
CL TX 419 (Preventive Textile Conservation)
CL TX 420 (The Fashion Industry)

Group III includes the following courses:
CL TX 502 (Independent Study I)
CL TX 503 (Independent Study II)
CL TX 506 (Practicum in Selected Areas)
CL TX 507 (Historic Resources Internship)
CL TX 510 (Current Issues in Clothing and Textiles I)
CL TX 511 (Current Issues in Clothing and Textiles II)
CL TX 512 (Current Issues in Clothing and Textiles III)
CL TX 514 (Personality and Clothing)
CL TX 517 (Selected Topics)
CL TX 518 (Textiles Seminar)
CL TX 519 (Textile Conservation Theory and Practice)

93.1.2 FAMILY STUDIES PROGRAM

First Year

FAM 241 (Family Development) (half course)
FAM 340 (Management of Family Resources) (half course)
BIOL 298 and 1/2 Jr BIOL Option or CHEM 250
PSYCO 260, PSYCO 261
SOC 202
2 half-course Open Options

Second Year

FAM 343 (Child Development) (half course)
FAM 359 (Presentation and Communication) (half course)
2 half course FD NU Options
2 half course CL TX Options
2 half course Open Options
ECON 201/202 or 306/307

Third Year

FAM 440 (Consumer Problems) (half course)
FAM 443 (Issues in Family Life Education) (half course)
FAM 448 (Family Communication) (half course)
STAT 241 or PSYCO 309 or SOC 313
5 half course Open Options
1 half course Option from Group I

Fourth Year

FAM 444 (Methods in Family Services) (half course)
FAM 445 (Practicum in Family Services)
2 half course Options from Group II
SOC 477, SOC 478
3 half course Open Options

Group I includes the following courses:
FAM 346, 347, 350, 447

Group II includes the following courses:
FAM 442, 449, 450, 460, *540, *541, *543, *551, *553, *559
* with permission

NOTE: Students registered in Family Studies prior to September, 1979 take the following program in the 4th year unless special arrangements have been made with the Division.

Fourth Year

FAM 444 (Methods in Family Services) (half course)
FAM 445 (Practicum in Family Services)
FAM 551 (Family in Crisis) (half course)
FAM 553 (Theory and Research in Marriage and the Family) (half course)
Three half courses in Arts or Science Options
Option

93.1.3 FOODS AND NUTRITION PROGRAM

First Year

BIOL 130 or two of BIOL 296, 297, 298, 299
CHEM 200
CHEM 250
Arts Option
Option (see NOTES A, B, and C)

Second Year

FD NU 320 (Basic Foods I) (half course)
FD NU 321 (Basic Foods II) (half course)
FD NU 323 (Socio-cultural Aspects of Food) (half course)
BIOCH 300
MICRB 315 and 365
Three half course options (See NOTES A, B, and C)

Third Year

FD NU 464 (Nutrition) (half course)
FD NU 465 (Nutrition) (half course)
Two senior half courses in Foods and Nutrition (See NOTE C)
CHEM 312 or Option (see NOTE C)
PHYSL 410
FAM 359 (Presentation and Communication) (half course)
Half course Option (See NOTE C)

Fourth Year

Four senior half courses in Foods and Nutrition (see NOTE D)
Two half courses or equivalent in Computing Science and/or Statistics
Option (See NOTE C)
Senior Arts Option

NOTE A: Students who have not completed Mathematics 30 must substitute Mathematics 100 for the Option.

NOTE B: Students should note that the prerequisites for FAM 359 are FAM 350 or a half course in sociology or psychology and at least two half courses in the student's major. Students proceeding to a dietetic internship are advised to take FD NU 429.

NOTE C: To qualify for entry into an approved Generalist dietetic internship, the following courses must be taken: at least one half course in the humanities (e.g., Languages, History, Philosophy); at least one half course in the social sciences (e.g., Sociology, Psychology, Economics, Anthropology); at least three half courses in administration (e.g., Organization Theory, Industrial Relations and Accounting); Food and Nutrition 406 and Foods and Nutrition 461.

NOTE D: Includes 400- and 500-level Foods and Nutrition courses or Food Science courses.

93.2 Interdisciplinary B.Sc. Program in Food Science

A four-year interdisciplinary program in Food Science is offered co-operatively by the Faculty of Agriculture and Forestry, the Faculty of Home Economics, and the Faculty of Science. It allows

students to specialize in this expanding field more than is possible in the third and fourth-year specialized program in Food Science offered by the Faculty of Agriculture and Forestry. For details of the program see § 33.2 in the Faculty of Agriculture and Forestry calendar.

The program is designed so that students may register in it immediately on entering University or may transfer from the Faculty of Agriculture and Forestry, the Faculty of Science or the Faculty of Home Economics after their first or possibly their second year. It is designed to give students a sound background in the basic sciences of chemistry, microbiology and engineering, together with the applied subject areas of food microbiology, food chemistry, food engineering and food processing. The program is intended primarily for students who wish to pursue a career in the food processing industry or related government services (e.g., Agriculture Canada, Health and Welfare Canada).

93.3 B.Com. Program with Specialization in Food Service Administration

A four-year program is offered jointly by the *Faculty of Home Economics* and the *Faculty of Business Administration and Commerce.* Students in this program can specialize more in the study of the organization, management and service aspects of quantity food production of high sensory and nutritional quality than is possible in the foods and nutrition program. For details consult the Faculty of Business Administration and Commerce calendar § 53.1.

93.4 The B.Sc. in Home Economics after Approved Degrees

1. Holders of an approved degree may qualify for the B.Sc. (H.Ec.) degree upon completion of a minimum of ten full (or equivalent) prescribed courses. All curriculum requirements in the home economics program of their choice must be met. In addition, students must pass all courses with a grade of at least 4, and must obtain a GPA of 5.0 or better in all courses credited towards the B.Sc. (H.Ec.) after an approved degree. Normally, the residence requirements must be met.

2. Holders of two or more approved bachelor's degrees may qualify for the B.Sc. (H.Ec.) degree upon completion of a minimum of 15 full (or equivalent) prescribed courses. The residence requirements must be met.

93.5 Graduate Study

Graduate study leading to the degree of Master of Science may be undertaken in the Faculty of Home Economics. The major work may be undertaken in (1) Clothing and Textiles, (2) Family Life Education, (3) Family Studies, (4) Foods, (5) Nutrition, and (6) Consumer Studies. Students wishing to pursue graduate study should consult the Dean of the Faculty of Home Economics and familiarize themselves with procedures and regulations laid down by the Faculty of Graduate Studies and Research; this information may be found in the calendar of the Faculty of Graduate Studies and Research.

93.6 Family Studies

For students wishing to develop a strong Family Studies component this can be done by adding to the courses offered in the Family Studies Division those related to family in sociology. Some of those courses are: SOC 301, 323, 341, 342, 375, 451, 456, 471, 475, 477, 478.

94 DETAILS OF COURSES

94.1 General Information

Courses open to students in the Faculty of Home Economics are listed below in alphabetical order, whether they are offered by the Faculty of Home Economics or by another faculty.

Each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their registration forms.

Following the title of the course is the symbol "★" standing for "course weight", and a number indicating the weight of the course as used in computing grade-point averages. An ordinary full course is weighted 6. A half course is normally weighted 3. Some honors and graduate courses involving research may vary in weight according to the length and difficulty of the research project. Some courses are offered for credit only and carry no weight.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The expression "3/2" means three hours of instruction every second week. The hours of instruction for a full course are the same in both terms unless otherwise indicated. If the course is a half course, the term in which it may be offered is mentioned before the hours of instruction.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

94.2 Agricultural Economics

Department of Rural Economy

AG EC 381. *Retail Marketing of Agricultural Products.* ★3 (Second Term, 3-0-0). Wholesale and retail food market structures and conduct, with emphasis on consumer motivation, retail pricing strategies, and operational techniques and problems. Note: Not recommended for those specializing in agricultural economics. Prerequisites: AG EC 203 or ECON 201/202 or equivalent. [Rural Economy]

94.3 Anthropology

ANTHR 307. *Introduction to Social and Cultural Anthropology.* ★3 (either term, 3-0-0). The comparative study of human society and culture, particularly non-Western communities, with special attention to the family, social structure, economics and political institutions and religions; processes of change. Note: Not open to students who have taken ANTHR 202.

94.4 Art and Design

ART H 250. *Survey of Western Art I.* ★3 (either term, 3-0-0). A survey of Western Art to the end of the Middle Ages. Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 201.

ART H 251. *Survey of Western Art II.* ★3 (either term, 3-0-0). A survey of Western Art from the beginning of the Renaissance to the present day. Note: Formerly part of ART 200; not to be taken by students with credit in that course or ART H 202.

ART 231. *Visual Fundamentals.* ★6 (2-0-4). A studio based introduction to the exploration and production, in two and three dimensions, of visually expressed information. Note: Not open to students with credit in ART 232.

94.5 Biochemistry

BIOCH 300. *General Biochemistry.* ★6 (3-0-3). Structure and chemistry of the cell; the chemistry and metabolism of carbohydrates, lipids, proteins and nucleic acids; the molecular biology of enzymes and genes as related to the functioning of the living cell. Prerequisites: CHEM 200 or 202; and 250 or 350.

94.6 Biology

BIOL 130. *Introductory Biology.* ★6 (3-0-3). A basic biology course emphasizing the diversity and interrelations of organisms, the relationships between form and function, heredity, cellular structure, and ecological principles. Note: Not open to students with credit in Biology 30.

BIOL 296. *Evolutionary Biology.* ★3 (either term, 3-0-3). The numbers and kinds of organisms, their origins, structures, systematic relationships, and modes and mechanisms of evolution. Prerequisite: Biology 30.

BIOL 297. *Heredity.* ★3 (either term, 3-0-3). The cellular and molecular basis of the transmission of hereditary characteristics. Mendelian inheritance and its cytological basis; microbial genetics; cytoplasmic inheritance, linkage and genetic mapping; DNA as genetic material; gene action; the genetic code. Prerequisite: Biology 30.

BIOL 298. *Environmental Biology.* ★3 (either term, 3-0-3). The basic principles and concepts of ecology. Emphasis on structure and function of populations, communities, and ecosystems. Laboratory to include ecological experiments, demonstrations, and discussions. Prerequisite: Biology 30.

BIOL 299. *Biological Function.* ★3 (either term, 3-0-3). Comparative physiology of higher plants and animals from the standpoint of nutrition, energetics, gas exchange, circulation, ionic and osmotic relations and control systems. Prerequisite: Biology 30.

BIOL 301. *Cellular Biology.* ★3 (First Term, 3-0-3). The ultrastructure and metabolism of cells. Energy in biological systems; photosynthesis; cellular respiration; contractility; cell growth and replication. Prerequisite: BIOL 297. Prerequisite or corequisite: CHEM 250 or 350. It is recommended that BIOL 299 also precede BIOL 301.

BIOL 302. *Developmental Biology.* ★3 (Second Term, 3-0-3). Development of complex organisms. The purpose is to identify some developmental processes common to plants and animals. Emphasis is on cellular interactions which determine cell survival, gene activation and deactivation, and how cell functions and structures are selected. The course concludes with consideration of how these processes relate to aging and cancer. BIOL 301 is strongly recommended to precede BIOL 302.

94.7 Chemistry

CHEM 100. *Introductory General Chemistry.* ★6 (3-0-3). A beginning course in Chemistry covering the topics of high school chemistry from a more advanced point of view. Note: May not be taken for credit by students who have credit in Grade XII Chemistry 30.

CHEM 200. *Introductory University Chemistry.* ★6 (3-1s-3). Bonding and structure; chemical and phase equilibria; solution chemistry, thermochemistry, electro-chemistry and chemical kinetics, with applications to inorganic chemistry. Prerequisite: Chemistry 30, CHEM 100, or equivalent.

CHEM 250. *Organic Chemistry.* ★6 (3-0-3). The study of functional groups found in the main classes of organic compounds and their molecular conformation and stereochemistry in such a way that the chemistry of some molecules important to biology (e.g., amino acids, proteins, medicinals, pesticides, fats, sugars, carbohydrates, nucleic acids) as well as some molecules found in every day life (soaps, detergents, fibers, perfumes, polymers, etc.) can be discussed. Prerequisite: Chemistry 30, or CHEM 100 or equivalent. Note: Students with credit in CHEM 200 or 202 will proceed to CHEM 350. Exceptions to this may be made only if written consent of the Department is obtained.

CHEM 312. *Quantitative Analysis.* ★6 (3-0-6). Principles, methods, and experimental applications emphasizing titrimetry, separations, spectrophotometry and evaluation of experimental data. Includes examples of organic analysis, radiochemistry, atomic absorption spectroscopy, gas chromatography, and use of analytical literature. Prerequisite: CHEM 200 or 202.

94.8 Economics

ECON 201. *Introduction to Micro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems and policies with emphasis on the Canadian economy; the roles of consumers and firms in competitive and monopolistic markets; foreign ownership in the Canadian economy: the distribution of income, inequality and poverty; the use of the environment; government economic policies. Prerequisite: Mathematics 20 or Mathematics 33 or consent of the Department.

ECON 202. *Introduction to Macro-Economics.* ★3 (either term, 3-0-0). Economic analysis, problems and policies with emphasis on the Canadian economy; national income and monetary theory; problems of unemployment and inflation; government monetary and fiscal policies; international trade theory, problems and government policies. Prerequisite: Mathematics 20 or Mathematics 33 or consent of the Department.

ECON 306. *General Macro-Economics.* ★3 (either term, 3-0-0). Introductory survey of macro-economic principles with an emphasis on Canadian economic issues. Note: Designed for second and third year students who do not hold credit in ECON 202 or 304. ECON 306 plus 307 are acceptable in place of ECON 201/202 as prerequisites for senior courses with the consent of the Department.

ECON 307. *General Micro-Economics.* ★3 (either term, 3-0-0). Introductory survey of micro-economic principles with an emphasis on Canadian economic issues. Note: Designed for second and third year students who do not hold credit in ECON 201 or 304. ECON 306 plus 307 are acceptable in place of ECON 201/202 as prerequisites for senior courses with the consent of the Department.

94.9 Education — Adult

EDADU 484. *Community Home Economics Education.* ★3 (either term, 3-0-0).

94.10 English

ENGL 200. *A Survey of English Literature from the Middle Ages to the Twentieth Century.* ★6 (3-0-0). A close study of representative masterpieces which demonstrate the development of the English literary tradition.

ENGL 210. *English Literary Forms.* ★6 (3-0-0). This course combines an introduction to the various genres of English literature (prose, poetry and drama) with formal instruction in writing skills. One-third of the course is devoted to writing instruction.

ENGL 215. *Introduction to the Study of Literature.* ★3 (either term, 3-0-0). A close reading of significant works of prose and poetry in English, to introduce the student to the most effective ways of understanding the various genres of English Literature. Three essays will be required. Note: This course is prerequisite to ENGL 270, 275, 284and 290 Formerly part of ENGL 260 and 265.

ENGL 270. *Readings in Poetry.* ★3 (either term, 3-0-0). A close study of selected modern and traditional verse to introduce the student to ways of approaching and critically evaluating poetry.

ENGL 275. *Readings in Prose.* ★3 (either term, 3-0-0). A close study of novels, short stories, essays, and other forms, both modern and traditional, to introduce the student to ways of approaching prose, and to assist the student in reading critically.

ENGL 284. *Canadian Literature in Process.* ★3 (either term, 3-0-0). An intensive reading of mainly contemporary Canadian novels, stories, poems, and plays, in English.

ENGL 290. *The Craft of Writing.* ★3 (Second Term, 3-0-0). A study of techniques of expository writing, intended to increase awareness of the resources of English prose, and to provide intensive practice in using these. Prerequisites: Any single-term course in English and consent of the Department.

94.11 Food Science

FD SC 200. *Introduction to Food Science.* ★3 (either term, 3-0-0). Historical and philosophical aspects of food supplies and food processing. World food supply and utilization. Trends in the processing, preservation, handling and utilization of food. Food fads and fallacies. No prerequisite.

FD SC 351. *Industrial Food Processing.* ★3 (First Term, 3-0-3). An introduction to the processing and preservation of foods. Prerequisite: Consent of instructor.

FD SC 461. *Food Microbiology I.* ★3 (First Term, 3-0-3). The principles of food microbiology and food poisoning. Prerequisite: MICRB 315 or equivalent.

FD SC 462. *Food Microbiology II.* ★3 (Second Term, 3-0-3). The microbiology of the food, dairy and allied industries. A continuation of FD SC 461. Prerequisite: FD SC 461 or equivalent.

FD SC 471. *Food Chemistry I.* ★3 (First Term, 3-0-3). Chemistry and biochemistry of food constituents. Prerequisites: BIOCH 300, or PL SC 431 and 432.

FD SC 472. *Food Chemistry II.* ★3 (Second Term, 3-0-0). A continuation of FD SC 471, Prerequisite: FD SC 471.

94.12 History

HIST 200. *European History.* ★6 (3-1s-0). The evolution of European society from the decline of the Roman Empire in the West to the present.

HIST 201. *European History Since the Renaissance.* ★6 (3-0-0).

94.13 Home Economics

94.13.1 CLOTHING AND TEXTILES

H EC 300. *Perspectives of Home Economics.* ★3 (3-0-0). A study of the impact of individual and family problem-solving on the near environment and wider ecosystem; major issues regarding the human and material resources of future generations and the role of home economics in confronting and dealing with these major issues.

CL TX 200. *Design in Everyday Living.* ★3 (Second Term, 3-0-3). An introductory course in design to develop visual awareness. The functional components in our physical environment and their aesthetic quality are evaluated through problem solving.

CL TX 203. *Clothing Construction and Flat Pattern Design.* ★3 (either term, 2-0-4). Interrelationship of the principles of flat pattern, pattern adjustments and garment fitting. Application of construction principles to design details and fabric characteristics.

CL TX 300. *Clothing and the Consumer.* ★3 (First Term, 3-0-0). A study of clothing in relation to needs and wants of individuals and families at different stages of the life cycle. Prerequisites: SOC 202, PSYCO 260, EDPSY 269 or EDPSY 271.

CL TX 302. *Home Design.* ★3 (First Term, 3-0-3). The study and evaluation of the functions, aesthetics and economics of space, furniture and accessories in the home environment. Prerequisite: CL TX 200.

CL TX 304. *History of Interior Design and Furniture.* ★3 (Second Term, 3-0-0). A study of styles of domestic architecture, interior design and furniture down through the ages with an emphasis on the factors which contributed to the design and the relationship of these styles to present day living. Prerequisite: ART H 250 and 251.

CL TX 305. *Textile Design.* ★3 (either term, 2-0-4). Creative problems in designing fabrics. Techniques of fabric construction and applied design. Prerequisites: CL TX 200 and CL TX 309.

CL TX 306. *Housing.* ★3 (Second Term, 3-0-0). Interdisciplinary approach to housing. Prerequisite: SOC 202 or SOC 403 or consent of the instructor.

CL TX 307. *Experimental Techniques in Clothing Construction.* ★3 (Second Term, 3-0-3). Analysis and modifications of construction techniques in relation to prescribed standards. Study and experimentation in handling fabrics which require special techniques. Prerequisites: CL TX 203 or advanced placement, and CL TX 309.

CL TX 309. *Textile Science I.* ★3 (First Term, 3-0-3). An introduction to textile serviceability concepts and textile legislation; study of textile components — fibre, yarn, fabric coloration and fabric finish.

CL TX 310. *Textile Science II.* ★3 (Second Term, 3-1s-2). Introduction to polymer and fiber structure; in-depth study of fibers including production, structure, physical and chemical properties, uses and care; special finishes and their effect on fabric properties, maintenance of textile products. Prerequisites: CHEM 250 and CL TX 309.

CL TX 400. *Design in Everyday Living.* ★3 (either term, 3-0-3). Introduction to design at the senior level; development of visual awareness and aesthetic appreciation. Prerequisite: Graduate standing. Note: May not be taken for credit by students with credit in CL TX 200.

CL TX 401. *Advanced Flat Pattern Design.* ★3 (Second Term, 3-0-3). Prerequisites: CL TX 200 and CL TX 307.

CL TX 403. *History of Costume.* ★3 (First Term, 3-0-2). Costumes from ancient times to the present day; their relationship to the life of the times and their importance in evolution and inspiration of modern dress. Prerequisite: HIST 200 or HIST 201 or consent of the instructor.

CL TX 404. *Historic Textiles.* ★3 (Second Term, 3-0-2). Textiles from ancient times to the present — their function, aesthetic qualities and importance as a source of inspiration for modern design. Prerequisite: HIST 200 or 201 or ART H 250/251 or consent of the instructor.

CL TX 405. *Advanced Textile Design.* ★3 (First Term, 1-0-5). An advanced studio course in applied design on fabric. Course will include specialized techniques in printing and dyeing fabric, and fabric construction with a major component of independent study. Limited enrolment. Prerequisites: CL TX 305 and consent of the instructor.

CL TX 406. *Clothing Construction.* ★3 (Second Term, 3-0-3). Application of basic principles of clothing construction and fitting to garments made of fabrics requiring special techniques. Prerequisite: Graduate standing. Note: May not be taken for credit by students with credit in CL TX 203 and CL TX 307.

CL TX 407. *Tailoring.* ★3 (First Term, 3-0-3). Prerequisite: CL TX 307 or consent of the instructor.

CL TX 408. *Clothing and the Consumer.* ★3 (First Term, 3-0-0). Senior level application of behavioral sciences concepts to clothing. Prerequisite: Graduate standing. Note: May not be taken for credit by students with credit in CL TX 300.

CL TX 409. *Textile Science.* ★3 (Second Term, 3-0-3). An introduction to textile concepts and principles. Prerequisite: Graduate standing. Note: May not be taken for credit by students with credit in CL TX 309 or CL TX 310.

CL TX 410. *Consumer Textiles.* ★3 (First Term, 3-0-3). Basic textile information related to consumer selection, use and care of household textiles. Prerequisite: CL TX 310.

CL TX 411. *Advanced Textiles.* ★3 (First Term, 3-0-3). Introduction to yarn and fabric geometry. Advanced study of polymer formation, specialized polymers and textile finishes. Theory of color, study of major classes of dyes. Degradation of textiles. Prerequisites: CHEM 200 and CL TX 310.

CL TX 412. *Socio-cultural Bases of Clothing.* ★3 (First Term, 3-0-0). Similarities and differences in functions of clothing in various cultures. Selection of clothing as an expression of collective behavior. Prerequisites: PSYCO 260 or SOC 202; or ANTHR 202 or 307, and CL TX 300; or consent of the instructor.

CL TX 416. *Economics of Clothing and Textiles.* ★3 (First Term, 3-0-0). The structure and economic importance of the textile and apparel industries; consumption of textiles and apparel; the impact of legislation and government policy on the textile and apparel market place. Prerequisite: ECON 201/202 or ECON 306/307.

CL TX 417. *Selected Topics.* ★3 (either term, 3-0-0 or 3-0-3 or 2-0-4). Topics of current interest in clothing, textiles and design. Prerequisite: varies with specific offering.

CL TX 419. *Preventive Textile Conservation.* ★3 (First Term, 3-0-3). Theoretical and practical investigation of the preventive care of textiles and costumes in museums or related institutions. Topics include an overview of deteriorating factors, as well as procedures for handling, storage, display, and preventive treatment. Museum collections and personnel will augment university lecture, seminar, laboratory and study collection facilities. Prerequisite: CL TX 304, 309, 403 and 404 or consent of the instructor.

CL TX 420. *The Fashion Industry.* ★3 (Second Term, 3-0-0). Study of the fashion industry and principles of retailing fashion goods. Prerequisite: CL TX 416.

CL TX 502. *Independent Study I.* ★3 (either term, 0-0-6). Independent study planned by student in consultation with faculty from one of the following areas or suitable combination of areas: Textile Science; Housing; Interiors or Furniture Design; Textile or Dress Design; History of Costume, Textile or Furniture; Textile Conservation and Clothing for Special Needs. Prerequisite: Senior course(s) in respective area or consent of the instructor.

CL TX 503. *Independent Study II.* ★3 (either term, 0-0-6). Independent study planned by student in consultation with faculty from one of the following areas or suitable combination of areas: Textile Science; Housing; Interiors or Furniture Design; Textile or Dress Design; History of Costume, Textile or Furniture; Textile Conservation and Clothing for Special Needs. Prerequisite: Senior course(s) in respective area or consent of the instructor.

CL TX 506. *Practicum in Selected Areas.* ★3 (either term, 0-1s-8). Supervised field experience. Prerequisites: Senior course in respective area and consent of the instructor.

CL TX 507. *Historic Resources Internship.* ★3 or 6. Internship with an institution involved in historic resources conservation. Normally offered in Special Sessions by special arrangement. Prerequisites: CL TX 304, 403, 404, 504 and consent of the Division.

CL TX 510. *Current Issues in Clothing and Textiles I.* ★1 (either term, 0-1s-0). Prerequisites: varies with offering. Note: The combination of all three of CL TX 510, 511, 512 constitutes the equivalent of a single term course of full weight.

CL TX 511. *Current Issues in Clothing and Textiles II.* ★1 (either term, 0-1s-0). Prerequisite: varies with offering. Note: The combination of all three of CL TX 510, 511, 512 constitutes the equivalent of a single term course of full weight.

CL TX 512. *Current Issues in Clothing and Textiles III.* ★1 (either term, 0-1s-0). Prerequisite: varies with offering. Note: The combination of all three of CL TX 510, 511, 512 constitutes the equivalent of a single term course of full weight.

CL TX 514. *Personality and Clothing.* ★3 (Second Term, 3-0-0). A review of literature and research dealing with psychological processes and the application of personality and motivation theories to specific behaviors related to clothing. Prerequisites: PSYCO 383; CL TX 412; or consent of the instructor.

CL TX 517. *Selected Topics.* ★3 (either term, 3-0-0 or 3-0-3 or 2-0-4). Topics of current interest in clothing, textiles, and design. Prerequisite: Senior course(s) in respective area(s).

CL TX 518. *Textile Seminar.* ★3 (Second Term, 0-3s-0). Familiarization with current literature and developments in textiles with an emphasis on consumer-oriented textiles research. Prerequisite: CL TX 410 or 411.

CL TX 519. *Textile Conservation Theory and Practice.* ★3 (Second Term, 3-0-3). Theoretical and practical investigation of the degradation and treatment of historic textiles and costumes. Lecture and laboratory experience will include an in-depth study of factors affecting the degradation of fibres, as well as methods of cleaning, bleaching and consolidation. Prerequisites: CL TX 310 and CL TX 419.

CL TX 520. *Literature Review.* ★3 (First Term, 3-0-0). A survey of the clothing and textiles research literature obtained from the application of information retrieval techniques to the numerous secondary services which cover the literature.

CL TX 600. *Clothing and Textiles Seminar.* ★3 (either term, 0-1s-0). Topic of seminar will be chosen according to interests of students and Faculty and/or timeliness of subject matter.

CL TX 620. *Research Methods in Clothing and Textiles.* ★3 (Second Term, 3-0-0). A study of various types of research in clothing and textiles and the development of a research proposal with specific attention to: objectives of study, theoretical framework, hypotheses, sampling, data collection, analyses and interpretation of findings. Prerequisite: a half course in statistics and CL TX 520 or consent of instructor.

94.13.2 FAMILY STUDIES

H EC 300. *Perspectives of Home Economics.* ★3 (3-0-0). A study of the impact of individual and family problem-solving on the near environment and wider ecosystem; major issues regarding the human and material resources of future generations and the role of home economics in confronting and dealing with these major issues.

FAM 241. *Family Development.* ★3 (First Term, 3-0-0). Introduction to the study of the family. A review of early family forms, the forces altering them, and the emergence of contemporary family life as seen over the family life cycle. Note: Open only to Home Economics students. Not open to students who have taken SOC 371.

FAM 340. *Management of Family Resources.* ★3 (Second Term, 3-0-1.5). Introduction to the principles of management as applied to the use of family resources.

FAM 343. *Child Development.* ★3 (First Term, 3-0-0). An analysis of the physical and personality development of children in the family context. Twelve to fifteen hours of observation are required.

FAM 346. *Courtship and Marriage.* ★3 (either term, 3-0-0). A consideration of the sociological, psychological and personal factors entering into the selection of a mate, the development of a relationship, and problems of marital adjustment. Lecture with emphasis on group discussion.

FAM 347. *The Adolescent, His Family, His World.* ★3 (Second Term, 3-0-0). A study of the adolescent as a family member, developmental changes during adolescence and ways of coping with resulting problems.

FAM 350. *The Family in Transition.* ★3 (First Term, 3-0-0). An introduction to the study of the family — through the issues which surround the family and marriage in contemporary society. Reference to research studies and to historical data will provide the basis of the course. FAM 350 and SOC 371 may not both be taken for credit.

FAM 359. *Presentation and Communication.* ★3 (either term 3-0-3). Introduction to the principles of communication; their application in interpersonal, group and mass audience situations relevant to home economics. Practice in verbal communication, demonstrations and display. Prerequisites: A half course in sociology, psychology or family studies (FAM 350 for non-family majors or FAM 241 for family majors) and at least two half courses in the student's major.

FAM 440. *Consumer Problems.* ★3 (First Term, 3-0-0). An analysis of problems faced by the family as consumer, within the framework of the economic, sociological, psychological and legal factors which create these problems. Sources of information and aid for the consumer. Prerequisite: ECON 201/202 or 306/307 or completion of an approved economics module available from the Division.

FAM 442. *Family and the Mentally Retarded Child.* ★3 (either term, 3-0-0). An in-depth study of the impact of mentally retarded children on their families. Adjustment of these families and other related institutions to mentally retarded children is discussed. Socio-psychological literature is reviewed to explore theoretical and practical issues involved in the interaction between the family and the mentally retarded child. Note: To be offered as staffing will allow.

FAM 443. *Issues in Family Life Education.* ★3 (First Term, 3-0-0). An introduction to family life education as an applied area of family studies. Definition, philosophy, Canadian and North American program approaches and current program issues will be discussed. Prerequisite: FAM 241, or FAM 350 or SOC 371.

FAM 444. *Methods in Family Services.* ★3 (First Term, 1.5-0-3). Review of methods involved in family life education in a community context with special emphasis on program planning and the home economist's role in the helping process. Note: Open only to senior family studies studies majors.

FAM 445. *Practicum in Family Services.* ★6 (Second Term, 0-1.5s-16). Students will be placed in one of a variety of family related agencies for two full days per week during the Second Term. In addition, attendance at one seminar per week is required. Prerequisite: FAM 444. Note: Open only to senior family studies majors. Must be taken during the same year as FAM 444.

FAM 447. *The Family in Contemporary Society.* ★3 (Second Term, 3-0-0). An interdisciplinary study of the family in modern western society. The nature of the relationship between the family system and selected systems in society will be considered. Prerequisite: FAM 241, or 350 or SOC 371 or consent of instructor.

FAM 448. *Understanding Family Communication.* ★3 (either term, 3-0-0). The synthesis of knowledge of communication with knowledge of family relationships and the application of that combination to the student's experience. Emphasis is placed on the effect of communication on individual behaviour and family patterns.

FAM 449. *Family Study: Selected Topics.* ★3 (either term, 3-0-0). Students may enroll in this course more than once provided that each time it is taken the topic is different. Note: To be offered alternate years to FAM 442.

FAM 450. *Family Finance.* ★3 (First Term, 2-1s-1.5). Principles of money management applied to family income and expenditure. Budgeting and management of savings will be important. Special emphasis will be placed on the management of credit, investment, insurance, housing. The particular needs of low income money management will be stressed. Prerequisites: FAM 340, 440 and ECON 201/202 or 306/307 or consent of the instructor. This course will not be offered each year.

FAM 460. *Family and Consumer Law.* ★3 (3-0-0). An exploration of family and consumer law from a user's perspective. (To be taught in cooperation with the Faculty of Law.) This course will be offered during Special Sessions only.

FAM 500. *Introduction to Family Studies.* ★3 (First Term, 3-0-0). A review of the basic content and philosophy of the study of the family from the particular emphasis of the Family Studies Division. Open only to family studies graduate students or students with the consent of the Division.

FAM 540. *Seminar: Consumer Studies.* ★3 (either term, 0-3s-0). Examination of the research and theory related to consumer behavior, the application of these to consumer problems and the implications for consumer education. Prerequisite: FAM 440 or consent of the instructor.

FAM 541. *Seminar: Human Sexuality and Sex Education in Family Life Education.* ★3 (either term, 0-3s-0). Emphasis on socio-psycho-cultural factors in development of human sexuality, with consideration given to research findings and their practical application, i.e., sex education. By permission of instructor only.

FAM 543. *Seminar: Family Life Education in Home, School and Community.* ★3 (either term, 0-3s-0). Examination and analysis of the basic issues facing family life education and educators in the various settings of home, school and community. By permission of instructor only.

FAM 547. *Family Intervention Program Development and Evaluation.* ★3 (either term, 0-3s-0). This course is designed for graduate students whose professional goals are in the area of family life education. It will focus on the design, implementation and evaluation of educational intervention programs such as marriage enrichment, family enrichment, parent education. Emphasis will be educational, rather than remedial. Prerequisite: FAM 543 or consent of instructor. (A practicum experience may be arranged to be taken in conjunction with this course under FAM 649). To be offered as staff permit.

FAM 551. *Seminar in Family Crisis.* ★3 (Second Term, 0-3s-0). An analysis of the processes involved in family crisis. Family disorganization, reorganization, and change associated with such crises as alcoholism, aging, birth, and death are considered. Prerequisite: FAM 241 or FAM 350 or SOC 371 or consent of the instructor.

FAM 553. *Applied Theory and Research in Marriage and Family.* ★3 (First Term, 3-0-0). The consideration of research and theory in marriage and the family as it relates to the development of family practice in family life education and other related and practical aspects of Family Studies. Prerequisite or co-requisites: STAT 241, PSYCO 309, SOC 311 or a graduate level statistics course and a minimum of three half courses in family studies selected from home economics, sociology, educational psychology, psychology or anthropolgy.

FAM 559. *Independent Study I.* ★3 (either term, 0-0-6). Independent study of topics in family studies including independent laboratory and library research. Prerequisite: Students must receive consent from instructor prior to registration.

FAM 560. *Independent Study II.* ★3 (either term, 0-0-6).

FAM 600. *Seminar: Family Studies Research.* ★3 (Second Term, 0-3s-0). Required of all Family Studies Graduate students to discuss family research methodology related to their thesis. Prerequisites: FAM 553 and a graduate level statistics course.

FAM 645. *Seminar in Applied Theory in Marriage and Family Counselling.* ★3 (either term, 0-3s-0). Certain selected theories in marriage and family counselling are examined in terms of both their underlying assumptions and their general applicability in promoting effective counselling outcomes. By permission of instructor only.

FAM 649. *Seminar in Family Study: Selected Topics.* ★3 (either term, 0-3s-0). This course will be offered as staff and time permit. By permission of instructor only.

FAM 659. *Graduate Practicum in Family Studies.* ★3 (either term, 0-0-6). Selected practicum placements to integrate theory and practice in a variety of family agencies. Prerequisite: Consent of supervisor and division.

FAM 660. *Independent Study IV.* ★3 (either term, 0-0-6).

94.13.3 FOODS AND NUTRITION

H EC 300. *Perspectives of Home Economics.* ★3 (3-0-0). A study of the impact of individual and family problem-solving on the near environment and wider ecosystem; major issues regarding the human and material resources of future generations and the role of home economics in confronting and dealing with these major issues.

FD NU 220. *Food Preparation.* ★3 (Second Term, 3-0-3). An introductory course in food handling and preparation, emphasizing and comparing market forms of foods. Prerequisite: Chemistry 30 or consent of instructor.

FD NU 221. *Food Preparation.* ★3. (Second Term, 3-1s-0). An introductory course in food handling and preparation, emphasizing and comparing market forms of foods. Prerequisite: Chemistry 30 or consent of the instructor. Note: Credit may not be obtained for both FD NU 220 and 221, FD NU 221 is not acceptable as the Foods requirement for Family Studies students.

FD NU 222. *Current Topics in Human Nutrition and Foods.* ★3 (First Term, 3-0-0). An introductory course. Selected problems in community nutrition in developed and developing countries. Prerequisite: Chemistry 30 or consent of the instructor. Note: Not open to students who have credit in FD NU 325, 327, 464 or 465.

FD NU 320. *Basic Foods I.* ★3 (First Term, 3-0-3). Studies of the chemical, physical and sensory properties of carbohydrates present in foods with application to the preparation of foods in the home and institution. Prerequisite: CHEM 250.

FD NU 321. *Basic Foods II.* ★3 (Second Term, 3-0-3). Studies of the chemical, physical and sensory properties of proteins and fats present in foods with application to the preparation of foods in the home and institution. Prerequisite: CHEM 250.

FD NU 323. *Socio-Cultural Aspects of Foods.* ★3 (Second Term, 3-0-3). Food habits as influenced by historical, geographical,

cultural and economic factors. Implications of these on food purchasing, meal planning and nutrition. Prerequisite: FD NU 320 or consent of the instructor.

FD NU 325. *Introductory Nutrition I.* ★3 (First Term, 3-0-3). A study of carbohydrates, fats and proteins, and the role which minerals and vitamins play in their metabolism; food sources and requirements of man at various phases of the life cycle. Selected nutritional problems will be considered during the laboratory. Prerequisite: CHEM 250 or PHYSL 260, 261, or 262 or equivalent.

FD NU 326. *Introductory Nutrition I.* ★3 (First Term, 3-0-0). A non-laboratory course in nutrition. Lectures are the same as FD NU 325. Selected reading from the literature will be required. Prerequisite: CHEM 250 or PHYSL 260, 261, or 262 or equivalent. Credit may not be obtained for both FD NU 325 and FD NU 326.

FD NU 327. *Introductory Nutrition II.* ★3 (Second Term, 3-0-3). Emphasis will be on minerals and vitamins; their chemical and physiological roles in metabolism; food sources and requirements of man at various phases of the life cycle. Selected nutritional problems will be considered during the laboratory. Prerequisite: FD NU 325.

FD NU 328. *Introductory Nutrition II.* ★3 (Second Term, 3-0-0). A non-laboratory course in nutrition. Lectures are the same as FD NU 327. Selected reading from the literature will be required. Prerequisite: FD NU 325 or 326. Credit may not be obtained for both FD NU 327 and 328.

FD NU 406. *Clinical Dietetics.* ★3 (Second Term, 3-0-3). Basic principles of nutrition in clinical situations. The role of diet in the management of various diseases. The laboratory sessions include practical experience in interviewing patients. Prerequisite: FD NU 464. Corequisite: FD NU 465 or consent of the instructor.

FD NU 427. *Consumer Acceptance of Foods.* ★3 (First Term, 3-0-3). Factors influencing consumer acceptance of foods with special reference to food safety, quality control, toxicological implications of intentional and incidental food additives and implications of product development for the consumer. Prerequisite: FD NU 320 and 321 or consent of the instructor.

FD NU 429. *Experimental Foods.* ★3 (First Term, 3-0-3). Application of the experimental method to food problems. Sensory and objective evaluation of food properties. Development of an individual research problem. Prerequisite: FD NU 320 and 321 or consent of the instructor.

FD NU 461. *Institutional Management I.* ★3 (First Term, 3-0-4). Operational techniques and special problems encountered in the food service industry. The laboratory sessions will provide experience in quantity food production. Prerequisite: FD NU 320 and 321 or consent of instructor.

FD NU 463. *Institutional Management II.* ★3 (Second Term, 3-0-0). Application of principles of management to the food service industry.

FD NU 464. *Nutrition.* ★3 (First Term, 3-0-3). The principles of nutrition applied to feeding of individuals of various ages under normal conditions with emphasis on energy, carbohydrates, fats and proteins. Prerequisite: BIOCH 300.

FD NU 465. *Nutrition.* ★3 (Second Term, 3-0-3). The principles of nutrition applied to feeding of individuals of various ages under normal conditions with emphasis on vitamins and minerals. Prerequisite: BIOCH 300.

FD NU 466. *Project Course.* ★3 (either term, 0-0-6). Advanced library and laboratory study with a written report on selected problems in human nutrition or foods. Prerequisite: Consent of the instructor.

FD NU 504. *Experimental Techniques.* ★3 (either term, 0-0-6). Application of chemical methods and bioassays to research in nutrition. Prerequisite: CHEM 312.

FD NU 506. *Clinical Dietetics.* ★3 (First Term, 3-0-3). The principles of diet therapy in selected areas of current interest. Emphasis on case studies, research and practical problems in diet therapy. Prerequisite: FD NU 406.

FD NU 507. *Nutrition in the Community.* ★3 (Second Term, 3-0-3). Examination of nutrition problems in contemporary communities. The application of basic concepts of food and nutrition to community nutrition problems. Discussion of nutrition programs and resources. Prerequisite: FD NU 464 and 465 or 325 and 327.

FD NU 508. *Advanced Nutrition.* ★3 (First Term, 3-0-0). A lecture and reading course. Prerequisite: FD NU 464 and 465 or consent of instructor.

FD NU 509. *Advanced Nutrition.* ★3 (Second Term, 3-0-0). A lecture and reading course. Prerequisite: FD NU 464 and 465 or consent of instructor.

FD NU 510. *Food Safety and Hygiene.* ★3 (Second Term, 3-0-0). The rationale of Public Health, Consumer and Corporate Affairs and Food and Drug regulations related to Foods and Nutrition, with special emphasis on institution management. Care and handling of foods in the retail store, institution and the home. Prerequisite: FD SC 461 or consent of the instructor.

FD NU 511. *Advanced Foods.* ★3 (Second Term, 3-0-0). Quality characteristics of foods. Current scientific information about foods used in the home and institutions with emphasis on quality factors such as color, texture and flavor. Prerequisites: FD NU 320, 321, and BIOCH 300 or consent of the instructor.

FD NU 600. *Foods and Nutrition Seminar.* ★0 (Both Term, 0-1s-0). Required both terms of all graduate students.

FD NU 602. *Research Project in Nutrition or Foods.* ★3 (either term, 0-0-6).

FD NU 603. *Further Research in Nutrition or Foods.* ★3 (either term, 0-0-6).

94.14 Microbiology

MICRB 315. *General Microbiology I.* ★3 (either term, 3-0-3). The organization, morphology and cell structure of microorganisms with emphasis on bacteria and fungi. Microbial growth and its control, aspects of medical and applied microbiology and microbial ecology will be discussed. Laboratory exercises are designed to demonstrate basic microbiological techniques as well as relevant microbial activities and functions.

MICRB 365. *General Microbiology II.* ★3 (Second Term, 3-0-3) An introduction to the metabolic and physiological activities o microorganisms with emphasis on their interactions with othe microorganisms, higher plants, animals and the environment Discussion of the mode of action of antibiotics and othe metabolic inhibitors and the basic properties of viruses, viru infection and replication. Laboratory exercises are designe to introduce students to current techniques and phenomen related to the lecture material. Prerequisites: MICRB 315 BIOL 297, or GENET 351. Corequisite: BIOCH 300 (or equiva lent) or consent of the Department.

94.15 Organization Theory

Faculty of Business Administration and Commerce

ORG T 303. *Behavior in Organizations.* ★3 (either term, 3-0-0 Examines the sociological and psychological bases of indivi ual behavior in organizations. Topics of individual psycholog examined will include cognition, perception, attitude formatic and change, personality structure and change, and motivatio The course will also investigate the behavior of individuals groups and organizations. In this context various aspects group dynamics such as leadership, communicatio interpersonal sensitivity, morale and satisfaction, and the fo mation and attainment of individual and group goals will b discussed.

ORG T 421. *Theory and Practice of Personnel Administration* ★3 (either term, 3-0-0). Philosophy and procedures in obtai ing and maintaining an efficient work force with emphasis o the methods of initiating and carrying out an effective ma power management program. Includes recruitment, selectio utilization, and development of human resource Prerequisites: ORG T 303, 305, or equivalent.

ORG T 422. *Theory and Practice of Personnel Administration* ★3 (Second Term, 3-0-0). Focus on the development and a ministration of programs for job analysis; job evaluation; wa surveys; wage and salary systems and administration; pe formance standards; performance analysis and evaluatio employee services and fringe benefits. Prerequisite: ORG 421.

94.16 Physiology

PHYSL 410. *Physiology.* ★6 (3-0-3; 3-0-0). Available for graduate and science students. Prerequisites: BIOL 130 or 299, CHEM 200, and 250 or 350.

94.17 Psychology

Note: Students with credit in Psychology 202, 212 or ED PSY 269/271 may not take PSYCO 260/261 for degree credit.

PSYCO 260. *Basic Psychological Processes.* ★3 (either term, 3-0-0). Principles and development of perception, motivation, learning, and thinking and their relationship to the psychological functioning of the individual. This course is a prerequisite for most courses in the Department and is normally followed by PSYCO 261.

PSYCO 261. *Individual and Social Behavior.* ★3 (either term, 3-0-0). Introduction to the study of human individuality, personality, and social psychological processes. Some aspects of normal and abnormal human development, psychological assessment and treatment may be included. Prerequisite: PSYCO 260.

PSYCO 309. *Statistical Methods for Psychological Research.* ★3 (either term, 3-0-1). Application of statistical methods to psychological problems; description of psychological data in terms of averages, measures of variability, and measures of relationships; problems of sampling theory and tests of statistical hypotheses. Prerequisite: Mathematics 30, MATH 100, or consent of the Department.

PSYCO 383. *Personality.* ★3 (either term, 3-0-0). An introductory survey including representative theoretical points of view and research relevant to major problems of the study of personality. Prerequisite: PSYCO 260/261 or equivalent.

94.18 Sociology

SOC 202. *Introductory Sociology.* ★6 (3-0-0). An analysis of the nature of society, the interrelationships of its component groups, and the processes whereby society persists and changes. Society analysed in terms of its structure, culture, and social ranking schemes. The interrelationships between the various institutions (e.g., family, church, school, government). The processes whereby the individual is socialized into society; the sources of conformist and non-conformist behavior. Note: Third-year or more advanced students are encouraged to take SOC 403 rather than 202.

SOC 311. *Statistics and Social Research.* ★6 (3-0-2). Research design, data collection, and data processing in the social sciences. Logic and interpretation of statistical concepts and methods; measures of central tendency, variability and relationships; sampling and tests of hypotheses. Techniques of social measurement, experimental design and introduction to scaling. Note: Accepted as a science course in B.A. programs.

SOC 341. *Social Psychology.* ★3 (either term, 3-0-1). An introduction to the study of individual and group behavior observed in social processes. Prerequisite: SOC 202 or 403 or PSYCO 260/261 or EDPSY 269/271. Note: SOC 341 and PSYCO 341 may *not* both be taken for credit.

SOC 367. *Values and Belief Systems.* ★3 (either term, 3-0-0). The origins, developments, and social consequences of systems, of beliefs and values. Prerequisite: SOC 202 or 403.

SOC 371. *The Family.* ★3 (either term, 3-0-0). Structure and function of the family system, historically and cross-culturally. The family system in contemporary societies emphasizing its institutional characteristics and current trends. Prerequisite: SOC 202 or 403. Not open to students who have credit in FAM 241 or 350.

97.2 General Information

The greater part of activity at the University stems from the existence of a multitude of well-defined disciplines: in arts, science, medicine, etc. Such uni-disciplinary activities reflect the contemporary structure and organization of knowledge, and acknowledge the demand for education and research in time-honored subjects. A small part of University activity is devoted to the pursuit and application of knowledge in several disciplines simultaneously.

Disciplines come together in two principal ways. Firstly, they can come together within an organization specifically designed to accomplish a stated mission: in this form, the disciplines are coordinated but are otherwise independent. This type of activity is often described as *multi-disciplinary*. Secondly, they can come together in a fundamental merger in which they may lose their separate identities and evolve into a new discipline, *sui generis*. Such activity is usually described as *interdisciplinary*.

Interdisciplinary Studies embraces both of the above forms and therefore reflects the University's proper concern with societal and epistemological problems. This concern expresses itself in courses, programs, research projects, and public service. Opportunities are outlined in the separate descriptions of the institutes, centres, and divisions listed below. The only restrictions are that work should involve more than one faculty, and must meet the requirements of the Faculty of Graduate Studies and Research.

98 INTERDISCIPLINARY STUDIES

98.1 Boreal Institute for Northern Studies

Director
R. S. JAMIESON

Advisory Board
N. W. RUTTER, Ph.D., Chairman
L. CARBYN, Ph.D.
H. F. CLIFFORD, Ph.D.
G. DACKS, Ph.D.
K. E. DENFORD, Ph.D.
J. H. ENGLAND, Ph.D.
G. F. N. FEARN, Ph.D.
G. GERARD, Ph.D.
A. K. HELLUM, Ph.D.
J. PARKER, M.A.
W. G. PEARCE, M.D., F.R.C.S.
C. E. SCHWEGER, D.Phil.

The Boreal Institute has as its prime objective the gathering and dissemination of information about the North in an effort to increase understanding and awareness of that part of Canada. To achieve this goal, the Institute has adopted a three-fold program: the implementation and fostering of research about the North, the development of a library and information centre, and the provision of training and instruction.

The research aspect of the Institute's activities includes annual grants awarded in support of short-term northern research projects; one program for graduate students and another for faculty members. Longer term and more comprehensive research programs are also operated under the aegis of the Institute, for example, the Northwest Territories Local Government Training Program. The Institute has in place several contract research programs undertaken at the request of federal and territorial government departments. The Yukon Bibliography, which is supported by the Yukon Territorial Government, is one of the Institute Library's ongoing projects. The fifth volume, Update to 1979, will be published in the fall of 1980.

The Institute has established and maintains a multi-disciplinary library and information centre, which is a distinct and separate collection from that of the University as a whole. It serves the needs of all interested in obtaining information on northern regions. The collection covers northern Alberta, the Canadian arctic, the mid-Canada corridor, Alaska, the Arctic Ocean, and all circumpolar countries. Subjects range from fiction and popular articles to highly scientific publications. The Library subscribes to newspapers and newsletters from communities north of 60 and to those published by the native peoples of Canada, as well as to all periodicals concerning northern regions.

An increasingly important function of the Boreal Institute is its provision of northern schools. The Eastern Arctic Winter School, the Arctic Summer School, and the Yukon Summer School are offered jointly with the Faculty of Extension. These schools are designed for management and professional people working in private and public organizations which are active or becoming active in the North. Their objective is to familiarize those working or advising on northern operations with special social and environmental conditions in those parts of Canada. Those wishing further information about the northern schools should contact the Faculty of Extension, Corbett Hall, University of Alberta, Edmonton, Alberta, T6G 2G4.

The Boreal Institute, with the cooperation of the Department of Geography, offers a graduate seminar which examines current environmental research in Canada's North. (Also see § 184.15 of the Faculties of Arts and Science calendar and § 99.2 of this calendar.) The Institute also maintains active liaison with all faculties offering courses in northern studies.

The Institute is located in Room CW 401, Biological Sciences Building. Inquiries regarding the work of the Institute should be addressed to the Office of the Director, while information concerning the Library of the Institute, including its reference service, can be obtained from the Insitute's Librarian.

98.2 Canadian Institute of Ukrainian Studies

Director
M. R. LUPUL, Ph.D.

Associate Directors
G. S. N. LUCKYJ, Ph.D. (Toronto)
B. R. BOCIURKIW, Ph.D. (Carleton)

Advisory Council
R. L. BUSCH, Ph.D.
B. A. KRAWCHENKO, M.A.

D. V. PARKER, Ph.D.
T. M. S. PRIESTLY, Ph.D.
I. L. RUDNYTSKY, Ph.D.
A. D. RUTKOWSKI, M.A.

The Canadian Institute of Ukrainian Studies was established in 1976 as a national institution to help meet the academic needs of Ukrainians in Canada. Its objectives are: (i) to encourage program development in Ukrainian studies at the undergraduate and graduate levels; (ii) to serve as a resource centre for English-Ukrainian bilingual education; (iii) to encourage and coordinate research and publications in Ukrainian studies; (iv) to encourage contacts among scholars and students in Ukrainian studies through seminars and conferences.

The Institute offers no courses or degree programs. Its main concern is to strengthen, expand, and coordinate department-based programs to prevent unnecessary duplication, especially at the graduate level and where research and publications are concerned. At the graduate level specialization is through theses on Ukrainian or Ukrainian-Canadian topics. Otherwise, the Institute encourages an interdisciplinary approach in the context of East European, Soviet, and/or Canadian studies. An important concern of the Institute is to develop an awareness of the past and present state of Ukrainian life in Canada and elsewhere among students capable of meeting the needs of schools, universities, governments, and the Ukrainian-Canadian community as a whole.

The Institute's undergraduate scholarships and graduate fellowships may be held by a Canadian citizen or a permanent resident (landed immigrant) in any Canadian university or elsewhere. While the Institute contracts research beyond Canada's borders, requests for its research grants are accepted only from Canadian citizens and permanent residents (landed immigrants).

The Institute has two series of publications: The Alberta Library in Ukrainian-Canadian Studies and The Canadian Library in Ukrainian Studies. Emphasis is on bibliographic works, collections of primary documents, monographs, and on nineteenth- and twentieth-century intellectual and social developments in Ukraine. To aid in research and publication the Institute has an office at the University of Toronto and close liaison with the Shevchenko Scientific Society at Sarcelles (near Paris). The former is concerned to improve teaching of Ukrainian literature and language at the university level, and both are engaged in the preparation of a basic text for a four-volume alphabetical encyclopaedia of Ukraine in English to be published by the Canadian Foundation for Ukrainian Studies. The Institute accepts funds on behalf of the Foundation, and all expenditures are coordinated by the Institute. The Toronto office publishes a semi-annual *Journal of Ukrainian Studies* containing notable seminar papers, dissertation abstracts, and parts of theses. Other activities include the development of a visiting professor's program, a Ukrainian Studies Summer School, a student research and travel-study program, and organization of the annual Shevchenko lecture.

The Institute is under the jurisdiction of the Dean of Interdisciplinary Studies. Policy is developed by the Director, assisted by two Associate Directors; the Advisory Council helps to promote the interdisciplinary dimension of Ukrainian Studies at The University of Alberta; and the Council of Associates, consisting of the most senior personnel in Ukrainian Studies in Canada, helps to implement the inter-university function of the Institute. Inquiries should be addressed to the Director of the Institute.

98.3 Center for Advanced Study in Theoretical Psychology

Director
J. R. ROYCE, Ph.D.

Professional Officer
L. P. MOS, Ph.D.

Staff
W. J. BAKER, Ph.D.
W. W. ROZEBOOM, Ph.D.
H. TENNESSEN, D.Phil.

Research Associates
A. POWELL, Ph.D.
B. VOORHEES, Ph.D.

Faculty Associates
T. E. WECKOWICZ, Ph.D.
K. V. WILSON, Ph.D.

Faculty Affiliates
R. JUNG, Ph.D.
H. GARFINKLE, Ph.D.

Sabbatical Resident (1980-81)
J. R. BARCLAY, Ph.D., (U.S.A.)

The Center for Advanced Study in Theoretical Psychology offers a program of education and research into the theoretical foundations of psychological science. Attempts are made to trace the historical continuities and logical structure of psychology's central concepts, to contribute to the development of substantive theory, and to identify the unities underlying the diversity of current psychological work.

The Center is designed to provide a setting for the development of advanced skills in methodological analysis combined with breadth of integrative comprehension in psychology. Faculty and students are offered seminars, informal interactions with staff and visiting scholars, and special courses of instruction.

Through the Distinguished Visiting Scholars Program, internationally recognized scholars in theoretical-philosophical psychology are brought to the Center for periods of one- to two-weeks. Sessions are devoted to critical examination of the visitor's work. This program is co-ordinated with an annual theme and a subsequent conference at Banff. All members of the Center are expected to participate in its seminars.

Graduate participants enroll in one of the regular Ph.D. programs offered by the Department of Psychology, while postdoctoral programs are tailored to individual specifications. Inquiries should be addressed to the Professional Officer of the Center.

98.4 Centre for the Study of Mental Retardation

Director
J. P. DAS, Ph.D.

Research Associates
G. BISANZ, Ph.D.
F. SNART, Ph.D.

Editor of Mental Retardation Bulletin
A. E. WALL, Ph.D.

Course Co-ordinator
R. MULCAHY, Ph.D.

Co-ordinators of Resources for the Dependent Handicapped Project
G. M. KYSELA, Ph.D.
C. NORMAN, Ph.D.

Co-ordinator of Staff and Parent Training Program
G. M. KYSELA, Ph.D.

Chairman of the Advisory Board
P. BOWEN, M.D.

The objectives of the Centre for the Study of Mental Retardation are:

(i) to pursue research of an interdisciplinary nature into the problems of intellectual subnormality;

(ii) to encourage faculty and graduate students to carry out investigations in the field of mental retardation; and

(iii) to provide facilities for clinical investigation and remediation of the child with learning handicaps from biomedical, educational, and psychological aspects, and to provide interdisciplinary training for students in these areas.

The Centre seeks grants from government agencies and private organizations for research and demonstration projects so as to understand the nature of intellectual subnormality and learning disorders, and to devise methods for their prevention and treatment. The Centre publishes a journal, *Mental Retardation Bulletin*, three times a year. Policy for the Centre is established by an interdisciplinary advisory board responsible to the Vice-President (Academic) of the University.

98.5 Devonian Botanic Garden

Director
P. N. D. SEYMOUR, B.Sc.

Associate Director and Chairman of Advisory Committee
P. R. GORHAM, Ph.D., D.Sc.

Research Associate
R. S. CURRAH, B.Sc., M.Sc.

The Devonian Botanic Garden was founded in 1959 on 80 acres of land near Devon donated by the late H. A. Dyde, Q.C., LL.D., O.B.E. It has been developed on naturalistic lines. Part of it is a nature conserve, and there are two ecological reserves.

The aims and objectives of the Devonian Botanic Garden include the following:

1. To establish a collection of cultivated plants hardy in the Edmonton region and to establish a collection of indigenous plants of Alberta, both for University teaching and public education.

2. To conduct plant introduction and winter hardiness trials with the aim of increasing the range of plants grown in the Edmonton region.

3. To seek out variations in native materials suitable for introduction as ornamental plants.

4. To construct a garden of plants used by the native peoples of Alberta.

5. To take part in the International Seed Exchange with some 400 world-wide institutions and botanic gardens.

6. To provide outdoor laboratory space for the University and other institutes of learning.

7. To conduct taxonomic and applied research into ornamental plants and to maintain a herbarium of cultivated plants.

8. To enable the public to become aware of, and appreciate, one of the many aspects of the extension work of the University in a congenial setting.

9. To encourage public interest in, and support for, the Garden by means of the Friends of the Devonian Botanic Garden.

10. To publish informative bulletins.

The Devonian Botanic Garden is situated 9.5 kilometres west of Edmonton on Highway 16 and 14.5 kilometres south on Highway 60.

98.6 Division of Community Development

Acting Director
A. S. A. MOHSEN, Ph.D.

Professor
G. A. EYFORD, Ph.D.

Associate Professor
D. G. WANGLER, Ph.D.

The Degree of M.A.

(1) Candidates enrolled in this program must have a general background in the social sciences and relevant humanities, with special emphasis on senior-level proficiency in anthropology, economics, social psychology, sociology, and political science. Most students applying for admission to this program will take an initial year as a qualifying graduate student to bring their general background in the social sciences and relevant humanities at the senior undergraduate level up to the requirements. However, students entering the program with an honors degree in a relevant field or with equivalent preparation in the core areas, can be considered as candidates for the Master's degree.

(2) The Division offers two routes for the M.A. degree, a thesis route and a non-thesis route:

(a) The thesis route: Over the two-year period students will be expected to take the equivalent of at least five and one-half full-session courses; three and one-half of which are graduate level courses and more than half of which are mandatory. Students in this route will then write a thesis equivalent to two full-session courses. The mandatory courses include the core courses of the program which are intended to give the student a definitive and comprehensive view of community development principles and practices. INT D 459 is a prerequisite for all the mandatory courses. INT D 559 must be taken in the first year; INT D 601 and INT D 602 must be taken in the second year.

(b) The non-thesis route: Over the two-year period students will be expected to take the equivalent of at least six and one-half full-session courses; four of which are graduate level courses and more than half of which are mandatory. Students in this route will then take INT D 900 which is the non-thesis project.

The balance of each student's program is made up of courses chosen from other departments and faculties, depending upon his or her special interests. Areas which are highly recommended include: (1) social science research methods, (2) adult education, (3) group dynamics, and (4) development and change (relevant courses in anthropology, economics, education, organizational development, philosophy, and rural and urban sociology). Other courses are offered by Geography, History, Political Science, Recreation Administration, and Education. Where students' special interests are not met by existing courses, conference (or reading) courses or practicums can be arranged under the supervision of a staff member with competence in that particular field.

(3) For additional information regarding this program, including the availability of assistantships, students should contact the Director, Division of Community Development, Room 748, Education Building South, University of Alberta, Edmonton, Alberta T6G 2E1. Such inquiries should be made as early as possible, particularly by students who wish to begin acquiring the necessary prerequisites through Spring or Summer Session courses.

98.7 Division of East European Studies

Director
R. L. BUSCH, Ph.D.

Associate Professor
T. YEDLIN, Ph.D.

Advisory Council
B. BAIN, Ph.D. (Educational Psychology)
R. L. BUSCH, Ph.D. (Slavic Languages)
H. GARFINKLE, Ph.D. (Educational Foundations)
C. HALE, Ph.D. (Germanic Languages)
L. A. KOSINSKI, Ph.D. (Geography)
H. KREISAL, Ph.D. (Canadian Studies)
K. KROTKI, Ph.D. (Sociology)
M. R. LUPUL, Ph.D. (Ukrainian Studies)
S. W. MENDRYK, Ph.D. (Physical Education)
I. MORAVCIK, Ph.D. (Economics)
M. MOTE, Ph.D. (Political Science)
E. MOZEJKO, Ph.D. (Comparative Literature)
E. REINHOLD, Ph.D. (Acting Associate Dean of Arts)
I. RUDNYTSKY, Ph.D. (History)

The aims of the Division of East European Studies are:

1. the promotion and co-ordination of studies, research and publications, dealing with Eastern Europe, the Soviet Union and East European peoples in Canada, and the building up of library and other facilities relevant to this area of study;

2. the development of interdisciplinary graduate programs in East European studies;

3. the development of honors or other undergraduate programs;

4. the arrangement and sponsorship of conferences, symposia, colloquia, academic exchanges, and inter-university projects;

5. the development of a centre for student and community groups interested in Central and East European studies, including studies in Canadian contexts; and

6. the fostering of public awareness of Eastern Europe and the role played by Canadians of Eastern European origin in Canada's development.

Programs leading to degrees with notation of specialization in East European and Soviet Studies are offered jointly by the Division and any one of the following departments: the Departments of Comparative Literature, Economics, Educational Foundations, Educational Psychology, Geography, History, Physical Education, Political Science, Sociology, and Slavic Languages.

The basic graduate M.A. and M.Ed. programs consist of area-related study in a department, the interdisciplinary seminar on Eastern Europe and the Soviet Union (INT D 546), and a thesis written on an East European or Soviet topic or on East Europeans in Canada. The student must demonstrate competency in one of the languages of the area. Unless waived on the basis of previous study or background, students are also required to include in their programs an area-related full course or two half-courses from outside their department. Additional information on East European and Soviet Studies graduate courses and programs is to be found in § 203.1.2 (6) and § 204.23 of the Faculty of Graduate Studies and Research Calendar.

An Honors degree with an East European and Soviet Studies specialization can be taken through one of the Departments of Economics, History, Political Science, or Slavic Languages. These special programs are designed by the department concerned, in conjunction with the Dean of Arts Office. Programs may include area-related courses listed in the Faculty of Arts Calendar under Comparative Literature, Economics, Geography, History, Political Science, the various Slavic Languages, Interdisciplinary Courses, and the Faculty of Education Calendar. These programs must include an approved language component. Further information may be obtained from the Office of the Dean of Arts.

A summer travel-study course to the USSR and East Europe is organized by the Division. Its purpose is to provide first-hand experience with cultures and life in one or more European socialist countries.

The Division maintains close liaison with the Central and East European Studies Society of Alberta (CEESSA), a community-academic educational society open to all Albertans, and co-sponsors with it a series of public lectures and conferences on Central and East European studies.

An interdisciplinary dimension to Ukrainian studies in the East European, Soviet, and/or Canadian context is encouraged and promoted by the Canadian Institute of Ukrainian Studies (see § 98.2).

Address inquiries to: Dr. R. L. Busch, Director, Division of East European Studies, 300 Athabasca Hall, University of Alberta, Edmonton, Alberta T6G 2E8.

98.8 Water Resources Centre

Director
A. H. LAYCOCK, Ph.D.

The Water Resources Centre was established in 1969. Its objectives are the enhancement of orderly growth of basic and applied water resources research at The University of Alberta by securing exchange and co-operation among researchers from different scientific disciplines relevant to water resources, by encouraging response of the University to public needs through applied research, and by developing and maintaining a coordinated research capability in water resources. Stimulation of public interest and improved communication in water resources research is attempted by the publication of books and reports, and by arranging for conferences, seminars, and other activities.

The Centre seeks grants from government agencies and private organizations for research. Staff and students with interests in water resources research and management are encouraged to become involved.

99 DETAILS OF COURSES

99.1 General Information

In the following list of courses, each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their registration forms.

Following the title of each course is the symbol "★" standing for "course weight", and a number indicating the weight of the course as used in computing grade-point averages.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The expression "3/2" means three hours of instruction every second week. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated. If the course is a single-term course, the term in which it may be offered is mentioned before the hours of instruction.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT OR DIVISION CONCERNED.

99.2 Boreal Institute for Northern Studies

INT D 565. *Northern Studies.* ★3 (Second Term, 3-0-0). An examination of current environmental research in the Canadian North. Seminars are presented by professionals engaged in various facets of northern research. Prerequisite: Consent of the instructor. (Offered by the Boreal Institute for Northern Studies and the Department of Geography.) Students register in the Department of Geography.

99.3 Division of Community Development

INT D 459. *Introduction to Community Development.* ★3 (either term, 3-0-0). The history, origins, foundation and definitions of community development. (Registration in this course is handled by the Department of Sociology.)

INT D 506. *Community Development Field Methods and Techniques.* ★3 (either term, 3-0-0). Practical training in field methods and techniques related to the principles and practices of community development, for example: Strategies of Involvement and Participation, Small Group and Large Group Skills, Program Planning, Community Analysis, The Use of Communications and Mass Media. Prerequisite: Consent of Division.

INT D 509. *Conference Course in Community Development.* ★3 (either term, 3-0-0). Prerequisite: Consent of Division.

INT D 510. *Community Development Practicum.* ★3 (either term, 3-0-0). Prerequisite: Consent of Division.

INT D 516. *Learning in the Community.* ★3 (either term, 3-0-0). An examination of how and what people learn in a community through mass media, institutions and organizations, traditions and customs, popular culture, advertising, etc. The value of information and knowledge in the development of a community will be explored and assessed. Prerequisite: Consent of Division.

INT D 559. *Theories of Community Development.* ★3 (either term, 3-0-0). A study of the major theories of community development with respect to their philosophy and their methodology. The relative merits of various approaches to community development will be examined and discussed. Prerequisite: INT D 459 or equivalent.

INT D 601. *Comparative Community Development.* ★3 (First Term, 3-0-0). A detailed study of the application of community development theories in specific projects; a survey and evaluation of representative programs in community development in Canada and elsewhere. Prerequisite: INT D 459 or equivalent.

INT D 602. *Current Issues in Community Development.* ★3 (Second Term, 3-0-0). An examination of current social problems and their relevance to community development theory and practice; the relevance to community development approaches to contemporary community development problems. Prerequisite: INT D 459 or equivalent.

INT D 900. *Non-Thesis Project.* ★3 (either term, variable). Note: for Community Development students enrolled in the non-thesis M.A. Program. Prerequisite: Consent of Division.

99.4 Division of East European Studies

SENIOR COURSES

INT D 341. *Romania and Romanians.* ★3 (Second Term, 3-0-0). Included in the course is the history of Romania, the nature of its language, and the social, political, cultural and economic development of Romania, and of Romanian settlements, especially those in the Moldavian SSR and in Canada.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). An interdisciplinary introduction to the study of the socialist system with special reference to the Soviet Union and East Europe. (Division of East European Studies and Departments of Comparative Literature, Economics, Geography, History, Political Science, Slavic Languages, and Sociology.)

INT D 347. *Women and Socialism: USSR and Eastern Europe.* ★3 (Second Term, 3-0-0). Theory and practice of socialism as related to the status of women in Eastern Europe and the Soviet Union. Prerequisite: Consent of the Division of East European Studies. Note: Not open to students who have taken POL S 342 in 1977-78. (Division of East European Studies and Departments of Political Science and Sociology.)

INT D 355. *Social Problems of Eastern Europe Under State Socialism.* ★3 (First Term, 3-0-0). The socio-cultural and economic consequence of major structural transformations in East European societies, with particular emphasis on family life, the socialization of youth, work relations, popular culture, and social deviance. (Division of East European Studies and Departments of Slavic Language and Sociology.)

INT D 443. *The Soviet North and Siberia.* ★3 (Second Term, 3-0-0). The economy, political administration, and the social development of the native peoples of Siberia and the Soviet North. Prerequisite or corequisite: An area-related course in one of geography, political science, economics, or consent of the Division of East European Studies. (Participating units normally include Division of East European Studies and Departments of Anthropology, Economics, and Geography.)

INT D 444. *The Ukraine.* ★3 (Second Term, 3-0-0). Major social economic, political, and cultural trends in the Ukrainian SSR in the post-World War II period. Prerequisite or corequisite: An area-related course in one of geography, history, political science, or Ukrainian, or consent of the Division of East European Studies. (Participating units normally include Division of East European Studies and Departments of History and Slavic Languages.)

INT D 445. *Poland.* ★3 (First Term, 3-0-0). The political, social economic, and cultural developments in post-World War II Prerequisite: INT D 346, or POLSH 304 or equivalent, or demonstration to the Division of East European Studies of sufficient background in the area. (Participating units normally include Division of East European Studies and Departments of Economics, Fine Arts, Geography, Slavic Languages, and Sociology.)

INT D 446. *Eastern Europe: A Travel-Study Course.* ★6 (5-0-15) An intensive interdisciplinary study of Eastern Europe and the

Soviet Union, in Eastern Europe itself. Designed to provide an understanding of the area by directed study on location. Note: The course is offered only in the Spring or Summer Session in countries of Eastern Europe and the USSR on a selected basis and includes intensive study in one or more countries. Prerequisite: INT D 346, or consent of the Division of East European Studies. Pre-session study and preparation.

HONORS AND GRADUATE COURSES

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). An interdisciplinary seminar. (Division of East European Studies and Departments of Comparative Literature, Economics, Geography, History, Political Science, Slavic Languages, and Sociology.)

99.5 Interdisciplinary (INT D) Courses Offered at The University of Alberta

INT D 230. *Practical Plant Biology.* ★3 (First Term, 3-0-3). The practical aspects of plant structure and classification. Laboratory exercises will emphasize crop plants. Prerequisite: Biology 30 or BIOL 130. (Offered jointly by the Departments of Botany and Plant Science.) Students register in the Department of Plant Science.

INT D 300. *Introduction to the Study of Film.* ★6 (3-0-3). An interdisciplinary survey (lecture and laboratory) of major areas in film studies, emphasizing history, theory, and criticism. Prerequisite: 1 year of ENGL 200-level, or ART H 201 and 202, or C LIT 200 or 300, or PHIL 240, or equivalent. Note: This course is accepted as a part of student's program only by the Department of Comparative Literature, the other Departments accept it only as an option. (Departments of Art and Design, Comparative Literature, Drama, English, Philosophy, Political Science, and Romance Languages.) Students register in the Department of Philosophy.

INT D 301. *The Hollywood Film.* ★6 (3-0-3). A survey of the American feature film from the silent era to the present. Prerequisite: INT D 300. Note: This course is accepted as a part of student's program only by the Department of Comparative Literature, the other Departments accept it only as an option. (Departments of Art and Design, Comparative Literature, Drama, English, Philosophy, Political Science, and Romance Languages.) Students register in the Department of Philosophy.

INT D 302. *Economics of Agriculture.* ★3 (either term, 3-0-0). The nature and scope of agricultural economics; economic aspects of agricultural production, marketing, finance, resource use, prices, and policy; relations of the agricultural sector to the economy as a whole; analysis of structural change, economic growth, and adjustment in agriculture. Prerequisites: ECON 201/202 or equivalent. (Offered jointly by the Departments of Economics and Rural Economy.) Students register in the Department of Rural Economy.

INT D 303. *Economics of World Agriculture.* ★3 (either term, 3-0-0). A survey of world structure of agricultural production, consumption, and trade; international agricultural policies and agreements; impact of regional economic integration on agriculture; interrelation of economic development and trade in agricultural commodities. Prerequisites: ECON 201/202 or equivalent. (Offered jointly by the Departments of Economics and Rural Economy.) Students register in the Department of Rural Economy.

INT D 341. *Romania and Romanians.* ★3 (Second Term, 3-0-0). Included in the course is the history of Romania, the nature of its language, and the social, political, cultural and economic development of Romania, and of Romanian settlements, especially those in the Moldavian SSR and in Canada. Students register in the Division of East European Studies.

INT D 346. *Introduction to Eastern Europe and the Soviet Union.* ★6 (3-0-0). An interdisciplinary introduction to the study of the socialist system with special reference to the Soviet Union and East Europe. (Division of East European Studies and Departments of Comparative Literature, Economics, Geography, History, Political Science, Slavic Languages, and Sociology.) Students register in the Division of East European Studies.

INT D 347. *Women and Socialism: USSR and Eastern Europe.* ★3 (Second Term, 3-0-0). Theory and practice of socialism as related to the status of women in Eastern Europe and the Soviet Union. Prerequisite: Consent of the Division of East European Studies. Note: Not open to students who have taken POL S 342 in 1977-78. (Division of East European Studies and Departments of Political Science and Sociology.) Students register in the Division of East European Studies.

INT D 355. *Social Problems of Eastern Europe Under State Socialism.* ★3 (First Term, 3-0-0). The socio-cultural and economic consequences of major sructural transformations in East European societies, with particular emphasis on family life, the socialization of youth, work relations, popular culture, and social deviance. (Division of East European Studies and Departments of Slavic Languages and Sociology.) Students register in the Division of East European Studies.

INT D 356. *Sociology of Rural Life.* ★3 (either term, 3-0-0). The rural community and rural social systems, with special reference to changes in the rural way of life. Prerequisite: R SOC 355, or SOC 202 or 403, or equivalent. (Offered jointly by the Departments of Rural Economy and Sociology.) Students register in the Department of Rural Economy.

INT D 357. *Health Care Economics.* ★3 (either term, 3-0-0). Resource allocation in the health care industry; production and cost relationships within various types of institutional settings (hospital, medical firm); the role of the price mechanism in allocating resources. Manpower planning; the role of the government and professional groups in allocating resources in the non-price sector of the health industry. (Department of Economics and the Division of Health Services Administration.) Students register in the Division of Health Services Administration.

INT D 365. *Natural Resource Economics.* ★3 (either term, 3-0-0). Economics of natural resources related to agriculture and forestry; conservation, population, resource scarcity, property and tenure institutions, economic rent and resource pricing, resource development and evaluation, environmental protection, public resource policy. Prerequisite: ECON 201 or equivalent; ECON 202 recommended. (Note: Not open to students with credit in ECON 365.) (Offered jointly by the Departments of Forest Science and Rural Economy.) Students register in the Department of Rural Economy.

INT D 366. *Economics of Outdoor Recreation.* ★3 (either term, 3-0-0). Economic implications of outdoor recreation development and use with emphasis on location and time factors and consumer activities and expenditures. Benefit-cost evaluation of outdoor recreation resource use in the context of multiple land use, with public policy guidelines for privately and publicly owned recreation resources. Prerequisite: ECON 201 or equivalent; ECON 202 recommended. (Offered jointly by the Departments of Economics, Forest Science, Recreation Administration, and Rural Economy.) Students register in the Department of Rural Economy.

INT D 369. *Economics of the Environment.* ★3 (either term, 3-0-0). Economic growth and the deterioration of the environment; types and causes of environmental deterioration; theory, policy, and measurement relating to environmental deterioration; recreation economics; and current Canadian environmental topics. Prerequisite: ECON 201 or 304 or 307. (Departments of Economics and Rural Economy.) Students register in the Department of Economics.

INT D 382. *Theory and Practice of Cooperation.* ★3 (First Term, 3-0-0). Economic and sociological principles of cooperation; the evaluation of cooperative organization; cooperative law and taxation; management and finance of cooperatives. Students register in the Department of Rural Economy.

INT D 393. *Political Sociology.* ★3 (either term, 3-0-0). An examination of the impact of social organization and structure on the conduct of politics in mass societies, and of the ways the organization and structures of such societies are affected by political processes. Prerequisite: POL S 200 or 201 and 202; or SOC 202 or 403, or consent of the Department (either Political Science or Sociology). Students register in the Department of Political Science.

INT D 401. *Film Theory and Criticism.* ★3 (either term, 3-0-0). Investigation of the problems of understanding and evaluating film. Includes close analysis of film extracts in class. Prerequisite: INT D 300. Note: This course is accepted as a part of student's program only by the Department of Comparative Literature, the other Departments accept it only as an option. (Departments of Art and Design, Comparative Literature, Drama, English, Philosophy, Political Science, and Romance Languages.) Students register in the Department of Philosophy.

INT D 432. *Forest Administration and Policy.* ★3 (Second Term, 2-1s-0). Analysis of the political, institutional, and administrative factors which influence the development and implementation of forest and conservation policies in Canada, the United States, and other countries. Forest administration and organization: policy as a guideline for managerial decision-making. Prerequisite: FOR 430 or equivalent. Formerly INT D 330. (Offered jointly by the Departments of Forest Science and Rural Economy.) Students register in the Department of Forest Science.

INT D 443. *The Soviet North and Siberia.* ★3 (Second Term, 3-0-0). The economy, political administration, and the social development of the native peoples of Siberia and the Soviet North. Prerequisite or corequisite: An area-related course in one of geography, political science, economics, or consent of the Division of East European Studies. (Participating units normally include Division of East European Studies and Departments of Anthropology, Economics, and Geography.) Students register in the Division of East European Studies.

INT D 444. *The Ukraine.* ★3 (Second Term, 3-0-0). Major social, economic, political, and cultural trends in the Ukrainian SSR in the post-World War II period. Prerequisite or corequisite: An area-related course in one of geography, history, political science, or Ukrainian, or consent of the Division of East European Studies. (Participating units normally include Division of East European Studies and Departments of History and Slavic Languages.) Students register in the Division of East European Studies.

INT D 445. *Poland.* ★3 (First Term, 3-0-0). The political, social, economic, and cultural developments in post-World War II. Prerequisite: INT D 346, or POLSH 304 or equivalent, or demonstration to the Division of East European Studies of sufficient background in the area. (Participating units normally include Division of East European Studies and Departments of Economics, Fine Arts, Geography, Slavic Languages and Sociology.) Students register in the Division of East European Studies.

INT D 446. *Eastern Europe: A Travel-Study Course.* ★6 (5-0-15). An intensive interdisciplinary study of Eastern Europe and the Soviet Union, in Eastern Europe itself. Designed to provide an understanding of the area by directed study on location. Note: The course is offered only in the Spring or Summer Session in countries of Eastern Europe and the USSR on a selected basis and includes intensive study in one or more countries. Prerequisite: INT D 346, or consent of the Division of East European Studies. Pre-session study and preparation. Students register in the Division of East European Studies.

INT D 455. *Migration.* ★3 (either term, 3-0-0). Internal and international migration, and its relationship to resources, economic opportunities, and societal organization in Canada and other countries; concepts, measures and analytical techniques; determinants and consequences of migration; types and models of migration; adjustment of migrants; migration and urban and metropolitan growth. (Departments of Geography and Sociology.) Students register in the Department of Sociology.

INT D 456. *Rural Social Problems and Public Policy.* ★3 (either term, 3-0-0). Social problems in Canadian rural life; analysis of policy-making processes related to these problems. Prerequisite: Consent of instructor; INT D 356 recommended. (Offered jointly by the Departments of Rural Economy and Sociology.) Students register in the Department of Rural Economy.

INT D 458. *Socio-economic Development of Western Canadian Agriculture.* ★3 (First Term, 3-0-0). The economic and social origins of western Canadian agricultural development. A chronological examination of farm and political organizations and other agrarian social movements influencing the farming sector. The growth of public policy and development of the institutional framework supporting agriculture. Discussion of past and present issues in western Canadian agricultural development, including such factors as land settlement, transportation, and farming support services. Prerequisite: R SOC 355 or SOC 202 or 403 or equivalent. (Offered jointly by the Departments of Rural Economy and Sociology.) Students register in the Department of Rural Economy.

INT D 459. *Introduction to Community Development.* ★3 (either term, 3-0-0). The history, origins, foundation, and definitions of community development. (Division of Community Development and Department of Sociology.) Students register in the Department of Sociology.

INT D 465. *Natural Resource Utilization.* ★3 (either term, 3-0-0). Economics of utilizing and conserving land, water, and energy resources in agriculture and forestry. Prerequisite: Consent of instructor; INT D 365 recommended. Students register in the Department of Rural Economy.

INT D 466. *Principles of Heritage Interpretation.* ★3 (either term, 3-0-0). Examination of heritage interpretation as an expression of cultural/environmental recreation programs. Prerequisite: Consent of instructor. (Offered jointly by the Departments of Forest Science and Recreation Administration.) Students register in the Department of Recreation Administration.

INT D 467. *Methods of Heritage Interpretation.* ★3 (Second Term, 3-0-0). Application of principles of interpretation of natural and historic resources. Focus on management techniques, development of facilities and of interpretive programs. Case studies and field trip. Prerequisite: Consent of instructor; INT D 466 recommended. (Offered jointly by the Departments of Forest Science and Recreation Administration.) Students register in the Department of Forest Science.

INT D 468. *Principles of International Humanitarian Law.* ★3 (either term, 3-0-0). Historical background; humanitarian intervention; human rights; law of war; international criminal law. Prerequisite: Consent of Faculty of Law or Department of Political Science. Note: Formerly IN ST 466. Students register in Department of Political Science.

INT D 470. *Field Trip in Heritage Interpretation.* ★3 (Spring Session, Second Term, 0-2-6). Extended field trip to examine comparatively the philosophies, approaches, and applied methodologies of a diverse range of institutions and agencies engaged in the practice of heritage interpretation. Prerequisite: INT D 466, and/or INT D 467, or consent of instructor. (Offered jointly by the Departments of Forest Science and Recreation Administration.) Students register in the Department of Forest Science.

INT D 475. *The Family in Socio-Historical Perspective.* ★3 (either term, 3-0-0). Comparative study of the family in socio-historical context with emphasis on North American and European family systems. Critical examination of contemporary sociological family theory in relation to historical data. Issues in socio-historical research methods of family study. Prerequisite: SOC 371 or equivalent. (Departments of History and Sociology.) Students register in the Department of Sociology. Not being offered in 1981-82.

INT D 478. *The Multinational Corporation and Public Policy.* ★3 (First Term, 3-0-0). The development and role of large corporations within North American and European captialism, with particular reference to the Canadian experience. A historical outline is followed by a selection of material on imperialism, international relations, international trade and commercial organization, designed to expose problems of public policy and shifts in social and economic power arising from the emergence of the multinational corporation. Prerequisite: Consent of the Department. (Departments of Economics and Political Science.) Students register in the Department of Economics.

INT D 479. *The Multinational Corporation and Public Policy Case Studies.* ★3 (Second Term, 3-0-0). Prerequisite: INT D 478. (Departments of Economics and Political Science.) Students register in the Department of Economics.

INT D 486. *Livestock and Meat Marketing.* ★3 (Second Term 3-0-1). Marketing problems, potentials, and principles studied through in-depth analysis of the red-meat industry. Quota Maximum registration 30. Prerequisite: Consent of instructor (Offered jointly by the Departments of Animal Science and Rural Economy.) Students register in the Department of Rural Economy.

INT D 500. *Nature of Man.* ★6 (0-3s-0). A seminar comparing the various conceptions of the nature of man held by sociologists psychologists, biologists, philosophers, theologians, writers and artists, and exploring some of the major social and philosophical issues which confront men today from the perspectives of these disciplines. (Departments of Philosophy and Psychology.) Students register in the Department of Philosophy.

INT D 505. *Intermediary Metabolism.* ★3 (First Term, 3-0-0). A detailed description of enzymatic reactions in biosynthetic pathways of carbohydrate, amino acid, vitamin, and coenzym metabolism, emphasizing interrelationships among metabolic pathways, and stressing relationships between metabolic pathways and growth and function of microbial and animal cells. Prerequisite: BIOCH 300 or equivalent. Offered in alternate years. Students register in the Department of Microbiology.

INT D 506. *Community Development Field Methods and Techniques.* ★3 (either term, 3-0-0). Practical training in field methods and techniques related to the principles and practices of community development, for example: Strategies of Involvement and Participation, Small Group and Large Group Skills, Program Planning, Community Analysis, The Use of Communications and Mass Media. Prerequisite: Consent of Division of Community Development. Students register in the Division of Community Development.

INT D 509. *Conference Course in Community Development.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Division of Community Development. Students register in the Division of Community Development.

INT D 510. *Community Development Practicum.* ★3 (either term, 3-0-0). Prerequisite: Consent of the Division of Community Development. Students register in the Division of Community Development.

INT D 516. *Learning in the Community.* ★3 (either term, 3-0-0). An examination of how and what people learn in a community through mass media, institutions and organizations, traditions and customs, popular culture, advertising, etc. The value of information and knowledge in the development of a community will be explored and assessed. Prerequisite: Consent of the Division of Community Development. Students register in the Division of Community Development.

INT D 540. *Seminar on Comparative, Legal, Constitutional, and Federal Studies.* ★6 (0-3s-0). Prerequisite: Consent of the Department. (Departments of History and Political Science.) Students register in the Department of Political Science.

INT D 546. *East European and Soviet Studies.* ★6 (0-3s-0). An interdisciplinary seminar. (Division of East European Studies and Departments of Comparative Literature, Economics, Geography, History, Political Science, Slavic Languages, and Sociology.) Students register in the Division of East European Studies.

INT D 551. *Advanced Plant Biochemistry.* ★3 (Second Term, 3-0-0). Selected topics in plant metabolism, with particular emphasis on mitochondrial electron transport, phosphorylation, and recent advances in carbon assimilation. Evaluation of current research and methods of investigation in these fields. Offered alternate years. Prerequisites: BIOCH 300 or 372, or PL SC 431 and 432, or equivalent. (Offered jointly by the Departments of Botany and Plant Science.) Students register in the Department of Plant Science.

INT D 559. *Theories of Community Development.* ★3 (either term, 3-0-0). A study of the major theories of community development, with respect to their philosophy and their methodology and the relative merits of various approaches to community development. Prerequisite: INT D 459 or equivalent. Students register in the Division of Community Development.

INT D 565. *Northern Studies.* ★3 (Second Term, 3-0-0). An examination of current environmental research in the Canadian North. Seminars are presented by professionals engaged in various facets of northern research. Prerequisite: Consent of the instructor. (Offered by the Boreal Institute for Northern Studies and the Department of Geography.) Students register in the Department of Geography.

INT D 566. *Resource Economics II: Economics of the Environment.* ★3 (either term, 3-0-0). Economic theory and policy relating to resource and environmental quality problems; welfare and public policy issues in resource decision-making; the relationships between economic growth and environmental preservation; externalities and public goods; economics of pollution; recreation economics; selected Canadian environmental issues. Students register in the Department of Economics.

INT D 570. *Seminar in Philosophy and Psychology I.* ★3 (First Term, 0-3s-0). An examination of the contributions of philosophy and psychology to the behavioral sciences. (Departments of Philosophy and Psychology.) Students register in the Department of Psychology.

INT D 571. *Seminar in Philosophy and Psychology II.* ★3 (Second Term, 0-3s-0). An examination of the contributions of philosophy and psychology to the behavioral sciences. (Departments of Philosophy and Psychology.) Students register in the Department of Psychology.

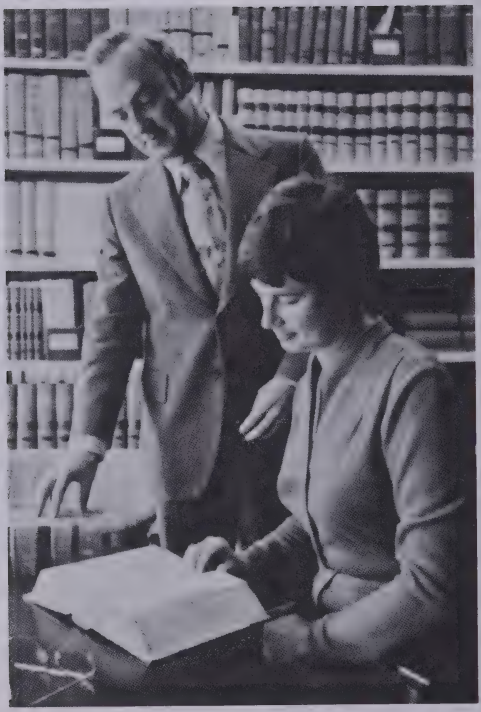
INT D 601. *Comparative Community Development.* ★3 (First Term, 3-0-0). A detailed study of the application of community development theories in specific projects; a survey and evaluation of representative programs in community development in Canada and elsewhere. Prerequisite: INT D 459 or equivalent. Students register in the Division of Community Development.

INT D 602. *Current Issues in Community Development.* ★3 (Second Term, 3-0-0). An examination of current social problems and their relevance to community development theory and practice; the relevance of community development approaches to contemporary community development problems. Prerequisite: INT D 459 or equivalent. Students register in the Division of Community Development.

INT D 623. *Clinical Research Seminar on Aphasia.* ★3 (either term, 3-0-3). Students register in the Department of Linguistics.

INT D 653. *Regionalism and Urban Planning.* ★3 (either term, 3-0-0). (Departments of Geography and Sociology.) Students register in the Department of Geography.

INT D 900. *Non-Thesis Project.* ★3 (either term, variable). Note: For Community Development students enrolled in the non-thesis M.A. Program. Prerequisite: Consent of the Division of Community Development. Students register in the Division of Community Development.



Faculty of Law

101 INTRODUCTORY

101.1 Members of the Faculty

101.1.1 STAFF

Professor and Dean

F. D. JONES, Q.C., B.A. (Alberta), LL.B. (Dalhousie), LL.M. (Toronto)

Associate Dean

E. I. PICARD, B.Ed., LL.B., LL.M. (Alberta)

Honorary Professor

The Honourable R. MARTLAND, B.A., LL.B. (Alberta), B.C.L. (Oxon), LL.D. (Alberta)

Emeriti

W. F. BOWKER, Q.C., B.A., LL.B. (Alberta) LL.M. (Minnesota), LL.D. (Alberta)

A. SMITH, Q.C., B.A., LL.B. (Alberta), LL.M. J. S. D. (Stanford), LL.D. (Queen's), LL.D. (Alberta)

Professors

B. M. BARKER, LL.B. (Saskatchewan),Dip.Crim. (Cantab)

D. C. DAVIES , LL.B. (Wales), LL.M. (Pennsylvania)

C. R. B. DUNLOP, B.A., LL.B. (Alberta), LL.M. (London), M.A. (Alberta)

W. H. HURLBURT, Q.C., B.A., LL.B. (Alberta)

F. D. JONES, Q.C., B.A. (Alberta), LL.B. (Dalhousie), LL.M. (Toronto)

S. P. KHETARPAL, B.Sc. (Punjab), B.L. (Rangoon), LL.M., Ph.D. (London)

F. A. LAUX, B.A., LL.B. (Alberta), LL.M. (Harvard)

T. W. MAPP, B.A. (Rochester), J.D. (Illinois)

W. K. J. MIS, B.A., LL.B. (Alberta), LL.M. (London)

D. R. PERCY, M.A. (Oxford), LL.M. (Virginia)

E. I. PICARD, B.Ed., LL.B., LL.M. (Alberta)

L. J. POLLOCK, Q.C., B.A., LL.B. (Saskatchewan)

W. J. SYCHUK, Q.C., B.A., LL.B. (Saskatchewan), M.C.L. (Southern Methodist)

J. S. WILLIAMS, LL.B. (Sheffield), B.C.L. (Oxford), LL.M. (Sheffield)

Associate Professors

B. P. ELMAN, B.Sc. (McGill), LL.B. (Dalhousie), L.L.M. (Harvard)

G. L. GALL, B.A. (Queen's), LL.B. (Windsor)

R. G. HOPP, B.Ed., LL.B. (Alberta)

D. P. JONES, B.A. (Hons.) (McGill), B.A. (Hons.) (Juris), B.C.L., M.A. (Oxford)

L. N. KLAR, B.A., B.C.L., LL.M. (McGill)

M. M. LITMAN, LL.B. (Osgoode)

P. J. M. LOWN, LL.B. (Hons.) (Glasgow), LL.M. (Saskatchewan)

A. A. McLELLAN, B.A., LL.B. (Dalhousie), LL.M. (London)

R. S. NOZICK, B.A., LL.B. (Manitoba), LL.M. (Harvard)

A. C. RICE, LL.B. (Dalhousie), LL.M. (New York)

M. F. RUTTER, M.A., B.C.L. (Oxon), LL.M. (Harvard)

Assistant Professors

T. J. CHRISTIAN, B.A. (Alberta), LL.B. (Cambridge)

E. R. MEEHAN, LL.B. (Edinburgh), LL.M. (McGill), LL.B. (Ottawa)

E. P. MENDES, LL.B. (Exeter), LL.M. (Illinois)

Visiting Professor

J. SMITH, B.A., B.C.L. (Oxon)

Inter Faculty Professor

L. C. GREEN, LL.B., LL.D. (Hons.) (London)

Special Lecturers

The Honourable J.B. DEA, B.A., LL.B. (Alberta)

The Honourable J.B. FEEHAN, B.A., LL.B. (Saskatchewan)

His Honour Judge L. L. JONES, B.A., LL.B. (Alberta)

The Honourable S. S. LIEBERMAN, B.A., LL.B. (Alberta)

The Honourable J. W. McCLUNG, B.A., LL.B. (Alberta)

The Honourable T. H. MILLER, B.A., LL.B. (Alberta)

The Honourable A. F. MOIR, B.A., LL.B. (Alberta), LL.M.(Harvard)

The Honourable W. A. STEVENSON, B.A., LL.B. (Alberta)

The Honourable A.H. WACHOWICH, B.A., LL.B. (Alberta)

Sessional Lecturers

D. C. ABBOTT, Q.C., B.A., LL.B. (Manitoba)

B. W. AITKEN, B.Mus. (Calgary), LL.B. (Alberta)

S. A. BERCOV, B.Com., LL.B. (Alberta)

R. L. BERGER, Q.C., B.A., LL.B. (McGill)

B. A. CHIVERS, B.A., LL.B. (Alberta)

P. T. COSTIGAN, B.Ed., LL.B. (Alberta)

J. L. DEWAR, LL.B. (Tasmania), LL.M. (Alberta)

P. J. FAULDS, LL.B. (Alberta)

C. R. HEAD, B.A., LL.B. (Alberta)

C. A. KENT, B.A. (Calgary), LL.B. (Alberta)

J. M. LAW, B.A., LL.B. (Alberta)

A. H. LEFEVER, B.Ed., LL.B. (Alberta)

R. J. LYONS, B.A., LL.B. (Alberta)

R. C. MAYBANK, B.Sc., LL.B. (Alberta)

D. B. McLEAN, B.Sc., LL.B. (Alberta), LL.B. (Melbourne)

R. A. McLENNAN, Q.C., B.A., LL.B. (Alberta)

I. RAMSAY, LL.B. (Edinburgh), LL.M. (McGill)

J. E. REDMOND, Q.C., B.A., LL.B. (Alberta), B.C.L. (Oxford)

J. C. ROBB, B.A. (Calgary), LL.B. (Alberta)

A. H. RUSSELL, B.A., LL.B. (Alberta)

H. I. SHANDLING, B.A., LL.B. (University of Cape Town, South Africa)

A. C. L. SIMS, B.A., LL.B. (Alberta)

P. A. SMITH, B. A. (Toronto), LL.B. (Alberta), LL.M. (Harvard)

J. STERK, B.A., LL.B. (Alberta)

M. P. STONE, B.A. (Saskatchewan), M.A., Ph.D. (Wisconsin), LL.B. (Saskatchewan)

G. A. VERVILLE, B.Sc., LL.B. (Manitoba)

B. VOGEL, B.A., LL.B. (Alberta)

R. B. WHITE, B.Com., LL.B. (Alberta)

Law Librarian

L. MACPHERSON, B.A. (Saskatchewan), M. Libr. (Washington)

Administrative Officer
R. H. GRAHAM

Admissions Officer and Student Advisor
A. A. DRYDEN, A.A. (Yuba)

101.1.2. ADDITIONAL MEMBERS OF THE FACULTY COUNCIL

President and Vice-Chancellor
M. HOROWITZ, B.A. (Sir George Williams), M.Ed. (Alberta), Ed.D. (Stanford)

Director, Institute of Law Research and Reform
W. H. HURLBURT, Q.C., B.A., LL.B. (Alberta)

Representative of Law Society
J. V. DECORE, Q.C., B.A., LL.B. (Alberta)

Registrar of the University
W. A. BLANCHARD, B.A. (San Francisco State College), M.A., Ph.D. (Oregon)

101.2 History

From the time the Lieutenant-Governor of the North-West Territories in Council enacted the first Legal Profession Ordinance in 1885, a person wanting to practice law in the Territories could do so by serving articles with a practitioner, and passing prescribed examinations. After Alberta became a province, the Legal Profession Act of 1907 provided a period of five years' articles for a candidate without a degree, and three years for one with a degree in arts, law, medicine, science or literature.

When the university began classes in 1908 there was no Faculty of Law. However the president, Dr. Tory, believed in a close link between the University and the professions. At his instigation the University Act of 1910 gave the Senate power to make arrangements with the Law Society for conducting its examinations and appointing examiners. A formal agreement was accordingly made, effective January 1st, 1913. With the cooperation of the Benchers of the Law Society, Dr. Tory himself selected the lecturers. There were eight or nine in Edmonton and a like number in Calgary. In each city lectures were given in the Court House in the early morning or late afternoon. These lectures led to admission to practice, not to the degree of LL.B. However, the University as early as 1914 did grant that degree. The course required four years, but not in full time attendance. Most who enrolled for the degree were articled students. They obtained the degree by taking the prescribed lectures and examinations in addition to those required of articled students.

By 1920 there was strong support both within the profession and the University for the establishment on the campus of a Faculty that would provide a three year course for students in actual attendance and that would have full-time teachers. The Faculty came into being in 1921, and at the same time an amendment to the Legal Profession Act provided that a candidate with the new LL.B. could be admitted to practice after one year's articles. Senior matriculation was required for admission and there was also provision for a combined course in Arts and Law, which took six years from junior matriculation. The combined course was abolished only in 1974. In the meantime, the old type of articling fell into disuse after the Faculty was established, though it was not formally abolished until 1954.

When the Faculty was founded, Dr. Tory, President of the University, was thorough in his search for a full-time teacher who, it was hoped, would ultimately become Dean. He was fortunate in obtaining the services of John A. Weir, a Rhodes Scholar from Saskatchewan. Weir became Dean in 1926 and so remained until his untimely death in 1942. He was a great teacher. In 1930, Malcolm MacIntyre joined the Faculty. Having studied under Roscoe Pound at Harvard, he had a sociological approach to law. He and Dean Weir made an excellent team. Their influence on the Bar and Bench remains. When Weir died in 1942, MacIntyre became Dean. However, he resigned in 1945 at a time when the student body had shrunk to a handful. George H. Steer, a leading Edmonton practitioner who had played a major part in establishing the Faculty and in teaching important subjects, was Acting Dean for the period 1944-47. In the fall of 1945 he arranged with the University to have a member of his firm, W. F. Bowker, teach full time for a year. The arrangement became permanent and in 1948 Bowker became Dean — a position he held until 1968 when he became Director of the newly-established Institute of Law Research and Reform. Subsequent Deans have been Gerald Laforest, G. H. L. Fridman and the incumbent, Frank Jones.

In 1947 Alexander Smith joined the Faculty and remained until his retirement in 1973. His contribution to legal education both as a teacher and authority in Constitutional Law is immeasurable.

The student enrolment was small in the early years. The annual number of graduates never exceeded twenty-five until after World War II. In 1951 there were over fifty, most of them veterans. The number then declined until 1967 when it began to rise quickly so that there are now one hundred and fifty a year. The entering class has been limited to one hundred and eighty.

Having been in existence for over half a century, the Faculty has produced 10 Rhodes Scholars, most of today's Alberta judges and many persons in public life. Most of its graduates have stayed in the province. Indeed for many years after World War II they did not fill the demand for articling students. At the present time the large graduating classes are the main source of lawyers in the province.

The size of the full-time teaching staff gradually increased after World War II so that there were nine in 1967-68. Then the quick rise in student enrolment brought with it an expansion of the teaching staff so there are now 25 full-time members.

The Faculty has always received great support from members of the profession in Edmonton who have acted as part time sessional instructors. In the early years, prominent names were George H. Steer, S. W. Field, L. Y. Cairns, H. A. Dyde, and A. B. Harvey. At the end of World War II the Faculty was entirely dependent on sessional instructors. At the present time there are 38 practitioners lecturing in one or more subjects.

The Faculty's quarters were originally Room 206 in the Arts Building which served as the Law Library. When the Rutherford Library was completed in 1952, a reading room was provided for law which was by then beginning to acquire a respectable collection which now amounts to 100,000 volumes. Faculty offices were moved to the Rutherford Library in 1964, where they remained until 1971 when the new Law Centre was opened. In the Centre the classrooms, library, moot court room and common rooms provide the best of facilities.

The original curriculum was based on one recommended by the Canadian Bar Association. It remained unchanged until after Dean Weir's death when Dr. MacIntyre introduced several new subjects especially in public law. In recent years many more courses have been added, including seminars and options. Where enrolment in a given subject is large the

class is divided into sections of not more than sixty students.

One notable development has been in Oil and Gas Law which was added to the curriculum some 20 years ago. Our graduate program, leading to the degree of LL.M., and which has been in existence since 1965, has stressed this subject.

Other activities have contributed to the role of the Faculty. The moot court program has always played an important part. To encourage legal writing Dr. MacIntyre established the Alberta Law Quarterly in 1934. Though publication was suspended near the end of World War II, it was revived in 1955 in the form of the Alberta Law Review which has become an important legal journal. Student Legal Services have given students an opportunity to serve in a practical way; and the close association of the Faculty with the Institute of Law Research and Reform has given to the teaching staff some contact with law reform.

The objective of the Faculty has been to encourage rigorous analysis and to develop the critical faculty. The "case system" is still basic. However more emphasis is now put on statute law and legal writing. Research is encouraged with a view to teaching the students to form and write defensible opinions. There is an effort to introduce students into such practical subjects as advocacy. At the same time the aim is to make them appreciate law as a scholarly discipline and as a means of social control to the end that they will contribute to the better administration of justice.

DR. W. F. BOWKER
January, 1977

Dean Bowker in his note on the history of the Faculty of Law is characteristically brief, discriminating in choice of themes, and just in his recognition of the contributions of others. Equally characteristic is his omission of all direct reference to his own achievements in the two decades he served as Dean. Perhaps an ex-colleague may offer a needed addendum.

One might speak of his prodigious and successful efforts to cope with the post-war enrolments of returned veterans, the growth of the library, his unobtrusive fostering of the *Law Review*, his original and distinctive course in legal writing, and much else. However, in this short and unauthorized postscript, perhaps the matters to mention are those deriving from the qualities of the man himself: the breadth of his scholarly and other interests, remarkable in one who was never a dilettante and is always thorough and well-informed in treating any subject; the merit of his teaching, in which the law was presented in its social and philosophic context, with a clarity never purchased at the cost of accuracy; his service to law reform, through criticisms that were perceptive and responsible and proposals that were sound as well as progressive; and the imprint on all his students and colleagues of his example of personal integrity and professional standards. Above all, there is the rich humanity that has made him the entertaining lecturer, trusted confidante and delightful companion so affectionately regarded by his students and all his other, innumerable, friends.

PROF. D. T. ANDERSON
January, 1977

101.3 General Information

1. *The Program.* The Faculty of Law of The University of Alberta offers a program of required and optional courses in law which is designed to (a) provide students with a general legal education in the fundamental principles of law, the structure and content of the legal systems of Alberta and Canada, and the history and philosophy of law; (b) qualify students for the practice of law in Alberta or any other common law jurisdiction in Canada; (c) train students in the legal aspects of business and government administration. The program requires full-time attendance for three academic years, and leads to the degree of Bachelor of Laws (LL.B.).

The nature of legal studies, and the scope and content of the courses offered in the Faculty are such that students should possess an adequate knowledge and understanding of at least some of the following: history, economics, philosophy, and political science. The ability to reason orally and in writing, an adequate command of the English language, and an interest in society, its organization and its sociological manifestations are also highly relevant to successful legal studies. A pre-law scientific background is not in itself a disadvantage, and may in some instances be an extremely suitable basis for undertaking the study of the law; however, in general, literary, historical, economic, philosophic, and similar studies provide the most satisfactory foundations for legal training.

2. *Professional Requirements.* Graduates of the Faculty who wish to enter upon the practice of law must meet the requirements of the jurisdiction in which they desire to practice. In addition to other requirements such as a period of pre-law training, whether or not culminating in a degree, and a period of articles, a University degree in law is a basic prerequisite for admission to practice throughout Canada. The Alberta LL.B. degree will normally be accepted in other Canadian common law jurisdictions for the purpose of satisfying the relevant requirement as to a degree in law.

In the Province of Alberta a resident graduate in law who wishes to be admitted to the Bar must article with a practising member of the Bar and serve under him/her for a period of one year. It will also be necessary for such a graduate to take the Bar Admission Course provided by the Law Society of Alberta and to pass a special Bar examination which consists of a paper or papers in general subjects related to law. To be admitted as a student-at-law serving articles with a member of the Alberta Bar, it is necessary to fulfill the provisions of the Legal Profession Act, which requires a degree and an LL.B., or two years of studies which would lead to a Bachelor of Arts degree at a University in Alberta and an LL.B. degree. Reference should be made to that Act for further details.

The number of students entering the practice of law in Alberta has increased in the last few years and a degree in law is no guarantee of a position in either the necessary year of articles (described above) or in the practice of law.

3. *The Post Graduate Diploma Program in Law.* The Faculty of Law offers a program of studies leading to a Postgraduate Diploma in Law. This program may be of interest to members of Canadian Law Societies and other legally qualified persons.

The program was designed to provide an extensive exposure to a limited area of the law with a view to bringing practitioners and other members of the legal profession up-to-date or helping prepare candidates as specialists in that area.

Holders of an LL.B. degree, or its equivalent from the University of Alberta, who also meet the requirements for admission to the Faculty of Graduate Studies and Research in other respects and who have had a mini-

mum of two years experience in the practice of law or a related field may be admitted to this program of study. Inquiries should be directed to the Chairman of the Postgraduate Diploma Committee of the Faculty of Law.

4. *The Bachelor of Laws Master of Business Administration Combined Degree* (LL.B./M.B.A.). The Faculty of Law and the Faculty of Business Administration and Commerce with the co-operation of the Faculty of Graduate Studies and Research offer a combined LL.B./M.B.A. degree. The course of study allows graduates to earn both a Bachelor of Laws (LL.B.) and a Master of Business Administration (M.B.A.) degree in four calendar years instead of the five academic year period normally required to complete both degrees.

The program is designed to afford students an opportunity to obtain a professional education in both Law and Business Administration as preparation for a career in which law and management overlap.

5. *Master of Laws (LL.M.).* The Faculty also offers a program of studies leading to the degree of Master of Laws (LL.M.). This involves attendance at a number of courses to be determined by the Dean of the Faculty and the submission of a dissertation on a subject to be chosen by the student in consultation with the Dean. Holders of an LL.B. degree, or its equivalent, from the University of Alberta, who also meet the requirements for admission to the Faculty of Graduate Studies and Research in other respects may be admitted to this program of study. The regulations for this program and the general regulations for graduate studies are set out in the Graduate Studies and Research Calendar (§ § 201-204). Inquiries should be directed to the Chairman of the Graduate Studies Committee of the Faculty of Law.

6. *The Law Library* has a collection of approximately 100,000 volumes. Included in this collection are — all major Canadian, English, Commonwealth and U.S. law reports; and Canadian, major British and Commonwealth, and U.S. statutes. In addition some 1,600 serial publications are currently received annually to provide a wide coverage of current legal writing.

7. *The Law Centre.* The Faculty is housed in the Law Centre on the campus of The University of Alberta. It opened for occupation and use for the first time in the fall of 1971. This building contains the Law Library, the Faculty offices, and classrooms. It also provides accommodations for the Institute of Law Research and Reform (a body organized by The University of Alberta in conjunction and collaboration with the Law Society of Alberta and the Attorney-General of the Province), the International Ombudsman Institute (funded by the Alberta Law Foundation), the Canadian Institute for the Administration of Justice, the Alberta Law Review, Cannons of Construction (a student run newpaper), the administrative offices of Student Legal Services and the Law Club. As its name would suggest, it is designed to afford a centre for legal studies and research in the Province of Alberta for undergraduates, graduates, practitioners, judges, legislators, and law reform bodies.

8. *The Alberta Law Review.* Students in the Faculty have the opportunity and are encouraged to prepare and submit articles for inclusion in the Alberta Law Review. This is published several times annually under the auspices and control of an editorial board of students advised by members of the Faculty. It circulates widely among members of the profession and judges in Alberta, as well as among lawyers and universities in other parts of Canada and abroad.

9. *Prospective law students* are invited to consult the Admissions Secretary of the Faculty for advice as to admission. Inquiries on the selection of options, or any other academic problems may be directed to the Student Advisor. Inquiries may also be directed to the Associate Dean of Law. See § 102.1 for further details.

102 ADMISSIONS

102.1 General Admission Requirements

(a) The Faculty Committee on Admissions ("the Committee") will consider the candidates for admission to the Faculty of Law in the following categories:

(i) Resident Applicants;
(ii) Non-Resident Applicants;
(iii) Special Applicants.

It is the sole prerogative of the Committee to determine the category of the applicant. Accordingly, prospective applicants should carefully read the description set out below.

(b) In measuring academic potential the Admissions Committee shall rely primarily on the grade point average (the "GPA") of the last 60 credit hours leading towards an undergraduate degree and the performance on the Law School Admission Test (the "LSAT"). The GPA shall be given twice the weight of the LSAT.

(c) In assessing the academic record of the candidate more weight will generally be given to marks received during a complete and regular academic session than to a broken academic pattern.

(d) The Committee will not consider any year of study or course or courses which cannot be credited toward a degree, or toward a university diploma approved by the Committee.

(e) The Committee will consider only those courses completed prior to or in the Winter Session preceeding the September in which admission is being sought.

(f) *Admissibility will be decided on a competitive basis having regard to all factors available to the Committee. There can be no guarantee of admission.*

(g) *Law School Admission Test (LSAT)*

(i) The LSAT is compulsory for all applicants. Test scores will be used to supplement a candidate's pre-law academic record. No special preparation for the test is necessary since it is designed to test aptitude rather than knowledge of subject matter. Test centres have been established at The University of Alberta in Edmonton and at The University of Calgary as well as at most other Canadian university campuses. It is recommended that candidates take the test in the winter of the year immediately preceding the year in which they are seeking admission. An LSAT application blank and bulletin of information, containing complete information concerning the administration of the test, as well as some sample questions can be obtained by writing to the Faculty of Law to Law School Admission Test, Educational

Testing Service, Box 2000, Newton, Pennsylvania, 18940; or to, The Examinations and Timetabling Division, Office of the Registrar, University of Alberta, Edmonton, Alberta, T6G 2M7.

(ii) The Committee reserves the right to average scores in the event that the applicant has taken the LSAT on more than one occasion. Accordingly, candidates are cautioned not to sit the LSAT if they are ill.

(iii) At least one LSAT must have been written within the last five years prior to admission

(h) *English Language Proficiency*

English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take any one of several forms:

1. successful completion of the equivalent of three years of full-time instruction in an English language secondary institution in Canada;

2. presentation of a successfully completed full-year or more of course work, including an introductory course in English, in an accredited post-secondary institution where English is the language of instruction and from which advance credit is normally allowed by the University of Alberta;

3. successful completion of the equivalent of three years of full-time instruction in a school/institution outside Canada where academic subjects are taught by "English Language" instructors, as accredited by the International Institute of Education (I.I.E.), or as recognized by the University of Alberta;

4. successful completion of the equivalent of three years of full-time instruction in a school in Canada in which the major language of instruction is other than English but where the level of English proficiency required for graduation is equivalent to that in English language schools, as recognized by a provincial Department of Education; or

5. presentation of results of the Test of English as a Foreign Language (TOEFL) or its equivalent in other approved standard tests. Applicants presenting a TOEFL score of 600 (or its equivalent in other approved standard tests) will be considered as having demonstrated English language proficiency.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division, Office of the Registrar, Rm. 123, Administration Building, University of Alberta.

(i) *The decision of the Committee in any matter is final and there is no appeal from the Committee to any other body or person within the Faculty or the University.*

102.2 Resident Requirements

A resident is one who normally has resided in Alberta, the North West Territories or the Yukon for one year immediately preceding the 1st day of September in the year admission is sought. Any period during which the applicant was registered as a full-time student in a post-secondary institution shall be excluded either as a period of residence or as a break in continuity. An Albertan studying elsewhere may be considered a resident.

(a) To be considered for admission to the LL.B. program a candidate must normally have completed a degree recognized by The University of Alberta. (For this purpose successful completion of three years of a four year Bachelor of Arts program at a recognized Alberta university is acceptable.)

(b) In special circumstances the Committee will consider applications from Alberta residents without a degree who have completed not less than two years, or equivalent, of a full program of studies that would be accepted for credit towards a B.A. degree at a university in Alberta. To be considered for admission in this manner, a candidate must produce evidence of outstanding academic ability, i.e.:

(i) A minimum grade point average of 7.5 or its equivalent over the two years of study.

(ii) A minimum LSAT score of 600.

(iii) Subjects of a rigorous nature which afford a student an opportunity to develop his or her powers of analysis and his or her ability in written and oral communication. In determining whether a candidate is of outstanding academic ability for this purpose, regard will be paid by the Committee to the quality of the courses taken by the candidate as well as to his or her performance therein.

(iv) *Admission of any candidate is not guaranteed merely because the above requirements may be fulfilled.*

(c) The Committee shall consider and evaluate, in its sole discretion, the content and grades of the candidate's academic performance and may reject candidates whose general performance or course of study the Committee does not consider satisfactory.

Special interpretations may be made by the Committee where individual circumstances warrant.

102.3 Non-Resident Requirements

(a) A non-resident must possess an undergraduate degree recognized by The University of Alberta or the equivalent of a degree (i.e., candidates electing to pursue a four-year program may be entitled to a degree from their university after three years).

(b) The Faculty has a quota set by The University of Alberta being 10% of admissions for non-resident Canadians plus 5% for non-resident students regardless of origin, residence or citizenship.

(c) The Committee will not necessarily accept non-resident candidates whose performance is equal or below that of resident Albertans.

(d) Grades of all applicants from universities other than The University of Alberta will be converted, insofar as possible, to the 9 point scale in use at The University of Alberta, for the purpose of competitive evaluation.

(e) § 102.2(a) applies to all non-resident applicants (candidates require a completed degree recognized by The University of Alberta).

102.4 Special Categories

No applicant can elect to be placed in any category. Allocation to such category shall be the responsibility of the Committee.

(a) *Native Applicants*

(i) Special consideration will be given by the Committee to native applicants who have a minimum of two years leading towards a Bachelor of Arts degree or equivalent acceptable to a university in Alberta.

(ii) The Committee recommends the Program of Legal Studies for Native Students offered at The University of Saskatchewan.

(iii) The requirements as set out in § 102.2(a) or (b) i, ii and iii are not applicable to native applicants. (Applicants who fit into this category do not need a completed degree and those applicants in this category who are not Alberta residents will only be required to have two years or equivalent as described in the regulation. The minimum grade point average and LSAT scores are not applicable.)

A native applicant is one who:

a. has Indian status under The Indian Act (Canada), or

b. has Indian status under The B.N.A. Act, or

c. is of native ancestry in the opinion of the Committee but who does not have status as above.

(b) *Mature Students*

A mature student is one who is at least 30 years of age prior to the first day of September in the year admission is sought.

A mature student shall:

(i) have successfully completed at least two years of undergraduate work that would be accepted by the Faculty of Arts, at a university in Alberta, towards a Bachelor of Arts degree, or have obtained an undergraduate degree from a university recognized by The University of Alberta;

(ii) exhibit evidence of past achievements in non-academic areas indicative of comparable ability to compete in the studies in law school;

(iii) in the opinion of the Admissions Committee, have an above average chance of success in law school.

The requirements set out in § 102.2(b) i to iii and § 102.3(a) and (c) may be waived in the discretion of the Committee. (Non-resident mature students may not be required to have a completed degree but will be required to have the two years or equivalent towards a B.A. degree. The minimum grade point average and minimum LSAT scores are not required, however, the LSAT must be written. The candidate's course of study will not be given as great weight as their particular background and personal development.)

(c) *Exceptional Cases*

The Committee has the sole discretion to admit candidates who might not otherwise qualify.

The decisions of past Committees cannot and do not bind the present or any other Committee.

102.5 Application Procedure

Application for admission to the LL.B. program must be made on or before the 28th day of February of the year in which the applicant is seeking admission. The "Faculty of Law Application Form" may be obtained from the Office of the Registrar or from the Faculty of Law and must be completed and forwarded with the required supporting documents to the Office of the Registrar.

All applicants will be notified by letter in July regarding admission or non-admission. Successful applicants will be required to confirm their intention to register by submitting a non-refundable $50.00 deposit within the specified time of notification of acceptance. The deposit will be credited toward payment of tuition upon registration in September.

A small percentage of candidates may be admitted prior to July, if in the sole opinion of the Committee, they have shown outstanding performance in the work they have already undertaken. Such early admission may be made under such conditions as the Committee may stipulate. The Admissions Office will not accept telephone calls or correspondence in relation to eligibility for early admission. The Committee is not required to consider any applicant for early admission.

103 PROGRAMS OF STUDY

103.1 The Degree of LL.B.

(1) *Grading.* A final examination comprising 100 per cent of the grade will be held in each course in any year. However, exceptions to this rule may be made subject to the approval of the Dean. In cases in which an exception is made, a percentage of a grade in any course may be assigned by the instructor to examinations, performance in class, term papers, and other assignments. Early in the session, the instructor will announce to the class the basis on which grades are to be assigned.

(2) *Absence.* If a student has an unexcused absence from a term examination or an unexcused failure to submit a term paper or has failed to perform any other required assignment, the grade assigned to him/her for the term examination, term paper, or other required assignment shall be zero. However, in case of illness or other extreme circumstance, the student may be excused from writing the term examination or submitting the term paper or performing the required assignment. To be excused a student must present to his/her instructor an absence slip signed by the University Health Service, where illness is the cause, or by the Registrar, where the cause is other than illness. Where the excuse is accepted, the percentage weight allotted to the term examination, term paper, or required assignment will be added to the percentage weight allotted to the final examination. For regulations governing absence from a final examination see § 16.3.2 of the University Regulations and Information for Students' Calendar.

(3) *Marking.* Marking in the Faculty of Law is on a point scale. The word description of the nine grades is as follows:

9—outstanding	4—conditional pass
8—excellent	3—fail
7—very good	2—fail
6—good	1—fail
5—pass	

(4) *Promotion.*

(a) *Credit Hours.* To be eligible for the LL.B. Degree a student must have been in full-time attendance at the Faculty for three academic years. In each year of the three years, law students are required to take a pr

gram of required and optional courses totalling not less than 29 credit hours nor more than 31 credit hours (see § 104 below for required courses, optional courses and credit hours) and to accumulate a total of not less than 90 credit hours over the three academic years to qualify for the degree of Bachelor of Laws. The Dean or the Dean's delegate may permit a student to register for more than the prescribed maximum credits in an academic year. In extraordinary circumstances, the Dean or the Dean's delegate may permit a student not in first year to register for fewer than 29 credit hours. A student will not be permitted to spend in excess of a total of four years in the Faculty, save in exceptional circumstances. Students are required to pass each course attempted with a minimum grade of 4 before receiving credit for the course.

(b) (i) *Demerit System.* The Faculty operates under a demerit system. Under this system three demerit points are allotted for each conditional pass grade of 4 and four demerit points are allotted for each of the failing grades, of 3, 2, and 1 received by a student. The demerit points in each course are multiplied by the course weight (course weights are set out in § 104 below), the resulting figure being the course "demerits". The course demerits are totalled to arrive at the student's "demerits". Any student accumulating a total of 45 demerits or more in one academic year shall be required to withdraw from the Faculty of Law. Any student with an accumulation of less than 45 demerits shall receive credit for each course in which a passing or conditional pass grade was obtained and shall receive no credit in a course or courses in which a failing grade was obtained. Any compulsory course failed shall be repeated and any non-compulsory course failed may be repeated. A student who has completed three academic years of the Law Program as provided in subparagraph 4(a) but has failed to acquire the requisite 90 credit hours due to failures may enter into a fourth year during which he/she must take and pass sufficient courses to acquire the said 90 credit hours. A student will not be permitted to spend in excess of a total of 4 years in the Faculty, save in exceptional circumstances.

(ii) For students who entered the Faculty in the 1980/81 academic year, and subsequently the demerit system shall be abolished and a minimum grade point average of five (5) shall be restored as the minimum grade required for promotion for all years. A student obtaining less than a grade point average of 5 will be required to withdraw.

(5) *Supplementals.* No supplementals shall be granted to a student accumulating 45 demerits or more in an academic year. In a course where there is no final examination no supplemental examination can be granted. Subject to the aforesaid, a student who fails a course or courses but has accumulated less than 45 demerits in any one year shall be entitled to one supplemental examination in that year as of right. Supplemental examinations may be granted only in courses in which the weight assigned to a final examination under paragraph (1) hereof is 40% or higher and will be graded on a pass/fail basis.

For those students who entered the Faculty in the 1980-81 academic year, and subsequently, no supplementals shall be granted to a student obtaining less than a grade point average of five (5.0) in an academic year. In a course where there is no final examination no supplemental examination can be granted. Subject to the aforesaid, a student who fails a course or courses but has a grade point average of five (5.0) or better in any one year shall be entitled to one supplemental examination in that year as of right.

(6) *Appeals.* A student adversely affected by the regulations or their application shall have a right to appeal in accordance with the Faculty's Academic Appeals Procedure with a further right of appeal to the Academic Appeals Committee of General Faculties Council (See § 16.7 (Appeals and Grievances) of the University Regulations and Information for Students Calendar).

(7) *Viva voce examination.* All students seeking the degree of LL.B. may be required by the Faculty to pass a viva voce examination at the end of their last year. Such an examination would be of general character covering the work of the three years of the Law program.

103.2 Moot Courts

The Moot Court program is designed to give students experience both in preparation of the case for argument and in the presentation of such argument before an Appellate Court.

The students in first year are required to argue a moot case in their Second Term and to achieve a satisfactory standing in their presentation. They are judged by third year students, lawyers and Faculty members.

In the second year, students participate in a voluntary mooting program, the Edmonton Bar Moot Court Competition. These moots begin in the early fall and conclude in the spring with runoffs to select the best mooters of the year. Judges for this program are drawn from the Bench, the Profession and the Faculty.

The highlight of the mooting program is the Honourable Clinton J. Ford Moot Court Competition. Four of the students participating in the voluntary mooting program are selected to compete for the Honourable Clinton J. Ford Shield, a gift of the late Chief Justice and the highest award for mooting in the Faculty of Law at The University of Alberta. The competition is held in the late fall of the four finalists' final year of Law, with the competitors arguing in two teams, the winning team receiving the Shield. The competition is judged by a panel of three, representing the Bench, the Senior Bar and the Junior Bar.

103.3 Graduate Studies

103.3.1 THE POSTGRADUATE DIPLOMA IN LAW

(1) The Faculty of Law offers a program of graduate study leading to a Postgraduate Diploma in a specialized area of Law.

(2) Applicants for this program must hold the degree of LL.B. or its equivalent from this or some other university. They must have had a minimum of two years experience in the practice of law or in a related field. They must also meet the general requirements for admission to the Faculty of Graduate Studies and Research.

(3) All candidates for the Postgraduate Diploma must complete a minimum of three courses one of which must be a paper course and one of which must be a regularly scheduled course.

(4) Courses will normally be completed in one academic year. In special circumstances the Committee for Postgraduate Diplomas may permit an extension of this time but in no circumstances may the time exceed three years.

(5) Inquiries may be directed to the Chairman of the Postgraduate Diploma Program in the Faculty of Law.

103.3.2 THE LL.B.—M.B.A. DEGREE

(1) The Faculty of Law in cooperation with the Faculty of Business Administration and Commerce and the Faculty of Graduate Studies and Research offers a program leading to both a Bachelor of Laws (LL.B.) and a Master of Business Administration (M.B.A.) degree.

(2) Applicants must apply to both schools independently and be accepted by both schools independently, based upon each Faculty's usual admission criteria. Students currently enrolled in either the Faculty of Law or the Faculty of Business Administration may apply to the other school, and, if accepted, be considered for admission to the joint LL.B.—M.B.A. program.

(3) In the first two years of the program, candidates will take the regular first year program offered by both schools, with the sequence being at the student's option. The third year will consist of a mixed program in both faculties and the fourth year will be in the Faculty of Law.

(4) Upon the successful completion of the third year candidates will receive the M.B.A. degree. Upon the successful completion of the fourth year candidates will receive the LL.B. degree.

(5) Inquiries regarding the joint LL.B.—M.B.A. Degree Program may be directed to the Chairman of the LL.B.—M.B.A. Degree Program in either the Faculty of Law or the Faculty of Business Administration and Commerce or to the Dean of the Faculty of Graduate Studies and Research.

103.3.3 THE DEGREE OF LL.M.

(1) The Faculty of Law offers a program of graduate study leading to the degree of Master of Laws.

(2) Applicants for this program must hold the degree of LL.B. or its equivalent from this or some other University, of sufficient standard to satisfy the Dean of the Faculty that they will be capable of undertaking and profiting by the program. They must also meet the general requirements for admission to the Faculty of Graduate Studies and Research.

(3) All candidates for the degree of Master of Laws must complete at least one academic year, i.e., normally one academic session from September to May, in residence at the University. In special circumstances the Dean of the Faculty may prescribe some longer period, or may permit the required period of residence to be spread over two consecutive academic sessions.

(4) To obtain the degree of Master of Laws candidates must submit and defend a thesis on a topic selected by themselves, subject to the approval of the Dean, in addition to attending courses throughout two terms, the number and character of such courses to be determined in consultation with the Dean.

(5) A candidate may select courses from a broad spectrum of legal subjects offered in the Faculty of Law as well as relevant subjects in other faculties.

(6) Financial assistance, including remission of fees, travel grants for candidates from outside the Province of Alberta, and Intersession bursaries, may be available to suitably qualified candidates. Such assistance will involve candidates in the performance of certain teaching or research duties in the Faculty of Law, though such duties will not impede candidates in the pursuit of their own studies. In addition, The University of Alberta offers certain scholarships to candidates of sufficiently high academic merit.

(7) Inquiries regarding programs, courses and financial assistance other than University scholarships should be made to the Director of Graduate Studies of the Faculty of Law. Inquiries about University scholarships should be made to the Dean of the Faculty of Graduate Studies and Research.

103.3.4 GRADUATE COURSES

Graduate courses include those offered in the Faculty of Law and law related disciplines which have been selected by a candidate in consultation with the supervisor and which have the consent of the Dean.

104 DETAILS OF COURSES

104.1 General Information

In each year students will enrol in optional courses in the numbers and terms indicated. In admitting students to optional courses, consideration will be given to their preferences but allocations will be made in such a way as to avoid large classes.

In the following list, courses included in Law programs are grouped according to the year of the program in which they are to be taken.

Each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their registration forms.

Following the title of the course is the symbol "★", standing for "course weight", and a number indicating the weight of the course.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE FACULTY OF LAW.

104.2 First-Year Courses

An orientation program for first-year students wil occupy the whole of the first two weeks of First Term.

LAW 400. *Introduction to Law.* ★2 (First Term, 2-0-0). An intro duction to the legal system in Canada and the judicial pro cess. Emphasis will be placed upon a discussion of the doc trines of precedent and stare decisis and upon the rules an principles of statutory interpretation. In addition a portion c the course will be devoted to an examination of the technique utilized in legal research and legal writing.

LAW 410. *Contracts.* ★6 (3-0-0). A discussion of the prerequisites to the creation of contractual obligation: offer and acceptance, intention and certainty, consideration, the requirements of writing and capacity. The effect of misrepresentations and terms of the contract, together with the problems of exclusion clauses and of standard form contracts. Questions of discharge from contractual obligation on the grounds of mistake, undue influence, duress, unconscionable transactions and frustration. Remedies for breach of contract.

LAW 420. *Criminal Law and Procedure.* ★6 (3-0-0). A general introduction to the criminal law including pretrial procedures and practices; general substantive principles; criminal law and morality; trial procedure; double jeopardy; and sentencing.

LAW 430. *Torts.* ★6 (3-0-0). The law of negligence, damages, intentional interferences with persons, property and chattels, the law of strict liability, occupiers' liability, nuisance, defamation, the economic torts, the future of tort law.

LAW 435. *Constitutional Law and History.* ★4 (2-0-0). The nature of Canadian federalism under the British North America Act, basic principles of constitutional interpretation, and the division of legislative jurisdiction between Parliament and the legislatures. Emphasis is also placed upon the historic development of the Canadian institutional system.

LAW 440. *Real Property.* ★4 (2-0-0). The course involves a study of the basic principles of law which govern the institution of property in land and wealth derived from land. Rights incident to ownership and possession of land, tenures and estates, concurrent ownership, dower, leases and tenancies, easements, and restrictive covenants are examined. Historical antecedents are considered to the extent necessary to explain the modern law.

LAW 445. *Personal Property.* ★2 (First Term, 2-0-0). A study of the concept of possession as the central theme in the law of personal property. While emphasis will be placed on traditional areas of study such as acquiring title to wild animals, bailment, finder's law, and gifts inter vivos and mortis causa, a portion of the course will be devoted to the changing role of personal property in modern society.

104.3 Second and Third Year Courses

104.3.1 REQUIRED COURSES

A written work requirement is compulsory for each student in either the second or third year of the program. The paper must constitute at least 60% of the final grade in the course and a minimum grade of 5 must be obtained on the paper.

LAW 450. *Administrative Law.* ★4 (2-0-0). Designed to provide an understanding of the legal constraints courts have placed on the behaviour of administrative tribunals and government departments. *Topics to be discussed:* What is Administrative Law? How the courts supervise the acts and decisions of administrative bodies. Pitfalls to be avoided by administrative officers: errors of fact and law; excesses of discretion; breach of natural justice. How administrative acts and decisions may be attacked by an aggrieved citizen: remedies. Appeal and review, time limits, locus standi, choice of remedy, procedure. How to avoid attacks by aggrieved citizens. The practical outcome; strength of review. Recent trends in Administrative Law in Canada.

LAW 500. *Jurisprudence.* ★3 (either term, 3-0-0). An inquiry into the nature of law and legal obligation. The first part of the course is a survey of the major schools of Jurisprudence with particular emphasis upon positivism, natural law and legal realism. The second part consists of an examination of the modern applications of these theories, especially in relation to the process of judicial decision making and the question of whether there is an obligation to obey the law. Students who entered the Law Program prior to September 1978 will not be required to take LAW 500.

LAW 510. *Company Law.* ★4 (2-0-0). The law of partnerships, unincorporated associations, and limited liability companies. The incorporation of companies; relationships between the company and outsiders; and relationships of the members of the company within the corporate structure.

LAW 570. *Civil Procedure.* ★4 (2-0-0). The fundamentals of judicial procedure; the jurisdiction of courts, and the process of the courts. Clinical sessions. Rules of Court.

LAW 575. *Evidence.* ★4 (2-0-0). The adversary system in trial and appellate courts; relevance and admissibility; character evidence including similar facts; opinion evidence; the hearsay rule and its exceptions; illegally obtained evidence; judicial notice; burdens of proof and presumptions; quantum of proof; corroboration; competence, compellability and privilege; parole evidence of rule; oaths and affirmations.

LAW 600. *Conflict of Laws.* ★3 (either term, 3-0-0). Theoretical basis of conflict of laws. Preliminary Topics: characterization, renvoi, time element domicile. Choice of Law: domestic relations, contract, torts. Jurisdiction and the recognition of foreign judgments.

LAW 670. *Professional Responsibility.* ★2 (either term, 0-2s-0). A consideration of the responsibilities of the lawyer to his profession and the profession to the public. Ethics and organization of the profession.

104.3.2 OPTIONAL COURSES

In each term of second and third year a student load of course hours shall be a minimum of 14 and a maximum of 17. The total of course hours taken by a student in the second and third year shall amount to not less than 60. The Associate Dean of the Faculty of Law has discretion to make variations of this requirement in individual cases.

Under special circumstances, and subject to prior approval by the Associate Dean, a student may take optional courses in other Faculties of The University of Alberta only, for credit toward the degree of LL.B. Such courses will not exceed a total of three (3) credit hours in the entire LL.B. program and will be eligible as a substitute for optional courses in the Faculty of Law only if they are relevant to the discipline of Law.

Students shall select the balance of their course hours from among the following courses.

NOTE: Without some of these subjects e.g., LAW 540 (Land Titles), a student may have difficulty obtaining articles after graduation.

LAW 460. *Taxation.* ★4 (2-0-0). The scope and purpose of taxation. The taxing power; tax appeal procedures; constitutional problem. Personal jurisdiction. Property jurisdiction. Income from a business; statutory interpretation, deductions, expenses. Gift tax.

LAW 465. *International Law.* ★3 (First Term,3-0-0). The major objective of the course is to provide an overview of the basic machinery through which international law operates together with a review of principles which regulate the conduct of nations in their connections with one another. Topics to be covered include: definition, nature and sources of international law and their application in Canadian courts; international personality; state jurisdiction; nationality and individuals; the law of treaties; State responsibility and international claims; and pacific settlement of international disputes.

LAW 470. *Advocacy.* ★2 (either term, 2-0-0). The conduct of civil litigation including: interviewing and counselling, drafting pleadings, examinations for discovery, settlement attempts, preparation for court and participation in a mock trial. Emphasis on ethics and techniques of persuasion. Advocacy before tribunals and boards. Prerequisite: Completion of one of LAW 570 and 575 and enrolment in the other during the year in which Advocacy is being studied. LAW 570 and 575 may both be corequisites in second term.

LAW 480. *Equity.* ★2 (either term, 2-0-0). Historical introduction. Nature of equitable rights. Bona fide purchaser for value without notice *Qui Prior est tempore potior est jure*, and the rule in *Dearle* v. *Hall;* doctrines of conversion, election, performance, ademption, and satisfaction. Mistake, misrepresentation, fraud, and specific performance. Injunction, rectification, cancellation, account and receivership.

LAW 485. *Family Law.* ★3 (either term, 3-0-0). The formation and annulment of marriage; various matrimonial remedies; judicial separation; alimony; loss of consortium; divorce; ground and procedure; custody of children; financial obligations and property rights between spouses.

LAW 495. *Research Paper.* ★2 (either term, 2-0-0). This program will give selected second year students an opportunity to engage in original research. The research topic is subject to prior approval of a Faculty member who shall direct the students and the Associate Dean.

LAW 499. *Seminars on Specialized Legal Topics.* ★2 (either term, 0-2s-0). These seminars will cover a specialized topic of emerging importance in the law. The particular topic covered would vary dependent on the availability of Faculty with necessary teaching competence, student interest, and the needs of the legal profession.

LAW 505. *Legal History.* ★2 (Second Term, 2-0-0). An introduction to the historical development of law, from early times to the present day. Note: Students who have taken this course in first year must choose one of the other optional courses listed in this section.

LAW 512. *Trade Regulation.* ★2 (either term, 2-0-0). A study of the law regulating competition and anticompetitive business practices. While the common law restraint of trade doctrine is studied, the major part of the course is devoted to a study of those business practices prohibited or regulated by the Combines Investigation Act: price fixing, bid-rigging, price leadership, data dissemination agreements, resale price maintenance, price discrimination, predatory pricing, mergers and monopolization, refusal to deal, exclusive dealing, tied selling, market restrictions, and consignment selling. The legislation is studied with a view to analyzing its effectiveness in terms of competition policy. There is a comparative look at American antitrust law.

LAW 513. *Agency.* ★2 (Second Term, 2-0-0). The relationship of Principal and Agent. Capacity of parties. Appointment of agents. Married women as agents of their husbands. Delegation. Agents binding their principals; actual authority; ostensible authority and holding out; ratification. Undisclosed principals. Duties of agent to principal. Duties of principal to agent. Determination of agency.

LAW 515. *Commercial Law.* ★4 (2-0-0). The law of the sale of goods: nature of contract of sale, conditions and warranties implied by the Sale of Goods Act, passing of property and risk, documentary sales transactions, remedies of the buyer and the seller, circumstances under which a seller can pass a better title than he has. Credit and security transactions: assignment of book debts, chattel mortgages, and conditional sales contracts. Emphasis is placed on a study of the registration systems for security interests and special problems arising therefrom.

LAW 516. *Negotiable Instruments and Banking Securities.* ★2 (either term, 2-0-0). Law of Negotiable Instruments; Assignment of Choses in Action (including Assignment of Book Debts as a security device); unique banking securities; principal and surety.

LAW 517. *Creditors Rights.* ★3 (either term, 3-0-0). A general view of creditors rights and remedies, through: (1) Individual action, including attachment, garnishee, writs of execution, equitable execution, removal and sale, priorities of creditors, exemptions, and fraudulent conveyances and preferences, and (2) Collective action, including composition and extension agreements, provincial insolvency law, and bankruptcy.

LAW 518. *Intellectual Property.* ★2 (either term, 2-0-0). A study of the Law with respect to patents, trade marks, trade secrets, copyrights and intangible property generally.

LAW 519. *Insurance Law.* ★3 (either term, 3-0-0). General principles affecting insurance contracts including good faith, indemnity, subrogation, and insurable interest; particular problems arising out of the Alberta Insurance Act in relation to automobile, life and fire insurance.

LAW 520.*Criminal Trial Procedure and Advocacy.* ★2 (either term, 2-0-0). Practical aspects of criminal trial procedure and advocacy. Topics include: legal ethics; information and indictments; arrest and detention; judicial interim release; election and pleas; preliminary hearings; summary conviction appeals, jury trials; extraordinary remedies; miscellaneous problems in advocacy.

LAW 525. *Criminology.* ★3 (Second Term, 3-0-0). Sociological, biological and psychological causes of crime and, especially, the practical administration of the penal system in Alberta. Topics include police discretion, Indians and Metis, women, the practice of sentencing, juvenile delinquency and institutions, probation, adult correctional institutions, sociology of prisons, habitual prisoners, "psychopaths," therapeutic communities and group counselling, parole, social consequences of conviction and addiction treatment. The course include visitors and visits to institutions.

LAW 527. *Law and Psychiatry.* ★2 (Second Term, 2-0-0). T scope of psychiatry; classification and identification specific psychiatric problems, with special reference to t legal, ethical and social implications of psychiatric illness a the practice of psychiatry; the way in which the study of ps chiatry can be utilized in the practice of law.

LAW 531. *Law and Medicine.* ★2 (First Term, 2-0-0). Selecte topics pertinent to law and medicine with an emphasis on th practical implications of the law for the medical professi and the effect of changes in medical practice and institutio on the law. Problems will be examined with assistance fr professionals working in the relevant areas and recommend tions for law reform will be sought.

LAW 536. *Civil Liberties.* ★3 (Second Term, 3-0-0). Characte zation and classification of the civil liberties; protection of c liberties at common law; protection of civil liberties in the a ministrative process (for example, rules of natural justic protection afforded under the British North America A (implied Bill of Rights; special provisions respecti non-secular education, etc.; protection afforded through t constitutional division of powers); statutory provisions relati to equal protection and due process (Canada and Alberta B of Rights); anti-discrimination legislation (The Individua Rights Protection Act; proposal for a national human rig act); the institution of Ombudsman; the freedom of inform tion.

LAW 540. *Land Titles.* ★3 (either term, 3-0-0). A detailed stu of the Alberta Land Titles Act consisting of an analysis of t Common Law and Registry Systems of Conveyanci Introduction to the Torrens System of Land Titles; T Principles of Indefeasibility; Exceptions to Indefeasibil Boundary Problems; Caveats; Registrable Instrumen Miscellaneous Title Problems; The Assurance Fu Limitations of Actions.

LAW 543. *Basic Oil and Gas Law.* ★2 (First Term, 2-0-0). T origin, occurrence, and production of oil and gas; the nature interests in oil and gas; the acquisition and disposition interests in oil and gas; the rights and duties of parties un oil and gas leases; pooling of oil and gas interests; acquisit of surface leases and pipeline easements.

LAW 550. *Local Government Law.* ★2 (either term, 2-0-0). An amination of the theory, structure, organization and operat of the various types of municipal government units in ex ence in Alberta. Particular emphasis will be given to disqua cation of elected officers, powers of municipal governm units, attacking by-laws, legal proceedings as they relate municipal government units, and expropriation. Other ar are considered as time permits.

LAW 552. *Natural Resources Law.* ★2 (either term, 2-0-0). judicial, legislative, administrative and policy problems lated to the regulation and management of natural resourc including problems of allocation, development, use, pollu control, and conservation. Particular emphasis is placed water resources.

LAW 555. *Labor Law.* ★3 (either term, 3-0-0). Legal proble concerning the establishment of collective bargaining; nego ation and enforcement of the collective agreement; the ac ities of the union and employers in industrial disputes; and internal affairs of labor organizations.

LAW 556. *Labour Arbitration.* The law and practice relatin interest and rights arbitrations in Alberta. The course wil taught partly as a seminar and partly through a series of m arbitrations in which students will act as counsel.

Organizational models for the deliveri legal services will be considered together with a treatmen the theory of equality, the problem of accessibility to "claims process" and alternative methods of disp settlement. The character of the law concerning the poor w be analyzed as reflected in selected case studies in welf law, public housing policy, workmen's compensation and employment insurance.

LAW 560. *Corporate Taxation.* ★3 (either term, 3-0-0). The consequences of corporation financing; amalgamati mergers, international business transactions; tax plan from a corporation and personal standpoint; and trends in ation. Prerequisite: LAW 460.

LAW 565. *International Business Transactions.* ★2 (Second Term, 2-0-0). The purpose of the course is to study the legal issues and implications arising out of Canada's International trade and transnational activities of private capital both Canadian and foreign. 1. The Legal Basis of International Trade: A study of the General Agreement on Tariffs and Trade (G.A.T.T.) system and subsequent multilateral trade negotiations. 2. Regional Trade and Economic Organizations. 3. Legal Barriers to Private Investment Abroad.

LAW 580. *Trusts.* ★3 (either term, 3-0-0). A brief survey of the historical development of the trust. Definition and classification of Trusts. Creation of express trust — the three certainties. Completely and incompletely constituted trusts. Secret, protective, discretionary and illusory trusts. Charitable trust and the rule against perpetuities. Cy-pres doctrine. Non-charitable purpose trusts. Implied or resulting trusts. Constructive trusts. Revocation, termination and variation of trusts. The appointment, retirement and removal of trustees. Duties, discretion and powers of trustees. Breach of trust.

LAW 582. *Wills and Administration.* ★3 (either term, 3-0-0). Principles of the Wills Act, including formalities of execution, revocation, revival, republication, types of legacies, and principles of construction. Testamentary capacity, fraud, and undue influence. Drafting of wills. Appointment of executors and administrators, their powers and duties; probate practice.

LAW 585. *Women and the Law.* ★2 (either term, 2-0-0). This course will start with a historical evaluation of how the law has particularly affected women and continue to an in-depth analysis of the present day situation in Canada and particularly Alberta. Topics to be covered will include discriminatory laws — express and de facto; the criminal law — substantive law and penal reform; domestic relations — protection of consortium, inter spousal actions, marriage contracts, property laws, rights in common law unions, affiliation proceedings; anti-discrimination laws; labor law and affirmative action programs. A comparative analysis will be stressed throughout. It is preferable if a student has taken Family Law.

LAW 586. *Children and the Law.* This course will include a review of the case law and legislation in the areas of neglect, guardianship, custody, adoption, juvenile delinquency and legal capacity.

LAW 595. *Research Paper.* ★2 (either term, 2-0-0). This program will give selected third year students an opportunity to engage in original research. The research topic is subject to prior approval of the Associate Dean and the Faculty Supervisor. The research topic shall be different from that used in LAW 495 and have a different Faculty Supervisor.

LAW 599. *Seminars on Specialized Legal Topics.* ★2 (either term, 0-2s-0). These seminars will cover a specialized topic of emerging importance in the law at a senior level. The particular topic covered would vary dependent on the availability of Faculty with necessary teaching competence, student interest, and the needs of the legal profession.

LAW 605. *Comparative Law.* ★2 (either term, 2-0-0). A comparsion of civil law and common law systems, with the Quebec example serving as the focal point for discussion and examination. The seminar concerns itself with particular illustrations from which to draw general conclusions. Its object is to broaden the common law horizon by providing an insight into the workings of the civil law.

LAW 611. *Corporate Finance.* ★2 (either term, 2-0-0). The financing of companies (with special reference to Alberta private companies). An analysis of share structure. Methods of raising funds and security therefor, including mortgages and debentures. Enforcement of security. Shareholder agreements and the minority shareholder. Purchase and sale of shares and corporate assets. Distributions to shareholders. Prerequisite: LAW 510.

LAW 612. *Securities Regulation.* The course will study the basic technique of regulating the trading of securities. It will briefly consider the history and evolution of securities legislation as a base for examining the concept of the public underwriting, the roles and responsibilities of the parties in the underwriting and its place in the capital market structure. A combination of lecture and class discussion will require student preparation for each session.

LAW 615. *Advanced Commercial Law.* ★2 (Second Term, 2-0-0). Selected topics in Commercial Law. Prerequisite: LAW 515.

LAW 620. *Advanced Criminal Law.* ★2 (Second Term, 2-0-0). The course comprises an examination of substantive criminal law particularly: offences against the person and rights of property; the jury system; juvenile justice and quasi-criminal proceedings; and, the extraordinary remedies.

LAW 625. *Seminar in Criminal Justice Administration.* ★4 (0-2s-0).

LAW 630. *Advanced Torts.* ★2 (either term, 2-0-0). An analysis of, and problems in, the Law of Torts.

LAW 635. *Advanced Constitutional Law.* This course will be conducted on a seminar basis and will examine particular problems in Canadian federalism of contemporary significance.

LAW 637. *Seminar in Advance Problems in Constitutional Law.* ★4 (0-2s-0).

LAW 640. *Real Estate Transactions.* ★3 (either term, 3-0-0). The law governing agreements for sale of land; the open contract of sale, implied terms, special covenants in agreements for sale. Remedies of vendors and purchasers; election of remedies; cancellation and determination clauses. Deposits and instalments. Mortgages: legal, equitable and statutory. Foreclosure; sales; redemption; possession and attornment. Prerequisite: LAW 540.

LAW 643. *Advanced Petroleum Law.* ★2 (either term, 2-0-0). The acquisition of Petroleum Interests from the Crown; the terms of operating and developing agreements; conservation legislation and practices including unitization and prorationing; the regulation of the natural gas industry; the pipeline and marketing of petroleum products. Prerequisite: LAW 543.

LAW 644. *Seminar in Comparative Petroleum Legislation.* ★4 (0-2s-0).

LAW 650. *Land Use Planning Law.* ★2 (either term, 2-0-0). Discussion centres around the theory of land use planning and its present and future prospects as a means of insuring the quality of man's environment. The structure, organization and operation of the various planning agencies, planning techniques such as the general plan, zoning, development control and subdivision control and the lawyer's role in the planning process are considered. Hypothetical development projects are put forward for solution which take the student through the various stages of a project from obtaining the necessary approval from the planning authorities through financing of the project to its completion.

LAW 660. *Estate Planning.* ★2 (either term, 2-0-0). A review of the objectives of estate planning; study of various estate planning techniques with the use of hypothetical problems; an examination of provisions found in the Income Tax Act which affect estate planning, estate tax, and gift tax. Prerequisites: LAW 460, LAW 510, LAW 580, and LAW 582.

LAW 665. *International Law Problems.* ★2 (either term, 2-0-0). A research seminar dealing in depth with a problem in international law (the specific topic will be announced each year). Designed to train students in the use and evaluation of international legal materials. A paper will be required

LAW 680. *Restitution and Remedies.* ★3 (either term, 3-0-0). A study of the development and application of the idea of unjust enrichment and the circumstances in which a remedy is available irrespective of an action in tort or contract. This includes quasi-contractual recovery, tracing, and the use of the constructive trust.

LAW 685. *Problems in Family Law.* ★2 (either term, 2-0-0). Selected topics and problems relating to Domestic Relations including the Family, Juvenile Delinquency, in-depth analysis of Divorce, Women and the Law. Prerequisite: LAW 485.

LAW 695. *Research Paper.* ★2 (either term, 2-0-0). This program will give selected graduate students an opportunity to engage in original research. The research topic is subject to prior approval of the Faculty supervisor and the chairman of the Graduate Studies Committee. The research topic shall be different from the thesis topic.

LAW 699. *Seminars on Specialized Legal Topics.* ★2 (either term, 0-2s-0). Graduate Level. These seminars will cover a specialized topic of emerging importance in the law. The particular topic covered would vary dependent on the availability of Faculty with necessary teaching competence, student interest, and the needs of the legal profession.

INT D 468. *Principles of International Humanitarian Law. Course to be administered by the Department of Political Science — "The historical background and humanitarian intervention; human rights; the law of war; international criminal law."*

104.4 *Graduate Courses*

At the discretion of the Graduate Students Committee or the Postgraduate Diploma in Law Committee, any Law course (at the 400 level or above) may be considered a graduate course.

104.5 *Non-LL.B. Courses*

The following courses, normally offered in Spring and/or Summer Session, are available to students in other faculties. They will not be considered for credit in the LL.B. program.

LAW 300. *Law for Non-LL.B. Students I.* ★3. The nature, functions, and sources of law; an outline and components of the Canadian legal system. Note: Not available for credit in the LL.B. Program.

LAW 301. *Law for Non-LL.B. Students II.* ★3 Topics to be covered will be chosen from among the following: Morality, Obscenity and the Law; Industrial Relations; the Law and the Family; the Law as a Protector; Freedoms allowed under the Legal System; the Law and the Environment. Prerequisite: Normally, LAW 300 would be a prerequisite but this requirement may be waived at the discretion of the instructor. Note: Not available for credit in the LL.B. program.

LAW 302. *Law for Education Students I.* ★3. A thirty hour course involving introduction to the sources of law, legal history, the legal system and the role of law. A substantive area of law would be studied in depth to illustrate these matters more clearly. Topics covered would include — What is Law, Sources of Law, Origins of Law, i.e., the development of the common law and its reception to Canada, The Canadian Legal System, The Relationship of Law and Society. Note: Not available for credit in the LL.B. Program.

LAW 303. *Law for Education Students II.* ★3. A course of thirty hours which would involve an examination of several substantive areas in law both to give the student a better understanding of the legal system and to enable the student better to teach law in the high school. Normally, LAW 302 would be a prerequisite for LAW 303 but this requirement could be waived at the discretion of the instructor. Note: Not available for credit in the LL.B. Program.

LAW 304. *Law for Education Students III.* ★3. A self-study course of thirty hours involving the preparation of a paper under the supervision of a member of the Faculty of Law. Prerequisite: Normally LAW 303, but may be waived at the discretion of the instructor. Note: Not available for credit in the LL.B. program.

Faculty of Library Science

111 INTRODUCTORY

111.1 Members of the Faculty of Library Science

111.1.1 STAFF

Professor and Dean
W. J. KURMEY, B.Sc., A.M.(L.S.)

Professors
R. E. BRUNDIN, A.B., M.J., M.L.S., Ph.D.
M. E. P. HENDERSON, B.L.S., M.A., LL.D.
J. G. WRIGHT, B.Ed., M.S.
S. E. WRIGHT, B.A., M.L.

Associate Professors
S. K. BERTRAM, B.Sc., B.L.S., M.S., Ph.D.
A. NITECKI, M.A.
G. M. STRATHERN, B.A., Dip., N.Z.L.S., A.N.Z.L.A.

Adjunct Associate Professor (University Archivist)
J. PARKER, B.A., M.A.

Assistant Professors
C. de SCOSSA, B.A., B.L.S., M.L.S.
R. INSKIP, B.A., M.L.S.

Lecturer
J. HENRY, B.Ed., M.A.

111.1.2 ADDITIONAL MEMBERS OF THE FACULTY COUNCIL

President and Vice-Chancellor
M. HOROWITZ, Ed.D.

Professors
D. H. BENT, B.Sc., M.Sc., Ph.D. (Computing Services)
L. G. WIEDRICK, B.A., B.L.S., B.Ed., M.S., Ed.D. (Education)

Associate Professor
D. CULLEN, B.A., M.S., Ph.D. (Business Administration and Commerce)

Librarian to the University
B. B. PEEL, M.A., B.L.S.

Librarian in Music
J. WHITTLE, B.Sc., B.Mus., B.L.S.

Provincial Archivist
A. RIDGE, B.A., Dipl. in Archives Administration, Certified Records Manager (ARMA)

Representatives
E. HUMPHREY, B.A., B.L.S. (Library Association of Alberta)

G. RAY, B.A., A.L.A. (Saskatchewan Library Association)

Registrar of the University

111.2 General Information

111.2.1 HISTORICAL NOTE

The Faculty of Library Science, the only professional library school in the prairie provinces, offers the Master of Library Science Degree.

The first classes in a Bachelor of Library Science program began in 1968. In 1970 the B.L.S. program was accredited by the Committee on Accreditation of the American Library Association and was thus recognized by the American and Canadian Library Associations as meeting library education standards.

In 1971 the Faculty initiated a Master of Library Science program for which the B.L.S. program was the qualifying year. In 1976, in keeping with the Canadian pattern of education for librarianship, the B.L.S. was discontinued, and the present two-year M.L.S. program was instituted.

As the first professional degree, the M.L.S. represents a program designed to develop the knowledge, understanding, attitudes, and skills that will prepare graduates for positions of responsibility in school, public, academic, and special libraries. The M.L.S. program was accredited by the American Library Association in January, 1979.

111.2.2 GOALS AND OBJECTIVES

The general goal of the Faculty is to provide learning experiences that will assist its graduates to assume responsibility and leadership in meeting the information needs of a changing society. The Faculty acknowledges its responsibility to provide such experiences based upon a continuous exploration of library functions and services, and its responsibility to undertake the necessary planning and research. These responsibilities include provision for the continuing education needs of practising librarians.

The specific objectives of the M.L.S. degree program are:

(a) To provide a theoretical and methodological base which will enable students to analyze problems, design solutions, and adapt library principles to changing social conditions;
(b) To prepare students to select, organize, and disseminate information, and to develop and administer programs of service in the light of changing public needs and demands;
(c) To prepare students for professional positions in librarianship and cognate fields.

111.2.3 STUDENT ORGANIZATIONS

There is an organization for all students enrolled in the Faculty of Library Science. Students elect their own officers, with the presiding officer representing them at

meetings of the Faculty Council. The organization provides liaison between students and faculty and encourages participation in a variety of academic, professional and extracurricular activities.

In addition to the regular student organization, there is an official University of Alberta Student Chapter of the American Society for Information Science (ASIS), which was founded by students in the Faculty of Library Science. The Chapter, which was chartered by the ASIS Council in May 1977, serves interested students in the Greater Edmonton area and provides special programs relating to modern methods of information processing such as computer-based procedures and reprographic techniques.

111.2.4 LABORATORY-LIBRARY

The Faculty of Library Science maintains a laboratory-library which provides, in addition to library space, facilities for group and individual work and study. The collection, designed to supplement that of the University Libraries, includes some 10,000 volumes and a full range of audiovisual materials. The collection is composed of standard library and information science, sample reference and selection tools, periodicals, annual reports, and materials for children and young people.

111.2.5 UNIVERSITY LIBRARIES

The libraries of The University of Alberta contain more than 2,000,000 volumes, 500,000 documents, 15,000 periodical subscriptions, audiovisual aids and a large collection of research materials in microform.

The Humanities and Social Sciences Library is located in the Rutherford Library complex with some units in the Cameron Library. The main book collection and the union catalogue for the campus are located in Rutherford Library North. Here also, on the second floor, are the Reference and the Circulation Services. The Periodicals Reading Room, located on the 2nd floor of Rutherford South, contains current issues of periodicals in the humanities and social sciences plus recent issues of Canadian and foreign newspapers. Bound periodicals are located on the second floor and tiers 4, 5 and 6 of Rutherford South.

In the Cameron Library the Humanities and Social Sciences collections include Government Publications on the third floor and the Micromaterials Reading Rooms in the basement. The Cameron basement also houses Special Collections, Interlibrary Loan service, and Duplicating Services.

In the Cameron Library, the Undergraduate Library on the second floor contains an open shelf collection specially selected to meet the needs of undergraduates during their first two years of study. The Reserve Reading Room on the first floor houses books which are assigned by the instructors as required reading in the arts and sciences.

The Science Library occupies part of the third and the fourth floor of the Cameron Library, and contains material for use in the fields of agriculture, engineering, science, home economics and other related subjects. The head of this Library is also responsible for two small branch libraries in related fields; the Mathematics Library located in the Central Academic Building, and the Physical Sciences Library in the Physics-Chemistry Building.

The Health Sciences Library on the fifth floor of the Cameron Library houses books and periodicals in the fields of medicine, dentistry, nursing, pharmacy, rehabilitation medicine and health services administration. This Library operates one branch, the John W. Scott Library, at the University Hospital which may be used by all recognized University Library patrons, but is mainly for use by the faculty and house staff at the hospital.

The Weir Memorial Law Library is housed in the Law Centre located on 111th Street. The Law Library contains reports, statutes, digests, encyclopaedias, treaties for Canada, the provinces, Great Britain and many of the other Commonwealth countries. United States' materials include the National Reporter system, the American Digest, Shepards Citator, annotated state codes, federal statutes and regulations. Over 1,200 periodicals are received with complete files of the major periodicals. Special subject collections are being established in: Oil and Gas Taxation, International Law and Comparative Law.

The other major library on the campus is the Herbert T. Coutts (Education) Library which occupies the three-storey east wing of the Education Building. Circulation and reference services as well as a card catalogue of the Library's holdings are maintained here. The head of this Library also supervises the Curriculum Materials Library on the lower floor of the building.

111.2.6 FACULTY COMPUTING FACILITIES

The Faculty of Library Science has three computer terminals of its own; two print terminals (one stationary, the other portable) and a CRT terminal. All operate at 30 characters per second through acoustic coupler and standard voice-grade telephone lines. They are available to faculty members and students for instruction, research, and demonstrations, both with the University's computing facilities and also with external data bases. Access is provided to such external services as those of Lockheed, Infomart (SDC), OCLC, CAN-OLE, and others.

111.2.7 UNIVERSITY COMPUTING SERVICES

The Department of Computing Services, located in the General Services Building, is maintained by The University of Alberta as a service facility for the faculty, research staff and students at the University. It provides and operates a computing system that attempts to meet the needs of education and research groups in the University and in the community. Users of Computing Services are required to adhere to the "Conditions of Use" policy. Administrative data processing for the University is done by the office of Administrative Systems (OAS).

Computing Services operates an Amdahl 470V/6 computer with 8 million bytes of memory, under the Michigan Terminal System (more commonly known as MTS). Over 500 computer terminals located in departments across campus provide remote access.

At the central location there are also card readers for batch input, printers (including a Braille printing facility), drums, tape drives, disk drives and a comprehensive telecommunications sub-system. Other facilities include a digitizer, an optical mark scorer, an incremental plotter, an interactive graphics display, an electrostatic printer/plotter, a paper tape reader/punch and numerous keypunches and terminals for the use of staff and students. The Department also provides services such as keypunching, text and data entry, contract programming, debugging and consulting, remote terminal maintenance and support, systems development and maintenance, an applications program library, a fast batch facility and tape storage. Non-credit courses and seminars are offered and user documentation is provided.

112.1 Classification of Students

112.1.1 GENERAL CLASSICATION OF GRADUATE STUDENTS

Graduate students at The University of Alberta are classified in one of the following six categories:

(1) *Qualifying graduate student.* A student who holds a three year bachelor's degree from The University of Alberta, or a similar qualification from some other institution, may be admitted as a qualifying graduate student. A graduate of a four-year program entering a completely new field may also be admitted as a qualifying graduate student. On satisfactorily completing a qualifying year in the department, a student may be reclassified as a probationary graduate student or as a candidate for a master's degree.

(2) *Probationary graduate student.* Such a student is one whose academic record is either (i) difficult to assess, as in the case of some foreign students, or (ii) below the standard normally required. After the completion of one academic year, probationary graduate students who have proved their competence to the satisfaction of their department and the Faculty may be accepted as a candidate for a master's degree or a provisional candidate for a doctor's degree. If accepted then on the recommendation of the department, they may have courses completed during their probationary year credited towards the requirements for a degree. Each such application will be considered on its merits.

(3) *Candidate for a master's degree (Category A).* Such a student is one who is a graduate of a 4-year degree program continuing in the same field (equivalent of an honors degree or degree with specialization of The University of Alberta). (See § 15.2.10 of the Faculty of Graduate Studies and Research Calendar.)

(4) *Candidate for a master's degree (Category B).* Such a student is one who is a graduate of a 4-year degree program (beyond senior matriculation), specializing for the first time but not requiring a qualifying year. (See § 15.2.10 of the Faculty of Graduate Studies and Research Calendar.)

(5) *Special graduate student.* Such a student is one who is in every respect eligible for admission to the Faculty and who, though not registered in a degree program at this University, takes one or more *graduate* courses, with the permission of the department concerned.

(6) *Exchange graduate student.* Such a student is a bona fide student of another university or college who has been permitted to take one or more courses for transfer of credit to his/her own institution which has agreed in advance to such an arrangement.

112.1.2 CLASSIFICATION OF LIBRARY SCIENCE STUDENTS

Students admitted to the first year of studies in library science are classified as qualifying graduate students. Upon completion of the first year of work students will be reclassified as either probationary graduate students or as candidates for a master's degree (Category A).

Students admitted to the program who already hold the B.L.S. degree, are classified as either probationary graduate students or as candidates for a Master's degree (category A).

112.1.3 APPLICANTS WITH THE B.L.S. DEGREE

Applicants with a B.L.S. degree from an accredited library school or its equivalent, and an academic record acceptable to the Faculty of Graduate Studies and Research and the Faculty of Library Science will normally be admitted as Candidates for the M.L.S. degree and should be able to complete the required work in one year.

Students who cannot enroll in at least three half-courses per term (full-time attendance), and whose employment relates directly to their academic studies, may petition the Faculty of Graduate Studies and Research to have the normal residency requirement waived. Petitions should be made through the Dean of the Faculty of Library Science.

112.2 Admission

112.2.1 ADMISSION REQUIREMENTS FOR M.L.S. PROGRAM

(1) The applicant must have a Bachelor's degree from a recognized institution of higher learning, with academic standing acceptable to the Faculty of Graduate Studies and Research and the Faculty of Library Science. In some instances the University is prepared to admit students who have achieved high scores on the Graduate Record Examination Aptitude Tests.

(2) In preparing for a Master of Library Science degree program, students are advised to include courses distributed among the social sciences, biological and physical sciences, literature and other areas of the humanities, and also to major in one of these subjects.

(3) A reading knowledge of a modern language other than English is advisable. Reading knowledge is assumed if a student has completed French 200, German 200, Russian 300, or, at an equivalent level, any other modern language acceptable to the Faculty of Library Science. French, German, and Russian are particularly useful in bibliographic work.

(4) All applicants with degrees from other countries must take the Graduate Record Examination Aptitude Tests administered by the Educational Testing Service (see 3 below). Students should arrange for the testing agency to report results to the Faculty of Library Science, which will judge whether or not the results are satisfactory.

(5) Preference is given to applicants who have had library experience under professional supervision before registration. Such experience tests a candidate's aptitude for library work and gives some knowledge of library terminology and processes.

(6) Applicants are judged not only upon their academic record but also by their professional promise as indicated in three letters of reference. A personal interview, arranged at a time and place convenient to the applicant, may also be required.

(7) Since there is a quota on the number of students in the Faculty of Library Science, The University of Alberta cannot guarantee admission to the Faculty for all fully qualified applicants.

112.2.2 GENERAL ADMISSION REQUIREMENTS FOR THE FACULTY OF GRADUATE STUDIES AND RESEARCH

The requirements for admission as a graduate student are:

(1) A baccalaureate degree, with a grade point average of at least 6.0 in the work of the last two undergraduate years at The University of Alberta, or an equivalent qualification from another institution, and

(2) A statement from the chairman of the department concerned to the effect that the applicant is, in all respects, acceptable to the department. A special graduate student or an exchange graduate student, however, not being a candidate for a degree, does not require departmental recommendation.

(3) All *non-Canadians* for whom English is not the major language (a) first *must* write and pass satisfactorily either the Michigan English Language Examination (The Director Testing and Certification Division, English Language Institute The University of Michigan, Ann Arbor, Michigan 48104, U.S.A.) or the Test of English as a Foreign Language (TOEFL, Educational Testing Service, Princeton, New Jersey 08540, U.S.A.) before formal admission can be given, and (b) in addition, if formally admitted must arrive on campus and write, *one week before registration,* an English Language Examination set and administered by The University of Alberta. Students whose performance is unsatisfactory in this English Examination will be allowed to continue their graduate work, but may be required to take English language instruction as part of their regular program.

112.2.3 APPLICANTS WITH A GRADUATE DIPLOMA IN SCHOOL LIBRARIES

Applicants admitted with a Graduate Diploma in School Libraries from the Faculty of Education with standing acceptable to the Faculty of Graduate Studies and Research and to the Faculty of Library Science, may be granted advanced standing towards an M.L.S. degree.

112.2.4 APPLICATION FOR ADMISSION

Application for admission must be submitted on forms supplied by the Dean of the Faculty of Graduate Studies and Research. No assurance can be given that applications received after August 15 (for First Term, Winter Session), November 15 (for Second Term, Winter Session), March 1 (for Spring Session) or April 2 (for the Summer Session) can be processed in time to permit registration in that session. A graduate of another university must arrange with the Registrar of that institution to forward two transcripts of his/her academic record to the Dean of the Faculty of Graduate Studies and Research prior to these dates. The Dean of the Faculty of Graduate Studies and Research may require the applicant to furnish an official description of the content of the courses listed on the transcripts.

112.2.5 DEPOSIT

Applicants, when notified that their application has been accepted, shall pay a *deposit of $50.00* to The University of Alberta submitted directly to the Faculty of Library Science. This amount will be credited toward payment of tuition upon registration, or be forfeited in full if the student fails to register.

112.2.6 REFUSAL OF ADMISSION

Notwithstanding the Admission Requirements referred to above, The University of Alberta may at its discretion refuse admission to any applicant.

112.3 Registration

Particulars will be provided when a student is officially admitted to the Faculty. On entering the M.L.S. program all students are assigned a faculty advisor who will assist them in planning their course of studies.

112.3.1 CHANGES OF REGISTRATION

Deletion of courses, changes from "credit" to "audit", or changes from "audit" to "credit", may be made only on recommendation of the department in which the student is taking the graduate degree.

Such changes of registration, first approved by the Department Chairman, must be received by the Faculty of Graduate Studies and Research no later than six weeks prior to the date of the final lecture in the course(s) involved: October 19 for First Term courses, February 15 for Second Term and full-session courses. *No credit will be given for any course unless it is included on the program form or covered by an official change of registration.*

Only in special cases supported by the department and approved by the Faculty of Graduate Studies and Research will a student be allowed to add a First Term or a full-session course to the program after September 18. The deadline date for the addition of new Second Term courses is January 28.

NOTE: Individual departments may require an earlier deadline date for changes in course registration.

112.3.2 MAINTENANCE OF REGISTRATION

Every student on a graduate degree program must register once a year in order to keep the program active. This registration entitles the student to the use of University facilities and to assistance from his/her supervisor for a twelve month period. Registration during the final year of the program permits the student to graduate at either of the two following Convocations.

The procedure for re-registration is the same as for initial registration, and students must obtain a program form from their department and present it at registration even if they are registering for thesis only.

Students who fail to maintain continuous registration will be considered to have withdrawn from their program. If they wish to resume work on the program, they must apply for re-admission to the Faculty of Graduate Studies and Research and have their program re-assessed in terms of the regulations in force at the time of re-application. If they are recommended for re-admission, a re-admission fee of $70.00 will be charged in addition to the fees assessed in the regular manner.

112.3.3 MAY-AUGUST SUMMER PERIOD

Graduate students who are working full-time on the graduate program during part or all of the period from May to September are encouraged to record their presence on campus at their departmental office. Those holding University awards during this period *must* so record their presence. Residence credit may be given for this period if the student has signed the record.

112.3.4 CANCELLATION OF REGISTRATION

A student who wishes to withdraw from the University should complete "Notice of Withdrawal" forms which must then be submitted to the Dean for approval. A student who withdraws without completing such forms will not be eligible for any refund of fees, nor for exemption from fees in the event that they have not been paid.

A fee adjustment will be made and refunds will be authorized in accordance with the table published in § 15.2.5 of the Faculty of Graduate Studies and Research Calendar. The date used for the purpose of calculating the refund is that on which the withdrawal is approved by the Dean.

112.4 Academic Standings

Except in a qualifying year, the pass mark in *any* course taken for credit towards an advanced degree is a grade of 6. Grades of 5 may be accepted in two single-term courses or one full-session course provided a minimum average of 6.0 is acquired at the time of completion of work for the degree. In this connection the student should keep in mind that courses are weighted differently. Thus a grade of 7 in a session or term course does not necessarily bring one's average up to 6.0 if a grade of 5 was received in another course which carried a greater weight. In a qualifying year, a grade of 4 or 5 may be accepted in an individual course, provided that the grade point average for the year's work is at least 6.0. (Note: The above are *minimum grades* which the Faculty will accept. Individual departments may require higher grades than these.) A grade of 4 obtained by Probationary, Special, or Exchange, Graduate Students will be recorded as a failure.

Graduate students are not permitted to take supplemental examinations. If, after consulting the department or the committee concerned, the Faculty decides that a graduate student is not making satisfactory progress in either course work or research, the student may be required to withdraw.

112.5 Academic Appeals and Grievances

A student who believes he or she has an academic grievance should first approach the instructor concerned. Failing satisfaction, he or she should then take his/her case to his/her Faculty advisor, then the Dean of the Faculty of Library Science and the Dean of the Faculty of Graduate Studies and Research, in that order. Beyond this, the appeal should be made directly to the Academic Appeals Committee of the General Faculties Council. (See also § 16.7 "Appeals and Grievances" as found in the University Regulations and Information for Students Calendar).

112.6 Time Limit

To be recommended for a Master's degree, a candidate must have completed all the requirements within four years of the time he/she is first registered as a probationary graduate student or candidate in the Master's program.

113 PROGRAMS OF STUDY

113.1 The Degree of M.L.S.

The Faculty of Library Science offers a two-year (four-term) program for university graduates leading to the degree of Master of Library Science (M.L.S.).

A full time student who is registered for the M.L.S. degree program will normally be able to complete degree requirements in two years. During the qualifying year students will be required to take five full courses or their equivalent (ten half courses). During the Candidacy year students will be required to take the equivalent of ten half courses, and spend a minimum of two terms in full-time attendance. Students may, with approval, include up to two full courses in a faculty other than the Faculty of Library Science. The program includes provision for both a thesis and non-thesis option.

Credit for courses taken elsewhere may be granted as advanced credit by the Dean of the Faculty of Graduate Studies and Research on the recommendation of the Faculty of Library Science provided that the courses have not been counted towards a previous degree. (Please note the special provision for applicants with the B.L.S. degree.)

Inquiries regarding program and course details and financial assistance other than University scholarships should be made to the Dean of the Faculty of Library Science. Inquiries about University scholarships should be made to the Student Awards Office.

113.2 The Degree of M.L.S. (Learning Resources)

The Faculty offers a designated Master of Library Science in Learning Resources for candidates with an Alberta Professional Teaching Certificate, or its equivalent, and a Diploma with a specialization in school libraries from the Faculty of Education.

114.1 General Information

In the following list of courses, each course is designated by the abbreviation for Library Science and its number. This abbreviation and number should be used by the student when filling in registration forms.

Following the title of the course is the symbol "★", standing for "course weight", and a number indicating the weight of the course as used in calculating grade-point averages.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: The first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. If the course is a single term course, the term in which it is offered is mentioned.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS CONCERNED AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE FACULTY OF LIBRARY SCIENCE.

114.2 The M.L.S. Programs

The following courses are required for both the thesis and non-thesis routes of the M.L.S. and the M.L.S. (Learning Resources): LIB S 401, 411, 421, 461, 462, 471, one of LIB S 412, 431, 432, 433, 434, 435, 436, 437, one of LIB S 441, 442, 444, 445. In the thesis route, 000 is required; in the non-thesis route, 900 is required. Not all the courses listed in the calendar will be offered in any one year.

GRADUATE COURSES

LIB S 401. *Technical Services.* ★3 (First Term, 3-0-1). To introduce students to the mechanics of technical services including identification, acquisition, cataloguing, classification and circulation of library materials.

LIB S 402. *Building Library Collections.* ★3 (First Term, 3-0-0). To develop an analytical approach to collection building and to explore acquisition methods with particular reference to the Canadian scene. Prerequisite: LIB S 401.

LIB S 403. *Cataloguing and Classification.* ★3 (Second Term, 3-0-0). To prepare students to construct a catalogue and to describe and classify various forms of library materials for either manual or computerized library situations. Prerequisite: LIB S 401.

LIB S 411. *Reference Services.* ★3 (First Term, 2-1s-0). To understand the functions of reference services in libraries, and to become familiar with examples of major reference sources.

LIB S 412. *Storytelling.* ★3 (either term, 3-0-0). To enable students to select, prepare, and present stories.

LIB S 421. *Management of Library Organizations.* ★3 (First Term, 2-1s-0). To introduce representative management theories applicable to library organizations.

LIB S 423. *Archives Administration.* ★3 (either term, 3-0-2). To develop an understanding of archival records and their role in the field of information.

LIB S 431. *Canadian Materials: Special Aspects.* ★3 (Second Term, 3-0-0). To survey the range of Canadian materials, and to enable students to evaluate these materials.

LIB S 432. *Survey of Materials for Children.* ★3 (either term, 3-0-0). To develop a knowledge and appreciation of materials for children in terms of their needs and interests.

LIB S 433. *Materials for Young Adults.* ★3 (First Term, 3-0-0). To survey current literature in all media forms which appeal to adolescents of junior and senior high school age.

LIB S 434. *Adult Materials.* ★3 (Second Term, 3-0-0). To develop an awareness of the recreational, educational and professional library needs of adults (including the less specialized needs of the high school, college and university community), and of the materials available to meet the needs.

LIB S 435. *Materials in the Social Sciences.* ★3 (Second Term, 3-0-0). To understand the nature, function and communication patterns of social sciences and to be able to select, organize and effectively use relevant materials. Prerequisite: LIB S 411.

LIB S 436. *Humanities in the Library.* ★3 (Second Term, 3-0-0). To understand the nature and function of the humanities and to be able to select, organize and effectively use the printed materials or objects relevant to the humanities. Prerequisite: LIB S 411.

LIB S 437. *Science Literature.* ★3 (Second Term, 0-3s-0). To introduce the literature and the nature of science to the non-scientist. Prerequisite: LIB S 411.

LIB S 441. *Public Libraries.* ★3 (Second Term, 3-0-0). To develop an understanding of public libraries and public library systems, their structure and management. Prerequisite: LIB S 421.

LIB S 442. *Academic Libraries.* ★3 (Second Term, 2-1s-0). To develop an understanding of the nature and functions of university and community and technical college libraries. Prerequisite: LIB S 421.

LIB S 444. *Special Libraries.* ★3 (Second Term, 3-0-0). To develop an understanding of the special library, its purpose, structure and management with emphasis on services. Prerequisite: LIB S 421.

LIB S 445. *School Media Centres.* ★3 (Second Term, 3-0-0). To examine the concept and organization of media resource centres in elementary and secondary schools. Prerequisite: LIB S 421 *and* Teaching Certificate.

LIB S 451. *History of Libraries.* ★3 (First Term, 3-0-0). To examine the development of libraries and librarianship in response to social needs in the Western world.

LIB S 452. *History of the Book.* ★3 (First Term, 3-0-0). To describe the historical, esthetic and economic bases of the book and its role in the recording and preservation of knowledge and ideas.

LIB S 461. *Practicum.* ★3 (0-3s-0). First Term: Use of Library Resources: To provide basic skills in using library and bibliographic resources. Second Term: Field Study: To provide opportunity for practical experience in a library under the direction and supervision of a qualified librarian.

LIB S 462. *Research and Systems Evaluation.* ★3 (Second Term, 3-0-0). To develop an ability to understand the nature of research and its methodologies and techniques used in librarianship.

LIB S 471. *Introduction to Automation and Libraries.* ★3 (Second Term, 3-0-0). To provide an introduction to, and an understanding of, the general field of automation and its implications for libraries.

LIB S 472. *Publishing.* ★3 (either term, 3-0-0). To examine the organized business of writing, manufacturing and marketing books and other media.

LIB S 473. *The Film.* ★3 (either term, 3-0-0). To enable students to select, evaluate and effectively use films in any type of library situation.

LIB S 501. *Comparative Cataloguing.* ★3 (First Term, 3-0-0). To prepare students to specialize in cataloguing or indexing work in either a traditional or computerized library situation. Prerequisite: LIB S 401.

LIB S 502. *Comparative Classification.* ★3 (Second Term, 3-0-0). To prepare students to specialize in classification work in either a traditional or computerized library situation. Prerequisite: LIB S 401.

LIB S 512. *Library Services to Children and Young Adults.* ★3 (Second Term, 3-0-0). To develop a knowledge of the principles and practices of library services to children and young adults. Prerequisite: LIB S 432 or 433.

LIB S 513. *Scientific Communication.* ★3 (First Term, 3-0-0). To look in depth at the literature of science and other means used to communicate scientific information. Prerequisite: LIB S 437.

LIB S 514. *Communications and Libraries.* ★3 (Second Term, 0-3s-0). To examine communications media and assess their relevance to library and information services.

LIB S 521. *Library Buildings.* ★3 (First Term, 3-0-0). To study various types of library building needs, the involvement of librarians and architects in the planning process, and various contemporary building styles. Prerequisite: Either LIB S 441, 442, 444, or 445.

LIB S 522. *Library Systems and Networks.* ★3 (First Term, 3-0-0). To consider models of systems and examples of library cooperation from the simplest to the most sophisticated. Prerequisite: LIB S 421.

LIB S 523. *Records Management.* ★3 (either term, 3-1s-0). To develop an understanding of records management.

LIB S 524. *Personnel Management in Libraries.* ★3 (Second Term, 2-1s-0). To introduce the field of personnel management as an area of critical importance to librarianship. Prerequisite: LIB S 421.

LIB S 531. *Government Publications.* ★3 (First Term, 3-0-0). To examine Canadian government documents and to investigate methods of control and dissemination.

LIB S 532. *Informational Materials for Children and Young Adults.* ★3 (First Term, 3-0-0). To survey information materials that children and young adults use and the ways in which these materials are used. Prerequisite: LIB S 432 or 433.

LIB S 534. *Materials for Learning.* ★3 (Second Term, 3-0-0). To examine the nature of learning materials and the programs in which they are used from the viewpoint of the librarian. Prerequisite: LIB S 432, 433, or 434.

LIB S 542. *School Media Systems.* ★3 (either term, 3-0-0). To examine the organization and administration of school media programs and services at provincial, regional and district levels. Prerequisite: LIB S 445.

LIB S 552. *Bibliography: Historical, Descriptive, Enumerative.* ★3 (First Term, 3-0-0). To introduce the various aspects of the study of "the book" as an object, and its role in contemporary scholarship. Prerequisite: LIB S 452.

LIB S 553. *Contemporary Issues for Librarianship.* ★3 (Second Term, 0-3s-0). To consider new and continuing topics of concern or debate in the library profession and how they influence library attitudes and programs.

LIB S 554. *Comparative Librarianship.* ★3 (Second Term, 3-0-0). To study the international aspects of librarianship and to increase students' understanding of the objectives and potentials of library services.

LIB S 557. *Special Topics in Librarianship.* ★3 (either term, 3-0-0). A current topic or issue significant for librarianship or a special aspect of librarianship, may be examined, as demand and resources permit.

LIB S 563. *Directed Study.* ★3 (either term, 0-3s-0). To assist students in further study of special topics and issues based on knowledge acquired in previous courses or on significant prior experience. Topic to be approved by Faculty.

LIB S 571. *Automation and Libraries.* ★3 (First Term, 3-0-0). To develop students' ability to design, evaluate, and implement typical automated procedures related to library and information centre work. Prerequisite: LIB S 471.

LIB S 900. *Non-Thesis Project.* ★3 (either term, 0-3s-0). For students in the non-thesis route. Topic to be approved by Faculty. Prerequisite: LIB S 462.

THES 000. *Thesis.* Topic to be approved by Faculty. Prerequisite: LIB S 462.

(Left to right) T.A. MacPherson, Assistant Dean; R.S. Fraser, Associate Dean; D.F. Cameron, Dean; L.M. Anholt, Assistant Dean; and F.B. Cookson, Associate Dean

Faculty of Medicine

121 INTRODUCTORY

121.1 Members of the Faculty

121.1.1 OFFICERS OF THE FACULTY

Dean
D. F. CAMERON

Associate Deans
F. B. COOKSON (Undergraduate Medical Education & Student Affairs)
R. S. FRASER (Faculty Affairs)

Assistant Deans
L. M. ANHOLT (Postgraduate Medical Education)
T. A. McPHERSON (Scientific Affairs)

Director of Continuing Medical Education
A. B. JONES

Director of Admissions
W. W. YAKIMETS

Administrative Officer (Admissions)
S. M. NEIL

Administrative Officer
W. H. FEARON

Faculty Service Officer
D. M. GUPTA

121.1.2 DIVISIONS OF THE FACULTY

AUDIOVISUAL

Associate Professor
C. M. BIDWELL (Director)

BIOMEDICAL ENGINEERING

Professors
T. R. OVERTON (Director)
W. A. G. VOSS

Associate Professors
Z. J. KOLES
R. E. SNYDER

Assistant Professors
T. N. HANGARTNER
D. MENON

Honorary Assistant Professors
S. KUMAR
R. V. RAJOTTE

FAMILY MEDICINE

Professor
G. L. HIGGINS (Director)
R. R. CHERRY
P. B. HEATON

Associate Professor
H. A. J. SCHWARZ

Assistant Professors
R. G. CHAYTORS

K. MARTINDALE
G. H. MORTON
H. REINE
J. J. SCALES
M. S. SMITH

Clinical Instructor
L. M. ENTWISTLE

Professor Emeritus
E. A. GAIN

Honorary Assistant Professor
A. S. CLANACHAN

Honorary Assistant Clinical Professors
R. I. McCALLA
R. A. B. McTAGGART
N. W. NIX
T. PIMBLETT

Honorary Clinical Lecturers
H. W. BAULD
P. CORKERY
M. X. COUGHLAN
C. D. H. ELTON
J. F. FARLEY
B. R. GLAUSER
R. D. SCRAGG

Honorary Clinical Instructors
Z. ALIBHAI
P. C. CAMPANARO
K. CERNOHORSKY

121.1.4 DEPARTMENT OF ANATOMY

Professor and Chairman
T. S. LEESON

Professors
F. B. COOKSON
K. D. McFADDEN

Associate Professor
H. I. A. ZAW-TUN
D. N. P. SINGH

Assistant Professors
K. M. BAGNALL
G. R. BUZZELL
M. J. JERIA
B. R. MacPHERSON
H. MELAX

Professor Emeritus
W. R. SALT

121.1.5 DEPARTMENT OF MEDICAL BACTERIOLOGY

Professor and Chairman
F. L. JACKSON

Professors
J. W. CARMICHAEL
J. M. S. DIXON
O. MORGANTE

Associate Professors
Y. GOODMAN
C. H. JELLARD
R. G. MARUSYK
J. A. ROBERTSON
D. E. TAYLOR
R. L. S. WHITEHOUSE

Assistant Professor
J. L. BRUNTON

Clinical Professor
S. I. HNATKO

Honorary Professors
J. N. CAMPBELL
G. GOLDSAND
T. KANEDA

Honorary Assistant Professor
G. MARION

Administrative Officer
M. WOHLLEBE

Assistant Mycologist
A. S. SEKHON

121.1.6 DEPARTMENT OF BIOCHEMISTRY

Professor and Chairman
J. S. COLTER

Professors
W. A. BRIDGER
M. N. G. JAMES
C. M. KAY
N. B. MADSEN
R. N. McELHANEY
A. R. MORGAN
V. H. PAETKAU
W. PARANCHYCH
D. SCRABA
L. B. SMILLIE
B. D. SYKES

Associate Professors
R. S. HODGES
S. IGARASHI
J. H. WEINER

Assistant Professors
W. F. ANDERSON
D. G. McFADDEN
R. REITHMEIER

Administrative Officer
L. RANDALL

Faculty Service Officer
V. CHLUMECKA

McEACHERN CANCER UNIT

Professors
J. F. HENDERSON
A. R. P. PATERSON

Associate Professors
L. W. BROX
C. CASS

121.1.7 DEPARTMENT OF COMMUNITY MEDICINE

Professor and Chairman
S. E. GREENHILL

Assistant Professor
L. LAING

Clinical Professors
R. R. CHERRY
P. HEATON
G. HIGGINS
G. B. HILL
J. M. HOWELL

Associate Clinical Professors
M. KOCH
A. F. MASSON
R. ORFORD

Assistant Clinical Professors
H. BUCHWALD
S. DURKIN
L. LeRICHE

Clinical Instructors
R. F. CLARK

Honorary Professor
J. FORSTER

Honorary Lecturer
B. ALLEYNE

Hororary Instructors
R. DEWAR
L. FERENCZI
S. FINCHAM

Honorary Clinical Professor
L. C. GRISDALE

Honorary Clinical Lecturers
I. SCOTT
M. WEBB

121.1.8 DEPARTMENT OF IMMUNOLOGY

Professor and Chairman
E. DIENER

Professors
V. H. PAETKAU
T. G. WEGMANN

Associate Professors
J. BARRINGTON-LEIGH
P. A. BRETSCHER
B. M. LONGENECKER
L. M. PILARSKI

Assistant Professors
K. C. LEE
T. R. MOSMANN
B. SINGH
C. A. WATERS

Research Fellows
U. E. DINER
C. SHIOZAWA

121.1.9 DEPARTMENT OF MEDICINE AND CLINICAL MEDICINE

Professor and Chairman
G. D. MOLNAR

Assistant Clinical Professor
L. A. BELLAMY

Honorary Associate Professor
M. G. A. GRACE

Honorary Assistant Clinical Professors
T. HARDIN
B. H. WOODHEAD

Administrative Officers
E. H. SHELL
J. C. MORRISON (Education)

GENERAL INTERNAL MEDICINE

Professor
J. A. L. GILBERT (Director)

Associate Professors
L. M. ANHOLT
C. H. HARLEY

Assistant Professor
P. R. MONTGOMERY

Professor Emeritus
J. W. SCOTT

Distinguished Clinical Professor
J. F. ELLIOTT

Clinical Professors
W. R. BLACK
A. M. EDWARDS (Director—University Hospital)
R. N. EIDEM
G. F. MacDONALD
J. V. WILLIAMS

Associate Clinical Professors
D. M. BELL
R. B. COGLON
J. M. GOODHART
D. W. IRVING
S. KORNELL
R. E. LEFEBVRE
J. T. McCAFFERY
J. M. RYAN
W. R. ST. CLAIR
J. H. SPRAGUE
H. STEFANYK
C. J. VARVIS
S. WEISZ

Assistant Clinical Professors
A. CAIRNS
B. H. DANIAL
D. L. JUDGE
P. C. MENDES
R. ORFORD
C. G. RAMSEY
C. C. ROBERTSON
L. N. TAKATS
D. J. TUSZ

Clinical Lecturers
D. A. CAMPBELL
E. L. MUTTITT
T. TALIBI
L. D. TE

Clinical Instructors
J. S. ARCHIBALD
E. KRETZUL
M. S. MILLAN
M. G. NUTTING

Associate Clinical Professors Emeriti
J. C. HOPKYNS
E. ROMANOWSKI

Assistant Clinical Professors Emeriti
G. I. BELL
M. K. YOUNG

Honorary Professor
S. E. GREENHILL

Honorary Associate Professor
O. SCHAEFER

Honorary Clinical Lecturer
M. M. SEREDA

CARDIOLOGY

Professors
R. E. ROSSALL (Director)
R. S. FRASER
S. J. K. LEE
R. F. TAYLOR

Associate Professors
C. A. E. BASUALDO
M. HARAPHONGSE
C. T. KAPPAGODA
J. W. WARNICA

Assistant Professors
P. V. GREENWOOD
B. I. JUGDUTT
S. E. KAUFMAN

Research Associates
O. CARO
P. L. FISHER

Assistant Clinical Professor
W. P. KLINKE

Clinical Instructor
G. KUBAC

DERMATOLOGY

Associate Clinical Professor
J. BROWN (Director)

Assistant Clinical Professors
I. HARDIN
N. A. JAMPOLSKY
E. H. SCHLOSS
O. S. TALPASH

Clinical Lecturer
J. Y. LIAO

Clinical Instructor
V. J. KULAK

ENDOCRINOLOGY

Professors
P. M. CROCKFORD (Director)
D. M. FAWCETT
G. D. MOLNAR

Associate Professors
A. D. MORRISON
C. von WESTARP

Assistant Professors
W. A. McBLAIN
D. W. MORRISH
R. V. RAJOTTE
J. Z. SCOTT

Professor Emeritus
D. R. WILSON

Clinical Professors
G. D. BROWN
A. M. EDWARDS
R. N. EIDEM

GASTROENTEROLOGY

Clinical Professor
R. H. WENSEL (Director)

Associate Professor
A. B. R. THOMSON

Assistant Professor
S. HOLT

Clinical Professor
R. W. SHERBANIUK

Associate Clinical Professor
R. J. BAILEY

Clinical Lecturer
D. N. TODORUK

Clinical Instructors
M. S. MILLAN
C. M. SWITZER

CLINICAL HEMATOLOGY

Clinical Professor
J. R. HILL (Director)

Professor
R. N. MacDONALD

Associate Professor
M. J. MANT

Assistant Professors
A. R. BELCH
A. KHALIQ
A. R. TURNER

Associate Clinical Professors
J. L. HANNON
J-M. TURC

Assistant Clinical Professor
P. A. GORDON

IMMUNOLOGY AND NEPHROLOGY

Professor
J. B. DOSSETOR (Director)

Associate Professors
F. L. HARLEY
M. R. HIGGINS

Assistant Professors
T. KOVITHAVONGS
F. PAZDERKA

Associate Clinical Professors
T. H. AARON
R. E. LEFEBVRE

Assistant Clinical Professor
K. B. BETTCHER

Faculty Service Officer
E. M. LIBURD

Visiting Assistant Professor
M. JAKOBISIAK

INFECTIOUS DISEASE

Professor
G. GOLDSAND (Director)

Associate Professor
D. L. J. TYRRELL

Assistant Professors
J. L. BRUNTON
G. F. MARIEN

Assistant Clinical Professor
E. A. FANNING

Clinical Lecturer
B. ROMANOWSKI

Honorary Professor
R. P. B. LARKE

NEUROLOGY

Associate Professor
D. R. McLEAN (Director)

Professors
E. W. GAUK
G. MONCKTON
T. NIHEI

Assistant Professor
K. G. WARREN

Clinical Professor
H. J. JACOBS

Associate Clinical Professors
H. K. SHUTT
H. M. TOUPIN

Assistant Clinical Professors
E. STARREVELD
A. F. WILSON

Clinical Instructor
B. MARYNOWSKI

MEDICAL ONCOLOGY

Professors
T. A. McPHERSON (Director)
R. N. MacDONALD

Assistant Professors
A. R. BELCH
A. L. FIELDS
A. KHALIQ
A. H. G. PATERSON
A. R. E. SHAW
A. R. TURNER
P. M. VENNER

Clinical Instructor
M. G. NUTTING

PULMONARY MEDICINE

Professor
B. J. SPROULE (Director)

Associate Professors
R. L. JONES
E. G. KING
S. F. P. MAN
T. F. WARD

Assistant Professors
N. E. BROWN
G. C. MAN
T. W. NOSEWORTHY

Lecturer
R. T. GIBNEY

Honorary Associate Professor
N. R. FINER

Clinical Professors
G. F. MacDONALD
J. V. WILLIAMS

Associate Clinical Professors
T. H. AARON
F. A. HERBERT
C. J. VARVIS

Assistant Clinical Professor
R. A. McTAGGART

Clinical Lecturer
K. PITTOKOPITIS

Clinical Instructor
J. S. ARCHIBALD

Honorary Assistant Clinical Professor
D. TODOSIJCZUK

RHEUMATOLOGY

Professors
J. S. PERCY (Director)
A. S. RUSSELL

Associate Professor
P. DAVIS

Assistant Professor
K. WONG

Clinical Professor
E. G. KIDD

121.1.10 DEPARTMENT OF OBSTETRICS AND GYNAECOLOGY

Professor and Chairman
R. P. BECK

Professor
D. L. DUNLOP
D. SCHIFF

Associate Professor
R. T. RICHARDS

Assistant Professors
C. F. HOSKINS
S. KAUFMAN
J. Z. SCOTT

Professor Emeritus
J. R. VANT

Clinical Professors
J. S. BARR
D. M. BELL
L. B. BROWN
J. BUGIS
H. J. CROOKS
R. A. DAY
W. F. FERGUSON
J. MARKO
R. J. OSTOLOSKY
D. W. J. REID

Associate Clinical Professors
J. J. BOYD
S. W. DEVINE
K. W. FINZER
W. D. FREW
F. MORCOS

Assistant Clinical Professors
J. J. BOULTON
J. A. BOYD
D. J. MOYER
T. N. TRAFF
N. W. WEIR
A. WESTGATE
R. W. WINTER

Clinical Lecturers
D. M. BUCHANAN
..G. EVENSON
V. R. GAILIUNAS
..J. GANS
G. IWANIUK
A. JOHNSON
B. KREDENTSER
S. R. LANGTON
D. M. SMITH
H. R. URETSKY

Clinical Instructors
C. E. S. BURNETT
M. LIEBERMAN
P. LUCIEN
G. SABOURIN
D. T. UNGER

Clinical Fellow
D. K. STILL

Sessional Instructor
S. P. FUNG

Honorary Assistant Professor
H. N. FINER

Honorary Clinical Professor
C. H. HORNER

Honorary Associate Clinical Professor
. H. HUSEL

Honorary Assistant Clinical Professor
. C. DAY

Honorary Clinical Instructor
V. SCOTT

121.1.11 DEPARTMENT OF OPHTHALMOLOGY

Professor and Acting Chairman
. T. WYATT

Professors
A. S. BOYD
. G. PEARCE

Instructors
E. BUDD
B. SALTER

Associate Clinical Professors
D. T. R. HASSARD
D. L. REES
H. K. SHUTT

Assistant Clinical Professors
R. A. MORGAN
R. F. SCHINDLER

Clinical Lecturers
J. BUSKI
G. GRANT
F. L. LEONG-SIT
J. RUDNISKY

Honorary Professors
M. G. GRACE
J. K. LAUBER

Honorary Clinical Professor
B. M. MIELKE

Honorary Clinical Lecturer
M. E. PAETKAU

Administrative Officer
M. S. WYETH

121.1.12 DEPARTMENT OF PAEDIATRICS

Professor and Chairman
E. E. McCOY

Professors
G. E. EDDY
E. W. GAUK
A. B. JONES
R. P. B. LARKE
H. A. PABST
W. C. TAYLOR

Associate Professors
J. GODEL
F. HARLEY
C. M. T. ROBERTSON
A. C. ROUGET
D. W. SPADY

DIVISION OF CARDIOLOGY

Clinical Professor
N. F. DUNCAN (Director)

Associate Professors
R. L. COLLINS-NAKAI
M. PAQUET

DIVISION OF HEMATOLOGY / ONCOLOGY

Associate Professor
J. J. AKABUTU (Director)

Assistant Professor
T. S. GOH

DIVISION OF MEDICAL GENETICS

Professors
P. BOWEN (Director)
E. IVES

DIVISION OF NEONATAL MEDICINE

Professor
D. SCHIFF (Director)

Associate Professors
M. A. BEAUDRY
A. M. CORNET
N. N. FINER
T. F. WARD

Assistant Professor
P. C. ETCHES

Administrative Officer
S. SCOTT

Clinical Professors
H. B. ARMSTRONG
C. T. FRIED
T. A. GANDER
G. W. SELBY
A. STEWART

Associate Clinical Professors
G. J. CONRADI
D. J. HASINOFF
D. R. SHEA
M. TEDESCHINI
J. TKACHYK
O. ULAN

Assistant Clinical Professors
R. CHEN
L. C. GRISDALE
B. A. MALINOWSKI
F. MARTIN
J. J. POPOWICH
E. M. RABINOVITCH
R. WEINBERG
W. T. WU

Clinical Instructors
M. BHAMBHANI
R. DUNDAS
G. ORTEGA
K. WONG

Honorary Associate Professor
K. A. SWALLOW

Honorary Assistant Clinical Professors
P. J. KIMMITT
K. R. MILLER

Honorary Clinical Instructors
J. D. FISCHER
M. JAVORSKI
C. MOISEY
R. OCEJO-MORENO

121.1.13 DEPARTMENT OF PATHOLOGY

Professor and Chairman
T. K. SHNITKA

Professors
G. O. BAIN
R. J. SWALLOW

Associate Professors
R. W. M. AMY
R. L. M. HONORÉ
L. D. JEWELL
R. A. STINSON

Assistant Professors
E. S. JOHNSON
L. E. McGANN

Administrative Officer
W. A. HOLMES

DIVISION OF ELECTRON MICROSCOPY

Professor
T. K. SHNITKA (Director)

DIVISION OF FORENSIC, OCCUPATIONAL AND ENVIRONMENTAL PATHOLOGY

Professors
P. H. MARKESTEYN (Director)
B. W. MIELKE

Associate Professor
R. W. M. AMY

DIVISION OF NEUROPATHOLOGY

Professor
B. W. MIELKE (Director)

Assistant Professor
E. S. JOHNSON

Clinical Professors
P. W. DAVEY
S. HANSON
T. A. KASPER
H. W. LETTS
D. G. YOUNG

Associate Clinical Professors
A. DERBAWKA
E. H. SCHLOSS
J. M. TURC

Assistant Clinical Professors
J. M. DANYLUK
P. K. PETRIK
T. Y. THAY
D. J. WILLIANS

Honorary Associate Professor
D. T. P. DAWSON

Honorary Assistant Professors
A. TURNER
G. R. JONES

Lecturers
J. DAKIN
R. G. HODKINSON
L. JACKSON
K. D. VAUGHAN

Honorary Lecturers
J. E. COATES

Professors Emeriti
H. B. COLLIER
J. W. MacGREGOR

DIVISION OF CLINICAL PATHOLOGY AND MEDICAL LABORATORY SCIENCE

Clinical Professors
H. E. BELL (Director)
J. R. HILL
K. WALKER

Associate Clinical Professor
P. A. GORDON (Assistant Director)

Assistant Clinical Professors
A. J. DINWOODIE
J. L. HANNON
M. SALKIE

Honorary Assistant Professor
G. R. JONES

Administrative Officer
SISTER D. RYAN (M.L.S. Coordinator)

Instructors
C. ANDREACHUK
E. BRISSON
M. DINEEN
L. LEITHEAD
P. LETENDRE
S. O'BRIEN
B. OHASHI
W. SIMONSON
M. STARKO
A. WILLIAMS

Honorary Instructor
J. E. COATES

121.1.14 DEPARTMENT OF PHARMACOLOGY

Professor and Acting Chairman
D. A. COOK

Professors
H. P. BAER
W. F. DRYDEN
G. B. FRANK
R. M. HENDERSON

Associate Professors
J. ELBRINK
R. J. REIFFENSTEIN

Assistant Professors
T. M. ALLEN
A. CLANACHAN

Lecturers
E. G. HUNTER
P. A. SMITH

Honorary Professor
A. R. P. PATERSON

Honorary Assistant Professor
K. WONG

121.1.15 DEPARTMENT OF PHYSIOLOGY

Professor and Chairman
M. SCHACHTER

Professors
E. O. HOHN
K. J. HUTCHISON
K. G. PEARSON
R. B. STEIN

Associate Professors
S. C. BARTON
C. I. CHEESEMAN

121.2 *General Information*

The Faculty of Medicine of The University of Alberta was established in 1913 and until 1922 conducted a three-year undergraduate medical program in the basic medical sciences.

In 1923 a full program of clinical instruction was begun and the first Doctor of Medicine degrees were awarded in 1925.

The Faculty of Medicine conducts the following programs:

(a) A fully accredited four year program leading to the degree of Doctor of Medicine. At least two pre-medical years at University are required before admission to this program.
(b) A four year program leading to the degree of Bachelor of Science in Medical Laboratory Science, which may be entered at the matriculation level.
(c) A one year program to be taken in conjunction with the M.D. program leading to the degree of Bachelor of Science in Medicine.
(d) A program whereby students in the M.D. Program who fulfill specified requirements may be awarded the Bachelor of Medical Science degree at the conclusion of their second year in the M.D. program.
(e) At the graduate level, programs leading to the degree of Master of Science or Doctor of Philosophy. Also programs leading to the degree of Master of Health Service Administration or the Diploma in Health Service Administration.
(f) Programs leading to eligibility for specialist qualification by the Royal College of Physicians and Surgeons of Canada are offered in co-operation with affiliated hospitals in all clinical specialties.
(g) An extensive program of continuing medical education for physicians practising in Northern Alberta.

Details of each of these programs will be found in § 123, below.

121.3 *Affiliated Hospitals and Institutions*

121.3.1 AFFILIATED HOSPITALS

The primary teaching hospital of the Faculty of Medicine is the University of Alberta Hospital which is located on the university campus.

The University has formal Affiliation Agreements with seven city hospitals: Royal Alexandra Hospital, Edmonton General Hospital, Youville Memorial, Misericordia Hospital, Glenrose Hospital, Charles Camsell Hospital and Cross Cancer Institute. These hospitals actively participate in the undergraduate and graduate teaching programs of the Faculty. The hospitals are represented on the Council of the Faculty of Medicine and the Faculty has a representative on the Governing Board of each hospital.

By special arrangement some undergraduate and graduate training is conducted at the Alberta Hospital, Ponoka, the Alberta Hospital, Edmonton, St. Mary's Hospital, Camrose and the Red Deer General Hospital, Red Deer.

121.3.2 NORTHERN HEALTH SERVICES PROGRAM

Through an affiliation with Medical Services (Northern Region) of the Department of National Health and Welfare a regular rotation of clinical faculty and graduate students to Inuvik and the Arctic coastal areas (Mackenzie Area Ambulatory Program) is maintained. The Mackenzie Area Ambulatory Program covers Cambridge Bay and the surrounding settlements of Gjoahaven, Spence Bay, Pelly Bay, Coppermine, and Holman Island.

121.3.3 THE UNIVERSITY OF ALBERTA FAMILY CLINIC

An ambulatory patient facility, specifically designed for undergraduate and graduate education in family practice is located at both the Royal Alexandra and Misericordia Hospitals. This "Family Clinic" provides medical and other health science students with an opportunity to participate in the provision of comprehensive and continuing health care to a representative section of the community under the supervision of members of their respective faculties.

121.3.4 THE UNIVERSITY OF ALBERTA SURGICAL-MEDICAL RESEARCH INSTITUTE

The University of Alberta Surgical-Medical Research Institute offers facilities for members of the clinical faculty in the field of experimental medicine. Facilities are also available for research fellows in clinical departments to conduct projects under the supervision and direction of the Faculty. The Institute offers a one trimester postgraduate course in experimental surgery.

121.3.5 THE UNIVERSITY OF ALBERTA CANCER RESEARCH INSTITUTE

Established in co-operation with the Canadian Cancer Society and the University, the Unit is housed in the Dr. John S. McEachern Cancer Research Laboratory. It is one of four such units located by the National Cancer Institute in Canadian medical schools. Several postdoctoral research fellowships, for which application may be made to the Director, will be available each year.

121.3.6 THE R. S. McLAUGHLIN EXAMINATION AND RESEARCH CENTRE

The R. S. McLaughlin Examination and Research Centre (R.S.M.) is a division of the Royal College of Physicians and Surgeons of Canada. The R.S.M. specializes in the development of objective examination material designed to meet the requirements of its various clients.

The organizations with which it cooperates in the production of certifying examinations include the Royal College of Physicians and Surgeons of Canada; the Medical Council of Canada; the Corporation Professionnelle des Medecins du Quebec; the Medical

Schools of the Universities of Alberta, Laval, McGill, Montreal, and Sherbrooke. The R.S.M. also assists various clients in the preparation of self-evaluation projects as part of their programs of Continuing Medical Education (C.M.E.).

Besides this service function, the R.S.M. is involved in research into improving methods of evaluating physician competence in the broadest sense — i.e. including assessment of medical knowledge, clinical skills, and interpersonal professional relationships. The R.S.M. conducts an extensive "in house" research program in these areas, as well as encouraging and supporting research in these areas from individuals and institutions across Canada.

The R.S.M. is also actively engaged in developing and evaluating the use of computers in undergraduate and graduate instruction and evaluation.

The Centre is a bilingual organization with its administrative head office in Edmonton, Alberta. It has two divisions or bureaus — one in Edmonton attached to the University of Alberta and the other in Quebec City attached to the University of Laval. The staff consists of medical doctors, psychometricians, programmer analysts, a financial advisor, and a specially qualified secretarial staff.

121.4 Internship and Licensure

Internship. Medical graduates of The University of Alberta will have completed a clinical clerkship (student internship) meeting the requirements of the Federation of Provincial Licensing Authorities. Students graduating in 1975 and subsequently and seeking licensure in Alberta must comply with the requirements of the College of Physicians and Surgeons of Alberta by satisfactorily completing two years of appropriate graduate training.

Internship placement can be arranged through the Canadian Intern Matching Service. Details will be provided to final year students.

Educational Register. While undertaking a student internship, senior medical students are required to be registered on the Educational Register of the College of Physicians and Surgeons of Alberta. This registration provides limited medical practice privileges in the hospital to which the student is assigned for the period of assignment only.

All graduates serving an internship in the Province of Alberta are required, by provincial legislation, to be registered on the Educational Register of the College of Physicians and Surgeons of Alberta. This registration permits the practice of medicine within the hospital designated on the registration. Graduates in residency programs in Alberta who are not licensed registered practitioners in the Province are similarly required to be registered on the Educational Register. Application should be made to the Registrar, College of Physicians and Surgeons of Alberta 9901-108 St., Edmonton, Alberta, T5K 1G9.

Requirements for Licence to Practise. After graduates of The University of Alberta have satisfactorily completed an appropriate period of graduate training as determined by the Provincial Licensing Authority they are entitled to be licensed by the College of Physicians and Surgeons of this province and are eligible for provincial registration. To become licensed in any other province it is necessary to have passed the qualifying examinations of the Medical Council of Canada and to have met the educational requirements of the licensing body of that province.

Medical Council of Canada Examinations. The qualifying examinations of the Medical Council of Canada are conducted at The University of Alberta at times specified by the Council. Students in the fourth year are required to sit for these examinations prior to graduation. A certificate of eligibility from the College of Physicians and Surgeons of Alberta must be presented when making application to sit these examinations.

National Board of Medical Examiners. Students who wish to take the examinations of the National Board of Medical Examiners of the United States may take the Part I and the Part II examinations during their undergraduate program. Part III is taken after completion of graduate internship programs.

Registration for Practice. The holder of a licence to practice must register with the professional organization in the particular province concerned. In Alberta, this is the College of Physicians and Surgeons of the Province of Alberta; for information regarding provincial registration contact the Registrar of the College, 9901 - 108th Street, Edmonton, Alberta, T5K 1G9. Students who intend to practice in any other province should secure information from the provincial body concerned as early as possible in their medical program so that they may know of any special educational conditions which must be fulfilled.

121.5 Finance

Information on fees charged to students in the Faculty of Medicine is given in § 15 of the University Regulations and Information for Students Calendar. In addition, medical students are required to spend approximately $550.00 each year for books, supplies, and instruments. Fourth-year medical students are required to pay an examination fee of $200.00 to the Medical Council of Canada in January of their final year.

Remuneration is presently paid to final year M.D. students by the Department of Health and Social Development of the Government of Alberta.

Details of scholarships and other forms of financial assistance available to medical students will be found in the Awards section of the Calendar, § § 223 to 228.

121.6 Society Memberships

The *Medical Students' Association* is the officially recognized organization of medical students. It provides social, recreational, and cultural activities. It is authorized to collect a membership fee from each student. The Association provides the following annual awards: The Outstanding Teacher Awards are presented to one teacher for excellence as an educator in each of the Phase I, II, and III programs and similarly to one resident. The Shaner Award is presented to a graduating student for exceptional contributions the work of the association.

The *Medical Alumni Association* is an organization of all graduates in Medicine from The University of Alberta. The Association takes an active interest in the Faculty and provides a limited loan fund for undergraduate and graduate students. In addition the Association participates in a number of awards to students and, from time to time, finances specific projects in the Faculty. The Association meets annually in conjunction with the Alberta Medical Association annual meeting.

122.1 Admission

English Language Proficiency: English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take any one of several forms:

1. successful completion of the equivalent of three years of full-time instruction in an English language secondary institution in Canada;

2. presentation of a successfully completed full-year or more of course work, including a full introductory course in English, in an accredited post-secondary institution where English is the language of instruction and from which advance credit is normally allowed by the University of Alberta;

3. successful completion of the equivalent of three years of full-time instruction in a school/institution outside Canada where academic subjects are taught by "English Language" instructors, as accredited by the International Institute of Education (I.I.E.), or as recognized by the University of Alberta;

4. successful completion of the equivalent of three years of full-time instruction in a school in Canada in which the major language of instruction is other than English but where the level of English proficiency required for graduation is equivalent to that in English language schools, as recognized by a provincial Department of Education; *or*

5. presentation of results of the Test of English as a Foreign Language (TOEFL) or its equivalent in other approved standard tests. Applicants presenting a TOEFL score of 600 (or its equivalent in other approved standard tests) will be considered as having demonstrated English language proficiency.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from the Examinations and Timetabling Division of the Office of the Registrar, Rm. 123, Administration Building, University of Alberta.

122.1.1 M.D. PROGRAM

(1) *Academic requirement.* The basic academic requirement for admission to the M.D. program is the satisfactory completion, after senior matriculation, of at least two years of university work approved by the Faculty of Medicine, including full courses in Organic and Inorganic Chemistry, English, Physics, and Biology together with courses in Psychology, Mathematics and Statistics, Microbiology, Genetics and Zoology. This requirement can be met in varying degree patterns within the Faculty of Science. The required courses comprise at least 8½ of the 10 courses of a two year program and they form the basis upon which the scholastic level for admission to the M.D. program will be assessed. Students intending to fulfill these requirements at The University of Alberta within the minimum (two year) period must complete:

Year 1:
Chemistry 200 or 202 or 250
English 210 (or other 6 credit English course)
Physics 212 or 205/207, or 205/209, or equivalent for applicants who have credit in Physics 30. Physics 203/207 or 203/209 or equivalent for applicants without Physics 30
Biology 296
One of Biology 297, 298 or 299
Psychology 260
One of Mathematics 202, 203 or equivalent

Year 2:
Chemistry 302 (if Chemistry 250 was taken during the first year) or Chemistry 350 (if Chemistry 200 or 202 was taken during the first year)
Genetics 351 or alternatively Biology 297 and Genetics 375. (If Biology 297 was included in the first year program, a half-year option in Arts or Science may be taken.)
Zoology 325
Microbiology 315
Psychology 261
Statistics 241
An Arts option which may be a full year course or two half year courses.

Students embarking upon premedical programs of longer duration should ensure that the above prerequisites are completed and that each year in which they are included comprises a minimum of five full course equivalents.

NOTE: Applicants who entered university prior to the 1976-77 session or who are applying for admission from other universities or colleges in Alberta or elsewhere will be considered on the basis of previously required prerequisites, that is, a minimum of 2 years of university work approved by the Faculty of Medicine, including full university courses in Organic Chemistry, Inorganic Chemistry, Physics and Zoology (or Biology). It would be to the advantage of such students to conform to the stated requirements as far as possible as the first year of the M.D. program is structured on the assumption that all of the required material has been covered and there will neither be time nor opportunity within that year to make up deficiencies. Students applying with programs other than those detailed above will be considered as a special group.

(2) *Scholastic standing.* Consideration for admission will be given only to students who have obtained an over-all average of at least 6.5 in the work of preceding university years.

(3) *Personal requirements.* While admission to the M.D. program is granted mainly on the basis of academic standing, the lack of essential personal qualities in an applicant may be deemed sufficient cause for refusal of admission.

Age is a consideration for admission to the Faculty. Students who will be 28 years of age or older at the time of application for admission are advised to consult with the Admissions Officer before starting pre-medical studies.

(4) *Residence requirement.* Priority for admission is given to students who are Canadian citizens or Permanent Residents (Landed Immigrants) and who complete their entrance requirements at a university in Alberta, and to students from Alberta in attendance at other universities. A limited number of places may be made available to applicants who do not fill these requirements.

(5) *Medical College Admission Test.* All applicants are required to take the New Medical College Admission Test. This test is conducted in Edmonton by the Examinations and Timetabling Division of the Registrar's Office in the spring and fall of each year. An application to take this test, together with a fee of $40.00 (U.S.) must be sent directly to the American College Testing Program, P.O. Box 414, Iowa City, Iowa 52240, U.S.A. four weeks before the date of the test. Details and application forms may be obtained from the Office of the Dean of Medicine or from the Examinations and Timetabling Division, Rm. 123, Administration Building.

(6) *Application deadlines.* Students should make application for admission to the Registrar by November 1 of the year prior to that for which admission is sought. Later applications cannot be accepted.

(7) *Physical examination.* Students admitted to the M.D. program are required to present a certificate of medical examination from a physician of The University Health Services as part of the Faculty requirements.

(8) *Interview.* Applicants may be required to present themselves for a personal interview at the discretion of the Admissions Committee.

(9) *Deposit.* Applicants will be advised of the decision of the Admissions Committee in late June. Successful applicants, upon acceptance of a place in the first-year class, are required to make a deposit of $50.00 to the Comptroller of The University of Alberta. This deposit will be applied on tuition fees when the student registers. Should a candidate withdraw after once accepting a position this deposit will be forfeited.

(10) Applicants are reminded of the regulations set out in § 13.1.2 of the University Regulations and Information for Students Calendar.

122.1.2 B.SC. PROGRAM IN MEDICAL LABORATORY SCIENCE

The Matriculation requirements for admission to the B.Sc. program in Medical Laboratory Science are set out in § § 13.1 and 13.12.2 of the University Regulations and Information for Students Calendar.

NOTE A: Each student is required to have a personal interview or submit acceptable references before the application can be considered complete. Satisfactory personality, communication skills and health are considered.

NOTE B: Limited space is available for transfer into the second year of the program from other faculties at The University of Alberta.

NOTE C: Prospective students holding a current registration with the Canadian Society of Laboratory Technologists may be given advanced credit. Further information may be obtained from the Division of Medical Laboratory Science, Clinical Sciences Building, University of Alberta.

NOTE D: **MEDICAL LABORATORY SCIENCE IS NOT RECOMMENDED AS A PRE-MED PROGRAM. SEE PRE-PROFESSIONAL PROGRAM LISTED IN THE SCIENCE CALENDAR § 183.26.**

122.2 Academic Standings and Graduation

122.2.1 M.D. PROGRAM

(1) The Council of the Faculty of Medicine approves the principle that the means of assessing a student's progress and determining the student's grades may vary from one department to another in accordance with the nature of the course. Factors other than examination results may be used to a variable extent by instructors in determining grades but students will be informed at the commencement of the course how grades are to be determined.

(2) The Council of the Faculty of Medicine has established a Student Evaluation Board, consisting of ten faculty members and four students, responsible for all student evaluation procedures and for the co-ordination of examinations.

(3) Students are advised each year of the procedures to be used in their evaluation, the determination and reporting of their grades and the standards required by the Faculty. Students are also advised of the procedures for appeal established within the Faculty and the University.

(4) Each student is awarded a grade point average at the conclusion of each phase of the program on the basis of his or her performance in course examinations held during the phase and on a final comprehensive examination.

(5) A student with a grade point average of less than 5.0 will not be permitted to proceed in the M.D. program except at the discretion of the Faculty.

(6) Supplemental privileges, when awarded, normally apply to the full comprehensive examination, and satisfactory completion of a remedial program may be required before taking the examination.

(7) A student granted supplemental examination privileges will be expected to show marked improvement over previous performance and to obtain a grade point average of at least 5.5.

(8) A student neglecting to take a supplemental examination will not be allowed to continue in Medicine.

(9) No student will be allowed to proceed to any subsequent year of the medical program unless he or she has completed all the work of the previous year.

(10) No student will be allowed to repeat the first year of the medical program except in special circumstances approved by the Faculty.

(11) A student permitted to repeat a failed year who fails to obtain a satisfactory record in the First Term in that year will be required to withdraw from the Faculty.

(12) Except in very unusual circumstances, a student who is repeating a year will be required to withdraw unless he or she obtains a grade-point average of at least 5.5 in the work of the repeated year.

(13) Any student whose work, or performance, is deemed unsatisfactory will be required to withdraw from the Faculty of Medicine.

(14) A student whose performance during the student internship is deemed to be unsatisfactory will be required to satisfactorily complete a remedial period of training in that discipline or may be required to withdraw from the Faculty.

122.2.2 B.SC. PROGRAM IN MEDICAL LABORATORY SCIENCE

(1) Promotion in the Medical Laboratory Science program is dependent on satisfactory completion of all work of the previous year with a minimum grade point average of 5.0 as well as the following requirements:

First year: A student must obtain a minimum average of 5.0 in the combined grades for CHEM 200 and 250.

Second Year: A student must obtain a minimum grade of 5.0 in each of BACT 361, CL PA 367 and CLBIO 369.

Third Year: A student must obtain a minimum grade of 5.0 in PATH 400.

Fourth Year: A student must obtain a minimum grade of 5.0 in PATH 401 and one of PATH 508, 509 or BACT 510.

(2) Supplemental examination privileges may be granted at the discretion of the Faculty Revisions Committee.

(3) Students are required to take a minimum of twelve (12) credits in science courses at the 400 level or higher in the fourth year of the program.

123 PROGRAMS OF STUDY

123.1 The Degree of M.D.

123.1.1 GENERAL INFORMATION

The four year program leading to the M.D. degree is conducted in three Phases, each under the direction of an interdepartmental Faculty Committee.

Phase I. A one year (33 week) program in the basic medical sciences with an introduction to clinical medicine. Co-ordinator: Dr. J. Elbrink.

Phase II. A one year (33 week) program in clinical and related basic medical sciences taught in a body system format in the context of the mechanisms of human disease. Co-ordinator: Dr. B. J. Sproule.

Phase III. The final two years is a continuous program which includes a student internship of not less than 52 weeks and an elective program of approximately 22 weeks which each student develops individually.

A wide range of elective programs in all aspects of medical science, medical practice and related areas is available.

To conform with University procedures and to facilitate applications for financial assistance, students entering fourth year will be required to re-register by July 1st prior to undertaking the final year of the program.

During Phase III each student is entitled to a four week holiday period. Co-ordinator: Dr. W. W. Yakimets

123.1.2 PHASE I (FIRST YEAR)

	Hours
ANAT 411 (Preclinical Anatomy)	276
ANAT 413 (Human Cytology, Histology and Organology)	144
BACT 411 (Medical Microbiology)	80
BIOCH 411 (General Biochemistry)	133
CO ME 411 (Community Medicine)	20
MED 411 (Clinical skills)	54
PATH 411 (General Pathology)	30
PMCOL 411 (Principles of Pharmacology)	74
PHYSL 411 (Human Physiology)	139

123.1.3 PHASE II (SECOND YEAR)

	Hours
CO ME 421 (Community Medicine)	12
MED 421 (Mechanisms of Disease)	
Medically oriented subjects.	
(a) Electrolyte Balance	8
(b) Clinical Skills	22
(c) Cardiovascular System	78
(d) Endocrinology and Metabolism	54
(e) Gastrointestinal System	70
(f) Genetics	14
(g) Hematology	62
(h) Immunology	16
(i) Infectious Disease	72
(j) Nephrology	44
(k) Oncology	20
(l) Pulmonary	60
(m) Rheumatology	24
Surgically oriented subjects	
(n) Otolaryngology	4
(o) Ophthalmology	28
(p) Supplementary Surgery	90
(q) Urology	44
NEURO 421 (Neurological Sciences)	105
PATH 421 (Pathology)	68
PMCOL 421 (Pharmacology)	52
PSYCI 421 (Introduction to Psychiatry)	30

123.1.4 PHASE III (THIRD AND FOURTH YEAR)

	Hours
OB GY 431	80
SURG 431 (Orthopaedics)	56
PATH 441	15
CO ME 431	20
MED 441	125
MED 442	58
	Weeks
MED 446 (Student Internship)	16
OB GY 446 (Student Internship)	8
PAED 446 (Student Internship)	8
PSYCI 446 (Student Internship)	8
SURG 446 (Student Internship)	12
Electives	22

123.2 The Degree of B.Sc. in Medical Laboratory Science

123.2.1 GENERAL INFORMATION

The Faculty of Medicine conducts a four-year program in Medical Laboratory Science, intended to qualify selected applicants for a career as laboratory supervisors or senior technologists in hospitals or medical science laboratories. The first, second, and fourth years of the program are regular university years. The third year, beginning approximately May 1, consists of a twelve month period of practical laboratory training under the direct supervision of the Faculty of Medicine. Students will receive some remuneration from The University of Alberta Hospital during the third year of the program. At the end of this year, they are eligible to take the examinations of the Canadian Society of Laboratory Technologists.

NOTE: Because individuals working in hospital laboratories run some risk of infection from materials which they will be handling, all students in the Medical Laboratory Science program must take a series of immunizations approved by the office of the Dean of Medicine before beginning the second year.

123.2.2 PROGRAM OF COURSES

First Year	*First Term Hours*	*Second Term Hours*
CHEM 200 (Chemistry)	3-1s-3	3-1s-3
CHEM 250 (Organic Chemistry)	3-0-3	3-0-3
BIOL 297 (Heredity)	3-0-3or	3-0-3
PHYSL 261 (Elementary Physiology)	3-0-0	3-0-3
MICRB 315 (General Microbiology I)	3-0-3	—
PATH 291 (Introduction to Laboratory Medicine)	—	3-0-2
An Approved Option	3-0-0	3-0-0

Second Year		
BACT 361 (Pathogenic Bacteriology)	3-0-3	3-0-3
CL PA 367 (Hematology)	3-0-6	3-0-6
CLBIO 369 (Clinical Biochemistry)	3-0-3	3-0-3
PATH 231 (Introduction to Histopathology)	3-0-3	—
An Approved Science Option*	—	3-0-3
An Approved Option	3-0-0	3-0-0
Third Year		
BIOCH 300 (General Biochemistry)	3-0-3	3-0-3
PATH 400 (Medical Laboratory Science I) (See Note A)	—	—
Fourth Year		
PATH 401 (Medical Laboratory Science II)	3-0-6	3-0-6
One of PATH 508, PATH 509 or BACT 510 (Special Project)	0-0-3	0-0-3
An approved Science option* (See Note B)	3-0-0	3-0-0
An approved Science option*	3-0-0	3-0-0
An approved Arts option (See Note C)	3-0-0	3-0-0

*A list of approved Science options will be made available to students prior to registration.

NOTE A: PATH 400 (Hospital practice). Students will be assigned to hospital laboratories approved for this purpose by the Council of the Faculty of Medicine.

NOTE B: One of the approved Science options must be a course which requires laboratory sessions.

NOTE C: Fourth year students are required to take twelve (12) credits at the 400 level or higher in approved Sciences.

123.3 The Degree of B.Sc. in Medicine

A one-year program of study in a branch of medical science leading to the degree of Bachelor of Science in Medicine may be undertaken either at the completion of the second year of the medical program or following the degree of M.D. The work for this degree may be carried out in any department of the Faculty of Medicine, but may not be taken concurrently with any part of the medical curriculum nor by a student carrying any condition in his/her medical program.

123.4 The Degree of Bachelor of Medical Science

The degree of Bachelor of Medical Science may be awarded to students in the M.D. program at the end of the second year of that program who have fulfilled the following requirements at this or another University:

First Year
Two Science Courses
Three Arts or Science Courses

Second Year
Two Science Courses
Three Arts or Science Courses

Third Year
First year (Phase I) M.D. Program

Fourth Year
Second year (Phase II) M.D. Program

Provided that:

(a) None of the courses presented have been used for credit toward another degree.

(b) The program does not include more than seven junior arts or science courses.

(c) The science courses include:

(i) Chemistry 200 or 202 or equivalent,

(ii) Chemistry 250 or 350 or equivalent,

(iii) Two of Biology 296, 297, 298 or 299 or equivalent,

(iv) Physics 212 or 205/207, or 205/209, or equivalent for applicants who have credit in Physics 30. Physics 203/207 or 203/209, or equivalent for applicants without Physics 30.

(d) The Science options do not include first courses in biochemistry or physiology.

(e) At least the final two years have been taken at The University of Alberta.

(f) A grade-point of 4.0 or better in all courses and a Grade Point Average in each year of at least 5.0 or equivalent is presented.

(g) Not more than two supplemental examinations have been written for the purpose of obtaining passing marks or raising the Grade Point Average to the required 5.0.

123.5 Graduate Study

123.5.1 THE DEGREES OF M.SC. AND PH.D.

Programs leading to the degree of Master of Science or Doctor of Philosophy in any of the basic medical sciences, in medicine, surgery, ophthalmology, paediatrics and radiology are conducted under the auspices of the Faculty of Graduate Studies and Research. There is also an interdisciplinary Ph.D. program in the medical sciences offered cooperatively by the departments of Immunology, Medical Bacteriology, Medicine, Pathology, Paediatrics and Psychiatry. These programs are open to graduates in Medicine or to holders of an acceptable B.A. or B.Sc. degree who can meet the requirements of the Faculty of Graduate Studies and Research.

For further information, see the Faculty of Graduate Studies and Research Calendar.

123.5.2 THE DEGREE OF MASTER OF HEALTH SERVICES ADMINISTRATION

The Division of Health Services Administration, under the direction of the Faculty of Graduate Studies and Research, offers a two-year program leading to the degree Master of Health Services Administration. The student may select either a thesis or a non-thesis route to the degree.

The thesis option emphasizes the development of research and planning expertise relevant to efficient and effective health and social services delivery. The non-thesis option emphasizes the development of administrative expertise relevant to service programs and agencies in the health and welfare fields.

The details of a student's course requirements are determined by the faculty of the Division and consideration is given to the student's prior background of course work and experience as well as his/her career plans. Each student is expected to develop an area of special interest such as hospitals, nursing service, social welfare, medical care, epidemiology, and so on. Within this framework, the normal Qualifying Year course requirements are as follows:

WINTER SESSION

First Term

H S A 400 Health and Welfare Delivery Systems
H S A 420 Structure and Process in Health and Welfare Service Agencies

H S A 430 Methods and Statistics in Health Services Administration: I

Two of:

H S A 435 Survey of Epidemiology
H S A 450 Health Services Accounting
H S A 470 Introductory Health Care Economics

Second Term

H S A 401 Problems and Issues in Health and Welfare Delivery
H S A 431 Methods and Statistics in Health Services Administration: II

One of:

H S A 421 Management of Health and Welfare Service Agencies
H S A 513 Nursing Service Administration*

Two of:

H S A 451 Application of Managerial Accounting to Health Service Agencies
H S A 471 Application of Economic Principles Health Services Administration
H S A 535 Problems and Issues in Epidemiology

MAY-AUGUST SUMMER PERIOD

H S A 499 Field Practicum (four months)

*Alternative courses in mental health services administration, occupational health, home care administration, public health administration, and so on, may be available in any given year, depending on student interest and available faculty resources.

In the Candidacy Year, students in the non-thesis option must complete H S A 900, 600, 601, and six additional half-year courses, or equivalent; thesis option students must complete four to six half-year courses, or equivalent, depending on the scope of the thesis. Normally *all* students must complete at least two of the following pairs of Candidacy Year courses: H S A 530-531, H S A 550-551, H S A 560-561, H S A 570-571.

Consideration may be given to major modifications in the course work outlined above in exceptional circumstances of prior education, work experience, and career interest.

The MHSA program is acceptable to the Council of the Royal College of Physicians and Surgeons of Canada as a portion of the specialty training program in Community Medicine.

Requests for further information should be forwarded to the Director, Division of Health Services Administration, The University of Alberta, 13-103 Clinical Sciences Building, Edmonton, Alberta. T6G 2G3.

Requirements of Admission

(1) A baccalaureate degree with a grade point average of at least 6.0 in the work of the last two undergraduate years at The University of Alberta, or an equivalent qualification from another institution;

(2) Submission of the results of a Miller Analogies Test;

(3) A statement from the Director of the Division of Health Services Administration (following review of the application) that the applicant is, in all respects, acceptable to the Department.

NOTE: Further information may be obtained from the Director, Division of Health Services Administration, Faculty of Medicine.

123.5.3 THE DIPLOMA IN HEALTH SERVICES ADMINISTRATION

The Division of Health Services Administration offers a post-graduate Diploma in Health Services Administration.

The purpose of the diploma is to provide post-baccalaureate educational experience in health services administration to a larger number of health care personnel than is currently possible within the framework of the Master's program in Health Services Administration at The University of Alberta. This program will be of particular interest to health and welfare executives seeking mid-career educational opportunities.

The following policy will govern operation of the Diploma program:

(1) In order to be admissable to the program, the applicant must have had three years' experience in an administrative, clinical, or research position in the health or welfare field and must meet all other Faculty of Graduate Studies and Research standards, namely:

(a) a baccalaureate degree with a grade point average of at least 6 in the work of the last two years;

(b) a statement from the director of the Division that the applicant is in all respects acceptable as a student; and

(c) English language proficiency (for all non-Canadians for whom English is not the major language).

(2) The diploma may be completed on a full-time or part-time basis but must be finished within 4 academic years of initial registration: it can be completed in one full-time academic year. Normally, only courses taken within the five years prior to registration may be considered for exemption from the diploma course requirements: no more than two exemptions will normally be allowed.

(3) The course requirements will be:

H S A 400 Health and Welfare Delivery Systems
H S A 401 Problems and Issues in Health and Welfare Delivery
H S A 420 Structure and Process in Health and Welfare Service Agencies

One of:

H S A 421 Management of Health and Welfare Service Agencies
H S A 513 Nursing Service Administration

Four of:

H S A 430 Methods and Statistics in Health Services Administration: I
H S A 431 Methods and Statistics in Health Services Administration: II
H S A 450 Health Services Accounting
H S A 451 Application of Managerial Accounting to Health Service Agencies
H S A 470 Introductory Health Care Economics
H S A 471 Application of Economic Principles to Health Services Administration

Plus: Two approved electives, which will be either advanced (candidacy year) courses in health services administration or other courses outside the Division which are deemed to be centrally relevant to the career interests and needs of the student because of the specialized knowledge which they provide.

(4) Grade requirements for graduation will be the same as those for a Master's degree at The University of Alberta, that is, a grade point average of 6, or better.

(5) Procedures for admission, student review and student discipline will be the responsibility of a Committee of the whole of the full-time Health Services Administration faculty, as it is for Master's students.

NOTE: Further information may be obtained from the Director, Division of Health Services Administration, Faculty of Medicine.

123.5.4 COMBINED M.D. PH.D. PROGRAM

A Medical Scientist Program is available for highly qualified students strongly motivated toward a career in medical sciences. It will require seven years of study (after admission to the Faculty of Medicine) and will lead to the acquisition of both an M.D. and a Ph.D. degree. The program is designed to equip its graduates to pursue a career of teaching and research either in

one of the basic medical sciences or in clinical medicine. The mechanism by which the combined program may be completed is outlined below.

A student may, after completion of two years of the medical program, withdraw from that program and apply for admission to the Faculty of Graduate Studies and Research. If acceptable to the appropriate basic science department and to the Faculty of Graduate Studies and Research, the student would embark upon a program leading to the Ph.D. degree. The time required for the completion of the requirements for the Ph.D. degree would depend upon the previous training of the applicant, and would be normally three years in the case of a student who had entered the Faculty of Medicine holding a B.Sc. degree, and four years in the case of a student who entered the Faculty of Medicine from a two-year pre-medical program. Upon completion of the Ph.D. program, the student could re-enter the Faculty of Medicine and complete the requirements for the M.D. degree.

123.5.5 GRADUATE TRAINING IN MEDICAL AND SURGICAL SPECIALTIES

Graduate training programs fulfilling requirements laid down by the Royal College of Physicians and Surgeons of Canada are offered in the following specialties: Anaesthesia, General Surgery, Internal Medicine (and its subspecialties), Laboratory Medicine (Anatomical Pathology, General Pathology, Haematological Pathology, Medical Biochemistry and Medical Microbiology, Nuclear Medicine, Neurology, Neurosurgery, Obstetrics and Gynaecology, Ophthalmology, Orthopaedic Surgery, Otolaryngology, Paediatrics, Physical Medicine and Rehabilitation, Plastic Surgery, Psychiatry, Radiology (Diagnostic), Radiation Oncology, Thoracic and Cardiovascular Surgery and Urology.

In addition, two-year periods of graduate training for certification by the College of Family Physicians Physicians are available under the auspices of the Division of Family Medicine.

In all specialties, the graduate program takes the form of successive residency and sometimes research appointments with increasing responsibility during which seminars and directed reading programs are conducted covering the scope of the specialty. All individuals accepted for specialty programs and including rotating interns are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

Programs are open to suitably qualified graduates who are eligible to have their names placed on the Educational Register of the College of Physicians and Surgeons of Alberta. Commencing 1 January 1981 all foreign medical graduates will be required to have passed the new Evaluating Examination of the Medical Council of Canada to be eligible for registration with the College.

Inquiries regarding these programs should be directed to the Director, Division of Postgraduate Medical Education, Clinical Sciences Building, The University of Alberta.

123.6 Continuing Medical Education

The objective of the Division of Continuing Medical Education is to provide the practicing physician with the opportunity to remain up-to-date in knowledge, skills and attitudes of the practice of Medicine. The Division organizes a variety of post graduate learning events for family practitioners and specialists. These include Regional Conferences in outlying hospitals of Central and Northern Alberta, major university based courses, and clinical externship programs in the teaching hospitals of Edmonton for individual physicians. The Division co-sponsors teaching events with a variety of para-medical organizations and organizes some joint events with medical and para-medical registrants. The Division enjoys the support of the College of Family Physicians of Alberta and the Alberta Medical Association.

124 DETAILS OF COURSES

124.1 General Information

In the following sections, courses offered by the various departments of the Faculty are listed in alphabetical order.

Each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when filling in their registration forms.

Following the title of the course is the symbol "★", standing for "course weight", and a number indicating the weight of the course as used in computing grade-point averages. Some courses are offered for credit only and carry no weight.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week or in some cases the total time in the term. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The hours of instruction are the same in both terms unless otherwise indicated. If the course lasts only one term, the term in which it may be offered is mentioned before the hours of instruction.

THE APPEARANCE OF A COURSE DESCRIPTION IN THE FOLLOWING LIST DOES NOT CONSTITUTE ANY GUARANTEE THAT THE COURSE WILL ACTUALLY BE OFFERED IN THE FORTHCOMING SESSION. INFORMATION AS TO WHICH COURSES WILL BE OFFERED, THE NAMES OF THE INSTRUCTORS, AND ALL FURTHER DETAILS MUST BE SOUGHT FROM THE DEPARTMENT CONCERNED.

124.2 Anaesthesia

124.2.1 UNDERGRADUATE COURSES

Instruction in Theoretical aspects of Anaesthesic practice is included in Pharmacology 421.

124.2.2. ELECTIVES

ANAES 447. ★0 (4 weeks). Supervised clinical experience in anaesthesia and management of the unconscious patient in affiliated hospitals for students in Phase III only.

124.2.3 GRADUATE TRAINING

A complete residency program in Anaesthesia is offered by the Department of Anaesthesia and affiliated hospitals. It comprises two years approved training in clinical anaesthesia, a year for neonatal and adult intensive care as well as cardiopulmonary medicine, and a year doing research, additional clinical anaesthesia, or an alternative acceptable to the Royal College. In the course of this program which covers a minimum of four years, residents pass through:

	Weeks
ANAES 541 First Year Anaesthesia	52
ANAES 542 Second Year Anaesthesia	52
ANAES 543 Third Year Anaesthesia	52
ANAES 544 Fourth Year Anaesthesia	52

and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.3 Anatomy

124.3.1 UNDERGRADUATE COURSES

ANAT 300. *Human Morphology.* ★3 (Second Term, 3-0-0). An overview of human structure. Emphasis is placed on the systems of the body and their co-operative role in normal function. A lecture course open to Pharmacy students only.

ANAT 411. *Preclinical Anatomy.* ★6 (276 hours). A survey of the human body including its development, from a medical point of view, through the media of participation in laboratory work using modern equipment and original techniques and television demonstrations. Designed to enable the student to acquire a sound knowledge of basic anatomy as required in the clinical years and to develop a concept of the total body. Prerequisite: A University level biology or zoology course and consent of the Department.

ANAT 412. *General Anatomy.* ★5 (First Term, 105 hours). Gross anatomy of the body in general and of the head and neck in detail, with emphasis on clinical dental practice. This course is open only to dental students.

ANAT 413. *Human Cytology, Histology, and Organology.* ★6 (144 hours). The minute structure of all cells, tissues, and organs of the human body. Laboratory work with tutorial assistance allows for group learning and self-teaching. Prerequisite: A University level biology or zoology course and consent of the Department.

ANAT 417. *Microscopic Anatomy.* ★3 (First Term, 60 hours). The microscopic features of cells, tissues and organs of the human body to provide a comprehensive knowledge in the basics of general human histology. This course is open only to dental students.

ANAT 419. ★2 (Second Term, 30 hours). A basic course in the main structural and functional aspects of the central nervous system, with emphasis on the practical importance of neurological science rather than theoretical concepts. This course is open only to dental students.

NEURO 421. *Neurological Sciences.* ★5 (2-0-2). An integrated course in neuroanatomy, neuropathology, neuroradiology, neuropharmacology, neurology, and neurosurgery. Instructors: members of the Departments of Anatomy, Neurology, Neuroradiology, Neurosurgery, Pharmacology, and Pathology.

124.3.2 ELECTIVES

ANAT 447. ★0(4 weeks). Elective program in Anatomy only for students in Phase III.

124.3.3 GRADUATE COURSES

ANAT 601. *Histology and Cytology.* ★6 (2-0-4).

ANAT 602. *Developmental Anatomy.* ★3 (First Term, 2-0-4).

ANAT 604. *Advanced Neuroanatomy.* ★6 (2-0-2).

ANAT 605. *Gross Anatomy.* ★6 (2-0-4).

124.4 Medical Bacteriology

124.4.1 UNDERGRADUATE COURSES

BACT 230. *Introductory Medical Microbiology.* ★3 (Second Term, 2-0-2). Microbiology with special reference to aspects of importance in the medical field. The laboratory sessions cover important techniques specifically designed for first year students in the M.L.S. program.

BACT 231. *Medical Microbiology.* ★3 (either term, 2-0-3). Microbiology course dealing with the nature, characteristics, and activities of micro-organisms and their relationship to health and disease. Designed primarily for students in R.N. Program. The course is a half-year course offered both terms.

BACT 233. *Medical Microbiology.* ★3 (Second Term, 2-0-3). General microbiology course dealing with micro-organisms, their nature, distribution and role in disease. Particular emphasis is placed on epidemiology of infection, responsibilities with hospitals and prevention and control of infection. Course designed for students in B.Sc. Nursing, Premedical and others interested in medical microbiology.

BACT 304. *Bacteriology.* ★4 (Second Term, 3-0-3). An introduction to general bacteriology, aspects of infection and resistance, selected examples of infectious disease. Special bacteriology of the mouth including dental caries and peridontal disease. Course designed for dental hygiene students.

BACT 361. *Pathogenic Bacteriology.* ★6 (3-0-3). The role of bacteria, viruses and fungi in disease. Introductory consideration of mechanisms of microbial pathogenicity and human resistance. Particular emphasis is placed on diagnostic procedures. Prerequisite: BACT 230 or MICRB 315. Open to students in Medical Laboratory Science and to others with consent of the Department.

BACT 411. *Medical Microbiology.* ★4 (80 hrs). An introductory course for medical students illustrating principles of microbiology by examples drawn from the medical field. Introduction to principles of host-parasite interaction. Available to first year medical students.

BACT 422. *Bacteriology.* ★3 (First Term, 40 hours). General microbiology with an introduction to morphology, physiology and genetics of micro-organisms and a consideration of fundamental aspects of infection and resistance. A study of the most common infectious diseases with emphasis on infections of the mouth including dental caries and peridontal disease. Course specifically designed for dentistry students.

BACT 425. *Medical Virology.* ★3 (Second Term, 1-0-5). A detailed examination of the principles underlying the identification of viruses of medical importance. Strong emphasis will be placed upon the practical application and rationale of viral diagnostic methods. Prerequisites: MICRB 424 and consent of the Department of Medical Bacteriology.

BACT 426. *Medical Parasitology.* ★3 (First Term, 3-0-3). A survey of the protozoan and metazoan parasites of man. Emphasis will be placed on laboratory methods for detection and identification as an aid to diagnosis and therapy. Prerequisite: A course in medical bacteriology or consent of the Department.

124.4.2 ELECTIVES

BACT 447. ★0 (4 weeks). Elective program in medical bacteriology offered only for medical students in Phase III.

124.4.3 GRADUATE COURSES

BACT 501. *Microbiology Literature Review.* ★3 (either term 3-0-0). A supervised course dealing with current ideas in microbiology. Students attend discussion sessions in the Department and prepare seminars.

BACT 504. *Medical Mycology.* ★3 (First Term, 1-0-3). Laboratory study of the fungi which cause disease in man. Methods for the demonstration, isolation and identification of pathogenic fungi. Some attention will also be given to the

epidemiology, serology and pathology of fungus diseases. Prerequisite: A course in medical bacteriology.

BACT 505. *Mechanisms of Pathogenicity.* ★3 (First Term, 3-0-3). A functional approach to the production of disease by microbes emphasizing biochemical, immunological and physiological properties of host and microbe which account for a pathological process. Prerequisites: Introductory bacteriology or microbiology and biochemistry or consent of the Department.

BACT 506. *Topics in Advanced Diagnostic Microbiology.* ★3 (Second Term, 2-0-4). Designed for advanced undergraduate and graduate students in Science and in Medicine. New approaches and problem handling in diagnostic microbiology. Examples used will be the organisms of the genital tract with emphasis on agents of sexually transmitted diseases. Prerequisites: BACT 361 or MICRB 365 and the consent of the Department.

BACT 508. *Special Projects.* ★3 (either term, 0-0-3).

BACT 509. *Special Projects.* ★3 (either term, 0-0-3).

BACT 510. *Special Projects.* ★3 (either term, 0-0-3).

BACT 511. *Special Projects.* ★3 (either term, 0-0-3).

BACT 512. *Special Projects.* ★3 (either term, 0-0-3).

BACT 530. *Biological Techniques in Electron Microscopy.* ★3 (either term, 1-0-5). Biological techniques in electron microscopy with special emphasis on those which apply to medical microbiology. The course will include theory and use of the electron microscope, preparation of microbiological and biological material for examination by electron microscopy using various basic techniques, photography and other related topics. Prerequisite: A university course in basic biology or microbiology and consent of the Department of Medical Bacteriology.

BACT 531. *Advanced Biological Techniques in Electron Microscopy.* ★3 (either term, 1-0-5). Advanced biological techniques in electron microscopy with special emphasis on those which apply to medical microbiology. The course will include an extension of techniques covered in Bacteriology 530 and will include more advanced techniques of specimen preparation and use of the electron microscope. Prerequisite: BACT 530 (or adequate previous experience in electron microscopy of biological materials) and consent of the Department of Medical Bacteriology.

124.4.4 GRADUATE TRAINING

A complete residency program leading to fulfillment of specialist training requirements in Medical Microbiology is offered by the Department of Medical Bacteriology. In the course of the four-year program, residents pass through:

	Weeks
BACT 541 First Year Medical Bacteriology	52
BACT 542 Second Year Medical Bacteriology	52
BACT 543 Third Year Medical Bacteriology	52
BACT 544 Fourth Year Medical Bacteriology	52

and are assessed before promotion from year to year of the program. During the period of graduate specialty training all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.5 Biochemistry

124.5.1 UNDERGRADUATE COURSES

BIOCH 300. *General Biochemistry.* ★6 (3-0-3). Structure and chemistry of the cell; the chemistry and metabolism of carbohydrates, lipids, proteins, and nucleic acids; the molecular biology of enzymes and genes as related to the functioning of the living cell. Prerequisites: CHEM 200 or 202; and 250 or 350.

BIOCH 411. *General Biochemistry.* ★6 (133 hours). Structure and chemistry of the cell; the chemistry and metabolism of carbohydrates, lipids, proteins, and nucleic acids; the molecular biology of enzymes and genes as related to the functioning of the living cell. Prerequisites: CHEM 200 or 202; and 250.

124.5.2 ELECTIVES

BIOCH 447. ★0 (4 weeks). Elective program in biochemistry offered only for students in Phase III.

124.5.3 GRADUATE COURSES

BIOCH 501. *Advanced Laboratory.* ★6 (0-0-8).

INT D 505. *Intermediary Metabolism.* ★3 (First Term, 3-0-0). Microbiology. Offered in alternate years.

BIOCH 511. *Enzymology.* ★3 (First Term, 3-0-0). Offered in alternate years.

BIOCH 512. *Metabolic and Cellular Control Mechanisms.* ★3 (Second Term, 3-0-0). Offered in alternate years.

BIOCH 521. *Nucleic Acids.* ★3 (First Term, 3-0-0). Offered in alternate years.

BIOCH 531. *Chemistry of Proteins.* ★3 (Second Term, 3-0-0). Offered in alternate years.

BIOCH 581. *Structure and Function of Biological Membranes I.* ★3 (First Term, 3-0-0). A general survey of structure and function of biological membranes. The structure and properties of various phospholipid-water model membrane systems and the molecular interactions of these systems with ions, sterols, antibiotics and proteins will be considered initially. The composition, molecular architecture and many of the functions of biological membranes will then be discussed, with emphasis on the important role of phospholipids in determining many of the structural and functional properties of these complex structures. Use of the current literature will be stressed. Prerequisites: BIOCH 300 and CHEM 370 or 372 or consent of the Department. Note: Designed for advanced honors and graduate students and offered in alternate years.

BIOCH 582. *Structure and Function of Biological Membranes II.* ★3 (Second Term, 3-0-0). Selected topics in membrane biochemistry. These will include bioenergetics and membrane transport and the role of membranes in the regulation of specific intracellular and intercellular phenomena. Prerequisites: BIOCH 581 or consent of the Department. Note: Designed for advanced honors and graduate students and offered in alternate years.

BIOCH 608. *Macromolecular Structure Analysis I.* ★3 (First Term, 3-0-3). The application of electron microscopy to the examination of the structures of macromolecular assemblies such as viruses and membranes. Emphasis on preparation techniques, using the transmission EM, and interpreting micrographs. Designed for senior honors and graduate students. Prerequisite: Consent of the instructor. Maximum enrollment of 10 students. Offered in alternate years.

BIOCH 609. *Macromolecular Structure Analysis II.* ★3 (Second Term, 3-0-3). The principle of x-ray crystallography as applied to the study of protein and nucleic acid structure. Students will collectively carry out a structural determination of a suitable small molecule of biological interest. Designed for senior honors and graduate students. Prerequisite: Consent of the instructor. Maximum enrollment of 10 students. Offered in alternate years.

BIOCH 623. *Special Topics in Research on Polynucleotides.* ★2 (0-2s-0).

BIOCH 626. *Special Topics in Protein Research.* ★2 (0-2s-0). A seminar course for advanced students. Detailed consideration is given to recent advances in research on protein structure and function and mechanism of enzyme action. Prerequisites: BIOCH 511 and 531 or consent of the Department.

BIOCH 630. *Elements of Modern Biophysics.* ★3 (both terms, 1.5-0-0). Course content will vary from year to year but will include topics such as quantum mechanics for biochemists, nuclear magnetic relaxation theory, and fluorescence spectroscopy. Intended for graduate students in the biological sciences interested in physical techniques and their application to studies of biological systems. Format will include seminars by students themselves. Prerequisite: Consent of the instructor.

BIOCH 671. *Recent Advances.* ★2 (0-2s-0). A seminar course on topics of current interest in Biochemistry. Note: Open to Graduate students in Biochemistry only.

Courses in Clinical Biochemistry are listed under § 124.16 (Pathology).

124.6 Biomedical Engineering and Applied Sciences

124.6.1 GENERAL INFORMATION

The Division provides research facilities and lecture courses leading to the M.Sc. degree. Additionally, students registered for M.Sc. or Ph.D. degrees in other University Departments have the possibility of conducting studies within the Division.

In the year 1979/1980 students from the Departments of Electrical Engineering, Radiology, Surgery and Zoology participated in the collaborative programs.

The major areas of research are in medical physics, organ preservation, neuro-physiology, and instrumentation.

124.6.2 GRADUATE COURSES

EE/BE 512. *Physical Measurements in Medicine.* ★3 (Second Term, 3-1s-0). Properties of the cell membrane. Nernst-Planck equation, Donnan membrane, constant field membrane, membrane impedance. Action potentials, voltage clamp measurements, membrane conductance H-H equations, nerve conduction. Mathematical models of the axon. Electrodes. Gas and blood gas analysis. The E.C.G., E.E.G., and the E.M.G., origin and type of these signals, measurement techniques. Blood flow and blood pressure measurements (invasive and non-invasive). Safety aspects of electrical equipment in medicine. Prerequisite: Consent of Department. (□ 3.5.)

BEAS 600. *Seminars in Biomedical Engineering and Applied Sciences.* ★2. (First Term, 0-2s-0). A series of seminars designed to expose graduate students to the various areas of research and to provide a forum for progress reports in individual areas. Seminars from research workers from inside and from outside the University will be included. Seminars are held in an informal atmosphere with ample opportunity for discussion.

124.7 Community Medicine

124.7.1 UNDERGRADUATE COURSES

CO ME 411. *Whole Class and Group Discussions.* ★2 (20 hours). The whole class lectures introduce students to the importance of epidemiology, demography, life styles, etc., in understanding disease causation. The small group sessions provide students their first opportunity to participate in patient interviews and case studies.

CO ME 421. ★1 (12 hrs.). A series of whole class lectures on behavioral sciences in medicine and occupational health.

CO ME 431. ★1. A series of formal presentations on topics pertinent and relevant to the practice of medicine.

124.7.2 ELECTIVES

CO ME 447. ★0 (4 weeks). A wide range of elective programs are offered through the Department of Community Medicine including Provincial Health Units, Northern Medicine, Occupational Health, Industrial Health, Toxicology, Epidemiology, Community Health Resources, Health Care Delivery, Behavioral Sciences in Medicine and Rehabilitation Medicine.

124.7.3 GRADUATE COURSES

See § 204.18 of the Faculty of Graduate Studies and Research Calendar.

124.7.4 GRADUATE TRAINING

Community Medicine. A four-year residency program of training towards certification by the Royal College of Physicians and Surgeons in Community Medicine is offered by the Department. Details can be obtained from the Department Chairman.

124.8 Elective Courses

A Program of electives described in the Faculty Elective Catalogue forms a mandatory part of Phase III (see § 123.1.4). Co-ordinator — Dr. W. W. Yakimets.

Elective courses may be taken in Phase I and Phase II or in the summer between Phases at the discretion of the student and with the consent of the department.

124.9 Health Services Administration

124.9.1 UNDERGRADUATE COURSES

H S A 300. *Health Care in Modern Society.* ★3 (either term, 3-0-0). An introduction to the structure and functions of the modern health care system.

H S A 310. *Hospital Organization and Management.* ★3 (either term, 3-0-0). An introduction to the principles and problems of organization and management of the modern hospital.

H S A 350. *Accounting and Finance in Health Service Agencies.* ★3 (either term, 3-0-0). An introduction to the principles and methods of accounting and finance in health and welfare organizations.

H S A 351. *Managerial Accounting in Health Service Agencies.* ★3 (either term, 3-0-0). The utilization of accounting and financial data for optimizing the efficiency and effectiveness of health services.

INT D 357. *Health Care Economics.* ★3. Resource allocation in the health care industry; production and cost relationships within various types of institutional settings (hospital, medical firm); the role or the price mechanism in allocating resources. Manpower planning, the role of the government and professional groups in allocating resources in the non-price sector of the health industry.

NOTE: These courses are normally offered only during the Spring Session.

124.9.2 GRADUATE COURSES

H S A 400. *Health and Welfare Delivery Systems.* ★3 (First Term 3-0-0). A review of the development of the Canadian health and welfare system and of its comtemporary structure and functions.

H S A 401. *Problems and Issues in Health and Welfare Delivery* ★3 (Second Term, 3-0-0). Analysis of selected problems in the delivery of health and welfare services.

H S A 410. *Hospital Organization and Management.* ★3 (Second Term, 3-0-0). The historical, contemporary, and emergent structure, functions, and problems of the hospital as a community health resource. Lectures and field trips.

H S A 411. *Medical Care Administration.* ★3 (Second Term 3-0-0). The development of modalities for the delivery of medical care and their contemporary and emergent structure, functions, and problems. Lectures and field trips.

H S A 412. *Social Welfare Administration.* ★3 (Second Term 3-0-0). An introduction to the structure and functions of social welfare programs.

H S A 420. *Structure and Process in Health and Welfare Service Agencies.* ★3 (First Term, 3-0-0). An introduction to the application of social science theory and research to the administration of health and welfare agencies.

H S A 421. *Management of Health and Welfare Service Agencies.* ★3 (either term, 3-0-0). Applications of social science theory and research findings to the administration of health and welfare agencies. Lectures and field projects.

H S A 430. *Methods and Statistics in Health Services Administration: I.* ★3 (First Term, 3-0-0). An introduction to statistical theory and statistical tests as they relate to research and decision making in health service agencies.

H S A 431. *Methods and Statistics in Health Services Administration: II.* ★3 (Second Term, 3-0-0). An introduction to basic methodological procedures as they apply to research and decision making in health services administration.

H S A 435. *Survey of Epidemiology.* ★3 (First Term, 3-0-0). An introduction to the basic principles of epidemiology and vital statistics, and their uses in the study of the natural history of disease, with special reference to communicable disease.

H S A 450. *Health Service Accounting.* ★3 (First Term, 3-0-0). An introduction to managerial accounting in the context of health service agencies. The special problems of cost-benefit analysis and of cost control in health service organizations.

H S A 451. *Application of Managerial Accounting to Health Service Agencies.* ★3 (Second Term, 3-0-0). A review of budgeting and cost control techniques in health and welfare service agencies.

H S A 460. *Electronic Data Processing and Computer Utilization for Health Service Administrators.* ★3. (First Term, 3-0-0). Introduction to computer hardware and software, data structures and processing, basic algorithms and programming languages. Management information systems in health services administration.

H S A 470. *Introductory Health Care Economics.* ★3 (First Term, 3-0-0). An introductory survey of macroeconomic, microeconomic, and public finance models that are relevant to the health care field.

H S A 471. *Application of Economic Principles to Health Services Administration.* ★3 (Second Term, 3-0-0). A survey of health care economic theory and empirical studies. Topics and areas covered include (a) demand, supply, and utilization; (b) production and costs; (c) resource allocation in health care labour markets; (d) selected facets of health care planning; and (e) benefit-cost analysis. The empirical studies examined in this course require an understanding of simple and multiple regression techniques.

H S A 499. *Field Practicum.* ★6 (May 1-Aug. 31). A four month summer field experience practicum supervised by the faculty.

H S A 500. *Advanced Problems in Health Care Delivery.* ★3 (3-0-0). Critical analysis and evaluation of contemporary problems and emerging trends in the structure of the health and welfare delivery system in Canada as well as limited cross-cultural comparison of health care delivery systems. †

H S A 510. *Advanced Hospital Administration.* ★3 (either term, 3-0-0). Selected topics in manpower management and forensic medicine. †

H S A 511. *Special Seminar in Health Services Administration.* ★3 (0-3s-0). Selected topics in non-parametric statistics as applied to research in health services administration. †

H S A 513. *Nursing Service Administration.* ★3 (Second Term, 3-0-0). Identifying nursing service needs and approaches in diverse and rapidly changing health care systems, with particular emphasis on the changing role of chief nursing executives in health care agencies.

H S A 520. *Principles of Health Service Administration.* ★3 (either term, 3-0-0). A review of social science theory, method, and research findings as they relate to the administration and management of health and welfare service agencies.†

H S A 530. *Statistics for Health Service Administration.* ★3 (First Term, 3-0-0). A survey of basic vital, epidemiology, and probability statistics as applied to administrative planning, research, and problem solving in health service agencies.

H S A 531. *Research Methods in Health Service Administration.* ★3 (Second Term, 3-0-0). An overview of research needs, priorities, and approaches in health services administration. Emphasis on a practical, systematic approach to improving the quality and quantity of health and welfare services.

H S A 535. *Problems and Issues in Epidemiology.* ★3 (Second Term, 3-0-0). Review and discussion of contemporary epidemiological problems from the viewpoint of multifactorial aetiology, and the application of epidemiological principles to the study of chronic disease and accidents.

H S A 550. *Health Services Finance.* ★3 (First Term, 3-0-0). Cost accounting and budget applications in health and welfare service agencies. Methods of formulating and implementing organization policy in the context of contemporary health and welfare financial structures and policies.

H S A 551. *Problems and Issues in Health Services Finance.* ★3 (Second Term, 3-0-0). Critical analysis of selected issues and problems in health and welfare services finance.

H S A 560. *Planning and Operations Analysis in Health Services Administration.* ★3 (First Term, 3-0-0). Service population concept, catchment areas, and forecasting resource requirements. Network analysis, linear programming, queuing and simulation techniques in planning and administration of health service programs.

H S A 561. *Systems Analysis in Health Care Delivery.* ★3 (Second Term, 3-0-0). Statistical decision making and quality control techniques. Data acquisition methods. Work study methods and quantitative techniques in personnel management. Design of health care delivery evaluation systems.

H S A 570. *Health Care Economics.* ★3 (First Term, 3-0-0). Methods of allocating resources to the health care sector of the economy. The role of individuals and organizations in the decision process.

H S A 571. *Problems and Issues in Health Care Economics.* ★3 (Second Term, 3-0-0). Critical review and discussion of contemporary issues and problems in Canadian health care economics.

H S A 600. *Advanced Seminar in Health and Welfare Services Administration.* ★3 (First Term, 0-3s-0). Discussion and analysis of significant issues and problems in health and welfare administration.

H S A 601. *Advanced Seminar in Health and Welfare Services Delivery.* ★3 (Second Term, 0-3s-0). A proseminar on problems of health and welfare services delivery. Senior faculty and selected guests will participate.

H S A 610. *Conference Course.* ★3 (0-3s-0). Special readings seminar. †

H S A 630. *Quantitative Techniques in Health Services Planning and Evaluation: I.* ★3 (First Term, 3-0-0). Application of quantitative techniques to the planning and evaluation of health services with particular emphasis on intra-institutional problems. †

H S A 631. *Quantitative Techniques in Health Services Planning and Evaluation: II.* ★3 (Second Term, 3-0-0). Application of quantitative techniques to the planning and evaluation of health services with particular emphasis on intra-institutional and systemic problems. †

H S A 900. *Non-Thesis Project.* ★3 (variable). Preparation of a major research paper under faculty supervision.

† May not be offered in any given year, depending on student interest and available faculty resources.

124.10 Immunology

124.10.1 UNDERGRADUATE COURSES

Instruction in Immunology is included in Medicine 421. The Department of Immunology also offers elective undergraduate courses.

IMMUN 447. ★0 (4 weeks). Supervised laboratory and reading programs in immunology. Available for students in Phase III only.

Interested students should consult the entries for the Departments of Medicine and Pathology in this calendar, and for the Departments of Genetics (§ 184.11), Microbiology (§ 184.22), and Zoology (§ 184.32) in the Faculty of Arts and Science Calendar.

124.10.2 GRADUATE COURSES

IMMUN 500. *Current Topics in Immunology.* ★3 (Second Term, 3-0-0). Lecture and discussion sessions based on original factual and theoretical papers. Topics include the origin of antibody diversity, humoral and cell-mediated immunity, cellular collaboration, positive and negative regulatory mechanisms in immunity, self tolerance, unresponsive states, autoimmunity, transplantation, and immunogenetics. Students will be expected to prepare seminars on assigned topics. Prerequisite: Consent of the Department. Offered alternate years.

124.11 Interdepartmental Courses

124.11.1 UNDERGRADUATE COURSES

The Faculty conducts some of its instruction on an interdepartmental basis. This is particularly true in relation to the second year M.D. courses listed separately below.

MED 421. *Mechanisms of Disease.* ★31. Medically oriented subjects: (a) Electrolyte Balance (8 hours), (b) Clinical Skills (22 hours), (c) Cardiovascular System (78 hours), (d)

Endocrinology and Metabolism (54 hours), (e) Gastrointestinal System (70 hours), (f) Genetics (14 hours), (g) Hematology (62 hours), (h) Immunology (16 hours), (i) Infectious Diseases (72 hours), (j) Nephrology (44 hours), (k) Oncology (20 hours), (l) Pulmonary (60 hours), (m) Rheumatology (24 hours). Surgically oriented subjects: (n) Otolaryngology (4 hours), (o) Ophthalmology (28 hours), (p) Supplementary Surgery (90 hours), (q) Urology (44 hours).

NEURO 421. *Neurological Sciences.* ★5 (2-0-2). An integrated course in neuroanatomy, neuropathology, neuroradiology, neuropharmacology, neurology, and neurosurgery. Instructors: members of the Departments of Anatomy, Neurology, Neuroradiology, Neurosurgery, Pharmacology, and Pathology.

124.12 Medicine and Clinical Medicine

124.12.1 UNDERGRADUATE COURSES

MED 411. ★2 (54 hours). A course in the communication skills necessary for effective history taking and in the applied anatomy of the body regions.

MED 434. ★P-F (Second Term, 15 hours). General aspects of medicine with particular reference to local and systematic diseases of dental interest.

MED 441. ★0 (125 hours). A lecture series offered only for students in Phase III.

MED 442. ★2 (56 hours). A review of topics in Internal Medicine. For fourth year medical students only.

MED 446. ★12 (16 weeks). Student Internship for students in Phase III only. Dr. G. Molnar and staff.

124.12.2 ELECTIVES

MED 447. ★0 (four weeks). An elective program in Medicine and its subspecialties is offered for students in Phase III.

124.12.3 GRADUATE COURSES

MED 501. *Clinical Pulmonary Physiology.* ★3 (Second Term, 2-0-0). Basic and clinical lectures on: Lung Structure; Pulmonary Blood Flow; Airflow; Gaseous Diffusion; Ventilation/Perfusion Matching; Control of Ventilation; Oxygen Transport; Lung Defense; Mucociliary Transport; ARDS; Asthma; Exercise; Lung Growth; Surfactant; Lung Metabolism; Pulmonary Function Testing. Prerequisite: General courses in Physiology, Physics and Biochemistry or consent of the Department.

124.12.4 GRADUATE TRAINING

Complete residency training programs are offered in Internal Medicine and in the subspecialties of Cardiology, Gastro-enterology, Nephrology, Neurology, Pulmonary Disease, Rheumatology, Infectious Diseases, Oncology, and Endocrinology by the appropriate Divisions of the Department of Medicine. In the course of these programs, residents complete an appropriate period of training in internal medicine (two or three years depending on the subspecialty involved) followed by two years of advanced experience in the specialty concerned. Opportunities for both clinically orientated and basic research are made available during these latter two years. All programs are designed to meet the requirements of the Royal College of Physicians and Surgeons of Canada and in the course of the programs, which cover a minimum of four years, residents pass through:

	Weeks
MED 541 First Year Medicine	52
MED 542 Second Year Medicine	52
MED 543 Third Year Medicine or Subspecialty	52
MED 544 Fourth Year Medicine or Subspecialty	52

and are assessed before promotion from year to year. Those electing a research experience as part of their programs may register with the Faculty of Graduate Studies and Research in a program leading to the M.Sc. in Experimental Medicine. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.13 Obstetrics and Gynaecology

124.13.1 UNDERGRADUATE COURSES

OB GY 431. *Obstetrics and Gynaecology.* ★3 (80 hours). An introduction to Obstetrics and Gynaecology. Dr. R. P. Beck and staff.

OB GY 446. ★6 (8 weeks). Student internship for students in Phase III only. Dr. R. P. Beck and staff.

OB GY 447. ★0 (4 weeks). Supervised clinical experience in Obstetrics and Gynaecology in affiliated hospitals.

124.13.2 GRADUATE TRAINING

A complete residency program is offered in Obstetrics and Gynaecology by the Department of Obstetrics and Gynaecology and the affiliated hospitals including two years of approved training in Obstetrics and Gynaecology and options in the same and related disciplines to a total of two further years. In the course of this program which covers a minimum of four years, residents pass through:

	Weeks
OB GY 541 First Year Obstetrics and Gynaecology	52
OB GY 542 Second Year Obstetrics and Gynaecology	52
OB GY 543 Third Year Obstetrics and Gynaecology	52
OB GY 544 Fourth Year Obstetrics and Gynaecology	52

and are assessed before promotion from year to year of the program by on-the-job assessment and three formal examinations during the year. Every Wednesday afternoon is devoted to formal resident education (4 hours) with visiting professors, rounds and seminars. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.14 Ophthalmology

124.14.1 UNDERGRADUATE COURSES

Ophthalmology is included in Medicine 421, Medicine 446 and Surgery 446.

124.14.2 ELECTIVES

OPHTH 447. ★0 (2 weeks). Supervised clinical experience in Ophthalmology in affiliated hospitals. Available for Phase II students only.

124.14.3 GRADUATE TRAINING

The Department of Ophthalmology offers a graduate training program which fulfills the requirements for experience in ophthalmology of the Royal College of Physicians and Surgeons of Canada. For Residents requiring four years of training a first year rotation through medical specialties related to ophthalmology is available, followed by three years of ophthalmic training. For Residents requiring only three years of training a straight three year ophthalmic programme is provided. Two residency places are available in each of the four years. Residents pass through:

	Weeks
OPHTH 541 Pre-ophthalmology Rotation in Medicine	52
AND / OR	
OPHTH 542 First Year Ophthalmology	52
OPHTH 543 Second Year Ophthalmology	52
OPHTH 544 Third Year Ophthalmology	52

and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.15 Paediatrics

124.15.1 UNDERGRADUATE COURSES

PAED 446. ★6 (8 weeks). Student internship for students in Phase III only. Dr. E. E. McCoy and staff.

124.15.2 ELECTIVES

PAED 447. ★0 (4 weeks). Supervised clinical experience in Paediatrics in affiliated hospitals. Available for Phase III students only.

124.15.3 GRADUATE TRAINING

A complete residency program is offered in Paediatrics by the Department of Paediatrics using affiliated hospitals and other child care facilities in Edmonton. During the course of this program, residents complete three years of basic training in child health and disease, followed by one further year of intensive training. Opportunities for basic and applied research are available. The four year program is designed to meet the requirements of the Royal College of Physicians and Surgeons of Canada for certification in Paediatrics, and residents pass through:

	Weeks
PAED 541 First Year Paediatrics	52
PAED 542 Second Year Paediatrics	52
PAED 543 Third Year Paediatrics or sub-specialty	52
PAED 544 Fourth Year Paediatrics or sub-specialty	52

and are assessed before promotion each year. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.16 Pathology

124.16.1 UNDERGRADUATE COURSES

PATH 231. *Introduction to Histopathology.* ★3 (First Term, 3-0-3). This course will deal with the structure of the cell, elementary histopathological processes and their appearances in tissue sections. The course content will include the theory and practice of light microscopy and the principles of electron microscopy. Students will be expected to acquire a detailed knowledge of the theory and application of the histological and histochemical techniques used to demonstrate the diagnostic features of disease processes. Studies will include the nature of malignant disease, including its application to exfoliative and aspiration cytology.

PATH 291. *Introduction to Laboratory Medicine.* ★3 (Second Term, 3-0-2). Designed for first year students in the Medical Laboratory Science program. The course will introduce the students to those aspects unique to clinical laboratories including safety, instrumentation, medical terminology and quality assurance applied to reagents and methodology. Where appropriate, demonstrations of techniques and equipment will be included in laboratory sessions.

CL PA 367. *Hematology.* ★6 (3-0-6). Lectures: the use and interpretation of laboratory methods as diagnostic aids. Laboratory: exercises to develop a high degree of accuracy and reasonable speed in hematological and other clinical pathological procedures used in modern hospital laboratories. Prerequisite: PHYSL 261 or consent of the Department. Corequisite: PATH 231.

CLBIO 369. *Clinical Biochemistry.* ★6 (3-0-3). Principles of instrumentation; quality control; clinical chemistry of blood and urine, gastric, kidney, and liver function tests; disturbances of acid-base, electrolyte, and mineral metabolism. Emphasis on critical appraisal of biochemistry methods as applied to the study of disease. Prerequisites: CHEM 200 or 202 and 250.

PATH 400. *Medical Laboratory Science I.* ★24 (52 weeks). A year spent in rotation in the following hospital departments: bacteriology, clinical chemistry, hematology, blood banking, and histology. Lectures, tutorials, weekly conferences, and semi-monthly seminars, followed by a comprehensive theoretical and practical examination.

PATH 401. *Medical Laboratory Science II.* ★6 (3-0-6). Lectures, seminars, and laboratory exercises on the approach and method of investigation of selected medical laboratory problems; laboratory planning and administration; the use of special equipment and techniques.

CLBIO 408. *Clinical Biochemistry.* ★3 (Second Term, 3-0-0). Advanced lectures on special topics, including: lactic acidosis, gluconeogenesis, ethanol metabolism, cyclic AMP, prostaglandins, clinical enzymology, inborn errors of metabolism, purine metabolism, aging. Prerequisite: BIOCH 300, 372, or 400.

PATH 411. *General Pathology.* ★2. Twenty lectures on the pathological reactions of human tissues and four 2 hour Laboratory periods.

PATH 421. *Special Pathology.* ★3. Forty-two lectures on the special pathology of human disease and twelve 2 hour Laboratory periods.

PATH 422. *General Pathology.* ★3 (First Term, 46 hours). Lectures on the principles of pathology, laboratory instruction in histo-pathology and an introduction to the functions of a pathology laboratory in a hospital.

PATH 441. *Clinicopathologic Studies.* ★1. Fifteen lectures on selected aspects of human disease emphasizing the application of anatomical pathology to clinical medicine.

124.16.2 ELECTIVES

PATH 447. ★0 (8 weeks). Supervised clinical experience in pathology in affiliated hospitals and laboratories. Available for Phase III students only.

124.16.3 GRADUATE COURSES

PATH 501. *Cellular and Tissue Structure and General Mechanisms of Disease.* ★6 (4-0-1). Advanced seminars on the Cell Cycle; Instrumentation and Techniques of Electron Microscopy; Pathobiology of Lysosomes, Mitochondria and Endoplasmic Reticulum; Humoral and Cellular Mechanisms in Immunology; Hypersensitivity; Autoimmune Diseases; Immunology of Cancer; Immunodeficiency Diseases; Transplantation Immunity; Evaluation of Renal Function; Glomerular Disease; Renal Vascular Diseases; Renal Transplantation; Renal Tumors; Hormonal Mammary Dysplasia; Mammary Tumors; Liver Function Tests; Viral Hepatitis; Cholestasis; Alcoholic Liver Disease; Acute and Chronic Hepatitis; Neoplasms of Liver; Fetal and Neonatal Pathology; Diseases of the Placenta. To be offered in alternate years.

PATH 502. *Cellular and Tissue Structure and General Mechanisms of Disease.* ★6 (4-0-1). Advanced seminars on Collagen Structure and Function; Blood Coagulation; Bleeding Disorders; Thrombosis and Embolism; Shock; Atherosclerosis; Amyloidosis; Glycogen Storage Diseases; Diabetes Mellitus; Parathyroid Pathology and Metabolic Bone Disease; Disorders of Melanin Metabolism; Nevi and Melanomas; Pathology of Skeletal Muscle; Pathology of the Small Intestine; Pathology of the Colon; Pulmonary Pathology; Pathology of Lymphoid Organs; Parasitology. Prerequisite: Pathology 501, or consent of the Department. To be offered in alternate years.

PATH 503. *Advanced Haematology.* ★3 (Second Term, 3-0-0).

PATH 504. *Seminars in General Pathology.* ★1 (either term, 1-0-0).

PATH 505. *Fundamentals of Histochemistry.* ★2 (First Term, 2-0-0).

PATH 506. *Medical Biochemistry.* ★6 (2-0-0). Advanced seminars on instrumentation, Hepatic, Renal, Pancreatic Endocrine and Exocrine Functions; Enzymology and Diagnostic Applications of Enzyme Determinations, Hyperlipidaemis. Prerequisite: Undergraduate courses in Medical Physiology and Biochemistry. To be offered in alternate years.

PATH 507. *Medical Biochemistry.* ★6 (2-0-0). Advanced seminars on Metabolic Disorders of Carbohydrates and Amino Acids, Nutritional Deficiencies and Malnutrition, Endocrine Functions, Organization and Quality Control in Medical Biochemistry. Prerequisite: Pathology 506 or consent of the Department. To be offered in alternate years.

PATH 508. *Haematology Special Project.* ★3 (Second Term, 0-0-3).

PATH 509. *Clinical Chemistry Special Project.* ★3 (Second Term, 0-0-3).

PATH 510. *Cryobiology.* ★6 (2-1s-0). Scope and historical development. Current theories of interactions of living cells with physical and chemical alterations in the environment during cooling to and warming from low temperatures. Freeze-thaw responses of enzymes, single cells and organized tissues. Preservation of spermatozoa for artificial insemination, red blood cells for transfusion and embryos. Approaches to organ preservation. Cooling of whole animals including humans. Applications to cryosurgery, frostbite, and food preservation.

PATH 610. *Subcellular Morphology.* ★2 (Second Term, 2-0-0).

NOTE: PATH 501 and 502 are intended for Residents in Pathology, Medical Microbiology, Surgery, or Medicine. There are currently no other graduate courses available on *human diagnostic pathology*. PATH 506 and 507 are intended for Residents in Pathology, Medical Microbiology, Surgery, or Medicine, and graduate students from the Medical Laboratory Science Program. There are currently no other graduate courses available on *medical biochemistry*.

NOTE: Not all graduate courses are offered every year. The Chairman of the Department should be consulted regarding the availability of graduate courses in any academic session.

124.16.4 GRADUATE TRAINING

Complete residency programs are offered in the various aspects of Laboratory Medicine by the Departments of Pathology and Medical Bacteriology and the affiliated hospitals. Programs may be taken in the following branches of Laboratory Medicine: General Pathology, Anatomical Pathology, Haematological Pathology, Medical Biochemistry, Medical Microbiology and Neuropathology. In the course of these programs, which each cover a minimum of four years, residents pass through:

	Weeks
PATH 541 First Year Pathology	52
PATH 542 Second Year Pathology	52
PATH 543 Third Year Pathology	52
PATH 544 Fourth Year Pathology	52

and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.17 Pharmacology

124.17.1 UNDERGRADUATE COURSES

PMCOL 222. *Drugs, Medicine and Man.* ★3 (either term, 3-0-0). This course is designed to acquaint the student with limited scientific background with many aspects of drug use and abuse in our society. Some of the topics to be covered will include mind-altering drugs, treatment of pain, herbal and folk medicine, antibiotics, nerve gases and insecticides, food additives and vitamins, over-the-counter drugs, poisons, and toxins, and health quackery. Prerequisite: None.

PMCOL 411. *Principles of Pharmacology.* ★4 (72 hours). Lectures and laboratory exercises are used to illustrate the basic principles of pharmacology. Emphasis is placed on the pharmacology of drugs affecting the autonomic nervous system and on those agents used for antimicrobial therapy. The course is offered only to medical students during Phase I of their program.

PMCOL 421. *Basic Principles of Therapeutics and Toxicology.* ★3 (2-0-0). Lectures and panel discussions are used to illustrate the principles of Toxicology and the rational use of drugs in the treatment of common diseases. The course is offered only to medical students during Phase II of their program.

PMCOL 431. *General Pharmacology.* ★6 (3-0-3). Available to students in the Faculty of Pharmacy only.

PMCOL 432. *General Pharmacology.* ★6 (3-0-3). Available for graduate and science students. Prerequisites or corequisites: BIOCH 300 and PHYSL 410 and consent of the Department.

PMCOL 435. *Experimental Procedures in Pharmacology.* ★3 (either term, 0-1s-6). A laboratory course intended primarily for honours pharmacology students and advanced students in related disciplines. Using both intact and isolated tissue preparations students will perform a variety of experiments of types commonly encountered in applied pharmacology and in pharmacological research. The laboratory sessions will include didactic material and instruction in: animal handling, humane methods of euthanasia, anesthesia, body fluid sampling, administration of drugs and elementary surgical and dissection techniques required in the experiments. Prerequisite: Consent of the Department. Previous instruction in mammalian physiology is recommended.

PMCOL 436. *Analytical Techniques in Pharmacology.* ★3 (either term, 0-0-6). Emphasis will be on the use of modern techniques as they are applied to pharmacological problems. The course will include practical instruction and experiences in such techniques as spectrophotometry, spectrofluorimetry, chromatography, subcellular fractionation, gel electrophoresis, electron microscopy and several others. Prerequisite: Consent of the Department.

PMCOL 470. *General Pharmacology.* ★6 (104 hours). Available to students in the Faculty of Dentistry only.

PMCOL 498. *Pharmacology Research Program.* ★6 (0-0-6). Available to fourth year honors students only. Prerequisite: Consent of the Department.

PMCOL 499. *Pharmacology Honors Seminar.* ★0 (0-1s-0). Available to fourth year honors students only. Prerequisite: Consent of the Department.

D HYG 305. *General Pharmacology.* ★2 (First Term, 2-0-0). Available to dental hygiene students only.

124.17.2 ELECTIVES

PMCOL 447. ★0 (4 weeks). Elective program in Pharmacology offered only to Phase III students.

124.17.3 SPECIALIZATION / HONORS COURSES

The Pharmacology courses which are offered as part of the B.Sc. (Specialization / Honors) program, are also listed in the Faculty of Arts and Science Calendar.

124.17.4 GRADUATE COURSES

NOTE: Not all graduate courses are offered every year. The Chairman of the Department should be consulted regarding the prerequisites for and availability of graduate courses in any academic session.

PMCOL 501. *Pharmacology Tutorial, Research and Reading Course.* ★3 (First Term, 3-0-0).

PMCOL 502. *Pharmacology Tutorial, Research and Reading Course.* ★3 (Second Term, 3-0-0).

PMCOL 508. *Molecular Pharmacology.* ★3 (either term, 3-0-0).

PMCOL 509. *Neuropharmacology.* ★3 (either term, 3-0-0).

PMCOL 510. *Advanced Topics.* ★3 (First Term, 3-0-0).

PMCOL 511. *Advanced Topics.* ★3 (Second Term, 3-0-0).

PMCOL 555. *Introduction to Clinical Pharmacology for the Anaesthetist.* ★3 (First Term, 2-0-0). This course consists

lecture/tutorial sessions on special topics in pharmacology of particular interest to the anaesthetist. These include pharmacokinetics, pharmacodynamics, drug interactions, local and general anaesthetics, analgesics, vasodilators, antihypertensive drugs and neuromuscular blocking agents. Prerequisite: Resident in Anaesthesia.

PMCOL 600. *Seminar in Pharmacology.* ★0 (0-1s-0).

PMCOL 601. *The Actions of Drugs on Membranes.* ★3 (either term, 3-0-0).

PMCOL 602. *Clinical Pharmacology.* ★3 (either term, 2-0-0).

124.18 Physiology

124.18.1 UNDERGRADUATE COURSES

PHYSL 261. *Elementary Physiology.* ★6 (3-0-0; 3-0-3). Available only to students in the Faculties of Rehabilitation Medicine, Nursing and the Medical Laboratory Science program in the Faculty of Medicine.

PHYSL 262. *Elementary Physiology.* ★6 (3-0-0). Available only to students in the Faculty of Rehabilitation Medicine and the Faculty of Nursing.

PHYSL 403. *Neurophysiology.* ★3 (First Term, 3-0-0). An advanced course in neurophysiology aimed at giving students a thorough understanding of the integrative mechanisms in the visual and somaesthetic systems and the nervous control of movement. Prerequisites: PHYSL 410 or equivalent and consent of the instructor. Offered alternate years to PHYSL 505.

PHYSL 404. *Cardiovascular Physiology.* ★3 (Second Term, 3-0-0). The course will emphasize general concepts in human cardiovascular physiology: properties of the myocardium, hemodynamics and control of the cardiovascular system; applications in the response to exercise, hemorrhage and cardiac failure; hypertension. Prerequisites: PHYSL 410 or equivalent and consent of the instructors. Offered alternate years to PHYSL 501.

PHYSL 410. *Physiology.* ★6 (3-0-3; 3-0-0). Available for Graduate and Science students. Prerequisites: BIOL 130 or 299, CHEM 200 and 250 or 350.

PHYSL 411. *Medical Physiology.* ★6 (170 hours). Open to medical students only. Consists of a comprehensive lecture and laboratory course in mammalian and human physiology, designed to fulfill the requirements of medical students.

PHYSL 451. *Human and Oral Physiology.* ★6 (45 hours). Available to students in the Faculty of Dentistry only.

PHYSL 452. *Human Physiology.* ★6 (3-0-0; 3-0-3). Available to students in the Faculty of Pharmacy only.

124.18.2 ELECTIVES

PHYSL 447. ★0 (4 weeks). Elective program in Physiology offered only to Phase III medical students.

124.18.3 GRADUATE COURSES

PHYSL 403. *Neurophysiology.* ★3 (First Term, 3-0-0).

PHYSL 404. *Cardiovascular Physiology.* ★3 (Second Term, 3-0-0).

PHYSL 501. *Topics in Cardiovascular Physiology.* ★3 (Second Term, 3-0-0).

PHYSL 502. *Problems in Current Research.* ★3 (either term, 0-0-3). Individual study.

PHYSL 503. *Biophysics of Nerve and Muscle.* ★3 (Second Term, 3-0-0).

PHYSL 504. *Physiology of Reproduction.* ★3 (Second Term, 3-0-0).

PHYSL 505. *Topics in Neurophysiology.* ★3 (First Term, 3-0-0).

PHYSL 506. *Tutorial and Seminar Course.* ★3 (either term, 0-3s-0). Guided reading course.

PHYSL 600. *Physiology Seminar.* ★0 (0-1s-0).

124.19 Psychiatry

124.19.1 UNDERGRADUATE COURSES

PSYCI 421. *Introduction to Psychiatry.* ★2 (30 hours). The course consists of 30 one hour lectures outlining the major syndromes and conditions in clinical psychiatry. Co-ordinator Dr. G. Hopkinson

PSYCI 446. ★6 (8 weeks). Student internship for students in Phase III only. Dr. G. Hopkinson and staff.

124.19.2 ELECTIVES

PSYCI 447. ★0 (4 weeks). Supervised reading program and experience in clinical psychiatry. Available for Phase III students only.

124.19.3 GRADUATE TRAINING

A complete residency program in Psychiatry, meeting the requirements of the Royal College of Physicians of Canada, is offered by the Department of Psychiatry and utilizes the University Hospital and other affiliated hospitals, clinics and services. During the program, residents complete two years of approved university-based training in Psychiatry and in addition, two further years of related clinical, basic science, or research work. During the four years, residents pass through:

	Weeks
PSYCI 541 First Year Psychiatry	52
PSYCI 542 Second Year Psychiatry	52
PSYCI 543 Third Year Psychiatry	52
PSYCI 544 Fourth Year Psychiatry	52

and are assessed periodically. Residents attend a series of seminars of approximately 400 hours covering clinical psychiatry, basic sciences and related topics. All residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine. Co-ordinator Dr. R. C. Bland.

124.20 Radiology

124.20.1 UNDERGRADUATE COURSES

Undergraduate training in radiology is included in Anatomy 411, Medicine 421 and Neurological Sciences 421.

124.20.2 ELECTIVES

RADDI 447. ★0 (4 weeks). Supervised experience in Diagnostic Radiology and related areas. Available for Phase III students only.

RADTH 447. ★0 (4 weeks). Elective in Radiation Oncology with emphasis on clinical and statistical aspects according to student interests. Restricted to Phase III students.

124.20.3 GRADUATE TRAINING

Diagnostic Radiology

A complete residency program is offered in Diagnostic Radiology by the Department of Radiology and the affiliated hospitals. In the course of this program, residents complete two and one-half years of approved training in Diagnostic Radiology and eighteen months in a variety of options in related disciplines. In the course of this program, which covers a minimum of four years, residents pass through:

	Weeks
RADDI 541 First Year Diagnostic Radiology	52
RADDI 542 Second Year Diagnostic Radiology	52
RADDI 543 Third Year Diagnostic Radiology	52
RADDI 544 Fourth Year Diagnostic Radiology	52

and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

Nuclear Medicine

A complete residency program is offered in nuclear medicine by the Departments of Radiology and Pathology at the University of Alberta Hospital, Department of Nuclear Medicine at the Cross Cancer Institute and Department of Radiology at the Royal Alexander Hospital, Edmonton. In the course of this program, residents complete two years of approved training in nuclear medicine, one year of approved training in other imaging modalities and one year of approved training in a variety of options in related disciplines. In the course of this program, taking a minimum of four years, residents pass through:

	Weeks
RADNM 541 First Year Nuclear Medicine	52
RADNM 542 Second Year Nuclear Medicine	52
RADNM 543 Third Year Nuclear Medicine	52
RADNM 544 Fourth Year Nuclear Medicine	52

and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

Radiation Oncology

A complete residency program is offered in Radiation Oncology by the Department of Radiology and the affiliated hospitals. In the course of this program, residents complete three years of approved training in Radiation Oncology and one year in related disciplines. In the course of this program, which covers a minimum of four years, residents pass through:

	Weeks
RADTH 541 First Year Radiation Oncology	52
RADTH 542 Second Year Radiation Oncology	52
RADTH 543 Third Year Radiation Oncology	52
RADTH 544 Fourth Year Radiation Oncology	52

and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.21 Surgery and Clinical Surgery

124.21.1 UNDERGRADUATE COURSES

SURG 431. ★2 (56 hours). A series of lectures and clinical sessions on Orthopaedic Surgery. Available for Phase III A medical students only.

SURG 446. ★9 (12 weeks). Student internship for students in Phase III only. Dr. H. T. G. Williams and staff.

124.21.2 ELECTIVES

SURG 447. ★0 (4 weeks). Supervised experience in Surgery and its subspecialties. Available for Phase III students only.

124.21.3 GRADUATE COURSES

SURG 500. *Experimental Surgery.* ★3 (Second Term, 0-0-3). Designed to introduce M.Sc. and Ph.D. candidates to basic experimental surgical procedures. Course will include: (a) surgical anatomy of laboratory animals, (b) basic surgical methods, (c) selected methods in experimental surgery. Prerequisite: Consent of the Department.

SURG 510. *Neurophysiology.* ★3 (Second Term, 3-0-0). Growth, degeneration, and regeneration in the nervous system. Prerequisite: Consent of the Department.

SURG 520. *Directed Reading in Biomedical Research.* ★3 (First Term, 3-0-0). Reading and study of problems and techniques in the biological sciences important to surgical research under the direction of one or more faculty members.

SURG 530. *Directed Reading in Biology and Medicine.* ★3 (either term, 3-0-0). Reading and study of topics in biomedical research of relevance to the student's interest under direction of one or more faculty members.

SURG 600. *Research Seminar.* ★2 (0-1s-0). A weekly series of seminars on current research is held during both terms. Graduate students must attend and make two presentations in this series.

124.21.4 GRADUATE TRAINING

Complete residency training programs are offered in General Surgery, Neurosurgery, Plastic Surgery, Orthopaedic Surgery, Otolaryngology, Thoracic and Cardiovascular Surgery, and Urology, by the corresponding Divisions of the Department of Surgery. Clinical experience is provided in the affiliated hospitals. All programs are designed to fulfill the requirements of the Royal College of Physicians and Surgeons of Canada and include appropriate experience in related surgical and, on occasion, non-surgical disciplines. The educational content of the clinical program is enriched through the provision of seminar courses designed specifically to meet the needs of trainees at various levels of the program, in addition to usual ward rounds and conferences conducted within the Department. Excellent facilities are available for basic and clinical surgical research, which is an integral part of the program for most subspecialties. Trainees electing to prepare for a graduate degree may register in the Faculty of Graduate Studies and Research in programs leading to the M.Sc. and Ph.D. in Experimental Surgery.

During the period of graduate specialty training, which covers a minimum of four years, residents pass through:

	Weeks
SURG 541 First Year Surgery	52
SURG 542 Second Year Surgery	52
SURG 543 Third Year Surgery	52
SURG 544 Fourth Year Surgery	52

and in the case of some subspecialty programs where a minimum of five years is required:

SURG 545 Fifth Year Surgery	52

They are assessed before promotion from year to year of the program and during the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.22 Courses Offered by Other Faculties

The courses listed below are required in first year of the Medical Laboratory Science Program.

BIOL 297. *Heredity.* ★3 (either term, 3-0-3). The cellular and molecular basis of the transmission of hereditary characteristics. Mendelian inheritance and its cytological basis; microbial genetics; cytoplasmic inheritance, linkage and genetic mapping; DNA as genetic material; gene action; the genetic code. Prerequisite: Biology 30.

CHEM 200. *Introductory University Chemistry.* ★6 (3-1s-3). Elements of bonding and structure; chemical and phase equilibria; solution chemistry; thermochemistry; electrochemistry and chemical kinetics, with applications to inorganic chemistry. Prerequisite: CHEM 100, or Chemistry 30, or equivalent.

CHEM 250. *Organic Chemistry.* ★6 (3-0-3). The study of functional groups found in the main classes of organic compounds and their molecular conformation and stereochemistry in such a way that the chemistry of some molecules important to biology (eg., amino acids, proteins, medicinals, pesticides, fats, sugars, carbohydrates, nucleic acids) as well as some molecules found in every day life (soaps, detergents, fibers, perfumes, polymers, etc.) can be discussed. Prerequisite: CHEM 100, or Chemistry 30 or equivalent. Note: Students with credit in CHEM 200 or 202 normally will proceed to CHEM 350. Such students may enroll in CHEM 250 only if written consent of the Department is obtained.

Faculty of Nursing

131 INTRODUCTORY

131.1 Members of the Faculty

Professor Emeritus
R. E. McCLURE, M.P.H.

131.1.1 STAFF

Associate Professor and Acting Dean
P. A. FIELD, Ph.D.

Professor and Associate Dean
M. E. STEED, M.A.

Professors
S. M. STINSON, Ed.D.
A. E. ZELMER, Ph.D.

Associate Professors
M. BESWETHERICK, M.Sc.A. (on leave)
R. L. CAREY, Ph.D.
E. M. DAVIES, M.S.N. (on leave 1980-82)
T. DAVIS, Ph.D.
R. A. DAY, M.S.
K. A. DIER, M.Sc.
J. S. FORD, M.Sc.
B. HARRINGTON, M.N.
P. HAYES, M.H.S.A.
J. F. KIKUCHI, Ph.D.
P. KOT, M.N.

Assistant Professors
A. M. ANDERSON, M.Sc.N.
M. ANDERSON, M.N.
L. M. DAVIS, M.Ed.
I. D. FORREST, M.Ed.
J. LARSEN, M.Ed.
L. P. MULDER, M.Ed.
A. M. PAGLIARO, M.S.N.
L. I. REUTTER, M.S.
S. L. RICHARDSON, M.Ed.
G. D. TANNAHILL, M.A.
M. A. WALES, B.Sc.N.

Lecturers
J. A. BOMAN, B.Sc.N.
P. L. BROWN, B.Sc.N.
E. J. LIGOWSKI, B.Sc.N.
J. E. SMITH, B.Sc.N.

Associate Academic Staff
R. ARCAND, M.N.
K. MILLS, M.H.S.A.

Sessional Lecturers
I. E. CAMPBELL, B.Sc.N.
D. C. DAVIDSON, B.Sc.N.
G. FYSH, B.Sc.N.
M. KENWELL, B.Sc.N.
C. D. LITTLE, B.Sc.N.
C. L. PARK, B.N.
H. K. WILSON, M.Sc.N.

Administrative Officer
S. B. SHEPPARD

131.1.2 ADDITIONAL MEMBERS OF THE FACULTY COUNCIL

President and Vice-Chancellor
M. HOROWITZ, Ed.D.

Dean of the Faculty of Medicine
D. F. CAMERON, M.D., F.R.C.P.(C)., F.A.C.A.

Professor
J. N. CAMPBELL, Ph.D. (Microbiology)

Associate Professor
C. R. YEWCHUK, Ph.D. (Educational Psychology)

Assistant Professor
H. NORTHCOTT, Ph.D. (Sociology)

President, University Hospital
B. SNELL, F.R.C.P., D.P.H., F.A.C.H.A.

Vice-President (Nursing), University Hospital
L. A. YTTERBERG, B.N.

Director of Nursing, Royal Alexandra Hospital
C. LENNIE, M.N.

Representative, Alberta Association of Registered Nurses
A. R. MacKINNON, M.N.

Registrar of the University
W. A. BLANCHARD, Ph.D.

Library Representative
P. RUSSELL, B.L.S.

131.2 General Information

131.2.1 HISTORICAL NOTE

The School of Nursing was established under the Faculty of Medicine on September 28, 1923. At that time two programs were developed: a five-year program leading to the degree Bachelor of Science in Nursing, and a three-year program leading to the Diploma in Nursing.

In 1954 at the request of the University Hospital, the diploma program was transferred from the University and placed under the jurisdiction of the University Hospital Board.

Although many revisions in the five-year degree program had taken place since its inception, the clinical portion of the program continued to be offered through affiliation with the University Hospital until 1966 when the four-year integrated program under the direct control of The University of Alberta was implemented.

In 1966, after *The Universities Act* was enacted, the School of Nursing, by action of the General Faculty Council, became an autonomous school.

Until 1970 the School of Nursing offered one-year programs leading to a Diploma in Public Health Nursing and a Diploma in Teaching and Supervision. These pro-

grams were discontinued and replaced by a revised degree program for Registered Nurses.

Since 1943, a five-month program leading to the Certificate in Advanced Practical Obstetrics has been offered. In conjunction with the Faculty of Medicine, a Nurse Practitioner Program funded by the Federal Government, has been offered since 1971.

A Masters in Nursing Program, with the specialty of Nursing in Acute Illness, commenced in 1975.

In 1976, the School was given Faculty status.

131.2.2 AIMS AND OBJECTIVES

The general aim of the Faculty of Nursing is to prepare individuals who possess those competencies and skills to practice professional nursing in a variety of settings to assume dependent, independent and interdependent roles within a multidisciplinary team.

The Faculty's specific objectives are to assist the student in developing the ability to:

(1) Synthesize and apply knowledge of concepts and theories from the physical, social, behavioral sciences, humanities, and nursing in the practice of nursing.

(2) Select and/or utilize supportive technologies in the practice of nursing.

(3) Interact purposefully with a client by utilizing the nursing process.

(4) Provide leadership in promoting and maintaining the health of the client.

(5) Understand the role of the professional nurse in relation to the roles of other members of the multidisciplinary team and respect their reciprocal contributions.

(6) Demonstrate an awareness of societal changes and how they influence professional nursing and the health care system.

(7) Apply the basic principles of research to improve nursing practice, through:

(a) promoting application of findings;

(b) encouraging nursing research efforts;

(c) generating research ideas.

(8) Demonstrate self-directiveness in professional and personal growth.

131.2.3 PROGRAMS FOR BACCALAUREATE DEGREE

(1) *Basic Four Year Program.* The aims of the Basic Four Year Program leading to the degree Bachelor of Science in Nursing are: (a) to prepare men and women to practice nursing in community health agencies, and to assume leadership positions — team leader, assistant head nurse, assistant nursing instructor and staff public health nurse; (b) to provide a foundation for continuing professional growth and for graduate study in nursing.

(2) *Post-R.N. Program.* The aim of the program is to prepare students for positions in community health agencies such as hospitals, voluntary and official health agencies, and schools of nursing. The students will be granted five years from the time of admission to the Nursing courses to complete requirements for the degree. One academic year as a full-time intramural student at The University of Alberta Faculty of Nursing is required.

131.2.4 PROGRAMS FOR MASTER'S DEGREES

(1) *Master's in Nursing Program.* The primary aim of the program is to prepare advanced level clinical practitioners in *Nursing in Acute Illness.* Students are encouraged to pursue a second focus as well (e.g., teaching, research, administration and/or a second discipline such as physiology, anthropology, etc.) The program is two academic years in length; a thesis is required of all students. First preference will be given to nurses who have experience in nursing acutely ill patients and who wish to study on a full-time basis. Nurses holding baccalaureate degrees may obtain application forms by writing the Dean, Faculty of Graduate Studies and Research, The University of Alberta. See § 133.4 below for further details.

(2) *Master's in Health Services Administration Program.* The Division of Health Services Administration of the Faculty of Graduate Studies and Research, offers the degree of Master of Health Services Administration with areas of concentration which include hospital administration and *nursing service administration.* Within each of these areas of concentration, students select one of two foci: Research and Planning, or Administration. Nurses holding baccalaureate degrees and who are interested in majoring in nursing service administration should direct their enquiries to the Dean, Faculty of Graduate Studies and Research, The University of Alberta.

(3) *Other Master's Programs.* Nurses seeking degrees in other disciplines (e.g., Education, Family Studies, Community Development) are encouraged to plan programs which include graduate level courses in Nursing and in Health Services Administration. For information contact Graduate Program Coordinator, Faculty of Nursing and Director, Division of Health Services Administration respectively.

131.2.5 CERTIFICATE PROGRAMS

Program leading to the Certificate in Advanced Practical Obstetrics. A program of instruction and clinical experience for Registered Nurses interested in preparing for positions of responsibility in obstetrical nursing.

Successful completion of this program, or of NURS 451 and 453, will entitle the student to credit for either a full senior option; or NURS 485 and a half senior option in the Post R.N. B.Sc.N. program, subject to the 5 year limit described in 132.2.2(8), i.e., the B.Sc.N. degree must be completed within 5 years of registration in the A.P.O. courses.

Program leading to a Nurse Practitioner Certificate. This is a program of concurrent teaching, clinical and laboratory experience for registered nurses interested in preparing for challenging positions in isolated or semi-isolated communities.

Successful completion of this program at The University of Alberta will entitle the student to credit for NURS 468 in the Post R.N. B.Sc.N. program, subject to the 5 year limit described in 132.2.2(8), i.e., the B.Sc.N. degree must be completed within 5 years of registration in the Nurse Practitioner Certificate program. Presently the enrollment is limited to employees of Health and Welfare Canada as it is entirely funded by the Federal Government.

131.2.6 SPECIAL STUDENTS

Special Students are those who have been permitted to register in one or more courses, but not officially for credit toward a degree or diploma at this or any other institution. Such students may subsequently apply for admission to a degree program and, upon admission, may receive credit in that program for courses successfully completed as a Special Student.

132.1 Admission
